PROVINCES SAVE MONEY.

Ontario and Quebec Secure a Reduction of Interest on Debt.

Toronto, Aug. 27.—The Board of Arbitrators have handed out their decision regarding Canada's claim that the $1,815,848 debt of Ontario and Quebec to the Dominion should be lessened by the absorption from it of the amount of the trust funds now belonging to Ontario and Quebec Governments, and held by the Federal at 5 per cent. interest. The judgment is against the Dominion, and by it the provinces will be saved $18,158.84, or 1 per cent.

Molybdinite in Canada.

Toronto, Aug. 27.—The Bureau of Mines has received a letter from the Superintendent of Mines in Maine, U. S., in which enquiries are made about molybdenum, a metal which is almost as valuable as gold, and sells for $18 per ounce. The reply that has been sent says that the mineral exists in Ontario, and it is possible that the American Molybdenum Company will work the deposits in the Province. Molybdenum is used in hardening steel for armor plates and quick-firing guns, and is found in considerable quantities in Frontenac County.

The True Tragedy of Life

is ill-health, disappointed ambitions, usefulness destroyed. Pathetic! nay, tragic. Poor blood, weak nerves, a tired brain. Is there hope? Yes! Because there is a cure.

Ferrozone Tablets make blood; not blue blood, but the fluid that strengthens the whole body. Ferrozone does this quickly by improving digestion, stimulating assimulation and by imparting health and tone to the whole system. Ormond & Walsh, druggists will tell you a great deal more about Ferrozone. Ask them to tell you of the wonderful curative properties of Ferrozone Tablets.

MR. ROBLIN'S PARTNER.

D. W. Mills in Court Charged With Stealing $16,000.

Winnipeg, Aug. 27.—At the Police Court yesterday the case of R. P. Roblin v. D. W. Mills was called. The defendant is accused of stealing the sum of $16,000 from Premier Roblin, and on this charge was arrested near North Portal, as he was about to cross the border. A remand of one week was granted. The accused made application for bail, but this was refused.

From particulars gleaned it appears that Mills had been in partnership with Roblin in the cattle business since last fall. Mills managed the business, while Roblin supplied the funds, and, generally speaking, financed the operations. The profits were divided, but the stock always belonged to Roblin.

Suspicion was aroused against Mills when it was found that between two and three thousand dollars' worth of cattle had been sold, of which no account had been given Roblin's book-keeper. This occurred on the 14th inst. Two movements of the accused since that date have been traced, and he was found to have gone west to Calgary, where there were also a number of cattle belonging to Roblin. These, defendant is accused of selling and attempting to decamp with the spoils.

When found Mills had less than $3,000 on his person, and the balance has not been located. Mills has been in Manitoba for the past 20 years, during which time he has been almost entirely engaged in the cattle business.

WHAT IT COST THE SULTAN.

Indemnity Payable to the Quays Company for Interference.

Constantinople, Aug. 47.—The amount of the indemnity which the Sultan agrees to pay the Quays Company for interference with its rights is 700,000 francs. The Sultan will also pay 600,000 francs to a Frenchman on account of the seizing of his lands in Albania. The Quay's Company renounces for a year the clause in its concession regarding the transfer of the Quays to Turkey, only, it is believed, to save appearances for the Sultan.

Takes a Holiday.

London, Aug. 27.—The despatch from Constantinople, announcing that the French Ambassador, M. Constans, left there yesterday, is not understood either in London or Paris, though it is not believed that it means a further difference between France and Turkey. The supposition is that M. Constans is taking a holiday.

Kidney Irritability.

Causing Frequent Rising at Night, is Completely Cured by Dr. Pitcher's Backache Kidney Tablets

Many people are troubled with an irritable condition of the kidneys and bladder, that compels frequent attention during the day and frequent rising at night.

For such an annoying and serious kidney trouble, there is no remedy so beneficial as the modern kidney medicine, Dr. Pitcher's Backache Kidney Tablets. They allay all irritability, regulate the kidney action and permit undisturbed rest at night.

Mr. Isaac Hutel, an old and highly respected resident of Mount Forest, Ont., has this to say:—"For some ten years past, owing to hard work in my younger days on the farm, I have had a constant pain in my back that ran at times up into my shoulders. The kidneys bothered me very much and my liver somewhat also. I tried a good many remedies with only indifferent success, until I got a bottle of Dr. Pitcher's Backache Kidney Tablets at Yeoman's drug store in this town. The result of using these Tablets has been beyond my expectations. They stopped the pain and soreness in the back and allayed the kidney irritation, so that I can now rest well at night. They have also regulated my bowels and stirred up my sluggish liver, so that I am only too pleased to give this testimonial as to the good the remedy accomplished in my case."

Dr. Pitcher's Backache Kidney Tablets are 50 cents a box at all druggists. The Dr. Pitcher Co., Toronto, Ont.

Delayed by Floods.

Pekin, Aug. 26.—Li Hung Chang to-day informed the Ministers that the bearer of the edicts necessary to the signing of the settlement protocol by the Chinese plenipotentiaries who was on his way here from Sian Fu, and expected to arrive Wednesday, had been delayed by floods, but that it was anticipated he would reach Pekin soon.

CHEESE MARKETS.

Lindsay, Ont., Aug. 26.—Victoria County Cheese Board met here to-day. Buyers present were Messrs. Fitzgerald, Flavelle and Whitten; 1700 boxes boarded, and sold at 9¼c to 9 5-16c, Mr. Flavelle taking 1150 and Mr. Whitten the balance.

Cornwall, Ont., Aug. 26.—One thousand seven hundred and eighty-seven cheese were boarded here Saturday, 1279 white and 508 colored. All sold. White at 9⅝c and colored at 9⅝c to 9 7-16c. Sales were: Lovell & Christmas 840, J. Alexander 732, Grant 160, Hodgson Bros. 45.

On a Dromedary's Back.

Warsaw, Aug. 27.—Count Tysz Kienwicz has initiated a novel plan of traveling by dromedary. He intends to ride one of these animals to Paris.

MARKET REPORTS.

Chicago Wheat Declined One Cent—Absence of Cash Demand Source of Weakness—The Latest Quotations.

Monday Evening, Aug. 26.

In Chicago to-day, September wheat declined 1c. Corn futures were weaker.

In Liverpool September wheat declined ¼d.

THE VISIBLE SUPPLY.

As compared with a week ago, the visible supply of wheat in Canada and the United States has decreased 762,000 bushels; that of corn has decreased 578,000 bushels, and that of oats has increased 968,000 bushels.

To recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 63,308,000 bushels, against 66,610,000 bushels a week ago, and 77,220,000 bushels a year ago.

Snaps in Shoes!

Here's a lot of values for those who can make use of the opportunity. The sorting over of stock singles out a number of odd lines that might as well be cleared. There's not enough of any one line to warrant us keeping them on the shelves. We know the value. It is the best. Possibly the buyer who comes with the idea of getting just what one is looking for may not see the exact thing, but will find the very best value in Shoes, and well worth wearing. No question of style, durability or material. Just odd lines to clear.

36 Pairs Men's Shoes, some heavy, some light, all nice shapes, fine materials, real snap	$1.25
30 Pairs Men's Good Shoes, lightweight leathers, shapely, neat, comfortable	$1.00
Few Pairs Men's Stout Working Boots, fine value	75c
18 Pairs Misses' and Children's Tan and Tan and Cloth Shoes, stylish goods, in many sizes	$1.00
24 Pairs Ladies' Gaiters, several sizes, very comfortable for house wear	$1.00
10 Pairs Misses' Tan and Cloth Shoes, nice new goods, merely an odd lot and all in stock	$1.25
24 Pairs Women's Button Boots, fine Black Kid, excellent value	$1.25

Better value than these cannot be had. Clearing out makes the price.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drugstore.

57TH REGIMENT.

Battalion Rifle Matches on Monday, Labour Day. Prize Lists with the Captains. 3d

A Pointer.

A pointer for duck hunters this season is that the latter does not open till September 2. The regular date for the commencement of duck hunting is September 1, but as that date this season is Sunday, which is always a close day, it is illegal to hunt duck till Monday, September 2.

Moonlight Excursion.

The second social function under the auspices of the C.D.A., will take place on Thursday evening, of this week, in the form of a moonlight excursion down the river per steamer Water Lily. The affair will, of course, be by invitation. As a band will be in attendance, and the moon full, an enjoyable time may be exed.

Market open every day at Kennedy's Meat Market, with Saturday's prices ruling. Lamb 8 to 10 cents per lb., by the quarter. We carry the choicest quality of fresh Beef in town, and guarantee satisfaction. 340 George street. 'Phone, 275.

The Ottawa Ranges.

The 34th annual matches of the Dominion Rifle Association opened yesterday morning at Rockcliffe, Ottawa, under conditions most favourable. Peterborough, or rather the 57th Regt., is represented by Privates Joe Gibson, and George Fitzgerald. In the Tyro Match Pte. Gibson made a score of 31 points, winning $4. In the Macdougall Match, Pte. Geo. Fitzgerald made 63 points, the prize attached thereto being $5.

Grown at Burleigh.

Mr. Wm. Spencley, of Burleigh Falls, this morning brought into the Examiner office some lovely specimens of apples. Several beautiful Duchess that were grown on the trees that sprung out of the rocks at Burleigh proved very toothsome to the staff. Mr. Spencley had with him a beautiful Yellow Transparent, weighing 15 oz., of which he was very proud. Considering the locality in which the fruit was grown Mr. Spencley has a splendid exhibit. He says that the American visitors were greatly pleased with the fruit and carried a quantity away.

Forged Bank Notes.

The various banks have been notified that a forged $10 note of the Dominion Bank is in circulation in Toronto, and that probably attempts will be made to pass them here. The forged notes are Series "A," and the one now in possession of the bank is marked No. 00365. It is signed Garratt G. Cassels. The circular received from Toronto describes the counterfeit as the poorest ever made. It is evidently a photographic reproduction of the series of new notes issued by the Dominion Bank in January, 1900. The printing is blurred and the lettering is very clumsy. No person with any experience in handling bills could possibly accept it as genuine.

COMPANY ASSIGNED.

Peterborough Underwear Company Has Assigned for the Benefit of its Creditors.

It is announced that the Peterborough Underwear Company, which has been in existence for the past three years, has assigned for the benefit of its creditors. Mr. H. Rush is the assignee, and a meeting of the creditors will likely be held next week.

The company's works are located at Auburn on the Peterborough side of the river, and for some time they appeared to be doing a flourishing business. The failure will be universally regretted and it is to be hoped that an arrangement may be arrived at whereby the concern may continue operations.

MR. ROUTLEY'S TRIP.

Arrived Home From the Old Country Last Night—There on Business.

Mr. C. B. Routley, and his son, Mr. C. W. Routley, returned last night from a pleasant business trip to the Old Country. Mr. Routley's visit across the Atlantic was with a view of visiting the largest manufacturers in his line of business, with, perhaps, the result that he may at an early date branch out into the wholesale trade.

Mr. Routley and his son left Montreal on June 22nd, going by the Allan Line. They spent about 14 days in London, 10 days in Glasgow, 6 days in Paris, and the remainder of the time in smaller places about London.

Many of the largest manufacturers of Great Britain were visited. Mr. Routley sailed for home on August 15th, and arrived safely in Peterborough last night. Both are highly pleased with their trip.

THE RIFLE MATCHES.

Programme for the Ranges for Labour Day—Rules Concerning Same.

The programme for the annual rifle matches in connection with the 57th Regiment, which will be held on Labour Day, are now out, and contain a few changes from the programme of last year's matches.

The range officers for the events are Lieut.-Col. E. B. Edwards, Major Miller, Major Stevenson and Capt. Walker. All men will parade at the drill shed at 7 a.m., and will be conveyed to the range free of charge. The matches will commence at 8 a.m. sharp, and lunch will be served at the ranges. Rifles must be drawn and signed for previous to the matches.

The events will be as follows: — General match, open to all officers, non-commissioned officers and men of the 57th Regiment. Value of prizes, $55.50. Ranges 200, 400, 500 and 600 yards. Five shots at each range.

Tyro match, open to officers, non-commissioned officers and men of the 57th Regiment who have not made a score of 60 points or over in any previous match. Value, $41.75. Ranges, 200, 400 and 500 yards; five shots at each range, the same score to count in the general match.

Skirmishing and volley firing match. Value, $16.25, open to team of five non-commissioned officers or men from each company. Five rounds advancing and five returning. Targets to be exposed 15 seconds, magazines not to be used: If more than one shot be fired by a competitor at one exposure in skirmishing his team will be disqualified.

Not a day in the year but you feel like renovating some part of your home. We offer this special line to induce you to do it now. 460 rolls gilt wall paper with match ceilings and border. Floral and scroll designs in cream, blue and green for halls, dining rooms and sitting rooms. Regular price, per roll, 5 cents, for 3 cents. Peterborough Book Store.

CORDAGE COMPANY NOTES.

Orders Placed for the Remainder of the Machinery.

Mr. Adam Hall, president of the Canadian Cordage Company, and Mr. R. H. Hall have just returned from a business trip to the United States, a number of the larger manufacturing cities being visited. Orders were placed for the balance of the machinery required by the Cordage Company. Contracts for the erection of the works will be called for within the next few days.

They were accompanied by Mr. W. T. Clark, manager of the Company. Amongst the firms with whom orders for machinery were placed are The Lloyd Machine Co., of Brooklyn, The Lawson, Coomb, Barber & Coomb Co., of Belfast, Ireland, and the Hoover & Gemble Co., of Miamisburg, Ohio.

PERSONALS.

Many Summer Visitors in Town—Those Who are Leaving for Summer Trips

Mr. D. O'Connel is at McCracken's for a day or two.

Miss Grace Barnett was down from Stony Lake to-day.

Mr. Gordon Cox is suffering from an attack of fever.

Mr. Jack Tucker is up from Montreal for his holidays.

Miss Annie Burns of Lindsay, is visiting friends in town.

Mr. D. O'Connell is at McCracken's Landing for a day or two.

Mr. J. J. McCabe left to-day to take in the Pan-American.

Mr. Charlie Tucker left last evening on a business trip east.

Mr. George Munro's family came down from the Lakes yesterday.

Miss Lizzie Diament, of Lindsay, is spending a pleasant holiday in town.

Mr. C. Loucks' condition is considered very serious at the Nicholls' Hospital.

Mrs. (Dr.) Bradd and Miss Eva have returned from a pleasant trip to Buffalo and Rochester.

Miss Madge Davidson and Miss Shortt are spending a few days at Strathormond, Stony Lake.

Misses Mamie, Florence and Allison Hamilton have returned from an extended outing at Wellington.

Mr. H. LeBrun went to Toronto this morning to attend the great clothing sale at Suckling & Co's.

Dr. Bell of Apsley, passed through to-day on his way to Toronto, where he will spend a few days at the exhibition.

Mr. R. J. Munro, of the Munro House, and Mr. Geo. Fitzgerald, cheese buyer, are rusticating at Hiawatha.

Miss Addie Jackson, of St. Luke's Hospital, New York, is in town, the guest of Mrs. C. Sanderson, Charlotte street.

Mrs. H. M. Love, of Picton, who has been visiting her sister, Mrs. J. M. White, for the past week, returned home this evening.

Mr. and Mrs. J. C. Anderson, 265 Rubidge street, returned home last night after a ten day's visit to Midland and other Georgian Bay points.

The Examiner has to thank Mr. H. W. Kent, for copies of the Victorin, B.C., papers, which contain extended reports of the wreck of the Steamer Islander.

The many friends of Dr. Beatty were pleased to see him in town this morning. He is looking quite well again. After renewing old acquaintances around town, he will return to Cobourg this evening.

DIED IN NEW YORK.

Demise of Mrs. (Dr.) Kerrigan, Formerly of Town.

The announcement of the death in New York City, of Florence Kempt-Kerrigan, wife of Dr. J. A. Kerrigan, of that city, and daughter of the late Dr. William Kempt, of town, and niece of Mr. Robert Fife of Smith, will be received with expressions of sympathy and regret by the many friends of the deceased and of the family in this town and vicinity. The sad event occurred early last week, but the news did not reach town till yesterday. Heart failure was the cause of her sudden death.

CENTRAL CHARITY BOARD.

The Regular Monthly Meeting Took Place Last Night—Accounts.

A meeting of the Central Charity Board was held in the town clerk's office last night. The following members were in attendance: — Messrs. Robert Innis, chairman; Wm. Fowler, Joseph Batten and F. W. Miller.

The minutes of the last meeting were read, and on motion adopted.

The following statement of aid given was presented:—

	Since last report.
Groceries	$38 50
Wood	4 00
Sundries	5 50
Total	$48 00
	Since January.
Groceries	$436 75
Wood	499 50
Tickets	15 00
Sundries	116 45
Total	$1,023 10

The following accounts were presented and ordered to be paid:—

W. H. Hamilton	$21 60
J. H. Savigny	4 00
Kernegan & Gordon	2 00
Jas. Edgcumbe	3 00
Peter Connal & Son	6 00
A. Allison	2 00
Jas. Sutherland	4 00
E. Brown & Co.	9 00
W. Bradshaw	4 00
Curran & Goheen	1 75
P. H. Hunter	6 00

A number of applications for relief were considered, after which the Board adjourned until the last Monday in September.

MARRIED THIS MORNING.

Mr. Edward Manning Weds Miss Lillian Lee, Daughter of Mr. Wm. Lee.

A quiet but interesting event took place at nine o'clock this morning at the residence of Mr. William Lee, No. 710 George street, when his daughter, Miss Lillian J., was united in the holy bonds of matrimony to Charles Edward Manning, for a number of years past a member of the staff of Messrs. A. H. Stratton & Co.

The ceremony was performed by Rev. W. L. Armitage, of All Saints' church, in the presence of a number of invited guests.

The bride was attired in white organdie, and was attended by her sister, Miss Ida, who was likewise gowned. The groom was supported by Mr. George Dawson.

After the ceremony the wedding party sat down to a sumptuous wedding breakfast, and later left for their honeymoon trip to Toronto, Buffalo, and other places.

They will on their return take up their residence for the present at No. 710 Water street.

The wedding presents were handsome, and included a beautiful hall rack from the employees of Messrs. A. H. Stratton & Co., and the Examiner office, and a twenty dollar gold piece from Mr. A. H. Stratton.

DIED

KERRIGAN. — Suddenly at 455 West 155th street, New York, Florence Kempt Kerrigan, wife of Dr. J. A. Kerrigan, and daughter of the late William Kempt, M.D., of Peterborough.

WEIR—In Peterborough, on Tuesday, o'clock, on Wednesday, August 28, 1901, aged 65 years.

The funeral will take place at 2.30 o'clock on Wednesday, August 29, 1901, from the family residence, corner of Benson avenue and Wolesly street, and proceed to Little Lake Cemetery for interment. Friends and acquaintances will please accept this intimation.

Making Room for Immense Stocks

Although the spine of summer shows no signs of breaking, preparation for Fall business must have our chief attention now. This is the last week of the last month of summer, and surplus stocks MUST GO regardless of cost.

BOOKS MUST GO!

If you only want one Book or a whole library, all we ask is a chance to quote you special prices. We never sold books cheaper. We have all the best works published—in fiction these are six leaders:

"RALPH MARLOW" "PUPPET CROWN"
"DAYS LIKE THESE" "THE CRISIS,"
"VISITS OF ELIZABETH" "CINDERELLA."

FANCY GOODS MUST GO!

This Store is alive with Bargains in Fancy Goods, Wedding Presents, Birthday and Presentation Goods, Ladies' Companions, Brush and Comb Sets, Albums, Purses, Card Cases, etc. Prices this week, are, on the average, about one-third lower than regular.

NOTE PAPER MUST GO!

To be quite correct in social etiquette, better consult our styles of Note Paper, Envelopes, Visiting Cards, etc. People judge you by your stationery, just the same. If you want to be sure you have what is perfectly correct, see our varied lines. No better time to stock up than now.

GAMES MUST GO!

Amusements for old and young. Overstock of Card Games, Board Games, etc. All the regular games of the century. Will deal summarily, with them all by cutting the prices in two. Playing Cards in twenty different qualities, Authors, Nations, Flip, Old Maid, Chess, Checkers, Dominoes, Crockinole, Bobity, Go Bang, Parlour Hockey, Parlour Curling etc.

A. H. STRATTON & CO.

RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

Last Week in August

Brings many new faces to the big Simcoe Street Store. All Styles of Dress Goods are now pouring in from the Old World. Dress Goods from FRANCE and GERMANY, Jackets and Capes from BERLIN, Gloves from GRENOBLE, Silks from FRANCE and ITALY, Novelties from PARIS and LONDON. Every place that has its special advantages for selling any particular line is where we buy—AND WE BUY THE BEST ALWAYS.

NOW FOR SCHOOL AGAIN

School time will be here again next week, so if you want any new things for the children in Dresses, in Stockings or anything in the Dry Goods way, come along. You'll get a bigger assortment here than elsewhere, and better values, too. A good mother wants nice-looking, comfortable, wearable things for the child. We show some new hard-wearing stuffs that have some beauty about them as well as durability—closely-woven fabrics for clothes for the roughest-on-his-clothes youngster who needs something strong.

FALL FANCIES.

Lots of new Fall things are here now. Some particularly nice things in Tweeds for Tailor-made Suits, and sure to be of a great deal of satisfaction to women who like character and quality in what they wear. Prices are very, very low—in fact when you see them you will wonder how the Goods can be made for so little.

NEW SILKS.

A grand assortment of Silks now in. Some particularly grand effects in Fancies for Novelty Waists. They're worth seeing whether you want to buy or not. Also a full assortment of Black and Coloured Taffetas for Waists and Skirts. Remember we guarantee our Taffetas.

FASHIONABLE BELTS

You get all the style in a Belt when you buy it here. We have the variety in both quality and price. Nearly all of them have the new pointed long waist effect now so popular with ladies of taste. We're showing something new in Black Velvet Belts, with Black, Gilt and Oxydized Buckles. The Stock is so large and the assortment so good that we are sure you can select a Belt to suit you exactly. Prices for these Velvet Belts are from **25 cents** to **75 cents** each.

RICHARD HALL & SON DIRECT IMPORTERS. 130, 132, 134 SIMCOE STREET

THE STORE THAT NEVER DISAPPOINTS

CLARKE & GIBSON

Jewelers and Goldsmiths, Hunter Street, near Post Office.

DOWN THE RIVER.

Charlotte Street League Held a Very Enjoyable Outing Last Night.

The Epworth League of Charlotte street Methodist Church held a very enjoyable moonlight excursion down the Otonabee River last night, per steamer North Star. The affair was very largely attended, and a very delightful time was spent. Hodson's orchestra was in attendance and furnished excellent music throughout the evening. Singing was taken part in by the company and altogether a very pleasant outing was enjoyed.

The following account of the outing has been contributed:—

Last night the Charlotte street Epworth League closed their mid-summer meetings with a social evening on board the North Star. The night was perfect and the musical programme was enjoyed by all.

Although the "Grand organ" on board was slightly indisposed, Mr. Hodgson and his Sunday School orchestra were equal to the occasion, while Miss Hendron delighted all with several beautiful vocal selections. Popular choruses, patriotic songs were rendered and light refreshments were served on the homeward trip.

Next Monday being a holiday the regular League meeting will be withdrawn.

ABOUT CHURCHES.

Anniversary Services of St. James's Church, Emily—Christ Church, Omemee.

The anniversary services of St. James' church, Emily, will be held on Sunday, September 1st; morning service at 10.30, and evening service at 6.30. Rev. E. A. Langfeldt will preach at both services, the evening service to be his farewell. On Monday, September 2nd, a tea and concert will be held on the church grounds. Mr. Halpany of Peterborough, and members of St. John's choir, Peterborough, will render the programme. Tea will be served from 4.30 to 7.30.

Christ Church, Omemee, has been removed from the old graveyard to the Rectory grounds. The contract for moving the church was given to Mr. Allan McCarthy, of Ashburnham. The distance from the graveyard to the Rectory lot is about 500 feet. The building was not in the least damaged, and stands in its present position none the worse for its moving. Mr. McCarthy deserves great credit for the care he took in fulfilling his contract, and the building committee of the church appreciates his work very much. Very few anticipated that it could be done without injuring the church, but Mr. McCarthy proved himself an efficient and trustworthy worker in the line of moving buildings.

The contractors are at work putting a basement under the building and bricking the church, and it is hoped that the work may be completed before Mr. Langfeldt leaves the parish.

IN THE PARK.

Infant Classes of All Saints Have a Picnic.

On Saturday afternoon Mr. R. J. Wolstenholme gave the members of the infant classes of All Saint's Church, to the number of forty, a treat by providing conveyances to take them to Jackson Park for a picnic.

The little ones were accompanied by Miss Cochrane and Miss C. Hutchinson as well as by some of the parents. A most enjoyable afternoon was spent.

SPECIAL MEETING.

Ashburnham Council Struck a Rate of Sixteen Mills Last Night.

A special meeting of the Ashburnham Village Council was held last night, there being present, Mr. F. Adams, Reeve; and Councillors Pollock, Smith and Sheridan.

The most important item of business was that of striking the rate for the ensuing year. A rate of 16 mills was struck which is the same as last year.

A resolution was passed authorizing the extension of the waterworks down Stewart street to Mr. Peck's new house.

The Council then adjourned, and as Monday evening next is Labour Day, there will be no meeting of the Council until some time in September.

Boys' School Suits.

The school holidays will soon be over, and parents will be planning to send their boys back to school dressed like little gentlemen. H. LeBrun & Co's stock of ready-to-wear school suits for boys was never more complete than now. We have been thinking about the boys and made great preparations for them. Bring them to the City Clothing Store before school re-opens. We show a great assortment of boys' single and double breasted suits and jaunty blouse and sailor suits — smart, handsome garments that parents love to see on the little fellows. All highly desirable suits that are well worth a quarter more than the prices we ask for them. Good news to mothers, too, who are looking for remnants in tweed, to make up at home. Lots of good all wool tweed from one to three yards long, for pants, coat or whole suit, at wholesale prices. H. LeBrun & Co.

PETERBOROUGH MAN HURT.

Andrew Yeomans Said to Have Come From Here.

(Special to the Examiner.)

Rat Portage, Aug. 27.—Andrew Yeomans, a miner, working at the Sakose Mine, north of Dynment, fell 35 feet down the shaft on Saturday and was seriously injured. He is suffering from concussion of the brain, a severe scalp wound and an injury of the spine. He has been unconscious and speechless since the accident. He may recover. Yeomans is about 35 years of age and came from Peterboro. He is being treated at the hospital here.

SPORTING PASTIMES.

GOLF.

The Golf Grounds are looking at their best just now.

Mr. J. W. Garvin, having challenged Dr. Eastwood to play for his position on the team, the match came off yesterday afternoon. The position of the two players will remain unchanged, Mr. Garvin having failed to establish his contention. The match was halved. The feature of the game was a 192 yard drive to the 9th hole by Dr. Eastwood. It is understood that Mr. Garvin will receive a couple of challenges to play for his position.

Mr. Traverse, the amateur champion of the United States, has just returned from a golfing tour in England and Scotland. He finds the quality of golf over there even better than described. In driving, he says, the American holds his own, but in approaching and putting they are not in it. One fault, he says he is convinced, of American courses, is that they are too easy. Old Country courses punish all but the correct player very severely indeed, hence the quality of golf must be good, or none at all. It is evident that the intention is to pay as serious attention to the game, as has been paid cricket or football, and this is the only thing that will ensure its continuance.

BOWLING.

There was lots of bowling at the Green yesterday, both in the afternoon and the evening. Some of the games which were played resulted as appended:

K G Lech,		W Smith,	
W McCreary,		W Sallabury,	
Dr McClelland,		M Green,	
R Kerr, sk...27	W J English, sk.....16		
Dr Moher,		W Sallabury,	
A Elliott,		D Davidson,	
A H Stratton, sk...16	Alf Terrill, sk...16		
Wm Smith,		W F Johnston,	
Dr Moher,		R Kerr,	
M Green, sk.....15	Alf Terrill, sk...16		
D H Moore,		F Walden,	
Dr Moher,		H Rush,	
Alex Elliott,		H Armstrong,	
A H Stratton, sk 23	M Green, sk...17		

CRICKET.

The Colts Cricket team have closed arrangements with the Veterans for a game that will take place on the Nicholls Oval on Saturday, Sept. 7th. This should prove to be a very interesting match as the Colts are determined to turn down the older fellows. The Colts will practice tomorrow night and Friday night, and Saturday afternoon of this week.

RUGBY.

The annual reorganization meeting of the Peterborough Rugby Club will be held on Wednesday evening of next week. The Club members are asked to keep this date open as a good rousing meeting is desired. Considerable rugby talk is being indulged in already and the men are all crazy to get out to practice at once.

The London Club, that western organization that is held with such feelings of tender affection by Peterborough people, has organized for the season. It will be noticed that not many of last year's officers figure on the team. The despatch says: The Rugby Football Club elected officers as follows: Hon. Pres. Frank Love; Hon. Vice-President, C. W. Smith; President, Frank Reid; Vice-President, Arthur Little; Secretary, Jack McNee; Treasurer, — Ewart; Field Captain, Geo. Gibbons. There was some discussion over the election of a captain, it being contended by some that the latter officer should be chosen by the team on the field. The suggestion, however, was voted down.

LACROSSE.

The Vaticans have completed all arrangements for their trip to Rochester, where they play the twelve of that city. The local team has been putting in some hard practice of late, and will send a strong team across the lake. The boys leave on Friday morning for Rochester, and the game will be played the following day.

What are the Vaticans about? They were to have given us a game with Port Hope some time ago, but the event has not materialized and the Peterborough public would like to see at least one more game before the boys hang up their sticks for the season.

The Port Hope lacrosse team is holding a benefit concert.

MISCELLANEOUS.

C. Oliver Iselin, New York, will accept the bet of $25,000 offered by G. Arthur Pearson, London, on the Shamrock. Iselin will, yachtsmen say, take the Constitution end at even money.

'Varsity's team to join with McGill's athletes in the competition against the Oxford-Cambridge team at Montreal on September 14th will comprise Irving Orton, V. E. Henderson, W. Worthington, H. S. Rose, P. Biggs, W. Elwell, Cumming and Gray. Irving Orton will be Toronto's representative in the half mile run; V. E. Henderson will take the mile, and H. S. Rose the two mile. Percy Biggs will compete in the hammer throw. Montreal will have the sprint runners, 'Varsity's short distance men being beaten in every event in the McGill-'Varsity games last fall. The McGill representatives will be J. P. Gaskill, who recently went 100 yards in 10 1-5 seconds; J. D. Morrow, holder of Canadian quarter mile record; Percy Molson, another sprinter; Dr. C. A. Rutherford, the high jumper; Roger Ward, another high jumper; D. C. Fraser, hammer thrower. Other likely men are J. H. Stobell, in distance events; H. H. Kerr and C. V. Howard, in hurdles.

AT ROCKLIFFE RANGES.

D. R. A. Matches Opened Under the Most Favorable Auspices—The Number of Entries Larger Than Last Year.

Ottawa, Aug. 27.—Yesterday morning the 34th annual matches of the D.R.A. opened under most favorable auspices. Over 400 entries have been received, the list being larger than last year. There is very little change in the prize list or conditions, but in the Harold L. Borden match, open to teams of six officers, non-coms. or men, who are members of the active militia, the use of aids of sight is barred, and the competitors will shoot as in active service in the field, except that they will know the exact range.

In the competition for the Bisley team only those will be eligible who have not been on twice during the previous four years.

The tents for the accommodation of the competitors have been pitched on each side of Tilton avenue. There are 26 marquees and 70 bell tents.

The meeting opened with the Tyro match, 7 shots at 500 yards, the first three scores being:

$15, P. O. T. Fulcher, H. M. S. Crescent, 35; $10, Sgt. Perry, 10th Reg., 34; $8, Pte. L. J. Clinett, 43rd, 34.

The entries in the Bankers' match, 7 shots at 500 yards, numbered 397. The first three scores were:

$12 each — Pte. J. H. Bertram, 77th, 35; Pte. D. G. Carter, 93rd, 35; Pte. S. G. McConnell, 43rd, 35.

The Macdougall Challenge Cup was shot after the Bankers' Match, and the wind was very variable. At the 200 yards' range the scores were fair, and at the 600 yards many of the best shots were puzzled by the fish-tail wind and there were several breaks. The match was open to cadets of the R. M. C. and members of the active militia, N. W. M. P. and officers, non-coms. of His Majesty's Army and Navy station in Canada. Cup to be the property of member winning it twice. The first five scores: Cup and $25, Capt. W. S. Russell, R. L., 67; $20, Sergt. W. Bodeley, 5th R. C. A., 67; $15, Lt. W. L. Ross, 13th, 67; Pte. S. Paupst, 77th, 66; $12, Sgt. J. Broadhurst, 5th R. S., 66.

THE ROYAL CHORUS.

The Meeting To-night Should be Very Largely Attended.

The vocalists of the town are asked to keep in mind the meeting which will be held in the Y.M.C.A. hall for the purpose of organizing the Peterborough contingent of the Royal Chorus to take part in the reception at Toronto to the Duke and Duchess of York. Mr. G. W. Mulligan, who has interested himself to a great extent concerning the matter feels certain that a contingent can be sent up from Peterborough that will compare favourably with that from any other town in Ontario. As stated before in these columns Trenton is sending up 70 voices, and Peterborough should send not less than 100. Citizens interested in the affair should attend to-night's meeting and assist in providing for the financial difficulties that will have to be considered.

NEWS NUGGETS.

—The Crystal Block is undergoing renovation.

—At the police court this morning a drunk and disorderly person was fined $2 and $3.50 costs.

—Turnbulls have opened their dressmaking parlours for the season. Ladies wishing early fall costumes or dresses can now procure the new materials and have them made up at once. 2d-1w

The Port Hope Knitting Works are showing this week a great range of evening shawls and fascinators in all the most desirable shades and prettiest colours, in wool and silk, at 25c, 50c, 75c, $1.00, $2.00, etc. Be sure and see them—they excel everything hitherto shown.

'PHONE 230. 384 GEORGE STREET.

"PEACE TO ITS ASHES"

Is the soliloquy of the young man who smokes one of CHARLEY LEGROS' Pure Havana Cigars. The whole affair is invariably consumed in smoke.

HOW TO TELL A GOOD CIGAR.

A cigar made of Pure Havana Tobacco burns a clear, gray ash that does not flake, and clings solidly to the "butt" at the finish. When a man hangs on to a good cigar until he is obliged to use a tooth-pick to hold it and avoid burning his fingers to get the last few whiffs, it does not require the wisdom of a Soloman to infer that he has run up against a mighty good Cuban—the kind that Charley LeGros imports. That accounts for the large sales of these fine flavored and well made cigars at

WEAKNESS
OF MEN AND WOMEN

Could we read the hearts of every man we meet, what a load of sorrow and despair would be disclosed. Indiscretions and Blood Diseases have caused more physical and mental wrecks than all other causes combined. They strike at the foundation of manhood; they sap the vital forces; they undermine the system, and not only do they often disrupt the family circle, but they may even extend their poisonous fangs into the next generation. If you have been a victim of early sinful habits, remember the seed is sown, and sooner or later you will reap a harvest. If your blood has been diseased from any cause do not risk a return later on. Our New Method Treatment will positively cure you and you need never fear any return of the disease. We will give you a guarantee bond to that effect. We would warn you sincerely against the promiscuous use of mercury, which does not cure blood poison but simply suppresses the symptoms.

WE CURE OR NO PAY.

Don't Let your Life be Drained Away, which weakens the intellect as well as the body. There is no room in this world for mental, physical or sexual dwarfs. Our New Method Treatment will Stop all Unnatural Losses, Purify the Blood, Strengthen the Nerves, Restore Vitality, and make a man of you. If you are in trouble, call and consult us. Consultation is Free. We treat and cure Drains, Blood Diseases, Varicocele, Stricture, Unnatural Discharges, Gleet, Kidney and Bladder Diseases. No cutting or operations. No detention from business. Everything confidential. Consultation Free. Books Free. Question Blank Free for Home Treatment.

SAGE ADVICE OF A FATHER.

Counsel That All Young Men Entering Business Should Heed.

"My son," said the fond but wise parent, "you are leaving me to go out into the world. I have nothing to give you but advice. Never tell a lie. If you wish to put one in circulation, get it published. A lie cannot live, but it takes one a blamed long time to fade out of print.

"Always read your contract. A man might consider he was getting a sinecure if he were offered a position picking blossoms off a century plant; but, you see, he wouldn't have a remunerative occupation if he were paid on piecework.

"Be not overcritical. Even the most ordinary sort o' genius can tell when the other fellow is making a fool of himself.

"Remember that the young man, like the angler's worm, is rather better for being visibly alive.

"Be careful in the choice of your surroundings. Environment will do a great deal for a man. For example, flour and water in a china jug is cream sauce; in a pail on the sidewalk it is billsticker's paste.

"Don't forget that there's a time for everything and that everything should be done in its proper time. Never hunt for bargains in umbrellas on a rainy day.

"You may make enemies. If you know who they are, don't mention them. Silence is golden. It saves the money that might otherwise be spent in defending a libel suit. If you don't know who they are—well, abuse lavished on a concealed enemy is like charity indiscriminately bestowed. It's a good thing wasted."

BEWILDERED SHOPPERS.

Japanese Peasants Who Are Kept Track of by Labels.

When the Japanese peasants get themselves up for a pilgrimage to a city for the purpose of laying in a stock of finery, they present the quaintest appearance imaginable. The women generally tuck up their petticoats well above their knees, either leaving the legs bare or else swathing them in white bandages which form a kind of leggings. Their hair is done in the usual elaborate Japanese style, and generally an artificial flower is stuck in at the top. It does look comic to see the wizened face of an old woman with a large red nose hobnobbing over it. And this floral decoration is not confined to the women. When you meet a party of pilgrims, you often see the old men also with a flower stuck coquettishly above the ear.

At Nagano it appears that many of the poor old dears from the country get so bewildered by the magnificence of the places they go to and the distractions of shopping that they quite lose their heads and consequently their way. So the ever thoughtful Japanese police have insisted that every party of pilgrims is to have a distinguishing badge. At Nagano it was the commonest thing possible to see some ancient dame rushing about wailing: "Where is my party? Where is the purple iris party?" or "Where is the yellow towel round the neck party?" And then she would be told that "yellow towel round the neck party" was on its way to the station or that the "purple irises" were still saying their prayers in the temple.

Even Rats Have Their Uses.

Life's monotonies are a blessing, and not in disguise, for they contribute directly to longevity, health and happiness. The long lived man is not the adventurer, the explorer, the plunger, the man who has worries, but he who takes the world as he finds it and slips along through life with as little friction as possible, forms easy going habits, sticks to them and cares not one straw for the opinions of men who say that he is in a rut. He is healthy because he has peace of mind and regularity of life; he is happy because he is healthy and in a good, smooth, comfortable rut, which he prefers to the macadam on the sides of the road. Goldsmith's pastor, who had spiritual charge of the deserted village, who ne'er had changed nor wished to change his place, is an excellent example of the man who makes the most possible out of the monotonies of life.—St. Louis Globe-Democrat.

Peasant Costumes in Ireland.

A certain number of peasants in the wilder and remoter districts of Ireland still wear something like a national costume. About Lough Mask plenty of the lasses are to be seen in picturesque red petticoats that artists loved to bring into their sketches of Irish life. A sprinkling of the old high hats may be seen. The older fishermen wear them, but the younger school shun such antiquated headgear, as the English peasant of today does the smock frock.

There is no form of Kidney Trouble from a Backache down to Bright's Disease, that DOAN'S KIDNEY PILLS will not relieve or cure. tu

Hustling Household.

Careful Housekeeper—Bridget, you may get all the preserves we canned last year and boil them up again. I am afraid they have begun to work.

Bridget—Like enough, mum, like enough. Everything round this house has to.

Saws and Files.

"I just dropped in to see if you wanted any of your wise saws sharpened," said the funny man.

"No; we use our own files for that," replied the editor.

Whene'er this Cingalese you see,
You'll know you're close to ROSS' TEA,
Get closer still, and take some home,
It tastes like liquid honey-comb.

MAKING A MAN OF BABY.

Hurry him, worry him, make him a man.
Off with his baby clothes; get him in pants.
Hurry the baby as fast as you can.
Feed him on brain food and make him advance.
Hustle him, soon as he's able to walk,
Into a grammar school; cram him with talk.

Fill his poor head full of figures and facts;
Keep on a-jamming them till it cracks.
Once boys grew up at a rational rate;
Now we develop a man while you wait.
Rush him through college, compel him to grab
Of every known subject a dip and a dab.

Get him in business and after the cash,
All by the time he can grow a mustache.
Let him forget he was ever a boy;
Make gold his god and its jingle his joy.
Keep him a-hustling and clear out of breath
Until he wins—nervous prostration and death.
—Nixon Waterman in Christian Endeavor World.

Diseased Kidneys

Results From Exposure to Cold and Dampness or Injury of the Back—A Wonderfully Successful Home Treatment is Dr. Chase's Kidney-Liver Pills.

Though among the most painful and fatal of diseases, derangements of the kidneys are indicated by such marked symptoms that it is not necessary for anyone to be in doubt as to their ailment. Increasing weakness, debility and loss of weight; dull, heavy pains in the back, over the kidneys; frequent and pressing desire to urinate; scanty, highly-coloured urine; quick pulse; dry, harsh skin; constipation and diarrhoea alternating; nausea and stomach troubles and dropsical swellings, are the indications of kidney disease.

As the most frequent cause of kidney disease is exposure to cold and dampness or straining of the back and kidneys, it is especially common among workingmen, teamsters, railroaders and farmers. Kidney disease is also the result of constipation, and is found to prevail among men and women of sedentary habits and those accustomed to irregular hours, highly-seasoned foods and alcoholic liquors.

Mr. James Dollihunt, a most respected resident of Conseeon, Ont., states: — "I was a sufferer from Bright's Disease for several years, and at times the tortures of mind and body were almost beyond endurance. The pains were in my head, between the shoulders and down the whole spine, concentrating across the kidneys, where I was never entirely free from pain. When I got up in the morning I went about bent over nearly double. It gave me great pain to urinate, and at times the water was very scanty. Medicines seemed to have little or no effect in my case, until I began the use of Dr. Chase's Kidney-Liver Pills. The first dose relieved me, and five boxes entirely cured me. I have no pains in my kidneys, and can do as good a day's work as I ever could."

Mr. J. J. Ward, J. P., of Conseeon, certifies that he knows Mr. Dollihunt's statement of his cure to be correct and true and without exaggeration. It seems Dr. Chase's Kidney-Liver Pills owe much of their success to the fact that they have a direct and combined action on both the kidneys and liver, and so thoroughly rid the system of complicated diseases of these filtering organs. There is no longer any doubt as to the remarkable virtue of Dr. Chase's Kidney-Liver Pills. In Canada alone last year there were sold over one hundred and ninety thousand boxes of this great kidney medicine; one pill a dose; 25c. a box; all dealers, or Edmanson, Bates & Co., Toronto.

Dr. Louis H. Knapp, aged 40, married, and the father of two children, bade his family at St. Louis goodbye on Tuesday and went to an isolation hospital to nurse a leper.

Thirty-five cases of smallpox are reported in the St. Pierre de Wakefield district, about 29 miles from Ottawa. The patients are said to be all French people.

A STORY OF LABOUCHERE.

How He Got a Free Dinner In Boston When He Was Broke.

Labouchere was once sent by the British minister "to look after some Irish patriots" at Boston. Taking up his quarters at a small hotel, he entered his name as Smith. If you have an idle hour in almost any American city, you can get into a game of "draw" or anything else in the way of gamble. In the evening of his arrival the attache incontinently entered a gaming establishment and lost all the money he had except half a dollar. Then he went to bed, satisfied, no doubt, with his prowess. The next day the bailiffs seized on the hotel for debt, and all guests were requested to pay their bills and take away their luggage. Labouchere could not pay and could not, therefore, take away his luggage. All he could do was to write to Washington for a remittance and wait two days for its arrival. The first day he walked about and spent his half dollar on food. It was summer, and he slept on a bench on the Common. In the morning he went to the bay to have a wash, independent of all the cares and troubles of civilisation. But he had nothing with which to buy himself a breakfast. Toward evening he grew very hungry and entered a restaurant and ordered dinner without any clear idea of how he was to pay the bill, except to leave his coat in pledge.

And here comes in an example of young Labouchere's luck, tempered by a ready wit. As the hungry and for the time being penniless attache ate his dinner he observed that all the waiters were Irishmen and that they not only continually stared at him, but were evidently discussing him with one another. A guilty conscience induced him to think that this was because of his impecunious appearance and that they were making calculations as to the value of his clothes. At last one of them approached their anxious customer and in a low voice said: "I beg your pardon, sir. Are you the patriot Meagher?" Now, this patriot was a gentleman who had aided Smith O'Brien in his Irish rising and had been sent to Australia and had escaped thence to the United States.

"It was my business to look after patriots," said Labouchere, telling me the story, "so I put my finger before my lips and said 'Hush!' at the same time casting my eyes up to the ceiling, as though I saw a vision of Erin beckoning me. It was felt at once that I was Meagher. The choicest viands were placed before me and most excellent wine. When I had done justice to all the good things, I went to the bar and boldly asked for my bill. The proprietor, also an Irishman, said: 'From a man like you, who has suffered in the good cause, I can take no money. Allow a brother patriot to shake hands with you.' I allowed him." He further allowed the waiters to shake hands with him and then stalked forth, with the stern, resolved but somewhat condescending air which he had seen assumed by patriots in exile. Again he slept on the Common; again he washed in the bay. Then he went to the postoffice, got his money and breakfasted.

Bronchitic Sufferers

Act foolishly. If they improve ever so little when the fine weather comes, they relax effort and drift back into the old condition which if possible, becomes more chronic. Hit Bronchitis hard in the summer and you'll get rid of it and drive it right out of the system. In winter it is almost impossible to do this. Inhale Catarrhozone regularly, it's a dead sure thing on Bronchitis. It goes into the most minute air cells of the lungs, bathes all parts of the bronchial tubes with its healing, germ destroying vapor, and cures every time. Highly endorsed by all competent druggists and doctors. 25 cts. and $1.00.

Why He Kept a Dog.

A prominent dog fancier and wealthy man of Philadelphia stepped into a grocery the other night, says The Press, and accidentally stumbled over a fat old German, who was sitting in a corner smoking his pipe.

Under his chair was the most remarkable specimen of a dog that the gentleman had ever seen. It had the appearance of a pug, with rough red hair and a long tail. It was impossible to resist laughing at the placid old man and his nondescript dog.

"What kind of a dog is that?" asked the gentleman.

"I don't know," replied the German.

"I suppose you use him for hunting?"

"No."

"Is he good for anything?"

"No."

"Then why do you value him so?"

"Because he likes me," said the old fellow, still puffing his pipe, and the expression of the dog as he looked up from under the chair fully confirmed the statement.

"There is no better or stronger reason than that," asserted the gentleman emphatically as he walked away.

Enlightened the Lawyer.

"I presume, my good fellow, you're a laborer?" said a lawyer to a plainly dressed witness.

"You are right. I am a workman, sir," replied the witness, who was a civil engineer.

"Familiar with the use of the pick, shovel and spade, I presume?"

"To some extent. Those are not the principal implements of my trade though."

"Perhaps you will condescend to enlighten me as to your principal implements?"

"It is hardly worth while. You don't understand their nature or use."

"Probably not," loftily, "but I insist on knowing what they are."

"Brains."—London Tit-Bits.

Brevity Takes Time.

A Scottish minister was once asked how long he would require to prepare a speech. "That depends," said he, "upon how much time I am to occupy in its delivery. If I am to speak for a quarter of an hour, I should like a week to prepare; if I am to speak for half an hour, three days will do; if I am to go on as long as I like, I am ready now."

Advertising in the Examiner brings the best results.

Travellers and Tourists

Travelling from place to place are subject to all kinds of Bowel Complaint on account of change of water, diet and temperature. They should fortify themselves with a bottle of

Dr. Fowler's
Ext. of
Wild Strawberry,

which is a sure cure for Diarrhœa, Dysentery, Colic, Cramps, Pains in the Stomach, Seasickness, Cholera, Cholera Morbus, Cholera Infantum, Summer Complaint, and all Fluxes of the Bowels in Children and Adults.

Does not leave the bowels in a constipated condition.

Is harmless and pleasant to take. Its action is rapid effectual and natural.

IMITATION JEWELS.

VENEERED DIAMONDS AND GEMS OF FINE COLORED GLASS.

Some of the Modern Tricks of the Trade—Fine Gold Settings Used For Bogus Stones—The Halo Around a Genuine Pearl.

Although the imitation of jewels has been practiced for a century or more there are comparatively new developments in the industry every few years, and the business has of late attained enormous proportions. The majority of these stones are made abroad, and hence they are imported. But while they are exceedingly cheap and the duty is low the attempt is occasionally made to smuggle them into the country, and a seizure results. Again, the imitation is sometimes so good that even the customs officers are puzzled for a time. However, it is always possible for an expert to tell the difference if he has sufficient opportunity to apply the proper tests.

Imitations of the diamond, topaz, emerald, amethyst and turquoise are usually made of paste or strass, which is nothing more than a particularly fine grade of glass, to which, if the stone is colored, the proper hue has been imparted by the addition to some mineral substance. There is at least one European house, though, which professes to add carbon to its diamond composition, thus securing greater hardness than would otherwise be possible.

In London still another plan is pursued to improve the paste diamond. Genuine diamond dust, produced by the cutting of jewels, is treated with acid, reduced to a plastic state and then rolled out in exceedingly thin sheets. This veneer is cut into the proper shape and cemented on the faces of the strass. Glass diamonds can be bought for a few cents when unset, but a veneered diamond is worth nearly $1. A high degree of skill is required in its preparation.

There are several methods of distinguishing between a true diamond and paste. Hydrofluoric acid will eat glass, but will not affect the genuine stone. A file makes no impression on the latter either. Finally a real diamond continues to glitter when immersed in water.

Some artificial rubies are of paste; others have the same composition as the genuine stone, which consists of corundum. The latter variety of imitation ruby has the proper hardness and specific gravity, and the color is faultless. It can be distinguished from the true ruby only by a powerful magnifying glass. Singularly enough, the genuine article is identified by its defects. There are natural flaws in it not found in the imitation, although the imitation also possesses other characteristics (minute bubbles, for instance) which are readily recognized. On some stones, like the topaz and emerald, it is not wise to use a file. They are not hard enough to resist it. The magnifying glass is the surest means of ascertaining the character of these jewels.

Owing no doubt to the fact that pearls are often worn in strings instead of singly or in pairs, like diamonds, the business of manufacturing imitations of them is far more extensive than any kindred branch of the industry, except perhaps the making of bogus turquoises and emeralds and rubies for belt buckles. And inasmuch as most of these imitation pearls are exceedingly cheap it is possible for anybody to buy them. Thus one may get a card bearing a dozen stickpins with imitation pearl heads for from 10 to 15 cents. If the stones were genuine, they would be worth from $100 to $200.

There are several kinds of imitation pearls. One is a glass bead filled with composition. The glass is often not over a sixty-fourth of an inch thick. There are several different compositions used. One looks very much like paraffin. A bead filled with that material would crush easily. In other globular pearls pierced for stringing, a harder substance is employed. There is an imported imitation pearl whose shell is said to be made of fishskin and whose filling is a compound in which there is ground mother of pearl, the lustrous lining of the oyster shell, wherein the real pearl is produced. This sort of jewel costs a dollar or two, and a string of 60 would sell for $150. Real pearls of the same size and beauty would bring fully a hundred times that price.

Although the manufacture of imitation pearls was long confined to Europe, it is now conducted in this country also. A New York house, the first to engage in the business, introduced a novelty to the trade a few years ago. It made solid pearls in addition to the filled ones. The composition employed is as hard as rock. It is almost impossible to break these jewels, and their luster, color and ingenious irregularity of form will deceive any one who does not use a magnifying glass on them. The head of this house tells many amusing stories about the mistakes made by expert jewelers and pawnbrokers when these stones first made their appearance. Of course it is not easy to fool an experienced person; still the expert must use a powerful lens in order to ascertain the real character of a pearl. He will not trust the naked eye. Occasionally a jeweler will say: "No, I cannot detect an imitation pearl eight or ten feet away, but if I hold it in my hand I can see the difference between that and the real thing. There's a sort of halo around the genuine article which is unmistakable." But other men in the trade frankly admit that only by means of a microscope can they discriminate.

A fashion has sprung up of late years which enhances the deception produced by imitation jewels. If a paste diamond is set in a brass ring or an imitation pearl is mounted on a German silver pin, a sharp eyed observer might suspect the character of the jewel, but when the setting is of 14 carat or 18 carat gold and the manufacturer has lavished more or less artistic skill on the design of a ring or stud or clasp a different impression is created.

When one first gets an idea of the enormous extent to which imitation jewels are sold and worn, he naturally wonders whether the trade in genuine stones has been affected. But a little inquiry in the proper quarter will satisfy him that it has not. The former are purchased by a class of people who cannot afford the latter.

Colonel Mosby's Ruse.

Colonel Jack Mosby was not very particular whom he picked up on his raids around the corner, but of course preferred a prisoner with straps on his shoulders to one without them. It is told of him that one night in March, 1863, he and his men were prowling about the Union headquarters at Fairfax Court House, Va., and from a prisoner learned where General Stoughton, commander of the infantry outposts, was sleeping. Taking with him a few trusty men, Mosby stole up to the general's house, and as General Stoughton turned to face the intruders he was confronted by a brace of revolvers.

"You are my prisoner," said the guerrilla. "My name is Mosby—Jack Mosby, at your service. Stuart's cavalry are all around us and Stonewall Jackson's between you and the army."

And Stoughton was *so thoroughly* deceived that, though having an army of several thousand within call, he allowed the guerrillas to carry him off a prisoner.

Insects Are Born but to Die.

The life of a perfect insect is usually very brief. Of all the myriads of butterflies and moths, bees and wasps, flies and beetles, which make up one of the most marked features of the summer, the vast majority die before the season is over. A mere handful will survive into next year, while few indeed are those that will live to see a second summer. The duration of the larval stage is much longer. The dragon fly nymph, as it is called, lives 11 months in the water. The perfect insect that emerges from it has only a few weeks at most of sunshine and the upper air. There are flies which live only for a single day, taking in that time no food, having, indeed no mouths by which to take it.

How "The Autocrat" Popped.

It was on the Common that we were walking. The mall, or boulevard, of our Common, you know, has various branches leading from it in different directions. One of these runs down from opposite Joy street southward across the whole length of the Common to Boylston street. We called it the long path and were fond of it.

I felt very weak indeed, though of a tolerably robust habit, as we came opposite the head of this path on that morning. I think I tried to speak twice without making myself distinctly audible.

At last I got out the question, "Will you take the long path with me?" "Certainly," said the schoolmistress; "with much pleasure." "Think," I said, "before you answer. If you take the long path with me now, I shall interpret it that we are to part no more." The schoolmistress stepped back, with a sudden movement, as if an arrow had struck her.

One of the granite blocks used as seats was hard by—the one you may still see close by the gingko tree. "Pray, sit down," I said. "No, no," she answered softly. "I will walk the long path with you."

The old gentleman who sits opposite met us walking arm in arm about the middle of the long path and said very charmingly, "Good morning, my dears."

Neuralgia

is Rheumatism of the face. Uric Acid left in the blood by disordered kidneys lodges along the nerve which branches from the eye over the forehead, and across the cheek to the side of the nose. The cause is the same as in all Rheumatism—disordered Kidneys. The cure is likewise the same—

THE FIRST STEP

to baby's health must be taken before baby's birth. The child can have no more health than the mother gives it. A healthy mother, strong of body and cheerful of mind, will endow the child with her own physical health and cheerful disposition. Many a wife who had dreaded motherhood because of past experiences of prenatal misery of mind and body has found a new era open to her with the use of Dr. Pierce's Favorite Prescription. It gives physical strength, soothes the nerves, and induces refreshing sleep. It gives vigor and elasticity to the organs of maternity, so that the birth hour is practically without pain or suffering. It enables the mother to provide a plentiful supply of healthful nourishment for the healthy child. It makes weak women strong and sick women well.

There is no alcohol in "Favorite Prescription" and it is absolutely free from opium, cocaine, and all other narcotics.

Sick women are invited to consult Dr. Pierce by letter free of charge. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I gladly recommend Dr. Pierce's Favorite Prescription," writes Mrs. J. W. G. Stephens, Mills, Northumberland Co., Virginia. "Before my third little boy was born I took six bottles. He is the finest child and has been from birth, and I suffered very much less than I did before in confinement. I unhesitatingly advise expectant mothers to use the 'Favorite Prescription.'"

Dr. Pierce's Pleasant Pellets are a pleasant and effective laxative medicine.

Mother

and child, run down—there are hundreds—lucky if you are not one. And what do you think they want?

They want rest and a change, and can't get either. Pity to speak of it!

Scott's Emulsion of cod-liver oil is almost rest in itself!

THE SUCKER FISH.

How These Strange Creatures Attach Themselves to Larger Fish.

People of certain temperament sometimes attain their wishes by hanging to the skirts of persons of larger capacity. In the fish world these find their counterpart in the remora family (the suckers), which is represented on the Atlantic coast by five species. In these fishes the first dorsal fin—i. e., the fin on the back nearest the head—is transformed for all practical purposes into a sucking organ, by means of which they can attach themselves very firmly to the gill covers or sides of larger fish. Thus there are the shark sucker, the swordfish sucker, the billfish sucker, etc. Being excellent swimmers, it is difficult to see why they prefer to go through life as an appendage and burden to others, but it is well known that they travel with sharks continuously in this manner, and their hosts have actually been found emaciated and exhausted from carrying about their uninvited guests.

An eminent observer of fishes has thought it very probable that the object of the suckers is to share the fragments of food with their hosts, but whatever the cause the latter are surely entitled to our sympathy. It happens, however, that this very propensity for "hanging on" has recoiled on the sucker much to his disadvantage, for as soon as man discovered this peculiarity he cudgeled his brain for some practical application which would redound to his own advantage, and, being himself perhaps a "hanger on" to other people, some resourceful individual conceived the idea of using this fish as a bait and make him do the catching. In Ogilby's "America" occurs the following description of how the Indians of long ago used these fishes to aid in the capture of others:

"Columbus from hence proceeding on further westward discovered a fruitful Coast, verging the Mouth of a River, whose Water runs Boyling into the Sea. Somewhat further he saw very strange Fishes, especially of the Guiacan, not unlike an Eel, but with an extraordinary great Head, over which hangs a Skin like a Bag. This Fish is the Natives' Fisher; for, having a Line or handsom cord fastened about him, so soon as a Turtel, or any other of his Prey, comes above water, they give him Line; whereupon the Guiacan, like an Arrow out of a Bowe, shoots toward the other Fish, and then gathering the Mouth of the Bag on his Head like a Purse-net, holds them so fast, that he let not loose till hal'd up out of the Water."

The Cause of Dyspeptic Pains.

They arise from the formation of gas, owing to improper digestion. A very prompt and efficient remedy is Polson's Nerviline. It relieves the distention instantly, and by its stimulating action on the stomach, aids digestion. Nerviline cures dyspeptic pains by removing the cause. Nerviline is also highly recommended for cramps, colic, summer complaints, and inflammation. Sold in large 25c. bottles everywhere.

Water.

The ocean is a huge spring, containing not only salt, but many other minerals, in solution. The Dead sea is charged with such elements almost to saturation. Only distilled water is pure. By distillation sea water itself is rendered drinkable, though not pleasant.

In Days of Old.

"The old idea," said the lecturer, "was an eye for an eye, a tooth for a tooth."

"Yes," concluded one of his hearers, "and there were no painless dentists in those days either."

There are lots of people who will not take a dare to do anything except a dare to go to work

The forests of North America in value and variety exceed those of any other continent.

STRENGTHENS THE STATE.

Life Insurance is for the protection of those dependent on a man's life; their dependence makes it an unavoidable duty. Those dependent we assume to protect by our contract, at his personal cost; our duty to them is to make that contract as large, as secure, and as certainly available to them as possible; thus every Policy written conserves the interest of the State. A man with a Life Insurance Policy is apt to be a good citizen. Anarchists have no use for Life Insurance, and the state has no use for anarchists. The State should encourage every citizen to carry insurance. This Strengthens the State, abolishes alms-houses, and creates property that can be taxed. Further, the income from Your labour ends with Your life. The cost of living to the family continues. Take measures to have the income continue also. **The Life Insurance Policy Does It.**

The most enterprising and progressive of all the Canadian Life Offices to-day is the **Sun Life of Canada.** Ten years ago the Company had Life Assurance in force to the extent of $16,759,355.92. On the 31st of December last, this amount had been increased to $57,980,634.68. The increase, therefore, of Life Assurance in force during the last ten years amounted to the tremendous sum of $41,221,278.76.

BRANCH IN NOVA SCOTIA.

Confirmation of the Statement That Armstrong, Whitworth Co. Will Open Shipyard in Halifax.

London, Aug. 24. — It is understood that the great shipbuilding firm of the Armstrong-Whitworth Company of Newcastle, is considering the feasibility of building a shipyard in Canada. Inquiries at their London office to-day elicited the answer that the matter was too important to make a statement without consulting the directors, which seems to give confirmation to the report.

A week ago yesterday the Toronto Star published the following:

Canada will probably have within a short time a shipbuilding branch of the great English firm of Armstrong, Whitworth and Company, the name of which is known the world over through the Armstrong gun. The matter has already gone so far that Mr. F. B. Swan has come over from Newcastle-on-Tyne to enter into negotiations. Mr. Swan is the nephew of Mr. Henry F. Swan, the manager of the big company, and he represents also the firm of Swan and Hunter, who have built the Elder-Dempster Line vessels. Mr. Swan reached Toronto last night, coming direct from Newcastle by the Elder-Dempster ship Lake Megantic. The Lake Megantic made a record trip, leaving Liverpool on Tuesday, Aug. 6th, at 4.30 p.m., and reaching Quebec at one o'clock on the morning of Thursday of the following week.

The place where the establishment of the shipbuilding plant is contemplated is Halifax, Nova Scotia, whither Mr. Swan will go on Monday to enter into negotiations with the Provincial Government. The Nova Scotia authorities have offered a direct bonus of $100,000 to the firm which will establish a shipbuilding industry in Halifax. The firm must guarantee to construct certain works, docks, and waterways, and to carry on the industry for a certain length of time, but is not bound to guarantee any output. Asked how far the matter had already gone, Mr. Swan would merely say that it was under consideration. In case the deal goes through and the works are established the company will spend from $300,000 to $500,000 in the erection and equipment of the plant.

KINMOUNT.

(From our own Correspondent.)

Mr. Ed. Wellwood and wife, of Minden, have now taken up housekeeping in our village.

Mr. George Southerland, Millbrook, was last week the guest of his sister, Mrs. M. A. Hopkins. On Friday afternoon he returned home with his three sons, Garnet, Lionel and Earl, who have been summering at the lodge, Davis' Lake, for the past few weeks.

The people of Kinmount regret exceedingly the fact that our school is to be deprived of the services of Miss Ada Crouse, our assistant teacher, who has resigned her position. Miss Crouse has taught the Junior department of our school for the past two years and has given excellent satisfaction. She leaves behind her a number of good friends and a record of faithful work, and the best wishes of all attend her in her new position in Janetville, where she has accepted the principalship of the village school.

On Wednesday last the lodge at Davis' Lake was the scene of much enjoyment and merriment. The occasion was the annual outing of the Methodist Sunday School scholars and friends, who through the kindness of Mr. Hopkins, were able to hold their pic-nic at this beautiful spot. Races and games were indulged in, and thanks to the indefatigable efforts of our new pastor, Rev. Harry Curts, assisted by Mr. Hales and others, an enjoyable time was spent by all. Tea was served under the trees, and the party drove home in the evening, delighted with the success of the pic-nic.

Mr. Cole, our genial harnessmaker, and his wife and family, together with Messrs. Cole and McConnell, returned to the village on Friday evening from their camp at Swamp Lake. An excellent coat of tan and Mr. Cole's happy smile speak volumes for the pleasure they had while away.

Miss Clara Wellstood returned on Friday evening from a visit to her sister, Mrs. Rev. Herbert Clarke, of Mountain Grove. Miss W. left on Monday morning to resume her pedagogical duties at Fell's.

Miss MacFarsen was a guest at Mrs. Hopkins' on Saturday evening last, on her way to Ironsdale to re-open school.

Mr. R. W. Asselstine, of Kingston, returned to Kinmount Saturday and commenced his duties as principal on Monday last. At present he is teaching both departments, on account of a successor to fill Miss Crouse's position not yet being chosen.

Rev. Dean Howard preached an excellent sermon on Sunday evening to a crowded church. The C.O.F. attended the service in a body and made an excellent showing, over 40 members of the lodge being present.

Kinmount Masonic Hall is to be opened on the evening of Thursday, 22nd, and a good time is expected. Invitations have already been issued and many outsiders will be present on the occasion.

VICTORIA CHEESE BOARD.

Victoria County Cheese Board met on Monday, 1717 boxes being boarded by 16 factories. Mr. Flavelle captured the first selection at 9 5-16c, taking 481 boxes, the make of five factories. Buyer Whitton made the same bid for a second selection and took 680 boxes, but later released 80 boxes to Mr. Flavelle, they being in the firm's cold storage warehouse. Mr. Flavelle then offered to clear the board at 9 1-4c. Janetville, North Verulam and Fenelon Falls refused the bid and were given permission to sell off the board. Previous to the bidding Mr. Flavelle referred to the proceedings at the last meeting of the Peterborough cheese board, and his trenchant remarks on the subject of buyers refusing on insufficient and unfair grounds to accept cheese purchased at a high price were listened to with much interest.

THE LATE MRS. GRAHAM.

Her Demise Occurred in Cavan on Tuesday.

The funeral took place Thursday in Cavan of Mrs. Hannah Graham.

Mrs. Graham, who was in her 74th year, succumbed to bilious fever. The deceased lady was a granddaughter of the late Samuel Grandy, who was well known in this vicinity. She was married to William Graham, son of the late Thomas Graham and Mary Lytle Graham. One son, Thomas, died in 1892, at Boscurvis, N.W.T., another son, John, was for many years treasurer of Cavan township, and died in 1898. Mrs. Graham's home was gladdened with three daughters, viz., Annie, Mrs. John Purser, of Cobourg; Minnie J., Mrs. W. H. Swaine, of St. Thomas, North Dakota; and Adelaide K., Mrs. D. Staples, of Cavan.

CHURCH CHIMES.

GEORGE STREET METHODIST.

An excellent anthem entitled "O, Thou, who Hast Prepared," Gaul, was sung in the George street Methodist church on Sunday evening.

Mrs. (Dr.) Prust sang "Home at Last," with much expression.

MARK STREET CHURCH.

Mr. Herbert Moore, late of Christ Church Cathedral, Ottawa, sang a solo, "We Need Thy Constant Care," in a very artistic manner Sunday evening.

Memorial Window.

A beautiful memorial window has been placed in Christ's Episcopal Church, Baillieboro, by the family of the late George L. Fair, who was at the time of his demise, Church Warden of Christ's Church. The window is one of the most handsome memorials of its kind to be seen around here and is a very suitable memorial to the memory of one who laboured earnestly in the affairs of the church.

TOP OR BOTTOM.

Answering the Question of Which Moves the Faster In a Wheel.

Among the many questions which originated in cycling and have now donned automobile garb and proclaimed themselves as something brand new is the time honored, hoary headed alleged problem as to whether the top of a wheel moves faster than the part which rests on the ground. The problem never was intended to be anything but a catch and is peculiarly meritorious on account of the semblance of science with which it is clothed. The fact that the part of the wheel which is in contact with the earth has come to a standstill on what might be termed a dead center point is so apparent that any child can see without going into any explanation, and yet there are those who will argue the question seriously, as if that feature of the problem was not apparent to every one.

The question is as to what is the relative speed between the top and the bottom of a wheel, say, when the wheel is 28 inches in diameter and is going over a frozen lake, to eliminate all unevenness of the road. The rim, or tire, travels faster than the hub, having to make a much longer revolution or circuit in the same time it takes the hub to revolve, but the part of the tire that is on the ground is necessarily traveling at the same rate around its own axis as that part which is farthest from the ground. If the center of the earth be regarded as the axis, that part of the wheel which rests upon the ground, being nearer the central axis, would be slower than the top part, which is farther from the central axis. The computation of the difference would depend upon the size of the wheel.

This is not responsive to the question, and yet, despite the fact that it reads as if intended to convey a wrong impression, by a happy fortuitousness is absolutely correct. The question as to whether the top or bottom of a wheel goes the farther was originally intended as a "fake" question pure and simple. The top of a wheel is always the top and never moves around the axis. The bottom of a wheel is always below and ceases to be the bottom the moment it changes its position the millionth part of an inch.

If the discussion was on a chalk mark on the rim of a wheel, there would be room for discussion, but the top of a wheel is always the top, and the top, hub and bottom of a rolling wheel advance with a speed which is so nearly equal that the wheel would have to make a complete circuit of the earth to make the top of the wheel go three times the diameter of the wheel farther than the bottom.

The Czar's Visit.

Berlin, Aug. 27.—Emperor Nicholas and Emperor William, it is now said, will meet at Dantzig on Sept. 10. The Czar and Czarina will leave Copenhagen Sept. 9, the former for Dantzig, and the latter proceeding to Kiel from Dantzig. The Imperial couple will sail through the Baltic Canal for Dunkirk.

HERB IS A POINTER.

Have you cold hands and feet, chills, pains in the back? If so your blood is impoverished and your constitution run down. "Climax" Iron Tonic Pills will positively restore perfect health. As a blood maker and nerve strengthener they are unequalled. Each box contains ten days' treatment. Price 25 cents, at all druggists, or mailed on receipt of price. Address: The Dr. Hall Medicine Co., Kingston, Ont.

Serious Disturbances.

Constantinople, Aug. 24.—Serious disturbances are reported to have occurred at Mush, Armenia, but no details have been received.

Another Negro Burned.

Winchester, Tenn., Aug. 25.—Henry Noles, who killed Mrs. Williams, was taken from jail and burned at the stake.

OUR DUMB ANIMALS.

Moses Taggart, in Springfield Republican.

Oh, whether they have souls or not,
Let this ne'er be by us forgot!
They all can feel, soul-tuned or not.

In plough and harrow, tug and team,
The patient beasts hitched to the beam
Are ten times wiser than they seem.

Checked at the brae, the thoroughbred
Turns round a dark eye rimmed with red,
And asks if he must go ahead.

Our friend, the ever-faithful hound,
Will follow us the world around,
Or dying at his post be found.

Our family pets — the great and small,
In house and home, in hut and hall,
To us it is they look for all.

Housed-up, afield, or on the farm,
If they but think we mean them harm,
The cows how easily we alarm.

And all the rest—the sheep and goat,
The little kid, the lively shoat,
They all can feel! would we but note.

They shrink before the cruel blow,
They moan, they groan, they hirpling go,
They cannot speak, they only know.

In barn and byre, in stall and sty,
There's still some soft beseeching eye
Appeals to our humanity.

Milburn's Heart and Nerve Pills cure Anaemia, Nervousness, Sleeplessness, Weakness, Palpitation, Throbbing, Faint Spells, Dizziness, or any condition arising from Impoverished Blood, Disordered Nerves or Weak Heart.

Why it Won.

A shoe that has won the highest award at the Paris World's Fair ought to be good enough for a lady to wear.

Beauty, comfort, style, appearance and durability are the points that won the gold medal.

Its price and value make it the choice of thousands of ladies who know how to dress tastefully and comfortably.

$3.00 and $4.00 per pair.

Made by The J. D. King Co., Limited, Toronto.

Children can and should help their parents to provide homes of their own. We make the opportunity easy, and the best bargains are sometimes made in haste. Don't delay longer thinking it over, but come and talk to us now. It would take us a very long time to think how to make a watch; it is not our business. But after 40 years of practical business experience, we do claim to be well qualified to guide all our numerous patrons much to their advantage in the purchase of Homes, Vacant Lots, Houses and Lots, Garden Lots and Farms, of all sizes and prices. Delay means loss.

PREMIER IN TORONTO

Sir Wilfrid Laurier Declared Industrial Fair Opened.

PRESENTED WITH AN ADDRESS.

Interest in the Proceedings Heightened by the Attendance of the Eloquent Leader of Canadians—Grounds Black With Assembled Thousands—The Premier's Reply Touches Various Topics of Interest.

Toronto, Aug. 28.—The presence of the Premier of Canada, Sir Wilfrid Laurier, at the opening of the Toronto Exposition yesterday gave an added interest to the event, and the proceedings were characterized by more than the usual enthusiasm. The desire to hear and see the eloquent leader of the Government brought out a very large gathering of people, and when Sir Wilfrid formally declared the great fair open, the grand stand and grounds surrounding were black with the assembled thousands.

The Exposition could hardly have been opened under more favorable auspices. Fine, bright, warm weather; the grounds looking beautiful, the exhibits all fairly well advanced in completeness—these tended to a successful opening, for successful it certainly was.

The Premier was entertained at luncheon by the directors of the fair, and replied wittily to the toast of "The Dominion Parliament." Hon. Jas. Sutherland, E. B. Osler, M. P., E. F. Clarke, M. P., and W. F. Maclean, M. P., also responded to the toast.

The Ceremony.

After the luncheon the distinguished visitors proceeded to the balcony that had been erected on the paddock in front of the grand stand,

SIR WILFRID LAURIER.

directly facing the directors' box. Here an address of welcome was read to Sir Wilfrid Laurier, after which the Premier, touching the electric button, set the machinery in motion and Toronto's latest Exposition was officially opened.

Sir Wilfrid's Reply.

Sir Wilfrid, in reply, said: Mr. Chairman, ladies and gentlemen.—It is not for you, sir, to offer me any thanks for my presence here today. It is rather for me to offer thanks to you for the kind invitation with which you have favored me, and which gives me to-day the privilege of taking my share of the joy which I see depicted on the faces of this vast assemblage. It gives me the opportunity of feasting my eyes upon the Exhibition, which I shall do by-and-bye, and studying the work and industry and arts of this great Province of Ontario. (Applause.) True, I might have come without an invitation—(laughter)—but the chances are had I not received an invitation I would have remained at Ottawa engaged in the duties of my office. Let me assure you, ladies and gentlemen, that it is always a pleasure to come to Toronto. Toronto may not be perfect in all respects—(laughter)—that is the failing of the human race. But everybody must admit that Toronto is one of the most hospitable cities on the continent. Whether you visit it on business or on pleasure, and I have done both, you are sure to meet in Toronto a most cordial welcome. Nay, more; if you visit it at election times, as I have done more than once, the citizens of Toronto will extend to you a greeting so cordial, so generous, so affable and sympathetic, as to send you away under the sad delusion that they are all on your side. (Laughter and applause.) When afterwards there comes a day when this delusion is dispelled you cannot but feel grateful that they have given you some special sign of graciousness. (Renewed laughter and applause.)

Toronto is one of the finest cities in Canada. It has been said that nature has done a great deal for some Canadian cities and their inhabitants have done very little. This cannot be applied to Toronto. Nature has not been parsimonious to the city. On the contrary, she has endowed it with lovely things—the beautiful lake at her front and the fine country at the back. These are the works of nature. The work of man is shown in the fine private residences, her glorious public buildings, in her churches, almost innumerable, in her stately university, in her public parks and squares. Lastly, though not least, man's work is shown in her fine, broad streets, so clean that they put to shame some other cities in Canada, or so clean that you are tempted, as they often do in Paris, to take your lunch on the sidewalks. But that is not the greatest feature of Toronto. If there is one feature which is absolutely characteristic, which you have here, it is your annual Exhibition. (Applause.) Exhibitions are a product of modern civilization. Before the middle of the 18th century there were in France those Exhibitions of work and art which have culminated in the French Salon, and at the same time they had in England a few agricultural exhibits at a small school, and chiefly confined to cattle. But exhibitions of art, of agriculture, are the product of the civilization of the 19th century, so prolific in invention for the happiness of mankind.

To this result—I say it without flattery—I do not know how to flatter—(applause and laughter)—Toronto has taken a step which has not been taken by any other city on the

Continued on 8th page.

Yes, We've Told You of Them Before; And Probably Will Again,

For They are Deserving of a Lot of Space and much Telling.

THEY—means those Under Muslins that we bought so well that we can afford to give our customers the advantage of a third less than what we could regularly sell them at.

The purchase was a BIG one. This range of the manufacturers was never surpassed, if equalled, in Canada. That's pretty strong talk, and we realize it AND THE GOODS WILL STAND BY THE TALK.

If it hasn't dawned on you before try to realize it now, and think of the superb lingerie you can buy and only cost you an ordinary price. For instance, a $4.50 garment will cost you $3.00, and a $1.50 garment $1.00. Big enough saving to make it interesting, isn't it?

Well, we've had a big clearing of this Underwear, a clearing that has surprised us and shown us that the Peterborough ladies have appreciated the splendid bargains offered. We've got a big lot of Whitewear still, and though you cannot manage to come to-morrow, come while this lot lasts and you'll not be disappointed. Of course there is always a pick in samples—you're aware of that!

REMEMBER,

a week ago we advised you of three cases of Balayeuse worsted (sponged and shrunk) and all pure wool—heavy enough for perfect fitting suits. You may imagine that three cases of Dress Materials would last us a long while, but not so when 95 cent goods (sponged and shrunk) are being sold at 60c a yard, especially when they are the desirable goods for this season. We certainly want to advise our customers that this pile is cutting down extremely fast. Secure it while you may. We cannot say it will last till the end of the week. It may.

YEOMANRY IN BATTLE

Lost Nine Men Killed and Twenty-Three Wounded.

THE BOERS ATTACKED A CONVOY

It Was Traveling Between Kimberley and Griquatown, and the Yeomanry Beat the Enemy Off—The Convoy Was Brought Out in Safety—Eighteen Transvaalers Were Captured East of Edenburg.

London, Aug. 28.—Lord Kitchener, in a despatch from Pretoria yesterday, says:

A convoy on its way from Kimberley to Griquatown, was attacked near Roolkopje. The attack was repulsed by Captain Humpy's escort of the 74th Imperial Yeomanry, who lost nine men killed and had 23 men wounded. The convoy was brought in safely.

Rawlinson caught 18 Transvaalers after a 40-minute gallop in the open, east of Edenburg.

Merriman on a Farm.

Cape Town, Aug. 27.—J. X. Merriman, the Parliamentary leader of the Afrikander Bund, has been arrested on a farm 31 miles from Cape Town. He has given his parole not to leave the farm.

Unshakable Determination.

Cape Town, Aug. 27.—Lord Milner, the British High Commissioner in South Africa, arrived here to-day from England. He met with an enthusiastic reception. Replying to an address of welcome, he said there was no doubt whatsoever of the unshakable determination of the people and Government of Great Britain to adhere to their South African policy.

Boers Headed Off.

Cape Town, Aug. 26.—Two Boer commandoes, totalling 700 men, were headed off in an attempt to cross the Orange River into Cape Colony to-day.

Czar Disposed to Intervene.

London, Aug. 28.—The St. Petersburg correspondence of The Daily Mail confirming the report that Emperor Nicholas and Emperor William will meet at Dantzig, Sept. 10, and the King at Fredensberg, says:

"I have learned also on the best authority that the Czar is now disposed to intervene with regard to the Transvaal, and that the war will be discussed with M. Loubet, King Edward and Emperor William."

ST. CATHARINES EXCITED.

An Angry Mob Made an Attempt to Lynch Amos Myles.

St. Catharines, Aug. 28.—An angry mob made an attempt Monday night to lynch Amos Myles, a one-legged fisherman, who resides at the mouth of the 15-mile Creek. Myles had been hanging around the Gentry circus on the Fair Grounds, talking to little girls and giving them money to buy candy, and between 6 and 7 o'clock in the evening enticed Emily Day, the 11-year-old daughter of Edward Day of Russell avenue, to go with him into the grand stand. Two other circus employes saw him, and caught him. He was immediately surrounded by an angry crowd and several men seized a rope and wound it around Myles' neck.

"Lynch him," shouted the crowd, and a dozen eager hands laid hold to perform the operation, when Manager Gentry appeared and persuaded the men to turn Myles over to the police.

When the news was spread abroad the feeling against Myles became almost desperate. Men congregated in groups, and a plan was concocted to carry out the threat which had been previously foiled. It was agreed that at a stated time a false alarm should be sent in, and when that drew the police from the station a rush should be made to secure the prisoner and string him up.

At 11.55 an alarm was sent in and crowds were gathered on James street, at King and Church, to carry out the plan. But the police were prepared, having received a hint of the proceedings, and stood guard at the station. The lynching was not attempted.

Myles appeared before the magistrate yesterday morning and was committed for trial. Bail was fixed at $2,000.

Drowned at Smith's Falls.

Smith's Falls, Ont., Aug. 28.—A very sad drowning accident occurred here yesterday afternoon, when Lloyd Currie, the 17-year-old son of R. C. Currie, an employe of the Frost & Wood Co. of this place, lost his life. He was last seen going toward his boathouse about 3.45. At 4.30 he was discovered by two young men on their way up the river. He was lying on his back in about a foot and a half of water. He was partly dressed, his wet trousers, boots and stockings being found lying on the bank as if he had fallen in and placed them there to dry. How he fell in again is a mystery. When found life was extinct, although the doctor worked with him for over an hour.

SHIRT WAISTS and SKIRTS 48c Each

WEDNESDAY, AUG. 28, 1901.

ONTARIO DESERVES CREDIT.

One of the last articles written by the late Sir Walter Besant dealt with the improvement in the drinking habits of the people of England. As illustrative of the customs and the manners of a century ago, he tells of an election dinner in 1790, at which the company, several hundred in number, sat down at 5 o'clock, and continued sitting over their wine and punch the whole night through. At the great city dinners it was formerly usual for men to drink three, and sometimes six, bottles of port; on Sunday morning, when the good folks were on their way to church, they would have to pass dozens of men dead drunk, laid out on the pavement to recover in the cold air. Well into the middle of the century, excessive drinking was actually fashionable. Sir Walter says:

"I myself can remember, as a common sight, the bottle nose; the nose decorated with red blossoms; the pendulous nose, caused by punch and port. I have been assured by a veteran officer that when he joined his regiment in the 30's, he had to sit every evening for three hours after dinner drinking port, and this at the age of sixteen! At Oxford and Cambridge the resident Fellows used to sit over their port every evening for a couple of hours; the colleges prided themselves on their port. A physician who died in 1890 at the age of 72 told me that when he began to go into society, the dinners, which were simple, were finished by 7.30; that, after the dinner the men sat over their port till 11 or so; that many of them drank their three bottles; that they then adjourned to the drawing room, where they were offered hot brandy and water! He added that it was very rare for these topers to get past the age of fifty."

There is comparatively little of this form of excessive drinking in England now; what exists is not regarded with favour, but the reverse. The change is for the better.

Canadians who have reached middle age do not need to be told that there has been a great improvement in the drinking habits of our people since the days when the country or village tavern was the great gathering place, and when a perennial thirst afflicted such a great proportion of the community. Even twenty years ago the sight of a row of chair loungers tilted back on the tavern platform, each awaiting an invitation to "have su'thin," was a usual one, and many a one will recall how the gang has arisen and filed in after him when he has had occasion to stop at one of these inns. License was easily obtained; spirits were cheap, and deep potations were regarded as a sign of good-fellowship. Everybody who had a "bee" or threshing was expected to provide a large supply of liquor, and those who failed to plentifully supply liquor were regarded as "skins."

Things have changed. The tramp printer and painter, and the "bum" professional and business man have been passing, and the country tavern, as a mere drink shop, bids fair to soon become a memory. In Ontario the Government deserves not a little credit for the steady, forward movement it has kept up. In 1874 the number of licenses issued was 6,185, being a license for every 274 persons. In the year 1900 the number of licenses issued decreased to 2,950, or one for every 650 persons. The decrease in the number of licenses, it is worthy of remark, has been accompanied by a corresponding decrease in the arrests for drunkenness. In 1889 the convictions for drunkenness reported in this province amounted to 4,797. Ten years later the number had decreased to 1,892. Maine, with half a century of legal prohibition, does not make as good a showing, the arrests for drunkenness there during the years 1890-95 were 253 per thousand, while in Ontario, for the same period they were only 195 per thousand. Our per capita consumption of alcohol is only 5 1-5 gallons, as compared with 20.27 gallons, the average of Great Britain, Germany, France, the United States and Australia.

Temperance workers have no cause to feel discouraged, rather to feel elated. A quarter of a century is but a brief period in which to have effected such a radical reform.

EDITORIAL NOTES.

Before judgment is passed on the mob connected with the latest negro-burning episode in the South, the feelings should be taken into account of the family of the gentle lady, who was brutally outraged and afterwards murdered by the wretch, to whom summary judgment was dealt out. Was not burning too good for the bestial black?

The Toronto Star recently published a sarcastic little quip at the expense of a young purveyor of fish-worms at Penetang, stating that an angler discovered, after purchasing 100 worms, that they had reduced themselves to nineteen through the practice of cannibalism, apparently. The Fenelon Falls Gazette fails to appreciate the point in the story and discusses the theory of the capacity of worms in dead earnest, winding up the argument by the following statement:—

"That earth-worms—or, as they are more commonly but incorrectly called, fish-worms—may, if rendered desperate by starvation, eat each other we neither affirm or deny, because we know nothing about it, but that nineteen could gobble up eighty-one we utterly refuse to believe."

Census figures show that Sydney, Cape Breton, is the banner city, having increased 308.2 per cent. in the decade, on account of her coal mines and iron and steel works; Valleyfield comes next, with 100.4 per cent., which she owes almost solely to the Montreal Cotton Mills and the large extensions that have taken place in these works. Vancouver takes third place, with 91.1 per cent., while Victoria has to be content with taking eighth place with 28.6 per cent. Winnipeg, the capital of the prairie province, is fourth, with 64.9 per cent.; Ottawa is fifth, with 35.6 per cent., and Montreal and suburbs is seventh, with about 29 per cent., Brandon taking sixth place with 30.4 per cent. This is very good for Brandon, which will now doubtless be able to provide interest for her municipal debt without repudiation. London takes ninth place, with 19 per cent., Sherbrooke tenth, with 16.5 per cent., Hull the eleventh, with 15.3 per cent., and Toronto the twelfth, with 14.7 per cent. No figures are given for Sault Ste. Marie for the census of 1891, but the population is now 5,528, which must mean a very large percentage of increase. Quebec shows moderate growth, with a gain of 9.1 per cent., which places her in the thirteenth position, to be followed respectively by Hamilton, with 7.3 per cent.; Charlottetown, 6.1 per cent.; Halifax, 5.9 per cent., and St. John, with 3.9 per cent. These figures will doubtless be revised, but the revisions will probably not much affect the general results.

To Force Russia.

London, Aug. 26.—"Apparently there is a movement on foot on the part of Great Britain, Japan and the United States," says a despatch to The Morning Post from Che Foo, dated yesterday, "to force Russia to evacuate Niu Chwang."

Killed in the Alps.

London, Aug. 26.—A despatch to The Daily Express from Geneva confirms the report that Ella Velsor Smith, wife of William Wickham Smith, a New York lawyer, had been killed in the Alps.

THE NEW FARMER.

The annual autumn number of the Farming World will be issued this week. Its readers may expect a rich and rare treat. The unique feature of this number will be a series of articles dealing with organized agriculture in the eight provinces and Territories of the Dominion. This series has been compiled by the Ministers and Deputy Heads of the Agriculture Departments for each province, including Hon. Mr. Rogers, for Prince Edward Island; B. W. Chipman, for Nova Scotia; Thomas A. Peters, for New Brunswick; G. A. Gigault, for Quebec; Hugh McKellar, for Manitoba; G. W. Peterson for the North West Territories; J. R. Anderson, for British Columbia; and W. B. Varley Secretary to the Minister of Agriculture, and Thomas Southworth, Director of Colonization for Ontario.

Other notable contributors will be Prof. J. W. Robertson, F. W. Hodson and W. H. Hay. Canada's display at the Glasgow and Buffalo Expositions will be dealt with in two well illustrated articles. A number of fine photo-engravings of Canadian farm and rural scenes will be shown, and the regular departments of the paper, including the Sugar Beet World, Studies in Nature, the Agriculture Gazette, and the Farm Home will contain specially prepared matter. Readers of this journal can have copies of this special adition by addressing the Farming World, Confederation Life Buildings, Toronto.

DOURO COUNCIL MEETING.

The council met at the town hall on August 12th at 2 o'clock, p.m. All members were present. The Reeve, Mr. Maloney, presided. The minutes of the previous meeting were read and confirmed. The Reeve moved that those persons who signed the petition re the drainage of Buckley's Lake be heard before the council. A number of petitioners withdrew their names from the petition, giving as a reason that the cost would be too much. The estimated cost as contained in the Engineer's report was about $5,798.00, and the cost of opening up two concession lines across the lake, $1,000.00. After the report was read and thoroughly discussed, it was moved by Messrs. Condon and Sullivan, that the report be not adopted.

Moved by Messrs. Sullivan and Condon, that the Reeve do order the payment of $118.25 to E. R. Blackwell, salary as Engineer in connection with the drainage of Buckley's Lake, and for hired help, this amount to be loaned to those persons who signed the petition.

Moved by Messrs. Sullivan and Condon, that the Reeve do order the payment of $4.00 each to assessor and clerk for equalization of Union of School Sections.

Moved by Messrs. Curtis and Allan, that James Condon and M. D. Sullivan be authorized to inspect the line of road between lots 1 and 8 in concession 4, with a view to building a culvert if needed.

The following order were drawn on Treasurer for gravel:—Martin Leahy, for 43 loads, $3.00; Martin Guerin, for 30 loads, $2.10.

Council adjourned to Sept. 9th, then to meet at 10 o'clock.

Few People Escape Piles

And Dr. Chase's Ointment is the Only Positive and Guaranteed Cure for This Torturing Disease.

There is usually very little satisfaction in consulting a physician regarding a case of piles. In nine cases out of ten he will recommend a surgical operation, forgetting, it may be, the risk, suffering and physical as well as financial expense which this treatment entails. For this reason very many people are going about in misery with piles, believing that they cannot be cured except by means of the surgeon's knife.

It is to such persons that this advertisement will bring good news of great value. Dr. Chase's Ointment has grown in popularity until to-day it is recognized the world over as the standard ointment for the cure of itching, burning skin diseases, and as absolutely the only preparation that can be relied upon to cure every form of piles.

It seems strange that anyone should suffer the wretched uneasiness and acute torture of burning, itching piles when it is so easy to procure Dr. Chase's Ointment. Nearly every dealer in medicine keeps Dr. Chase's Ointment, and you can apply it at home without any inconvenience. The first application is usually sufficient to put an end to the itching, and it is rarely that more than one box is required to make a thorough cure.

Mr. F. Stokes, 116 Dunlop street, Barrie, Ont., writes:—"I was troubled with blind, itching piles for years, and could get nothing to stop the constant itching. I was always in pain until a friend of mine told me of the wonderful cures Dr. Chase's Ointment had made among his acquaintances.

"I only used one box, and am entirely cured. In gratitute for this marvellous cure, and for the benefit of others suffering as I did, I send you this record of my case."

Mr. Geo. A. Booth, of Trenton, Ont., writes:—"This is to certify that Dr. Chase's Ointment has completely cured me of itching piles from which I suffered for two years in spite of all the remedies I used and which failed to cure me."

Hosts of cases in which Dr. Chase's Ointment has actually cured serious and long-standing cases of piles have been reported in the Canadian press. Should you want to know more about it ask your druggist or your neighbour. There are few people in Canada who are not familiar with the record of this famous preparation. If your dealer does not have Dr. Chase's Ointment in stock it will be sent post-paid on receipt of price, 60 cts. a box, by Edmanson, Bates & Co., Toronto.

Hay Fever.

I. Meadows, the head waiter of the Queen's Hotel, Toronto, was cured by Ozone.

Powley's Liquified Ozone is especially valuable to the treatment of hay fever because of the stimulating action it possesses on the mucous membrane. It cleanses the surface of all catarrhal or watery discharges and heals promptly. Below is the statement of a pronounced, chronic sufferer, a man who knew almost to the minute when his annual attack would commence.

November 28th, 1901.

The Ozone Co., Limited.

Gentlemen,—For six years I have been very much troubled with hay fever. This would occur about the month of August. I was recommended to try Ozone in August, just when the disease was at its worst on me. I found great relief from the Ozone, although I used only three bottles. My belief is had I commenced the use of the remedy earlier I would not have had the return of hay fever at all.

I intend starting the use of Ozone in July, and I feel positive that I shall not be troubled with this vexatious disease next season. I am pleased to say my general health is now and has been in excellent condition since taking the Ozone.

You are at liberty to publish this testimonial for the benefit of other sufferers.

(Signed) I. Meadows, Queen's Hotel, Toronto.

The treatment by Ozone consists in taking it internally two or three times a day and by using it as a douche or spray for the nostrils. Its action is antiseptic and germ-destroying. It's nature's way of curing a functional weakness of the body. No better or quicker treatment is known.

Consult our physician about your case. Write full details and you will get a specialist's advice free. Your letters are absolutely confidential. Address the Consulting Department, The Liquid Ozone Co., 229 Kinzie St., Chicago, U.S.A.

50c. and $1 at all Druggists

CAUGHT BETWEEN BUFFERS.

Conductor Morrison Fatally Injured at New Hamburg.

Guelph, Aug. 28.—Conductor Morrison, on the express from Toronto, which passed here at 10.28, was seriously injured at New Hamburg on his way west yesterday morning. It appears that something had gone wrong with the air brake. He was either fixing it or seeing that it was fixed, when the cars moved, and his head was caught between the buffers. Mr. Scott, cutter in R. E. Bolder & Co.'s, a brother-in-law of Mr. Morrison, left by rail at once to look after him. It is feared his injuries will prove fatal. Conductor Morrison was taken to Toronto on a special train from Stratford.

Died in Toronto Hospital.

Toronto, Aug. 28.—Conductor Morrison died at 11 o'clock last night, the operation not proving successful. He resided at 230 Lisgar street, and was 45 years of age.

THE SECOND DAY.

The Dominion Rifle Association Matches at Ottawa—Scoring Good.

Ottawa, Aug. 28.—The second day at the D. R. A. opened with perfect weather yesterday, and the riflemen in good trim to face the long range matches, which started with the Dominion of Canada Match, at 200, 500 and 600 yards. The conditions were good for shooting, there being only a barely perceptible good light.

At the 600 yards extra series the following have made possibles: Corp. W. Goud, 30th; Pte. J. Simpson, 10th R. G.; Lieut. Blackwood, 1st C. A., and Lieut. A. Robertson, 77th. Thirteen men have scores of 24 each. A good many are tackling the Gibson Time Match, five shots in one minute, at 500 yards range. So far Lieut. Bertram of the 77th is the only one who has made the possible, and six men have 24.

The MacDougall match at 200, 500 and 600 yards, and the Harold L. Borden memorial match at 200, 500 and 600 yards were the only matches completed at the D. R. A. meeting yesterday.

Dominion of Canada Match, Patterson Cup—First five scores: $25, Pte. S. Paupst, 77th, 99; $20, Capt. J. E. Hutcheson, 43rd, 98; $18, Sergt. J. E. Snowball, 43rd, 98; $18, Capt. A. Davidson, 8th R. R., 97; $16, Lieut. R. A. Robertson, 13th, 97; $16, Sergt. McPherson, 1st B. F. A., 97.

Davis Club.—Open of teams of six men making the highest aggregate—43rd Ottawa and Carleton Rifles, 566; Capt. J. E. Hutcheson, 98; Sgt. J. E. Snowball, 98; Pte. W. E. Bennett, 95; Pte. S. G. McDonnell, 94; Pte. Scott, 91; Pte. H. W. Patterson, 90. Next in order, 13th Regiment, 556; 10th Royal Grenadiers, 552; 77th, 541; 5th Royal Scots, 508.

Harold Borden Match.—500 yards, 7 shots, the use of all aids to sight other than clear spectacles barred. First five scores: Cup, medallion and $20, Pte. F. N. Allen, 7th Fus., 35; $18, Pte. Evans, 35; $15, Pte. Paupst, 77th, 35; $11.33, Capt. Blair, 78th, 34; $11.33, Sgt. R. Corrigan, 50th, 34.

Teams—$48, 48th Highlanders, 180; $40, 13th Regt., 170; $32, Q. O. R., 175; $24, D. C. O. R., 175.

DOCTORS AT SEA.

Many a man has to abandon his desk because of neuralgia. The torture *sometimes is* almost unbearable. E. C. Dean, city editor of the Daily British Whig, Kingston, Ont., suffered with neuralgia in the head for twelve months. Six physicians failed to relieve him, but three bottles of Dr. Hall's Rheumatic Cure completely cured him. This great blood purifier is put up in bottles containing ten days' treatment. Price 50 cents at all drug stores or The Dr. Hall Medicine Co., Kingston, Ont.

Conservative Returned.

London, Aug. 28.—The Parliamentary election held Monday to fill the seat in the House of Commons for the Andover division of Hampshire, made vacant by the death of William W. B. Beach (father of the House of Commons), resulted in the return of Edmund Beckett Faber, Conservative, who received 3,696 votes to 3,474 casts for his Liberal opponent, George Judd.

Lightning struck the barn of Mrs. Robt. Stubbs, Scarboro, on Monday afternoon and burned it to the ground. The loss was $2,500.

A Red Hot Season.

During the hot summer season the blood gets over heated, the drain on the system is severe and the appetite is often lost. Burdock Blood Bitters purifies and invigorates the blood, tones up the system, and restores lost appetite.

The Poor Ropemakers.

Ropemakers were formerly a race apart in Bretagne, where they were banished into certain districts as a species of pariahs and avoided. They inspired horror because of their manufactures—the instruments of death and slavery. Formerly they intermarried only among themselves, and the entree of the churches was forbidden them.

In the fifteenth century the ropemakers were believed to be Jews and separated from the rest of mankind by leprosy. The Duc de Bretagne, Francois II, made them wear a badge of red cloth, to distinguish them.

In 1825 the prejudice against them was disappearing, but they still passed for magicians. They took advantage of the popular sentiment and sold talismans against wounds. They predicted the future and were thought to cause bad winds.

Old ideas and old customs must give way to the improvements and successes which the experience and knowledge of an advanced age demand. The ancient Town Crier is succeeded by the great modern newspaper, the tallow dip by electric light, and the ancient, harsh cathartic physics by Abbey's Effervescent Salt, the great tonic laxative. Abbey's Effervescent Salt is the most happy combination of medical agents known. It starts at the root of most all common ailments—the stomach and bowels. Its aperient properties get them into healthy action in a gentle but sure way.

It has a tonic effect on the digestive organs, aiding them in the performance of their proper duties.

Abbey's Effervescent Salt gives perfect health in a natural pleasant manner.

For sale by all druggists, 25c and 60c a bottle.

Snaps in Shoes!

Here's a lot of values for those who can make use of the opportunity. The sorting over of stock singles out a number of odd lines that might as well be cleared. There's not enough of any one line to warrant us keeping them on the shelves. We know the value. It is the best. Possibly the buyer who comes with the idea of getting just what one is looking for may not see the exact thing, but will find the very best value in Shoes, and well worth wearing. No question of style, durability or material. Just odd lines to clear.

36 Pairs Men's Shoes, some heavy, some light, all nice shapes, fine materials, real snap	$1.25
30 Pairs Men's Good Shoes, lightweight leathers, shapely, neat, comfortable	$1.00
Few Pairs Men's Stout Working Boots, fine value	75c
18 Pairs Misses' and Children's Tan and Tan and Cloth Shoes, stylish goods, in many sizes	$1.00
24 Pairs Ladies' Gaiters, several sizes, very comfortable for house wear	$1.00
10 Pairs Misses' Tan and Cloth Shoes, nice new goods, merely an odd lot and all in stock	$1.25
24 Pairs Women's Button Boots, fine Black Kid, excellent value	$1.25

Better value than these cannot be had. Clearing out makes the price.

ROBERT NEILL

STRENGTHENS THE STATE.

Life Insurance is for the protection of those dependent on a man's life; their dependence makes it an unavoidable duty. Those dependent we assume to protect by our contract, at his personal cost; our duty to them is to make that contract as large, as secure, and as certainly available to them as possible; thus every Policy written conserves the interest of the State. A man with a Life Insurance Policy is apt to be a good citizen. Anarchists have no use for Life Insurance, and the state has no use for anarchists. The State should encourage every citizen to carry insurance. This Strengthens the State, abolishes alms-houses, and creates property that can be taxed. Further, the income from Your labour ends with Your life. The cost of living to the family continues. Take measures to have the income continue also. **The Life Insurance Policy Does It.**

The most enterprising and progressive of all the Canadian Life Offices to-day is the **Sun Life of Canada.** Ten years ago the Company had Life Assurance in force to the extent of $16,759,355,-92. On the 31st of December last, this amount had been increased to $57,980,634.68. The increase, therefore, of Life Assurance in force during the last ten years amounted to the tremendous sum of **$41,221,278.76.**

A Large Bass.

Dr. Anderson, of Pittsburg, who is holidaying at Buckhorn, this morning sent down to Mr. Harold Snowden, of the Snowden House, a beautiful rock bass weighing 6 pounds. The bass was caught yesterday and to-day it was greatly admired by those who saw it this morning. Harold handed it over to Mr. Elcombe, the taxidermist, to be mounted.

Excursion to Town.

The steamer Water Lily this morning brought to town an excursion from Hastings, which was run under the auspices of St. George's Episcopal Church. The excursionists arrived here about noon and spent the day in various ways around town. The Rainbow also brought up a portion of the excursionists. The 40th Regimental band, under the leadership of Prof. Shusk, was on board.

The Labour Picnic.

The labour demonstration which will take place at Chemong on Labour Day promises to be a very largely attended event. A great many will go out from town, all the available busses being engaged for the occasion. Addresses will be delivered by prominent local speakers, and various kinds of amusement will be provided for all. A baseball match between the Wm. Hamilton Mfg. Co's team and the team of the Peter Hamilton Mfg. Co. promises to be one of the biggest attractions of the day.

Mr. Perk's Outing.

Mr. S. C. Perks has arrived home from a very delightful visit to his old friend Rev. W. W. Wagg, who is now stationed at St. Ola, on the Central Ontario Railway. Mr. Perks speaks enthusiastically of the time he had while away and the excellent fishing that there is around about St. Ola. He and Rev. Mr. Wagg had excellent luck capturing beautiful salmon weighing from 12 to 20 pounds, some of which were sent to their friends in Peterborough. Speaking as to Mr. Wagg's work, Mr. Perks says that he is building up a flourishing circuit, and is enthusiastic in his labours.

MR. STOCKER IS HOME.

He had a Most Enjoyable Trip to the Land of his Nativity.

Mr. Walter Stocker and little daughter are home from a trip to the old country after an absence of nine weeks. Mr. Stocker says he would have been better satisfied if he could have spent nine months abroad. He saw a good deal of cricket in England, being one of 40,000 spectators present at Lord's on the occasion of the great Gentlemen vs. Players' match. With his brother, who is in the navy, he took a trip amongst the shipping, and had the advantage of an inspection of the great British fleet just prior to mobilization.

At Glasgow, Mr. J. B. Oke of town, was most courteous, and Mr. Stocker says that all Canadians who attend the Exhibition will never forget the manner in which the Commissioner looks to their interests. The Glasgow Exhibition is unique in having no fakirs on the grounds. Mr. Stocker was proud of the grand exhibition made by Canada.

RETURNING FROM THE LAKES.

Every Train Brings Down a Large Number of Summer Visitors.

Every train from Lakefield brings down returning visitors from the back lakes, whilst again the traffic north becomes smaller each day. As the Lakefield train pulls into the station, sunburnt men, women and children alight therefrom and great quantities of luggage are taken from the baggage cars. About the first thing these returning summer visitors do after getting off the train is to make for the scales and have themselves weighed. They were weighed before they went up to the lakes and they want to see whether they have lost or gained. Invariably the latter is the case. Anyway the scales on the local platform have done a tremendous business this season.

A number of the cottagers have come down for the season and have closed their summer homes, but the great majority of them will remain up until after Labour Day. From then forward the exodus will be very great and the summer season at Stony Lake for 1901 will pass on record as a most successful and enjoyable one.

THE MOONLIGHT.

S. O. E. had a Pleasant Outing Last Night per City of Peterborough.

A very enjoyable moonlight excursion took place last night per steamer City of Peterborough, under the auspices of Lansdowne Lodge Sons of England.

The affair was attended by about 250 persons and Hawthorn's orchestra furnished excellent music during the evening. The "City" left the Wolfe street wharf at 8 o'clock, and returning reached the wharf at 12 o'clock.

The committee desire to thank the captain and crew of the "City" for the courteous manner in which they performed their duties.

As far as possible, we would be obliged to our many customers if they would place their orders for Saturday's dinner with us Friday afternoons, which would ensure the earliest delivery on Saturday. We carry the best quality of fresh beef to be had, which is appreciated, according to the testimony of the increasing crowds which visit our store each morning. Lamb by the quarter still selling at the lowest market prices, 8 to 10c. Kennedy's Meat Market, 340 George street. 'Phone 275.

ACCIDENTS AT PORT HOPE.

Mr. Asa Choate Perhaps Fatally Injured.

A Young Man Killed While Stealing a Ride on the "Bumpers" to Cobourg —His Name was Lithgow.

(Special to the Examiner.)

Port Hope, Aug. 28.—A most unfortunate accident occurred this morning to Asa Choate, of "Belmont Farm," just a few miles east of here on the Cobourg road.

Mr. Choate was coming to town, and was driving a spirited young animal. When crossing the electric light dam bridge the horse took freight and became unmanageable. It finally backed up against the side of the bridge and dumped the vehicle and Mr. Choate to the rock surface about 15 feet below. When reached by those who were near by it was plain to be seen that his injuries were of a very serious nature. Upon examination it was learned that Mr. Choate's hip was broken, and the main artery of his leg was severed besides internal injuries. The local physicians have been in attendance and a specialist is expected to arrive this afternoon from Toronto. Little if any hopes are entertained for his recovery, but should the specialist hold out any hope the amputation of his leg will be necessary.

Mr. Choate is about 65 years of age, and is one of the most prominent men in this district. The accident has naturally caused much sympathy for him and his family.

FATAL ACCIDENT.

Harry Lithgow, a young man who resides here, last night met a horrible death while stealing a ride on the bumpers of a train going to Cobourg. He in some manner fell from his position and had both legs taken off by the wheels of the moving train.

PERSONALS.

Many Summer Visitors in Town—Those Who are Leaving for Summer Trips

Town Clerk Armstrong is in Toronto.

Capt. Cockburn is camping at Loveslck Lake.

Mr. J. C. Callahan, of Campbellford, is in town.

Mr. W. H. Bradburn is home from a trip to Manitoba.

Mrs. C. Everett has returned from a pleasant trip across the border.

Mr. J. Jeffries and family have returned from a holiday trip west.

Miss Agnes Campbell, of Napanee, is the guest of Mrs. McQuay, George street.

Mrs. Roberts, of Welcome, is in town the guest of Mrs. A. Montgomery, London street.

Mr. Percy Rubidge accompanied by his sister, Miss D. Rubidge, arrived in town last evening from Chicago.

Mr. and Mrs. Thomas Blois, of Stewart street, were in Port Hope on Monday, attending the funeral of Mr. Blois' brother.

Miss Gussie Shorey, who has been the guest of Miss Lena Frize for the past six weeks, returned to her home in Picton to-day.

Mrs. W. J. Doughty and her two daughters, Florence and Stella, are enjoying the cool, health-giving breezes of Stony Lake.

Mr. Percy Shorey of Picton, after a couple of weeks camping out at Deer Bay, returned to town on Monday, and is the guest of his friend, Alex. M. Chalmers, Water street.

Mr. Walter Alexander, senior drug clerk with Mr. Wm. Madill, leaves to-morrow to complete his studies at the School of Pharmacy in Toronto.

Miss Evelyn Dorris has returned home after a pleasant two week's visit with friends in Hastings and Norwood. She was accompanied by her cousin, Miss Irene Lynch.

Hon. J. R. Stratton left Toronto yesterday afternoon for Brigden, where he will speak at the West Lambton Liberal convention. He will also speak at the East Lambton convention at Watford next day.

Rev. D. O. Crossley returned home last night after a holiday of three weeks in Muskoka with his brother, Rev. H. T. Crossley. Mr. Crossley will be in his own pulpit on Sunday next and will give the monthly song sermon in the evening.

THE TALLEST YET.

Mr. Crawford Brings in a Fine Stock of Corn to This Office.

Still a larger stalk of corn has reached the Examiner office. The editorial room of this journal has certainly seen some fine specimens of field corn this summer, and for the past month people have been running in with a stalk of corn that could "beat the last one." However, Mr. James Crawford came in to-day with a splendid sample. For height it surpasses anything yet reported in this district. This stalk of white corn was grown on the farm of Mr. E. Ingram, Otonabee, and is 13 feet 2 inches in height. It is a dandy. Now, who can beat it? The seed was purchased from Mr. C. N. Brown. The crop in the field from which the stalk is taken averages 12 feet in height.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drugstore.

THE ROYAL CHORUS.

It was Organized at a Meeting Which was Held in the Y. M. C. A. Last Night.

The Peterborough contingent to take part in the Royal Chorus to welcome the Duke and Duchess of York and Cornwall at Toronto, was formally organised at a very largely attended meeting in the Y.M.C.A. last night.

Mr. G. W. Mulligan, who has undertaken the task of superintending the Peterborough chorus, addressed the meeting, briefly giving an idea of what was expected of them, and also read communications he had received from Prof. Torrington, of Toronto, and from Hon. J. R. Stratton and Hon. Senator Cox, volunteering financial assistance, if required.

However, at the outset one of those present moved that no assistance whatever be asked on behalf of those who should go up with the chorus, and by an unanimous vote this was carried.

The chorus then practiced over several of the selections, Miss Lillian Hurley kindly officiating at the piano.

The prospects of a chorus of 100 voices going from Peterborough to Toronto are exceedingly good, and there were over 60 in attendance at last night's practice. Letters were also read from many who were away on their holidays, but who are desirous of joining.

A pleasant feature of last night's gathering was the fact that it was very representative, every choir in town being represented, including the Cathedral.

Prof. Torrington, of Toronto, will come down before long and hear the chorus rehearse. Those desiring to join should send in their names to Mr. G. W. Mulligan.

DIED

Making Room for Immense Stocks

Although the spine of summer shows no signs of breaking, preparation for Fall business must have our chief attention now. This is the last week of the last month of summer, and surplus stocks MUST GO regardless of cost.

BOOKS MUST GO!

If you only want one Book or a whole library, all we ask is a chance to quote you special prices. We never sold books cheaper. We have all the best works published—in fiction these are six leaders:

"RALPH MARLOW" "PUPPET CROWN"
"DAYS LIKE THESE" "THE CRISIS."
"VISITS OF ELIZABETH" "CINDERELLA."

FANCY GOODS MUST GO!

This Store is alive with Bargains in Fancy Goods, Wedding Presents, Birthday and Presentation Goods, Ladies' Companions, Brush and Comb Sets, Albums, Purses, Card Cases, etc. Prices this week, are, on the average, about one-third lower than regular.

NOTE PAPER MUST GO!

To be quite correct in social etiquette, better consult our styles of Note Paper, Envelopes, Visiting Cards, etc. People judge you by your stationery, just the same. If you want to be sure you have what is perfectly correct, see our varied lines. No better time to stock up than now.

GAMES MUST GO!

Amusements for old and young. Overstock of Card Games, Board Games, etc. All the regular games of the century. Will deal summarily with them all by cutting the prices in two. Playing Cards in twenty different qualities, Authors, Nations, Flip, Old Maid, Chess, Checkers, Dominoes, Crockinole, Bobity, Go Bang, Parlour Hockey, Parlour Curling etc.

A. H. STRATTON & CO.

RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

Last Week in August

Brings many new faces to the big Simcoe Street Store. All Styles of Dress Goods are now pouring in from the Old World. Dress Goods from FRANCE and GERMANY, Jackets and Capes from BERLIN, Gloves from GRENOBLE, Silks from FRANCE and ITALY, Novelties from PARIS and LONDON. Every place that has its special advantages for selling any particular line is where we buy—AND WE BUY THE BEST ALWAYS.

NOW FOR SCHOOL AGAIN

School time will be here again next week, so if you want any new things for the children in Dresses, in Stockings or anything in the Dry Goods way, come along. You'll get a bigger assortment here than elsewhere, and better values, too. A good mother wants nice-looking, comfortable, wearable things for the child. We show some new hard-wearing stuffs that have some beauty about them as well as durability—closely-woven fabrics for clothes for the roughest-on-his-clothes youngster who needs something strong.

FALL FANCIES.

Lots of new Fall things are here now. Some particularly nice things in Tweeds for Tailor-made Suits, and sure to be of a great deal of satisfaction to women who like character and quality in what they wear. Prices are very, very low—in fact when you see them you will wonder how the Goods can be made for so little.

NEW SILKS.

A grand assortment of Silks now in. Some particularly grand effects in Fancies for Novelty Waists. They're worth seeing whether you want to buy or not. Also a full assortment of Black and Coloured Taffetas for Waists and Skirts. Remember we guarantee our Taffetas.

FASHIONABLE BELTS

You get all the style in a Belt when you buy it here. We have the variety in both quality and price. Nearly all of them have the new pointed long waist effect now so popular with ladies of taste. We're showing something new in Black Velvet Belts, with Black, Gilt and Oxydized Buckles. The Stock is so large and the assortment so good that we are sure you can select a Belt to suit you exactly. Prices for these Velvet Belts are from **25 cents** to **75 cents** each.

THE STONY LAKE DEER ADVENTURE.

Authentic Account of the Exciting Chase.

The Breeze Party Give Interesting Details of How They Lassooed the Monster Buck.

"Glenwood," Breeze's Island, Stony Lake, Aug. 27.

Last Wednesday afternoon the head of Stony Lake was the scene of an incident of, to say the least, infrequent occurrence. A party largely made up of Rochester and Toronto people, spending their outing at Breeze's cottage, left the island for the head of the lake on a fishing expedition. Mr. Breeze took as many as he could accommodate in his launch, and towed the rest in canoes. When they reached Indian Island the company separated, each boat going its own way.

The Rochester men, Mr. M. A. Palmer and Mr. A. R. Tower, retired to a secluded spot for the purpose of bathing, and while thus engaged their attention was attracted by a crackling of the underbrush, on the island directly opposite. Mr. Palmer's imagination promptly suggested "deer," to which Mr. Tower replied it was "more likely a cow." Hardly had these speculations been expressed when

A LARGE BUCK

broke through the thicket, and then plunged into a narrow channel, and struck out for another island, which it reached in an incredibly short space of time.

It is needless to say that the bathers speedily threw their clothes into the canoe, stopping only to put on just enough to cover themselves, and started paddling. In the meantime Mr. C. E. Palmer and wife, who were patiently waiting in a cove for the bass to bite, saw the deer and gave the alarm. In another skiff near-by were Dr. J. A. Gibbons and Mr. H. C. Kennedy, of Toronto, and Mr. Breeze, the well known old-timer of the Stony Lake Region, also Dr. Temple, Mrs. Temple, and child, Toronto. When Mr. Breeze, although well along in the sixties, scented the game his sporting blood arose, and the chase began. In the meantime Dr. and Mrs. Temple cautioned the party to use no violence on the deer, as it was contrary to law to kill deer at this season of the year. Mr. Breeze, anxious to give his friends a taste of some good Canadian sport, shouted,

"GET AFTER HIM, BOYS!"

And away they went, chasing him from one island to another, till finally he started to swim the main channel, a distance of about one mile. Three canoes followed in pursuit, and in a short time it became clear to the deer that he would be overtaken, and to the amazement of the hunters, he stopped. For a second they seemed to hesitate, then at a word of encouragement from the old-timer, on they went again. The buck waited till the first canoe (Mr. Breeze's) was nearly up to him, and then swam towards the shore, but was cut off by Messrs. Tower and Palmer's canoe. The deer then swam in a circle for fully fifteen minutes before cornered. Finally, when his strength was nearly spent the three canoes closed in around him, and numerous attempts were made by all to lasso him, but all were failures till Mr. Palmer paddled his canoe right up on the back of the animal and threw the rope around his horns. In doing this the deer raised up and tried to throw the canoe, and nearly succeeded in dumping out the clothes of the erstwhile bathers. When lassooed the buck made several attempts to climb up into the canoes, but nothing serious resulted. He then struck out for shore, and towed all the canoes for some distance. At this point Mr. Cox, another Rochesterian, came up, with his face covered with baby powder, and took a hand. Then followed a discussion as to what should be done with the deer, which was now trying to drown himself. It was finally decided that, having had fun enough for one day, the rope should be cut, which was done, and the noble animal, who had made such a plucky struggle for freedom, was liberated. It then swam over to an island opposite the Indian Reserve, and the party returned to their fishing beds.

HOW THE DEER WAS STARTED.

When the Breeze party arrived at the Indian Reserve island, a number ladies and two gentlemen, who did not intend fishing, were left on the island, while the rest of the party proceeded in canoes to have a tussle with the gamey bass. The two gentlemen were J. C. Forgie, Esq., a lumber merchant of Pittsburg, Pa., and W. Menzies, of the Examiner. As this island is well covered with good pine timber, Mr. Forgie, who was particularly interested, suggested a tramp through the woods. It was while these two would-be wood rangers were investigating the pines that the deer was startled from its haunts, and becoming alarmed took to the water at the opposite side of the water.

RIVER AND LAKE NOTES.

Steamers Still Doing a Lively Excursion Business.

The City of Peterborough carried a big excursion from Cold Springs to Jubilee to-day.

The Water Lily and Rainbow brought up a large crowd from Hastings this afternoon.

The Sons of England excursion on the City of Peterborough proved to be a very successful affair last night. All were well pleased with the outing.

A private party goes down the river on the Water Lily to-morrow evening.

The Saturday evening excursion of the City of Peterborough to Rice Lake is cancelled on account of the big T.A.S. excursion on this steamer to Jubilee on Monday.

A private party has chartered the City of Peterborough for a trip to Jubilee to-morrow afternoon.

The Port Hope Knitting Works are showing this week a great range of evening shawls and fascinators in all the most desirable shades and prettiest colours, in wool and silk, at 25c, 50c, 75c, $1.00, $2.00, etc. Be sure and see them—they excel everything hitherto shown.

NEWS NUGGETS.

—A large drive is on the way down the Otonabee River.

—Matters were quiet at the police court this morning.

—The village of Marmora is to have electric street lamps.

—The North Star's daily trips down the river will continue until September 15th.

—Quite a number intend going down the river duck shooting at the commencement of the season.

—Woodstock's rate is 22 mills on the dollar; Marmora's is up to 27 mills. Happy Peterborough!

—A private moonlight excursion will go down the river to-morrow night per steamer Water Lily.

—In the latest list of patents issued is one to Mr. Wm. C. Buck, of Peterborough, for an eccentric chain lift pump.

—About a dozen young people drove out to Chemong last evening, and enjoyed a few hours dance at the hotel pavilion.

—Turnbulls have opened their dressmaking parlours for the season. Ladies wishing early fall costumes or dresses can now procure the new materials and have them made up at once. 2d-1w

—Mr. L. Spry, of Stewart street, feels "pretty spry" over his tomato crop. He thinks they can't be downed by any back-yard gardner in the town. Some of them weigh three pounds. They are a rich rose-coloured, solid, meaty variety.

—It is part of a manager's duty to herald his as the greatest attraction in the world, and it must be a gratification when the press and the public save him that trouble by doing the proclaiming for him. Such is the case with Roland Reed's comedy, "Humbug," for its management spoke so truly of its merits that since its first production before the public they have had less and less to say, and the public more and more in laudation. "Humbug" will pay a visit to the opera house on Sept. 6th, and if we are to believe half of the good things said of it, it will amply repay all to go and see it.

CHEESE BUYERS.

Victoria Co. Board Discusses the Action of Buyers in Peterborough.

In connection with the meeting of the Victoria County Cheese Board on Monday, the Lindsay Post publishes the following extract:—

Mr. Wm. Flavelle read from the Peterborough Examiner part of the proceedings at the last meeting of that board, when several salesman complained of the action of Buyers Cook and Bailey in refusing to take cheese at the price offered on the board, they stating that there was no guarantee that when sales were made the cheese would be accepted, even if first-class.

Mr. Flavelle was glad to be able to say that such practices had not obtained a foothold on the Lindsay board, but there was one suspicious case where the make of three factories purchased at a high price had been juggled with, and refused at the price bid. He did not believe there had been sound justification for the buyer's action. On the Peterborough board, in case of a dispute, the board referee was called on, and if he declared the rejection unfair it saved the maker and placed the loss on the patrons. The principle that buyers were at liberty to reject cheese was a vicious one, and he hoped it would never be recognized in Lindsay. More than that—he believed the board should anticipate the possibility of such action being attempted, and he would advise that any buyer so offending be refused the board privileges. Peterborough should have taken that stand. He regretted that Mr. Bailey, who was principally concerned, was not present to offer an explanation.

Mr. Clancy, salesman for Pine Grove, (one of the factories refused by Mr. Bailey at last sale) read a letter from a Scotch commission house to whom he had consigned the cheese refused by Mr. Bailey as being damaged. The firm stated that they liked the cheese very much, allowed a good price for it, and asked that further shipments be made at intervals.

Mr. Fitzgerald—"Peterborough prices have ruled too high all season. I haven't bought much on the board, but have done a good business on the side in cheese refused by other buyers, or withheld by factories. I have made up my mind not to go beyond my limit at any sale."

Mr. Whitton admitted that Mr. Flavelle was justified in his criticism of the practises followed on the Peterborough board; harm was being done, and unless a change took place the confidence of the salesmen would be shaken.

Boys' School Suits.

The school holidays will soon be over, and parents will be planning to send their boys back to school dressed like little gentlemen. H. LeBrun & Co's stock of ready-to-wear school suits for boys was never more complete than now. We have been thinking about the boys and made great preparations for them. Bring them to the City Clothing Store before school re-opens. We show a great assortment of boys' single and double breasted suits and jaunty blouse and sailor suits — smart, handsome garments that parents love to see on the little fellows. All highly desirable suits that are well worth a quarter more than the prices we ask for them. Good news to mothers, too, who are looking for remnants in tweed, to make up at home. Lots of good all wool tweed from one to three yards long, for pants, coat or whole suit, at wholesale price. H. LeBrun & Co.

SPORTING PASTIMES.

BOWLING.

Appended are the results in some of the bowling contests last night:

F Walden, W Smith,
Wm McCreary, 5 W J English, 16
Dr McClelland, E Oles,
K G Lech, Geo Giroux,
T E Bradburn, W F Johnston,
R Kerr, M Green,
P H Dixon, sk...16 Dr Moher, sk.....7

During the evening Skips Bradd and Complin played off a scheduled match which resulted as follows:

E Wasson, Dr Burnham,
W J Green, W F Johnston,
E C Complin, sk.....16 Dr Bradd, sk...6

AT THE BUTTS.

Amongst the local men who were winners at Ottawa yesterday were Jos. Gibson, $5; J. B. Pentland and A. Blade, $4 each in the Borden Memorial; W. H. Moore, $6, and C. Curtis, $4, in the Dominion of Canada.

SPRINTING.

On Saturday last a very exciting race took place on the P. A. A. A. grounds between C. Martyn and J. Jones. Jones looked in the pink of condition as he faced the starting line. Martyn, though not in as good condition, proved himself to be too swift for him, winning easily. This 100 yard race was run in less time than the 85 yard race which took place between Martyn and McGrath at the Oval on the 17th inst.

A PROMISING COLT.

Mr. George Lipsett of the Maple Leaf Hotel, Ashburnham, is the proud possessor of a colt of which great things are expected. It was born on Sunday morning, and for its age is wonderfully symetrical in form, and stands up very straight on its legs. If it fulfils the promise given by present appearances the little Ashburnham colt will be heard from on the Grand Circuit in three or four years. Its dam is the fast grey driving mare which has been owned by Mr. Lipsett for some years, and the sire is Alex. Patterson's splendidly bred horse, "Harold Hartwood." As the foal was born on Sunday, wine could not be opened to mark the occasion, but there is something waiting for most of Mr. Lipsett's friends at the Maple Leaf.

LACROSSE.

The Toronto Star, in commenting on the Brantford-St. Catharines' lacrosse match, says: On the authority of a man who ought to know, we have it that the people of Brantford lost over $6,000 in money bet on this lacrosse match. This does not include the bets made on the Brantford team by people in Toronto, and in other towns and villages. Betting was not done in a way to attract publicity, but it was done none the less with a vigour and to an extent seldom equalled in connection with lacrosse in the C.L.A. Possibly betting in connection with such a match as this cannot be prevented, but we think it can and should be deplored — not so much for the sake of those who were demoralized by losing and by winning, but for the sake of the game itself as an amateur sport. The backer of a lacrosse team who loses two to five hundred dollars on a match, will feel that the game owes him money, and he will use his influence and his ingenuity to put up a deal — honest enough perhaps, but maybe not quite in accordance with the principles of amateur sport — by which he will get back his own, and more. The big bettors of Brantford and St. Catharines will next year want winning teams, even if they have to hire players at big figures. If thousands of dollars are bet on a game the effect is to make the play desperate, and ultimately to make it dishonest, for the man who is hired at a fancy figure to shoot goals for side, can easily earn ten times as much by failing to shoot the goals.

The present lacrosse season has emphasized more than ever the utter uselessness of a field captain. Why such an official is tolerated has been a problem among enthusiasts for some years, and no satisfactory explanation has as yet been forthcoming to account for his presence on the lacrosse field. It is no difficult matter to see what he is for, viz., to direct his team in their play, but it is extremely difficult to understand how lacrosse would suffer by his extermination. A field captain is as unnecessary to the well-being of lacrosse as the appendix is to a man. As long as the latter remains inactive no evil results arise, but once let it come to the front, and its strong features become very evident. So, too, is it with the field captain in lacrosse. Let him confine himself to the directing of the team's play and his use is apparent, but it all ends there. It is extremely hard to understand why a lacrosse team cannot direct its own play, without the introduction of a man who has no part in the play himself. A field captain was in years gone by a functionary whose usefulness consisted largely in making a noise, and in endeavouring to make his team win by shouting orders to the players. Within the last two or three years, this formerly largely ornamental fixture in lacrosse matches, has developed, and the development has been along lines that can do lacrosse no great good. He has been very active in his hustling about, and his main business this year seems to be to block the opposing team. That feature of the field captaincy is what is obnoxious and it bids fair to cut out the author of it. It cannot come too soon.

YACHTING.

Considerable excitement has been caused in yachting circles during the past few days over a despatch from Boston to the effect that Sydney yachtsmen, who had Mr. G. Herrick Duggan design the Cibou, winner of the Prince of Wales' Cup at Halifax recently have decided to challenge for the America's cup, in the event of Sir Thomas Lipton failing to lift it. Leaders of the syndicate, it is said, who are interesting themselves in the matter, are Mr. H. M. Whitney, of the Dominion Coal Company, Mr. A. J. Moxham, manager of the Dominion Iron and Steel Company, ex-Mayor Stephens of Halifax; Mr. Leroy Williams and others. The point most interesting to Montrealers in particular is the fact that Mr. G. Herrick Duggan, of Montreal, will be asked to design the challenger, in the event of the Canadians going in for the big cup.

Yachtsmen, in discussing the rumour feel certain that a boat could be built in Canada that would give the Americans a close race, and if there is a possibility of a race between the United States and Canada for big raters interest in yachting will increase throughout the Dominion. It is a well-known fact that the Royal St. Lawrence Yacht Club, if circumstances were favourable at Lake St. Louis, would have built larger yachts in the past, but owing to the limited water space and the narrowness of the river channel, it was out of the question to go further in yacht designing than has been the custom for models in the Seawanhaka Cup series.

The outcome of the America's cup races this year will now more than ever have special interest to Canadian yachtsmen.

TRADING STAMPS FOR THE ASKING.

R. McWHINNIE

'PHONE 230. 284 GEORGE STREET.

"PEACE TO ITS ASHES"

Is the soliloquy of the young man who smokes one of CHARLEY LEGROS' Pure Havana Cigars. The whole affair is invariably consumed in smoke.

HOW TO TELL A GOOD CIGAR.

A cigar made of Pure Havana Tobacco burns a clear, gray ash that does not flake, and clings solidly to the "butt" at the finish. When a man hangs on to a good cigar until he is obliged to use a tooth-pick to hold it and avoid burning his fingers to get the last few whiffs, it does not require the wisdom of a Soloman to infer that he has run up against a mighty good Cuban—the kind that Charley LeGros imports. That accounts for the large sales of these fine flavored and well made cigars at

Direct Importer Cigars and Pipes. C. LeGROS "Tony" Tonsorial Parlour in connection. 339 George Street.

Grand Buying Opportunity

Here's another grand buying opportunity for the people of Peterborough:

JINGLES AND JESTS.

Mary's Bird.

Mary had a little bird
That once was full of song.
And everywhere that Mary went
The birdie went along.

She did not keep it in a cage;
There was no need of that.
The birdie couldn't fly away;
'Twas fastened on her hat.

Very Disagreeable.

Summer Belle—There go two of the most disagreeable men I've met this season.

Friend—Are they? Why?

Summer Belle—One of them stares me out of countenance, and the other won't look at me at all.

Smooth Shod.

Blue Bottle Fly—That common fly over there looks horribly clubfooted.

Earwig—Oh, he's all right. He wears his rubber overshoes all summer so he can't get stuck on those gummy papers people leave lying around so carelessly.

For Remembrance.

Oh, sharers in the garnered wealth of earth,
Who by cool strands or on high mountains stray,
Remembered in your hours of pampered mirth,
Remember those who cannot get away!

Moonlight on the Beach.

He—I wonder how they ever became engaged.

She—Their accounts differ. She says he threw himself at her feet, and he says she threw herself at his head.

Overstocked.

"I argued and argued with young Nibbs to have more self esteem."

"Was he influenced by your efforts?"

"He's got so much now that I can't stay around where he is."

Saved by Obstacles.

I'm glad there's a wide, deep sea
Between Great Britain's shore and me,
Else might I strive, without avail,
To haunt King Edward's rummage sale.

An Overflow.

First Financier—Are you getting much out of that new oil well?

Second Financier—Are we? About $5,000 a week, all in $5 subscriptions.

A Tender Touch.

"Mamma, dear, didn't you say I was worth millions to you?"

"Yes, darling. Why?"

"Could you give me 25 cents?"

High Old Times.

Alligator steak an catfish stew,
Big yam taters an mountain dew;
Lean cow hill fer de barbecue;
High ole times in Georgy!

A Friendly Tip.

"I wonder what makes my eyes so weak."

"I don't know, unless it's because they are in a weak place."

Not Her Fault.

Mr. Horse—Say, you look horrid with your hat all on one side.

Mrs. Horse—Well, I can't help it; I've lost my hatpin

Possibly.

Some morn we may wake from our slumber
And find, in this wonderful age,
That the automobile's a back number
And that flying machines are the rage.

An Inquiry.

He—Our business club is to have an outing tomorrow.

She—Indeed! And how much do you expect to be out?

Hot Weather Pabulum.

Librarian—Would you like a historical novel?

Young Woman—No; I'd like a hysterical novel.

Discontent.

This world is a peculiar place;
We kick both night and day,
But when it comes to leaving it
We somehow want to stay.

Wise Too Late.

"Tommie, you don't seem very well."

"No, maw, I ain't. I wisht I had let sister eat that third piece uv pie."

Human Nature.

To err is human. Yes,
And yet we know
More human 'tis to say,
"I told you so!"

Scored.

He—Women are a delusion and a snare.

She—It's curious how people will hug a delusion, though.

Cold Stuff.

In long, hot days it comes to me
Why men fare north so constantly
To seek the frozen pole. They raise
Refreshing news for long hot days.

What is Life to You?

If you are a victim of piles, as one person in every four is, you suffer keenly from one of the most torturing ailments known to man, and may well wonder if life is really worth living. Certain relief and ultimate cure is awaiting you by means of Dr. Chase's Ointment. It has never failed to cure piles. Painlessly and naturally it allays the inflammation, heals the ulcers and thoroughly cures this wretched disease.

Mothers' Help.

Every wearied mother finds in Surprise Soap those qualities which rob wash day of its terrors.

It does the work in half the time of other soaps; it makes the clothes clean and wholesome; it allows the housewife plenty of time to attend to other important duties.

Surprise Soap contributes more to the sum total of domestic happiness than any other article that enters the household.

For best results, follow the directions on the wrapper.

St. Croix Soap Mfg. Co.
ST. STEPHEN, N. B.

SOME GOOD MAXIMS.

Many practice humanity to get the under hold.

Some people kick at everything they don't understand.

If you expect to make anything, expect to make mistakes.

Set your stake, and before you reach it set it farther ahead.

He that opposes us sharpens our wits and becomes our helper.

I would rather fail and know the cause than succeed and not know why.

It is a mistake to eat all you can, spend all you have, tell all you know or show all you feel.

Many people labor like an ox or a mule and have to be pressed or they will not earn their feed.

We look backward regretting or forward hoping, while the present stands offering us flowers.

Show me a man who has never made a mistake, and I will show you one who has never tried anything.

If we could get a shield from the fear of things that never happen, our troubles would be reduced 90 per cent.

If you don't know where success lies, perhaps you know where it is not, and that will show you what to avoid.

A bad pup often makes a good dog, and I would rather undertake to reverse the force of a bad man than lend my own to a weak one.

You can't escape criticism, for if you save your money you are a miser and a hog, and if you spend it you are a spendthrift and a dog.

Don't tell me what you have of beauty, strength, education, money or genius. The only thing I care to consider is what you are doing with it.

I can tolerate a man who fails to acquire an education or one who never gets a dollar ahead, but soon grow tired of a person who does not have sense enough to have a good time.

WAY FREIGHT HOTEL

Proprietor of the Popular Montreal Hostelry Talks About Dodd's Kidney Pills.

Used Them Some Years ago for a bad Case of Kidney Weakness—Recommends Them Highly to all Those who are Worried by any Urinary Sediment.

Montreal, Aug. 25.—Dan W. Allan, proprietor of the Way Freight Hotel here, made a strong statement about the well-known remedy Dodd's Kidney Pills. Mr. Allan's hotel is at 463 St. James street and enjoys considerable popularity with railroad men.

Some of the latter were discussing ailments peculiar to engineers, brakemen, firemen, conductors and train crews generally. It was acknowledged that the greatest difficulty a railway man has to contend with is Kidney Trouble. The continual jarring of the train weakens the filters of the system and various forms of Kidney Trouble result.

"Every man that works in an engine cab or on any part of a railroad train ought to use Dodd's Kidney Pills," said one man.

"Are Dodd's Kidney Pills what they're cracked up to be though?" put in a second.

"Yes, sir," returned the first emphatically. "Dodd's Kidney Pills are what they're cracked up to be and I'll leave it to Mr. Allan."

"Gentlemen," said Mr. Allan, "I firmly believe Dodd's Kidney Pills will do everything that is claimed for them. They are a genuine medicine. They cured me of Kidney Trouble, I know that. My urine was full of a kind of red brick dust for years. I know it was my kidneys, but could get nothing to stop it. Two boxes of Dodd's Kidney Pills did the work finally and I've been all right ever since."

Iceland exports sulphur, Iceland moss, wool, dried fish, sealskins and oil, whale oil, and baleen, eiderdown, bird skins and ponies. Its manufactures are entirely domestic.

A TRUE FISH STORY.

The Peculiar Adventure of a Wedding Ring.

"About the queerest fish story I know of," said a highly truthful looking man—indeed, he was a clergyman—"happened to me at a little lake in Wisconsin, where I used to summer with my family. One day my wife was out in our boat with a party of friends. She was letting her hand trail in the water, without thinking about its shrinking effect, and when she finally took her hand in her wedding ring was gone. The lake was deep at that point, and although we made considerable effort to recover the ring it was not found.

"Naturally it worried her a good deal, and the next year she would not go back to the same place, nor did we go the following year, but the third year we went there again, and one day I was in the woods about a mile from the lake with my boy, trying to get a shot at some denizen of the forest or other. As we went peering around among the trees to get a squirrel we had seen I noticed something shining on a twig of a tree about 25 feet from the ground. I sent my boy up after it, and when he came back I was more than astonished to find that the shining thing was my wife's wedding ring.

"How it ever got there was a mystery at first, but I was not a believer in fairies and that sort of thing, so I began to investigate for material causes. The top of the tree had deadened, and with a suspicion in my mind I sent my boy up to see what signs might be above the green boughs. He called down to me presently that there were remains of a fishhawk's nest in the forks of the tree, and, putting this and that together, I came to the conclusion that the hawk had caught the fish that had gobbled up my wife's ring in the lake and had taken it to the nest for the young hawks. They didn't care for jewelry and had left that part of the fish in the nest, from which, as the nest was blown to pieces by the wind and beaten by the storms, the ring had dropped out and by chance had caught on the twig where I found it. In any event, if that was not the way it got there, how did it? For it surely was there and my wife is wearing it today."

Bronchitic Sufferers

Act foolishly. If they improve ever so little when the fine weather comes, they relax effort and drift back into the old condition which if possible, becomes more chronic. Hit Bronchitis hard in the summer and you'll get rid of it and drive it right out of the system. In winter it is almost impossible to do this. Inhale Catarrhozone regularly, it's a dead sure thing on Bronchitis. It goes into the most minute air cells of the lungs, bathes all parts of the bronchial tubes with its healing, germ destroying vapor, and cures every time. Highly endorsed by all competent druggists and doctors. 25 cts. and $1.00.

Binged on the Cows.

The London Outlook speaks of a lover with an agricultural cast in his eye which boded ill for his lass.

He was a dairyman who owned 30 or 40 cows. He was arranging with the minister about his wedding and was bidden to name the hour.

"Well, sir," he replied, "I canna say just to an hour or so. There's the cows, ye see. But I'll be there as soon as ever I can."

Grazing Wound of Modern Bullets.

The wound caused by a modern bullet when it merely grazes the skin is well described by Dr. A. Horman, an army surgeon, who says that such an injury gives the appearance of a skin burned by a hot iron rod laid upon it. This, he says, is due to the removal of the superficial epidermis, exposing the true skin, which becomes brown after a few hours.

Be natural, and you can't go very far wrong. If this course lands you in the penitentiary, you will be more useful there than elsewhere.

Don't lose any sleep on account of slander. It will rub off when it gets dry.—Chicago News.

If you take a Laxa-Liver Pill at night before retiring, it will work while you sleep without a gripe or pain, curing billousness, constipation, dyspepsia and sick headache.

Nos. 1 and 2 sold and recommended by all responsible Druggists in Canada.

No. 1 and No. 2 sold by all responsible druggist in Peterborough.

COME JUST TOO LATE.

SOME PEOPLE ALWAYS LEFT BEHIND BY THE OCEAN LINERS.

They Are Known as Laggers Along the New York Steamship Piers, and They Generally Manage to Raise a Rumpus on the Dock.

"There he comes," growled the old watchman at the entrance to the steamship pier, swishing his stick as a hansom clattered circuitously through the jam of wagons and trucks.

The warm looking man in the cab was wriggling around in the seat and bawling at the driver to make haste, and the jehu in turn was bowling at the truckmen under the shed to turn out and give him room. The "All ashore!" and "All aboard!" words had already been passed on the steamer and on the pier, and the unshipping of the gangways was in progress.

"I was waiting for him," went on the old pier watchman. "I knew he'd be along, I wouldn't have felt comfortable if he hadn't showed up. I don't think a ship could have any luck on her passage if there wasn't at least one of 'em. Sometimes there are several of 'em."

"Several what?"

"Laggers, we call 'em," replied the old watchman—"folks that stop on their way to a steamer to play marbles or jacks or pegtop—the ones that come scrambling along when the chief engineer's standing by to get his first bells from the bridge. I've been standing watch along the fronts of these docks since the days when the side wheel packets had the passenger trade of the western ocean, and not once have I seen a boat all ready to slide out without one or more of these laggers banging up at the last minute.

"They're about equally divided between men and women. And when they're left they always carry on in a boghouse manner. If the lagger is a man, he'll as likely as not dance around on the end of the pier, and shake his fist at the ship out in the stream, and bawl about the thing being a put up job, and threaten to sue the company or burn down the pier, and keep up a 'cussin' like Horrible Bill, and abuse the agent and all the rest of the company employees on the dock, and act in general like a longshoreman with two quarts of the barrel house stuff under his belt strap.

"When the lagger that's left is a woman, she acts differently, of course, but she gives us a run for our money at that. She generally stands on the dock and after handing her bag and parasol and gear to her maid yanks out her handkerchief and weeps. Then when the first misery of it's over she gets mad and begins to say things. She always declares that the ship has got under way at least two hours ahead of its advertised schedule time, and the more she talks the hotter she gets. When she at length suddenly remembers that most of her clothes and jewelry are on the ship, that's about rounding Governors island at that time, she gets hysterical, and when a woman gets hysterical on a steamship dock you can bet that there's plenty doing for all hands and the cook.

"Funny thing about the woman lagger who's left and whose clothes are aboard the steamer that's gone off without her is that she wants to send about a dozen cable dispatches right from the dock before the ship's got as far as the Battery about what's to be done with her trunks when the steamer reaches the other side. There is no use trying to tell her that she's got plenty of time for that and that she would do better to think it over during the five or six days that it takes the steamer to cross. She seems to have the idea firmly fixed in her mind that the company's going to try to rob her of her gear and that the ship's due in Europe some time before lunch and if she doesn't do a lot of cabling before she quits the dock she's due to lose her wardrobe and gewgaws.

"Some of the women laggers that get left, though, don't get weepy a little bit, but the conversation that they work off when they see the ship belching black smoke out in the channel is some sultry and no mistake. One of these women that sing in grand opera, a foreign woman of some kind she was, French or ginney or something like that, came racing down in an automobile about three months ago, only two minutes after the ship had set her nose down the bay. Well, say, I was glad then that I didn't know any foreign languages, for if I'd known what she was saying I'll bet a hat I'd have been shriveled up. She just stood on the end of the dock and talked at the state of New Jersey over the way.

"She was a fine, handsome, big woman, and they tell me that on the stage she sings like a bird on an apple limb, but there wasn't any sing in her voice that morning. You'd have thought she was tearing up the old man for coming home on a Saturday night with a bun on and breaking the crockery in the cupboard. I'm telling you straight that she swept up and down that pier for 80 minutes talking without a break, and I saw all the ginney truckmen on the dock crossing themselves and sticking their fingers in their ears, so that she must have been whooping it up a-plenty.

"She tossed her head around so much that all of the combs and hairpins came out of her hair, and the fine, glossy black bunch tumbled down below her waist without her knowing anything about it. She certainly made a fine picture, but her maid didn't appear to be enjoying herself a little bit. The maid was dead careful to circle around the singing woman at an average distance of about 14 feet. I guess the maid was thinking about her own hair. There was enough excitement that morning on this dock to last for quite a bit."

Just then a sleepy looking messenger boy plodded up to the pier entrance, carrying a splendid basket of choice fruits.

"She gone yet?" inquired the sleepy looking messenger of the old watchman.

"Nope, son," said the watchman—the ship had departed about half an hour before. "Hand it over, and I'll get it aboard."

The messenger passed the ornate basket of fruit over to the old watchman and shambled away.

"If there's any one thing that me and my old wife like," remarked the old watchman, holding up the basket and gazing admiringly at its contents, "it's fruit."

One of the most dangerous and repulsive forms of Kidney Disease is

DROPSY

for which Dodd's Kidney Pills are the only certain cure. In Dropsy the Kidneys are actually *dammed up*, and the water, which should be expelled in the form of urine, flows back and lodges in the cells of the flesh and puffs out the skin. Remove the filth which plugs up the drain. Restore the Kidneys to health. There is only one Kidney Medicine

DODD'S KIDNEY PILLS

OLD PEOPLE

Have a charm of their own when they are not weak and feeble, but hale and hearty, enjoying the sports and pleasures of youth though they cannot participate in them. The whole secret of a sturdy old age is this: Keep the stomach and organs of digestion and nutrition in perfect order. The young man who does not think of his stomach will be made to think of it as he grows old. It is the "weak" stomach, incapable of supplying the adequate nutrition for the body, which causes the weakness and feebleness of old age.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It makes the "weak" stomach strong, and so enables the body to be fully nourished and strengthened by the food which is eaten.

"I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not reach my case," writes Mr. G. Popplewell, of Eureka Springs, Carroll Co., Ark. "I felt that there was no help for me, could not retain food on my stomach; had vertigo and would fall helpless to the floor. Two years ago I commenced taking Doctor Pierce's Golden Medical Discovery and little 'Pellets,' and improved from the start. After taking twelve bottles of the 'Discovery' I was able to do light work, and have been improving ever since. I am now in good health for one of my age—60 years. I owe it all to Dr. Pierce's medicines."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Rural Art Criticisms.

Impressionist Artist—I paint things as I see them.

Farmer Wayback (kindly)—Do ye, maow? Don't ye think that mebbe some liver medicine would do ye good?—Somerville Journal.

Wore His Old Hat Home.

They were talking about getting bald. "Men wear their hats too much," the doctor was saying. "I have noticed that a great many business men wear them in their offices. The head should be kept bare as much as possible." "My partner always wear an old straw hat around the store," replied a Market street merchant. "He wears this in winter as well as in summer, or at least he did until last winter, when he had an experience that cured him of it.

"One very cold afternoon he left the office early, and as he walked briskly through the street he noticed in a rather absentminded way that he was attracting considerable attention. People turned and looked after him and laughed. It was not until he had walked five or six blocks that he realized what it all meant. He met a lady of his acquaintance, and when he went to raise his hat he found that he was still wearing the old straw one, having forgotten to change it when he left the office. Fortunately there was a hat store near by, and he went in and bought one more suitable to the season."

The Gallant Cabman.

Nothing perhaps produces quite so much wit from a cabman as a sense of being underpaid, which in most cases means that he has been justly paid. A lady who had been guilty of this kind of justice experienced the usual sense of discomfort when her driver straightened the palm into which she had just dropped her shilling and looked at her speechlessly. She was weakly about to add another sixpence when the cabby's sense of humor prevailed. He transferred the shilling to his pocket and smiled sweetly down at his embarrassed fare. "Course, missy," he remarked, "there was the pleasure o' drivin you!"—London Chronicle.

A Great Man.

I count him a great man who inhabits a higher sphere of thought, into which other men rise with labor and difficulty. He has but to open his eyes to see things in a true light and in large relations, while they must make painful corrections and keep a vigilant eye on many sources of error. • • • He is a great man who is what he is from nature and who never reminds us of others.—Emerson.

He Took It.

Host—So sorry you have to be going.

Guest—Indeed, I am too. By the way, I'm not sure about my train. It's 9 something, but—

Host's Eldest—It's 9:32. Pa said he hoped you'd take that one.—Philadelphia Record.

Inconsistency.

It shows how inconsistent we are when men's names are all spelled out on wedding cards, but not on divorce summonses.—Detroit Journal.

FLOWER AND TREE.

A single leaf of the orange tree, carefully planted, will often take root and grow.

Seven-year-old tea plants yield four ounces of leaves apiece, or 700 pounds of tea to the acre.

New Zealand has in its edelweiss a plant differing but slightly from the famous Swiss variety.

An oak tree at 100 years averages 41 inches in diameter, a larch 40 inches, an elm 50 inches and a yew 9 inches.

A white pine tree 20 years old ought to be about 25 feet high, and at 30 or 40 years of age it ought to measure about 60 feet.

The pest of British Columbia forests is a plant called the devil's club. It has spikes which, when they enter the flesh, break off and produce poisoned wounds, which fester.

Turning the Tables.

"Turning the tables," in the sense of bringing a countercharge against an accuser, has a classic origin. In the days of Augustus Imperator a regular craze seized the men of Rome to compete with one another for the possession of the costliest specimens of a certain description of table made for the most part of Mauritana wood inlaid with ivory—"mensarum insania," or table mania, as Pliny called it. They were sold at most extravagant prices. When the men accused the ladies of sumptuary extravagance, the latter naturally retorted by reference to the money squandered by their lords on these tables and so "turned the tables on them" by throwing them metaphorically in their teeth.

Frigga.

Frigga, from whom Friday is derived, was either a god or a goddess, according to time and country. As a man he was a great hunter and warrior, always represented with a drawn sword in one hand and a bow in the other. In the Scandinavian countries Frigga was called the "Venus of the North," and the sixth day of the week was consecrated to her worship.

The Cause of Dyspeptic Pains.

They arise from the formation of gas, owing to improper digestion. A very prompt and efficient remedy is Polson's Nerviline. It relieves the distention instantly, and by its stimulating action on the stomach, aids digestion. Nerviline cures dyspephic pains by removing the cause. Nerviline is also highly recommended for cramps, colic, summer complaints, and inflammation. Sold in large 25c. bottles everywhere.

Not Excruciating.

"I am surprised, my dear, that you suffer a man to kiss you!"

"But, mamma, I don't call it suffering."

At It Again.

Once more the lonely fisherman
Dusts off his book of flies,
Likewise his reel and pocket flask;
Also his last year's lies.

Easy to Suit.

Customer—Regarding that new suit, I think I should like a small check.

Tailor—So should I!

Humility.

In humble mood we will admit
The faults we have are glaring;
But that they're not like others' faults
Preserves us from despairing

RHEUMATISM

KINDS, CAUSE AND CURE.

Rheumatism of any kind is always attended with pain. There are in reality but two causes, although they manifest themselves in five or six different forms of rheumatism. Muscular rheumatism, in which the muscles in different parts of the body are inflamed, swollen and painful; joint rheumatism, heart rheumatism and lumbago all have their origin in the blood. This indicates a kidney weakness, and demands a kidney treatment. Then sciatica, neuralgia and shooting pain rheumatism has its origin in a vitiated condition of the nerves, from a general run-down condition of the blood. In each of the above forms and for all manifested symptoms of rheumatism there is no medicine which offers such a chance for cure as Merrill's System Tonic. It is not only a kidney medicine, but its blood purifying properties rid the system of all accumulated uric acid. Then, too, System Tonic is the greatest tonic, blood, bone and tissue maker known, and will enrich the blood, feed and revive the starved nerves, thus making a cure for your rheumatism from whatever cause. Several hundred hopeless cases have already been cured, and more are being cured every day. Will you try it?

Each 50c bottle contains 50 pleasant-to-take doses, and is sold

M. CONSTANS LEAVES

France and the Sultan Again at Daggers Drawn.

ABDUL HAMID BREAKS FAITH.

The French Ambassador Left Constantinople Under Instructions From the Home Government—The Porte Was Given Until Monday, 26 August, to Fulfil Promises But Failed to Make Them Good.

Paris, Aug. 28.—A semi-official note has been issued announcing that the Porte not having carried out its undertakings with regard to the disputed questions between the French and Ottoman Governments, M. Constans, the French Ambassador, under instructions, left Constantinople August 26:

An arrangement had been effected Aug. 19, and its terms drafted by the Ottoman Foreign Minister, with the approval of the Sultan, who had promised M. Constans that the text should be handed to him Aug. 18. M. Constans telegraphed to Paris 19, that none of the promises had been fulfilled and M. Delcasse, August 21, telegraphed M. Constans that in view of so flagrant a disregard of the undertakings of the negotiations could no longer be continued, and requested M. Constans to inform the Porte that he had received orders to leave Constantinople. On August 23 M. Constans communicated with the Porte, fixing August 26 as the date for his departure; and as the engagements were still unkept M. Constans left Constantinople on that day.

With the departure of M. Constans the relations between France and Turkey may be regarded as broken off. Munir Bey, the Turkish Ambassador to France, has been telegraphed not to return to Paris.

CHURCH COURT OPENED.

Rev. Messrs. Sanderson and McAmmond Standing Trial at Smith's Falls.

Smith's Falls, Aug. 28.—Excitement over the adventures of the Rev. D. C. Sanderson of Almonte and the Rev. Foster McAmmond of Perth is still intense in all this district, and the greatest interest is centered in the investigation into the matter, which began here yesterday afternoon. The Investigating Committee is composed of Rev. T. Tallman, pastor of Smith's Falls, chairman; Rev. Dr. Antliff, Kingston; Rev. Hugh Cairns, Morrisburg; Rev. T. J. Mansell, Brockville; Rev. D. Larmour, Easton's Corners, and the Rev. D. Cummings of Pakenham.

They met in the Methodist Church here at 3.30, and the investigation was private. The two men were here, and went before the committee, and made their statements. After that the committee mapped out a program to be followed.

Both the Rev. Mr. Sanderson and the Rev. Mr. McAmmond asked for this investigation, but, according to the rules of the church, someone must lay a charge against them, and this was done by the Rev. J. Pinel of Jasper, Ont. Both men are suspended from their ministerial duties pending the enquiry.

The True Tragedy of Life

is ill-health, disappointed ambitions, usefulness destroyed. Pathetic! nay, tragic. Poor blood, weak nerves, a tired brain. Is there hope? Yes! Because there is a cure.

Ferrozone Tablets make blood; not blue blood, but the fluid that strengthens the whole body. Ferrozone does this quickly by improving digestion, stimulating assimilation and by imparting health and tone to the whole system. Ormond & Walsh, druggists will tell you a great deal more about Ferrozone. Ask them to tell you of the wonderful curative properties of Ferrozone Tablets.

Could Not Face Accusers.

Hamilton, Aug. 28.—The sequel to the summoning of Rev. A. H. Tyer, until recently pastor of the Unitarian Church, on charges of misconducting himself, has caused quite a sensation throughout the city. When Mr. Tyer's name was called at the Police Court yesterday morning he did not answer, and a warrant was issued for his arrest. The officers who went to Mr. Tyer's boarding-house failed to find him, after a search of the house. Later in the day, Mrs. Tyer was horrified by receiving a letter from her husband, stating that he intended to kill himself and informing her that his body would be found in Woodland Park. The police found him in Burkholder's Bush, lying unconscious with his head resting on his folded coat. He was got to the General Hospital as quickly as possible. A bottle labelled "poison," was found in a coat pocket. The unfortunate man has been in poor health for some time, and his wife and friends say his mind is unbalanced. He became conscious about 11 o'clock last night, but doctors hardly think he will recover.

PREMIER IN TORONTO

Continued from 1st page.

continent or in the world. There are exhibitions outside of Toronto, but none of them greater than we have here. Spasmodic, ephemeral, they come like mushrooms and disappear like mushrooms. Enormous sums are expended upon their buildings, which glitter to the eyes.; Exhibitions which in substance or in name do not last more than one season. The Exhibitions of Toronto are annual, they are perennial, and flourish like flower and fruit with the passing season, but for the ages, and therefore I say to you to the citizens of Toronto, that too much credit cannot be paid to the organizers, the financial promoters and the financial managers of the Industrial Exhibition. They have founded a thing which will live and do a great deal not only for Toronto but for the Province of Ontario and the whole Dominion of Canada. They have spent their money upon these buildings, upon the lawns and the grounds. They did not expect to and do not declare dividends, but the profits have gone towards enhancing the beauty of this, the permanent Exhibition of Toronto. I agree with every word as to the benefit and the good not only to this Province but to the whole Dominion of Canada as a result of this Exhibition.

I have no right to speak here in any capacity except as a citizen of Canada. Speaking as a citizen, I take this opportunity to say that I would like to see in the City of Toronto a great Interprovincial Exhibition, embracing the organizations of all the Provinces. Likewise as Prime Minister, I would say that if there is in Canada a city entitled to hold a great Interprovincial Exhibition it is by all means the City of Toronto. (Loud applause.) We must give credit to whom it is due. There is no city which has done so much in that line as the City of Toronto. By-and-bye we may gather here and see in these buildings not only the products of the Province of Ontario, but of the Provinces of Quebec, Nova Scotia and all the Provinces of the Dominion. For my own part I believe the day is not far distant when we shall find in the City of Toronto the exhibits of the different Provinces, which shall meet here in rivalry, in industry, art and agriculture. (Applause.) Perhaps next year or the year afterwards we shall have in this city exhibits from the steel works of Sydney, Cape Breton, to compare with the steel works at the Soo, Ontario; the fruits of Nova Scotia to compare with the fruits of Ontario and Quebec, as well as the exhibits of horses and cattle from this and all other Provinces. I fear, however, that in respect to horses, and cattle we must give the palm to Ontario at once.

One word more. We have had, all of us, as patriotic Canadians, a stock-taking in the form of the census. (Laughter.) We have all been disappointed with the figures. I have no doubt they disappointed you. As a Quebecker, I am disappointed also. We have not done half enough. Our population has not increased as it used to do, when families numbered sixteen or seventeen persons. (Laughter.) We have been disappointed in that respect, but I hope that every man here feels as I do the pride of being a Canadian. (Applause.) I had believed that since our trade had so greatly increased it must take six million of people to make such a large trade. But we are not six millions, only about five million and one-third. Our neighbors to the south, our kith and kin, tell us that we have not done well, that we cannot do better until we throw in our lot with them. It is amongst nations as amongst individuals. If you have a good friend and he sees you are in trouble he will commiserate with you, but his commiseration will be tinged with joy if he himself is suffering from the same trouble. (Laughter and applause.) So it is with the American people. They are commiserating us because they see the Dominion has not grown so rapidly as they have done. But I look on the figures of our trade and on the figures of their trade, and I find that in their last fiscal year they exported and imported $1,125,000,000; that means, with a population of 75,000,000, a trade of about $29 per head. Canada exported and imported to the extent of $380,000,000, which, with a population of five and one-third millions, means a per capita trade of about $78. (Applause.) So that you see even with our limited resources we can trade man for man about two-thirds more than our American neighbors, so that we are not disposed to take much of their commiseration, but we shall say to them, "You try to do better and then come and tell us where we fail."

I have to thank you and the other gentlemen once again for the kindly sentiments you have expressed toward me, and the manner in which they have been received. The President has referred in somewhat flattering terms to my efforts to bind the Canadian people together. Those sentiments are my natural sentiments. I have always held them, they come natural to me; they were planted in my heart by God Himself. Need I say again that divided in religion though we may be, our one aim, mission and purpose is to be Canadians first, last and all the time. (Loud and long continued applause.)

St. Vitus Dance cured by Miller's Compound Iron Pills. Sold by W. Madill.

TWO TRAINMEN KILLED.

Engineer Mirorn and Brakeman Stone Die in a Collision.

Gananoque, Aug. 28.—At 3 a. m. yesterday an eastbound and westbound freight collided at Thousand Island Junction on the G. T. R. Two of the trainmen were instantly killed.

An eastbound freight on down track was crossing to up track to give a clear track to No. 8 train, the Eastern Flyer. When about half way on the cross-over a freight was seen coming on the up track. The morning was very foggy. The conductor of the eastbound freight signalled the approaching train, which was coming at a great rate of speed. The brakesman was also signalling the westbound train. Neither of these signals were answered until the westbound was about 100 feet away, when Engineer Mirorn applied the emergency brakes, but it was too late. He crashed into the eastbound train, demolishing ten cars, containing flour and merchandise.

The body of Brakesman Stone was found near the tender of the engine. Engineer Mirorn was also killed. His body is now, at 2 p. m., pinned under the engine, with from the waist up exposed. The fireman jumped and is uninjured.

Miller's Kidney and Bladder Pills cure headache, indigestion, rheumatism and all ailments caused by affected kidneys and bladder. Sold by W. Madill.

Watch Wearers

Probably your watch is not to blame—it would keep good time if you'd let it.

Every watch needs cleaning, regulating and a little repairing now and then.

Bring your watch to SCHNEIDER when there's anything wrong with it. We'll make it go right if there's any "go-right" in it.

All kinds of Jewelry skilfully repaired.

Schneider

Optician and Jeweler.

COL. GIBSON'S LUNCH.

The Great Event of the Day at D. R. A. in Ottawa.

MINISTER OF MILITIA SPEAKS.

Hon. Dr. Borden Discusses Militia Topics—Summary of Scores at the D. R. A. Matches—Hon. Mr. Tarte's Nerve in Evidence in Shooting Dangerous Rapids—East Lambton Liberal Nominations.

Ottawa, Aug. 29.—The great event of yesterday at the capital was the luncheon given by Colonel the Hon. J. M. Gibson, President of the Dominion Rifle Association, in the commodious headquarters of the association on the Rockliffe rifle ranges. Col. Gibson occupied the chair, having on his right His Excellency the Governor-General, and on his left Colonel the Hon. F. W. Borden, Minister of Militia. The remaining seats were occupied by a representative attendance of the leading riflemen of Canada. After full justice had been done to the excellent menu, a short toast list was honored.

The Toasts.

The health of the King and members of the Royal Family was drunk with enthusiasm, after which the chairman proposed the toast of the Governor-General.

In reply His Excellency, who was heartily cheered, expressed his warm sympathy with the work conducted by the Dominion Rifle Association.

The chairman next gave the toast of the Minister of Militia. In doing so he warmly eulogized Col. Borden and said that the Minister not only entertained a correct view of the necessities of the militia but succeeded in getting from his colleagues in the Cabinet all that he asked for. Since Col. Borden assumed office there had been a veritable revolution in militia matters, and the Dominion Rifle Association had derived the benefit.

Col. Borden's Reply.

Col. Borden, on rising to respond, was greeted with musical honors and round after round of cheers. The Minister in the course of an eloquent speech gave his predecessors the credit of having done their best for the militia, and said that it had been his good fortune to be confronted with splendid opportunities. In 1897 the Government sent a contingent to London to take part in the greatest demonstration the world has ever seen, on the occasion of the Diamond Jubilee of her late Majesty. Then a little later on we sent a contingent of a couple of hundred men to the Yukon. Some doubt about the wisdom of the proceeding was expressed at the time, but I venture to say that no more difficult operation was undertaken and accomplished than that of sending those men through that wilderness into the gold territory, and no task was ever better carried out. (Applause.) Then came the crowning effort of the Canadian militia, the greatest opportunity they have ever had, of sending a small army to South Africa to assist the Mother Country. (Applause.) But to turn to the affairs of the Dominion Rifle Association, His Excellency has told you that his distinguished predecessor, Lord Lorne, pointed this out as a suitable range, but I am bound to say that Col. Tilton is the man who first called my attention to the Rockliffe rifle range, and it is due to his perseverance aided by Col. Gibson and the other members of the committee that we owe the fact that we have this rifle range today. Someone said to me to-day that this was the best, although not the largest, rifle range in the world. Possibly that is a little exaggerated, but I venture to say there is no better rifle range as far as it goes, and we shall take care it is made as good as money can make it. (Loud applause.) The Minister went on to speak of the commercial advancement of Canada, and pointed out that during the last three years not only had there been a capital expenditure of $75,000, but from $25,000 to $50,000 additional had been expended in providing the country with rifle ranges. Not only that, but a school of musketry, which was largely due to the efforts of General O'Grady-Haly, had been inaugurated at Ottawa. This school had just completed its first course, and a very successful one it had been, thanks to the director, Lieut.-Col. Cartwright. The Minister believed that the establishment of the School of Musketry would prove to be one of the most useful measures ever taken in the interest of the militia of this country. He was in entire accord with those who said that it was most important to teach the Canadian militia the use of the rifle, but he did not agree with those who held that the ceremonial features of militia training should be dispensed with. If they did that they would dispense with things that were dear to the heart of the soldier wherever he might be. He proposed, so far as the money at his disposal would permit, to teach every able-bodied man in Canada how to use a rifle. (Applause.)

Continued on 8th page.

KILLED PRISONERS.

Three New South Wales Men Shot After Surrendering.

SWORN EVIDENCE OF THE FACT.

Lord Kitchener Received It, and Forwarded It to Steyn and Botha—What the Home Government Would Do—Lord Kitchener Urged to Issue a Drastic Proclamation to the Boers.

London, Aug. 29.—A despatch from Lord Kitchener, dated Pretoria, Aug. 25, says:

"Sworn evidence has been brought to my notice by General Elliot that on June 6 Lieut. Mair, of the New South Wales Artillery, and Privates Harvey and Blunt, were shot down after surrendering at Graspan, near Reitz.

"I have forwarded to Steyn and Botha copies of these statements."

London, Aug. 29.—The War Office has telegraphed to Lord Kitchener as follows:

"We understand that you have not yet received satisfactory assurances respecting the murder of our wounded at Vlakfontein. In view of the occurrences referred to in your telegram of Aug. 25, we are of the opinion that you should notify by proclamation that the members of any commando by which such an outrage is committed, who may be captured and, after trial proved to have been present on such occasion, will be held guilty, whether they actually committed the deed or not; that the leader of the commando will be sentenced to death, and that the other members will be punished with death or less, according to the degree of complicity."

Another Canadian Dead.

Ottawa, Aug. 29.—A cable received at the Militia Department yesterday afternoon says that Pte. Larion, of Palmerston, Ont., died at Pietersburg on the 15th inst.

Another cable says there is no change in condition of Col. Gordon at Cape Town.

Halifax, N.S., Aug. 29.—Four invalided members of Baden-Powell's Constabulary came by the steamer Siberian last evening. They were R. F. Burns, Medicine Hat; S. Bull, Woodstock, Ont.; R. Greaves, Vancouver; R. J. Lee, Montreal.

CHURCH COURT ON.

A Commission Will Be Sent to Syracuse to Obtain Evidence.

Smith's Falls, Ont., Aug. 29.—The second session of the Perth Methodist' Conference investigating the charges of misconduct against Revs. McAmmond and Sanderson adjourned at 11.12 Tuesday night. Rev. Mr. McAmmond, when seen, stated that he and Rev. Mr. Sanderson had made their statements, which were the same as those given to the press immediately on their return from Syracuse, and that the matter now lies in the hands of the conference.

Rev. Mr. McAmmond stated he could not understand how so much stock could be taken in the stories of the Ashley woman.

"She has given at least four interviews, which have been published in Canadian journals, and no one of them agrees with the other as regards time, place or as to what occurred."

He could not understand why this had not been noticed and this inconsistency shown up.

Rev. Mr. Sanderson would say nothing whatever, except that they had made their statements, and now awaited the decision of the committees.

Rev. Thomas Pitcher, chairman of the committee, when seen, stated that there was nothing for publication. The committee had not reached any definite decision as regards the securing of evidence. They met at 9 a.m., yesterday, and continued the investigation. It was decided to send a commission to Syracuse to collect evidence.

The court has adjourned to meet at the call of the chairman.

Fireworks Factory Blown up.

Hamilton, Aug. 29.—There was a terrific explosion in a storehouse at Hand & Co.'s fireworks factory about 8.30 last evening. Part of the roof was blown off and the report was heard half a mile away. No one was hurt. About $1,500 damage was done.

Britain Wants More Troops.

London, Aug. 29.—A special despatch from Shanghai says the British authorities at Pekin have telegraphed for more British troops.

Died Aged 103.

New York, Aug. 29.—Mrs. Catherine Howe, a descendant of the Howes of Johnstown, N. Y., died in Brooklyn last night. She was 103 years old.

The Cascade division of the Great Northern is to be equipped with electric motors for the operation of trains instead of steam locomotives.

WHEN WE BUY

DRESS GOODS

WE DO THIS:

DONT FORGET THE WHITEWEAR AT A REDUCTION OF 33 1-3 PER CENT.

We make a note of the firms in Europe and America that are noted for goodness, beauty and ingenuity of weave in their fabrics. We see the sample lines of such firms, then we pick out those things suited to the taste of Peterborough women.

The result of our late efforts for Fall, 1901, await you in our Dress Goods Department. It's not too early to be introduced to them. Might we enjoy the pleasure of making you acquainted with these Dress Goods and their values?

ON LABOUR MATTERS.

The August number of the Labour Gazette, which was issued on Monday, contains a number of interesting articles pertaining to the wage-earner. Among the articles is a history of labour organizations in Canada:

"The formation of local unions began in the province of Quebec, then Lower Canada. The movement which led to the formation of a national congress of the representatives of organized labour originated in Ontario. The rapid increase in the strength of organized labour in Ontario, and particularly in Toronto, at the beginning of the 70's soon attracted attention. Thus a campaign in behalf of the nine hour day in 1872, led by the Toronto Typographical Union, was marked by the arrest of leading members of the Typographical Union on the charge of conspiracy. The prosecutions against these men were finally stopped, and the Union gained the nine hours day. The struggle had served to still further stimulate the movement of organization among the working classes. The Toronto Trades Assembly took the first definite action towards the formation of a central congress by calling a convention of organized labour bodies throughout the country to meet in Toronto on September 23rd, 1873. At this convention it was unanimously decided to form a permanent organization or congress, to be known as the Canadian Labour Union. The convention was presided over by J. W. Carter, President of the Toronto Trades Assembly.

Since that time labour has made wonderful strides and has worked up to the prominent position it holds to-day.

The series of articles dealing with labour legislation in Canada, which was interrupted in the May issue, is resumed in the present issue in a special article dealing with the legislation in Canada for the protection of railway employees. In the article the various enactments affecting the safety and well being of railway employees is set forth, attention being paid not only to those direct provisions designed to protect railway men, but also to provisions in the railway acts and elsewhere designed for the protection of the general travelling public, but which gives incidental protection to the employees on railways.

The review of the rates of wages and hours of employment in the building trades, which was commenced in the June issue, is continued in this month's edition.

The progress of the industrial disputes during the month also form an important part of the publication. The details of the troubles of the local strikes during the month of July also make interesting reading matter.

The Ottawa correspondent of the Gazette says that "Business in all trades has been good and wages are running high. There are few idle men in Ottawa and that class in the district which works on farms is commanding this year much higher wages than usual owing to the heavy crops and scarcity of labour.

The Hull correspondent referring to the sweating system in the clothing industry in that city gives a report of the Provincial Factory Inspector Guyon who recently visited that city. In interviews with the Ontario and Quebec inspectors the correspondent says, that it is stated that 90 per cent. of the clothing sold in Ottawa is manufactured in Hull. One of the inspectors in an interview stated that about 150 or 175 of the Hull seamstresses were using sewing machines supplied by manufacturers for whom they worked and by whom they were charged $55 for the machines upon which they had to pay at the rate of $2 per month.

If "bons" were offered in payment, $2.50 in "bons" was required instead of $2 in cash. In one case in Hull, a widow and three daughters were engaged in making coats at 25 cents each. The inspector was further informed that it took one person a week, working from 7 o'clock a. m. until 9 p.m. to finish a dozen coats. One member of the family had to devote her time to the house work, and the other three were by their united efforts able to make $3 in wages per week.

"A feature of the past month was the decided stand taken by the factory inspectors of Ontario and Quebec, jointly in the matter of ready-made clothing. The statement made in the June number of the Gazette regarding the sweating system in Hull were quite borne out by the investigation made by Mr. Brown, Miss Carlyle and Mr. Guyon. It was found that seamstresses were paid one cent per hour in Hull. The sanitary inspection of homes proved most satisfactory, and by the joint action of the inspectors for Ontario, and Quebec, the Ontario label will be enforced upon the ready-made clothing firms of Ottawa."

At a moment when the people of Ireland are lamenting the latest census revelations as to the depopulation of the island, Cardinal Gibbons, departing for his see in America, offers them some consolation of a religious nature. He shows that thre has been an immense gain to the Catholic church in the United States. There has certainly been nothing more remarkable in the history of the migrations of peoples than the transfer of the bulk of the Irish race from a little island of western Europe to the American continent, where it has firmly established and widely spread the faith to which the race in Ireland clung with such tenacity through so many centuries. At the same time this transplanted people has fulfilled a prodigious industrial mission, highly profitable to the representatives of the people who had preceded it on this continent, and has allowed its large talents in the field of government, to become very active under American freedom. In the Roman church in America it is unlikely that the Irish race will ever lose predominance. The names of Gibbons, Ireland, Corrigan, Ryan and McQuaig, as they wane beyond the horizon of the grave so touchingly spoken of by Cardinal Gibbons, will be succeeded by kindred names redolent of the same faith and zeal.—New York Mail and Express.

HERB IS A POINTER.

Have you cold hands and feet, chills, pains in the back? If so your blood is impoverished and your constitution run down. "Climax" Iron Tonic Pills will positively restore perfect health. As a blood maker and nerve strengthener they are unequalled. Each box contains ten days' treatment. Price 25 cents, at all druggists, or mailed on receipt of price. Address: The Dr. Hall Medicine Co., Kingston, Ont.

Sugar Bounties Reduced.

Paris, Aug. 28.—The sugar bounties, having occasioned a deficit of 14,000,000 francs, the Minister of Finance, M. Caillaux, has issued a decree reducing them by 65 per cent., with a view of covering the deficit.

The Trainmen in Montreal.

Montreal, Aug. 28.—The trainmen had a conference yesterday with Mr. McNicoll, but it is not known if they talked of the strike. Apart from this there are absolutely no developments.

NORWOOD NEWS.

Miss Nellie Davis, of Ashburnham, is spending a few days in town the guest of Mr. and Mrs. Baker, Queen street.

Mr. Claude Pengelly, of Marmora, is visiting his parents this week.

Mr. Alex. Fraser, of Halifax, is around town again for a few days visiting friends.

Miss Mattie Becket, of Smith's Falls, is spending a few days with her mother.

Rev. Mr. Baker, of Indian River, paid our village a visit on Monday.

Mr. John Finlay was down east on Wednesday last.

Mr. E. P. Cuff went up to Toronto this morning for a few days combining business and pleasure.

Mr. John Chandler, Jr., of Windsor, is spending a few days with his parents.

The Rev. F. D. Roxburgh, M. A., occupied the pulpit of the Presbyterian Church on Sunday both morning and evening.

Mr. Harry Patterson, who has been away from town for some time past, is back renewing old acquaintances.

Rev. Mr. Cook, of South Dummer, conducted the services in the Methodist Church in the absence of Mr. Taylor on Sunday.

The Board of Education met pursuant to notice on Aug. 27th. Present,—Messrs. Thos. Fraser, Wm. Webster, W. H. Brethen, P. W. Stevenson, John McNaughton, Jas. Pengelly, Jas. Cumming, Thos. Robson and J. L. Squire.

In the absence of the chairman, W. E. Roxburgh, Esq., Mr. James Cumming was elected to the chair.

The minutes of last regular meeting and special meeting were read confirmed.

In response to the advertisement asking for a science master, nine were received.

Moved by Messrs. P. W. Stevenson and Jas. Pengelly, that Mr. F. B. Closs be appointed.—Carried.

Moved by Messrs. W. H. Brethen and J. L. Squire, that Mr. R. J. Forbes be second choice.—Carried.

Moved by Messrs. J. McNaughton and Webster, that Mr. D. A. McKay be third choice.

Moved in amendment by Messrs. J. L. Squire and Brethen, that Mr. R. Shaw be third choice.—Carried.

Moved by Messrs. McNaughton and Webster, that Mr. D. A. McKay be fourth choice.—Carried.

Moved by Messrs. J. L. Squire and Pengelly, that the secretary be instructed to wire the candidate chosen, and on receving his acceptance write and state subjects he will be expected to teach.—Carried.

Mr. J. L. Squire reported that Mr. J. A. McDiarmid had accepted the position as assistant principal of the public school during model term.

Cultivate Good Health

Feed the Nerves Enrich the Blood, Revitalize the Whole Body by Using Dr. Chase's Nerve Food.

Whenever there is an ache or pain, when the appetite fails, when there are sleepless nights, and momentary spells of weakness, look for the cause and see that it is removed at once.

Cultivate good health while yet there is something to build on, instead of waiting until the nerve force is depleted and vitality completely exhausted.

To persons suffering the results of thin blood and wasted nerves, Dr. Chase's Nerve Food supplies all the needs of the system and brings perfect health.

Mrs. E. McLaughlin, 95 Parliament street, Toronto, states:—"My daughter was pale, weak, languid and very nervous, her appetite was poor and changeable, she could scarcely drag herself about the house, and her nerves were completely unstrung, she could not sleep for more than half an hour at a time without starting up and crying out in excitement.

"As she was growing weaker and weaker I became alarmed, and got a box of Dr. Chase's Nerve Food. She used this treatment for some weeks, and from the first we noticed a decided improvement. Her appetite became better, she gained in weight, the colour returned to her face, and she gradually became strong and well. I cannot say too much in favour of this wonderful treatment, since it has proven such a blessing to my daughter."

Dr. Chase's Nerve Food occupies a field by itself, and is unique in the respect, that it cures by forming new, rich blood and nerve force, building up the system and increasing the weight.

It is a reconstructant, restorative and revitalizer of most unusual merit, which sends new life and new vigor to every part of the body, and gradually and permanently cures all nervous troubles and diseases, resulting from weak blood and low vitality. 50 cents a box at all dealers, or Edmanson, Bates & Co., Toronto.

Suppressing Cruelty.

Many a man who would be ashamed to strike a brute beast with a bludgeon has no shame in making a bludgeon of his tongue to strike human beings in the tender places of their being—their social sensibilities and their self esteem. Cruelty in its gross and outward forms we have in good measure suppressed, but the refined cruelty of the bitter word, the unloving censure, the abusive harangue, is not yet extinct. Let us be as careful of men's inner skin as of their outer.—Exchange.

ATHLETIC BICYCLISTS and others should always keep HAGYARD'S YELLOW OIL on hand. Nothing like it for stiffness and soreness of the muscles, sprains, bruises, cuts, etc. 1h

"System Tonic" Copyrighted

SYSTEM TONIC IS A SCIENTIFIC REMEDY AFTER THE SUGGESTIONS OF THE BEST PHYSICIANS IN AMERICA. DISPENSED BY A CHEMIST.

Fac-Simile of Genuine.

And in Peterborough at ORMOND & WALSH'S, leading drug store, corner George and Simcoe streets, or sent six bottles for $2.50, prepaid.

THE INTESTINES AND THEIR USE

Few people understand that it is in the intestines, which are about 25 feet long, that food is transformed into chyle, which being absorbed into the general circulation, is formed into blood. The intestines are composed of a spiral coil of muscles rrounded by a coating resembling celluloid and filled with millions of glands. The muscular walls serve to keep in motion the food which has been previously dissolved in the stomach, until the glands have absorbed all the chyle to sustain the human body, and finally force into the rectum all the waste or valueless material. The chief disease of the intestines is constipation through lack of muscular power. Then again many people are thin and emaciated, because the glands of the intestines are insufficiently active to abstract the food matter, hence much valuable nutriment goes to waste. In both these cases Merrill's System Tonic is a most valuable remedy. The alterative properties strengthen the glands and thin people find themselves taking on flesh without any apparent cause and the valuable tonics contained in System Tonic permanently cure constipation by strengthening the muscles of the intestinal walls. This is vastly a superior method to taking irritating pills or physic of which the use of one dose creates a greater necessity for another. If you are unreasonably thin or pale and troubled with irregularity of the bowels, Merrill's System Tonic is the only remedy that guarantees you a perfect cure in a reasonable time.

Each 50c bottle contains 50 pleasant-to-take doses, and is sold AT ALL DRUG STORES.

The Cause of Dyspeptic Pains.

They arise from the formation of gas, owing to improper digestion. A very prompt and efficient remedy is Polson's Nerviline. it relieves the distention instantly, and by its stimulating action on the stomach, aids digestion. Nerviline cures dyspephic pains by removing the cause. Nerviline is also highly recommended for cramps, colic, summer complaints, and inflammation. Sold in large 25c. bottles everywhere.

WAR ON CORPORATIONS.

Preliminary Session of the Canadian Municipal Convention.

Toronto, Aug. 29.—The Canadian Municipal Convention which is an organized effort to fight corporare influences, has commenced. So far representatives have arrived from nearly every Province in the Dominion, and many more are expected to-day. Each delegate was presented by the city with a handsome souvenir badge.

When the convention opened in the Council Chamber, shortly after 8 o'clock, the band of the Royal Grenadiers was stationed in the main corridor of the building, and it rendered selections for the next three hours to the delight of the visitors. Business was not neglected, however, and about half a hundred prominent representatives of municipalities were present when Mayor Howland rose to welcome them to Toronto. His Worship's speech concluded with this wish: "To see the municipalities of Canada so united that they could issue a call from one centre from which it would reverberate as the united voice of all the municipalities in Canada."

Mayor Morris endorsed Mayor Howland's ideas and said the close corporations should be fought and that all municipalities should join hands to defeat the objects of corporate interests. He referred to the coal combines, which, he said, were squeezing rich and poor alike.

Mayor Howland was unanimously elected as chairman of the convention and Mayor Lighthall of Westmount was chosen as secretary.

Ald. MacRae, St. John, N. B., moved, seconded by Mayor Campbell of Cornwall, that the Committee on Resolutions report on the best means of securing to municipalities information respecting legislation affecting municipal interests. Carried.

It was moved by Mayor Lighthall of Westmount, seconded by Mayor Arbuthnot of Winnipeg, that a committee of five be appointed to submit a form of organization and the following gentlemen were selected by the chairman: Mayor Hamilton, Halifax, N.S.; Acting Mayor MacRae, St. John, N.B.; Mayor Arbuthnot, Winnipeg; Mayor Morris, Ottawa; Mayor Wood, Brantford. Ex-officio Mayor O. A. Howland, Toronto; Mayor W. D. Lighthall, Westmount. Carried.

Mayor Morris of Ottawa introduced his resolution regarding protection of citizens from coal combines and it was referred to the Resolution Committee.

The Agony of Sleeplessness.

Did you ever pass a single night in wakeful misery, tossing and rolling in gin bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding night growing worse and worse? This is the most dreadful symptom of Nervous Exhaustion and Debility. You can be gradually and thoroughly cured of Sleeplessness by the upbuilding influence of Dr. Chase's Nerve Food. It cures in nature's way, by creating new nerve cells and restoring lost vitality.

The Royal Commission.

Ottawa, Aug. 29.—The fact that accounts have been sent in for expenses incurred in connection with the Royal Election Commission is taken to indicate that the commission does not intend to pursue its inquiries further. In the absence of the Minister of Justice it is not known whether any report has been presented.

Mr. Shaffer's Pay Day.

Pittsburg, Aug. 29.—Three days from now President Shaffer of the Amalgamated Association will have to begin paying benefits to the association's members who are on strike.

A WOULD-BE SUICIDE

Frank Blake Deliberately Threw Himself Into Bond's Lake.

THE PREMIER'S PLEASANT TIME.

The Irish Rifle Team, to Shoot at Sea Girt, N.J., Arrives in New York—Corner Stone of Methodist Church at Midland Laid—Mormon Missionaries Arrive and Begin Work in Japan.

John Greenlee's saw mill, with all the lumber, was burned at Red Bay, Ont., Tuesday night.

A branch of the Manufacturers' Association was organized at Winnipeg, Man., on Wednesday.

The Premier passed a pleasant time in Toronto on Wednesday and met many personal and political friends.

The C. M. B. A. convention, now in session at Niagara Falls, Ont., has chosen Toronto as the next place of meeting.

John Jackson, a carpenter in Toronto, has fallen heir to one-third of an estate of $1,000,000 through the death of his father in England.

The corner stone of the new Methodist church at Midland, Ont., was laid Wednesday afternoon by Mrs. J. B. Horrell, in the presence of a large assemblage.

The bylaw providing for the amalgamation of Grand Forks and Columbia, B. C., was carried on Wednesday in both cities, the grand total majority being 170.

The engagement is officially announced of Helen, daughter of former Governor Levi P. Morton of New York, to Count Bosen de Peerigord, second son of the Duc de Talleyrand.

Frank Blake, a workman on the Schomberg-Aurora Railway, endeavored to commit suicide at Bond's Lake on Tuesday night. The man deliberately threw himself into the lake.

The arrival of four Mormon missionaries in Japan is causing great comment in Yokohama. They arrived on the Empress of Japan on the 12th and at once began an active campaign.

Wednesday was Children's Day at the Toronto Industrial Exhibition. At the directors' luncheon the fair as an educator was the subject of the speeches. About 25,000 children were present.

The thirty-fourth annual session of the Canadian Medical Association opened at Winnipeg, Man., on Wednesday morning. Dr. H. H. Chown, president of the association, occupied the chair.

Among the passengers who arrived Wednesday per steamer Servia from Liverpool and Queenstown, at New York, were 13 members of the Irish rifle team, which will compete with the all-American team at Sea Girt, N. J.

Superintendent Charleson, who is superintending the construction of telegraph lines in the west, wired the Department of Public Works at Ottawa, on Tuesday that the line would be completed through to Dawson by Sept. 15.

Miss Bessie Campbell, daughter of Gabriel Campbell, Professor of Psychology at Dartmouth College, was drowned in Lake Morey, near Fairlee, Vt., at noon on Wednesday by falling from a wharf. Miss Campbell was about 20 years of age.

David McGee is under arrest at London, Ont., charged with abducting the 15-year-old daughter of A. G. McIntyre, 509 West Queen street, Toronto. The girl has also been detained pending instructions from the authorities in Toronto. She was employed in the T. Eaton store.

Harry Lithgow, a young man about 20 years of age, was killed early Wednesday morning about two miles west of Cobourg on the Grand Trunk Railway. The remains were conveyed to Cobourg and there identified as those of Harry Lithgow of Port Hope. The deceased was the only son of Mrs. Lithgow.

Asa Choate, proprietor of "Belmont," was going to Port Hope with a young horse, and when passing over the bridge at the Electric Light and Power House the train whistled and frightened the colt. It backed against the railing of the bridge, which gave way, horse, buggy and occupant falling some 15 feet on the rocks below. Mr. Choate's hip was broken and the main artery severed. That was at 10.30 a. m. on Wednesday and death came about 2.30 in the afternoon.

The True Tragedy of Life

is ill-health, disappointed ambitions, usefulness destroyed. Pathetic! nay, tragic. Poor blood, weak nerves, a tired brain. Is there hope? Yes! Because there is a cure.

Ferrozone Tablets make blood; not blue blood, but the fluid that strengthens the whole body. Ferrozone does this quickly by improving digestion, stimulating assimulation and by imparting health and tone to the whole system. Ormond & Walsh, druggists will tell you a great deal more about Ferrozone. Ask them to tell you of the wonderful curative properties of Ferrozone Tablets.

Mr. Monteith in North Perth.

Listowel, Aug. 28.—The Conservative convention for North Perth was held at Milverton yesterday, at which John C. Monteith of Stratford received the nomination unanimously for the Provincial election. Mr. Monteith accepted.

It is stated in Paris that King Edward will meet the Czar and the Kaiser at Kiel on Sept. 7.

What is Life to You?

If you are a victim of piles, as one person in every four is, you suffer keenly from one of the most torturing ailments known to man, and may well wonder if life is really worth living. Certain relief and ultimate cure is awaiting you by means of Dr. Chase's Ointment. It has never failed to cure piles. Painlessly and naturally it allays the inflammation, heals the ulcers and thoroughly cures this wretched disease.

A STEAMBOAT EXPLOSION.

Seven People Hurled to Death and Several Others Injured.

Philadelphia, Aug. 29.—While the steamboat City of Trenton of the Wilmington Steamboat Company was on her way from this city to Trenton, N.J., yesterday afternoon her port boiler exploded, killing seven persons and injuring over a score of others. Four passengers are missing, but, as many sustained slight injuries, it is thought the missing may be among those who did not find it necessary to go to the hospitals. After the explosion the boat took fire and ran aground. Last night she lay a wrecked and blackened hulk on the marshes of St. Torresdale, 16 miles above this city. Her hold is filled with water, and it is feared that more of her passengers and crew may be found in the bottom of the boat when the water is pumped out.

GROUND TO PIECES.

Young Indian Near Sarnia Meets a Horrible Death.

Sarnia, Ont., Aug. 29.—The L. E. and D. R. R. mixed train, which arrived here about 1.20 o'clock Sunday morning, ran over and killed a young Indian named Charles Oliver, about two miles below Sarnia. The unfortunate young man had evidently lain down on the track and gone to sleep. When found Sunday morning his body was horribly mutilated from the engine and cars passing over him. His head was completely severed from his body, as were also his legs and arms. In fact the body was literally cut up into small pieces.

Advertise in the Examiner.

Snaps in Shoes!

Here's a lot of values for those who can make use of the opportunity. The sorting over of stock singles out a number of odd lines that might as well be cleared. There's not enough of any one line to warrant us keeping them on the shelves. We know the value. It is the best. Possibly the buyer who comes with the idea of getting just what one is looking for may not see the exact thing, but will find the very best value in Shoes, and well worth wearing. No question of style, durability or material. Just odd lines to clear.

36 Pairs Men's Shoes, some heavy, some light, all nice shapes, fine materials, real snap	$1.25
30 Pairs Men's Good Shoes, lightweight leathers, shapely, neat, comfortable	$1.00
Few Pairs Men's Stout Working Boots, fine value	75c
18 Pairs Misses' and Children's Tan and Tan and Cloth Shoes, stylish goods, in many sizes	$1.00
24 Pairs Ladies' Gaiters, several sizes, very comfortable for house wear	$1.00
10 Pairs Misses' Tan and Cloth Shoes, nice new goods, merely an odd lot and all in stock	$1.25
24 Pairs Women's Button Boots, fine Black Kid, excellent value	$1.25

Better value than these cannot be had. Clearing out makes the price.

ROBERT NEILL

Rural Weather Signals.

Lafayette, Ind., Aug. 29.—The distribution of weather signals to farmers by means of a combination of that service and rural mail delivery was given its first trial in this county yesterday, and may be put in force throughout the country. The postoffice authorities adopted the scheme at the suggestion of Prof. W. C. Latta of the Purdue Experiment Station. The five rural route wagons carried tin signals on their tops, and the carriers distributed cards explaining their meaning.

A Medicine 300 Years Old.

Our readers will probably be surprised to learn that for nearly 300 years cod liver oil has been used as a medicine. During the past twenty five years nearly all the cod liver oil brought to this country from Norway has been used in the form of Scott's Emulsion. It is by all means the most pleasant preparation of cod liver oil you can buy.

STRENGTHENS THE STATE.

Life Insurance is for the protection of those dependent on a man's life; their dependence makes it an unavoidable duty. Those dependent we assume to protect by our contract, at his personal cost; our duty to them is to make that contract as large, as secure, and as certainly available to them as possible; thus every Policy written conserves the interest of the State. A man with a Life Insurance Policy is apt to be a good citizen. Anarchists have no use for Life Insurance, and the state has no use for anarchists. The State should encourage every citizen to carry insurance. This Strengthens the State, abolishes alms-houses, and creates property that can be taxed. Further, the income from Your labour ends with Your life. The cost of living to the family continues. Take measures to have the income continue also. **The Life Insurance Policy Does It.**

The most enterprising and progressive of all the Canadian Life Offices to-day is the **Sun Life of Canada.** Ten years ago the Company had Life Assurance in force to the extent of $16,759,355.92. On the 31st of December last, this amount had been increased to $57,980,634.68. The increase, therefore, of Life Assurance in force during the last ten years amounted to the tremendous sum of **$41,221,278.76.**

Died of His Injuries.

Mr. Asa Choate, of Port Hope, who met with an accident yesterday morning while driving from his beautiful home "Belmont Farm" to town, has since died of his injuries. The funeral will take place on Sunday. The late Mr. Choate was a widely known gentleman and has relatives in the vicinity of Peterborough.

Demise of Roy Cox.

The funeral took place, this morning, of Roy Cox, youngest son of Mr. Henry Cox, of Ashburnham. The little fellow was taken to St. Joseph's Hospital on Tuesday suffering from an attack of fever and passed away the day following. Mr. and Mrs. Cox will receive the sympathy of many friends in their trouble.

Archie Reynold's Excursion

Archie Reynolds of South Monaghan, was in town on Wednesday arranging for the annual excursion of L.O.L., No. 46, which will be run to Jubilee Point on Thursday, September 12th, per steamer Water Lily and palace barge. This is the 20th annual excursion under the auspices of this lodge.

Keene Curlers.

One of the most largely attended excursions that leaves Keene during the excursion season is the annual outing of the Keene Curlers. The Keene Curling Club is one of the oldest in the province, and the enthusiasm of the members is always great. This year the excursion was run to Strawberry Island, Lake Simcoe, and a special train carrying the excursionists passed through town this morning.

Obituary.

The death occurred yesterday evening at the residence of her son-in-law, Mr. W. H. Moore, No. 77 Homewood avenue, of Mrs. Seymour, wife of Mr. Henry Seymour, of Bobcaygeon. The deceased has been ailing afor some time. She was 65 years of age and was very highly respected by a large circle of friends. She leaves besides her husband a family of sons and daughters consisting of Mrs. Moore, and Mrs. A. F. Lane, of Peterborough, Mrs. Cashore, of Fenelon Falls, Mrs. Wilson, of Lindsay, Miss Seymour, Messrs. James and Harry Seymour at home. Interment will take place at Bobcaygeon on Friday.

Women's Chocolate Dongola Oxfords, regular $1.35, special Saturday night . . . $1.00

GOUGH BROTHERS.

ARE WELL PLEASED.

Some American Gentlemen who Came Down From McCracken's Landing This Morning.

Amongst the Americans who came down from Stony Lake this morning were Mr. O. V. Cramer and family, of Cleveland and Mr. C. A. Kahle, of Pittsburg, who formed a party that has been spending the past ten days at Victoria House, McCracken's Landing. They are enthusiastic in their opinions regarding Stony Lake and they claim that no prettier summer place can be found. This is their first visit to Kawartha Lakes, they having been recommended there by friends from Cleveland and Pittsburg who had visited Stony Lake this summer.

Mr. Cramer had excellent luck fishing and landed 24 beautiful bass weighing 70 pounds. In fact there was scarcely a day but what he and Mr. Kahle got their limit.

Mr. Cramer says that he will come back next year and is thinking very seriously of purchasing an island. The party went down south at noon.

WHAT A SNAKE DID.

Bit Mrs. Bowles of Fraserville on the Ankle.

Mrs. Bowles, wife of Mr. Levi Bowles, the well known farmer who resides near Springville, is suffering from the effects of a bite from a snake. While out in a field, Mrs. Bowles was bitten on the ankle by the snake. She hurried home and applied different means of relieving the pain. A physician was also sent for, and while the affair is a most unpleasant one, no very serious consequences are expected to result.

YESTERDAY'S EXCURSION.

Cold Springs Union Sabbath School Picnic.

The annual pic-nic of Cold Springs Sabbath School, Otonabee, was a decided success. It was held on Wednesday, Aug. 28, per "City of Peterborough," to Jubilee, which was reached in good time for dinner.

In the afternoon a programme of races for the members of the school was run off, and proved quite interesting. Some enjoyed themselves at a game of baseball, where some very scientific play was shown.

The boat reached the Peterborough wharf again at 7.30, having made remarkably good time both going and returning, although the river contained quite a number of sawlogs.

The Committee, and in fact all on board, were delighted with the courteous treatment afforded them by the officers of the boat, and also pleased with the new "City of Peterborough." The machinery was running like clock work and the boat is run promptly on time, a commendable feature, and one which will help to inculcate the virtue of punctuality.

All the newest ideas in photography from the Pan-American, at G. E. Whiten's. See his latest photographs in colours.

"As far as possible, we would be obliged to our many customers if they would place their orders for Saturday's dinner with us Friday afternoons, which would ensure the earliest delivery on Saturday. We carry the best quality of fresh beef to be had, which is appreciated, according to the testimony of the increasing crowds which visit our store each morning. Lamb by the quarter still selling at the lowest market prices, 8 to 10c. Kennedy's Meat Market, 340 George street. 'Phone 275.

IMPORTANT TO CONTRACTORS.

The Canadian Cordage & Manufacturing Company Will Commence Building Operations.

By reference to the advertisement columns of the Examiner it will be observed that tenders are being asked for the erection of manufacturing building, store houses, boiler room and office building of the Canadian Cordage and Manufacturing Company. Contractors may tender upon the entire block or upon the office and boiler room, or manufacturing building and store houses, or upon the masonry work or carpenter work of the manufacturing building and store houses.

It can be seen that the Company propose to go ahead with their building operations and the specifications call for all the contracts to be completed by December 1st.

PERSONALS.

Mr. Dickson Davidson is in Toronto to-day.

Mr. J. C. Sullivan has gone to the Pan-American.

Rev. Dr. Torrance has returned from Montreal.

Miss Annie Burns, of Ops, is visiting friends in town.

Mr. R. A. Dutton is in Toronto and Niagara on business.

Miss Irene Perks is a guest at Mr. G. M. Roger's cottage, Stony Lake.

Mr. C. B. McAllister has closed his cottage at Stony Lake for the season.

Mrs. Aaron Cox is confined to her room with a severe attack of rheumatism.

Mr. James G. Grafton, of Dundas, in town on a visit of inspection to the local branch.

Mrs. E. C. Complin returned this afternoon from a pleasant visit in London and Toronto.

Miss Mercier, of Richard Hall & Sons, has re-opened her workrooms for the fall trade.

Mrs. John C. Kells of Millbrook, was in town yesterday, the guest of Mrs. Joseph Armstrong, King street.

Mr. Felix Brownscombe and family came down from the lakes yesterday and have closed their summer cottage for the season.

Mr. Aaron S. McGuire and family, accompanied by Mr. John Butcher, have gone up to Stony Lake to occupy Mr. Butcher's cottage at Burleigh.

Mrs. Geo. Carton and daughter, Miss Pearl, left to-day for Kingston and the Thousand Islands. They will visit Mrs. (Rev.) Edwards at Prescott.

Mr. A. J. Gough, who returned yesterday from an important business visit to Montreal, left to-day for Port Hope and Toronto on a similar mission.

Mr. Fred Armstrong and Mrs. Armstrong, of London, England, are the guests of the former's father, Mr. W. H. Armstrong, Millbrook. Mr. Fred Armstrong was at one time connected with the Canadian General Electric Co.

Miss Campbell, of J. C. Turnbull & Co's. Millinery Department, has returned from New York, where she visited the leading millinery wholesale houses, and is now picking up the new ideas in fall millinery in the Toronto wholesales.

Mr. Charles Burton and wife, of Rochester, returned home to-day, after spending a pleasant visit with Mrs. W. N. Daly, 805 George street, town. During their stay they took in Stony Lake and other of our summer attractions, and were delighted with Peterborough and its environments.

Mr. Henry Watt, late Manager of the Peterborough Underware Company, left this morning for his former home in Cohoes, New York. Mr. Watt has not been a resident of Peterborough for a great while but during his stay in town he made a host of friends, all of whom will join in their regret at his leaving town.

Mr. Alex. Waddell, who for the past number of years has been connected with the local office of the Sun Life Insurance Company, under Mr. W. H. Hill, intends leaving on Saturday for Halifax, where he will accept of a more lucrative position in the employ of the company. Mr. Waddell has many friends here who will be glad to learn of his progress, though sorry to lose him from town. He has for some time past filled the position of secretary of the Young Men's Guild of St. Andrew's church.

NEWS NUGGETS.

—The opera season will open in Peterborough on Sept. 6th.

—The 57th Regiment will shoot at Curtis' Ranges on Labour Day.

—The schools of the town will open on Tuesday morning of next week.

—The bugle band of the 57th had another good practice last night.

—All Saint's choir will practice to-morrow evening instead of to-night.

—A business men's excursion will go down the river this afternoon per steamer City of Peterborough.

—The north end of George street is being left in an impassable condition while the sewer construction is in progress.

—The steamers on the back lakes are having considerable down traffic these days, and it is said that for the next few days they have more "calls" slated than they can conveniently handle.

—A private moonlight excursion will go down the river this evening as far as Highland Park. The boat leaves the Wolfe street wharf at 7 o'clock sharp. A band will accompany the party.

A $19,000 Residence.

The Toronto Star says that Manager E. R. Wood, of the Central Canada Loan Company, has taken out a permit for the erection of a $19,000 residence in Queen's Park, south of Bloor street, Toronto. Mr. Wood is a son of Mr. John Wood, Village Clerk, Ashburnham.

MUST BE UNIFORM.

The Dress of the Officers at the Reviews.

The following instructions respecting the reviews to be held in honour of H.R.H. the Duke of Cornwall and York are published in Militia Orders:

"Regiments parading in review order, whose officers are in possession of tunics, will wear them, and those regiments whose officers have serge frocks only, will wear them with the sash.

"It must be distinctly understood that on the occasion referred to, officers of each regiment must be uniformly dressed, whether in tunics or frocks.

"Eight companies only of the 68th and 69th Regiments will be permitted to take part in the review at Halifax."

WON THE PONY.

Mr. M. C. Tooley, of the Queen's Hotel, has been notified to the effect that he is the winner of the beautiful little Shetland pony, which was disposed of in connection with the recent Roman Catholic Pic-nic at Havelock. Mr. Tooley leaves to-night to claim the prize.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drugstore.

PEACHES AND PLUMS.

R. A. Dutton will receive to-morrow morning a carload of the best peaches and plums in the market. Those wishing good fruit of this kind will find it to their advantage to order immediately. They will be on sale Friday and Saturday. 2d

FALL TERM

—AT THE—

BUSINESS COLLEGE

Begins September 3rd.

If you want a position as Bookkeeper or Stenographer, attend our School as soon as possible. Call at the office or write us, and we will give you an idea of what we have done for others.

Making Room for Immense Stocks

Although the spine of summer shows no signs of breaking, preparation for Fall business must have our chief attention now. This is the last week of the last month of summer, and surplus stocks MUST GO regardless of cost.

BOOKS MUST GO!

If you only want one Book or a whole library, all we ask is a chance to quote you special prices. We never sold books cheaper. We have all the best works published—in fiction these are six leaders:

"RALPH MARLOW" "PUPPET CROWN"
"DAYS LIKE THESE" "THE CRISIS,"
"VISITS OF ELIZABETH" "CINDERELLA."

FANCY GOODS MUST GO!

This Store is alive with Bargains in Fancy Goods, Wedding Presents, Birthday and Presentation Goods, Ladies' Companions, Brush and Comb Sets, Albums, Purses, Card Cases, etc. Prices this week, are, on the average, about one-third lower than regular.

NOTE PAPER MUST GO!

To be quite correct in social etiquette, better consult our styles of Note Paper, Envelopes, Visiting Cards, etc. People judge you by your stationery, just the same. If you want to be sure you have what is perfectly correct, see our varied lines. No better time to stock up than now.

GAMES MUST GO!

Amusements for old and young. Overstock of Card Games, Board Games, etc. All the regular games of the century. Will deal summarily with them all by cutting the prices in two. Playing Cards in twenty different qualities, Authors, Nations, Flip, Old Maid, Chess, Checkers, Dominoes, Crockinole, Bobity, Go Bang, Parlour Hockey, Parlour Curling etc.

A. H. STRATTON & CO.

RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

Last Week in August

Brings many new faces to the big Simcoe Street Store. All Styles of Dress Goods are now pouring in from the Old World. Dress Goods from FRANCE and GERMANY, Jackets and Capes from BERLIN, Gloves from GRENOBLE, Silks from FRANCE and ITALY, Novelties from PARIS and LONDON. Every place that has its special advantages for selling any particular line is where we buy—AND WE BUY THE BEST ALWAYS.

NOW FOR SCHOOL AGAIN

School time will be here again next week, so if you want any new things for the children in Dresses, in Stockings or anything in the Dry Goods way, come along. You'll get a bigger assortment here than elsewhere, and better values, too. A good mother wants nice-looking, comfortable, wearable things for the child. We show some new hard-wearing stuffs that have some beauty about them as well as durability—closely-woven fabrics for clothes for the roughest-on-his-clothes youngster who needs something strong.

FALL FANCIES.

Lots of new Fall things are here now. Some particularly nice things in Tweeds for Tailor-made Suits, and sure to be of a great deal of satisfaction to women who like character and quality in what they wear. Prices are very, very low—in fact when you see them you will wonder how the Goods can be made for so little.

NEW SILKS.

A grand assortment of Silks now in. Some particularly grand effects in Fancies for Novelty Waists. They're worth seeing whether you want to buy or not. Also a full assortment of Black and Coloured Taffetas for Waists and Skirts. Remember we guarantee our Taffetas.

FASHIONABLE BELTS

You get all the style in a Belt when you buy it here. We have the variety in both quality and price. Nearly all of them have the new pointed long waist effect now so popular with ladies of taste. We're showing something new in Black Velvet Belts, with Black, Gilt and Oxydized Buckles. The Stock is so large and the assortment so good that we are sure you can select a Belt to suit you exactly. Prices for these Velvet Belts are from **25 cents** to **75 cents** each.

RICHARD HALL & SON DIRECT IMPORTERS. 130, 132, 134 SIMCOE STREET

THE STORE THAT NEVER DISAPPOINTS

...NEW...

Fall Skirts.

Our first showing of New Skirts for Fall is here. STYLE, DURABILITY and PRICE MODERATION stamp each line we are showing. If you have a Skirt want, SEE THESE.

WHAT YOU NEED.	Pedestrian Skirts in colours of Navy, Black and Oxford Grey, made of Box Tweed with seven rows of stitching. **Very Special, $4.50.**	**FOR $4.50.**
A BARGAIN	Pedestrian Skirts in heavy Homespun, seams double stitched, reverted back **Only $5.00.**	**FOR $5.00.**
DRESS SKIRTS	A splendid range here—5 Gored Skirts of glossy finished serge, lined with good quality linenette, deep flare and reverted back **For $4.50.**	**ANY LENGTH.**
SPECIAL VALUE	This line is of Venetian Serge in Navy and Black, 2 row satin strapping, well lined throughout. **See Them.**	**ONLY $5.00.**

INDEPENDENT FORESTERS.

The Annual Meeting of the High Court in Session at Cornwall.

The High Court of the Independent Order of Foresters is in session at Cornwall. The local delegates who are in attendance are pressing to have the next meeting of the High Court held in Peterborough.

The reports of officers show a steady growth in the Order. Within the past nine years, there has been a leap from a membership of 40,000 to a membership of over 180,000; from a surplus of nearly half a million to a surplus of nearly five million dollars; from an annual increase of 10,000 members to an annual increase of nearly 40,000 members. For the first time delegates from Companion lodges were present and High Chief Ranger Fraser paid the ladies a pretty compliment. He also testified to the good work done by Organizers G. N. Brown, G. M. Elliott, W. J. Ingram, W. A. Howard, D.D., and Bro. Johnston. During the year 79 of the brethren had crossed death's threshold. On the 30th of June, 1901, the membership was 11,387. During the year twenty new courts had been installed, of which nine were Companion courts. The High Secretary, G. L. Dickinson, reported that cash assets exceeded liabilities by $271.22. There were paid out as bonuses for new members, $638.50 during the last year.

The total and permanent disability benefits during the year ending June 30th amounted to $6,000, of which $1,000 went to John A. Charles and $500 to F. Day, Frontenac.

High Treasurer J. S. R. McCann, in his report, stated that the balance of $742.50 is on deposit in Molson's bank, and that the indebtedness to the Supreme Court had been reduced by $1,144.24 this year. For their expenses during the year the High Chief Ranger was paid $206.25; the Past High Chief Ranger, $77.95; High Vice Chief Ranger, $10; High Secretary, $340.90; High Treasurer, $92.55; High Physician, $23.00; High Councillor, $46.35; Auditors, $41.25.

HARVEST HOME.

In the Bonsfort Methodist Church on Sept. 1st and 2nd.

A harvest home anniversary will be held at Bonsfort on September 1st and 2nd.

The sermons on Sunday will be delivered by Rev. Jos. Kilgour at 10.30 o'clock a.m., and at 7 o'clock in the evening, the collections being for the Trust Fund.

On Monday evening a tea meeting will be held in the Methodist church followed by an entertainment, at which Rev. Jos. Kilgour and a number of local ministers will deliver addresses. Arrangements have been made for a very pleasing programme of music, recitations, etc. Rev. Thos. P. Steel, the pastor, Mr. Jas. Wood, and an energetic committee are working hard to make the affair a success.

CITY OF PETERBOROUGH.

The City will run her regular trip to-morrow, leaving the wharf at 9.15, calling at Ashburnham. Those wishing a pleasant sail to Jubilee, Idyl Wyld or Harwood, should take the City of Peterborough. Fare for round trip 50c.

SOLDIERS GETTING READY.

The 14th Field Battery the 3rd Dragoons and the 57th Regiment.

As the time for the Duke and Duchess of York reception in Toronto appproaches, the military preparations are becoming more active.

The 14th Field Battery, under command of Lieut.-Col. S.A. McNaughton, of Cobourg, has already issued orders regarding the proposed trip, and the 14th will very likely be recruited up to full strength.

The first move on the part of the 57th will be made on Tuesday evening next, when the first full march out of the season will take place. The boys are looking forward with great expectancy to the occasion, and no doubt the ranks of the 57th will be as full as at any time in the history of the regiment.

The 3rd Dragoons as yet have made no move in the matter, although they are slated to be on hand and as the 3rd is the only scarlet uniformed mounted regiment in Canadian service, it is to be hoped that they will surely be on hand, for they will certainly create a favourable impression.

The Dragoons will have no difficulty in filling all ranks, but as before stated, no orders have yet been issued and the members of the corps are anxiously awaiting.

The regiments will be out of town for three days, and their transportation and maintenance while in the city will be paid for by the government.

Trent Valley Navigation Co.

No connection will be made at Burleigh Falls for Lakefield with the steamer Ogemah on Labour Day, September 2nd, and no through tickets for Lakefield will be sold that day. 2d-1w

AT STONY LAKE.

Big Catches of Fish Reported—Masquerade Ball at Victoria House.

McCracken's Landing, Aug .27th.

There have been a great many big catches of fish here this season, but it remained for Mr .G. Clay Cox, of Rochester, and Mr. Cramer, of Cleveland, to break all records. Mr. Cox went trawling on Monday and succeeded in catching 94 pounds of maskinonge, and while there have been larger fish caught, still for a single day's catch, this makes them all look rather small. He also caught his limit of bass while here, a number of which weighed three pounds, while one weighed four pounds. He left for his home to-day, taking with him the finest box of "brain food" that has crossed the line this season. He did all his fishing with Skinner baits, and for trawling used a 4 1-2 Skinner spoon.

Mr. Cramer holds the palm for bass fishing. Yesterday he started out about 8 o'clock a.m., and returned about 7.30 p.m., with 24 prime bass, which weighed together, tipped the beam at 70 pounds. He is going to remain for a few days lunge fishing and is trying to go Mr. Cox one better. He is being handled by the well known guide, Jack Hunter.

There was a jolly time at the house last evening, it being the 24th birthday of Mr. Kahle, of Pittsburg. He had been out fishing and on his return in the evening found the house profusely illuminated with Chinese lanterns, etc., and the entire assemblage in masquerade. Mrs. Cramer of Cleveland, and Miss Temple Dixon, of Toronto, had prepared a beautiful cake for the occasion, which afforded no end of amusement, being loaded with thimbles, rings, buttons, etc. Mr. Morgan threw the house open, and a masquerade ball was held, which was greatly enjoyed by all present. Among those in costume we noticed Miss Dixon, Toronto, "A Strayed Japanese Girl," Miss Etta May Cramer, Cleveland, and Miss Gladys Dixon, Toronto, "Topsies," Allan Hunter, "Piccaninny," Miss DeWitt, Auburn, N.Y., "Peasant," Miss Bessie Choate, "Dolly Varden," Mrs. Cramer, Cleveland, "English Flower Girl," Mr. Hal Choate, "Wandering Minstrel," Geo. McWilliams, "17th Century Gent," Fred Morgan, "Alfonso Gaezer," Mr. Cox, Rochester, "Swell," Mr. Cramer, Cleveland, "Isaak Walton."

The costumes were very pretty, and were greatly enhanced as the wearers glided under the coloured lights to the strains of Prof. Tucker's orchestra. Mr. Kahle made a brief speech, thanking the guests for the honour done him, and a vote of thanks was tendered Mr. Morgan for his kindness and tireless energy in making it pleasaant for all.

POLICE COURT.

Mr. James Stevenson occupied the bench again this morning in the absence of Police Magistrate Dumble, who is enjoying a holiday up the back lakes.

Martin McDermott was charged with being a vagrant, and having no visible means of support. He was remanded for further hearing.

John Mulhall was charged with being disorderly and was fined $2.00 and $3.00 costs. He paid the money.

ON THE STREETS OF TORONTO

For originality and effectiveness, nothing ever seen in Toronto, can compare with the street advertisement of the Ross Tea Co. It consists of twelve living representatives of their well-known Trade Mark; marching in single file about the city streets. Every detail is carried out most accurately, and the impression made is a most pleasing one. The harmonious colour scheme of the Oriental costume. The odd looking, though picturesque Turbans and Shoes. The trays, tea-pots, cups and saucers taken together, make a most striking picture. While the serious faces and quiet, dignified carriage of the men speak well for the care taken in carrying out a most novel and interesting method of acquainting the public with their Trade Mark.—Toronto Evening Telegram.

A Ten Dollar Bill.

A banker sauntering home for his dinner saw a ten dollar bill lying on the curbstone. Of course he picked it up and took the number to find the owner. While at home his wife remarked that the butcher had sent in a bill amounting to ten dollars. The only money he had with him was the money he had found which he gave her and she paid the butcher. The butcher paid it to a farmer for a calf. The farmer paid it to his clerk and the clerk owing the banker a note of ten dollars went to the bank and paid the note. The banker recognized the bill as the one he had found and up to that time had settled for fifty dollars of debts. On close examination he found the bill was counterfeit. Now will some of our financial friends tell what has been lost in the transaction and by whom if any?—Ex.

WHOSE OATS WERE THEY?

Did They Come From a Farmer's Oatfield in North Monaghan?—A Funny Story.

On Monday evening of this week a resident of North Monaghan when going home noticed an individual coming to town with a "jag" of oats in a small wagon. It looked rather suspicious and as the North Monaghan man proceeded further he came to an oatfield that gave evidence of there having been oats taken therefrom. He drew the attention of the owner of the oats to the matter and they traced the wagon to town after which they lost track of it. The matter was then reported to the police.

Yesterday afternoon Walter Heron was noticed to be driving his horse around town with not any too much consideration for the animal's strength. A warrant was made out charging him with over-driving the animal. When two of the local policemen went up to execute the warrant Heron jumped out of an upstairs window. Then when the policemen were searching around the premises, they came across a number of sheaves of oats. Some of them were taken to the police station, and the farmer has been asked to come in and inspect the same. Such is the story that was told at the local police station to an Examiner reporter.

LAXA-LIVER PILLS regulate the bowels, cure constipation, dyspepsia, biliousness, sick headache, and all affections of the organs of digestion. f

Piano and Harmony.

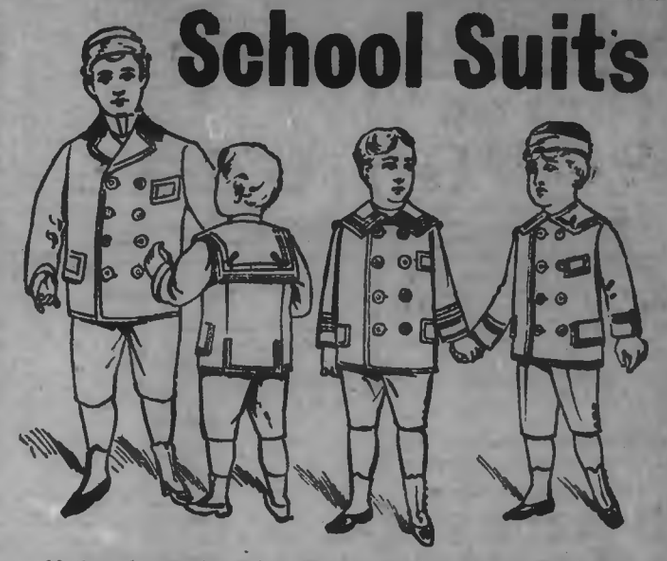
School Suits



Mothers know where they can always depend upon getting good, serviceable School Clothing for their sons. They know whether or not the last Suit bought at the City Clothing Store wore as well as it ought to have done. And if it did, we deserve their patronage again.

We have all GOOD qualities in BOYS' SUITS, and all sizes and styles to fit any boy from 3 to 15 years of age. We sell the best Clothes for Boys that are made by any manufacturer in Canada, and we know they have always given wide-spread satisfaction.

We were boys ourselves once, and don't forget the first time we wore long pants.

H. LeBRUN & CO.

CITY CLOTHING STORE.

"PEACE TO ITS ASHES"

Is the soliloquy of the young man who smokes one of CHARLEY LEGROS' Pure Havana Cigars. The whole affair is invariably consumed in smoke.

HOW TO TELL A GOOD CIGAR.

A cigar made of Pure Havana Tobacco burns a clear, gray ash that does not flake, and clings solidly to the "butt" at the finish. When a man hangs on to a good cigar until he is obliged to use a tooth-pick to hold it and avoid burning his fingers to get the last few whiffs, it does not require the wisdom of a Soloman to infer that he has run up against a mighty good Cuban—the kind that Charley LeGros imports. That accounts for the large sales of these fine flavored and well made cigars at

Direct Importer Cigars and Pipes. **C. LeGROS** 339 George Street. "Tony" Tonsorial Parlour in connection.

FOR SALE OR TO RENT.

TO RENT—THE OFFICES RECENTLY occupied by Messrs. Kerr & Kerr; 3 rooms; good vault; next door to the Post Office Apply at 437 George street.

CUT LOOSE FROM THE UNION.

American Tin Plate Company to Decides —Men Indifferent to Threat.

Pittsburg, Pa., Aug. 28.—Practically the only significant event in the strike yesterday was the positive stand taken by the American Tin Plate Company in reference to its course in the future. An official statement from this company yesterday denies that there are any negotiations on foot looking to a settlement of the strike, and authorizes the statement that mills put into operation during the strike will be continued non-union, and all men going to work now will be retained in their positions. They say they are determined to cut loose from union labor entirely. The association officials treat the threat with indifference, their only reply being that the company cannot carry out its plan because nearly all the skilled tin workers of the country are members of the association and the plants cannot be run without them. The corporation, however, has started several of their plants in a way, and claim to have all the men necessary within reach to operate them in full as soon as the machinery is in proper shape.

The developments of the day would appear to evidence slow but sure gains by the corporation.

President Shaffer and Peace.

Pittsburg, Aug. 28.—President Shaffer has invited approval of the Executive Committee of the peace plan agreed upon last Saturday by representatives of the Nation Civic Federation and the Amalgamated Association headquarters office. The plan proposes that the New York offer of July 27, made by Messrs. Schwab and Morgan be accepted; that a provisional scale be arranged for McCutcheon, Lindsay and Clark mills, leaving recognition of the union open, and that the steel corporation formally declares its attitude toward organized labor.

Schwab in Control.

Philadelphia, Aug. 28.—Chas. M. Schwab yesterday secured the controlling interest in the Bethlehem Steel Company at a meeting of the Board of Directors.

Bottle Held Death Message.

Victoria, B.C., Aug. 27.—A story of shipwreck and loss of many lives over twenty years ago is told in a message taken from a bottle that has been found on the coast of Alaska. The message reads:

July 21, 1879. The schooner Albert wrecked in Unimak Pass; eighteen hands aboard. Storm still raging.

C. M. McLood, Ship's Master.

The note, much faded, was found in a ship's medicine bottle picked up by Harry Barnes, a prospector on the Sand Spit on Hagemaister Island, Bristol Bay. Barnes took the news to Cape Nome, whence it reached here by steamer.

THE GHOST AT THE FEAST.

What the Ensign Saw and What Happened After Dinner.

In "The Story of My Life," by Mr. Augustus Hare, is told the following creepy story:

A regiment was passing through Derbyshire on its way to fresh quarters in the north. The colonel, as they staid for the night in one of the country towns, was invited to dine at a country house in the neighborhood and to bring any one he liked with him. Consequently he took with him a young ensign for whom he had a great fancy. They arrived, and it was a large party, but the lady of the house did not appear till just as they were going in to dinner and when she appeared was so strangely distrait and preoccupied that she scarcely attended to anything that was said to her.

At dinner the colonel observed that his young companion scarcely ever took his eyes off the lady of the house, staring at her in a way which seemed at once rude and unaccountable. It made him observe the lady herself, and he saw that she seemed scarcely to attend to anything said by her neighbors on either side of her, but rather seemed, in a manner quite unaccountable, to be listening to some one or something behind her.

As soon as dinner was over the young ensign came to the colonel and said: "Oh, do take me away! I entreat you to take me away from this place!"

The colonel said, "Indeed your conduct is so very extraordinary and unpleasant that I quite agree with you that the best thing we can do is to go away." And he made the excuse of his young friend being ill and ordered their carriage.

When they had driven some distance, the colonel asked the ensign for an explanation of his conduct. He said that he could not help it. During the whole of dinner he had seen a terrible, black, shadowy figure standing behind the chair of the lady of the house, and it had seemed to whisper to her and she to listen to it. He had scarcely told this when a man on horseback rode rapidly past the carriage, and the colonel, recognizing one of the servants of the house they had just left, called out to know if anything was the matter.

"Oh, don't stop me, sir!" he shouted. "I am going for the doctor! My lady has just cut her throat!"

Bronchitic Sufferers

Act foolishly. If they improve ever so little when the fine weather comes, they relax effort and drift back into the old condition which if possible, becomes more chronic. Hit Bronchitis hard in the summer and you'll get rid of it and drive it right out of the system. In winter it is almost impossible to do this. Inhale Catarrhozone regularly, it's a dead sure thing on Bronchitis. It goes into the most minute air cells of the lungs, bathes all parts of the bronchial tubes with its healing, germ destroying vapor, and cures every time. Highly endorsed by all competent druggists and doctors. 25cts. and $1.00.

Advertising in the Examiner brings the best results.

My face is dark brown and I'm garbed in a gown,
That bespeaks me a person of taste;
Yet everyone knows wherever he goes,
That in more than my clothes or the way that I pose,
I show, like my tea, that I'm chaste.

5, 10 and 25 cent Packages

The only pure Ceylon Tea on the market

PUT GRAVEL ON TRACK.

Dutton Farmer Arrested and Taken to St. Thomas Jail Wednesday.

Dutton, Aug. 29.—Charles Garlick, a farmer residing on the town line between Aldborough and Dunwich, was arrested yesterday morning by Detective Mahoney of Windsor and Detective Skirving of the L.E. & D. R.R., on a charge of piling gravel on the Lake Erie Railroad, which runs through his property. The deed was done on Tuesday.

The detectives arrived in town Tuesday evening, and had their man before A. J. Leitch, J.P., yesterday morning. The company not having the witnesses at hand to go on, the case was adjourned until Sept. 4, at Dutton.

This is not the first case against him. About two weeks ago a fence was torn down and put on the track, and a red flag placed upon it. It seems that the company did not pay Garlick as much for the property which the L.E. & D.R.R. runs through as he wanted.

Detective Mahoney stated that the case would not be heavily pressed, as the company were only trying to protect themselves. Garlick was taken to the St. Thomas Jail by Detective Skirving.

A TORONTO CASE.

Commercial Traveller of the Queen City the Unfortunate.

The City of Toronto health authorities are no doubt as active and energetic as any on the continent. But Dyspepsia, one of the most common of all diseases, is outside of their powers. Each citizen must take care of his own stomach, or suffer the consequence.

In these days of hurry and rush, worry and push, complicated foods, and indigestible diets, it is no easy matter to take care of the stomach. The stomach has to take care of itself and if it fails so much the worse for the owner of it. It was to help the owners of weak stomachs that Dodd's Dyspepsia Tablets were invented. That they have already done much in that direction is shown by the thousands of letters like the one below.

Commercial travellers, above all other people, should never have weak stomachs. That so many have got weak stomachs only shows how severe is the strain of irregular eating and drinking associated with life on the road. Mr. G. H. Perrigo, the writer is a commercial traveller of Toronto.

"For four years," he writes, "I have been troubled with Dyspepsia and Heartburn. I could not eat a hearty meal for fear of the pain that followed. Several remedies tried only gave temporary relief. Dodd's Dyspepsia Tablets have since permanently cured me and I recommend all 'Commercials' to try them after meals and see the effect."

Ants on Roses.

Ants on peonies and roses do not harm them. The real source of injury is an aphis which deposits a sweet, sticky substance on the plant. This attracts the ants, and they often attack the aphides and kill them in order to get at the fluid which they store in their bodies. As a consequence, the ants are a real protection to the plants.

Rocks and Ideals.

He who, having lost one ideal, refuses to give his heart and soul to another and a nobler is like a man who declines to build a house on the rock because the wind and rain have ruined his house on the sand.

Some people keep so busy looking out for the rainy day that they don't know the sun ever shines.

Controversy equalizes fools and wise men in the same way, and the fools know it.

TO MAKE MONEY it is necessary to have a clear, bright brain, a cool head and strong nerves. Milburn's Heart and Nerve Pills invigorate and brighten the brain, strengthen the nerves, and remove all heart, nerve and brain troubles. th

GOOD BOOKS.

Good books, like good friends, are few and chosen—the more select the more enjoyable.—A. Bronson Alcott.

A good book is the precious lifeblood of a master spirit, embalmed and treasured up on purpose, to a life beyond life. —John Milton.

Books, like proverbs, receive their chief value from the stamp and esteem of ages through which they have passed. Sir William Temple.

Of all the things which man can do or make here below, by far the most momentous, wonderful and worthy are the things we call books.—Thomas Carlyle.

Knowledge of books in a man of business is a torch in the hands of one who is willing and able to show those who are bewildered the way which leads to prosperity and welfare.—Joseph Addison.

A taste for books I would not exchange for the wealth of the Indies. The miseries of a vacant life are never known to a man whose hours are insufficient for the inexhaustible pleasure of study.—Gibbon.

Except a living man, there is nothing more wonderful than a book, a message to us from the dead, from human souls whom we never saw, who lived perhaps thousands of miles away, and yet these, on those little sheets of paper, speak to us, amuse us, vivify us, teach us, comfort us, open their hearts to us as brothers.—Charles Kingsley.

Above all, there is this value in books—that they enable us to converse with the dead. There is something in this beyond the mere intrinsic worth of what they have left us. When a person's body is moldering, cold and insensible in the grave, we feel a sacred sentiment of veneration for the living memorials of his mind.—Sir Egerton Brydges.

Books, it is true, are silent as you see them on their shelves; but, silent as they are, when I enter a library I feel as if almost the dead were present, and I know that if I put questions to these books they will answer me with all the faithfulness and fullness which have been left in them by the great men who left the books with us.

The Ear and the Thumb.

There is a whole world of telltale indications in the apex of the ear. If it lies close to the head, the owner possesses a refined nature, but if the top starts away from the head at a well defined angle that person has an uneven disposition and is not to be relied upon. If a girl's thumb lies flat or droops a little, marital submission to the master mind is indicated. If the thumb has a tendency to stand at right angles to the hand, the damsel owning it is headstrong.

A person of weak character has a pendent thumb. The strong character has a strong, erect thumb. Fingers which bend backward mean powerful determination. If they are round, strength, both physical and mental, is indicated. Stubby fingers are grasping fingers. Finger nails that are rounded show refinement; if long and rather square at the top firmness and energy are denoted.

Kinship Names.

Katie, the romping 6-year-old, came dancing and singing into the parlor.

Then, seeing a strange caller, she stopped, abashed.

"This is my little daughter," said her mother. "Katie, this is Mrs. Baggs."

"How do you do, Mrs. Baggs?" said Katie, anxious to remove any unfavorable impression the visitor might have formed. "I know a little girl at school named Sue. Is she any relation of yours?"

The Canadian Seacoast.

The eastern Canadian seacoast, from the bay of Fundy to the strait of Belle Isle, covers a distance of 5,000 miles, and British Columbia, with its multitude of bays and mountainous islands, has a seacoast of 7,180 miles and a salt water inshore area, not including minor indentations, of 1,500 square miles.

Not Positive.

"I want a positive answer, Miss Jones. Will you marry me?"

"No!"

"That's hardly fair. I asked for a positive answer, and you have given me a negative."

There is one thing about college degrees—no matter how many are bestowed, there are just as many left.—Boston Transcript.

If you take a Laxa-Liver Pill at night before retiring, it will work while you sleep without a gripe or pain, curing biliousness, constipation, dyspepsia and sick headache.

HE COWED THE LION.

THE DARKY BELTED ALL THE FIGHT OUT OF MONARCH.

Laughable Manner In Which the Big and Ugly Circus Animal Was Returned to the Showman After a Railroad Smash Up.

"It's queer how animals will act in a railroad wreck," said the boss canvasman. "Now there wus th' Saberlee wreck. Six cars wus in th' ditch an half o' th' show's dens wus under 'em. There wus one cage o' monkeys mashed flat that we knowed of, an a lot o' th' other animals had took t' th' woods, little animals, zebras an wolves an deer an such like. Nothin t' do any harm exceptin th' big lion, Monarch. His den wus bottom up in a little puddle o' ditch water, with a hole stove in it big enough t' let out a cow, an Monarch himself wus gone with the little animals.

"Well, it wus all off with makin th' stand that day, so we put up th' runs, got th' cookhouse outfit down on th' ground, had breakfast an started in t' dig th' stuff out o' th' ditch. Th' railroad company's wreckin crew come along t' help us, an we'd got purty well under way when a tall, black buck darky come out o' th' woods an stood round rubberin.

"Nobody paid any attention t' him fer awhile, but by'n'by Mack, th' chandelier man, spoke t' him, kind o' kidded him about bein han'some, er some such guff. It wus Missouri, an he wus a real black buck. Didn't have anything t' say back—didn't say anything at all, in fact, fer awhile. Jes' shuffled round in his cowhide boots from one foot t' th' other an grinned bashfullike. By'n'by when he saw we didn't roast him hard he kind o' took courage.

"'Did any o' you gemmen losed a giraffe?' he says.

"'Giraffe?' Mack says. 'No; we never owned no such thing with this trick. Why?'

"'Well, boss, Ah done foun' somethin up in mah 'tato patch this mawnin, an Ah 'lowed as maybe hit 'longed t' you all.'

"Mack got interested. 'Wot does it look like?'

"'Lawdy, boss, hit's mos' monstrous. Nevah did see no sech ole thing befoh, sah. Big cat vahmint, with yaller eyes, an hit done come a-snahlin an a-spittin at me soon as Ah got out o' bald.'

"'Where is it?' says Mack.

"'Oh, Ah cawt hit all righty. Done put a rope roun' hits neck an tied hit t' mah cabin.'

"'Go an git it an fetch it down here,' says Mack. Then th' wreckin crew got a tackle roun' another den, an we forgot all about th' darky.

"Maybe it wus 20 minutes, an maybe it wus half an hour when we heard a noise over on th' road amongst th' trees—a noise kinder like a nigger drivin a mule or like somethin bein driven. It come nearer an louder an louder an nearer. Everybody stopped work an listened, an th' ole man himself come out o' his car with his napkin hangin roun' his neck.

"'What is that?' he pipes up in his snappy way. 'Who is that out there? Go an see what that racket is, some o' you boys. Hurry up, now.'

"Nobody paid any attention t' him, an th' noise got nearer an nearer. In a couple o' minutes a cloud o' dust sailed out from behind th' trees. When it got within a hundred yards o' th' track, it cleared up a bit, an there wus that big, black nigger with a rope in one mit an a piece o' fence rail in th' other. On th' other end o' th' rope wus Monarch.

"Of all th' mean, sneakin, underhanded cat animals that ever traveled with a circus Monarch wus th' worst an a powerful fighter when he had any sort o' show. Sometimes we'd put our hands on th' canvas cover o' his cage when he had t' run over th' train, an there never wus a time, day or night, that he hadn't a slap ready fer you.

"Well, that darky wus a-lammin him with his chunk o' fence an talkin mule talk t' him wuss than anything you ever saw in th' south.

"'C'm on 'long heah, you yaller eyed devil,' he wus sayin. 'Ah don' know what you is, but you ain' goin snahl ner spit at me, nohow. C'm on 'long theh, you big sassy vahmint,' an with that he'd lam him with his piece o' fence an let drive with his cowhide boots.

"Ah you kin bet your life Monarch wus a-comin. I never saw a critter so cowed as he wus. Why, when that nigger brought him right in amongst us there wus nobody that took th' trouble t' open up a gangway, an I reckon any young one could 'a' took him by th' scruff o' th' neck an turned him over on his back. He wus jest a great, overgrown pet tomcat, with all th' fight an meanness walloped out o' him.

"We'd yanked his den up on to th' road bed with th' hole in th' end butted against a wagon. Th' door wus open, an when Monarch saw his happy little home waitin there fer him he jerked th' rope out o' th' darky's hand an' bolted inside it. He couldn't get fur enough inside, either—went away up in th' fur corner an tried t' hide. Saberlee shut th' door an spoke to him, but Monarch wus th' worst whipped cat animal you ever saw."

BACK-ACHE ?

If you have Backache you have Kidney Disease. If you neglect Backache it will develop into something worse—Bright's Disease or Diabetes. There is no use rubbing and doctoring your back. Cure the kidneys. There is only one kidney medicine but it cures Backache every time—

Don't Marry.

Almost everybody remembers the celebrated advice of the London *Punch*, "To those about to marry. *Don't.*" There is in that advice the expression of the feeling of many a mother who says, "I hope my daughter will never marry and suffer as I have."

In ninety-eight cases in every hundred there's no need for this suffering. Doctor Pierce's Favorite Prescription cures the womanly diseases which cause wifely misery. It dries enfeebling drains, heals inflammation and ulceration and cures female weakness. It invigorates the womanly organism, tranquilizes the nerves and gives the mother strength to give her children.

Do not allow an unscrupulous dealer to sell you something in place of "Favorite Prescription," claimed to be "just as good." There is nothing just as good for women as "Favorite Prescription."

"I am so pleased with your instructions, I hardly know what thanks to give you for your kind favors," writes Mrs. Milo Bryant, of Lots, St. Thomas Co., Ga. "You can publish my few statements to the world, hoping all suffering women will know and be healed. I suffered so much with great pains in my back and the lower part of my stomach and palpitation of the heart, that at times I could hardly lie down, and could hardly get up in the morning, but after using three bottles of 'Favorite Prescription' and two vials of Dr. Pierce's Pleasant Pellets, I feel like a new woman."

Dr. Pierce's Pleasant Pellets cure sick headache.

The time

to fight consumption, with Scott's Emulsion of cod-liver oil, is long in advance. If it threatens, you can resist; and you may overcome it. Don't be afraid; be brave. But tackle it; don't waste time.

THE GHOST.

Like to the ghost now do you come
Of one who came of yore,
And yet no specter pale and dumb,
But fashioned as before.
Not but in semblance and in name;
In gesture, bearing, tone the same.

Sometimes the very words you say
You said to me of old—
Words with their spirit passed away
And all their lifeblood cold,
And when you leave me tears I shed
For one much loved, for one now dead.

—Ella Fuller Maitland in Spectator.

Hand Grenades For Fires.

Hand grenades for putting out fires, which were common enough 15 or 20 years ago, consisting of glass vessels filled with solutions of various kinds supposed to have special fire extinguishing qualities, date back to a much earlier time than is commonly supposed.

Probably the earliest form consisted of a wooden vessel or barrel containing a considerable quantity of water and having in its center a small iron or tin case full of gunpowder. From this case a tube was continued through the side or head of the barrel and was filled with a composition that readily ignited. When a room was on fire, one of these machines was thrown into it, the powder exploding, which dispersed the water in the outer receptacle in every direction.

In 1723 Godfrey, an English chemist, copied this device and impregnated the water with an "aniphlogistic" substance. He named his machines "water bombs," and the fire grenades of recent years seem to have been patterned very closely after them. In the year 1734 the Swedish government offered a premium of 20,000 crowns for the best invention for stopping the progress of fires, upon which a German chemist introduced an apparatus of similar character.

None of those early inventions, however, seem to have had longer careers than their short lived successors of the present century.

Stains For Picture Frames.

A rich dark brown color can be given to plain wood by applying a solution of potassium bichromate and exposing to light. A solution for staining green can be made as follows: Dissolve one ounce of the best verdigris and one dram each of sap green and indigo in 15 ounces of vinegar. Raise to the boiling point, and apply while hot. The hue may be altered by changing the proportions of the ingredients. The frames when dry should be lightly sandpapered and then varnished or polished with turpentine and beeswax, which will give a dull luster

The Hardest Worked Vegetable.

According to a writer in the New York Sun, the cucumber is the hardest worked member of the vegetable kingdom. At least it is if we may judge by the variety of its uses. From America to Asia Minor it appears as an article of food on dinner tables and supper tables, all over the civilized world. But that does not exhaust its possibilities by any means. In Egypt it is made to yield a pleasant, cooling drink by ingenious treatment. A hole is cut in the cucumber, the pulp is broken and stirred with a stick and the hole closed with wax. The cucumber, still fastened to its stem, is lowered into a pit. After a few days the juice ferments, and the Egyptian drawing it off has a liquor exactly suited to his taste.

A Mystery Cleared Up.

Squibbs—What is the reason mothers who go to the watering places are always accompanied by their daughters?

Joskins—That is an old custom. It goes back to the time when Rebecca captured her husband, Jacob, at the well. Ever since women have been going to watering places to catch husbands.—Exchange.

A CULINARY NOVELTY.

How to Make a Fish Pudding In Norwegian Fashion.

Norway is the fish country par excellence. A slender strip of rugged, mountainous land bordered by a vast ocean, fish naturally play a prominent part in Scandinavian domestic and political economy, and it is to be expected that the Scandinavian cook will excel in fish dishes. One of the most popular Norwegian dishes is called fish pudding. Like the famous southern beaten biscuit, this dish presupposes cheap labor and plenty of it. However, the seeker after culinary novelties will feel amply repaid for the trouble. Fresh haddock is the first choice for this dish, but, failing that, the most perfect cod obtainable. Boil the fish until the skin and bones can be easily removed. This must be done lightly with the fingers, taking care neither to cut nor to crush the fish. Put it into a wooden bowl and beat it with a pestle, beating always the one way.

The beating should continue until a light paste is obtained, say half an hour; then for a medium sized pudding add gradually two well beaten eggs and half a pint of cream beaten in, drop by drop, with the pestle. This means another half hour of beating. By this time the cook should have a fluffy paste, which must be put in a pudding mold and steamed for an hour. It should cut exactly like snow pudding when done and is usually eaten with drawn butter sauce or melted butter and parsley with a dash of paprika.

Recipe No. 2 is much simpler and makes a delicious sandwich for a light lunch or a late supper with a drop of something to drink. Get a pot of anchovy paste, the imported kind, which comes in tiny white pots the size of an egg. Into half a teacupful of mayonnaise dressing (made with tarragon vinegar) work two teaspoonfuls of the paste and three hard boiled eggs chopped fine. Spread this mixture on thin slices of rye bread. Norwegian sandwiches are usually made with but one slice of bread. An ordinary French dressing may be substituted for the mayonnaise if preferred.

Recipe No. 3 is a very good thing to try with a chafing dish. Heat a smoked finnan haddie either in the oven or by steaming until skin and bones can be easily removed. Break the fish lightly into small bits. Into a spider or chafing dish put half a pint of cream or rich milk, and when it is very hot add a heaping tablespoonful of butter in which has been rubbed a tablespoonful of flour. Stir constantly until the sauce has thickened and then add the fish and let it cook for two or three minutes longer. Of course a dash of paprika should be added for seasoning. The flour may be omitted and the yolk of an egg used to thicken if a richer sauce is desired. The possibilities of smoked haddock are too little appreciated in this country. For a quick breakfast or for camp or picnic this dish is invaluable, as ten minutes in a double boiler is all the cooking required and a bit of butter all the seasoning.

COL. GIBSON'S LUNCH

Continued from 1st page.

Events during the past few years had brought them closer and closer to the heart of the Empire. God grant, said Colonel Borden, in conclusion, that this Empire may remain as solid and united as it is today, and that it may go on growing and increasing in power. It will be a blessing to the Empire and the world at large that this condition of things should continue. (Cheers.)

Lieut.-Col. Tilton proposed the toast of "The Major-General Commanding."

General O'Grady-Haly, who was received with musical honors, emphasized the fact that the first and most important thing for the soldier was to know how to use his weapon. The soldier must also be thoroughly trained and disciplined. In this connection the speaker quoted the statement of General Snynam, to the effect that if the Boers had been trained and disciplined they would at the outset of the Boer war have driven the British out of Natal. This statement General O'Grady-Haly believed, and he added that it was only the want of discipline and training which prevented the Boers from achieving success when numbers were in their favor.

The Shooting on Wednesday.

Ottawa, Aug. 29.—Yesterday's weather was perfect for shooting, and there were some good shots in the D. R. A. matches. The first match was the Kirkpatrick, for individual and team prizes, the latter being composed of six men of any battalion previously named, seven rounds to be fired at 600 yards in 11½ minutes. The Kirkpatrick Cup goes to the 10th Royal Grenadiers, with a record of 170.

The prizes for teams were: $20, Bandsman S. Dawson, Guards, 34; $15, Sergt. S. G. Pellow, 10th Regt., 33; $15, Lieut. W. L. Ross, 13th, 33; $15, Capt. A. Stuart, 6th, 33; $12, Sergt. J. Guest, R. E., 33.

The $10 winners are: Sergt.-Maj. H. V. Kent, 78th, 32; Sergt.-Maj. F. Richardson, 5th C. A., 32; Lieut. R. A. Robertson, 13th, 32; Sergt. W. A. Smith, 43rd, 32.

The Walker match, seven shots at 600 and 800 yards, was shot in a refreshing wind. The small cup and $25 was won by Bugle-Sergt. Broadhurst, 5th R. S., 66; $20, Quartermaster-Sergt. J. McVittie, 48th.

Walker team prize, Walker Cup and $30—5th R. C. A., 856. Next in order—48th, 353; 43rd (second team), 350; 77th, 349; 43rd (first team), 348.

Gillespie Cup—43rd, 900. Next in order—13th, 897; 5th R. C. A., 893; 43rd (team B), 892; 48th, 886.

An extra series at 800 yards was also shot, the best scores being: Pte. C. B. Oliver, 21st, and Lieut. W. L. Ross, 13th, possibles, and Corp. W. Gould, 30th; Staff-Sergt. Bayles, Royal Grenadiers, and Staff-Sergt. Graham, 48th, with 24 each.

The tie for the medal in the Harold Borden match was shot off, and won by Pte. Paupst.

MR. TARTE'S NERVE.

Canoe Trip Through Dangerous Rapids—The Indian Pilot Would Not Go Again for $10,000.

Ottawa, Aug. 29.—Hon. J. Israel Tarte had an exciting experience while descending the Ottawa River. Accompanied by Mr. Louis Coste and six Indian voyageurs he made the descent of the celebrated Des Rivieres Rapids between Mattawa and Mackey. The most dangerous point in the rapids is the "Big Cellar," a huge whirlpool into whose vortex it is death to be drawn. Studding the banks on either side are many crosses, signifying where hardy raftsmen have lost their lives while coming down with logs. Messrs. Tarte and Coste were the only members of the party who cared to run the rapids. The rest were content to portage to smooth water. The current swirled and boiled about the canoe in which sat the Minister and his companion, and at one time they were driven close upon the edge of the whirlpool. Had the Indian pilots lost their nerve or a paddle been disabled, the canoe and its inmates would have been lost. A few minutes' vigorous paddling, however, and they were out of danger, but not before having shipped considerable water. Afterwards the chief Indian pilot said he would not make such a journey again for $10,000. The canoe in which Mr. Tarte and his companions are making the trip is called the "Chief," and is 30 feet long. When it left Mattawa on Monday morning, there were on board Mr. Tarte and his two secretaries; Messrs. McCool, M.P., Louis Coste, G. P. Brophy, Wilbrod Fraser and Mr. Colin Rankin, Hudson Bay factor at Mattawa. The whole of Monday was consumed in rowing to Mackey, where the night was spent. Tuesday the party traveled as far as Fort William. In the middle of the day Mr. Tarte stopped to inspect the new interprovincial bridge at Des Joachims, which is being built by the Public Works Department. At Pembroke Mr. Coste left the party and came on to Ottawa.

WEST LAMBTON LIBERALS.

Mr. F. F. Pardee, M.P.P., Nominated—A Big Convention at Brigden.

Sarnia, Aug. 29.—By all odds the most successful nomination convention ever held in West Lambton took place at Brigden yesterday afternoon. There were about four hundred delegates present, representing every polling subdivision. The enthusiasm and unanimity were of the election-winning variety, spoke strongly of the great popularity which Mr. F. F. Pardee, the sitting member, who was unanimously nominated, enjoys, and forecast his election by a very large majority. Dr. Fisher of Brigden occupied the chair.

The work of nomination was soon concluded. Mr. F. F. Pardee was unanimously nominated, amidst great enthusiasm, the entire convention rising and giving the nominee three rousing cheers and a tiger, and singing "For He's a Jolly Good Fellow," and the cheering was enthusiastically repeated as Mr. Pardee advanced to the platform. Resolutions, with congratulatory speeches by the movers and seconders, of confidence in the Ross and Laurier Governments, were enthusiastically adopted. Mr. Pardee then addressed the convention at length and was followed in an excellent speech by Hon. J. R. Stratton. Mr. Pettypiece, M. P. P., also spoke strongly in praise of the candidate.

SPORTING PASTIMES.

AT THE BUTTS.

At the Rockliffe ranges yesterday Pte. Geo. Fitzgerald, of town, made 64 in the Walker match, winning $10, and Sgt. W. H. Moore won $8 in the same event.

BOWLING.

An interesting match at the green last evening resulted as follows:—

S'A Oke	W. D. Parker
H Rush	Geo. Giroux
R M Waddell	R Kerr
W F Johnston, sk....15	K G Lech, sk. 10

RUGBY.

The Rugbyists of the town are asked to bear in mind the annual meeting of the Peterborough Rugby Club, which is called for Wednesday night next in the Oriental Hotel parlours. All club members are asked to be in attendance.

The annual meeting of the Argonaut Rugby Club, of Toronto, was held on Tuesday night at the clubhouse. A large gathering of members and players were present. In the absence of the President, Mr. Galt, Major Harston filled the chair. The Treasurer's report showed the club to be in good financial standing, namely, $603. The following officers were elected for the current year:—

President—T. P. Galt.
Secretary-Treasurer — T. F. Pentland.
Captain—R. H. Parmenter.
Manager—F. H. Thompson.
Committee for senior team—A. H. E. Kent, D. F. McGuire, G. H. Doherty and E. A. Thompson.
Management Committee, second team—Messrs. Ridout, Barry, Blair, Lennox.
Delegates to O. R. F. U. — F. H. Thompson and D. F. McGuire.

The prospects look very bright for a good team this fall. Hardisty, Gleason and Wylie are out of the city, but the remainder of last year's team have all signified their intention of donning a suit and chasing the pigskin again. There are some good men who have decided to turn out with the oarsmen, along with a big bunch of juniors. Particular attention will be paid to the intermediate team this fall, as the senior team last fall could not muster enough players to have a good practice after the second team was put out of the running.

Chairman Harston said that too much credit could not be given to last year's management for the good showing made by the team. The election of captain developed into a pretty contest between "Reg." Parmenter and "Pud" Kent, the former winning by a narrow margin.

CANOEING.

The Toronto Telegram remarks that,—"Peterborough's pride, Walter English, commodore of the Mackerel Fleet of the Otonabee, has been elected Rear Commodore of the American Canoe Association."

LACROSSE.

The prospect of a three-corned tie in the big lacrosse league for first honours has disappeared. At the best only two clubs can finish on equal terms. One of the leaders, Capital, Cornwall or Shamrock, will be put out of the running within the next two weeks. The Nationals are not considered as being able to defeat Capitals September 14th, and Montreal is hardly strong enough to down Shamrock.

Should the Capitals win in Cornwall on Saturday next the factory town team would be out of the race with three losses. Should Capital go further and win from Shamrock Saturday, September 7th, the championship would again go to Ottawa, even if National afterwards defeated the Senators. A defeat by Capitals would leave Shamrocks with three games lost, while if Nationals defeated Caps, the latter would only have two losses to their debit.

On the other hand if Cornwalls defeat Capitals it will be sudden death to either Shamrock or Capital on the following Saturday. Which ever team won would be tied with Cornwall for first place, and a saw off would be necessary to decide the championship.

Saturday's match with Toronto in Ottawa, showed that there is room for improvement in the Capitals. Men who attend the practices say that some of the players do not turn out as they should, and the full home rarely has an opportunity to practice together. The brilliancy of the men individually is just as prominent as at any time, but it is of the in and out order and has not the steadiness and effect of combined play and team work. There is also a lot of selfishness in the home, and there is an overweening desire to figure in the scoring list. All these defects will have to be remedied before the team can defeat either Cornwall or Shamrock. The attack will have to be in the finest shape to break through the big Cornwall defence.

The positions of the teams in the League race are:

	Won.	Lost.	To play.	Per ct.
Capital	6	1	3	.857
Cornwall	7	2	1	.777
Shamrock	6	2	2	.750
Toronto	3	6	1	.333
National	2	7	1	.222
Montreal	1	7	2	.125

BASEBALL.

The locals have no more games in view for the present, and it is thought that the season is about over.

A game of baseball has been arranged for Saturday afternoon between the Senior Auburn's and the Senior Elms. Considerable rivalry exists between the two organizations, and the game on Saturday should be most interesting. There will be a number of Senior Peterborough's on the two teams.

The Eastern League.

NOT FAST ENOUGH.

The C. P. R., and the Norwood-Apsley Railroad—No Work Yet Being Done.

The residents of Norwood and Apsley are wearing a rather disappointed look these days. The reason for this is that construction on the Norwood-Apsley railroad is at a standstill, and if reports are correct there will be nothing done at the road this year. Of course this is a most disappointing state of affairs to the Norwood and Apsley people who have laboured for so many years in the promotion of the scheme, and have obtained subsidies from various Municipalities and the Dominion and Provincial Governments and who expected beyond a doubt that by this time at least the construction of the road would be well under way. The preliminary survey had been made and the C.P.R., had, it is said, given every assurance that they would carry through the work. Engineers, in fact, were expected to light into Norwood any day and proceed with the survey. Matters came to a sudden stop, however, and no one appears to know why the scheme has been dropped for the present at least.

The Port Hope Knitting Works are showing this week a great range of evening shawls and fascinators in all the most desirable shades and prettiest colours, in wool and silk, at 25c, 50c, 75c, $1.00, $2.00, etc. Be sure and see them—they excel everything hitherto shown.

A MUNICIPAL UNION

Canadian Municipalities Unite for Mutual Support.

A DRAFT OF THE CONSTITUTION.

Deliberations of Municipal Convention Result in Organization Upon a Broad Basis of Better Government and Promotion of Municipal Interests —Coming Discussion on Municipalization of Franchises.

Toronto, Aug. 30.—The only business done yesterday at the Mayors' Dominion Municipal Convention was the adoption of a portion of the constitution. Proceedings did not commence until nearly 4 o'clock. After the chairman had explained that pressure of committee business had caused the delay, the result of the committee's labors was submitted for approval. The report was as follows:

Scheme of Organization.

"The name shall be the Union of Canadian Municipalities.

"The membership shall consist of all municipalities of Canada which by vote of their Councils declare their intention of joining the union.

"The objects of the association shall be general improvement and facilitation of every branch of municipal administration by the following means:

"First, the perpetuation of the organization as an agency for the co-operation of municipalities in all questions pertaining to municipal administration.

"Second, in particular, the guidance and improvement of the legislation of both the Dominion and the Province upon municipal questions, and the betterment of municipal government and the promotion of municipal interests generally.

"Third, the holding of annual conventions for discussion, information and resolutions on the above subjects.

"Fourth, the securing of united action for the protection of individual municipalities and municipal interests as a whole against legislative or other encroachments of corporations.

"Fees—The following shall be the scale of fees to be paid by members:

Townships, parishes and incorporated villages	$ 2
Counties	5
Towns and cities with a population under 10,000	5
Ditto, under 50,000	10
Ditto, over 50,000	25

"Annual meeting — The annual meeting shall be held at such place as shall be determined by vote of the previous annual convention, and shall be held at such time as the Executive Committee shall determine.

"Representatives — Each member shall be entitled to send its Mayor, Warden or Reeve, and such additional representatives as its Council may appoint. Votes in the convention may be taken by a show of hands, unless any member calls for a vote by members, in which case each member by its representative or representatives shall cast but one vote."

So far, the constitution drafted by the organization met with favor, but there was a lengthy discussion when the following additional clauses were submitted for consideration:

"Officers — The officers of the association shall be a president and a vice-president for each province represented.

"Executive—There shall be an Executive Committee, which shall be composed of the president and vice-presidents. The Executive may elect a chairman and secretary from its own membership. The chairman so elected shall be the central officer, through whom meetings, conferences and the action of the Executive may take place. When the representation of any province becomes vacant after the time of the annual convention, the subsequent appointment of a vice-president for that province shall rest with the Executive Committee for the year. The Executive may confer by correspondence, and shall be a general administrative committee.

"During the convention such members of the last year's Executive as are members of the convention shall form a Committee on Resolutions with such members as may be added by the convention at its first session for the session only. The Executive shall meet on the day before the annual meeting of the convention. Vacancies in the executive may be filled by the executive for the remainder of the year, and until the next annual meeting.

"Amendments—Resolutions for the amendment of the constitution or for any other purpose shall in the first instance be referred to the Resolution Committee to report thereon to the convention, unless by a two-thirds vote of those present and voting, the rule is suspended with."

Ald. Urquhart urged that the Executive Committee be more general and suggested that it be composed of the president, provincial vice-presidents and other members, two from each province, to be elected by the convention, and the vice-president and two other members of the executive from a province to form a provincial committee to watch the interests of the municipalities in their respective province, three to constitute a quorum, to meet at the call of any three municipalities, and, if necessary, to consult with the central executive, no expense to be incurred without the consent of the president and provincial vice-president.

The suggestion was received with favor, and it will take the form of a resolution. A motion to refer the latter clauses in the proposed constitution back to the committee, was passed.

An adjournment was made till 10 a. m. to-day.

The following is a resolution submitted to the committee by Ald. Urquhart, Toronto, seconded by Ald. Richardson: "That we desire to emphasize the principle that any undertaking which requires to use the streets of a municipality for the purpose of carrying on its business, shall be deemed a public utility, and all such undertakings shall be owned and operated by the municipality concerned for the benefit of the citizens thereof."

TWO MEN ARE DEAD.

Twenty-Seven Others Were Injured and Some May Die as Result of Railway Wreck at Fairville, N.Y.

Newark, N. Y., Aug. 30.—The accommodation train leaving Sodus Point over the Northern Central Railroad, and which arrives in this village at 6 o'clock, was last night derailed at the station at Fairville, about 10 miles north of here. One was killed and 28 injured. Their names are:

Dead — William Mosher, Sodus Point.

Fatally injured—Howard Lubbs, Elmira, ticket agent at Lake Shore, badly scalded and severely injured about the head; will die.

Libbie Ford, Newark, badly scalded; will probably die.

Two, and possibly more, of the injured will die during the night.

The train was made up at Sodus Point, and consisted of four coaches, a baggage car and engine, with William Mosher at the throttle. Chester Flagler was fireman. Conductor H. S. Merriman of Sodus Point was in charge of the train.

The train was running at nearly 40 miles an hour. Approaching the station at Fairville, there is a curve and gravel pit. For some reason the engine jumped the tracks while passing the gravel pit. The force of the accident turned the engine completely around, throwing the five cars on their sides. The train load of some 150 passengers was thrown into the ditch, and it is a wonder that the number of fatally injured is not greater.

The engine and all the cars were badly broken up, and the steampipes running under the cars were broken in several places. This accounts for the large number of persons scalded. Aid was quickly summoned from the neighboring houses, and all the assistance possible was rendered. Word was sent to Sodus and Newark for physicians, and a special containing five doctors left Newark at 6.45 o'clock. Upon its arrival the Newark passengers were placed aboard and hastened to Newark. Five were sent to Rochester hospitals.

Rev. Dr. Burgess, one of the injured, was 25 years pastor of the Park Presbyterian Church at New York, and is the father of W. C. and F. H. Burgess, editors of The Arcadian Weekly Gazette of this place. He is 73 years old, and it is doubtful whether he will recover. Mrs. Burgess is also among the seriously injured.

Coroner E. P. Thatcher took charge of Mosher's body, and will hold an inquest.

Howard Tubbs, the ticket agent at Sodus Point, who was on the engine with Engineer William Mosher, was badly scalded and otherwise injured. He died shortly before 11 o'clock on the hospital train at Newark.

A Fatal Railway Wreck.

Elmira, N. Y., Aug. 30.—The breaking of a coupling pin caused a wreck at Roaring Branch, Pa., on the Northern Central Railroad yesterday morning, which resulted in the death of Engineer J. H. McKay of Elmira. Fireman C. F. Artly leaped from the engine in time to avoid the crash, which derailed several cars and demolished the engine.

TWENTY PERSONS ARE LOST.

Eleven Found and Identified, But Nine More Are Yet Missing.

Philadelphia, Aug. 30. — Eleven known dead, nine missing and thirty-two injured is the record made by the explosion of the boilers of the steamboat City of Trenton on the Delaware River Wednesday afternoon. All night long city firemen, policemen and employes of the Wilmington Steamboat Company, which owned the boat, worked in and around the burned and blackened hull, searching for bodies of victims. Hundreds of men dragged the river bottom with grappling irons yesterday, and they will continue to do so until every person is accounted for. Of the eleven bodies that have been recovered, ten have been identified.

Wm. R. Bingham has been appointed U. S. Consul-General at Cape Town.

WHEN WE BUY

DRESS GOODS

WE DO THIS:

DONT FORGET THE WHITEWEAR AT A REDUCTION OF 33 1-3 PER CENT. . . . . .

We make a note of the firms in Europe and America that are noted for goodness, beauty and ingenuity of weave in their fabrics. We see the sample lines of such firms, then we pick out those things suited to the taste of Peterborough women.

The result of our late efforts for Fall, 1901, await you in our Dress Goods Department. It's not too early to be introduced to them. Might we enjoy the pleasure of making you acquainted with these Dress Goods and their values?

TRUSTWORTHY DRY GOODS
UNIFORMLY RIGHT PRICES.

THE PAN-AMERICAN DAIRY TEST.

Buffalo, Aug. 27.

Ed. Examiner:—

There is no other condition which the cows have to contend with which makes as much variation in the flow of milk as does that of atmospheric temperature. So long as the temperature is about the seventies the cows keep up a good, even flow of milk, but just as soon as the thermometer goes up to the eighties, down goes the milk, no matter what the feed is. Green corn, cut, and green millet have taken the place of silage for the past ten days and the cows were doing well on this feed until the present hot spell came upon us which commenced on the 19th inst. and the cows are now suffering from the heat as much as they have done at any time since the test commenced with a consequent shrinkage in milk. There is the greatest variation in the heavy milking breeds, they drop the most when the conditions are unfavourable and they respond more quickly when the conditions are favourable. The week ending July 23rd was the most trying week of the season until the present, and when the cooler weather came in about the first of August there was a good increase in both milk and butter in most of the breeds, but at the present writing the thermometer stands from 85 degrees to 86 degrees and the milk has again fallen off badly. Up to the present time all the cows have been milked three times daily — 5 a.m., 12.30 p.m., and 8 p.m., but there has been much debating as to whether this is the wisest course under such trying conditions, with the result that three of the American herdsmen broke over the lines yesterday and are now milking only twice per day. The result will be closely watched during the next month, as some claim that more milk and butter will be produced by three milkings, and those interested will do well to watch the result, which will be given from time to time as the test goes on.

During the cold weather the Holsteins made the greatest gains with the exception of Meg as she had a week's sickness which put her back very much in her milk. The cost of feed, however, still keeps them down to 4th or 5th place on the butter test. The Guernsey, Mary Marshall, has again asserted her supremacy as queen of the barn and headed the list with $2.09 profit while last week she gave a profit of $2.37. The Jersey, Primrose, which headed the list two weeks ago with $2.33, stood second last week $2.22 profit, and this week with $1.91.

The Jerseys as a breed, stood at the head last week with a lead of 95 cts., but they have lost heavily during the week just ended, Aug. 20th, and the Guernseys have increased their lead by 56 cts., making their total lead at present $6.66. It may not be generally understood how the Guernseys got such a lead of the Jerseys during the first month but, in justice to the other breeds, it might be stated that the Guernseys were all in fine working trim at the beginning of the test. Four of them freshened in April, (two of them after they arrived on the grounds.) The Jersey, Primrose, had been milking two months before the test commenced, and Rexina did not calve until the end of the second week after the test commenced, and she was paying for her feed in the meantime which put her back about $4.00.

The Red Polls are making a remarkably good record and Mayflower holds second place on total profit since May 1st. Mary Marshall, (Guernsey) standing 1st with $39.03, Mayflower, (Red Poll) 2nd. $33.79, and Primrose, (Jersey) $33.66. The whole of the Red Polls in the test are owned by Capt. V. T. Hills, of Delaware, Ohio, who has made some remarkably good sales as a result of his cows' record here.

The Canadian cows, as a whole, are making a good record and are a much finer lot of cows than their competitors and they will all give a good account of themselves by the time the test is closed.

There are four prizes given in this test — one for the most profit on estimated butter as revealed by the Babcock test, the butter valued at 25 cts. per lb.; one prize for the most butter by the churn test; one prize for total solids in the milk valued at 9 cts. per lb., and one prize for total solids plus the gain or loss in flesh of the cows, valued at three cents per pound.

The first is creating the greatest interest, and is the one on which the profits, so far, have been based and published. The churn test is not considered at all reliable on account of only one day's milk from each herd per week being separated and churned, the result for the week being estimated from that one day's churning. There are so many contingencies which might and do arise to affect the product of one particular day that the result can only be approximate at least. The prize for total solids is based on the value of the whole milk as food, estimated from the wholesale price for city delivery, and in this, the sugar of the milk figures very largely, forming about 33 per cent. of the total solids.

In the making of cheese, the greater part of the sugar passes off in the whey, and comprises about 70 per cent of the solids in whey, and of which no account would be taken if a cheese test had been used as a basis for a prize, but in this test for total solids a pound of milk sugar figures the same as a pound of casein or a pound of milk fat.

In the competition for this prize the order of the herds is completely changed, and at the present writing they stand as follows:

Holsteins	$173.81 profit
Ayrshires	162.55 "
Brown Swiss	145.12 "
Shorthorn	145.08 "
Guernsey	143.35 "
Red Polls	142.90 "
Jerseys	138.36 "
French Canadian	134.76 "
Polled Jersey	103.79 "
Dutch Belted	96.76 "

When the test commenced there were only a few newspapers in the United States that took any notice of it, but there are now over 200 asking for reports from the Associated Press, thus showing the intense interest which has been created all over the country. At the World's Fair in 1893 the test extended over only three months, while this test is expected to cover a period of six months and it will be a test of endurance.

Standing of the herds in the Butter Fat Test for the week ending August 20th:

Guernsey	$3.66 profit
Jersey	3.10 "
Ayrshires	7.62 "
Red Polled	7.37 "
Brown Swiss	6.97 "
Holsteins	6.82 "
Polled Jersey	6.47 "
French Canadians	6.17 "
Shorthorn	5.93 "
Dutch Belted	5.06 "

Diseased Kidneys

Results From Exposure to Cold and Dampness or Injury of the Back—A Wonderfully Successful Home Treatment is Dr. Chase's Kidney-Liver Pills.

Though among the most painful and fatal of diseases, derangements of the kidneys are indicated by such marked symptoms that it is not necessary for anyone to be in doubt as to their ailment. Increasing weakness, debility and loss of weight; dull, heavy pains in the back, over the kidneys; frequent and pressing desire to urinate; scanty, highly-coloured urine; quick pulse; dry, harsh skin; constipation and diarrhoea alternating; nausea and stomach troubles and dropsical swellings, are the indications of kidney disease.

As the most frequent cause of kidney disease is exposure to cold and dampness or straining of the back and kidneys, it is especially common among workingmen, teamsters, railroaders and farmers. Kidney disease is also the result of constipation, and is found to prevail among men and women of sedentary habits and those accustomed to irregular hours, highly-seasoned foods and alcoholic liquors.

Mr. James Dellihunt, a most respected resident of Consecon, Ont., states: — "I was a sufferer from Bright's Disease for several years, and at times the tortures of mind and body were almost beyond endurance. The pains were in my head, between the shoulders and down the whole spine, concentrating across the kidneys, where I was never entirely free from pain. When I got up in the morning I went about bent over nearly double. It gave me great pain to urinate, and at times the water was very scanty. Medicines seemed to have little or no effect in my case, until I began the use of Dr. Chase's Kidney-Liver Pills. The first dose relieved me, and five boxes entirely cured me. I have no pains in my kidneys, and can do as good a day's work as I ever could."

Mr. J. J. Ward, J. P., of Consecon, certifies that he knows Mr. Dellihunt's statement of his cure to be correct and true and without exaggeration. It seems Dr. Chase's Kidney-Liver Pills owe much of their success to the fact that they have a direct and combined action on both the kidneys and liver, and so thoroughly rid the system of complicated diseases of these filtering organs. There is no longer any doubt as to the remarkable virtue of Dr. Chase's Kidney-Liver Pills. In Canada alone last year there were sold over one hundred and ninety thousand boxes of this great kidney medicine; one pill a dose; 25c. a box; all dealers, or Edmanson, Bates & Co., Toronto.

A GLOWING REPORT.

Indiana Man's Report on the Canadian West.

Mr. Frank Fisher, a Prominent Dunkard, Compares our West With That of the United States.

Ottawa, Aug. 26th. — The immigration branch of the Department of the Interior has received a most glowing report from Mr. Frank Fisher, Superintendent of the Dunkards' Orphans and Old Men's Home at Mexico, Ind., detailing the results of a visit paid by the writer to the Northwest Territories. The Dunkards are a sect resembling the Quakers in their habits and mode of living, and Mr. Fisher is one of their leading members. Mr. Fisher says in the course of his report: "We visited the Territories of Alberta, Assinboia and Saskatchewan, and found them far surpassing our expectations; but little did I expect to find such rich, loamy soil, so much of it, and so uniform in its level prairie lay. I do think the soil of Canada as a rule equals if not excels the finest prairie farm land of Indiana. These lands are immense in their richness, and when once the soil is rotted and pulverized it is pliable and as easily cultivated as Indiana sandy soil. The Northwest of Canada from my point of view offers as fine opportunities for mixed farming as any place in my knowledge. The long sunshiny days, together with the rich soil, produce very fine wheat, oats, barley, flax and other cereal products. There is scarcely any attempt to raise corn, except varieties for table use. The season is too short to depend upon maturing field corn. From the standpoint of getting this land ready for the plough, I must say that I never saw such a vast extent practically all ready, so that all one has to do is to hitch up the plough and go to work. This is not the case with all Canadian land, however. Some of it has quite a lot of timber, much of it may be called brush land, and some of it has lovely forest groves, dotted here and there, thereby covering 160 acres.

"I have no doubt but that this country excels as a grazing or ranching country, because they have such rich grass, having an abundance of rain to keep it fresh. They also have plenty of streams, and as a rule water may be reached at a depth of from 20 to 40 feet. From this you see there can be plenty of hay mown for winter feeding, and I have had reliable farmers to tell me that their stock will feed on hay alone and be ready for the market in the spring. Upon inquiring about the expense of raising a steer a farmer replied that he did not consider it would cost any more than $4 or $6 to develop a three-year-old steer.

"From a financial standpoint, I believe that for a series of years (five) a young man can make $10 in Canada whereas he would make only $1 in Indiana, and I feel sure that I spent more money to get my eighty-acre farm in White County, Indiana, cultivated, than it would cost me to cultivate eight hundred acres in Canada. This may seem a strong view to take of the matter, but when you take into consideration the clearing ditching, fencing, and the expensive breaking in of the stumps, and then compare the expense to that of land needing the breaking, you will conclude that it is not such a wild, exaggerated statement as you might at first think.

"I enjoyed the balmy, breezy atmosphere, which was bracing and refreshing, and the cool nights, which made it so pleasant for sleep.

"On making inquiries regarding the winters in this country, I learned that the people never suffer from the cold, as the weather is dry and invigorating, and in a great many places farmers and herders allow their stock to run outside the year round.

"One great advantage to the settlers in western Canada is free creameries established by the Government, and run exclusively in the interests of the farmer.

"I visited Thomas Daley, a farmer near Edmonton, Alberta, who showed me oats he had raised, some of which took the first prize at the Paris Exposition last year. The same yielded 110 bushels to the acre in 1899."

Bronchitic Sufferers

Act foolishly. If they improve ever so little when the fine weather comes, they relax effort and drift back into the old condition which if possible, becomes more chronic. Hit Bronchitis hard in the summer and you'll get rid of it and drive it right out of the system. In winter it is almost impossible to do this. Inhale Catarrhozone regularly, it's a dead sure thing on Bronchitis. It goes into the most minute air cells of the lungs, bathes all parts of the bronchial tubes with its healing, germ destroying vapor, and cures every time. Highly endorsed by all competent druggists and doctors. 25 cts. and $1.00.

Quebec Arsenal Improved.

Two buildings are being added to the Government Cartridge Works at Quebec, an artillery workshop and an iron foundry for the manufacture of shells. "Heretofore," said a prominent official of the Militia Department, "we have manufactured only the cast-iron shells used in gun practice. Our intention is to make the steel shells which are employed in active service, and which formerly we imported from England. In the new workshops we will be able to do all our own repairs to guns and rifles."

"In other words, we shall manufacture all our own munitions of war except the guns?" was suggested.

"Yes, and within a very short time I hope we shall be making our own rifles, too," said the official.

Advertising in the Examiner pays

School Suits

Mothers know where they can always depend upon getting good, serviceable School Clothing for their sons. They know whether or not the last Suit bought at the City Clothing Store wore as well as it ought to have done. And if it did, we deserve their patronage again.

We have all GOOD qualities in BOYS' SUITS, and all sizes and styles to fit any boy from 3 to 15 years of age. We sell the best Clothes for Boys that are made by any manufacturer in Canada, and we know they have always given wide-spread satisfaction.

We were boys ourselves once, and don't forget the first time we wore long pants.

WILLIAM DOXTATER SHOT.

Chief Henry of the Muncoys Arrested and Held.

London, Aug. 30.—William Doxtater, a well-known young Muncey Indian, was shot, possibly fatally, by John Henry, the chief of the Muncey tribe, Tuesday evening. Henry was arrested and lodged in the County Jail, where he will be held pending the result of Doxtater's injuries.

The shooting was the outcome of a too intimate relationship between Doxtater and Henry's young daughter. For some time past the young Indian had been living with the girl, although they were unmarried. Henry made repeated efforts to induce his daughter to leave Doxtater, but she turned a deaf ear to the paternal advice. However, on Monday night, matters reached a climax when the girl went home.

The following night Doxtater appeared at Henry's house and demanded his property. An altercation followed, and, seizing a revolver, Henry fired at the younger man. The ball struck him in the forehead, just above the nose, but glanced off, fracturing the skull and making a gaping wound.

Chief Henry was arrested in the city yesterday. In the meantime the condition of Doxtater is critical, and, should he die, Henry may have to stand trial on the charge of murder.

The Agony of Sleeplessness.

Did you ever pass a single night in wakeful misery, tossing and rolling in gin bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding night growing worse and worse? This is the most dreadful symptom of Nervous Exhaustion and Debility. You can be gradually and thoroughly cured of Sleeplessness by the upbuilding influence of Dr. Chase's Nerve Food. It cures in nature's way, by creating new nerve cells and restoring lost vitality.

Wears a Fenian Raid Medal.

The United Service Gazette has the following concerning Surg.-Gen. Jamieson, who is a brother-in-law to Sir Richard Cartwright, and is well-known in Canada: "Surg.-General Jamieson, C. B., director-general of the army medical service, retires from to-day with the maximum pension. This officer, a native of Ayrshire, has seen forty-four years' service, passing through all the ranks of his department. Early in his career he was quartered in Canada, where he married Mary, daughter of Rev. R. W Cartwright, Kingston, and afterwards did good work at Trinidad during an epidemic of yellow fever. The most noteworthy incident in his career was his command of a division of the English ambulance in the Franco-German war. He possesses the Canadian decoration, in virtue of his participation in the suppression of the Fenian Raid. Surg.-Gen Jamieson has written considerably on professional subjects, has been an enthusiastic supporter of athletics and field sports, and is a Knight of Grace of the Order of St. John of Jerusalem."

The True Tragedy of Life

is ill-health, disappointed ambitions, usefulness destroyed. Pathetic! nay, tragic. Poor blood, weak nerves, a tired brain. Is there hope? Yes! Because there is a cure.

Ferrozone Tablets make blood; not blue blood, but the fluid that strengthens the whole body. Ferrozone does this quickly by improving digestion, stimulating assimulation and by imparting health and tone to the whole system. Ormond & Walsh, druggists will tell you a great deal more about Ferrozone. Ask them to tell you of the wonderful curative properties of Ferrozone Tablets.

ELIGIBLE FOR BISLEY

The Marksmen Who Will Make Up the 1902 Team.

MINISTER OF MILITIA MATCH.

Sergt. Mortimer Wins the Challenge Cup and $25—The Governor-General's Match, and Some Results of the First Stage—Pte. Miller Leads the Score—Team for Sea Girt.

Ottawa, Aug. 30.—A very tricky wind made shooting at the 900 yards range yesterday morning, in the Minister of Militia match, a very difficult proposition. There were many disastrous breaks, and some of the crack shots got misses on their scores. Several had come back with possibles from the 800 yards range, but they mostly went to pieces.

On target No. 5, near the river, the first three men started with seven misses, and the number of challenges that went in down the range will materially help to swell the coffers of the association. Sergt. Mortimer, of the 10th Royal Grenadiers, was not one of those who made any mistakes, and his seven shots totalled him 34 points for the range, and a grand total of 66 and first place.

First five individual prizes and team prizes for teams of six previously named members of any affiliated association. Ranges 800 and 900 yards; seven shots at each range: $25, Sergt. G. Mortimer, 10th R.G., 66; $20, Capt. R. Rennie, Q. O.R., 66; $15, Sergt.-Major F. Richardson, 5th C.A., 65; $12, Gr. A. Fleming, 5th C.A., 65; $12, Capt. T. Margetts, 25th, 65.

Team Prizes.—Caron Cup and $32.50, 77th Regiment, 358; $32.50, 13th Regiment, 358; $25, British Columbia R. A. (first team), 357; $20, 10th Royal Grenadiers (first team), 351; $15, Nova Scotia (first team), 349; $12, New Brunswick R. A., 347; $10, B.C.R.A. (second team), 343.

Governor-General's Prize.

The Governor-General's match, the plum of the D. R. A. meeting, started with a good light but a strong wind, which greatly puzzled many of the best shots. At 200 yards there was a general run of good scoring. At 500 yards there were many breaks, but Sergt. Forbes, 74th, looked as if he was again after the big prize, as he followed up his 34 at 200 with a possible and went back top man. Other scores of possibles were: Lieut. Blackwood, 1st C. A.; Pte. Simpson, 10th R. G.; Bandsman Dawson, Guards, and Gunner McEachern, 1st C. A.

The afternoon was a busy one, and the shooting done was excellent, despite a high wind. The first stage of the Governor-General's resulted in Pte. Miller, 6th, putting on 101 and winning the D. R. A. medal. This match also decided the Bisley aggregate from which the Bisley 20 is chosen.

Governor-General's (first stage), 200, 500 and 600 yards, 7 shots at each: possible 105; first 150 shoot in second stage. The first five winners:

D. R. A. Silver Medal—Pte. W. Miller, 6th, 101; Pte. J. H. Simpson, 10th R. G., 99; Pte. W. T. Graham, 77th, 98; Sergt. G. Mortimer, 10th R. G., 98; Lieut. W. E. Ross, 13th, 97.

For the Bisley Team.

For Bisley twenty: Sgt G Mortimer, 10th R.G., 413; Sgt.-Major F Richardson, 5th C.A., 413; Sgt W A Smith, 43rd, 411; Capt J E Hutchison, 43rd, 409; Gr A Fleming, 5th R.G.A., 406; Lieut W L Ross, 13th, 407; Capt R C Blair, 78th, 407; Lieut E A Robertson, 23rd, 407; Pte W E Bennett, 43rd, 405; Col.-Sgt J Moscrop, 6th, 404; Capt R J Davidson, 8th R.E., 402; Corp S C Mortimore, 6th, 402; Capt T S Margetts, 25th, 401; Pte W Miller, 6th, 401; Q.M.S., J McVittie, 48th, 401; S.-Sgt T S Bayles, 10th R.G., 400; Sgt J Broadhurst, 5th Royal Scots, 400; Pte J H Bertram, 77th, 399; S-Sgt J Carruthers, 4th Hussars, 399; Pte W F Graham, 77th, 397; Capt R Rennie, Q.O.R., 397; Surg-Major J Ross, 77th, 397; Sgt W Swaine, 14th P.W.O.R., 397; S.-Sgt A Graham, 48th, 396; Pte C S Scott, 43rd, 395; Major C L MacAdam, 3rd Victorias, 392; Lieut T J Murphy, 7th, 392; Capt C N Mitchell, R.O., 391.

The Lansdowne Aggregate.

Lansdowne aggregate, open to teams of 6 men making highest scores in the "Bankers'," "Minister of Militia" and "Walker" matches. Lansdowne Cup and $25, 13th Regiment, 903; $30, B.C.R.A., 1st team, 900; $24, 77th Regiment, 884; $21, B.C. R.A., 2nd team, 879; $18, 43rd R. A., 875; $15, Q.O.R., 869; $10, 10th Regiment, 1st team, 869.

Team for Sea Girt.

The composition of the Canadian team which will participate in the United States matches at Sea Girt, N.J., was announced yesterday morning. It will be made up of Major J. Mason, 13th Regiment, commanding; Capt. W. H. Davidson, 8th Royal Rifles, Quebec; Capt. R. J. Davidson, 8th Royal Rifles, Quebec; Lieut. W. L. Ross, Lt. R. A. Robertson, Sergt.-Major S. J. Huggins, S, Sgt. T. Hayhurst, G. M.; Col.-Sgt. Sheddon, 13th, Hamilton; Sgt. Drysdale, 1st P.W.R., Montreal; Sgt. Swain, 1st P.W.R., Montreal; Gr. Fleming, Capt. Stewart, 5th C.A., British Columbias Pte. S. Paupst, 77th, Dundas, and Lt. Smith, 59th, Cornwall.

The team will parade in Montreal on Saturday and leave at 8 p.m. They will wear khaki uniforms. A permission from the U.S. authorities for the team to travel with arms and accoutrements has arrived along with a notification that the visitors will be met by an escort from the National Guard.

A Medicine 300 Years Old.

Our readers will probably be surprised to learn that for nearly 300 years cod liver oil has been used as a medicine. During the past twenty five years nearly all the cod liver oil brought to this country from Norway has been used in the form of Scott's Emulsion. It is by all means the most pleasant preparation of cod liver oil you can buy.

A Metric Chart.

The Canadian Engineer publishes an interesting and valuable metric chart, or chart of the metric system of weights and measures. The principles of the system are understood at a glance from the chart, and its details may be learned in a few minutes. The subject is a live one in Canada, in view of the possible adoption of the metric system by both ourselves and our neighbors within the next few years. It is a matter of regret, in fact, that it has not long since displaced the cumbrous system in use.

Snaps in Shoes!

Here's a lot of values for those who can make use of the opportunity. The sorting over of stock singles out a number of odd lines that might as well be cleared. There's not enough of any one line to warrant us keeping them on the shelves. We know the value. It is the best. Possibly the buyer who comes with the idea of getting just what one is looking for may not see the exact thing, but will find the very best value in Shoes, and well worth wearing. No question of style, durability or material. Just odd lines to clear.

36 Pairs Men's Shoes, some heavy, some light, all nice shapes, fine materials, real snap	$1.25
30 Pairs Men's Good Shoes, lightweight leathers, shapely, neat, comfortable	$1.00
Few Pairs Men's Stout Working Boots, fine value	75c
18 Pairs Misses' and Children's Tan and Tan and Cloth Shoes, stylish goods, in many sizes	$1.00
24 Pairs Ladies' Gaiters, several sizes, very comfortable for house wear	$1.00
10 Pairs Misses' Tan and Cloth Shoes, nice new goods, merely an odd lot and all in stock	$1.25
24 Pairs Women's Button Boots, fine Black Kid, excellent value	$1.25

Better value than these cannot be had. Clearing out makes the price.

ADVANCE SALE
...OF...
Boys' School Suits

School days are just round the corner. Our Boys' Department is brimful of brand New, Nobby Styles, Amazingly Priced. These have come from the manufacturers earlier than expected, and for that reason we put on an ADVANCE SALE to induce a season of early activity in this Department.

We mark prices of Boys' School Suits beyond the touch of competition. Some great Special Features for parents who bring their boys early.

CHILDREN'S SCHOOL SHOES.

You can't resist our tempting Bargains.

A big Manufacturer, to get our trade, made us an exceptionalls good offer in Children's Shoes. We bought about 500 pairs, and start the School Season with the biggest boom the Shoe Department ever knew.

GOUGH BROS.

375-376 George Street, Peterborough.
6-8 Queen Street West, Toronto.

Daily Examiner.

FRIDAY, AUG. 30, 1901.

All the newest ideas in photography from the Pan-American, at G. E. Whiten's. See his latest photographs in colours.

Probabilities.

Fresh winds, shifting to northwest and north; some local showers or thunderstorms to-day, but fair at intervals; turning much cooler this evening. Saturday, fair and cool.

Labour Day.

The steamers Esturion, Manita and Ogemah, of the Trent Valley Navigation Co. Line, will give half-fare return rates to and from all points on Monday, September 2nd, Labour Day.

Private School.

Miss Bennet's School,
309 Park Street,
Will re-open Tuesday, 3rd Sept., at 9 a. m.
Drawing Class
Saturday, 7th September, at 3 p.m.

Bugle Band.

All members of the Bugle Band are kindly requested to turn out for practice at the armouries on Tuesday evening next at eight o'clock sharp. Providing the weather is favourable, and the members present, the band will march out during the evening and favour the citizens with a few inspiring spasms.

Change of Entrance.

Some extensive alterations are in progress at the opera house building. The entrance to the second floor of the opera house is being changed from the arcade to the two small vacant stores between the Bell Telephone Co's office and the G.T.R. ticket office. This will necessitate only one turn before arriving at the third floor, and will be a much appreciated improvement.

To Idyl Wyld.

The business men of the town, or at least fifty of them, took a day off yesterday, and went down to Idyl Wyld for the afternoon. It was the business men's outing, and the man who did not enjoy himself was not to be found on board. The "City" left the Wolfe street wharf at 2 o'clock, and reached Idyl Wild at a quarter to 6. An excellent tea was furnished the party at Idyl Wild and the party started for home at 7 o'clock. The trip home in the evening was delightful, and Peterborough was reached as the town clock struck twelve.

Obituary.

Mr. Wellington Boyce, an old resident of Smith, died on Saturday last at the residence of his son-in-law, Mr. Jonathan Branch. Mr. Boyce with his wife, was out camping at Little Mud Lake when he was suddenly taken ill and had to be conveyed to Mr. Branch's house. In spite of all that medical aid could do he passed peacefully away. Mr. Boyce was in his 74th year. A wife, two sons and seven daughters survive his loss. All the members of the family are married save one son, Mr. Wesley Boyce, who remains at home. The funeral took place from the residence of his son-in-law, Mr. Branch, on Aug. 20th. The remains were interred in the Lakefield cemetery.

The Port Hope Knitting Works are showing this week a great range of evening shawls and fascinators in all the most desirable shades and prettiest colours, in wool and silk, at 25c, 50c, 75c, $1.00, $2.00, etc. Be sure and see them—they excel everything hitherto shown.

A MOONLIGHT OUTING.

A Jolly Part of Young People Went Down the Otonabee River Last Night.

One of the most enjoyable outings of the season was the moonlight excursion which took place per steamer Water Lily, last night to Highland Park, a few miles below Hale's bridge, on the Otonabee River.

The affair was given under the auspices of the C.D.A., and was attended by about seventy invited guests. The night was an ideal one for a moonlight outing, although in the early part of the evening the weather looked threatening. The Water Lily left the Wolfe street wharf at about 7.30 o'clock, and picked up the Ashburnham contingent at Peck's wharf. Highland Park was reached at about 9 o'clock, where the party disembarked and assembled around a beautiful big bon fire, and participated in corn and marshmallow roasts. A section of the 57th Regimental Band, which was in attendance, furnished sprightly music, while refreshments were being served. As the moonlight party was about to return to the steamer, the "City" passed, with the business men's excursion, and they were given a friendly salute.

The home trip was not the least delightful part of the outing; the "Lily" made excellent time, and soon overtook the "City of Peterborough." Songs and music from the band entertained the party until the Peterborough wharf was reached, and the strains of God Save the King were gently wafted over the waters of the Little Lake.

Altogether the outing was most successful, and the committee who had the arrangements in hand desire to thank Captain Calcutt and his obliging crew for the courteous manner in which they discharged their duties.

LIEUT.-COL. SUTTON IN TOWN.

The Commanding Officer of the 3rd Dragoons was on his way to Ottawa.

Lieut.-Col. David Sutton, of Millbrook, commanding officer of the 3rd Prince of Wales Canadian Dragoons, was in town last night and had a short consultation with the local officers of the Dragoons. He then went on to Ottawa on the midnight C.P.R. train where he will talk over and make final arrangements for the transportation of the 3rd Dragoons to Toronto to take part in the reception ceremonies to the Duke and Duchess of York. The transporting of a rural regiment of cavalry entails more work than a city regiment of infantry, as for instance the 3rd Dragoons is made up of a squadron each from Colborne, Millbrook, Peterborough and Wellington, Prince Edward county. The regiment will no doubt make a good name for itself in Toronto as the Dragoons are a crack regiment of cavalry.

NEWS NUGGETS.

—Considerable improvements are in progress in the vicinity of the G.T.R. station. In addition to the new gate houses that have been erected, the fence around the grass patch between the station house and Charlotte street has been taken down and it adds very considerably to the appearance of the surroundings.

The New Bridge.

Warden Fitzgerald, and Councillor Anderson of the Peterborough County Council, Mr. John Belcher, County Engineer, and Councillor Leith of the United Counties of Durham and Northumberland, to-day drove out to the Douglass bridge on the boundry between North Monaghan and Cavan for the purpose of letting the contract for the approaches to the new bridge which is being built there. The new structure is going to be a most substantial one, being of concrete abutments and steel sleeper structure.

PERSONALS.

Mr. George Morrow went out to the Lakes yesterday.

Mr. and Mrs. C. B. Routley are at the Pan-American.

Mr. A. J. McClellan was in Toronto yesterday on business.

Miss White, of Renfrew, is the guest of Miss Grace Barnet.

Miss Eva Cowie is visiting her aunt, Mrs. T. Burke, in Toronto.

Dr. McCullough has returned from a professional visit to Lindsay.

Miss Minnie Casey is a guest at the residence of Mr. J. C. Sullivan.

Miss Marie Young and Miss Barbeau, are visiting friends in Toronto.

Miss Eva and Violet Hickey, of Toronto, are visiting the Misses Tobin.

Private Joe Gibson won $4 in the Minister of Militia match yesterday at Ottawa.

Hon. Senator Cox, accompanied by Mr. E. R. Wood and Mr. Bailey, was in town yesterday.

Mr. James L. Tobin and Miss Sarah Tobin, Ashburnham, are visiting friends in Rochester.

Aldermen G. M. Roger and Henry Best have returned from the Civic Convention at Toronto.

Mr. Traverse, the popular representative of Chase & Sanborn, is in in town on a business trip.

Miss Reynar of Cobourg, who has been the guest of Miss Dumble, returned home at noon to-day.

Mrs. James Sisson, of Mount Pleasant, is the guest of her sister, Mrs. Wm. Batten, McDonel street.

Sergt. "Billy" Borland, of "B" Battery, who has been visiting his parents here, returned home at noon.

Miss Mary Warde, of Detroit, passed through yesterday on her way to Chemong to spend a few weeks.

Dr. Greer has returned to town, after a very pleasant holiday spent with his family at Gore's Landing.

Mrs. Barbeau has returned home to Sault Ste. Marie, after a five weeks visit with friends in town

Mr. Walden, organist of the George street church, has gone to Toronto, but will be back to-morrow evening.

Mr. Percy Owens of Toronto, is camping at Dawson's Landing, Rice Lake, with a Millbrook and Toronto camping party.

Mr. J. C. Sullivan, Miss Frankie Sullivan and Miss Louise Sullivan left yesterday to spend a week at the Pan-American.

Mrs. John Goheen, No. 216 Simcoe street, left yesterday morning for an extended visit to St. Catharines, Niagara and the Pan-American.

Messrs. J. W. Buyers and George Robinson have returned from attending the annual meeting of the I.O.F. High Court at Cornwall.

The Misses Clara and Lottie Bell, of Keene, and Mr. George A. Morency, of Montreal, leave to-morrow for the Toronto and Buffalo Expositions.

Mr. W. H. Collins, formerly of the local branch of the Canadian Bank of Commerce, but more recently of Paris, has been tranferred to the Woodstock Branch.

Miss Annie Tobin has returned from Toronto, where she has been visiting friends. She was accompanied by her cousin, Miss Violet Hickey, of Toronto.

Mrs. M. T. Ostrom and children have returned after a pleasant outing of some five weeks' down the St. Lawrence, and are visiting relatives in Napanee and Kingston.

Mrs. Claude Fox of Toronto, has been spending the last few days as the guest of Mrs. C. B. McAllister. Mrs. Fox has just concluded a sojourn at Strathormond, Stony Lake.

Mr. Leo J. McGrath, of New York, who has been spending the past week with his parents, Mr. and Mrs. John McGrath, 196 Harvey street, leaves for New York on Monday, to resume his position with the Manhattan Elevated Railway Company.

Rev. O. C. Elliott, pastor of the Belleville Baptist church, who has been holidaying down at Thompson's Point, on the Otonabee River, for the last few weeks, returned to his charge in the City of the Bay to-day. Mr. Elliott was more than delighted with the spot picked for the camp, and announces that he will return for a month next summer.

The engagement has been announced of Miss Jessie Dickson, Toronto, daughter of the late George D. Dickson, Esq., Q.C., of Belleville, to Mr. F. H. Pope, of the Ontario Bank, who was connected with the local branch some years ago. The wedding will take place early in December, after which Mr. and Mrs. Pope will go abroad for some months.

Mr. and Mrs. G. Learmouth have returned home after having had a very pleasant vacation down the St. Lawrence. After spending a few days at Montreal, seeing the many points of interest in that city, they boarded a steamer for Quebec, where they spent a pleasant and somewhat exciting time climbing the lofty hills, of which there are so many in the city. They also viewed the many different forts, and the citadel, which is 350 feet high.

A jolly camping party, returned this morning, after a very pleasant month's outing at Lovesick Lake. The party was composed of Mrs. W. J. McMurtry, with her four daughters, Misses Grace, Gertrude, Constance and Hope, Mr. Roy McMurtry, of Toronto, Miss Marion Lewis, and Mr. Eddie Lewis, of New York, Miss E. Davies, of Kingman, Me., and Mr. "Pud" Kent, of the "Argo's," Toronto. The party has been occupying Mr. Letellier's cottage.

SATURDAY NIGHT BARGAINS.

10 Dozen Men's Linen Hats, regular 50c and 75c. Special Saturday night 25c

24 Dozen Men's Real Maco Half Hose, worth 25c, special Saturday night 12c

Women's Chocolate Dongola Oxfords, regular $1.35, special Saturday night . . . $1.00

GOUGH BROTHERS.

It has Been Officially Declared off.

(Special to the Examiner.)

Montreal, Que., Aug. 30.—The C.P.R. trackmen's strike has been officially declared off.

The information contained in the above despatch will be received with pleasure by the travelling public. Further details concerning the settlement will be published to-morrow.

STONY LAKE TRAFFIC.

An Idea as to the Number of Tourists to the Back Lakes.

Some slight idea of the amount of traffic that passes through Lakefield to the Kawartha Lakes every summer may be gleaned from the fact that no less than one thousand and sixty person have registered their names at the Craig House from June 15th to Aug. 27th. When one takes into account that this represents about one-tenth of those who pass through en route to the lakes, and that it is not by any means a complete list of those who have availed themselves of the hospitality of the Craig House, it can easily be seen that the tourist traffic is growing by leaps and bounds.

Of course the traffic through Lakefield represents the traffic through Peterborough.

BAND CONCERT TO-NIGHT.

The following programme is announced for the band concert in Victoria Park this evening:—

March, Columbia Phonograph ....
Overture, Baurer & Dichter ....
Humoresque, Mosquito's Parade .....
Selection, A Gaiety Girl ....
Cake Walk, My Ragtime Baby ....
Mexican Serenade, La Paloma ....

August 27th, 1901.

Making Room for Immense Stocks

Although the spine of summer shows no signs of breaking, preparation for Fall business must have our chief attention now. This is the last week of the last month of summer, and surplus stocks MUST GO regardless of cost.

BOOKS MUST GO!

If you only want one Book or a whole library, all we ask is a chance to quote you special prices. We never sold books cheaper. We have all the best works published—in fiction these are six leaders:

"RALPH MARLOW" "PUPPET CROWN"
"DAYS LIKE THESE" "THE CRISIS."
"VISITS OF ELIZABETH" "CINDERELLA."

FANCY GOODS MUST GO!

This Store is alive with Bargains in Fancy Goods, Wedding Presents, Birthday and Presentation Goods, Ladies' Companions, Brush and Comb Sets, Albums, Purses, Card Cases, etc. Prices this week, are, on the average, about one-third lower than regular.

NOTE PAPER MUST GO!

To be quite correct in social etiquette, better copsult our styles of Note Paper, Envelopes, Visiting Cards, etc. People judge you by your stationery, just the same. If you want to be sure you have what is perfectly correct, see our varied lines. No better time to stock up than now.

GAMES MUST GO!

Amusements for old and young. Overstock of Card Games, Board Games, etc. All the regular games of the century. Will deal summarily with them all by cutting the prices in two. Playing Cards in twenty different qualities, Authors, Nations, Flip, Old Maid, Chess, Checkers, Dominoes, Crockinole, Bobity, Go Bang, Parlour Hockey, Parlour Curling etc.

A. H. STRATTON & CO.

RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

Last Week in August

Brings many new faces to the big Simcoe Street Store. All Styles of Dress Goods are now pouring in from the Old World Dress Goods from FRANCE and GERMANY, Jackets and Capes from BERLIN, Gloves from GRENOBLE, Silks from FRANCE and ITALY, Novelties from PARIS and LONDON. Every place that has its special advantages for selling any particular line is where we buy—AND WE BUY THE BEST ALWAYS.

NOW FOR SCHOOL AGAIN

School time will be here again next week, so if you want any new things for the children in Dresses, in Stockings or anything in the Dry Goods way, come along. You'll get a bigger assortment here than elsewhere, and better values, too. A good mother wants nice-looking, comfortable, wearable things for the child. We show some new hard-wearing stuffs that have some beauty about them as well as durability—closely-woven fabrics for clothes for the roughest-on-his-clothes youngster who needs something strong.

FALL FANCIES.

Lots of new Fall things are here now. Some particularly nice things in Tweeds for Tailor-made Suits, and sure to be of a great deal of satisfaction to women who like character and quality in what they wear. Prices are very, very low—in fact when you see them you will wonder how the Goods can be made for so little.

NEW SILKS.

A grand assortment of Silks now in. Some particularly grand effects in Fancies for Novelty Waists. They're worth seeing whether you want to buy or not. Also a full assortment of Black and Coloured Taffetas for Waists and Skirts. Remember we guarantee our Taffetas.

FASHIONABLE BELTS

You get all the style in a Belt when you buy it here. We have the variety in both quality and price. Nearly all of them have the new pointed long waist effect now so popular with ladies of taste. We're showing something new in Black Velvet Belts, with Black Gilt and Oxydized Buckles. The Stock is so large and the assortment so good that we are sure you can select a Belt to suit you exactly. Prices for these Velvet Belts are from **25 cents** to **75 cents** each.

RICHARD HALL & SON DIRECT IMPORTERS. 130, 132, 134 SIMCOE STREET

THE STORE THAT NEVER DISAPPOINTS

CLARKE & GIBSON

Jewelers and Goldsmiths, Hunter Street, near Post Office.

INDEPENDENT FORESTERS.

The Annual Meeting of the High Court in Session at Cornwall.

Cornwall, Aug. 28.— The Eastern High Court, Independent Order of Foresters, resumed at 2 o'clock this afternoon. A great deal of time was devoted to balloting for delegates to the next Supreme Court meeting. About fifty were placed in nomination, and when the Court adjourned at 6 o'clock the count had not been completed.

The report of the Committee on Constitution and Laws elicited much discussion, and it was recommended to petition the Supreme Court asking that brakemen and conductors on freight trains be transferred from the extra hazardous to the hazardous class. The petition of Court Frontenac of Kingston to reduce the assessment in the sick and funeral department was not entertained, as the present rate was considered low enough for the benefits granted. Clause 87 was amended by adding:—No High Court shall be entitled to a representative unless in its jurisdiction there shall be at least two-thirds of a unit of representation. Section 2 of sub-section 2 of the constitution was recommended to be amended as follows:—"The active members of a High Court shall be composed of its officers, including the J. P. H.C.R. and the delegates from Courts under its jurisdiction."

The final report of the Credential Committee showed an attendance of 19 officers and 229 delegates. The matter of issuing usufructory certificates by this order was referred to the Supreme Court for consideration at its next meeting. The Committee on New Business made many valuable suggestions for the prevention of lapses and suspensions. They recommend the Supreme Court to reduce the prices of badges and regalia generally, which at present is considered exhorbitant.

A report of the special committee appointed to investigate the general fund of the order created a hot discussion. The matter was left with the Supreme Court delegates to thresh out at the next meeting of that lodge.

Picton and Belleville were placed in nomination for the next place of meeting. The former was selected by a large majority.

Immediately after the opening of the court this evening the result of the election of the Supreme Court delegates was announced. The following are the lucky men who will take the trip to Los Angeles, Cal.:—A. W. Fraser, H. C. R.; George Spence, P. H.C.R.; Dr. John Herald, H. V. C. R.; Dr. Crain, H. Physician; W. A. Ringer, J. S.; R. McCann, H. T.; Dr. Groves, Dr. Faulkner, Rev. W. H. A. French, D. H. Fawcett, H. O. E. Pratt.

ANOTHER STALK OF CORN.

Mr. T. J. Hetherington Breaks the Record in the Competition.

Still a taller stalk of corn has arrived at the Examiner office, and a higher ceiling will have to be put into the office if the mighty stalks are to be stood upright, and surveyed from the editorial rooms.

The last stalk of corn that was brought in measured 13 feet 2 inches, but to-day Mr. T. J. Hetherington, the dairyman, sent to the Examiner office a beautiful piece of corn measuring in height 14 feet 1 inch. This is indeed a magnificent specimen and has been admired by many. In the Examiner corn competition there has been enough corn left at the office as would maintain a small stock farm all winter. However, there is no telling how many more stalks of corn may be brought in, and if there is a taller one in the country than Mr. Hetherington's, he, as well as many others, would like to see it.

Mr. Hetherington's corn was grown at Bellview Dairy Farm.

OBITUARY.

Death of Robert Humphries in Asphodel Township.

Robert Humphries, eldest son of Mr. T. C. M. Humphries, of Asphodel, after several months illness, departed this life on Tuesday. The deceased last winter contracted a heavy cold, which in the end was the cause of his death. Medical service was sought in Toronto, and though relieved for a time death came and cut the youth down at the age of twenty. The deceased lived with his father and was of a quiet and reserved disposition. He was highly respected by all his acquaintances.

A WARNING.

To the Editor of the Examiner:

Dear Sir, — It is currently reported that sportsmen are intending to shoot ducks on Sunday, September 1st. Steps are being taken by those interested in Sunday observance to prevent such desecration, and to prosecute if it does occur. If you would give publicity to this information in The Examiner it would save from risk, notoriety and expense those who need this timely warning. Yours, etc.

SABBATH OBSERVER.

PRIME FRUIT.

We are now receiving choice Yellow Freestone Peaches and Fancy Plums and Gages from the best growers in the Niagara District. Also first-class Muskmelons very cheap by the crate or singly. S. A. OKE, 376 George street, Tel. 18.

FINED $50 AND COSTS.

Bartender Mein of the City Hotel for Selling Liquor to an Indian.

At the police court this morning before Police Magistrate Dumble, W. Mein, a bartender at the City Hotel, was fined $50 and costs for selling liquor to an Indian. The offence was committed about a month ago, and a charge was laid against Mein. He was found guilty by the Police Magistrate, but appealed to the county Judge. The appeal was allowed and the conviction quashed on the ground that the information did not disclose an offence against the Indian Act, in not alleging that the liquor was not for use under direction of a physician, and that the information not having been amended at the trial when objected to, could not then be amended.

However, a new information was at once laid and the matter was threshed out again at the police court this morning.

County Crown Attorney Wood conducted the prosecution, and Mr. Haverson of Toronto, represented Mein.

SPORTING PASTIMES.

BOWLING.

A scratch match at the Green last night resulted as follows:

Geo Giroux,	R Kerr,
K G Lech,	R Waddell,
K Houston,	H Armstrong,
Dr Moher,	Dr McClelland,
J McIntyre, sk...11	Wm Smith, sk...9

RUGBY.

The Rugbyists of the town are asked to bear in mind the date of the annual reorganization meeting of the Peterborough Rugby Club. The meeting has been called for Wednesday night next in the Oriental Hotel parlours.

BASEBALL.

The Senior Auburns and the Senior Elms will run up against each other on the P.A.A.A. grounds on Saturday afternoon at 1.30 o'clock.

The following will be the teams for the game on the P.A.A.A. grounds to-morrow:

Auburns — McCorry p, Derocher c, Johnston 1b, Meagher 2b, Craig 3b, Parnell ss, Long lf, Waram cf, Shaw rf.

Elms — Earls p, Melrose c, Grady 1b, Graham 2b, Davidson 3b, Connors ss, Logan lf, Sheridan cf, Martin rf.

LACROSSE.

The Vaticans left on the noon G. T. R. train to-day for Rochester where they will play the Rangers of that city to-morrow afternoon. The boys went over determined to win out. The team was composed as follows:—Messrs. Hoyle, Teck, Anglesey, Mein, Mahoney, Dunford, Shambo, Connors, Lynch, Robinson, O'Brien and Dorris. Mr. Dick Kelly accompanied the team.

SCHNEIDER CHALLENGE CUP.

The sprinters of the town are asked to make a note of the fact that Mr. Schneider, Peterborough's jeweller, has offered for competition a beautiful silver cup, to be contested for according to a set of rules drawn up by the Management Committee. In order that the matter may be put into proper shape, a meeting of all those interested is called for at 7.30 o'clock this evening in the Y.M.C.A. The idea is to have a responsible committee appointed to take charge of the arrangements. A representative, therefore, from the various sporting organizations of the town is asked to be at the meeting to-night. The cup will become the property of the person who shall have won the series of races. Let there be a good meeting at 7.30 o'clock this evening.

SPRINTING.

There is considerable talk going on in town amongst the sports who talk sprinting, as to who is really the speediest runner in town, and all kinds of money is willing to be wagered on particular favourites. If talk amounts to anything it is altogether likely that the vexed question will be settled in the next few weeks. The friends of "Charley" Martin claim that he can cover a hundred yards in faster time than any other local sprinter, and that the event of Civic Holiday was far from satisfactory in many respects. Next come the friends of young Jones, the speedy runner from the south end, whom Martin left behind in a hundred yards race last Saturday. They claim their favourite was not in condition for this race, and will back him for the same distances against any one in town. Outside this circle there are some who are willing to sacrifice every ducat on Heffernan, could he be prevailed upon to get into running shape. Fred McGrath, who ran away from Martin on Civic Holiday, has his friends, who claim that he can do the trick again, and it is rumoured that he is keeping in condition to be prepared for emergencies. "Billy" Crowley, the man of few words, who defeated Cameron, is "laying low" in the face of all these windy contentions, and is willing to do battle for the reputation he has achieved as a sprinter.

Special Line of Wall Paper.

Not a day in the year but you feel like renovating some part of your home. We offer this special line to induce you to do it now. 460 rolls gilt wall paper with match ceilings and border. Floral and scroll designs in cream, blue and green for halls, dining rooms and sitting rooms. Regular price, per roll, 15 cents, for 8 cents. Peterborough Book Store.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drugstore.

Thumb Amputated.

At the Canadian General Electric Company's works this afternoon, Mr Cooper, one of the contractors, had one of his thumbs very badly smashed. Dr. Young was summoned, and it was found necessary to amputate the injured thumb. Dr. Moher assisted in the operation.

PROGRESS OR STAGNATION.

The Question for Ontario Electors to Decide.

Hon. Mr. Stratton Expresses Confidence in the Coming Verdict.

(From the Sarnia Observer)

Hon. J. R. Stratton, Provincial Secretary, arrived in Sarnia last evening, and is the guest of Mr. F. F. Pardee, M.P.P., West Lambton, to be present at the West Lambton Convention, which takes place at Brigden to-day. In conversation with an Observer representative, and in answer to the inquiry, "Have you anything new to say regarding the political situation in Ontario, and the outcome of the next Provincial election," Mr. Stratton said:—

"No, it is the same old story. The administration of the Liberal Government for over thirty years and the record of the present government have established a reputation for good government that gives ground for the greatest confidence in believing that the people will return by a big majority the Ross Government, which has made such a splendid showing in the two years it has administered Provincial affairs, and during which it has applied and is prepared and alert to apply, to the development of the resources of the Province, new and old—a policy which must appeal to the practical sympathy of the energetic and enterprising electors of Ontario. A live progressive people, like the electorate of this Province, cannot sympathize with a standstill policy, a policy of stagnation on the part of either its Parliamentary or administrative representatives. There are only the Government and the Opposition to choose between, and the selection presents no difficulties. The Government offers the people a long and strong record of administration and legislation and a grand policy of progress. The Opposition, led by Mr. Whitney, declines to formulate a policy and offers the people little but his own assurance, which, by the way, seems to be chiefly assurance, that he and his party are better qualified to govern the people than the Ross Government and its supporters.

Without being uncharitable it seems to me that it is not unfair to put the matter in this way—the Government desires to be returned to power so that it can advance the interests and develop the resources of the Province, while the Opposition seems to seek office merely for the sake of getting office — in a word the Government leader and his colleagues want to do something for the province and the people while the Opposition leader and his followers merely want the province and people to do something for them. These are reasons among the many reasons why one would expect that the Government would be sustained at the coming election; and my observation in the numerous parts of the province I have visited, east, west and centre, since the House prorogued, leads to the irresistible conclusion that these reasons will be effective. I have found, from personal contact with all classes of the electorate, that the Government is held in high favour. The Liberals are enthusiastic in support of the Government's policy, while the Opposition with independent inclinations are friendly and the people generally of all parties see in the Government's policy one that will develop the magnificent resources of New Ontario and in the process largely benefit Old Ontario by stimulating the latter's industrial and commercial interests. Another thing that suggests the success of the Government in the country is the fact that in every riding where nomination has been made, and there are a good many of these, strong and popular Liberal candidates have been and are being placed in the field. Little difficulties of a local character, that sometimes arise, have been adjusted, and the Liberal party enters the coming contest with a solid front and an assuring confidence of success. I have no doubt as to the Ross Government being liberally sustained at the coming Provincial elections." The Hon. gentleman, accompanied by a number of Sarnia Liberals drove out to Brigden to attend the convention.

THE LATE MR. ASA CHOATE.

(Port Hope Guide.)

Mr. Asa Choate was the son of the late Nathan Choate, Esq., and was born in the house where he died, on the 27th of August, 1845. In addition to his sorrowing wife he leaves one brother, N. B. Choate, of Waterloo, Iowa; three sisters, Miss Elizabeth Cheate, town; Mrs. W. L. Herriman, Lindsay; Mrs. Wm. Meeking, two daughters and two sons, Mrs. F. W. Wilson, Mrs. N. Leo Lelean, of Redlands, Cal.; Norman S., of Midland Loan & Savings Co., town, and Arthur E., at home. Mr. Choate was a very energetic and progressive farmer, and was noted all over the province as a most successful breeder of horses and other farm stock. For many years he has acted as judge of horses at all the leading local and provincial exhibitions, and had been selected to act in that capacity at the present "Industrial" at Toronto. His sudden and untimely death will be much regretted by the stockmen and breeders of Canada. The deceased took an active interest in matters political, being an ardent Liberal and in religion a Methodist. Mr. Choate was a man very highly respected by the citizens of town and country, and the sorrowing family and relatives have the sincere sympathy of all in the terrible calamity, that has deprived them of their loved one.

PEACHES AND PLUMS.

R. A. Dutton will receive to-morrow morning a carload of the best peaches and plums in the market. Those wishing good fruit of this kind will find it to their advantage to order immediately. They will be on sale Friday and Saturday. 2d

In Your Pipe SMOKE Nothing but LeGros' NEW Mixture

COOL and MILD RICH and NUTTY.

You could shut both eyes and imagine you were smoking an Imported Havana.

It's a mixture that will tickle the connoisseur and delight the every day smoker.

CUT PLUG—Not too fine.

THE RUNAWAY YACHT.

The "Essie and Jessie" Took a Spin Around Stony Lake—How it Occurred.

(Lakefield News.)

The "Essie and Jessie" a demure looking yacht belonging to Judge Hudspeth of New York, ran away on Stony Lake on Friday last, creating quite a hue and cry round the neighbourhood of Boschink. The facts of the case appear to be as follows:—The yacht, which is run by alcoh-vapour power, was in charge of the engineer who was at that time the only one on board. This individual in jumping from the boat to the shore happened to touch the valve of the engine and set the craft in motion again. Away she went careering madly over the lake, missing rocks by a hairsbreadth and indulging in a series of eccentric manoeuvers more suggestive of a witch's frolic than of a damsel comporting herself with modesty and refinement. The engineer's feelings may be better imagined than described. The alarm was at once given, canoes were hastily manned and a pursuit of the giddy creature instituted. The rocks re-echoed with the cries of the pursuers. After a long and stern chase, rendered finally successful only by the lowering of the power in the engine, the craft was captured, with no damage to herself but a considerable luck of breathing power in the lungs of the pursuers. The incident reminds one irresistibly of the pursuit of the House Boat by the aristocratic shades in Hades save that in this case there were no ladies on board the vessel to lend a tinge of romance to the incident.

Don't let worms gnaw at the vitals of your children. Give them Dr. Low's Pleasant Worm Syrup and they will soon be rid of these parasites. Price 25c. f

TO CONTRACTORS.

BLOOD POISON

If you ever contracted any blood disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore Throat, Ulcers on the Tongue or in the Mouth, Hair Falling Out, Aching Pains, Itchiness of the Skin, Sores or Blotches on the Body, Eyes Red and Smart, Dyspeptic Stomach, Sexual Weakness—indications of the second stage. Don't trust to luck. Don't ruin your system with the old fogy treatment, —mercury and potash—which only suppresses the symptoms for a time, only to break out again, when happy in domestic life. Don't let quacks experiment on you. Our New Method Treatment is guaranteed to cure you. Our guarantees are backed by bank bonds, that the disease will never return. Thousands of patients have been already cured by our New Method Treatment for over twenty years. No experiment, no risk—not a "patch-up," but a positive cure. The worst cases solicited. We treat and cure Nervous Debility, Sexual Weakness, Gleet, Blood Poison, Stricture, Varicocele, Kidney and Bladder Diseases, and all diseases peculiar to men and women.

CURES GUARANTEED.

Consultation Free. Books Free. If unable to call, write for question blank for home treatment.

Wood's Phosphodine is sold in Peterborough by all responsible druggists.

SULTAN WILL FIGHT FIRST.

Does Not Propose to Submit to Unreasonable Demands of France.

Vienna, Aug. 29.—The Tageblatt yesterday publishes mail correspondence from Constantinople, which says the Sultan will go to war rather than yield to unreasonable demands; that he is studying plans for defence, and that he has ordered three hundred guns from Germany.

Flag Pulled Down.

Constantinople, Aug. 29.—The French flag was hauled down from over the Embassy of France after the departure of Ambassador Constans, and it will not be hoisted again until diplomatic relations shall have been restored. The staff of the Embassy remains here, but there is no change in the situation. The French Consuls in Turkey have been directed to continue to protect French interests.

An American Newspaper Story.

Ottawa, Ont., Aug. 29.—Enquiries at Government House elicit the fact that there is not the slightest foundation, so far as those in Government House are concerned, for the rumor sent from Ottawa that the Duchess of Cornwall and York will not accompany the Royal Duke on his Canadian tour. The statement is said to have originated with an American paper.

Price of Plows Raised.

Chicago, Aug. 29.—Plow manufacturers of the United States, a large number of whom have been in conference at the Auditorium, have decided upon an advance of 10 per cent. in the price of plows and all plow repairs during the coming year. The present strike of the steel workers is given as one cause, and increased cost of production as another.

LOVE AMONG SAVAGES.

Ability to Stand Torture a Test of Masculine Devotion.

Among the Arabs of upper Egypt the youth who proposes to a girl must submit to a whipping at the hands of all her male relatives, and, says a dry narrator, "if he wishes to be considered worth having he must receive the chatisement, which is sometimes exceedingly severe, with an expression of enjoyment."

Not infrequently it is the maiden herself who imposes the test. The Sakalava girls of Madagascar make their lovers stand at a short distance from a clever spear thrower and catch between the arm and side every weapon flung at them. If the youth "displays fear or fails to catch the spear, he is ignominiously rejected, but if there be no flinching and the spears are caught he is at once proclaimed an accepted lover."

Worse than this is the trial enforced upon their suitors by the Dongolowee girls. When in doubt as to the respective merits of two rivals, the young lady fastens a sharply pointed knife to each elbow; then, seating herself between her lovers, she drives the blades slowly into their thighs, and the hero who takes the greatest length of steel without a murmur wins the bride.

Major Mitchell in his "Expeditions Into the Interior of Eastern Australia" says of the natives on the river Darling that all their ideas of fighting are associated with the possession of gins or wives and that after a battle the wives "do not always follow their fugitive husbands from the field, but frequently go over, as a matter of course, to the victors." "None but the brave deserve the fair" is a maxim well understood of most barbaric races.

Composition on Love.

Love is a thing that makes people think each other pretty when nobody else does.

It causes two persons to be awful quiet when you're round and also quiet when you're not round—only in a different way.

It also causes people to sit together on one end of a bench when there's heaps of room on the other end.

Nurses has it and sometimes policemen. That's when they don't know where you are, and you have lots of fun playing on the grass.

Husbands and wives has it, but most generally only lovers.

Old people don't have much, 'cause it has to be about dimples and red cheeks and fluffy curls and lots of things which old people don't ever have.

When I grow up, I'll have to go and love some one, I suppose. Only she'll have to let me say what to do.

I've written all I know about it till I do grow up.

Before the Footlights.

"I understand that young man who calls on you," said old Mr. Straitlace, "wants to become an actor."

"Yes," replied his fair daughter, "he does think of appearing before the footlights."

"Humph! The next time he calls you'd better warn him to think of disappearing before the foot lights."

"The Way to Win a Woman."

The first thing a woman wants to be well treated; once in awhile she wants to be petted; the third thing, she wants to be admired; the fourth, she never wants to be contradicted.

Any one troubled with boils, pimples, rashes, festering sores or any chronic or malignant skin disease, should use Burdock Blood Bitters externally and take internally. It will cure where others fail.

MAGICAL

is the effect produced on a big family wash by a single cake of SURPRISE soap.

The housewife's labor is reduced one half; the original snowy whiteness is restored to the linens without boiling or hard rubbing and the disagreeable odors so noticeable with other soaps is done away with entirely.

And yet it costs no more than ordinary soaps.

Read the directions on the wrapper.

HANDLING BIG SERPENTS.

Poisonous Snakes In Demand by Doctors For Experimenting.

"In handling a big snake you must always touch him with a soft, smooth, gliding motion of the hand, making it feel to him as much as possible like the touch of another snake, and, besides, you must be careful to keep his tail out straight. Keep the tail straight, and he can't coil on you. His bite is nothing, for he has not poison, but his coil around your leg or arm or body will crush the bones.

"The poisonous snakes—the water, moccasins, rattlesnakes and copperheads—are bought for zoos. Now and then a doctor buys them heavily for awhile. He wants to experiment with their poison. After he has been bitten two or three times he stops buying.

"There are a number of people who buy snakes for pets. These people always, without an exception, make pets also of rats, mice and turtles. Any one fond of snakes is sure to be fond of those other things too. They keep their snakes and turtles and rats as near as possible to them. Often they keep them in their bedrooms. There was a young man who used to come here last year after pine snakes—a university student. That young man would sit with his hand in among the coils of a cageful of snakes for hours. He would take one's head in his hands and lift its face close up to his own and gaze for a long time in its eyes. Then he would hold it off and stroke it and study its changing colors in a kind of trance. I don't know what pleasure or satisfaction he got out of the snakes. He bought over a dozen from me during the year and kept them in his bedroom in a boarding house. They all escaped one night through a rathole and got among the neighbors and raised general ballyhoo."

A TORONTO CASE.

Commercial Traveller of the Queen City the Unfortunate.

The City of Toronto health authorities are no doubt as active and energetic as any on the continent. But Dyspepsia, one of the most common of all diseases, is outside of their powers. Each citizen must take care of his own stomach, or suffer the consequence.

In these days of hurry and rush, worry and push, complicated foods, and indigestible diets, it is no easy matter to take care of the stomach. The stomach has to take care of itself and if it fails so much the worse for the owner of it. It was to help the owners of weak stomachs that Dodd's Dyspepsia Tablets were invented. That they have already done much in that direction is shown by the thousands of letters like the one below.

Commercial travellers, above all other people, should never have weak stomachs. That so many have got weak stomachs only shows how severe is the strain of irregular eating and drinking associated with life on the road. Mr. G. H. Perrigo, the writer is a commercial traveller of Toronto.

"For four years," he writes, "I have been troubled with Dyspepsia and Heartburn. I could not eat a hearty meal for fear of the pain that followed. Several remedies tried only gave temporary relief. Dodd's Dyspepsia Tablets have since permanently cured me and I recommend all 'Commercials' to try them after meals and see the effect."

The Formal Address Business.

There is an agitation to dispense with the presentation of formal addresses to the Duke of Cornwall and York. It is generally believed that the sufferings of the recipients of these addresses are equalled only by the agonies of those who prepare them and try to think of something new to say. On a former occasion a draftsman was driven so hard that he prepared an address expressing the hope that the visitor would find Canada "worthy of him."

COUNTER IRRITATION.

Hot Applications, Plasters and Blisters to Relieve Pain.

The use of hot applications to the surface of the body for the relief of pain commended itself to mankind long before the formation of any theory as to how the favorable result was produced. It remained for Dr. Brown-Sequard to establish by actual experiment the fact that physical change is actually produced in tissues by counter irritation.

He found that the vessels of the surface to which the irritation was applied were dilated for several hours, as one might suppose they would be, while in the deeper tissues the vessels were very much diminished in size. Thus a mustard plaster on the region of the kidneys has a pronounced effect in reducing the size of the small arteries.

Experiment has also shown that a counter irritant, a Spanish fly blister on the back of a rabbit, for example, produces congestion of the superficial tissues, while the deeper organs, the lungs, are at the same time rendered anæmic.

Thus we have proof that sudden congestion of the lungs or brain may be to some extent relieved by counter irritants applied superficially to the chest and the back of the neck.

Several stages or degrees of counter irritation are possible of production, sometimes by use of the same remedy. For example, with an application of mustard one may produce simple redness of the skin, or by a longer application or a greater proportion of mustard ingredient blisters may be produced. Strong mustard plasters applied to patients who were unconscious of pain have even produced sloughing surfaces.

In irritating cough, particularly that of consumption, applications of iodine to the chest are often of much benefit, the effect being due to the temporary superficial congestion thus artificially established.

Counter irritation may be properly used in headaches, neuralgia, the first stage of croup or spasmodic cough and in relieving any sudden internal congestion or spasm. Sponges or cloths wrung from hot water and the various applications of hot water and mustard are usually employed. The hot footbath also and in childhood the entire warm water and mustard bath have been used in nearly every household to meet emergencies.

The use of strong counter irritants either of heat or various medicaments is to be resorted to only with great care when a person is without consciousness or when the nerves of sensation are inactive, as, for example, in paralysis of the lower limbs. Troublesome sores may result in such cases.

The use of counter irritants is also not advised in depleted states of the body. Blisters, and to a greater extent the more violent forms of counter irritation, carry away nutrient material from the blood in the process of repairing and so may seriously diminish the chances of ultimate recovery

DOCTORS AT SEA.

Many a man has to abandon his desk because of neuralgia. The torture sometimes is almost unbearable. E. C. Dean, city editor of the Daily British Whig, Kingston, Ont., suffered with neuralgia in the head for twelve months. Six physicians failed to relieve him, but three bottles of Dr. Hall's Rheumatic Cure completely cured him. This great blood purifier is put up in bottles containing ten days' treatment. Price 50 cents at all drug stores or The Dr. Hall Medicine Co., Kingston, Ont.

A Good Cricketer.

Dr. W. G. Grace was once giving a brilliant batting display at the oval, and one of the spectators observed to his friend: "Did you ever see anything like it? Why, he puts 'em wherever he likes." "Well," said the other, "it's all practice—he's always at it—he doesn't waste any of his time over family prayers."—C. W. Alcock's "Cricket Stories."

Not to Blame.

"Delia, this is no way! The dirt in this room must have been here a month."

"Then blame the girl before me, ma'am. I've only been here three weeks."—Exchange.

Easy to Prove.

If a man wants to know definitely just what kind of a peg he is—square or round—there is only one way—he must get into a hole. — Philadelphia Press.

AN OCEAN CEMETERY.

THE MOST DEADLY TRAP FOR SHIPS IN ALL THE WORLD.

Bare, Bleak and Treeless Quessant, the Notorious Island of Terror, and the Awful Forests That Supply It With Wood in Plenty.

Far out in the Atlantic ocean, off the northern French coast, almost due west from Brest, lies a great rocky island that is one of the most deadly traps for ships in all the world. It is the island of Quessant, the notorious Ile de l'Epouvante, the island of terror. Bare, without a tree to break its monotony, it lies in the path of the ships seeking the English channel. If they steer too far north, the hundred shoals and reefs of the British coast open their jaws for them. If they sail too far south, Quessant reaches for their bones.

Bleak and far away from any other land as the island of terror is, it still has its population. What mysterious thing is it which attracts that population and makes it cling? The infrequent visitor sees funny flocks of little sheep, scarcely twice as large as hares. He sees small herds of rough coated ponies almost as tiny as the sheep. These are the only signs of productive industry to be seen. There is fishing, of course, but fishing can be prosecuted better from the mainland, with less risk and a more convenient market.

What is the mysterious attraction, then? So asked Alexander Shuette, the traveler, when he made his way from the coast of Brittany to Quessant. The answer came, at least in part, one evening when a great storm swept in from the Atlantic and beat at the shores with unexampled fury.

He says: "The daughter of my hostess led me up the narrow staircase to my room. As I ascended I noticed, without remarking the oddity of it at the time, that the staircase was of shining oak. I was ushered into my room, a large, low chamber, completely paneled from top to bottom. Putting the lamp on a huge oak table that shone like a mirror, she said:

"'If you should need more firewood, monsieur, you will find it in the next room. Do not spare it. It is bitter cold, and there will be more than enough firewood in Quessant in two or three days. Good night.'

"I sat down before the blazing fire and prepared for a cosy evening. The storm raged in the narrow streets of the little village. The surges thundered against the granite breast of the coast like endless artillery fire, and sometimes I imagined that the very island trembled under the onslaught of the hundreds of millions of tons of water.

"As I sat listening I gazed into the flames. The wood struck me as strange. And then I wondered. On the entire island there is not a single tree, and yet I had been told not to spare firewood. 'There will be more than enough in two or three days.'

"I arose and opened the door into the next room. That room was possibly 20 feet high and was filled almost to the top with timber. First with wonder, then with growing awe, I gazed at the piles of wood. Truly she was right, the little maid, when she said that one need not be economical with firewood on the island of Quessant. There were timbers of every shape—splintered masts and spars, planks from decks and sides, remnants of a steering wheel, benches from the forecastle, yellow, black, brown, white and red woods, even two figureheads, some bright, as if they were new, some crusted with shells and hung with seaweeds. In the entire room there was not a piece of wood that did not come from some wrecked ship.

"When I returned to my room, I took the lamp and examined the place closely. I noticed a strange, delicate, yet very insistent fragrance—sandalwood. Thick wood n pillars supported the ceiling. They were of a beautiful dull black—ebony, as I lived. The panels were rosewood, mahogany and cedar. Even an unpracticed eye could see that all these precious woods once had ornamented the cabins of noble ships. The heavy carved chairs, the polished oaken table, even the bed in which I was to sleep, all came from shipwrecks.

"Now I understood the meaning of the words 'stand rights.' In favor of this island, far away from the world and murderous for the ships that tie the world together, Æolus, with his bride of the winds, is more fruitful than is Ceres to the mainlands, with her harvest moon and her blessings of fruit. The blessings of Quessant come from the gale.

"The forests of Quessant! Are there such others in the entire world, so unique, so terrible? This forest, instead of trees, has the mighty masts of ships. In that tremendous forest are the oaks and pines of Canada and Maine, the cypress of Florida, the baobabs of Africa, the teak of Hindustan, the ebony and sandalwood of South America. The awful forests of Quessant form the visible apex of a vast cemetery that stretches from New York to Cape La Hague."

BACK-ACHE ?

If you have Backache you have Kidney Disease. If you neglect Backache it will develop into something worse—Bright's Disease or Diabetes. There is no use rubbing and doctoring your back. Cure the kidneys. There is only one kidney medicine but it cures Backache every time—

HOUSEHOLD HINTS.

Canton flannel makes a good bath blanket for baby. It should be made large enough to completely envelop the child while it is being wiped dry.

Windows should be cleaned the last thing after the sweeping and dusting are done. Many housekeepers use no soap in window washing, believing it clouds the glass. Ordinary tissue paper gives a good polish.

A recommended polish to use on a piano case is made from equal parts of vinegar and paraffin oil. Put together in a bottle and shake well before using. This is said to give a particularly brilliant polish.

When the ankle has been severely sprained, immerse it immediately in hot water, keeping it there for 15 or 20 minutes. After it has been taken out of the water keep it bandaged with cloths wrung out of hot water.

Don't hang heavy curtains around baby's bed. The most that can be endured are light swiss draperies, and these should be laundered every week. Children need fresh air, especially when sleeping, and curtains prevent free circulation, while they collect dust.

Returned For the Fan.

Only the experienced and methodical housekeeper knows the agony of the woman whose maid forgets her tray while performing the ceremonious obligations of the house. That the importance of the tray is recognized in Milwaukee is evidenced by the relation by The Sentinel of the horror which seized upon a fashionable mistress while listening to conversation in the hall.

The maid had just arrived and had been solemnly instructed as to the necessity of carrying the silver card tray when answering the doorbell. It was an "at home" day, and the domestic, in immaculate cap and apron, rushed to the door at the first tinkle. The caller proved to be the most imposing representative of the very upper set.

"Sure an she's in," said Mary affably in answer to the usual inquiry and started up stairs. Half way up she turned and rushed madly back, snatched the card tray from the table and, holding it out to the astonished visitor, exclaimed:

"An wasn't I after forgettin me pan!"

A Lincoln Retort.

In the series of debates between Stephen A. Douglas and Abraham Lincoln in 1858 on one occasion Douglas sneeringly referred to the fact that he once saw Lincoln retailing whisky. "Yes," replied Lincoln, "it is true that the first time I saw Judge Douglas I was selling whisky by the drink. I was on the inside of the bar, and the judge was on the outside, I busy selling, he busy buying," which is about as neat a retort as the annals of the stump afford—rich, but not malicious.

Nothing Like Accuracy.

First Clubman—Woggles, I want you to decide a bet. Higginside says the quotation, "Hell hath no fury like a woman scorned," is from the book of Psalms, and I say it's from Job. We've put up $5 on it and agreed to leave it to you.

Second Clubman—I think you're both wrong. I know it's in the Bible, but my impression is that you'll find it in the proverbs of Solomon

Pin Money.

Spoiled Wife—Why are you dividing your month's salary in two heaps, Henry?

Indulgent Husband—I thought I ought to put this five in the bank this month, love. The other $95 is your pin money.

The weight of all the air on the globe would be eleven and two-thirds t—n pounds if no deduction had to be made for space filled by mountains and land above sea level.

A "wide awake" was originally a hat with no nap on its material.

Recently there have been several cases of prominent men suddenly falling in collapse just after eating a hearty meal. These men have all been under treatment for gastric "trouble," and yet the result shows that the treatment they had received had smothered the symptoms but had not retarded the progress of the disease.

There is a real danger in the use of palliatives when there is disease of the stomach and its allied organs of digestion and nutrition. The disease in such cases goes on, while the distressing symptoms alone are stopped. Presently, like a smothered fire, the disease breaks out in new places, involving heart, lungs, liver, kidneys, or some other organ.

The use of Dr. Pierce's Golden Medical Discovery results in a radical cure of diseases of the stomach and other organs of digestion and nutrition. It cures diseases of heart, lungs, liver, kidneys, etc., when the disease of these organs has its origin in the diseased condition of the stomach and digestive and nutritive system.

"I will tell you what myself and family think of your medicine," writes Mr. M. M. Wardwell, of Linwood, Leavenworth Co., Kansas. "It will do all you say, and more. I was taken sick nine years ago; I got so weak I couldn't lie down, nor hardly sit up; was that way two or three months. I picked up one of Dr. Pierce's Memorandum Books one day and saw your description of catarrh of the stomach. I thought it hit my case. We had a bottle of Dr. Pierce's Golden Medical Discovery in the house that was got for my mother. You recommend it for catarrh of the stomach, so I went to taking it. The one bottle nearly cured me. I got two bottles next time and took one and one-half and was well. Your medicine cost me three dollars and the doctor cost me fourteen dollars."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps, to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

A BATH IN FINLAND.

Steaming, Switching and a Roll in the Snow Are the Processes.

A primitive sort of Turkish bath is indulged in by some of the Finlanders of northern Norway. In winter in this part of the country the thermometer averages 40 degrees below zero, and water bathing is not practicable.

These Finlanders, unlike the Lapps farther north, have an instinct for bodily cleanliness and manage to preserve it after the following fashion. Paul du Chaillu, who spoke from personal experience, declared the method fine. Each hamlet has a bathhouse for common use. It is perhaps 15 feet long by 12 wide. It boasts no windows, and only when the door is opened can air or light enter. In the middle of the interior is an ovenlike structure of bowlders piled one upon the other.

Rows of seats constructed of the branches of trees run along the sides of the wall. There is no other furnishing.

Bathing day comes once a week—Saturday. Early in the morning of that day wood is brought and a fire started.

When the stones become hot, the fire is put out, the place cleaned, a large vessel of water and some slender birch twigs brought in and the preparations declared complete.

As no dressing room is provided toilets are unmade and made in the various homes. It is scarcely necessary to add that no time is lost in the progress from the home to the bathhouse. No clothes and a temperature of 40 degrees below zero are incentives to haste.

When all the boys and men are in the bathhouse and the door closed, water is thrown upon the hot stones until the place is filled with steam. Perspiration pours from the sweltering bodies, yet more active exercise is demanded, and switches come into play. Each bather lays on his neighbor with a will until "Enough!" is cried.

Again water is thrown upon the stones, more steam raised and another switching indulged in.

As may be imagined, the bodies are now as red as boiled lobsters and the blood circulating actively.

A roll in the snow completes this novel bath.

LAXA-LIVER PILLS regulate the bowels, cure constipation, dyspepsia, biliousness, sick headache, and all affections of the organs of digestion.

Throwing Money Around.

"Is Sydney Spluggs putting on any airs since he came into his fortune?"

"Airs? I think so. He's had three surgical operations."

It is useless to grasp an opportunity if you don't intend to do anything but stand around and hold on to it.

The Russian church has a rule against the publication of the Old Testament without the Apocrypha.

Fac-Simile or Genuine.

It Can't be Done

In spite of the fact that a few months ago the barrel was full of delicious sweet cider, you can't by adding a little soda now since it has become vinegar, transform it back to cider. Neither can you cure dyspepsia by taking a little pepsin, or baking soda, or a few doses of Cathartic medicine. You must take Merrill's System Tonic for the whole system has undergone a change from the effects of undigested and unfermented food. The condition of the blood and of the digestive ferments, and the action of the bowels and kidneys are as unlike what they should be, as vinegar is unlike cider. Merrill's System Tonic strengthens the stomach and nerves, purifies the blood, restores healthy kidney action and cures constipation. This is just what you want. No other remedy known does it so quickly or so well or makes such a permanent cure. If you have dyspepsia, liver trouble, or headache give Merrill's System Tonic a chance to cure you.

Each 50c bottle contains 50 pleasant-to-take doses, and is sold

E. LAMBTON LIBERALS

Mr. Pettypiece, M.P.P., Choice of the Convention.

THE CRITICISMS OF MR. DRYDEN

Speeches by the Candidate, Hon. J. M. Stratton and Others—Mr. Pettypiece's Nomination Unanimous—Proof That His Efforts to Be Faithful Were Appreciated—Mr. Stratton on the Iron Industry.

Watford, Aug. 30.—The nomination convention of the Liberals of East Lambton was held here yesterday, and in the unconscious competition between the East and West Ridings in the matter of a successful and enthusiastic nomination proceedings it would take a shrewd judge to award the palm justly. The Music Hall was well filled with delegates and working Liberals, representing every polling subdivision.

All the candidates having retired except Mr. Pettypiece, that gentleman's nomination was made unanimous by a standing vote and very hearty cheers.

Mr. Pettypiece has reason to be proud and encouraged by the cordial character and unanimity of his nomination, showing that he can count upon the solid and hearty support of the Liberals of East Lambton. In accepting the position, Mr. Pettypiece said he was doubly proud of the enthusiastic nomination he had received, because it was a proof that the four years of service which he had tried to faithfully render the riding and the Province was approved and appreciated. It was encouraging to note from the result of recent elections, increasing Liberal majorities, that East Lambton had returned to its normal Liberal standing and that the solid Liberal vote, cast without any undue influence, would elect the Liberal candidate. He had every confidence that, with the united support he had received in the last election, he would be successful in the coming contest. In reference to the Dryden incident that had been referred to, Mr. Pettypiece said that he was the representative of East Lambton, and he did not believe that his constituents desired that circumstance should deprive him of the right to exercise his judgment. He was [illegible] heartily in accord with the policy of the Liberal Government, to which he had given a loyal support, but he honestly believed that the action of the Minister of Agriculture in reference to acquiring an interest in a ranch in a foreign country was not in the interests of Ontario, and as a journalist he had exercised his undoubted right of giving expression to that opinion. He felt that it was consistent with his loyalty to the Government and to the Minister of Agriculture, to whose great services to the Province he was willing to accord the greatest credit. He felt that he had a right to comment upon an individual action of the Minister, which he considered did not tend to promote the interest of Ontario, which Mr. Dryden in his official capacity was splendidly supervising. He did not believe that the remarks he had felt it his duty to make would in the slightest degree adversely affect the Ross Government or Mr. Ross. His platform was so broad and so good that it would take much more to influence public opinion against it. Of course the Conservative press and politicians made much of the incident, not from any interest in agriculture, but because they believed they could make party gain. They deserved no credit for the course they had taken, because they did not originate the criticism, and the sting would be taken out by their remarks, but as a supporter, and a strong supporter at that, of Mr. Dryden's policy in promoting agricultural interests, he had felt it his duty as a public servant to express his opinion against the wisdom of an individual act. Mr. Pettypiece, in concluding his remarks, solicited support, not on his own merits, but because the Liberals of East Lambton wished, as he did, to see the Ross Government sustained, and his return was a means to that end. (Applause.)

Hon. Mr. Stratton followed in an able speech. He began by stating that he had attended many conventions this season, but none of them had equalled those of East and West Lambton in size, enthusiasm and unanimity, an assurance of sending two valued supporters to the Government, which did not wish a hide-bound support, but only a support while their course and policy were in the interests of the country. Mr. Stratton then went on to deal fully with the school book question and the lumber policy of the Government, showing what important results had followed the policy of the Government in regard to the new country. While a very small portion of the sum set aside had been earned, the impulse of iron-producing enterprise warranted the hope that it would before long be our most important and thriving national industry.

Both Men Drowned.

North Bay, Aug. 30.—Word reached here yesterday that Robert Allan of Pittsburg, Pa., companion of Cooke Dausman of the same place, and Joseph Restoule, Indian guide, were both drowned on Wednesday, Aug. 28, in Five-Mile Rapids, French River. The body of the Indian has been recovered, but Allan's still remains in the rapids.

Koch Will Inoculate Dr. Granault.

Paris, Aug. 30.—Dr. Koch has announced he will inoculate Dr. Granault with bovine tuberculosis to test the theory that human and bovine tuberculosis have nothing to do with each other and that man cannot catch the disease from cattle.

If you take a Laxa-Liver Pill at night before retiring, it will work while you sleep without a gripe or pain, curing biliousness, constipation, dyspepsia and sick headache.

NAGY, ANARCHIST.

Man, Having Letters Threatening the Life of Francis Joseph in His Pocket, Arrested at Debeczin.

The Dominion Government has decided to order an enquiry into the loss of the steamer Islander.

Major Forester will be appointed to a position on the Duke of York's staff during the Canadian tour.

Hon. David Mills addressed a successful meeting at Highgate on Wednesday. He was born in the township.

It was Manufacturers' and Industrial Day at the Fair in Toronto on Thursday. There was about the usual attendance.

The trials of the new submarine war vessel Delfino, carried out by the Italian Minister of Marine, have been most satisfactory.

Baron Schichler's Semendria won the Grand Prize, $20,000, at Baden on Thursday, and the Grand Duke Baden's handsome gold cup.

T. A. Cox, of Sunnyside Farm, Brantford Township, has been most successful with the swine that he has exhibited at the Pan-American.

The Militia Department at Ottawa learns that the Imperial Government has decided to pay the war gratuity to the men of C Battery, Canadian Artillery.

Johan Nagy, an Anarchist, has been arrested at Debeczin. The police found in his possession letters threatening the life of Emperor Francis Joseph.

The International Union of Cigarmakers has issued a circular urging upon its members the advisability of careful investigation of conditions before going into strikes.

Detective Verney at Toronto on Thursday arrested Edward Fields, an employ of Firstbrook Bros., box manufacturers on the serious charge of criminally assaulting nine-year-old Olive Mick.

Judge McLeod, in Supreme Court Chambers at St. John, N. B., on Thursday, made an order for the winding up of the Maritime Sulphite Fibre Company of Chatham, N. B., and appointed Hon. L. J. Tweedie, who is premier of the province, as provisional liquidator.

Gen. Pedro D'Ospino, Acting Minister of War, who prepared an extensive plan of campaign, confirms the report that within the last fifteen days he has destroyed nearly all of the Colombian guerillas. The Government of Colombia has maintained strict neutrality regarding Ecuador and Venezuela.

David McGee, who is wanted to answer a charge of abducting the 15-year-old daughter of A. G. McIntyre of Toronto, was taken to Toronto from London on Thursday night. He will stand his trial at Toronto. Mr. McIntyre met the officer at the Union Station and took his daughter to her home.

COST CANADA $100,000.

Justice in the Yukon—O'Brien the Murderer. Pays the Penalty of His Crime—History of the Case.

Dawson, Y. T., Aug. 23, via Seattle, Aug. 30.—George O'Brien, the murderer of Clayson, Olson and Relfe, was hanged at 7.30 o'clock yesterday morning. He declared his innocence to the last, and cursed the prosecutor, the judge and the jury as he mounted the scaffold. Death was instantaneous.

History of the Case.

Clayson and Relfe, two of the three murdered men, were gold-diggers, and the third, Oleson, was an employe of the Government telegraph line. On Dec. 17, 1899, a year and eight months ago, Clayson and Relfe started to get out of the Yukon, each carrying a few thousand dollars in gold, besides some nuggets, in a sack. On the Christmas Eve following they arrived at Minto Road House, situated in a wild and lonely spot about two hundred miles from Dawson. Here they were joined by Oleson. He had come from a station above called Hutchiku to mend a break in the line. His work was finished, he remained over night at Minto, and on Christmas morning, after a hearty breakfast, the three men started out on their Christmas Day journey up the trail to Hutchiku, which under ordinary conditions they should have reached at nightfall. They never arrived at Hutchiku, nor were any of them ever seen alive. But six months later, when the Yukon waters were low, three dead bodies were found on the sandbars some distance below Minto. All had bullet wounds in their skulls, and there was no difficulty in identifying them as the bodies of the three missing men. The Northwest Mounted Police worked unremittingly for many months on the case. O'Brien had been early arrested as a suspect, and gradually a chain of circumstantial evidence was woven, which was amply sufficient for conviction. The case cost the Canadian Government $100,000 from first to last. Since his conviction O'Brien had behaved very badly, cursing his guards and all who have had to do with him. He made a desperate attempt at suicide on August 1st by trying to choke himself with a handkerchief, but was detected by his guards. His outcries in his cell were so dreadful that for some weeks before the execution the ladies of Dawson refrained from passing near the jail.

Harvest a Great Success.

Winnipeg, Aug. 30.—Telegrams and reports by letter from all sections of the country go to show that the magnificent crop is being garnered with great success. The sky was as clear as a bell last night here and throughout the province, and no sign of frost, so that the standing grain is all right.

What is Life to You?

If you are a victim of piles, as one person in every four is, you suffer keenly from one of the most torturing ailments known to man, and may well wonder if life is really worth living. Certain relief and ultimate cure is awaiting you by means of Dr. Chase's Ointment. It has never failed to cure piles. Painlessly and naturally it allays the inflammation, heals the ulcers and thoroughly cures this wretched disease.

WILL KILL THEM ALL.

A Regular System to Exterminate the Armenians by Kurds.

London, Aug. 30.—The Daily Mail publishes to-day an article written by Ali Nouri Bey, former Turkish consul in Rotterdam, declaring that the massacre of Armenians by Kurds, which has just been recommenced, is part of a regular system of extermination. He says:

"The number of Armenians killed will depend upon the outcry raised in Europe and the pressure brought to bear upon the Sultan. The same horrible process will be repeated year by year until all are killed."

The Cause of Dyspeptic Pains.

They arise from the formation of gas, owing to improper digestion. A very prompt and efficient remedy is Polson's Nerviline. It relieves the distention instantly, and by its stimulating action on the stomach, aids digestion. Nerviline cures dyspeptic pains by removing the cause. Nerviline is also highly recommended for cramps, colic, summer complaints, and inflammation. Sold in large 25c. bottles everywhere.

THE STRIKE SETTLED

The C. P. R. Trackmen Will Return to Work at Once.

RECOGNITION OF THE UNION.

The Terms Accepted by the Strikers Are Those Which the Conciliation Committee Recommended—There Will Be No Discriminations Against Men—End of Long, Determined Struggle.

Montreal, Aug. 31.—The strike of the trackmen on the C. P. R., which has lasted nearly eleven weeks, was settled yesterday, and the men all returned to work forthwith. Word to this effect was wired to every Superintendent of the line immediately after a conference between Mr. D. McNicoll, Second Vice-President, and Mr. J. Lennan of the Trainmen's Brotherhood. The different committees, engineers, firemen and trainmen, had been recently in daily intercourse with the company and the trackmen. They have always favored the adoption of the recommendation of the Conciliation Committee, and have at last succeeded in bringing the trackmen to their views.

The official statement given out by Mr. D. McNicoll, the General Manager of the Canadian Pacific, was very brief. "The strike," he said, "has been declared off, an agreement to that effect having been reached between the committee of trainmen and myself. The basis of settlement is that recommended by the Committee of Conciliation from the other orders of railway workmen. It includes terms favorable to the men in regard to reinstatement in the positions they held before the strike, the recognition of their order, but the wages remain unchanged from the terms offered by the company in June last."

Terms of Agreement.

The terms which were arranged between the Board of Conciliation, consisting of heads of railway brotherhoods and the management, and which have now been accepted by the trackmen are as follows:

"The second vice-president and general manager will approve circular setting out the pay for trackmen increased, and also reciting rules and regulations governing the employment and service of the trackmen, and at the end of one year from this date, if the trackmen of the Canadian Pacific Railway Company have effected a responsible and workable organization the company will meet a committee and grant them a schedule, provided, however, that such schedule shall only apply to foreman and first and second men of one years' standing in the company's service, and neither the schedule nor any of its conditions shall apply to others employed, either on section work or on extra gangs, nor shall any committee representing the organization at any time interfere or attempt to interfere with the relations between the company and employes in its maintenance-of-way department to whom the said schedule will not apply as above set forth.

"The company will reinstate all men in their respective positions, provided such positions have not been filled under promise of permanency during the absence of strikers In the case of positions having been filled, the company will give such remaining men preference in filling other similar positions as near to their old location as possible. This clause not to be applicable to those who have been guilty of violence.

"The fact that men have been engaged in the strike shall not prejudice their position once they are restored to the service.

"The company will always be glad to meet any committee of its employes, whether engaged in the maintenance-of-way or any other department, for the purpose of discussing suggestions calculated to remove any disadvantages under which the men may labor, or to promote the interests of the company.

"Employes suspended or discharged will have the right of appeal from the decision of their immediate superiors.

"D. McNICOLL."

President Wilson Will Explain.

President Wilson says he will issue another address, explaining matters.

The officials of the company express great satisfaction that the matter has been settled at last. They express regret, however, that the men have stood out so long, as they have gained nothing in pay and have actually lost $500,000 in wages, to say nothing of the assessment, amounting to nearly $20,000, which has been levied upon the men.

It is understood that there will be ample work for all, including the 3,000 men shipped by the company to replace the strikers in connection with handling the immense harvest.

THE STEEL STRIKERS.

Labor Organ Demands the Impeachment of President Shaffer.

Pittsburg, Aug. 31.—There is no change reported in the steel strike situation, but certain events have transpired which are expected to bring about a crisis in the near future. Events of the next few days will be watched with interest.

One of the features of yesterday's strike news is the attack on President Shaffer by The Labor World, the organ of the International Tin Workers' Association. In a long and bitter editorial it demands Shaffer's impeachment for calling the present strike. The demand for impeachment is made because, it is charged, Shaffer compelled the steel workers to violate contracts; because he expelled the Chicago men, and revoked their charter without constitutional hearing, and because the whole strike is unconstitutional, and has brought ruin and wreck to men who have made the Amalgamated Association. The editorial gives 24 reasons why President Shaffer should be impeached.

STEAMER ALERT IN HARD LUCK.

She Foundered in Clear Lake Last Night.

COLLIDED WITH SUNBEAM.

Passengers Were Safely Transferred to the Sunbeam—Alert Lies in 12 Feet of Water—How it Occurred.

As a result of a collision between the steamer Sunbeam and the steamer Alert on Clear Lake last night, the latter boat is lying on her side in twelve feet of water, about 150 yards from shore, near the lime kiln on the Dummer side of the lake.

The accident occurred at about 10 o'clock last night, when both boats were going at a pretty good rate of speed, and damage of considerable extent was done to the Alert.

Both boats are owned by Messrs. White & Grylls, Lakefield. The crew of the steamer Alert is made up of Captain "Billy" White, Engineer "Zack" White, mate "Francy" Moran. Besides these there were on board the Alert, Capt. White's wife, her two sisters and four children. The Sunbeam, under Captain Millage, was going up Clear Lake with a moonlight excursion. The Alert was on its way way down to Lakefield.

Capt. White left Moran at the wheel, while he went down below to have something to eat. He instructed him particularly as to the course he was to take, stating that he expected the Sunbeam along with an excursion. The latter steamer soon hove in sight, and Mate Moran became somewhat confused, it is said, as to which side he was going to take. Finally he attempted to shoot across in front of the Sunbeam. A crash immediately followed. The Alert was struck amidships and at once commenced to founder. Those on board were quickly transferred to the Sunbeam, and all steam was put on in order to beach the Alert if possible. When about 150 yards from the Dummer shore, she went under, and rolled over on her side in about 12 feet of water.

The Alert is damaged considerably, it is said, but steps will at once be taken to raise her.

Coming as it does, at this season of the year when traffic is heavy, the loss to the company will be heavy.

The Alert is a fast and popular little boat, and its captain, William White, is one of the most capable and obliging captains that navigate the waters of the Kawartha Lakes.

As might be expected, when the boats collided there was quite a panic on board the Sunbeam. The passengers became excited, and Miss Annie Montgomery fainted, and did not recover until after the Sunbeam reached Lakefield.

The passengers on board the Alert were Mrs. White, the wife of the captain, her two children, Mrs. Andrew Jobs, of Bridgenorth, a sister of Mrs. White, and her two children, and Mrs. L. Fowler, of Smith, another sister. Not the slightest piece of baggage was saved, and Mrs. White's satchel, in which there was $20 in money, went to the bottom of the lake with the boat.

When the boat struck Captain White immediately made for the wheel and remained at it until he had to swim out. He was rescued by the crew of the Sunbeam.

A NEW MINISTER.

Rev. J. E. Hawkins Called to the Norwood, Havelock and Dummer Baptist Churches.

At a meeting of representatives of the congregations of the Norwood, Havelock and Dummer Baptist Churches held on Tuesday evening, in the Baptist church, Norwood, a unanimous call was extended to Rev. J. E. Hawkins, B. A., B. Th., Paris, to become the pastor of this mission. It is understood that the call will be accepted and that the rev. gentleman will enter upon his labours on the last Sabbath in September. The Rev. A. W. Torrie, the present pastor, intends returning to college to complete his course and will preach his farewell sermon on Sunday, Sept. 22.

Mr. Hawkins goes to his new duties very highly recommended by Chancellor O. C. S. Wallace, of McMaster University; Professor Farmer, W. E. Morton, Superintendent of Home Missions and C. J. Cameron, Ph. L. The date of the ordination and induction service will be announced later.

ASHBURNHAM SCHOOLS.

They Will Open on Thursday Morning at 9 O'Clock—Other Notes.

The Ashburnham public school will re-open on Tuesday morning, September 3rd, at nine o'clock, for the autumn term. It is earnestly hoped that all pupils will be present on the opening day as the work will begin at once, and will not be delayed to accommodate those who are not present.

As there are no final promotion examinations, the pupil's fitness for promotion will be judged by daily work throughout the term, as shown by the weekly tests and monthly reports.

The next regular meeting of the Ashburnham School Board will be held on Tuesday evening, September 3rd. It is hoped that all the members will be present.

CANADA'S IMMIGRATION POLICY.

The Boston Herald attributes our somewhat disappointing census returns to, what it chooses to term, a questionable immigration system. It claims that subsidized immigration must of necessity be less healthy than that which is spontaneous. This we believe to be true, but the imputation is hardly applicable to conditions in Canada. The inducements offered are scarcely more than a cheap trans-Atlantic voyage and free land upon the fulfillment of certain prescribed conditions. The latter inducement is one which any nation with the amplitude of territory comprised by the Dominion of Canada would be justified in offering. The greater efforts of our immigration department have been directed towards advertising. There is scarcely any question but that a country with enormous capital and population, with industries which manifest their presence by clouds of smoke from their mills, and whistles that proclaim a ceaseless activity, will naturally attract people, where the quiet pastoral haunts which, while bearing their increase, must of necessity escape the noise incident to industrial centres. The fact that the term "Republic," applied to the United States, has savored of such ideas as liberty and equality, has also had the effect of overshadowing the very essence of social and political freedom as it exists in Canada under what we chose to term constitutional monarchy.

In the face of all this, Canadians have found it desirable at least to advertise their country. And advertising means a faithful presentation of things as they are. The methods have been perfectly legitimate. The exhibition of Canadian products in the motherland, and especially the showing of Canada's work at the Glasgow Exhibition, is a proper means of letting the British homeseeker know what our Dominion has in store for him. The Boston Herald makes the following prediction:

"The Dominion possesses enormous natural resources, resources which, if its provinces were states of the union would receive development with a speed which is hardly probably under existing conditions. Still, with the taking up and utilization of the natural resources that this country affords, the probabilities are that within the next few years more and more American capital will seek investment in Canada, and that with these investments will go increased opportunities for livelihood, thus leading by natural steps to the large inflow of an industrial population. We are inclined to believe that in the next ten years the growth in population of the Dominion will be double what it appears to have been during the ten years that have just passed."

We see no reason why United States capitalists should not make investments in Canada any more than why British capital should not be invested in the United States. International rapprochment, if it is ever to be a permanent thing, will doubtless be promoted and established largely through the bonds of commercial intercourse. — Advertiser.

OUR NICKEL.

The cases containing Ontario nickel at the Pan-American Exhibition, are receiving, it is said, more attention than any other portion of the Canadian exhibit. So important is it regarded, that Mr. Edison, who has seen it, followed his inspection up with a visit to the Sudbury district. This is accounted for without difficulty. The new storage battery which he is said to have perfected, requires nickel in great quantities. And the demand in other manufacturing lines is rapidly increasing. It is estimated that last year there was produced from the Sudbury mines about forty per cent. of the entire world's production of the metal. The demand is increasing. No fewer than, in round figures, eleven million tons of steel were produced in the States, a very large portion of which were made with Canadian nickel. The reports which have appeared in the American press on the subject of this particular exhibit, led to the conclusion that the exhibition of the Canadian ore at the Pan-American has been an eye-opener for a great number of people interested in manufacturing who, up to the present, have been unconscious of the vastness of Ontario in this respect. This may be to some extent, a matter for congratulation, but it may also be regarded as a warning. The Americans appear to look on our mines much as some of them look on our forests, as a resource in the day when their own woods are depleted. As nickel is one of those things which cannot be obtained everywhere, it is obvious that it should be regarded as one of the greatest of our assets and safeguarded accordingly in the interests of the provinces. The government policy has been declared to be the conservation of the mines for the empire and Dominion. Their determination must not be relaxed, rather the reverse, and if necessary conditions made more exacting. The Pan-American Exhibition and the increasing interest taken in the nickel by people across the lines proves the necessity of this.

The Premier, in his reply to the address presented to him at the Toronto Exhibition, made some references to the census. They are worthy of general perusal and consideration. He pointed out that while the United States, with all its increase and vast population, only has a per capita trade of $29, that of Canada is over $70. The figures are suggestive and supplement very effectively the exhibit not long since presented in Great Britain by Mr. Colmer, C.M.G., that from the days which followed the Revolution across the lines, the relative progress of Canada has been greater than that of our neighbours. Our population may be small, and our progress slow in that respect, but we are a solid firm, financially at least.

NEW STEAM YACHT.

It Will Navigate the Waters of the Otonabee River and Rice Lake.

The Millbrook Reporter, in speaking of the launching of Dr. Turner's new yacht, says:

"Dr. Turner's new steam yacht was taken to the Otonabee River on Tuesday of last week, and it was a Red Letter Day in Millbrook getting it loaded on two wagons, and taken down. We are safe in saying that no prettier yacht was ever launched on the back lakes and rivers, and the enterprise of Dr. Turner and his colleagues in undertaking such a project is worthy of praise. That it will be a source of pleasure, not only to the owners but to all who may enjoy the luxury of a sail under its cover may be expected. To Mr. Hayes, who built it, every credit is also due, for the workmanship denotes the head and hand of a master mechanic. The yacht is thirty-eight feet long, and well-proportioned, and has every convenience for safety and enjoyment. There was considerable delay in getting it loaded and over Allen's Hill, but after that all went well, and it kissed the waters of the Otonabee on Wednesday, and was towed to Mr. Wedlock's, where the boiler was placed in position. She has made her trial trip, and when necessary adjustments are made she will be christened 'The Ripple,' and the hope of everybody is that she may long course over the inland waters, bringing pleasure and profit to her owners."

WHY BABIES CRY.

Some Useful Hints to Mothers on the Care of Little Ones.

Babies cry because they are sick or in pain, and in almost every case the sickness or pain is caused by some disorder of the stomach or bowels. Fermentation and decomposition of the food produce a host of infantile troubles, such as griping, colic, constipation, diarrhoea, simple fever, indigestion, etc. Proper digestion of the food is necessary to the maintenance of life, and evacuation of used up products and refuse of digestion is necessary to health. The lessons to mothers is, therefore, that the stomach and bowels should be carefully watched, and if baby cries, or is fretful or cross, some simple vegetable remedy should be given. Mothers should never resort to the so-called "soothing" preparations to quiet baby, as they invariably contain stupifying opiates. Baby's Own Tablets will be found an ideal medicine. They gently move the bowels, aid digestion, and promote sound, healthy sleep, thus bringing happiness to both mother and child. They are guaranteed to contain no poisonous "soothing" stuff, and may be given with absolute safety (dissolved in water if necessary) to children of all ages from earliest infancy, with an assurance that they will promptly cure all their minor ailments.

For the benefit of other mothers, Mrs. Alex. Lafave, Copper Cliff, Ont., says: — "I would advise all mothers to keep Baby's Own Tablets in the house at all times. When I began giving them to my baby, he was badly constipated, and always cross. He is now four months old, has not been troubled with constipation since I gave him the Tablets, and he is now always happy and good natured. Mothers with cross children will easily appreciate such a change. I enclose 50 cents for two more boxes of the Tablets, and will never be without them in the house while I have children."

Baby's Own Tablets are sold by druggists or will be sent by mail, post paid, at 25 cents a box, by addressing the Dr. Williams' Medicine Co., Dept. T., Brockville, Ont.

OUR SUMMER RESORTS.

VIAMEDE.

As the season advances the popularity of Viamede as a summer resort is increasing, as guests are continually coming, and keeping every room filled. Already a large number have booked rooms for September, the pleasantest month in which to enjoy a holiday at Stony Lake, when the leaves are taking on a golden and reddish hue.

The fishing during the past week has been exceptionally good, a number of fine catches of both bass and maskinonge being brought in every day.

The recent arrivals are: F B Farnsworth, G W Hand, Cincinnati, O; Edward Ocumpaugh, Mrs T A McIntyre, Mrs L M Antisdale, Miss E Antisdale, Miss M D Antisdale, Harry C Gorton, Mrs Gorton, Miss Leslie Gorton, Mrs J C Cook, Miss Marion E Cook, Mrs John R Pulsifer, Edw Pulsifer, Mrs Jas Pulsifer, Rochester, N Y; Garnet Bell, H W Bonnell, Toronto; Miss A M Bonnell, Miss F K Bonnell, New York City; F W Zoller, Mrs Zoller, Gifford Zoller, Miss Emily Pease, J P Allen, Mrs Allen, Miss Frances Allen, Miss Mary Allen, Wheeler Allen, C L Yates, Mrs Yates, Edw Yates, H W Stoddard, Miss Julia Mahon, Mr Frank A Davis, Miss Charlotte G Davis, Harry E Beckus, A E May, Mrs May, Rochester, N Y; Frank A Lewis, Mrs Lewis, Washington, D C; S H Stitt, Hot Springs, Ark.; J M Ritchie, Mr C Lathrop Ritchie, Pittsburg, Pa; A C Bliss, Percy Bliss, Cleveland, Ohio; Miss Marion Meachem, Youngstown, O; W C Sutherland, E H Barry, D C Neil, Mrs Neil, Miss Grace Holmes, Pierce Purcell, Mrs Purcell, Miss McIntyre, H S Talor, Mrs Taylor, Miss J Weaver, Rochester; W B Taylor, Mrs Taylor, Toronto.

Bronchitic Sufferers

Act foolishly. If they improve ever so little when the fine weather comes, they relax effort and drift back into the old condition which if possible, becomes more chronic. Hit Bronchitis hard in the summer and you'll get rid of it and drive it right out of the system. In winter it is almost impossible to do this. Inhale Catarrhozone regularly, it's a dead sure thing on Bronchitis. It goes into the most minute air cells of the lungs, bathes all parts of the bronchial tubes with its healing, germ destroying vapor, and cures every time. Highly endorsed by all competent druggists and doctors. 25 cts. and $1.00.

FALL FAIRS.

O.A.C. DAIRY BUILDING

Struck by Lightning and Cheese Maker Was Shocked.

DESTRUCTIVE ELECTRIC STORM.

Mrs. Anthony Rondon Killed by Lightning at Parham—Her Daughter Paralyzed From the Shock—Guelph Residences Suffer Therefrom—Church and House Wrecked in Kincardine Township.

Guelph, Aug. 31.—Guelph and vicinity were visited by another destructive electric storm Thursday night and yesterday morning. The houses of Jas. Cormack and George Keogh, on Waterloo avenue, were struck, but no damage was done in either case. During the heaviest part of the storm lightning struck the dairy building at the O. A. C., and the building took fire, but some of the employes were near at hand, and quickly extinguished the flames. Mr. Stratton, the cheese maker, received a severe shock.

About 4 o'clock the barn of R. Dickerson, on the Elmira road, was totally consumed, with the season's crops and a number of implements. It was owned by Miss Bella Hood. Insurance $1,200.

In Paisley Block, the barns of John Barber were struck, without any very serious damage being done.

In Puslinch Township, the barn of James Laird was shattered and a valuable steer killed.

Killed by Lightning.

Parham, Aug. 31.—While at work preparing breakfast yesterday a. m. Mrs. Anthony Rondon was struck and killed by lightning. A twelve-year-old daughter is partly puralyzed from the shock. Other members of the family escaped injury. The house was badly damaged.

Church and House Wrecked.

Kincardine, Aug. 31.—During a gale of wind, which prevailed here about midnight Thursday night, Chalmers' Church, on the seventh concession of Kincardine, in course of erection, the foundation having been laid with Masonic honors some two months ago, had the western wall blown down. A mile farther east, the residence of Mr. Murdoch McIver, the brick work having just been completed, was also badly wrecked, the east wall being blown in. The storm only lasted for a few minutes. Winds of this nature are rarely experienced in this neighborhood.

Crops Badly Damaged.

Simcoe, Aug. 31.—A very heavy electric storm passed over this section at noon yesterday. Many trees were uprooted or broken by the force of the gale. A few miles north of this place, the hail simply threshed all the wheat out of the stocks. The winter apple crop, as well as the pear and plum crops, were destroyed. Reports are to hand last night advising that some buildings as well as stock were struck by lightning.

several Barns Burned.

Chatham, Aug. 31.—The dwelling of J. W. Roseburgh, on lot 17, concession 13, Harwich, together with the barns, farm implements, crops and stock, were destroyed by fire. One hundred and fifty dollars in cash is also gone. The entire loss will be heavy, partly covered by insurance.

Farmer A. C. Wright, concession 10, Raleigh, Thursday lost his barns by fire, including 400 bushels of wheat, 500 bushels of oats and a quantity of hay. Insurance and loss not known.

The origin of both fires is a mystery.

When you feel weak, run down, nervous, unable to work, or think, as you ought, take Milburn's Heart and Nerve Pills. They'll build your health up and give you strength and energy.

END OF RIFLE MATCHES.

Gzowski Cup Won by the 43rd Regiment and British Challenge Shield by the 13th.

Ottawa, Aug. 31.—The D. R. A. closed yesterday, after the most successful meet in its history, and the scoring was exceptionally high, considering the reduction in the size of targets. The scores were not completed last evening, but those given out were as follows:

Gzowski and British Challenge Shield, open to teams of six men, shield awarded to team making highest score in "extended" order competition.

	Firing.	Missing.	Total.
Cup and $50, 43rd ..	122	414	536
$45, 13th	118	418	536
$40, 48th	111	406	517
$35, 6th D.C.O. . ..	129	379	508
$30, Guards	118	386	504
$20, Naval team	144	373	497
$15, 10th R.G.	134	360	494

Next in order — 77th, 494; Q. O. R., 487; 5th R. C. A., 483.

Challenge Shield — 13th Regiment, 418. Next in order — 43rd, 414; 48th, 404; Guards, 386; 6th D.C.O., 379.

Revolver aggregate, for best scores in Colts' and Smith & Wesson matches — Staff-Sergt. W. E. Forbes, 73rd, 66.

The Gibson Cup was won by Capt. T. Mitchell, W.L., with a score of 25, and Captain Mitchell also made the highest scores in the 500, 600, 800 and 900 yards matches, winning the Queen's picture and $5.

SALISBURY WILL RESIGN.

Pall Mall Gazette Fixes the Date After the Coronation.

London, Aug. 31.—The Pall Mall Gazette, under the heading "The Prime Minister's Impending Resignation," says Lord Salisbury's retirement probably will occur after the coronation of King Edward, though some persons place it in the autumn or early winter. Supporting the news editorially, the paper says "The facts square with our own knowledge to the extent that the Unionist party should prepare for a new Premiership."

His Closest Official Talks.

London, Aug. 31.—An official, who for over 30 years has been most closely associated than any one else with Lord Salisbury, said:

"I have not heard a single word from Lord Salisbury or his friends to justify this latest resurrection of the retirement rumor. It is true Lord Salisbury is getting very old, but he is now relieved of the bulk of the dull, foreign affairs which were formerly so trying. I do not think he is very eager to retire, but what is more to the point, I feel certain the party would not allow it unless age made far greater inroads on his health than it has at present. I think you will see Lord Salisbury premier so long as his health lasts and a Unionist government is in power. Personally, he has no pursuits to which he desire to devote more leisure. Indeed, I believe he would feel quite lost without a certain amount of statesmanship to occupy his energy."

What is Life to You?

If you are a victim of piles, as one person in every four is, you suffer keenly from one of the most torturing ailments known to man, and may well wonder if life is really worth living. Certain relief and ultimate cure is awaiting you by means of Dr. Chase's Ointment. It has never failed to cure piles. Painlessly and naturally it allays the inflammation, heals the ulcers and thoroughly cures this wretched disease.

Fruit Packing Inspectors.

Ottawa, Aug. 31.—Hon. Sidney Fisher has made a number of appointments in connection with the act for the inspection of packing and marking fruit. Mr. Alex. McNeill of Walkerville and Mr. Lick of Ottawa will be chief inspectors for Ontario. Mr. McNeill is well-known in connection with farmers' institute work, and Mr. Lick is a graduate of the Ontario Agricultural College. Mr. P. J. Carey of Cobourg, Mr. D. H. Wharton of Kingston, and Mr. Scriver, son of Julius Scriver, M. P., will be employed on inspection work in Montreal. There will also be a French-Canadian inspector, but he has not yet been chosen.

The Minister of Agriculture is not desirous of putting into force any vexatious restrictions, or to do anything to hamper or check the fruit trade. He hopes to receive the hearty co-operation of fruit growers, and believes they will work harmoniously with the department to improve and build up the great industry whose success means so much for Canada.

The Agony of Sleeplessness.

Did you ever pass a single night in wakeful misery, tossing and rolling in bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding night growing worse and worse? This is the most dreadful symptom of Nervous Exhaustion and Debility. You can be gradually and thoroughly cured of Sleeplessness by the upbuilding influence of Dr. Chase's Nerve Food. It cures in nature's way, by creating new nerve cells and restoring lost vitality.

Advertising in the Examiner pays.

SMOOTH SHAMROCK II.

Goes Through the Water With Ground Swell With No Fuss.

SUGAR REFINERIES IN CANADA.

$4,000 Awarded for the Loss of a Leg—The Toronto Review Before Royalty to Be Held at the Exhibition Park—New Finance Minister in British Columbia—Gum Chewer's Fate.

Miss Henrietta Homeier of Ingleside, L. I., dislocated her jaw on Friday chewing gum.

It was Historical and Pioneers' Day at the Industrial Fair at Toronto. The attendance was not large.

Four persons were killed and seven seriously injured in a tenement fire in Brooklyn, N. Y., on Friday night.

J. C. Brown of New Westminster is said to have been appointed to succeed Finance Minister Turner in the British Columbia Cabinet.

The facetiousness of Herr Lemberg, an actor, at Frankfort, at the expense of Count Von Waldersee, has caused him to be fined ten crowns.

For several weeks King Edward has personally superintended much of the work of destroying huge quantities of the private correspondence of Queen Victoria.

Mr. John Spence, principal of the Clinton street school, Toronto, shot himself in the wrist while stalking a kingfisher at Lake Scugog on Friday. The hand was amputated.

The National Rifle Association of America began a ten-days' shooting tournament on the New Jersey State camp ranges at Sea Girt on Friday. Canada and Ireland will have teams present.

Major-General O'Grady-Haly said in Ottawa on Friday that it had been practically decided to have the Toronto review before the Duke of Cornwall take place at the Exhibition grounds, instead of the Woodbine.

The Sultan's first retaliation against France is the publication of an irade withdrawing the concessions and tax exemptions from the French religious community at Beyrout, Syria. The French communities at Jerusalem are also taxed.

William McAuley, one of the C. P. R. brakemen, who was so severely scalded by steam some three weeks since in the railway accident at Proton, has sufficiently recovered to enable his friends to remove him from Owen Sound to the General Hospital at Toronto.

Chief Justice Falconbridge on Friday gave judgment in an interesting Sault Ste. Marie case, directing the entering of a verdict of $4,000, the amount a jury found Harry Meyers was entitled to for the loss of his leg while in the employ of the Sault Ste. Marie Pulp and Paper Co.

Shamrock II. shook herself out at New York on Friday, and with Sir Thomas Lipton and Designer Watson on board passed outside for a spin. Although there was quite a ground swell on, the ocean yacht went through the water with less fuss than a sharp-prowed torpedo boat.

A Philadelphia charter has been granted the Canada Beet Sugar Co., Limited, of which the incorporators are: Frank M. Spencer, Adam Kaufman, William J. Douglass and H. B. Vandeusen of Scranton, Pa. The company is capitalized at $600,000, and will build a number of beet sugar refineries in Canada at once.

A fatal collision occurred on the C.P.R. at Guelph Junction, early Friday morning. A freight train, driven by Engineer W. W. Jones of Toronto Junction, was coming east, but owing to the heavy fog resulting from Thursday night's deluge of rain, Jones was unable to see a freight train ahead of him and crashed into the rear car. The other members of the crew jumped, but Jones stayed at his post and was fatally injured. He died a few hours after the accident. The road places the damage to the rolling stock at $50,000.

A Medicine 300 Years Old.

Our readers will probably be surprised to learn that for nearly 300 years cod liver oil has been used as a medicine. During the past twenty five years nearly all the cod liver oil brought to this country from Norway has been used in the form of Scott's Emulsion. It is by all means the most pleasant preparation of cod liver oil you can buy.

CAPE COLONY A SEETHING MASS.

Correspondent Says Boers Are Receiving Support From All Sides.

London, Aug. 31.—The Cologne Gazette's correspondent in Cape Town declares that the entire Cape Colony is a seething mass of disorder and alarm. He asserts also that the Boers are receiving support from all sides.

In the early part of August a correspondent of The Morning Post had a long talk with Lord Kitchener, from which he gathered that "it is not Lord Kitchener, but the Government, that is to blame for many of the evils." Lord Kitchener, it seems, complained that the home government continually worried him about trivial details, merely to reply to Parliamentary heckling, and this compelled him to enforce a strict censorship over telegrams, although personally he objected to the present system. He said he thought correspondents ought to be given great liberty and to be made responsible for their statements.

Enormous Beer Mortality.

London, Aug. 31.—A painful report is published by The Standard, from its special correspondent at Pretoria, on the subject of the *health of the refugee camps in the Transvaal*. Of 62,479 men, women and children, collected under British supervision, 1,067 died in July, and 860 of these were below the age of twelve.

The Islander Enquiry.

Ottawa, Aug. 31.—The Dominion Government has appointed a Court of Enquiry into the wreck of the Islander on the Pacific coast, off Juneau. The court will be as follows: Capt. Gauden, agent of the Department of Marine at Victoria, chairman; James A. Thomson, inspector of boilers, and Capt. Waldron of the Quadra. They have been instructed to proceed at once and hold the enquiry.

Saving Requires Character.

The faculty of saving money is much rarer than the faculty of making it, and it calls for the exercise of a higher degree of good judgment and more self restraint. In a word, it requires more character.

Cured Itching and Protruding Piles.

Mr. Phil Owens, of So. Omaha, writes: "After suffering two years from an aggravating case of itching and protuding piles I was cured by a single 50c package of the Pyramid Pile Cure, purchased from a local druggist." For sale by all druggists. Little book, "Piles, Causes and Cure," mailed free. Pyramid Drug Co., Marshall, Michigan.

Children can and should help their parents to provide homes of their own. We make the opportunity easy, and the best bargains are sometimes made in haste. Don't delay longer thinking it over, but come and talk to us now. It would take us a very long time to think how to make a watch; it is not our business. But after 40 years of practical business experience, we do claim to be well qualified to guide all our numerous patrons much to their advantage in the purchase of Homes, Vacant Lots, Houses and Lots, Garden Lots and Farms, of all sizes and prices. Delay means loss.

City Missionary Sinclair

If you have Kidney Disease you should know that Powley's Liquified Ozone will cure that ailment. We have evidence to offer you to show that it does. Our evidence is personal testimony; you can prove or disprove.

We are satisfied for you to investigate facts. We offer the case of P. Sinclair, City Missionary, 363 St. Dominique Street, Montreal, for investigation. This is his statement:

3rd July, 1901.

Dear Sirs,—

Having been affected with kidney trouble for about a year and seeing your advertisement of Ozone, I was induced to try it. After taking two bottles, can bear cheerful testimony to the good it has accomplished. I have recommended to several, and intend doing so to many of the sick poor with whom I come in contact, as I believe it to be Nature's own remedy.

Yours faithfully,
(Signed) P. SINCLAIR, City Missionary,
363 St. Dominique St., Montreal, P.Q.

Nature can do more to cure disease than any human agency. In Powley's Liquified Ozone we make use of nature's greatest purifying and health-giving element—oxygen. It's use is beneficial for those diseases suffered in summer weather as in the case herein mentioned. You should get a bottle.

Consult our physician about your case. Write full details and you will get a specialist's advice free. Your letters are absolutely confidential. Address the Consulting Department, The Liquid Ozone Co., 229 Kinzie St., Chicago, U.S.A.

Daily Examiner.

SATURDAY, AUG. 31, 1901

All Saints' Church.

There will be a celebration of the Holy Communion Sunday morning at 8.30 o'clock. Rev. W. L. Armitage will conduct his Bible class as usual at 3 p.m.

The Lesson of Labour Day.

Mr. E. S. Watson will lead the song service at the Y.M.C.A. on Sunday at 4.15 o'clock. There will be a short address, the topic being "The Lesson of Labour Day." All men are cordially invited.

Labour Day.

The steamers Esturion, Manita and Ogemah, of the Trent Valley Navigation Co. Line, will give half-fare return rates to and from all points on Monday, September 2nd, Labour Day.

Private School.

Miss Bennet's School,
309 Park Street,
Will re-open Tuesday, 3rd Sept., at 9 a.m.
Drawing Class
Saturday, 7th September, at 3 p.m.

First Church of Christ Scientist.

First Church of Christ Scientist, 414 1-2 George street, in the future will hold two services on Sunday. Services Sunday at 11 a.m. and 7 p.m. Sunday School after morning service. Wednesday at 8 p.m., Experience meeting. Subject for Sunday, Sept. 1st, "Man."

Song Sermon.

The regular monthly song sermon will be given in the Charlotte street church on Sunday evening. Subject, "Things Knowable in Christian Experience." Besides the usual excellent musical service, Miss M. Stephens and Mr. Crossley will sing a duet with guitar accompaniment.

Royal Chorus.

The Royal Chorus will meet for the first practice on Tuesday night at 7.45 o'clock. An opportunity is given for every singer in town to join up to Tuesday night, after that it will be impossible for anyone to get their names enrolled. Numbers will be given to each one, and this number will admit to the chorus platform at Toronto.

LABOUR DAY EXCURSION.

Don't forget St. Peter's Total Abstinence excursion to Jubilee Point per steamers City of Peterborough, Water Lily and Palace Barge, Monday, Sept. 2nd. Boats leave wharf at 8 a.m. Meals can be secured at Jubilee if desired. As boats are in excellent condition, a speedy trip is expected.

Raised $141.21.

The third annual tea and concert in aid of St. George's church, was held on the church grounds, at Hall's Glen, on Thursday. Although the weather was very threatening all day, there was a large attendance, and the affair was in every respect a success. After tea was served a promenade concert was given, at which Choate's orchestra, (a local one), dispensed music, which was much appreciated by those present. On the invitation of the Incumbent, Rev. W. Archbold, Mr. H. M. East, bagrister, of Toronto, very kindly acted as chairman, making a very happy speech. A social was also held the next evening, and the total proceeds from every source, i.e., tea and concert, amounted to $141.21. Quite a large number of the campers from Stony Lake were in attendance.

St. Paul's Church.

Rev. Dr. Torrance will preach both morning and evening. Monthly collections for missions.

Music Classes.

The Misses Hurley will resume their music classes on Monday, Sept. 9th, at their residence, 282 Hunter street. 3datus

Dinner will be served at Chemong Park Hotel on Monday, Labour Day, beginning at 11.30 a.m. Price 25 cents.

The Band Concert.

The 57th Regimental Band, under Prof. R. Glidden, appeared in Victoria Park last night and rendered what was perhaps the most delightful programme of the season. The attendance was large although the weather looked very threatening. Mr. Halpany sang "Strike up the Band" with all his old time vigour to a soft and beautiful band accompaniment.

HORTICULTURAL SOCIETY.

The annual exhibition of the Horticultural Society will be held in the Market Hall on Thursday afternoon and evening, Sept. 5th. Band will be in attendance. Admission 15 cents. There will be a fine display of Flowers, Fruits, Roots, etc., and it is well worth a visit. 4d

Barricaded With Boxes.

Everyone who passed down George street to-day was surprised at the piles of large boxes in front of H. LeBrun & Co's clothing store. These contained the first installment of a large purchase of clothing bought by Mr. LeBrun this week at the great unreserved clothing sale of Suckling & Co., Toronto. The big cases tell the story of great bargains, which will be of interest to every man, youth and boy in town and out of town. The goods consist of fine new fall suits, trousers, underwear, etc., from the former great manufacturing house of John Calder & Co. of Hamilton. The prices at which this stock was bought gives Messrs. LeBrun & Co. the cheapest clothing ever bought yet. The firm are prepared to back up every statement they make. Look out for the news of their great sale next week.

Doing Good Work.

Few of the People in Peterborough have any idea of the large number of young men and women who secure positions each year after having taken a course either in Bookkeeping or Shorthand and Typewriting at the Peterborough Business College. During the past Summer months students have secured positions in Port Arthur, Sault Ste. Marie, Collingwood, Toronto, Campbellford, to say nothing of the large numbers who have found employment in our own town. Of the large numbers in attendance last year, only a small percentage are unemployed to-day. This success is due to the thoroughness exacted in each department. No student is graduated because he has been in attendance for a certain time, but only because he has passed the prescribed examination. This is one of the best means by which a young man or woman with as little expense, can increase their earning power. Remember skilled help is always in demand. To those who are unable to take advantage of the day sessions of the college, the evening classes are recommended, where the same work is done, but of course longer time is required to complete. Day classes begin on Tuesday next, and evening classes on Wednesday evening following. The Examiner does not hesitate to recommend the Peterborough Business College to the public generally, and more especially to young men and women who feel the need of a better education. 1d.

PERSONALS.

Mr. and Mrs. Sam Clegg are at the Pan-American.

Mr. Hal. Burnham is in Cobourg for a day or two.

Mr. J. J. Preston, Bethany, was in town this morning.

Mr. Harry Ward, M.P., Port Hope, was in town this morning.

Miss M. Morency of Fenelon Falls, is visiting friends in town.

Mr. T. H. Hamilton came down from Toronto this morning.

Mr. Andrew Mercer was renewing old friendships in town to-day.

Mrs. F. J. R. Mitchell, has returned from a pleasant trip up north.

Mr. William Irwin has returned from a four weeks' trip out west.

Miss Nellie Davies has been visiting friends in Norwood during the week.

Rev. J. C. Davidson returned last night from a visit to the north country.

Mr. John Green, barrister, has returned from a pleasant visit to American centres.

Mr. and Mrs. R. M. Dennistoun have closed their Chemong Park cottage for the summer.

Mr. James Carry, Broker, Toronto, Managing Director of the Corundum and Mica Company, is in town to-day.

The Rev. J. G. Potter arrived home last night and will occupy the pulpit of St. Andrew's to-morrow morning and evening.

A private letter received from Mr. A. W. McPherson states that he will sail for home on Sept. 15th.

Rev. Mr. Roberts of Omemee, will occupy the pulpit of the George street church to-morrow, at both services.

Mrs. J. G. Edwards and children of Lindsay, returned home yesterday after spending several weeks in town.

Mr. C. E. Strickland, formerly of Lakefield, has been transferred from the White Horse Branch of the Bank of Commerce, to Dawson City. He was given a grand send-off before leaving.

Rev. A. W. Creswick, of Young's Point, left on Wednesday last for a short and much needed change of scene and rest. During his absence, Mr. Mackenzie will take charge of his duty at St. Aidan's church.

Lakefield News.—We understand that Captain Hallifax's residence has been rented for a term of three years to Mr. Owens, a gentleman from Peterborough who with his wife intends to take up his residence in our midst.

Mrs. W. H. Hill, accompanied by her sister, Miss Hettie Taylor, had a very strange experience when out fishing yesterday. A large lunge was hooked, and when brought to the side of the boat it shook the hooks from its mouth, but in doing so jumped clear of the water into the boat. It weighed 12 1-2 lbs. Mr. Hill moved his family into town to-day from the cottage.

Mr. and Mrs. W. T. Spencer, of Palestine, Texas, are the guests of Mrs. Spencer's parents, Mr. and Mrs. Jas. L. Hughes, Park street. Mr. Spencer is representing the International and Great Northern Railway of Texas. He was formerly train despatcher of the G.T.R. here, but left Peterborough in 1887. During their stay in the north Mr. and Mrs. Spencer will visit friends in Toronto, and will will also take in the Pan-American.

Mr. John T. Henderson, of Galway, is in Peterborough to-day, being his first visit in fifteen years. Mr. Henderson observes a number of changes since his last visit, and is surprised at the growth and apparent prosperity of the town. He removed to Galway from the township of Dundas about forty years ago, and was the second settler in the township. Mr. Henderson has witnessed the township growing from a population of two until it is well settled, and has many excellent farms with well-to-do farmers, and splendid homes. Mr. Henderson says that an examination of the market this morning showed that the root crop of Galway could surpass anything exhibited. He also states that the grain crop was very good, and on the whole the township will have no reason to complain of the harvest. Cattle are doing well, and the grass has been splendid, the after grass being exceptionally good at the present time. Mr. Henderson returns home on Monday morning.

Probabilities.

Moderate to fresh northerly winds, clearing by this afternoon. Sunday fair and continued cool.

Peterborough in 1908.

At the convention of the Ancient Order of Foresters, which is in session at Hamilton, it was resolved to hold the High Court meeting of 1903 in Peterborough.

Shooting at Ottawa.

In Friday's shooting at the Dominion Rifle Association ranges at Rockliffe, Ottawa, Peterborough marksmen got on the right spot three times. Pte. J. B. Pentland won third place in the shoot off for the last fourteen places in the first stage of the Governor-General's Match, and Pte. George Fitzgerald landed fifth place in the same match. In the second stage of the Governor-General's, Pte. W. Hilton won a $5 prize, with a score only one point short of the top tally.

School Opening.

There is no divided opinion as to the ability of the Peterborough Bookstore to serve the scholars with school books and school supplies. The newest of everything, the best of everything, and the biggest value in everything. The boys and girls have caught on to our store with open-eyed surprise, and purchase with unvaried satisfaction. See the great display in our two show windows—the best dressed show windows that the scholars have ever seen. Our presents given away with every purchase knocks the spots off them all. A. H. Stratton & Co.

SATURDAY NIGHT BARGAINS.

A. H. STRATTON & CO.

STILL ONE BETTER.

Mr. Alex Gillespie of Villiers has a Magnificent Stalk of Corn.

The Examiner's corn competition is still proving a great attraction. Each day a stalk of corn is brought into this office that outclasses anything previously shown.

Yesterday Mr. T. J. Hetherington brought to the Examiner a stalk of corn measuring 14 feet 2 inches, and it was thought by many that this would not be beaten. However, Mr. Alex. Gillespie, of Villiers, pulled up at the Examiner office this morning with a stalk of white corn measuring 15 feet 2 inches. This is an abnormal growth. It is attracting considerable attention in front of the Examiner office, and is much admired by all. The corn was grown on the farm of Mr. John Walker, Otonabee, and was planted on the 7th or 8th of June. The seed was purchased from Mr. Thomas Fraser of Hastings.

SAID FAREWELL.

Miss Rush was Suitably Entertained by All Saints' Choir.

Last Friday evening the attendance at choir practice at All Saints Church, was as usual very large, after which a farewell entertainment was given to Miss Lillian Rush, who for a number of years has been a constant and ever-helpful member of the choir. Miss Rush is leaving town for the purpose of taking up Kindergarten work in the Normal School at Ottawa. The evening was spent in games, and refreshments were served.

During the evening songs were sung by Messrs. Fermer, who is a late acquisition to the choir, Sheppard, Jas. Legg, M. and Herb Moore, Miss L. Rush and Mr. Moore being the accompanists. Miss Rush will leave for Ottawa on Monday, and her friends will wish her every success in her studies.

Mr. Armitage gave a few very impressive remarks, and hoped that although it was a pleasure to have such an enjoyable evening, the next social evening they had would not be for the purpose of saying goodbye to one of their members.

I. O. O. F. NOTES.

Some Interesting Notes Concerning the Local Oddfellows—Past Year Very Successful.

An adjourned meeting of the Rebekah Lodge, Joint Committee, will be held in the Lodge rooms, next Thursday evening, September 5th, at half past seven, to make further arrangements.

The Oddfellows of Ontario hope to have in the near future an Oddfellows' Home for the benefit of any aged or disabled Oddfellows, or orphan children, who may happen to need its protection. For this purpose about $12,500 has already been provided, but more is needed before purchasing a site and beginning operations.

The past year has been a very successful one, the gain in membership in Ontario alone being 1195. The Order is now in successful operation under 27 different flags.

Bro. C. C. Lyman, of Brockville, who at one time resided in Peterborough, is the present Grand Master for Ontario.

"Your friend, Mrs. ———, is looking much improved in health. Yes, we persuaded her to use Miller's Compound Iron Pills with the result you observe." Sold by W. Madill.

FALL TERM —AT THE— **BUSINESS COLLEGE** Begins September 3rd.

If you want a position as Bookkeeper or Stenographer, attend our School as soon as possible. Call at the office or write us, and we will give you an idea of what we have done for others.

RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

SEPTEMBER!

You know what September means. It means cooler weather, and if it isn't here now, you can depend on it that it isn't very far away. It also means new Dresses and Hats, New Underclothing—in fact it means a general replenishing for the ladies. Lots of people are realizing that it's better to make preparations early. You get the assortments, and you get at first choice, which means considerable. Stocks are almost complete in every department, and values are better than ever.

SUBSTANTIAL GOODS.

The sort of materials are here for out-door wear in the autumn. Heavy enough for comfort and for health, and pretty enough to be a pleasure to ladies who are anxious to have the newest and the best and who know what is right. It's better to buy among the first and get the choice.

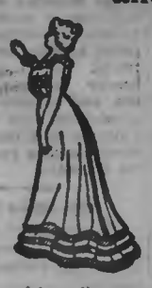
RIBBONS and TRIMNING.

In the line of Ribbons and Trimmings, there is no end to the variety, and you can have them just as elegant as you want them. We also have the grades that look well and are not very expensive — that appear better than the prices indicate.

ABOUT DRESSMAKING

Our Dressmakers are at it again for Fall. **Busy already**; but our staff is large, and we can turn out an enormous quantity of work in short order. Have you made any arrangements about your Fall Suit? If not, you had better call and see our Dressmakers.

WHITE COTTONS and EMBROIDERIES



We make a specialty of Fine White Cottons for undergarments, such as English Long Cloths, Lonsdale Cambrics, Nainsook Muslins, and the finer qualities of White Cotton, both imported and domestic. Also we ask you to notice and compare the quality of our Embroideries with ordinary assortments. It won't take you long to be convinced of our superiority in that line. But if you prefer to buy the ready-made things in Undergarments, we can show you a fine assortment, and prices are wonderfully low.

RICHARD HALL & SON DIRECT IMPORTERS. 120, 122, 124 SIMCOE STREET

CLARKE & GIBSON

Jewelers and Goldsmiths, Hunter Street, near Post Office.

OUR NORTHERN LAKES.

Mr. D. W. Dumble and Party Returned From a Very Pleasant Outing.

Mr. and Mrs. D. W. Dumble, Miss Dumble, and Mr. Augustus Sawers, of town, and Miss Reynar, of Cobourg, formed a party which for the past couple of weeks has been enjoying the scenery of the back lakes in Peterborough County.

The party struck Gull Lake at the depot, and paddled over to Gold Lake, reaching the lodge of the Gold Lake Hunt Club about five miles distant, in good time in the evening. Here they made their headquarters, and from it they made excursions each day to the following lakes:—Cox, Eagle, Beaver, Bottle, Sucker and Ketchecum, all of which were within easy reach of the camp. The visitors to these lakes were charmed with the beauties of the lakes, and the splendid quality of the water, which is so pleasant to drink, especially the water of Gold Lake, that the party actually drank of it for the pleasure alone.

In none of these lakes is there good fishing, excepting in Cox Lake, where there are bass. The fish in all the others are grey or mountain trout. The fish stay in deep water and rarely take the bait, and are caught only by the unsportsmanlike night line.

The chief features were that the party gained a healthy appetite, and the pleasure of the sight seeing. In the various rambles through the woods hardly a trace of deer was found, the impression gained by Mr. Dumble being that there are not very encouraging prospects for the hunter this fall.

There are wolves in the neighbourhood, and one of them by its howling at night, brought some anxiety to the ladies, who in a spirit of independence had taken to sleeping in the tent. Some of them concluded that the "shack" was better protection than the thin canvas walls.

The lakes in the region visited are in utter solitude, and not a residence skirts their shore excepting on Lake Ketchecum. A very pretty sight on one of the picturesque islands in Gold Lake, is the view of the residence of Mr. William Hall. Here he spends most of his time amusing himself in raising vegetables to great perfection.

The wondrous stillness, broken only by the unceasing cry of the loon at all times of the day and night, was a striking contrast, particularly noticeable when the noise of the town was heard on the return. The one regret expressed is that the lakes are not stocked with fish that take the bait at any season of the year. Mr. Dumble will apply to the Ontario Government to stock the lakes with fish suitable for these waters. If these lakes were well stocked with trout they would soon become the sportsmen's paradise.

CEREAL CO. NOTES.

The Work of Erecting the Buildings Rapidly Advancing.

It is wonderful what a few weeks has done in the way of transforming the quiet of the river bank, just north of the Hunter street bridge, into the busiest hive of industry in the town. The citizen who goes on a tour of inspection takes his life in his hands, as what with dodging electric wires tram cars and large blocks of stone which are being swung through the air by gigantic cranes, a man would need eyes in the back of his head to be free from danger. Contractor Bogue is certainly putting his best foot forward in rushing the work ahead. The concrete portion of the foundations has been laid, and the massive stone work base is now under construction. The stone is from the Longford quarries, and it seems almost a pity that such fine work should be put underground.

THE LATE MRS. SEYMOUR.

Her Remains Were Interred at Bobcaygeon Yesterday Afternoon.

The funeral took place in Bobcaygeon yesterday afternoon of Keturah Solan, wife of Henry Seymour, J. P., one of the most prominent residents of that locality.

The late Mrs. Seymour's demise occurred in Peterborough at No. 77 Homewood avenue, at the home of her son-in-law, Mr. H. M. Moore, of the Canadian General Electric Co. The deceased lady was 66 years of age, and came to Peterborough on the 22nd of June last to undergo treatment for a chronic ailment. Notwithstanding all that medical skill could accomplish she passed peacefully away on Wednesday evening.

The remains were taken to her home in Bobcaygeon on Friday. The late Mrs. Seymour was much beloved and respected by a wide circle of friends. The earnest Christian life she lived from her childhood endeared her to the hearts of all with whom she came in contact, and her demise will be universally regretted.

Besides a husband, she leaves to mourn her loss the following family: Mrs. H. M. Moore, and Mrs. A. F. Lane, of town; Mrs. T. Cashore, of Fenelon Falls; Mrs. J. H. Wilson, of Lindsay, Miss Matilda, at home; and Messrs. James and Harry, of Bobcaygeon.

NEWS NUGGETS.

—There will be no issue of the Examiner on Labour Day.

—There will be no service at Chemong Park to-morrow afternoon.

—This significant notice appeared in the Lethbridge News: — "Next Monday being a civic holiday, the temperance meeting will not be held."

Mary had a little lamp
Filled full of kerosene;
She went with it to light the fire,
And has not since benzine.

—The Trusts and Guarantee Company, Limited, 14 King street west, Toronto, accepts all classes of trust funds, whether under will, marriage settlement or agreement. As the company has a perpetual existence its clients have the assurance that the terms of the trust will be carried out, no matter what period may cover, without changing the trustee, which so often occurs when a private individual has been appointed in that capacity.

People who are in the habit of drinking Japan tea would do well to give "Salada" Ceylon Green Tea one single trial. They will find it much more delicious than Japan tea, and then it is absolutely pure. It will soon be as popular as "Salada" Black Tea.

MURRAY STREET BAPTIST CHURCH.

Interior and Exterior Improvements are now Completed.

A NEW ENTRANCE BUILT.

Additional Class-Room Accomodation etc.—A Fine New Pipe Organ Purchased and Placed in Position.

The alterations and additions to Murray street Baptist Church, decided upon by the members last winter, have been completed, and the church now presents an attractive and finished appearance. A large porch has been built on the front or north end, doing away altogether with the old entrance to the basement, and providing wide stair-cases and landings to the auditorium, making a very nice arrangement.

An addition has also been made to the south end, providing in the basement, two additional class rooms, furnace room and kitchen, on the second floor the pastor's study, ladies' parlour, two dressing rooms and organ loft. A side entrance leading both to the Sunday School room and to the church proper, is quite an improvement.

The grounds have been levelled off ready for seeding, and granolithic walks have been constructed to the front entrance.

The rear addition was built primarily to hold a pipe organ. To put one in it was necessary to enlarge the alcove over the baptistry, and provide room for the pipes and interior work of the organ. This has all been done and the organ has been put in. After being in communication with several organ makers it was decided to award the contract to the D. W. Karn Co., Limited, of Woodstock, Ont., for a Karn-Warren organ. Although not a large instrument the new organ is amply sufficient in volume for the church and reference to the specification published below shows that it is equipped with every modern convenience.

A Baptist church is always more difficult to arrange than that of any other denomination, for the reason that the baptistry must be provided for as well as space for organ, choir and pulpit. In this instance the scheme has been well worked out and all the needful requisites have been given convenient position. Access and egress to and from the baptistry are made by stairways on either side.

The organ case is of medium coloured quarter-cut oak, nicely panelled and of good design. The pulpit platform has been shortened a little to allow room for the choir immediately in front of it. The choir platform is raised about ten inches above the level of the floor, and is in good view of the audience.

The system on which the organ is constructed is what is called Tubular Pneumatic. Each pipe has its own valve and the connections from the wind chest to the key-board are made by lead tubing instead of ordinary "trackers." The action of the key is to open a valve at its anterior end; this is all the labour required, the rest being accomplished entirely by the pneumatic action working through the small lead tubes. The key-board or "Console" has been placed several feet in front of the pulpit, so that the player has full control over the choir. The tubing and other connections pass underneath the floor and baptistry to the interior of the organ.

There are seven couplers by means of which the power of the organ is increased more than double, and at the same time their judicious use permits of many effects in combination which would be impossible of attainment under the old system of construction.

The Crescendo Pedal draws the stops one after the other commencing with the softest and increasing to the full power of the organ, a dimuendo being obtained by reversing the pedal.

There are two pistons to each manual for the purpose of making rapid changes of stops, and a full organ pedal which brings on all the stops of the instrument at once.

Every shade of tone is represented from the delicate Aeoline to the powerful Diapason and the effect of the full organ is exceedingly fine.

The following is the specification:

Great Organ.—Open diapason, metal; dulciana, metal; melodia, wood; principal, metal; fifteenth, metal.

Swell organ. — Violin diapason, metal; viol di gamba, metal; Aeoline, metal; stopped diapason, wood; flauto traverso, wood; oboe, metal.

Pedal organ, — Bourdon, wood.

Couplers, — Swell to great unison, swell to great sub octave, swell to great superior octave, swell at octaves on itself, great at octaves on itself, great to pedal, swell to pedal.

Pistons. — Two pistons to great organ, two pistons to swell organ, full organ pedal, crescendo pedal, tremolo pedal, balanced swell pedal.

The motive power to supply wind to the organ is by a Ross water motor.

The organ was erected under the supervision of Mr. F. R. Warren.

The opening service in connection with the organ will be held on Sunday September 15th, and on Monday evening the 16th the people of Peterborough will have the opportunity of hearing the organ under the direction and controle of a master-hand in the person of Mr. A. S. Vogt, of Toronto, who has kindly consented to give a recital on that evening. Full particulars of which will be published later.

Miller's Kidney and Bladder Pills are expressly for weak kidneys, bladder, pain in the back, etc. Sold by W. Madill.

PEACHES AND PLUMS.

R. A. Dutton will receive to-morrow morning a carload of the best peaches and plums in the market. Those wishing good fruit of this kind will find it to their advantage to order immediately. They will be on sale Friday and Saturday. 2d

THE RIFLE MATCHES.

Programme for the Ranges for Labour Day—Rules Concerning Same.

The annual rifle matches of the 57th Regiment, Peterborough Rangers, will take place at Curtis' ranges on Monday next. Considering the fact that the non-coms and the men of the 57th have been doing considerable shooting during the past year, some very close marksmanship is anticipated. The following is the official programmme:

GENERAL MATCH.

Open to all Officers, Non-Com. Officers and Men of the 57th Regiment.

Value, $55.50. Ranges, 200, 400, 500, and 600; five shots at each range.

Prizes.

1—	$4.00
2—	3.00
3—	2.50
4—	2.50
5—	2.00
6—	2.00
7—	2.00
8—17 inclusive	1.50
18—32 inclusive	1.00
33—42 inclusive	75

TYRO MATCH.

Open to all Officers, Non-Com. Officers and Men of the 57th Regiment who have not made a score of 60 points or over in any previous Regimental match.

Value, $41.75. Ranges 200, 400, and 500 yards; five shots at each range, the same score to count in the General match.

Prizes.

1—	$2.00
2—	2.50
3—	2.00
4—	2.00
5—	2.00
6— 10 inclusive	1.50
11— 16 inclusive	1.00
17— 25 inclusive	75
26— 45 inclusive	50

SKIRMISHING AND VOLLEY FIRING MATCH

Value $16.25. Opens to teams of five Non-Com. Officers or Men from each Company. Five rounds advancing and five retiring. Targets to be exposed 15 seconds. Magazines not to be used. If more than one shot be fired by a competitor at one exposure in skirmishing, his team will be disqualified. Volley firing, five rounds at 400 yards, kneeling.

Prizes.

1—	$7.50
2—	5.00
3—	3.75

RULES.

Positions; 200 yards, kneeling; and 400, 500, and 600 yards, any position with head to the target. Five shots at each range.

One sighting shot at each range.

Rifle; no two competitors shall shoot with the same rifle.

Bull's Eye to count five, Inner four, Magpie three, Outer two.

Uniform; all competitors must appear in uniforms.

All disputed points to be decided by the Range Officers.

Any competitor who shall fire when the danger signal is up; or who shall discharge his rifle on the range, except in accordance with the regulations; or who shall be found with a loaded rifle off the firing point; or who shall act in any way tha tmight prove dangerous, shall in the discretion of the Range Officers, be excluded from all further competition, and shall forfeit all prize money.

In matters not provided for in the above rules, the D.R.A. rules shall govern.

All men not actually engaged in firing shall keep at least 20feet in rear of the mounds.

Range Officers, Lt. Col. E.B. Edwards, Major Miller, Capt. Walker, Major Stevenson.

All men will parade at the Drill Shed at 7 a.m., and will be conveyed to the ranges free of charge.

Matches to commence at 8 a.m. sharp.

Lunch will be furnished at the Ranges, free.

Rifles must be drawn and signed for previous to the matches.

The Cause of Dyspeptic Pains.

They arise from the formation of gas, owing to improper digestion. A very prompt and efficient remedy is Polson's Nerviline. It relieves the distention instantly, and by its stimulating action on the stomach, aids digestion. Nerviline cures dyspephic pains by removing the cause. Nerviline is also highly recommended for cramps, colic, summer complaints, and inflammation. Sold in large 25c. bottles everywhere.

TO CONTRACTORS.

Tenders will be received up to Saturday, September, 14th, 1901, addressed Canadian Cordage & Mfg. Co., Limited, Peterborough, marked "Tender" for the erection of

Manufacturing Building, Store Houses, a Boiler Room and Office Building,

for the Company, between Perry and Lake streets, and Bethune and Aylmer streets in the Town of Peterborough.

Contractors may tender upon the office and boiler room or manufacturing buildings and store houses, or upon the masonry work of the manufacturing building and store houses.

Plans and specifications may be seen at the office of W. Blackwell, Architect, Water street.

The lowest or any tender not necessarily accepted.

ADAM HALL,
President Canadian Cordage & Mfg. Co.
3350.

SPICE TIME AND PICKLING TIME.

Thrifty housekeepers are now preparing Home-made Relishes for future use.

In order that these may be really toothsome and wholesome, the use of Reliable Spices and Vinegar is indispensible. Carelessness in this respect means false economy.

We have no hesitation in recommending our Spices and Vinegar as the best procurable. Strength, Purity and Freshness are guaranteed.

A TORONTO LADY'S STORY

Suffered From Backache So Severe She Could Hardly Raise Herself in Bed.

SHE THANKS DR. PITCHER'S BACHACHE KIDNEY TABLETS FOR COMPLETELY CURING HER AND GIVING HER NEW LIFE AND ENERGY.

There are hundreds of women in Toronto and thousands in Canada to whom life is an absolute burden on account of the unceasing ache in the back, the

dragging pains in the loins, the headaches and sideaches.

Many, too, are suffering from kidney irritability, bladder and urinary troubles, who are reticent about mentioning their ailments to anyone.

To all these kidney and backache sufferers Dr. Pitcher's Backache Kidney Tablets come as a veritable boon and blessing. They clear out the clogged-up kidneys, cure the backache and urinary troubles, roll away the burden of pain, and give health, strength and energy.

Miss Anna Defoe, a young lady whose address is 355 King street west, Toronto, recently wrote as follows:

"For a number of years I have had kidney trouble and backache, so bad that in the morning I could hardly raise myself. A severe dragging pain would catch me in the small of my back, and I had no appitite, and often suffered from severe headaches, and a general breaking down of the entire system was the result. But, thanks to Dr. Pitcher's Backache Kidney Tablets, they put new life and energy in me, relieving me of that awful pain and soreness gently and easily, so much so, that I continued to get better, until I was entirely cured. I am in condition now to make known to the world what Dr. Pitcher's Tablets have done for me and for whose future welfare I have the best wishes."

Dr. Pitcher's Backache Kidney Tablets are 50 cents a box at all druggists. The Dr. Zina Pitcher Co., Toronto, Ont.

on Ale, Porter or Lager is an absolute guarantee of purity, age and quality.

IT'S ON THE WAY.

How the Winter Camo in the Lake Region

For weeks and weeks the autumn world stood still,
Clothed in the shadow of a smoky haze;
The fields were dead, the wind had lost its will,
And all the lands were hushed by wood and hill,
In those grey, withered days.

Behind a mist the blear sun rose and set,
At night the moon would nestle in a cloud;
The fisherman, a ghost, did cast his net;
The lake its shore forgot to chafe and fret,
And hushed its caverns loud.

Far in the smoky woods the birds were mute,
Save that from blackened trees a jay would scream,
Or far in swamps the lizard's lonesome lute
Would pipe in thirst, or by some gnarled root
The tree-toad trilled his dream.

From day to day still hushed the season's mood,
The streams stayed in their runnels shrunk and dry;
Suns rose aghast by wave and shore and wood,
And all the world, with ominous silence, stood
In weird expectancy.

When one strange night the sun like blood went down,
Flooding the heavens in a ruddy hue;
Red grew the lake, the sere fields parched and brown,
Red grew the marshes where the creeks stole down,
But never a wind-breath blew.

That night I felt the winter in my veins,
A joyous tremor of the icy glow;
And woke to hear the north's wild vibrant strains,
While far and wide by withered woods and plains,
Fast fell the driving snow.

—W. Wilfred Campbell.

The True Tragedy of Life

is ill-health, disappointed ambitions, usefulness destroyed. Pathetic! nay, tragic. Poor blood, weak nerves, a tired brain. Is there hope? Yes! Because there is a cure.

Ferrozone Tablets make blood; not blue blood, but the fluid that strengthens the whole body. Ferrozone does this quickly by improving digestion, stimulating assimulation and by imparting health and tone to the whole system. Ormond & Walsh, druggists will tell you a great deal more about Ferrozone. Ask them to tell you of the wonderful curative properties of Ferrozone Tablets.

Cuts Off His Friend's Ear.

"Count Gabriel Kepessy, a first lieutenant in one of the Honved hussar regiments," said a despatch to The London Daily Mail from Buda-Pesth, "has been formally degraded in Szegedin before the whole regiment. He made a dining bet that he would cut off the right ear of one of his best friends, Caspar Kanyo, with his saber. He then approached the unsuspecting Kanyo and slashed off the ear.

"Kanyo shot at Kepessy with his revolver, but missed him. Then, turning to the mirror, and seeing himself without the ear, he turned his revolver against himself and fell dead. The colonel in degrading Kepessy warned the officers of the regiment against debauchery and drunkenness."

A LOVER'S TRICK.

Making His Sweetheart's Roses Change Their Color.

It was a lover who lately discovered this trick. When he was not with his lady-love he was studying chemistry and experimenting, and one day recently he found an easy method of changing the natural colors of flowers.

He was in the habit of presenting his sweetheart with bouquets of beautiful roses, which grew in his garden, and a few hours after he had made the discovery he took her a half a dozen of the choicest white roses and told her that she could learn through them whether he was really in love with her or not.

"If you and I are destined for each other," he said, "those white roses will become crimson within five or six hours from now. Gradually but surely they will change color, and you may regard the change not only as an indication that the flowers are delighted to be worn by you, but also as an infallible sign that happiness is assured to us in the future."

Sure enough, before the eyes of the wondering maiden the roses changed color and were crimson at sunset that evening. Marvelous indeed the change seemed to her, for how could she know the roses were originally red and that her lover had simply bleached them white by holding them for some time over a pan filled with smoking sulphur before he handed them to her?

Few People Escape Piles

And Dr. Chase's Ointment is the Only Positive and Guaranteed Cure for This Torturing Disease.

There is usually very little satisfaction in consulting a physician regarding a case of piles. In nine cases out of ten he will recommend a surgical operation, forgetting, it may be, the risk, suffering and physical as well as financial expense which this treatment entails. For this reason very many people are going about in misery with piles, believing that they cannot be cured except by means of the surgeon's knife.

It is to such persons that this advertisement will bring good news of great value. Dr. Chase's Ointment has grown in popularity until to-day it is recognized the world over as the standard ointment for the cure of itching, burning skin diseases, and as absolutely the only preparation that can be relied upon to cure every form of piles.

It seems strange that anyone should suffer the wretched uneasiness and acute torture of burning, itching piles when it is so easy to procure Dr. Chase's Ointment. Nearly every dealer in medicine keeps Dr. Chase's Ointment, and you can apply it at home without any inconvenience. The first application is usually sufficient to put an end to the itching, and it is rarely that more than one box is required to make a thorough cure.

Mr. F. Stokes, 116 Dunlop street, Barrie, Ont., writes:—"I was troubled with blind, itching piles for years, and could get nothing to stop the constant itching. I was always in pain until a friend of mine told me of the wonderful cures Dr. Chase's Ointment had made among his acquaintances.

"I only used one box, and am entirely cured. In gratitute for this marvellous cure, and for the benefit of others suffering as I did, I send you this record of my case."

Mr. Geo. A. Booth, of Trenton, Ont., writes:—"This is to certify that Dr. Chase's Ointment has completely cured me of itching piles from which I suffered for two years in spite of all the remedies I used and which failed to cure me."

Heaps of cases in which Dr. Chase's Ointment has actually cured serious and long-standing cases of piles have been reported in the Canadian press. Should you want to know more about it ask your druggist or your neighbour. There are few people in Canada who are not familiar with the record of this famous preparation. If your dealer does not have Dr. Chase's Ointment in stock it will be sent post-paid on receipt of price, 60 cts. a box, by Edmanson, Bates & Co., Toronto.

Advertising in the Examiner brings the best results.

At Tweed, sales at 9 1-16c and 9c.

Kemptville, Aug. 30.—At the regular meeting of our Cheese Board this evening 1000 boxes were offered, of which 150 were white. The usual buyers were present and all cheese were sold at 9 3-16c for each kind.

A GIGANTIC RAILWAY DEAL.

Montreal Capitalists Engineer An Amalgamation of Several Big Companies.

Montreal, Aug. 31.—The deal by which a syndicate of Montreal capitalists have secured the amalgamation of the Pontiac and Pacific Junction Railway, the Ottawa, Northern and Western Railway, the Hull Electric and the Interprovincial bridge over the Ottawa River at the City of Ottawa at figures aggregating some $5,000,000 is one of the largest and most important railway deals which has taken place in Canada for many years. The three railways and the bridge will in future be under one management under the name of the Ottawa, Northern and Western Railway Company. The purchase price of the Pontiac and Pacific Junction Railway was $3,000,000, that of the Hull Electric Railway $1,000,000, and that of the Interprovincial bridge $1,000,000, in all $5,000,000.

The Ophir On Time.

Ottawa, Ont., Aug. 31.—It is understood that Lord Minto is of opinion that the Royal party will arrive at Quebec on time, the 16th of September.

St. Vitus Dance cured by Miller's Compound Iron Pills. Sold by W. Madill.

The Birds of Midsummer.

One may occasionally hear the red-eyed vireo in August, but it is low tide with him, too. His song has a reminiscent air, like that of the indigo. The whippoorwill calls fitfully in this month, and may be heard even in September; but he quickly checks himself, as if he knew it was out of season. The speckled Canada warbler has been heard in August, and the white-throated sparrow. But nearly all the migratory birds begin to get restless during this month. They cut loose from their nesting haunts and drift through the woods in promiscuous bands, and many of them start on their southern journey. Some of them are probably in hiding during the moulting season. The orioles begin to move south about the middle of the month, and by the first of September the last of them have passed. They occasionally sing in an oppressed tone during this time, probably the young males trying their instruments. It is at this time, when full of frolic and mischief, like any other emigrants with faces set to new lands, that they make such havoc in the vineyards. They seem to puncture the grapes in the spirit of pure wantonness, or as if on a wager as to who can puncture the most. The swallows—the cliff and barn—all leave in August, usually by the 20th, though the swift may be seen as late as October. Poets often detain the swallow much beyond the proper date. One of them makes them perch upon the barn in October. Another poet makes them noisy about the caves in Indian summer. An English poet makes the swallow go at November's bidding. Long ere this date they are in tropical climes. They begin to flock, and apparently rehearse the migrating program in July. The bobolinks go in early August with the red-shouldered starlings, and along the Potomac and Chesapeake Bay become the reed-birds of sportsmen. One often hears them in this month calling from high in the air as they journey southward from northern latitudes.

Called Back to Earth.

"Give me liberty or give me death!"
He shouted till he was out of breath,
But when his wife for him did shout
His dream was ended, and his pipe was out.

Astronomical.

Venus—Jupiter is remarkably brilliant this summer.

Saturn—Yes; he carries on as if he were an engine headlight at a garden party.

A TORONTO CASE.

Ocmmercial Traveller of the Queen City the Unfortunate.

The City of Toronto health authorities are no doubt as active and energetic as any on the continent. But Dyspepsia, one of the most common of all diseases, is outside of their powers. Each citizen must take care of his own stomach, or suffer the consequence.

In these days of hurry and rush, worry and push, complicated foods, and indigestible diets, it is no easy matter to take care of the stomach. The stomach has to take care of itself and if it fails so much the worse for the owner of it. It was to help the owners of weak stomachs that Dodd's Dyspepsia Tablets were invented. That they have already done much in that direction is shown by the thousands of letters like the one below.

Commercial travellers, above all other people, should never have weak stomachs. That so many have got weak stomachs only shows how severe is the strain of irregular eating and drinking associated with life on the road. Mr. G. H. Perrigo, the writer is a commercial traveller of Toronto.

"For four years," he writes, "I have been troubled with Dyspepsia and Heartburn. I could not eat a hearty meal for fear of the pain that followed. Several remedies tried only gave temporary relief. Dodd's Dyspepsia Tablets have since permanently cured me and I recommend all 'Commercials' to try them after meals and see the effect."

MEETING OF MAYORS.

Municipal Union Stands for the Exclusive Control of Streets by Municipal Corporations—Officers Elected.

Toronto, Aug. 31.—Mayor O. A. Howland was unanimously elected President of the Union of Canadian Municipalities, which concluded its first annual convention in the City Hall yesterday, after transacting a lot of business.

There was not a very large attendance of delegates when business was resumed yesterday morning. The report of the Committee on Resolutions was taken up. There was some discussion upon the following resolution, fathered by Mayor Lighthall of Westmount, which eventually carried unanimously:

"That municipalities should have full and exclusive control of their streets, and that no legislation should be passed infringing on such control unless the same be subject to consent of the municipality concerned; that the members of this Union will resolutely resist each and every invasion of these rights, and that the Executive Committee be charged with the duty of assisting to prevent such invasions of the rights of any municipality."

In answer to Mayor Campbell of Cornwall, Mayor Howland said the Dominion Government had given corporations rights upon the streets of municipalities, but these rights had never been determined.

The next resolution considered was that of Mayor Morris of Ottawa, protesting against the exemption from taxation of private property leased to the Government for Government purposes. The resolution was adopted. Mayor Rumball of London suggested that church property should also be taxable, but this was not embodied in the resolution.

Mayor Morris also secured the adoption of this resolution:

"That all legislation under which properties of certain corporations are to be assessed as scrap iron, should be decisively and distinctly repealed."

Mayor Howland's scheme to improve the credit of the municipalities throughout Canada met with favor in the eyes of the delegates, and a resolution approving of the same was sent on to the Executive which will formulate a policy for adoption.

Another resolution referred to the Executive was:

"That it is contrary to equity and to wise public policy and of doubtful legality, that governments should exempt their own properties and the incomes of those in their employ from municipal taxation; and that the Executive Committee be authorized to consider the best means of giving effect to this resolution."

Mayor Morris' resolution to the effect that municipalities should be empowered to go into the coal business in order to protect citizens from high prices was turned down by a vote of 20 to 12 after it had been fully discussed.

Mayor Morris, supported by Ald. Hubbard, secured the adoption of a resolution suggesting that the decision of the highest courts of the empire be obtained as to the rights of the Railway Committee of the Privy Council to order municipalities to pay part or the whole of the cost of protection of crossings and of bridges and subways.

It was resolved that municipal issues should be kept solely in view by the electorate in municipal elections.

The Committee on Organization reported again upon the clauses in the constitution, which were sent back to them on Thursday and recommended that there should be an Executive Committee composed of a president and provincial vice-presidents. The first and second vice-presidents from a province shall form a Provincial Committee to watch the interests of municipalities in their respective provinces, and any member of the union may communicate with them for the purpose of securing the support of the union in advancing matters affecting the interests of any member. The executive may confer and vote by correspondence, and shall be a General Administrative Committee.

Officers Elected.

This was adopted, and the election of officers was proceeded with, resulting as follows:

President, Mayor Howland, Toronto.

Provincial vice-presidents, Ontario—First vice-president, Mayor Morris, Ottawa; second vice-president, Mayor Reid, Owen Sound.

Quebec—First vice-president, Mayor Lighthall, Westmount; second vice-president, Councillor Knowles, Westmount.

Nova Scotia—First vice-president, Mayor Hamilton, Halifax, second vice-president will be chosen by the executive.

New Brunswick—First vice-president, Ald. Macrae, St. John. (Second vice-president will be chosen by executive.)

Manitoba—First vice-president, Mayor Arbuthnot, Winnipeg. (Second vice-president will be chosen by the executive.)

The choice of vice-president of the other provinces will be made by the executive.

The only contest was for the second vice-president of Ontario, Mayor Reid defeating Mayor Wood of Brantford on a close vote.

The choice of a meeting place for next year was left to the executive.

Franchise or Strike.

Stockholm, Aug. 31.—Scandinavian democratic solidarity was demonstrated by the workingmen's congress which has just been concluded. The leaders of the Swedish socialists announced there would be a general strike of workingmen next year if Parliament did not extend the franchise. The Danes and Norwegians, amid much enthusiasm, decided to support their Swedish brethren.

BACK-ACHE ?

Marie and Port Arthur and Fort William for all points west.

A. H. NOTMAN,

Assistant General Passenger Agent 1 King St. East, Toronto.

EMPIRE'S NAVAL DEFENCES.

Mr. Gilbert Parker, M.P., on the Duty of the Colonies.

The London Times gives the following summary of a recent speech in the Imperial Parliament by Mr. Gilbert Parker, M. P.: "Reference had been made as to the colonies and their duty in the matter of contributing to the naval defence of the Empire. In several of the colonies these broad questions of the defence of the Empire had been discussed. It was said that the colonies should contribute to the defence of the Empire. (Cheers.) He thought that they did contribute. The presumption was that the contribution should be by money, but the question arose, 'in what proportion?' The colonies might be expected to contribute in proportion to their population, but he thought the juster view was that the colonies should contribute to the defence of the Empire on the basis of their share in the world's commerce. The colonies, it must be remembered, already made some contribution towards the defence of the Empire in the matter of garrisons and maritime stations. In addition to the proportion of population, the relative wealth of the colonies and of the United Kingdom must be considered, and also the fact that the colonies were bearing the initial expenditure of building up new institutions, of making the plant of government administration. Public opinion in the colonies at the present time, he believed, was not prepared to take into consideration a practical contribution towards the defence of the Empire—(Nationalist cheers and some Ministerial cries of 'Why not?')—because they had all they could do at present to look after their own military defence, and they had the extraordinary expenses attaching to the development of new countries. He thought the colonies were not prepared to put their hands in their pockets—(Nationalist cheers)—unless they had some form of representation in some council of the Empire, such as a Committee of Defence, or that House. He thought, however, that they did not desire the latter. (Nationalist cheers.) But he would repeat the words of Sir Wilfrid Laurier, 'If you desire us to share the responsibilities you must call us to your counsels.'"

JINGLES AND JESTS.

On a Hot Afternoon.

I'll get licked,
I'll bet a dollar,
I don't care;
Ain't goin to holler.
I'll take twenty
If I must,
But I'll go swimmin
If I bust.

—St. Louis Post-Dispatch.

So Like His Pa.

"It is a great pity your husband has to be away from home so much. But you are not left entirely alone, that's one comfort. Willie is getting to be quite a man and grows more and more like his father every day."

"Oh, yes. He goes about the house with his suspenders hanging down about half the time."

True Love.

"Well, I'm on the lookout for another girl."

"Ah, then Miss Pechis has turned you down?"

"Oh, no. She accepted me last night, but the ring I had was too small for her. I've got to find a girl it will fit."

IT IS EASY WORK

when you are well, to rub and scrub, but when the back aches and the head throbs, a woman's work is hourly torment.

No woman can be strong and healthy of body who is the victim of those womanly diseases which are often responsible for feminine sufferings.

Women who have used Dr. Pierce's Favorite Prescription for the cure of diseases of the womanly organs, say that work doesn't tire them any more. "Favorite Prescription" regulates the periods, dries enfeebling drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

There is no alcohol in "Favorite Prescription," neither opium, cocaine or any other narcotic.

"I had poor health for nine years (ever since the birth of my child)," writes Mrs. Armintie Watkins, of Acme, Kanawha Co., W. Va. "Had female weakness, was very irregular and would suffer untold misery. Our family doctor did not do me any good and I concluded to write to you. When I wrote I had no idea that I would ever get well, but when your letter reached me I began to have hope. I commenced taking Dr. Pierce's medicines as directed and began to improve in strength. I was soon able to do the work for my family of six. I think there never were such medicines in the world. I took eight bottles, three of 'Favorite Prescription' and five of 'Golden Medical Discovery' and two vials of 'Pellets.'"

Dr. Pierce's Pellets cure constipation.

BURIED 15 CENTURIES.

First Christian Church Which Sank Beneath the Earth Re-discovered Under Its Successor's Foundations.

The sea has sometimes swallowed up a church that has been built too near the edge of the ocean, but it is difficult to understand how a whole edifice could sink into the earth, to be rediscovered beneath the foundations of its successor. Such, however, has been the case with the church of Santa Maria Antigua at Rome, built in the fourth century and now uncovered by the demolition of a newer church, Santa Maria Liberatrice. The entrance to this strange old church is built on to a vestibule of Caligula's Palace, and

BURIED FIFTEEN CENTURIES.

was once decorated with pictures, which, of course, have been ruined by the accumulation of earth and debris. Some, however, are fairly well preserved and give the history of Joseph and his adventures with Pharaoh and Potiphar's wife. Another series of pictures represent the history of our Saviour. This church must undoubtedly be the first Christian church ever built in Rome, and was especially erected to abolish the cult of Vesta and Juturna. "The wonderful point about it all is," says an Italian savant, "that this Christianizing transformation actually took place in the palace of the Caesars."

Wolves in Northern Canada.

Wolves are increasing alarmingly in the forest lands of Northern Canada. This is accounted for by the increase in the herds of deer throughout the country. As the deer have multiplied, so have the wolves, which prey upon them.

CURE SICK HEADACHE.

BLOOD POISON

If you ever contracted any blood disease you are never safe unless the virus of poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore Throat, Ulcers on the Tongue or in the Mouth, Hair Falling Out, Aching Pains, Itchiness of the Skin, Sores or Blotches on the Body, Eyes Red and Smart, Dyspeptic Stomach, Sexual Weakness—indications of the second stage. Don't trust to luck. Don't ruin your system with the old fogy treatment,—mercury and potash—which only suppresses the symptoms for a time, only to break out again, when happy in domestic life. Don't let quacks experiment on you. Our New Method Treatment is guaranteed to cure you. Our guarantees are backed by bank bonds, that the disease will never return. Thousands of patients have been already cured by our New Method Treatment for over twenty years. No experiment, no risk—not a "patch-up," but a positive cure. The worst cases solicited. We treat and cure Nervous Debility, Sexual Weaknesses, Ulcer, Blood Poison, Stricture, Varicocele, Kidney and Bladder Diseases, and all diseases peculiar to men and women.

CURES GUARANTEED.

THE ANATOMY OF THE STOMACH

The stomach is the principal, although not the only, organ of digestion. It is about 12 inches long and four inches in diameter at the largest end. It is shaped like a pear, with large end and entrance to the left, and the small end and exit to the right. In the stomach all solid foods are dissolved, and made ready to be mixed with the bile and pancreatic juices in the second stomach and bowels. If the food is not dissolved in the stomach, it is not dissolved at all, but passes entirely through the system without in any way enriching the body.

Hence the importance of a healthy stomach. The principle trouble is weakness of the muscles of which the stomach is composed, and lack of sensitiveness to the nerves which cause the gastric or food dissolving juices to flow. Two principal features are thus demanded of a stomach remedy. Merrill's System Tonic embodies these features exactly. It tones the muscles and enriches and restores the nerves; not in a transitory, but in a lasting manner. Take it when sour eructation, heartburn, gas on the stomach, pains in the stomach, sense of heaviness in the stomach and a general unpleasant feeling, indicate that your stomach is out of condition. You'll be delighted with the results and pleased to find that you can eat a hearty meal and enjoy it.

Each 50c. bottle contains 50 pleasant-to-take doses, and is sold

It is Becoming Well Known Both as an Industrial Centre and a Health Resort.

A. J. Gough, who has just returned from an extended trip to the Pan-American, and other points in Uncle Sam's Dominion, expressed his views to a reporter of the Examiner to-day on what he had seen while abroad. Regarding the Exposition at Buffalo he had little to say other than that it was excellent and about everything that the promoters claimed for it, and now that the people had gotten their senses and had stopped charging such exorbitant rates, it was being well patronized. But it was not until he commenced speaking of a Michigan city, Battle Creek, that he grew enthusiastic.

"I have a brother over in Battle Creek," said Mr. Gough, "whom I had not seen for quite a number of years, so I decided to run over and pay him a visit. I had often heard of this city, but my information was obtained chiefly from the conductor calling the station as we passed through on our way to and from Chicago. But little larger than Peterborough (it has a population of 20,000) Battle Creek is truly a wonderful place. Its post office receipts rank third in the State, ranking immediately after Detroit and Grand Rapids, and I must say that it is the most hustling, wide-awake place I ever was in. There is no boom there, just a healthy condition of affairs, with a prosperous contented people. This city manufactures more threshing machines, traction engines and steam pumps than any city on the globe — has the finest newspaper printing presses in the world, and the three largest printing establishments in the state. They make and ship daily carloads of cereal coffee, cereal and nut foods, iron and wood working machinery, etc., and furnish employment to skilled and common labour. Everybody owns his own house, and an idle man is not tolerated in the city.

"Modern and up-to-date as this city is, with its municipal improvements and excellent shipping facilities, yet it is altogether to a different reason that it owes its fame abroad. Here are situated the two largest health institutions in the world, receiving as they do over 8,000 persons annually. Battle Creek is the home of the Seventh Day Adventists; a religious denomination who hold some peculiar notions, not only in religion, but in some other things as well. They have a beautiful institution, known as The Kellogg Sanitarium, and Dr. Kellogg, the head physician, is their idol. What is a fad with him to-day becomes an article of religious belief with them to-morrow. No meats, condiments, tea or coffee are allowed, and all their therapeutics consist of water. Of course I had often heard of this place, and, while I have no doubt it would be a good place for a man to go who wanted to take a treatment of starving, yet I prefer something more substantial and rational. Nevertheless, this institution does an immense business, having at the present time about 700 patients.

"The new Phelps Medical and Surgical Sanitorium, which a few months ago was unknown to fame, seems destined to become in a short time one of the most popular health institutions in the United States. The material used in the structure is field stone, and it is beyond doubt the most artistic piece of work I have ever seen. I wish I could give you some idea of the immensity of the buildings, its attractive furnishings surroundings, and beautiful lawns, which furnish a pleasing contrast to the majestic pile of stone. Mrs. Gough and I had dinner at The Sanatorium, and, in passing, it might be said that the dining room is the architectural gem of the house. The walls are covered with a high panelled wainscot of dark Flemish oak, giving way to a deep green burlap covering reaching to the ceiling, which is heavily panelled off in the same dark Flemish oak, while the panels of the ceiling are finished in old colonial yellow. The floor is laid in hard woods, polished to a perfect finish. The contrast of sober richness of finish with dazzling lights, dainty oriental curtains, snowy tables, glistening silver, costly china, and the vari-coloured toilets of guests, make a picture that lingers long in memory. This charming room banishes all thought of invalidism, and every feature serves to promote cheerfulness and tempt the appetite. The dining room has won for itself a far-reaching reputation among the travelling public, and it is no risk to run when claiming that the cuisine and service are unexcelled by none and equalled by few houses of public entertainment. Situated on railroad lines which put the institution in touch with all markets, the institution is able to stock their cold storage rooms with the best from every source, and the determination to be the best stimulates both management and chef. The service conforms as nearly as possible to that of a well-ordered and perfect appointed home, the idea being to make the service as dainty and homelike as possible. Young ladies of education and refinement only are employed in the dining room service, which it is not possible to secure except through a special training, which the institution prefers to furnish. Only those who prove themselves careful, watchful and attentive to the guests, and who put forth every effort to please, are retained in the service. There are about twenty-eight different forms of baths, including galvanic and faradic baths, static treatments, and the Sprague Hot Air treatment for dry therapy. There are two surgical operating rooms, perfectly lighted and equipped. The walls of these rooms are of adamant, with all possible angles avoided, making it as easily washed down and flushed as a bowl. Altogether everything that is known to modern science finds perfection in the Phelps Medical and Surgical Sanatorium.

I was delighted and surprised at the great number of Canadian nurses I found in the institution, and the management assured me that they seemed particularly adapted to this work, the Canadian girls being among the best nurses they have.

I wish time and space would permit me to give you more detail of what a grand institution this is. But so well do I think of it, that if I ever get sick it is there I will go. And I would advise all my friends, who are needing medical treatment and a healthful and pleasant environment, to go to the Phelps Medical and Surgical Sanatorium, Battle Creek, Mich. However, I do not intend to wait until I am so sick that I cannot enjoy it, for as soon as the fall rush of business is over, I intend to visit the institution for rest and recuperation. It is a grand place and the only thing I could say is—go and see it; I haven't words adequate to describe it.

A NEW CURE FOR THE DEAF.

Under this heading we published last week an article referring to a new treatment for the cure of these complaints. As a great many letters have been sent us by readers requiring additional information, we would remind them that they should apply directly to the Secretary of the Drouet Institute, 72 Regent's Parkrond, London, England, who will be most pleased to advise them as to the best means of availing themselves of the advantages of the new discovery.

KINDNESS TO THE Y. W. C. A.

The Stanley Piano Company Remembered the Y. W. C. A. While on Their Excursion.

The Y.W.C.A. wish to thank the Stanley Piano Company for their kind thoughtfulness in giving the amount they made at their excursion to the extension of the Y.W.C.A. work in the town. It is pleasing to be able to announce that the prospects for this work are bright. Hon. Senator Cox is now having the rooms on George street put in order, so that they may be furnished and ready for the new secretary, Miss Dickson.

The "Y" will be grateful for anything that anyone may be pleased to give towards furnishing these rooms, either from individuals or societies. Amongst the pressing needs are, comfortable chairs, tables and lounges, pictures, etc. An earnest appeal is made, for "The times are very evil."

There is great need for work among the young women of the town. Every young woman is somebody's sister, somebody's daughter. Will you help to provide a comfortable home for those who are away from home and lonely? Any donations that may be given before the rooms on George street are in order, may be left at the Y.W.C.A. Rooms on Brock street.

DOAN'S KIDNEY PILLS cure backache, sideache, scanty, cloudy, thick and highly coloured urine, diabetes, dropsy, and all troubles arising from a weak condition of the kidneys. a

WELCOMED HOME.

Mr. Walter Stocker Greeted by His Masonic Friends.

Last night about seventy of the intimate Masonic friends of Mr. Walter Stocker met in the Masonic Hall and gave him a hearty welcome home. After "routine," the refreshment table was surrounded, Chief Roszel, W.M., of Peterborough Lodge, occupying the chair.

The toast of "His Majesty the King," was first duly honoured; after which "The Health of Bro. Stocker" was proposed by V. W. Bro. D. Spence. The toast was received with hearty enthusiasm. Bro. Stocker spoke feelingly of the kindness of the brethren in honouring the toast so warmly. He then gave an interesting and entertaining account of his experience in the old land; his meeting with a number of old Peterborough friends; and his visit to the Glasgow exhibition.

The applause which followed Bro. Stocker's address was proof of the warm place he holds in the esteem of his brethren. R. Wor. Bros. Rush, Walkey and Gibson also spoke in a complimentary manner of the services of the guest as S. W. The toast of "the Visiting Brethren," was proposed by the chairman, and responded to by Bro. R. Record, who referred at length to the principles of Masonry. The J.W.'s toast followed, after which the brethern separated, having spent a most enjoyable evening.

57TH REGIMENT.

EQUAL TO ANY EMERGENCY.

Gough Bros.

LATEST TRIUMPH.

COLOSSAL SHIPMENTS
—OF—
NEW FALL CLOTHING,
SHOES, HATS, AND FURNISHINGS.

Our enormous collection of Merchandise for Fall presents a striking object lesson of the onward stride that has been made since last Fall in the manufacture of High-Class Ready-to-Wear Fall Suits, Light Overcoats, Boots and Shoes, Hats, Caps, Furnishings, etc., for Men, Young Men and Boys. But—

THE CRUX OF THE SITUATION

is this—that Gough Bros. are ready and equal for any emergency. When you want to be dressed from top to toe for any particular occasion—no matter what—let GOUGH BROS. know of your wants. If you prefer a Suit made to your measure, our Custom Tailoring Department is ready for your order. Expert cutters and tailors are bound to fit you.

We take a back seat for no one, and we do guarantee our prices cannot be duplicated in town.

Our reputation does not rest alone upon supplying the BEST at the LOWEST PRICES; the prompt and faithful manner in which we look after our customers' wants has something to do with it.

Being in Close Touch With all Markets

implies constant opportunities. Buying for Eight Large Stores implies large discounts to us.

Spot cash and big outlets implies tempting chances—the closing out of a factory's surplus, the relief of a manufacture's congestion, are prizes that can be captured only by hard coin and enormous sales.

Times are Good—There's no Calamity A-brewing.

We've been to market. We are ready to go again to-day—for EQUAL BARGAINS. We haven't lost our moorings or our heads.

SCHOOL OUTFITS

FOR YOUNG CANADA.

We have marked prices of Boys' School Suits, School Shoes, Hats and Furnishings beyond the touch of competition. Some great Special Snaps for Parents who bring their boys early. You can not resist our tempting Bargain Prices.

THE BOOM IS ON AT GOUGH'S.

LABOURERS!

WORKING MEN—You who have at all times shown us by your constant patronage that you are alive to your own interests—remember that we sell the goods necessary for your every day toil at prices within the range of wage-earners of every circumstance: less by a half than you pay elsewhere.

SEPTEMBER

1901

The Daily Examiner.

VOL. XXXI, NO. 53. PETERBOROUGH, TUESDAY, SEPTEMBER 3, 1901. PRICE TWO CENTS.

Signal and Significant

We have more exclusive things to show than ever before, and we ask nothing better than a chance to show them.

Schneider
Optician and Jeweler.

ARRESTED IN LONDON

Dr. Krause Taken Into Custody on Charge of High Treason.

BOER SHOT HIM POINT BLANK.

Particulars of the Death of Col. Vandeleur—Women on the Train Blown Up Were Wounded—Moving the Concentration Camps—Boers Will Be Placed in Garrisoned Frontier Towns.

London, Sept. 3.—Dr. Krause, former Governor of Johannesburg, and a prominent official of the late Transvaal government, was arrested in London last night on a charge of high treason. He will be arraigned to-day at Bow-street Police Court.

For the past four months Dr. Krause has been living in Great Britain. It is alleged that after signifying his allegiance to the British crown he secretly forwarded information to the Boers. It was Dr. Krause who handed to Lord Roberts the keys of Johannesburg on the occasion of the surrender.

Sept. 15, the Limit.

Washington, Sept. 3.—Ambassador Choate has cabled the State Department from London, under date of Aug. 31, as follows: South African commission will receive no further claims after Sept. 15. This commission is dealing with claims of foreigners on account of damages in the Boer war.

With Boer Prisoners.

St. Vincent, G.V.I., Sept. 3. — The steamship Montrose, which sailed from Cape Town for Bermuda, Aug. 16, carrying 201 English troops and 937 Boer prisoners, has arrived here and will proceed for her destination to-day.

Reopening the Mines.

Cape Town, Sept. 2.—The military administration has determined, it is said, to deport all the Boers in the reconcentration camps, numbering upward of one hundred thousand, to garrisoned towns on the coast, where food is more readily available. The railways, thus relieved, will suffice to supply food for the population of Johannesburg, which is as large as before the war, and permit the reopening of all the mines.

Compensation Commission.

London, Sept. 3.—Major-Gen. Sir John Ardagh, the representative of the British Foreign Office before the Transvaal compensation commission, presented to the commission yesterday as part of the British case against the American and other claimants, the report of Capt. Carl Reichmann, who was United States military attache with the Boers. From this it appeared that the Irish-American ambulance originally consisted of 58 men. On their arrival at Pretoria 46 of them threw away their Red Cross badges, and took up mausers. Capt. Reichmann was quoted as saying that the works of the Netherlands Railroad and the dynamite factory at Johannesburg were turned into Boer arsenals. Consequently the claimants who had worked therein could not be entitled to damages for exportation.

Boers Blow Up a Train.

London, Sept. 3.—A despatch from Lord Kitchener, dated Pretoria, Sept. 1, says:

"A train was blown up yesterday between Waterval and Haman's Kraal by 250 Boers, who at once fired on the train, setting it on fire. Lieut.-Col. Vandaleur of the Irish Guards—a most promising officer—was killed. Nine persons were killed and 17 others wounded in the blowing up and derailing of the train."

AT THE SIGN OF THE HAND.

Negro Raised His, and Discharged Two Mines Under a Train.

London, Sept. 3.—The Pretoria correspondent of The Daily Telegraph, in a despatch describing the blowing up of a train between Waterval and Haman's Kraal Saturday by Boers, when Lieut.-Col. Vandeleur of the Irish Guards was killed, says:

"The train carried several passengers, among them two ladies with babies and a nurse. As it toiled through a cuttiing a negro was seen to raise his hand. Instantly a Boer discharged two mines, derailing the train, while a body of Boers poured in a heavy rifle fire."

"Lieut.-Col. Vandeleur shouted to the women to lie down under the seats and ordered his men to return the fire. As he was proceeding along the corridor a Boer burst into the carriage and fired, killing him, after, it is supposed, his refusal to surrender. Another Boer deliberately fired upon and wounded the nurse, and bullets were flying in all directions, altho the Boers were aware that women and children were there."

Not to Meet Kruger.

London, Sept. 3.—The Czar, having made engagements with the French President and with Edward VII., is importuned by Dr. Leyds for an interview with ex-President Kruger. It is not probable that he will grant this request, Mr. Kruger has been in Europe a year without meeting any European sovereign except Queen Wilhelmina, and she was powerless to support a demand for intervention against Great Britain.

Piet Delarey Captured.

London, Sept. 1.—Lord Kitchener, telegraphing from Pretoria yesterday, says:

"Garratt has captured Piet Delarey, brother of the Assistant Commanding General."

Trooper Busby Dead.

Ottawa, Sept. 3.—The Militia Department has received a cablegram stating that Trooper Charles Tupper Busby of Moncton, N.B., died of his wounds at Bloemendale, Aug. 29.

Belgium Steamer Foundered.

Constantinople, Sept. 2.—The Belgian steamer Normoure, whose loss while bound from Batoum for Bombay was reported yesterday, foundered in the Black Sea during the night of Aug. 25, in a severe storm. The solitary survivor of a crew of 40 was picked up four days later in an open boat and was landed at Rizeh, east of Trebizonde. Nothing is known as to how the others met their fate.

Tired of Life.

Halifax, Sept. 3.—Gunner Rooney of the Royal Artillery attempted to commit suicide in the barracks here yesterday afternoon. He inflicted a wound four inches long across his throat. He will recover.

MOB WAS DESPERATE

Demanded That Negro Non-Union Man Be Lynched.

BIG LABOR DAY DEMONSTRATION

Steel Officials Look Upon the Amalgamated Association's Failure to Cripple the Carnegie Plant at Duquesne the Death Blow of the Strike—McKay & Co's. Plant Being Dismantled.

Pittsburg, Sept. 2.—The big Labor Day demonstration monopolized the attention of workmen and strikers here and in the surrounding towns, but steel manufacturers went on making preparations for the opening of plants that are shut down by the strike and increasing the number of men at the mills already in partial operation. Public interest in the strike itself is lagging, as the contest seems to have settled down to an issue of endurance.

The officials of the Star plant claim that to-day the pickets about their mill held up a special delivery boy from the postoffice with a letter for the office, while he was coming down 12th-street, and inspected the letter before he was allowed to proceed. The matter will be reported to the postal authorities at once. It is also charged that the strikers stoned the company's carriage on Pennsylvania-avenue this morning, but did no special damage to the occupants. The aggressiveness of the strikers was further demonstrated late this afternoon, when a mob surrounded William Jones, a colored man, who was mistaken for a non-union man from the Star Works. He had a narrow escape from serious injury and possibly death, by the appearance of Police Lieutenant Crossman, who came to his rescue. Before Crossman could secure additional aid he was almost overwhelmed by the large crowd that had gathered. The prompt arrival of a large force of officers probably saved Jones from being lynched, as the mob appeared a desperate one, and many demands were made that he be strung up.

The failure of the Amalgamated people to cripple the Carnegie plant at Duquesne this morning is looked upon by the steel officials as the death blow of the strike in the Carnegie mills at least. Last night the strike managers at McKeesport announced that a march would be made this morning to Duquesne, and predicted confidently that the men would not go to work and the entire plant would be tied. This morning no parades appeared, the men went to work and the plant is in operation as usual.

The men who recently struck at the McKay & Co. chair works were treated to a surprise to-day, when the management put a force of men to work dismantling the plant. The company has erected a much larger plant at McKee's Rocks, and will abandon the Lawrenceville plant.

LEWISTON RAILWAY WRECK.

Several Toronto People Injured in a Train Collision.

Toronto, Sept. 3.—Several Toronto people were more or less severely injured in a railway collision at Lewiston last night shortly after 7 o'clock. The New York Central train from Buffalo was conveying an excursion party to Lewiston, when the smash came. The New York Central train, due at Lewiston at 7.30 p.m., to meet the Chicora, had to back down the steep grade running a mile from Lewiston. In doing this last night at a speed of six miles an hour the New York Central train ran off a switch and crashed into an engine standing on the wharf. Five coaches were attached to the New York Central engine, and several hundred persons were aboard. The crash produced a startling shock. The rear coach was badly shattered, and the passengers were thrown into confusion.

George Heath of 943 Queen street, this city, had his right leg broken above the ankle. He was in the car second to the rear coach. His back was also hurt.

A number of other Torontonians were severely shaken up, but escaped with a few bruises.

The collision caused a panic, but when it was found that no one had been killed, things quieted down.

LABOR DAY.

Celebration Throughout All Canada and the United States on Monday.

Toronto, Sept. 3.—Yesterday the Trades and Labor Council here had a big parade, with the Industrial Exhibition as an objective point. Here they ran off the program of sports and games. Throughout Canada there were monster parades, the holiday being strictly observed. There were large turnouts of union men at all the smaller cities and large towns in Canada.

Drowned at Hamilton.

Hamilton, Sept. 3.—Richard Wyndham, a 13-year-old son of William Wyndham, commercial traveler, was drowned while bathing at Burlington Beach, about six o'clock last evening. The accident happened in the lake, near the canal. Wyndham stepped into a hole and went down. A companion, Addie Murphy, went to his assistance and got him by the hair of his head and brought him to the surface. Wyndham seized him, and to save himself Murphy had to shake him off and swim to shore. The body was recovered shortly afterwards.

Matthew Sweetnam Dead.

Toronto, Sept. 3.—Matthew Sweetnam, ex-Chief Postoffice Inspector of the Dominion, died on Saturday morning at the family residence from the result of a stroke of paralysis. Mr. Sweetnam suffered a paralytic stroke on March 8 last, but recovered sufficiently to be about. Last Tuesday he suffered a second stroke. He was conscious, however, until a few hours before his death. When the end came he was surrounded by his family.

WHEN WE BUY

DRESS GOODS

WE DO THIS:

DONT FORGET THE WHITEWEAR AT A REDUCTION OF 33 1-3 PER CENT.

We make a note of the firms in Europe and America that are noted for goodness, beauty and ingenuity of weave in their fabrics. We see the sample lines of such firms, then we pick out those things suited to the taste of Peterborough women.

The result of our late efforts for Fall, 1901, await you in our Dress Goods Department. It's not too early to be introduced to them. Might we enjoy the pleasure of making you acquainted with these Dress Goods and their values?

TRUSTWORTHY DRY GOODS — Tubman & Son — UNIFORMLY RIGHT PRICES.

Man wants but little here below,
And isn't hard to please,
Providing that his wife you know,
Serves none but ROSS' TEAS.

TUESDAY, SEPT. 3, 1901.

EDITORIAL NOTES.

The Mail and Empire remarks that "Sir Wilfred Laurier's soft phrases in support of a Dominion Exhibition at Toronto would sound more musical if we (Toronto) were quite sure of getting the cold cash." Has Sir Wilfred refused to aid a Dominion Exhibition, which is quite a different thing from the Toronto Industrial? The directors in their report for 1898 claim the Industrial as a purely citizens institution. "The Industrial Exhibition is a citizens instituton." Therefore any outside financial aid that would weaken this claim would properly be resented. Before the Industrial can consistently claim Dominion aid it must cease to pose as a purely local institution.

Mr. William Ogilvie says that a bridge made in Montreal and intended to span a river in the Yukon Territory, cost $6,000 delivered in Vancouver, but the freight charges between there and Dawson City, were twice its value, viz., $12,000. The Yukon, the Globe thinks, can scarcely flourish until it is delivered from transportation monopolies. The action of the Conservative majority of the Senate in killing the Yukon Railway Bill places upon them a heavy responsibility. The land grants proposed for the construction of this railway may have been large in the matter of acreage, but the land in question, without the railway, was practically valueless, and will remain practically valueless, to a very great extent, without the railway, or some other facility for access and egress. Meantime there is an expenditure for excessive freight charges that paralyses development enterprise, and prevents the exploitation of resources, which exploited with good transportation facilities, would yield wealth far beyond the problematical value of the land for decades to come.

PICKING THE NOSE is a common symptom of worms. Mothers who suspect their child is troubled with worms should administer Dr. Low's Worm Syrup. It is pleasant, safe and effectual.

MOUNT PLEASANT.

(From our own Correspondent.)

Citizens are returning after enjoying the country air during their holidays.

Mr. T. W. McLean was in Peterborough on Saturday visiting his brother, Mr. A. P. McLean and P. G. Burgess, in Lindsay, who was on his way to recuperate at the lakes.

We hope our town and surrounding country will be free from disease and accidents during the absence of Dr. Keith.

There may a boom in property at Springville. The appearance of the place has changed very much for the better lately. Capitalists are wanted to invest in manufactories, mills and other places of business.

Rev. Dr. Campbell of Claremont, is erecting a very large brick building, to be used as a store and dwelling. We understand that the son is to occupy the building and will commence business about Sept. 1st. We hope he may succeed as well as the late A. Goodfellow during the time he was in business there.

Mr. Trew is postmaster, mail contractor and merchant, and seems to be doing a nice business in the grocery line.

The handsome residence, along with the outbuildings, occupied by Mr. James Baptie, add greatly to the appearance of Springville, as do also Mr. William Clark's residence and farm buildings. Great changes have taken place in Springville since John Lyttle, Jas. Chalmers, and the late Dr. Ormond were residents of it. Half a century has passed since the above named were doing business there. It has been purified by fire and out of the ashes may spring up a healthy, enterprising and vigorous town.

A very fine iron bridge is being built over the creek about a mile south of Springville, to cost about $1300. The counties of Peterborough and Durham will pay for building it, as it is built on the boundary line between Cavan and North Monaghan.

We hear that Mr. Wm. Petty who was seriously injured while engaged in oiling a threshing machine at Mrs McBean's, is rapidly recovering, and will soon be at work again. Dr. Keith, of Mount Pleasant, has been very attentive to his patient, and we hope William will have better luck in the future than he has had for a year past.

Master Roy Lough, son of Mr. Wm. Lough, postmaster at Ida, is nearly all right again, after falling from a horse which stumbled and fell, throwing him on the road.

We regret very much that Rev. Mr. McKnight of Peterborough, was not appointed to preach here on Sunday last during the absence of Rev. Mr. Kannawin, who is away on his holidays.

1,000,000 Workers Represented.

Swansea, Wales, Sept. 3. — The thirty-fourth annual Trades Union Congress assembled at Albert Hall here yesterday, under the presidency of C. W. Bowerman, M. P. About 400 delegates were present, representing a million working people.

Among the subjects which will be discussed are "Higher Grade Education," "Housing of the Working Classes," "A General Eight-Hour Day," "Compulsory Arbitration in Trades Disputes," "Parliamentary Franchise to Women," "Adult Suffrage" and "Old Age Pensions."

W. D. McLeod Chosen.

Alexandria, Ont., Sept. 3.—The Conservative convention of the County of Glengarry was held here on Saturday. William D. McLeod, farmer and cheese king, was nominated as standard bearer for the coming provincial election. The convention was addressed by William D. McLeod, A. Broder, M.P., of Dundas and others.

Liberals Nominated.

Halifax, N.S., Sept. 3.—The Liberals of Pictou, in convention this afternoon, nominated E. M. Macdonald, M.P.P.; George Patterson, barrister, of New Glasgow, and Robert Dewar, manufacturer, of Barney's River, as their candidates for the coming local elections. Messrs. Patterson and Dewar are new men in politics.

Four Men-of-War.

Father Point, Que., Sept. 2.—Four British men-of-war inward, 9.50 p. m.

MUNIR WAS RECKLESS

His Actions Caused Him to Leave France Suddenly.

GERMANY WILL ADVISE PORTE.

The Advise Will Be Good and to the Effect That the Sultan Should Settle With France as Soon as Possible —France Will Force Turkey to Fulfil Obligations to the Very Letter.

Paris, Sept. 2.—The result of Munir Bey, the Turkish Ambassador to France, coming to Paris, in spite of the rupture of France-Turkish relations, and holding a fete in the most open way at the Turkish Embassy yesterday, in honor of the anniversary of the Sultan's accession to the throne, was that the French government sent him a request to leave France immediately. Munir Bey departed for Switzerland in the evening, where he will remain till the controversy between the two countries shall have been settled.

Kaiser Will Advise the Sultan.

Constantinople, Sept. 2.—The report that the Sultan has appealed to Germany to use her good offices to settle the dispute with France is confirmed. Germany, it is understood, will advise the Porte to settle with France as soon as possible.

M. Bapst, Councillor of the French Embassy, and the other members of the Embassy staff took the guardship Vautaur on an excursion upon the Sea of Marmora in order to avoid dressing the vessel as the other warships in the harbor were dressed, in recognition of the anniversary of the Sultan's accession to the throne, which was celebrated yesterday. The members of the Embassy did not participate in the congratulations of the diplomatic corps, nor was the Embassy illuminated. Turkish officials received only 40 to 60 per cent. of their salaries on the anniversary of the Sultan's accession.

Will Force Turkey.

Paris, Sept. 2.—Advices received here from Turkey indicate a disquieting internal situation; disorders and military uprisings are reported in Armenia, Macedonia and the neighborhood of Mecca. The son of a high functionary was carried off by brigands near Adrianople. The brigands fought a bloody engagement with the troops sent out against them. A despatch from Salonica says that Nouri Bey, aide de camp of the Sultan, who was sent to investigate the brigandage in Albania, has been killed by Albanians.

It is also said that the Turkish troops at Prisrend, Albania and Uskub are rioting because they have not been paid.

M. Constans, the French Ambassador to Turkey, had another conference to-day with the French Foreign Minister, M. Delcasse. The government of France is determined to compel Turkey to fulfil her entire obligations. Unless the Sultan shall yield soon he will find the bill against him increased by a number of other outstanding claims of France, which will make an appreciable addition to the sum now demanded.

Sultan Will Not Yield.

Paris, Sept. 3.—The Matin announces that it has received from a source alleged to be authoritative in Constantinople, information to the effect that the Sultan, relying upon the assurance of a great power that France will not proceed to force and will refuse any concession in the Constans affair.

It is rumored to-night that a naval division will be ordered to Turkish waters to-morrow.

Munir Bey will only return to Paris against the wishes of the French government, unless the dispute is settled.

Bronchitic Sufferers

Act foolishly. If they improve ever so little when the fine weather comes, they relax effort and drift back into the old condition which if possible, becomes more chronic. Hit Bronchitis hard in the summer and you'll get rid of it and drive it right out of the system. In winter it is almost impossible to do this. Inhale Catarrhozone regularly, it's a dead sure thing on Bronchitis. It goes into the most minute air cells of the lungs, bathes all parts of the bronchial tubes with its healing, germ destroying vapor, and cures every time. Highly endorsed by all competent druggists and doctors. 25 cts. and $1.00.

KAISER YIELDS.

Emperor William Has Decided to Waive the Ceremony of Ketowing.

Basle, Switzerland, Sept. 2—At 11 o'clock to-night Prince Chun and his entourage left for Berlin by the Imperial special train. Before starting a member of the mission said that Emperor William had decided to waive the ceremony of ketowing, and that the only persons to be received by him in ceremonial audience would be Prince Chun and Ying Chang.

Soldiers Tarried

Tien Tsin, Saturday, Aug. 31.—The departure from here of the 3rd Bombay Cavalry has been countermanded at the request of Gen. Gresgh, as the other garrisons here are larger than the British.

PRIOR MURDERED BY MONKS.

Had Offended Them By Publishing Their Wrongdoings

St. Petersburg, Sept. 2.—The prior of the famous Russian Blagovestchensk Monastery, near Nijni Novgorod, has been murdered, and his murderers, it is thought, may be found among the monks.

The prior had a premonition of death, and the hour before his murder he spent before an icon praying that he might be spared a violent death.

The safe in which he kept the monastery funds was robbed.

The prior had made himself disliked by the monks by condemning their vicious lives and imposing heavy penances.

Revolutionary Movement.

Cologne, Sept. 2.—A despatch to The Cologne Gazette from Teheran, dated Aug. 31, says:

"A widespread revolutionary movement is going on in Persia, fostered by discontent with the government, on account of the new loan negotiations with Russia, in which the Grand Vizier is accused of selling the country and failing to make reforms. Martial law has been proclaimed in the capital and environs.

"The agitation, it is said, proceeds from the entourage of the Shah, who frequently finds threatening letters upon his writing table."

The Agony of Sleeplessness.

Did you ever pass a single night in wakeful misery, tossing and rolling in gin bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding nihgt growing worse and worse? This is the most dreadful symptom of Nervous Exhaustion and Debility. You can be gradually and thoroughly cured of Sleeplessness by the upbuilding influence of Dr. Chase's Nerve Food. It cures in nature's way, by creating new nerve cells and restoring lost virality.

The King of Ranges, "Buck's Happy Thought"

Significant Facts About Happy Thought Ranges

More *Happy Thoughts* are made every year than all others combined. . .

More *Happy Thoughts* are in use to-day than of any other stove or range the country ever saw. . . . . .

Not one user of a *Happy Thought* but is pleased with it beyond measure. .

Not a single buyer of a *Happy Thought* has ever regretted his choice. . . .

'Tis said "There is a best in everything." In view of above, are we claiming too much in stating that the *Happy Thought Range* is the best on earth? . . . . . .

CALLED AFTER MR. TARTE.

Launch of the New Hydraulic Dredge at the Polson Iron Works—Mr. Tarte on Canadian Shipbuilding.

Toronto, Sept. 3.—The hydraulic dredge, "J. Israel Tarte," built by the Polson Iron Works for the Dominion Government, was launched under most auspicious circumstances at the Polson shipyards yesterday afternoon. This dredge is the largest and most powerful in Canada. It will be tested in Toronto. The dredge went through the launching ceremonies in a most creditable manner, and slid down the ways into the slip quite gracefully. There was no hitch, and Mrs. Frank Polson christened it with a bottle of champagne.

Hon. J. Israel Tarte was present, and after the launching he made a brief and bright speech. With other guests, he was aboard Mr. Polson's steam yacht, the "Cruiser," after the launching. He paid a glowing compliment to the Polson Company and intimated plainly that Canada could evidently attend to all her own shipbuilding. This dredge is to work in the St. Lawrence River, and another now being constructed by the Polson Company will be used in British Columbia. Mr. Tarte told why the big dredge was made in Toronto, and criticised the Wolvin proposition, whereby the dredges might have been built in the States.

American capitalists were the interested parties, and Mr. Tarte thought their proposition meant really a loan being made at 5 per cent. to enable them to build an elevator. They really wanted complete control of the basin at Montreal, and also wanted the use of the jetties at Port Colborne and a site on which to erect an elevator which they proposed should be taken over by the Government after a number of years. Capt. Wolvin had a proposal, too, to build ten ships for the grain carrying trade, but they would not be built in Canada. The intention was to have them constructed in Cleveland, and the Government had been coolly requested to admit them to Canada free of duty. Mr. Tarte hoped to see the shipbuilding industry flourish in Canada, and from what he had seen he was satisfied that it would. "Canada first" was his theme throughout.

Mr. F. B. Polson and Capt. Miller followed with brief speeches, after which the party enjoyed a short cruise around the Bay.

The dimensions and capacity of the vessel may be briefly described to be: Steel hull, 100 ft. long, 42 ft. beam, 13 ft. 6 inches deep, capable of working to a depth of 50ft., and will discharge material any distance up to 2,000 feet by means of floating flexibly connected pipe.

THE ROYAL ITINERARY.

Dates of the Duke's Arrival at the Different Cities.

Ottawa, Sept. 3.—The itinerary for the royal visit to Canada has been completed, and yesterday was issued in printed form as follows:

Sept. 16—Arrive Quebec 9.30 a. m.

Complicated Ailments.

A Remarkable Case of Kidney and Liver Disorders and Extreme Nervousness Cured by the Combined Use of Dr. Chase's Kidney-Liver Pills and Nerve Food.

The strongest combination in medicines that one can well imagine is the use of Dr. Chase's Kidney-Liver Pills and Nerve Food. The kidney-liver pills regulate and invigorate the liver, kidneys and bowels, while the Nerve Food enriches the blood and thoroughly builds up the system.

Mr. Walter Booth, Consecon, Prince Edward County, Ont., states:—"I was troubled for some years with kidney and liver disease, and pains in my back, and my stomach was so bad I could not eat hearty food, and had difficulty in keeping any food on my stomach. I was so nervous that I could scarcely take a drink of water without spilling much of it, my hand trembled so, and I lost flesh until my weight fell from 155 to 138 pounds.

"Hearing of a similar case that was cured by Dr. Chase's Remedies, I commenced by taking Dr. Chase's Kidney-Pills, six boxes of which entirely cured my kidney and liver troubles. I then began Dr. Chase's Nerve Food for my nervousness. It strengthened my stomach and whole system, and I gained in flesh. I cannot speak in terms of too great praise for Dr. Chase's Kidney-Liver Pills and Nerve Food, for besides curing me, they did my father, who is an old man, a great deal of good. I have every confidence in recommending these remedies."

Mr. J. J. Ward, J .P., certifies that he knows Mr. Walter Booth, and that this statement of his cure is perfectly correct.

As a spring restorative Dr. Chase's Nerve Food is unrivalled. If the bowels are constipated and the kidneys and liver sluggish and inactive, Dr. Chase's Kidney-Liver Pills can be used to advantage, along with the Nerve Food. All dealers, or Edmanson, Bates & Co., Toronto.

Sensational Case.

London, Sept. 2.—Marie Josephine Eastwick of Philadelphia was arraigned in the Guild Hall Police Court to-day, charged with having forged a railway certificate of the value of £100,000.

The defendant, who is of slight build and apparently belonging to the middle classes, was somewhat shabbily dressed. She was accommodated with a chair and sat listlessly in the dock the whole time.

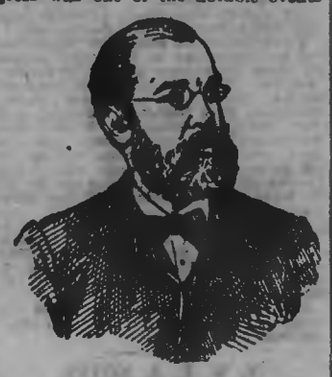
Dr Nesbitt Entertained Them.

Toronto, Sept. 3.—Last evening Dr. Beattie Nesbitt, Chairman of the Conservative Executive for the Province, entertained the Presidents of the county Conservative associations and prominent members of the party at dinner at Webb's.

PROF. ROBERT KOCH.

The Famous German Scientist Whose Investigations Have Been Watched With Deep Interest for Years.

Professor Robert Koch, the famous German scientist whose investigations of the dreaded malady of tuberculosis have been watched with deep interest for years, was the most prominent figure at the recent British tuberculosis congress. Professor Koch's address before the congress was one of the notable events



PROFESSOR ROBERT KOCH.

of that gathering of especially able men, but he did not all those present in entire agreement with his views. For instance, the professor's assertion that there is little if any danger to the human race from bovine tuberculosis was combated by Earl Spenser and other famous scientists. But it seems that Professor Koch's declaration that tuberculosis is not hereditary is the final word on this question. For some years the leading physicians of the world have been adopting his opinion. The professor said in his address that the cause of the spread of consumption was the sputum of those suffering from the malady, and he advocated isolation of all patients in free hospitals.

This Summer's Horse Style.

Friends of the horse are delighted with the new "horse bonnet." This is a straw hat for the animal, intended to protect his head from the burning rays of the sun. It is a foreign fashion and has been in vogue in Paris and other European cities for some time. This summer they

A NEW HORSE BONNET.

have spread to all parts of this country.

The new horse hat looks like a cross between the sunbonnet and the cocked straw hat for men that is so popular this summer. It is fastened directly over the top of the animal's head, and the ears pass through holes cut for that purpose. In many cases the holes are lined with flannel to prevent chafing. The hat ties around the horse's neck like an old fashioned bonnet. It is unquestionably of the greatest use. The animals wearing it, although looking rather queer to an eye unaccustomed to the hat, certainly seem grateful.

A Medicine 300 Years Old.

Our readers will probably be surprised to learn that for nearly 300 years cod liver oil has been used as a medicine. During the past twenty five years nearly all the cod liver oil brought to this country from Norway has been used in the form of Scott's Emulsion. It is by all means the most pleasant preparation of cod liver oil you can buy.

BURDOCK BLOOD BITTERS is the best known remedy for dyspepsia, constipation and biliousness, and will cure all blood diseases from a common pimple to the worst scrufulous sore.

Carrie in New York.

New York, Sept. 3.—Mrs. Carrie Nation came to town yesterday to lecture and be stared at, and the day furnished more excitement for her than any previous day she has had since she abandoned the saloon-smashing crusades that made her famous. She lectured the bartenders of half a dozen saloons, visited several dance halls, was placed under arrest and was released again before she reached the police station.

Politics in It.

Berlin, Aug. 3.—In spite of the efforts to preserve the non-political aspect of the coming meeting between Emperor William and the Czar, The Schlesische Zeitung's St. Petersburg correspondent declares that the Czar has been in autographic correspondence with the Emperor, special couriers visiting Berlin twice weekly, bearing letters which have not passed through the hands of any officials.

Found Drowned.

Midland, Ont., Sept. 3.—The body of a man was found floating in the bay here near Playfair's Mill yesterday morning. The body was too badly decomposed to be identified, but from papers found in clothing he is supposed to be Edward Delaney, a lumber inspector of Bradford. The authorities of Bradford have been communicated with, and friends are expected to identify remains.

Money for Bravery.

London, Sept. 3.—Andrew Carnegie has given £100 each to Shedden, Law, Jones and Dick, four miners who displayed conspicuous bravery in the rescue of their comrades at the time of the recent Dolnibristle (Perthshire) colliery disaster.

Seal Catch Small.

San Francisco, Sept. 3. — The steamer Homer has arrived from the Pribyloff Islands with 22,672 sealskins, a large number of foxskins, and a quantity of whalebone. The general catch of seals is reported as small.

Strong in Death.

"If you die first," said Mrs. Dear,
"You'll wait for me, I know."
"Oh, yes; I've always had to, dear
Most everywhere we go!"

Obituary.

Universal regret will be felt over the demise of James C. Campbell, of town. The late James Campbell was 25 years of age, and was formerly in the employ of Messrs. Richard Hall & Son. Interment took place at Keene to-day.

Down the River.

The River Road Union Sabbath School, Otonabee, will, D. V., hold its annual excursion per City of Peterborough, to Gore's Landing, on Thursday, the 5th inst. The steamer will leave Peterborough wharf at eight a.m., calling at the usual landings. Fare, 35c and 20c. All will be welcome.

—To supply the rising generation with text books, exercise books, practice books and slates, will take a little mint, but to supply them judiciously it is only necessary to come straight to the Peterborough Bookstore, and have all wants supplied at money saving prices.

Girls' Guild.

The Girls' Guild of St. John's church, will meet in the Guild Hall to-night to make arrangements for the aggressive work of the fall and winter. The holidays are past, the summer is ended, and the armour of active work is to be put on.

HORTICULTURAL SOCIETY.

The annual exhibition of the Horticultural Society will be held in the Market Hall on Thursday afternoon and evening, Sept. 5th. Band will be in attendance. Admission 15 cents. There will be a fine display of Flowers, Fruits, Roots, etc., and it is well worth a visit. 4d

Trade Growing at LeGros.

Business at Charley LeGros is "on the hum." His recent up-to-date improvements in both cigar store and barber shop have attracted attention, and new customers are coming in fast. Trade has improved so much that additional help has been engaged. Mr. Alfonse LeGros, a first-class Hairdresser and barber, now mans one of the new barber chairs. He has been employed in the Paris block, Rochester, for the past four years, where he was popular with the best customers there.

School Opening.

There is no divided opinion as to the ability of the Peterborough Bookstore to serve the scholars with school books and school supplies. The newest of everything, the best of everything, and the biggest value in everything. The boys and girls have caught on to our store with open-eyed surprise, and purchase with unvaried satisfaction. See the great display in our two show windows—the best dressed show windows that the scholars have ever seen. Our presents given away with every purchase knocks the spots off them all. A. H. Stratton & Co.

PRIME FRUIT.

We are now receiving choice Yellow Freestone Peaches and Fancy Plums and Gages from the best growers in the Niagara District. Also first-class Muskmelons very cheap by the crate or singly. S. A. OKE, 376 George street, Tel. 18.

Drawing Class
Saturday, 7th September, at 3 p.m.

—Every book on hand for school studies at the Peterborough Bookstore. No running from store to store in a weary hunt.

FROM REFRESHMENT TO WORK.

The summer is ended; the holiday *season is over*, and the summer pleasure seekers are back ready, it is hoped in all cases to resume the serious duties of life, the captains of the churches are back to their places and their congregations are again in their pews. The teacher is at his desk and the pupils unwillingly surrendering their sweet do-nothing of their holidays, are ruefully plunging their sunburnt noses into their books. The salesman is back at his counter, the merchant in his counting room, and the whole army of toilers, in whatever sphere, are addressing themselves to the work of their lives. The holiday people come back with renewed strength, better prepared for their work. But there are others to whom no holiday has come. Circumstances have kept them in harness, stern necessity has kept their noses to the grind stone, their feet have had no rest from the wearying tread-mill of toil, no summer airs, no cooling breezes by sylvan waters, have for one moment blown away the sweats of toil, or for a moment smoothed the furrows of anxiety from throbbing brows. Yet these have to keep up the struggle still, to join the ranks and keep pace with the rested ones and fight on the unresting battle of life, as best they may. If others more fortunate have in their happy holiday season forgotten these toilers, it is to be hoped that their own toil, lightened by the strength gathered from their holiday, will fall so much more easily that they will find it in their hearts and in their power to lighten the burden of toilers, less fortunate, by kindly word and thoughtful act; so that even by a reflex action the benefits of recreation may come in some small measure to those workers, who can look for no surcease of toil till they find it in that better world where the weary are at rest.

We are happily situated in Peterborough; the conditions of prosperity we enjoy furnish abundant and well rewarded employment for all who seek it. This is an encouragement to enter hopefully upon the season of work that succeeds the holidays. Business is brisk in every department of human activity; a busy season is upon us, and a prosperous one if we make the right uses of the golden opportunities that present themselves. Each has but to do his duty in his sphere to bring success, and that success will be all the more complete if in the discharge of our duties as workmen we are mindful of the nobler duty of helping our fellow toilers by practical sympathy, by a kindly word spoken in season and by friendly encouragement. Thus the law of kindness, the law of cooperation and mutual help, mutually exercised, will sweeten toil and to the material success that comes from faithful work, will be added the happiness that hallows success and follows the observance of the obligations imposed by the brotherhood of man.

THE LARGEST ON RECORD.

The T. A. S. Excursion was Well Attended.

The "City," the "Lily" and the "Star" Together With a Barge Took the Excursionists Down to Jubilee

The second annual excursion under the auspices of the T.A.S. of St. Peter's Cathedral took place yesterday to Jubilee Point, Rice Lake. It was a record breaker, not only in point of attendance, but in every particular, and the excursion of yesterday will long be remembered by the 800 or more members of the Society and their friends who took in the event.

The attendance was truly much larger than the most sanguine of the promotors ever hoped for, and goes to show the flourishing state of the cause of temperance in connection with St. Peter's, and the enthusiasm that exists amongst the members of the Society. The success which crowned the efforts of the Society in their excursion of last year caused the committee to provide additional means of conveying the party to Jubilee Point, consequently the "City" and Palace Barge and the Steamer Water Lily were engaged for this year's trip. But even these proved insufficent, and the overflow were obliged to take advantage of the Steamer North Star's daily trip, and went down to the Point in this manner. Special arrangements were made by the committee with the excursionists in this line. The City left the wharf at eight o'clock, the Water Lily at 8.30 and the Star at her usual time. The trip down was most enjoyable, the day was superb, and the sociability of the excursionists was most noticeable. The Cawthorn Orchestra was in attendance, and furnished excellent music for dancing on board the scow, whilst music of an impromtu nature was furnished on board the steamers. Jubilee Point was reched in due time, and soon the park was swarmed with a jolly crowd. Dinner was immediately partaken of, after which those present set about enjoying themselves in various ways. A baseball match between the married and single men proved an amusing if not an exciting contest, and resulted in favour of the bachelors by a score of 14 to 13.

The following list of events was then run off—

Hundred yards' race—F. McGrath, J. Jones.

Standing jump—E. Hickey, T. Cronin.

Running jump—P. Molloy, E. Hickey.

Married men's race—T. Cronin, E. Hickey.

Putting the shot—T. Conway, John Holland.

Boys' race—(15 years and under) J. Callahan, — Hayes.

Boys' race—(10 years and under) John Murray, O. Giroux.

Girls' race—(15 years and under) Miss Denys, Miss McMahon.

Girls' Race—(10 years and under) Miss Bertha O'Heron.

Men's hundred 100 yards race—(open) F. McGrath, J. Jones.

All the events excepting the last one were open to members of the T.A.S. only. The return trip was commenced at about 4.45 o'clock, and the wharf was reached at about 8.45. Nor was the trip home the least enjoyable feature of the day's outing, as the evening was delightful, and the excursionists were in a joyful mood.

Rev. Dr. O'Brien, whose efforts in behalf of the T.A.S. are at all times most enthusiastic, was in attendance, and by his happy disposition made it congenial for those with whom he came in contact. Messrs. Harry Neil and James Drain, who represented the Navigation Company, were untiring in their efforts to provide for the comfort of all on board. The crew of the City came in for a great deal of favourable comment, whilst the attentiveness of all hands was highly appreciated. The City gave every satisfaction, made splendid time, and won golden opinions for herself.

To the energetic committee which had the arrangements in hand, the thanks of those who were present yesterday are due. The chief officers of the committee were Messrs. Joseph Maher, chairman, Fred Derocher, secretary, and T. B. McGrath, treasurer. These three gentlemen in particular have, given a great deal of time towards making the excursion what it really was. The thanks of the committee are due to Mr. P. Kane, who superintended the dancing.

The boat committee are also deserving of notice. It consisted of Messrs. J. Primeau, J. Sharpe, T. Lane, John Murray, J. P. Shelvin, M. McGreel, T. Theabold, H. Archambault and W. H. Graham.

Every one on board expressed the hope that before long they would enjoy another such outing.

Y. W. C. A. NOTES.

A meeting of the Board of Managers of the Young Womens' Christian Association will be held at their rooms, Brock street, on Wednesday afternoon, the 4th inst. A full attendance is requested.

The Y.W.C.A. is planning for active work. Every member of the Sunshine Society is invited to meet Miss Carson, the Dominion Field Worker, at the Y.W.C.A. rooms, Brock street, on Wednesday evening at 8 o'clock, to discuss future methods of work.

ALL SAINTS' CHOIR.

Provided a Programme for an Entertainment in Emily Last Night.

The choir of All Saints' drove out to St. James' church, Emily, last evening, and assisted by Mr. Joseph Halpany, provided a programme of exceptional merit. The occasion marked the first anniversary of the erection of the new church, and both the Sunday services and the Monday evening concert were largely attended.

PETERBOROUGH'S MODERN STORE.

SEPTEMBER!

You know what September means. It means cooler weather, and if it isn't here now, you can depend on it that it isn't very far away. It also means new Dresses and Hats, New Underclothing—in fact it means a general replenishing for the ladies. Lots of people are realizing that it's better to make preparations early. You get the assortments, and you get at first choice, which means considerable. Stocks are almost complete in every department, and values are better than ever.

SUBSTANTIAL GOODS.

The sort of materials are here for out-door wear in the autumn. Heavy enough for comfort and for health, and pretty enough to be a pleasure to ladies who are anxious to have the newest and the best and who know what is right. It's better to buy among the first and get the choice.

RIBBONS and TRIMNING.

In the line of Ribbons and Trimmings, there is no end to the variety, and you can have them just as elegant as you want them. We also have the grades that look well and are not very expensive — that appear better than the prices indicate.

ABOUT DRESSMAKING

Our Dressmakers are at it again for Fall. **Busy already**; but our staff is large, and we can turn out an enormous quantity of work in short order. Have you made any arrangements about your Fall Suit? If not, you had better call and see our Dressmakers.

WHITE COTTONS and EMBROIDERIES

We make a specialty of Fine White Cottons for undergarments, such as English Long Cloths, Lonsdale Cambrics, Nainsook Muslins, and the finer qualities of White Cotton, both imported and domestic. Also we ask you to notice and compare the quality of our Embroideries with ordinary assortments. It won't take you long to be convinced of our superiority in that line. But if you prefer to buy the ready-made things in Undergarments, we can show you a fine assortment, and prices are wonderfully low.

OBITUARY.

The Late Henry Sherin—An Old Resident Passes Away.

On Sunday morning, Henry Sherin, a well-known citizen of the county, passed away at his residence in Smith Township, close to the town limits. The deceased gentleman has been in ill-health for the past ten years, and advanced years and disease combining brought his days to a close at the ripe age of 81 years.

Mr. Sherin was born in the County of Cavan, November 20th, 1820, and came to Canada with his parents at the age of two years. This would make him a resident of Canada for nearly eighty years. The family first settled in the township of Emily. Mr. Sherin passed the whole of his life in that township, but twenty-one years ago he retired from farming, which was his occupation, and removed to Peterborough, where he lived till his death. Mr. Sherin was the eldest of his father's family. He took no prominent part in public life, being content to live up to the duties of his private station, which he did in a manner to win and retain universal esteem and respect for a period of nearly as many years of adult life as are vouchsafed to the average mortal. Eleven years ago his wife passed away. All of the children their union was blessed with, survive. These were twelve in number, eight sons and four daughters. All of the latter surrounded the bedside at the last illness, and also several of the sons—Henry, of New York; Frederick, of Niagara Falls; and John, of Emily. The names of the children of deceased are, Mrs. J. McDonald, Galt; Mrs. Dawson Kennedy, Otonabee; Mr Samuel Sherin, Chicago; Messrs. Henry, Clarence and George, of New York; Mr. John Sherin, who resides on the homestead, Emily; Mr. Abraham Sherin, South Dakota; Mr. Isaac Sherin, of Winnebago, Minn., U.S.; Mrs. J. H. Davis, who resided at home with her late father. Mr. Sherin left behind him a brother, Mr. Samuel Sherin, of Lakefield, and a sister, Miss Rebecca Sherin, of Omemee.

The late Mr. Sherin was one of our fast disappearing pioneer residents, and saw many changes and improvements. He knew the present town of Peterborough, when it was practically a part of the unbroken wilderness, almost entirely uninhabited. He was of the class of sturdy settlers "whose works," like those of the just, "do follow them," and for the comforts and advantages of our advanced civilization, we who now enjoy them, are very largely indebted.

—The children are delighted with the new Exercise Books and Scribblers at the Peterborough Bookstore. Everything to satisfy and please the scholars without waiting, or disappointment.

THE ANNUAL RIFLE MATCHES

The Members of the 57th at the Ranges.

The Sharpshooters Tried Their Luck Yesterday—The Official Scores.

The annual rifle matches in connection with the 57th Regt., Peterborough Rangers, took place yesterday at Curtis' Ranges, and were entered into with more enthusiasm than any previous matches for some time. Busses left town at 7.30 a.m., conveying the members of the Regiment to the ranges, and while there refreshments were served.

The shooting was very keenly contested and was taken part in by a number of those who have figured very prominently in past years at the ranges. A number of "dark horses" loomed up as a result of the recent rifle shooting craze. Private Fitzgerald and Private Pentland won out in the General Match, each having made a score of 76. Joe Gibson came a good second, scoring 75. In the Tyro Match, Private A. E. Jackson carried off the honours of the day, and as a result he is receiving the congratulations of his friends.

The following are the scores:

General Match.

Pte Pentland, E Co	76
Pte G Fitzgerald, C Co	76
Corp J Gibson	75
Bandsman Byshea	73
Pte W H G Armstrong	71

SUNDAY NIGHT'S BLAZE.

Messrs. J. J. Turner and Sons' Establishment Somewhat Damaged.

Shortly after seven o'clock on Sunday night fire was discovered in the tent and awning establishment of Messrs. J. J. Turner & Sons, George street. The alarm was quickly given and the brigade arrived in short order.

The fire originated in the workshop to the rear, on the second floor, and was making considerable headway when the firemen commenced operations. Owing to the inflammable nature of the contents some little trouble was at first experienced in getting the fire under control. However, the blaze was extinguished before damage of a very great extent was done. In the apartment in which the blaze was confined, was stored a quantity of flags, bunting, etc., which were more or less damaged.

The cause of the fire is a mystery as there had been none of the firm or their employees, in the upstairs of the establishment since Saturday night.

—Scholars, who want to get the biggest and most of everything in the way of school books and school supplies, don't have to be told that the Peterborough Bookstore leads in every line.

THE LABOUR DAY DEMONSTRATION.

First Annual Picnic of the Federation of Labour

TOOK PLACE AT CHEMONG.

A Most Enjoyable Day—The Addresses Which Were Made—List of the Sports—Baseball Match.

The first annual demonstration under the auspices of the local branch of the Federation of Labour, yesterday, at Chemong Park, proved a grand success owing to the untiring efforts of a hard-working committee, aided by the weather clerk, who provided a glorious day for the occasion.

It is many years since the Park has been called upon to accommodate so many visitors, as besides the crowds who drove out from town, there were hundreds in attendance from the surrounding country, and the Federation has every reason to congratulate itself on the orderly and systematic manner in which the various attractions were carried out. The sports, particularly, were well looked after, being in the hands of a most capable committee, composed of Messrs. John Gibson, Wm. Henry, Fred McCorry, M .C. Tooley, William McGregor and William Taylor. Messrs. John Cronin and John Cousins officiated as clerks of the course. The sports resulted as follows:

Men's race, 100 yards, best 2 out of 3 heats, 1st prize 1 ton coal, $6.50, by McClellan Coal Co, Geo Taylor; 2nd, 1-2 cord, hardwood, J E A Fitzgerald, A Ford.

Boys' race under 14 years, 1st prize lacrosse stick, by W Sailsbury, $1.50, K Overend; 2nd prize, jack knife, Kingan Hardware Co, $1, C Sullivan.

Girls' race, under 12 years, 1st prize, vase, China Hall, $1, Mary Menzies; 2nd prize, bottle perfume, Ormond & Walsh, 25c, Mabel Sheridan.

Ladies' race, 1st prize, umbrella, by J C Turnbull, $1.50, Miss Edith Montgomery; 2nd prize, hair brush and comb, J Lynch, $1, Miss A Ferguson.

Oldest married couple on the grounds, sack of flour by Mr McAllister, Mr and Mrs Wm Taylor.

Fat men's race, 1st prize pair of men's boots by R C Braund, $1.25, John Murphy; 2nd prize, roast of beef, W G Howden, $1, Archie Moore.

Labouring men's race, any age, union men, 1st prize, $3, James McDonald; 2nd prize, $2 presented by Hon J R Stratton, M P P, John Murphy.

Tug of War, labourers vs moulders, 1st prize, box of cigars, $3, by A Elliott, none but union men allowed. Duncan's brigade.

Hop, step and jump, 1st prize pair of boots, Gough Bros, A Ford, 40 feet 11 in

Old men's race, 1st prize pair of boots, R Neill, $2, J Montgomery; 2nd prize, 10 lbs beef, H P Kennedy, $1, Geo Mitchell.

Boys race, under 8 years, 1st prize, suit of clothes by Sutcliffe & Sons, $1, Jos Eano; 2nd, Boys' shirt, Grafton & Co, 90c, F Hall; 3rd, basket grapes, C Guy, 50c, F Halpany.

Girls' race, under 8 years, 1st prize, sailors' silk tie, by R Fair & Co, $1, E Taylor; 2nd prize, bottle perfume, J. D Tully, 75c, E Camp; 3rd, 1 lb tea, F J R Mitchell, 50c, Vera Peters.

Men's standing broad jump, 180 lbs or over, 1st prize, hat, $1.50, by Mr Barrie; J Murphy; 2nd, umbrella, by A J Dickson, $2, M Tooley; 3rd, watch chain by F Schneider, $1, J B Lang.

High jump, 1st prize, Daily Examiner for 1 year, $4, W Crowley; 2nd, pocket knife by Micks Co, and whip by Benj Shortly, $1, W Grady; 3rd, smoker set, P Connall, $1, J O'Brien.

Married women's race, 1st prize goods by R Hall & Son, $3, Mrs W Taylor; 2nd prize, Mr Stenson, pair boots, $1, Mrs Harry Taylor; 3rd prize, Ten Cent Store, 1 lb tea, 50c, Mrs J Cranfield.

Girls' race, under 21, 1st prize, Girls' Annual, A H Stratton & Co, $1.75 Mrs Harry Taylor; 2nd, 2 lbs tea, by Ed Brown, $1, Cecelia Dalgnault; 3rd, half dozen spoons by F S Schneider, 50c, M Revoir.

Putting the shot, 1st prize, 1 shirt by H E Bradley, $1.25, W Grady; 2nd, S A Oke, fruit, $1, W Crowley; 3rd, Talbot Brow, 1 pipe, 50c, W Taylor.

Vaulting, 1st prize, carver by Peterborough Hardware Co, $1.50, W Grady; 2nd prize, roast beef, Alex Gordon, Arcade, 75c, W Crowley.

Gents' step dancing, 1st prize cash $2.50, Sam Houlihan; 2nd, prize, $1.50, 3rd, $1, by W H Meldrum, John Cronin and Bert McMillan.

Bicycle race, not less than ten to start, 1st prize, cash, $2.50, H Richea; 2nd prize, cash, $1.50, G Hall; 3rd prize, cash, $1, by Mr. Kendry, M P, W Peace.

Finest baby on the grounds, a boy and girl, prize $2 each, given on the grounds, by Messrs Snowden, White and Overend — Mrs Nelson Pogue's baby boy and Mrs Harry Taylor's baby girl. Judged by Mr and Mrs William Taylor.

The baseball match between the Matthews Co. employees and the Auburns, resulted in a tie, each side scoring 8 runs. The teams were composed as follows

Matthews Co. — Parnell, p.; Davidson, c.; Dusty, 1b.; Hyslop, 2b.; Tinkler, 3b.; Armstrong, ss.; Cassell, rf.; Butcher, cf.; David, lf.

Auburns — McCorry, p.; Craig, c.; Johnston, 1b.; Meagher, 2b.; Waram, 3b.; Duncan, ss.; Knott, rf.; Shaw, cf.; Melrose, lf.

THE SPEECHMAKING.

Shortly before three o'clock, Mr. William Henry mounted a bench and announced that the speechmaking would begin, and after reading a letter from Mr. Jas. Kendry, M.P., expressing regret at being unable to be present, he called upon Mr. Louis M. Heyd, of Toronto, to address those assembled.

Mr. Heyd stated that he was indebted to an invitation from Hon. Mr. Stratton for affording him an opportunity of visiting Peterborough, and he was glad that the opportunity was the occasion of the first annual demonstration of the Federation of Labour. While he was not a horny-handed son of toil himself, yet his business enabled him to come in close contact with labour, and he had become identified with the cause. When a Brantford industry had treated its employees in an arbitrary and unjust manner a few years ago, the speaker had been called in to espouse the cause of the moulders, and in consequence of fighting their battles for them, he had obtained a clear insight into the principles of labour, and had made a study of the great struggle between capital and labour which is going on in this and every other land. He had to say that times had greatly improved for the labouring man of late. He could recall the heathenish laws of a few years ago when a man was prohibit-

SPORTING PASTIMES.

RUGBY.

Every person is talking rugby and the annual meeting of the Peterborough Rugby Club which will be held in the Oriental Hotel on Wednesday evening promises to be one of the most largely attended and the most enthusiastic that has ever been held. Ex-captain McWilliams has been rusticating at the lakes and Captain Burnham has been spending a few days at Cobourg, but every person will arrive back in town to attend the annual meeting. There will not very likely be any close contests in the election of officers but it is important that those present should use due consideration before nominating their candidates.

The boys are also anxious to get into the game and this season will see a surprisingly large number of new men chasing the pig skin — not new men alone, but men who have not been in the game for some years. "Mac." McClellan, who figured so prominently in days gone by on the rugby field, and who, when the locals two years ago won the championship of Canada, was carried off the field, by his enthusiastic admiring friends, has decided to step into the arena once more. Jim Hamilton too, whose athletic abilities are well known to those who took an interest in hockey some years ago, will make his debut this season, while Paddon and Burton of the Bank of Montreal, who know a little something of the game, may surprise a few. Morden who kicked the association ball in the well known Prince Edward County League, and who is as strong as a young steer, anticipates a successful season. Jackson also of the Bank of Commerce has decided to let his hair grow along with the rest of the bunch for the same noble purpose.

Of course there is going to be a severe draw back as of old regarding grounds. The oval will be used for matches and it is an ideal place in a sense, but there is no means of charging an admission fee. A club can't be run on wind and this is just what puzzles the management. However, if the Peterborough public stands by the club financially this year in the same manner as they did last year there will be no kick coming, other than that aimed at the ball, as the expenses are not expected to be as large this season.

The Cause of Dyspeptic Pains.

They arise from the formation of gas, owing to improper digestion. A very prompt and efficient remedy is Polson's Nerviline. It relieves the distention instantly, and by its stimulating action on the stomach, aids digestion. Nerviline cures dyspeptic pains by removing the cause. Nerviline is also highly recommended for cramps, colic, summer complaints, and inflammation. Sold in large 25c. bottles everywhere.

—Greatest and best assortment of slates, erasers, inks, pens, rulers, crayons, pencil boxes, etc., at the Peterborough Bookstore.

TO CONTRACTORS.

Tenders will be received up to Saturday, September 14th, 1901, addressed Canadian Cordage & Mfg. Co., Limited, Peterborough, marked "Tender" for the erection of

Manufacturing Building, Store Houses, a Boiler Room and Office Building,

for the Company, between Perry and Lake streets, and Bethune and Aylmer streets in the Town of Peterborough.

Contractors may tender upon the office and boiler room or manufacturing buildings and store houses, or upon the masonry work of the manufacturing building and store houses.

Plans and specifications may be seen at the office of W. Blackwell, Architect, Water street.

The lowest or any tender not necessarily accepted.

ADAM HALL,
President Canadian Cordage & Mfg. Co.

ASSIGNEE'S NOTICE TO CREDITORS

Notice is hereby given that James E. Cullen, of the Town of Peterborough, in the County of Peterborough, Implement Agent and Farmer, has made a general assignment of his estate to me for the benefit of his Creditors by Deed dated August 9th, 1901, under the provisions of R.S.O., 1227, chapter 147, and his creditors are notified to meet at the office of Messrs. Stratton & Hall, Barristers, Peterborough, Ontario, on Wednesday, the 21st day of August, 1901, at the hour of 2 p.m., for the purpose of receiving a statement of his affairs, appointing inspectors and fixing their remuneration, and for the ordering of the affairs of the estate generally.

All persons claiming to rank upon the estate of the said James E. Cullen must fyle their names and claims duly verified with me on or before the 14th day of September, 1901, at which date I shall proceed to distribute the assets thereof, having regard to those claims only of which I shall have then received notice, and I will not be responsible for the assets or any part thereof so distributed to any person or persons of whose claims I shall not then have had notice. R. H. HALL, Trustee.

You Can't Afford to be Without a

Coal Oil Stove

this summer. No weary waiting for meals in the home that is blessed with a Gas Stove. The striking of a match, the burning of a wick, and the fire is already well under way—and without heating up a kitchen on a hot day.

Labour, trouble, expense, and discomfort saved. Various styles and sizes to choose from at

ADAM HALL'S
407 GEORGE STREET.

Solid Comfort Shoes.

Goodyear Welt shoes, with Sleeper Insole.

There are two kinds of shoes, Goodyear Welt, and all other varieties.

In a Goodyear Welt there are two kinds of Insoles; one is Leather, and the other is a Sleeper Patent Flexible Insole.

There is only one shoe that represents a perpetual comfort, whereby a shoe takes the place of a slipper in the house, or a boot on the street—this is the Goodyear Welt that is made with the Sleeper Insole.

The Sleeper Patent Flexible Insole, which is made from 15-ounce Duck, is soft and pliable, perfectly waterproof, and shapes itself to the foot in such a manner as to afford the greatest possible comfort.

The Sleeper Insole will not harden with perspiration, as leather insoles do, and is always ready for immediate wear.

AMONG THE CREES.

What the Rev. S. D. Gaudin Does in the Far North and West—Where White Men Are Scarce.

Rev. S. D. Gaudin, Methodist Missionary at Nelson House, and Mrs. Gaudin, and their two children, left for the far north, via West Selkirk, the other day, says The Winnipeg Morning Telegram. He left his flock last August to do missionary work among the white folk in the east for the sake of his red men, and arrived back in Winnipeg last week. Since then he has attended the Methodist conference of 1901, which has just completed its labors at Wesley College.

Rev. Mr. Gaudin is not an Englishman or a French-Canadian, but a Jersey-Canadian, and comes of a good old Channel Island family. He speaks Cree fluently, but has been using the English language in the east with marked effect on behalf of his northern mission. Mrs. Gaudin has a charming personality, and her position as wife of a missionary is no sinecure. She is a trained nurse, and is the only person within a radius of hundreds of miles with any knowledge of medicine. They tell very interesting stories of their experiences and work among the non-treaty tribes.

Speaking to a reporter Mr. Gaudin said: "We left Nelson House, 700 miles from Winnipeg on the ordinary route of travel, in August last, ten months ago, taking with us eight Indian children to the Red Deer Industrial School near Edmonton. This school, bye-the-bye, is supported by the Federal Government. Late in the same month we arrived in Winnipeg, and in September went through to the east, and did a great deal of work, lecturing and collecting in Ontario, Quebec and the Maritime Provinces.

"We are trying to start a boarding school for Indian pupils at Nelson House. The total population in my district, which is widely scattered, is about 400 souls; but we do not expect to be able to get or manage more than 10 or 15 pupils to start with.

"The only white inhabitants at Nelson House besides ourselves, are Mr. and Mrs. A. Stout and Miss Kitchen, the postmaster and his wife and the schoolmistress respectively. The last mentioned lady has been living at the post alone since the time we left, though she has had five little children with her in the house. They are staying there so that they can attend school.

"All our people are hunters and fishermen, and have to earn their own living entirely. Being non-treaty Indians they receive no assistance from the Government like many of the neighboring tribes.

"To let you appreciate some of the difficulties with which we have to contend, I may tell you that the nearest doctor is at West Selkirk, nearly 700 miles away. What we want is that a doctor should be stationed at Norway House, and it would be better if he were a missionary too. Of course, it is beyond our wildest hopes to ever hope to have a doctor at Nelson House, but one at Norway House, 200 miles from our Hudson Bay Company post, would be comparatively near. In cases of epidemics and chronic diseases, however, he would even then be useless at that distance, as he would be in the event of accidents or other sudden cases. I remember when my wife was taken ill about two years ago last spring, two Indians and a dog train ran the distance and back in eight days in order to get medicine and such delicacies as fresh beef for her. This is the quickest trip on the northern record.

"We have had no epidemics for eight years, the last scourge being measles, which carried off about ten per cent. of the population. My wife is a trained nurse, and can attend to most cases of sickness at the post, but we ought to have a doctor at Norway House as well.

"We get four mails a year by the Hudson's Bay Company's packet, carried by dog train in the winter, and by canoe in the summer. Should we sleep in and miss the mail at any time, it is somewhat annoying to have to wait another three months for the next packet. A new postoffice was established at Behren's River, in Mahnomonee, an unorganized district in Northern Manitoba, last winter, 400 miles from my post. The next postoffice to that is West Selkirk, which used to be the nearest.

"I have been engaged in the Methodist Indian missions for the last 11 years. I have been preaching in Cree for eight years. I really preferred using Cree up to the time of my coming in. For six years I did not preach one word in English, as none of the Indians speak English, even at the post, itself.

"In referring to our mail 'facilities,' I may mention that our freight costs us $5.10 per 100 pounds, and there is no way of lightening this terrible expense, though the Hudson's Bay Company has extended us privileges, which we highly appreciate in this connection."

"Is it the clang of wild geese?
Is it the Indian's yell
That lends to the voice of the north wind
The tones of a far-off bell."

"For instance," continued the missionary, after some one present had quoted the above stanza, "we have a very large church bell at Nelson House. It weighs 500 pounds with its wheel, and is the finest bell in the west, outside of St. Boniface and Winnipeg. This bell was purchased entirely by Indians, and was transported to the north with infinite labor and expense which was entirely borne by the great fur company."

Patrick Boyle's Tolerance.

Mr. Boyle had at one time in his employ as foreman as Orangeman of the deepest dye, and his paper at that time was the Hibernian organ, in fact that society controlled it. Being chaffed on the subject of his Orange employe, he replied that the poor fellow could not be in a better place, since the only truth he ever learned was from the columns of the Irish Canadian, which he would never see if he were not employed on its staff.

This story is but illustrative of his toleration, says The Toronto News, and yet his very name was in the minds of the thousands who did not know him well synonymous of rampant bigotry and gross discourtesy toward those who were not with him in his religious and political views. The fact that, after a career of nearly fifty years in active newspaper work of an intensely partizan character, he left not a single personal enemy, is sufficient proof of his broadness.

BAGGAGEMAN'S BACKACHE.

A Berlin Baggageman Recommend Dr. Pitcher's Backache Kidney Tablets.

Hauling heavy trucks and lifting heavy trunks strains the back and injures the delicate fibres of the kidneys.

No wonder so many baggagemen complain of backache and kidney troubles.

For baggagemen's backache, as well as for all kinds of backache, kidney, bladder and urinary troubles, there is no remedy equal to Dr. Pitcher's Backache Kidney Tablets.

Read what Mr. Geo. Bremner, baggageman, G.T.R. station, Berlin, Ont., has to say about them:—"For three or four years I have suffered from a severe backache due to Kidney trouble. I have tried all kinds of kidney remedies, but am forced to say until I procured a bottle of Dr. Pitcher's Backache Kidney Tablets off A. J. Ross, druggist, I never had much relief. The Tablets, however, soon took hold and the result is comfort again. I am only too pleased to recommend them as easy, safe and sure."

Dr. Pitcher's Backache Kidney Tablets are 50 cents a box at all druggists. The Dr. Zina Pitcher Co., Toronto, Ont.

A Pike and a Perch.

Last year I had an experience that some may doubt, but it is common enough, writes F. H. in Toronto Star. While fishing from a boat in the Georgian Bay with worm bait I felt a small fish at my line, and began to reel in, remarking to my companion that it was a little fellow. As he came nearer the weight increased, and I clearly saw a pike, a six or seven pounder, on my line. Letting out the line we had quite a fight, myself and companion seeing him twice on the surface. He took the line down, and bringing him back again, the line came freely, and I brought in, not the pike, but a seven-inch perch. His sides were cut in several places. He had taken my bait, and the pike had taken him after I had began to reel in. Finding that he could not, for some reason, get away with the perch, the pike finally gave it up. The wounded perch was restored to the water, and after pondering a second or two on the surface darted down, apparently all right, and, if fish can talk, with an interesting story to tell his friends. This is true in every detail, and many other fishermen have had similar experiences.

Vinegar as an Absorbent.

A little vinegar kept boiling on the stove while cooking cabbage, onions or cauliflower will prevent much of the odor from these vegetables escaping through the house.

What is Life to You?

If you are a victim of piles, as one person in every four is, you suffer keenly from one of the most torturing ailments known to man, and may well wonder if life is really worth living. Certain relief and ultimate cure is awaiting you by means of Dr. Chase's Ointment. It has never failed to cure piles. Painlessly and naturally it allays the inflammation, heals the ulcers and thoroughly cures this wretched disease.

MARKET REPORTS.

Wheat Futures Declined in Liverpool and Continue Sagging in Tendency—The Latest Quotations.

Monday Evening, Sept. 2.

In Liverpool to-day wheat futures declined 1½d since Saturday. Corn futures were steady at an advance of ¼d to ⅜d.

In Paris cash wheat closed 20 centimes higher than on Saturday.

All the grain and produce exchanges on this continent were closed to-day.

Hogs—Receipts, 6243; market higher; common, western hogs, $6.70; State hogs, $7.10 to $7.20; choice light, $7.25.

CHICAGO LIVE STOCK.

Chicago, Sept. 2.—Cattle—Receipts, 25,000; good to prime steers, $5.50 to $6.30; poor to medium, $4.25 to $5.30; stockers and feeders, $3.25 to $4.25; cows, $2.75 to $4.60; heifers, $2.25 to $5; canners, $1.75 to $2.65; bulls, $2.25 to $4.40; calves, $2.50 to $5.50; Texas steers, $4 to $4.70; do., grass, $3.50 to $4; western steers, $3.75 to $5.20.

Hogs—Receipts, 32,000; mixed and butchers', $6.95 to $6.75; good to choice heavy, $6.40 to $6.65; rough heavy, $6.05 to $6.30; light, $5.95 to $6.60; bulk of sales, $6.15 to $6.40.

Sheep—Receipts, 26,000; good to choice wethers, $3.75 to $4; fair to choice mixed, $3.30 to $3.70; western sheep, $3.25 to $4; native lambs, $3 to $5; western lambs, $4.50 to $4.90.

CANADIANS FINISH THIRD.

Twelve Teams Shot at Sea Girt for the Hilton Trophy.

New York, Sept. 2.—The team of the District of Columbia, made up of 12 men, won the Hilton Trophy match at the Sea Girt ranges to-day from 11 teams of 12 men each, who shot for this prize, and the contest was so keen that the result was in doubt until the last bullet flashed thru the target. In winning the District of Columbia team broke the record which it established in 1885, making a score of 1098. The best individual shooting done in this match was that of Sergt. Corry of the 12th Regiment, New York, who made a possible at the 600-yard range and was only six points from a possible at all the ranges, the distances being 200, 500 and 600 yards. The New York team had a lead of 17 points when they left the first stage, but the marksmen from the District of Columbia overcame this in the last two distances. A "bull" was made by Wells of New York on the wrong target, and, according to the rules, this was marked a miss. If it had not been for this error the New Yorkers would have had the same score as the winning team. The Canadians, who arrived yesterday, were in eighth place when they left the 200-yard range, but their shooting at 500 and 600 yards placed them in third position at the finish. The New Yorkers' score was 1093; the Canadians' 1077.

Solves Problem of Dust.

Frankfort-on-the-Main, Sept. 2.—A Munich chemist has patented a process for laying the dust in the streets. It forms the dust into a stiff gummy mass which is impervious to heat, wind and water, at a slight cost. The municipality has passed an ordinance permitting the inventor of the new process to use a street for the purpose of experiment.

Price Was $301 000.

Windsor, Sept. 2.—Three hundred and ninety-one thousand dollars is the price paid for the local street railway property, $241,000 cash and the bonded debt of the company, which amounts to $150,000. The purchase includes the People's Electric Plant, which was owned by the street railway people.

Duffy and Ole Olesen Arrive.

Toronto, Sept. 3.—Martin Duffy and Ole Olesen, the boxers, arrived to-day from Chicago for their bouts Thursday night with Tim Kearns and Pat Kilty at the Crescent Athletic Club.

St. Vitus Dance cured by Miller's Compound Iron Pills. Sold by W. Madill.

POOR AND BIG HEARTED.

Specimens of the Hospitality of the Southern Mountaineer.

The latchstring hangs outside every cabin door if the men folk are at home, but you must shout "Hello!" always outside the fence.

"We uns is pore," you will be told, "but y'u're welcome ef y'u kin put up with what we have."

After a stay of a week at a mountain cabin a young "furriner" asked what his bill was. The old mountaineer waved his hand. "Nothin," he said, "'cept come ag'n!"

A belated traveler asked to stay all night at a cabin. The mountaineer answered that his wife was sick, and they were "sorter out of fixin's" to eat, but he reckoned he mought step over to a neighbor's an borrow some." He did step over, and he was gone three hours. He brought back a little bag of meal, and they had corn bread and potatoes for supper and for breakfast, cooked by the mountaineer. The stranger asked how far away his next neighbor lived. "A leetle the rise of six miles, I reckon," was the answer.

"Which way?"

"Oh, jes' over the mountain thar."

He had stepped six miles over the mountain and back for that little bag of meal, and he would allow his guest to pay nothing next morning.

I have slept with nine others in a single room. The host gave up his bed to two of our party, and he and his wife slept with the rest of us on the floor. He gave us supper, kept us all night, sent us away next morning with a parting draft of moonshine applejack, of his own brewing, by the way, and would suffer no one to pay a cent for his entertainment. That man was a *desperado*, an outlaw, a moonshiner and was running from the sheriff at that very time.

Two outlaw sons were supposed to have been killed by officers. I offered aid to the father to have them decently clothed and buried, but the old man, who was as bad as his sons, declined it, left for that, and if not, why, he had.—"The Southern Mountaineer," by John Fox, Jr., in Scribner's.

Extremes.

And still we moan in fate's rude clutch,
Whatever may befall,
Of rain we either get too much
Or else get none at all.

Where the Danger Lies.

"I tell you, sir, there is danger in the higher education of women."

"Yes—for the uneducated man."

STRICTLY ONE PRICE.

"RYRIE BROS." IS A STRICTLY ONE PRICE JEWELRY HOUSE. FROM THIS RULE THERE IS ABSOLUTELY NO DEVIATION WHATEVER FROM JANUARY TO DECEMBER, NOT EVEN TO THE EXTENT OF A 10C. PIECE.

This, in conjunction with our system of marking all goods in plain figures, makes it just as easy and safe for a child to shop at "DIAMOND HALL" as the most experienced connoisseur.

ALL ENTITLED TO IT.

CONDITIONS THAT GOVERN THE SOUTH AFRICAN WAR MEDAL.

Details That Will Interest Every Member of Canadian Contingents That Served Against the Boers—Many Are Entitled to Clasps for Special Service in Addition to the Medal Itself.

The following extract from army order (Imperial) 94 of 1901 is published for general information:

"South Africa Medal—1. His Majesty the King has been graciously pleased to confirm the order given by her late Majesty Queen Victoria that a medal will be struck to commemorate the military operations in South Africa. 2. The medal, in silver, will, provided the claims are approved by the commander-in-chief, be granted to all officers, warrant officers, non-commissioned officers and men of the British, Indian and Colonial forces, and to all nurses and nursing sisters, who actually served in South Africa between October 11, 1899, and a date to be hereafter fixed; to all troops stationed in Cape Colony and Natal at the outbreak of hostilities; and to troops stationed in St. Helena between April 14, 1900, and a date to be hereafter fixed. 3. A clasp inscribed 'Belmont' will be granted to all troops under Lieut.-Gen. Lord Methuen's command who were north of Witteputs (exclusive) on Nov. 23, 1899. 4. A clasp inscribed 'Modder

THE SOUTH AFRICAN WAR MEDAL.

River' will be granted to all troops under Lieut.-Gen. Lord Methuen's command who were north of Honey Nest Kloof (inclusive), and south of Magersfontein Ridge (exclusive), on Nov. 28, 1899. 5. A clasp inscribed 'Paardeberg' will be granted to all troops within 7,000 yards of Gen. Cronje's final laager, between midnight of the 17th and midnight of Feb. 26, 1900, and to all troops within 7,000 yards of Koode's Rand Drift between those dates. 6. A clasp inscribed 'Dreifontein' will be granted to all troops with army headquarters, and Lieut.-Gen. French's column, i.e., the left and centre columns, which advanced from Poplar Grove on March 10, 1900. 7. A clasp inscribed 'Wepener' will be granted to all the troops engaged in the defence of that place between April 9, 1900, and April 25, 1900, both days inclusive. 8. A clasp inscribed 'Johannesburg' will be granted to all troops who, on May 29, 1900, were north of an east and west line through Klip River Station (inclusive), and east of a north and south line through Krugersdorp Station (inclusive). 9. A clasp inscribed 'Diamond Hill' will be granted to all troops who, on June 11 or June 12, 1900, were east of a north and south line drawn through Silverton Siding and north of an east and west line through Vlakfont. 10. A clasp inscribed 'Belfast' will be granted to all troops who, on Aug. 26 or Aug. 27, 1900, were east of a north and south line drawn through Wonderfontein (the garrison and troops quartered at Wonderfontein on those dates will not receive this clasp), and west of a north and south line through Dalmanutha Station, and north of an east and west line through Dalmanutha Station. 11. A clasp inscribed 'Wittebergen' will be granted to all troops who were inside a line drawn from Harrismith to Bethlehem, thence to Senekal and Ciocolan along the Basuto border, and back to Harrismith, between July 1 and July 29, 1900, both dates inclusive. 12. A clasp inscribed 'Defence of Kimberley' will be granted to all troops in the garrison of Kimberley between Oct. 14, 1899, and Feb. 15, 1900, both dates inclusive. 13. A clasp inscribed 'Relief of Kimberley' will be granted to all troops in the relief column under Lieut.-Gen. French, who marched from Klip Drift on Dec. 15, 1900, and all the 6th Division under Lieut.-Kelly-Kenny, who were within 7,000 yards of Klip Drift on Feb. 15, 1900. 14. A clasp inscribed 'Defence of Mafeking' will be granted to all troops in the garrison of Mafeking, between Oct. 13, 1899, and May 17, 1900, both days inclusive. 15. A clasp inscribed 'Relief of Mafeking' will be granted to all troops under the command of Col. Mahon, who marched from Barkly West on May 4, 1900, and to all troops who were under Col. Plumer's command between Oct. 11, 1899, and May 17, 1900, both dates inclusive, and who were south of an east and west line drawn through Palachwe. 16. A clasp inscribed 'Cape Colony' will be granted to all troops in Cape Colony at any time between Oct. 11, 1899, and a date to be hereafter fixed, who receive no clasp for action already specified in Cape Colony, nor the 'Natal' clasp. 17. A clasp inscribed 'Orange Free State' will be granted to all troops in Orange River Colony at any time between Feb. 28, 1900, and a date to be hereafter fixed, who receive no clasp which has already specified for an action in the Orange River Colony. 18. A clasp inscribed 'Transvaal' will be granted to all troops in the Transvaal at any time between May 24, 1900, and a date to be hereafter fixed, who receive no clasp for an action in the Transvaal which has been already specified. 19. A clasp inscribed 'Rhodesia' will be granted to all troops under the command of Lieut.-Gen. Sir F. Carrington and Col. Plumer in Rhodesia, between Oct. 11, 1899, and May 17, 1900, both dates inclusive, who receive no clasp for the relief of Mafeking. 20. A clasp inscribed 'Talana' will be granted to all the troops under Lieut.-Gen. Sir W. Penn Symons' command on Oct. 20, 1899, who were north of an east and west line drawn through Waschbank Station. 21. A clasp inscribed 'Elandslaagte' will be granted to all troops at Elandslaagte on Oct. 21, 1899, who were on the right bank of the Sunday River and north of an east and west line through Buys Farm. 22. A clasp inscribed 'Defence of Ladysmith' will be granted to all troops in Ladysmith between Nov. 3, 1899, and Feb. 28, 1900, both days inclusive. 23. A clasp inscribed 'Tugela Heights' will be granted to all troops of the Natal field force, exclusive of the Ladysmith garrison, employed in the operations north of an east and west line through Chieveley Station between Feb. 14 and 27, 1900, both dates inclusive. 24. A clasp inscribed 'Relief of Ladysmith' will be granted to all troops in Natal north of and including Estcourt between Dec. 15, 1899, and Feb. 28, 1900, both dates inclusive. 25. A clasp inscribed 'Laing's Nek' will be granted to all troops of the Natal field force employed in the operations, and north of an east and west line through Newcastle, between June 2 and 9, 1900, both dates inclusive. 26. A clasp inscribed 'Natal' will be granted to all troops in Natal at any time between Oct. 11, 1899, and June 11, 1900, both dates inclusive, who receive no clasp for any action in Natal nor the Cape Colony clasp as already specified. 27. No individual can have both the defence and relief clasps for either Kimberley, Mafeking or Ladysmith. 28. The medal in silver, with clasps, will be granted to any native soldiers specially employed within the sphere of operations who fulfil the necessary conditions. 29. Non-enlisted men of whatever nationality, who drew military pay, will receive bronze medals, without clasps."

Blood Disorders

are simply kidney disorders. The kidneys filter the blood of all that shouldn't be there. The blood passes through the kidneys every three minutes. If the kidneys do their work no impurity or cause of disorder can remain in the circulation longer than that time. Therefore if your blood is out of order your kidneys have failed in their work. They are in need of stimulation, strengthening or doctoring. One medicine will do all three, the finest and most imitated blood medicine there is

Dodd's Kidney Pills

VARICOCELE

No matter how serious your case may be or how long you may have had it, our NEW METHOD TREATMENT will cure it. The "wormy veins" return to their normal condition and hence the sexual organs receive proper nourishment. The organs become vitalized and manly power returns. No temporary benefit, but a permanent cure assured. NO CURE, NO PAY. NO OPERATION NECESSARY. NO DETENTION FROM BUSINESS.

STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, sharp, cutting pains at times, weak organs, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you by cutting, stretching or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue, hence removes the stricture permanently. It can never return. No pain, no cutting, no detention from business by our method. The sexual organs are strengthened, the nerves are invigorated, and the likes of manhood returns.

Cures Guaranteed

We treat and cure BLOOD POISON, NERVOUS DEBILITY, IMPOTENCY, STRICTURE, VARICOCELE, SEMINAL LOSSES, BLADDER and KIDNEY DISEASES. CONSULTATION FREE. BOOKS FREE. CHARGES MODERATE. If unable to call, write for a QUESTION BLANK for HOME Treatment.

CHEMONG PARK HOTEL

LAKE CHEMONG

SUMMER RESORT

GEO. H. BROWN, Prop.,
Bridgenorth P.O., Ont.

Most beautifully, picturesquely and healthfully situated—500 feet above Lake Ontario. Good Boating and Fishing, Tennis and Bowling Lawns. Daily Mails, Telephone and Steamer Trips.

STEAMERS arrive daily at Chemong. Leave Chemong at 9.45 a.m. for Buckhorn and Burleigh. Leave Burleigh at 1.30, arrive at Chemong at 5.00 p.m. Leave for Bobcaygeon at 5.30.

LEARY'S 'BUS LINE from Peterborough, makes close connection with Hotel and Steamers morning and evening.

BOAT LIVERY—Well equipped with Canoes and Skiffs for pleasure and fishing parties. Guides provided.

BATHING HOUSES—(unbushed) for Ladies and Gentlemen.

DINING ROOM AND [illegible] ROOMS—cool and commodious. The [illegible] is a prominent feature. Reputation made, no change given. Special Rates by the Week or Month.

Gymnastics

Will do much to develop a muscular body. But the strength of the body is not to be measured by its muscle, but by its blood. If the blood is impure, the body, in spite of its bulk and brawn, falls an easy prey to disease.

There is no medicine equal to Doctor Pierce's Golden Medical Discovery for the purifying of the blood. It carries off the poisons which contaminate the life fluid. It increases the activity of the blood-making glands and gives the body an increased supply of pure, body-building blood. It builds up the body with sound, healthy flesh instead of flabby fat, promotes the appetite, feeds the nerves, and so gives to weak, nervous people vitality and vigor.

There is no alcohol contained in "Golden Medical Discovery," and it is absolutely free from opium, cocaine and all other narcotics.

"I feel it my duty to write to you of the wonderful curative powers of your 'Golden Medical Discovery,'" writes George S. Henderson, Esq., of Denand, Lee Co., Florida. "I had a bad bruise on my right ear and my blood was badly out of order. I tried local doctors, but with no good results. Finally I wrote you the particulars in my case and you advised your 'Golden Medical Discovery,' which I began to take. From the first bottle I began to feel better, and when I had taken eight bottles the sore was healed up. I wish you success."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

CANADA.

Essentially a Country of the Larger Air, Bracing and Beautiful, and Calculated to Inspire Romantic Patriotism.

When a statesman whose reputation has been made in hard debate and the turmoil of party warfare leaves his work behind him for a moment and allows some generous emotion to color his words, we listen more readily than to any professional rhetorician. In Mr. Chamberlain's speech at the dinner to celebrate Dominion Day there was this charm of contrast with his other work, an oratory and a passion which we remember in his rectorial address on "Patriotism" and some few other speeches, but which is studiously kept out of the routine of his life. In truth, the subject was great enough to inspire a man of far less imagination and historic sense than the Colonial Secretary. The filial feeling of the colonies in the war has been made a truism of politics, readily admitted by every party; and it requires a conscious effort to realize what exactly is meant by this phrase of journalists. Our first feeling, when we learned the temper of our cousins over sea, was delight and surprise; now we are beginning to take it for granted, and it is well to be reminded by Mr. Chamberlain's eloquent words of the true magnitude of this loyalty. The colonies, thank heaven! have ceased to be meaningless terms for most Englishmen. We see them as already nations, mature and self-conscious for all their youth, following their own ideals and civilizations, but inseparably linked to us by blood and tradition. At home in England we can have no sense of geographical possession. We are a great nation, but our land is a mere incident in our power. But in the colonies wide ambitions are joined literally and directly with wide territories; there is room to move and breathe and expand; and they can see, growing up in their sight, the palpable evidence of their power. He must be a dull man indeed whose spirit is not fired by the consideration of the oldest, most populous and most mature of our colonies. To ourselves Canada has always seemed something apart from the others, with more of the old European culture, more long-descended, more northern, and so in some ways more akin to ourselves. The stock of her population was drawn from our best. The hardy, thrifty settler who went out to clear the forest is a universe away from the treasure-hunter and the speculator. In her French population she has a curious, interesting and difficult class, who so far have been made to live harmoniously within her borders. Bands of Scottish emigrants, from the '45 to the present day, have gone west to Manitoba and Assiniboia, and founded new Badenochs and Lochabers in a country which has much of the character of their own. As General Ian Hamilton said at the same dinner, the Gordons and the Royal Canadians who fought side by side at Paardeberg were nearly connected—first cousins if not half-brothers. She has never been made the reservoir for the surplusage of other nations, the wandering alien has not seriously troubled her, and her settlers have been picked men of our own blood. Canada has a land, too, of immense extent and endless variety. Surely in no country in the world is there so great a choice of scene, from the apple-orchards of Nova Scotia, the populous cities of the St. Lawrence and the ice-fields of Labrador to the prairies of the Northwest and the canons of the Pacific. All, or nearly all, is well watered, and no part is without some form of agricultural wealth. Her climate is temperate, in few places inimical to life and labor, and well suited to a strong and healthy race. It is a platitude that the nature of a country and climate has a great share in forming the character of a people. To men whose root stock is Saxon, or at least northern, some vigor in the elements and the landscape is necessary for the maintenance of true moral and physical manhood. Canada is essentially a country of the larger air, where men can still face the old primeval forces of nature and be braced into vigor, and withal so beautiful that it can readily inspire that romantic patriotism which is one of the most priceless assets of a people. The tall men in the Canadian contingents, with their curious brightness of eye, which comes from looking over vast prospects of country, were more than volunteers or Manitoban stock-riders. They were to the observant man the visible sign of a masculine and unwearied nation.—London Spectator.

Fac-Simile of Genuine.

The Nervous System

Each organ of the body is of great importance, otherwise a wise Creator would have omitted it. Of no less importance is the great network of nerves running all through the body. They all connect with the brain, which is a central office or bureau of information. Is there inflamation in some part of the body? The nerves convey the news to the brain and the pain caused by irritation of the nerves is located. If there is a weakness in any part of the body or some organ is being overtaxed, the nerves convey the news. Symptoms manifested by the nerves are sleeplessness, headache irritability, nervousness, dizziness, forgetfulness, dispondency, lack of muscular control, and general loss of tone and debility. What's the cure? Not stimulants, for they only intensify the exhausted condition and result in harmful after-effects. Not opiates which only stupify and hide the danger signal, but Merrill's System Tonic which soothes the irritated condition of the nerves, feed and reconstruct the fast decaying sensibility and then by its general curative action on the different organs of the body, bring the general health back to its normal condition. System Tonic is an honest medicine, doing good in nearly every instance and doing harm in none. Its chief aim is to build up and strengthen each organ in the body and nature can and will then restore perfect health.

Each 50 cent bottle contains 50 pleasant-to-take doses, and is sold

AT ALL DRUG STORES.

And in Peterborough at ORMOND & WALSH'S, leading drug store, corner George and Simcoe streets.

STRENGTHENS THE STATE.

Life Insurance is for the protection of those dependent on a man's life; their dependence makes it an unavoidable duty. Those dependent we assume to protect by our contract, at his personal cost; our duty to them is to make that contract as large, as secure, and as certainly available to them as possible; thus every Policy written conserves the interest of the State. A man with a Life Insurance Policy is apt to be a good citizen. Anarchists have no use for Life Insurance, and the state has no use for anarchists. The State should encourage every citizen to carry insurance. This Strengthens the State, abolishes alms-houses, and creates property that can be taxed. Further, the income from Your labour ends with Your life. The cost of living to the family continues. Take measures to have the income continue also. **The Life Insurance Policy Does It.**

The most enterprising and progressive of all the Canadian Life Offices to-day is the **Sun Life of Canada.** Ten years ago the Company had Life Assurance in force to the extent of $16,759,355.92. On the 31st of December last, this amount had been increased to $57,980,634.68. The increase, therefore, of Life Assurance in force during the last ten years amounted to the tremendous sum of **$41,221,278.76.**

A LITTLE OF EVERYTHING.

The 57th Regiment Will Drill This Evening.

Mr. Robert Johnston's Letters to the Examiner—Ardbie Reynolds' Excursion.

Lieut. Robert Johnston, of Springville, who now holds a commission in the 46th Durham Regiment of Infantry and who went with the Peterborough contingent on the 2nd Canadian Mounted Rifles to South Africa, is writing for the Examiner a series of letters of his own personal experiences, from the time he enlisted in Peterborough until the time he returned. Lieut. Johnston is a young man of rare ability as a writer and has a faculty of reciting his experiences in a very humorous and fluent strain. His style on this particular occasion will be somewhat different from the ordinary accounts of South African experiences. The first of Mr. Johnston's letters will appear on Saturday next, and the remainder will follow each Saturday until the end of the series.

• • •

The duck shooting season opened yesterday morning and quite a number availed themselves of the day, which happened to be a holiday, and went down the river to various points on Rice Lake. In fact every creek and marsh from Peterborough to Rice Lake had more than its share of duck shooters. A rather amusing sight along the river on Sunday night was seeing the farmers gathering in their geese and tame ducks. They were going to run no risk from the pot-hunters. There was a shot gun for every duck in the district, but not many birds were got.

• • •

To-night the first fall drill of the 57th Regiment, Peterborough Rangers, will be held and it is important that there should be a good turn out of all ranks. The fall season opens this year under particularly encouraging auspices, considering the fact that the Regiment will go to Toronto to take part in the reception ceremonies to the Duke and Duchess of York. It is especially important then that the men should attend every drill from now on and that the Regiment should be recruited up to full strength. During the summer season one portion at least of the Regiment has not been idle and that is the Bugle Band. They have been practicing very hard and will make their debut with the Regiment this evening.

• • •

Archie Reynolds has once more announced the date of his annual excursion. This is truly one of the biggest events of the season, at least it is to the people in the neighbourhood of Fraserville. Strickly speaking, it is the annual excursion of L. O. L. No. 46, Fraserville, but half the country would not know what is meant by this. "Archie Reynolds' Annual" are the words that are whispered around and the people in that neighbourhood know the rest. Archie is one of the oldest members of the Fraserville Orange Lodge, has filled every office from that of carrying the banner on the 12th of July, to the dignified position of Grand Master, presiding over meetings held behind bolted doors, where questions momentous in the extreme, and of great consequence to church and state have been held. Archie arranged for the first excursion to Jubilee just 20 years ago and since that time the annual event could never come around too fast. For 20 years they have wended their way down the winding Otonabee, have seen steam boats and scows come and go, but as long as the Otonabee flows heedlessly on, so long as Rice Lake receives of the Otonabee waters, and so long as Archie Reynolds' Orange Lodge exists, the park at Jubilee will resound with the sound of the fiddle and the organ and the sound of the "calle'-off," which is the leading feature in connection with the followers of William, Prince of Orange, and their annual excursion down the river. May Archie's excursion be a success.

NICHOLLS HOSPITAL.

THE LABOUR DAY DEMONSTRATION.

(Continued from 5th Page.)

ed obtaining work in any town but his own. Labouring men had reason to congratulate themselves on the improved state of affairs. Still further improvements would be realized when labour was properly organized. If organization was essential to success in church work, political circles, etc., how much more was it necessary in connection with labour? The time was ripe for the formation of a representative organization amongst labouring men. In the House of Commons the interests of capital were well watched and guarded, and labour should have its representatives there also. Deputations from various interests waited upon the Government asking various concessions, and as Ralph Smith recently said, the tariff had been discussed from every standpoint except that of the workingman. Governments were not placed in power to legislate in the interests of the few, but to have in their eye the interests of the masses. Capital might assist in building up a country, but if there was capital without labour chaos would reign. Capital could not exist without labour, but labour could exist without capital and would in fact create capital. Working men should exercise their franchise and vote for the party which would do most to help their condition. No aggregation of wealth should have the power to throw an army of men out of employment, as was recently done by the C.P.R. Whilst the Ontario Legislation had done a great deal for labour it must go still further. The speaker then cited a number of the enactments passed in the interests of labour by the Legislature, mentioning the acts providing for workingmen having a lien on works until they had received the compensation due them, the enforced guarding of dangerous machinery, and the proper ventilation of buildings, the clause inserted in public contracts calling for the payment of the highest current wages to employees, etc. What was needed now was a compulsory arbitration law. If a manufacturer refused to arbitrate a difficulty with his workmen he should not be allowed to carry on business.

Mr. Heyd's remarks were listened to with a great deal of interest and were punctuated with hearty applause. Mr. J. J. Hartley, the next speaker, was also well received. He spoke of the pleasure he always took in raising his voice in behalf of labour, and urged that instead of war being waged between capital and labour, it would be to the material advantage to both if they would work together, but when capital tried to monopolize then it was necessary for labour to form a union and stand up for its rights. The speaker concluded by reminding his hearers that no candidate could be elected to Parliament without the labour vote and therefore it was the fault of the workingmen themselves if their views were not well represented in the Government.

Rev. J. C. Davidson congratulated the members on the formation of a branch of the Federation of Labour, and expressed the view that the man who *did not identify himself* with it was acting not only against his own interests but against those of all other workingmen. He urged that labouring men should view the whole question of labour from the employers standpoint as well as their own, and in taking action should see that perfect justice was being meted out to both.

Hon. J. R. Stratton was very cordially received, and expressed the pleasure it gave him to meet with his Peterborough friends, and it was *an additional* pleasure to meet with his friends associated with the Peterborough branch of the Federation of Labour, and thus recognize and endorse their right to unite in the promotion of their interests. He had to plead guilty to breaking two engagements that day, but he felt he had a good excuse, his first duty was to his constituents. He had not an opportunity of meeting his fellow-citizens as often as formerly, and he took advantage of this important occasion. He believed that workingmen had a perfect right to join together in an organization for the promotion of the interests of labour, upon which depended the advance of civilization. In this country it had brought a stretch of scattered provinces into the condition of a strong, united and prosperous Dominion. Labour being so important and indeed indispensable an element in progress, it was unnatural that it should have enemies, but unfortunately there was a sad antagonism between capital and labour, whose interests were really mutual — one could not do without the other, though this applied less to labour than to capital. Remove all capital and labour would create more, for labour was the only source of capital, but remove the labour and capital would be paralyzed, and the world would be commercially and industrially dead. Thus the interests of capital and labour lay in cooperation. Admitting the claim that capital oppressed labour, it could be seen that the weaker had the power to oppress the stronger only by the force of organization, which capital possesses but labour lacks. Capital being so thoroughly organized, as it had a right to be, we must admit the right of labour to do likewise, and it seemed that it was only by effective combination, organization and consequent co-operation that labour could meet capital on equal terms, and have a fair field and no favour—only its rights, all that it need ask. The wrong that existed, was not in the combination of capital itself, but in capital denying the right to labour to similarly combine. It was this denial of right—this failure to recognize organized labour—that was the essence of the great railway strike, which was now happily settled, and settled to the recognition of the right of labour to organize. He congratulated the workingmen of Peterborough upon their organization; it was timely, and he hoped it would meet with the greatest success, and would work harmoniously with capital. Peterborough was now entering upon an era of great prosperity, and he hoped that labour would reap a rich harvest in the abundant employment provided, and that the capital interested would also find great benefit, for it was upon the harmonious combination of these two elements that legitimate and enduring prosperity must depend. Organization alone would not effect this, but it was a means to an end to assist in harmonizing capital and labour and bringing to a close the bitter strife that exists. Legislation could help in this direction, but legislation and labour must work together. Mr. Stratton concluded his remarks by expressing the hope that the local branch of the Federation of Labour would not make this their first and last gathering, but that it would grow stronger and stronger, and impress its usefulness upon public and legislative sentiment, so that its rights would be respected and its interests promoted. (Applause.)

Mr. L. M. Hayes, in a brief address, dwelt on the necessity of the workingmen standing by one another if they expected to achieve any results. "United we stand, divided we fall," the speaker reminded them, was a motto which was world famed, and he expressed the thought that if such a motto was adopted as the watchword of labour, the workingman would soon come to be recognized as a power in the land.

On account of the lateness of the hour, Mr. J. H. McClellan curtailed his remarks to an address of very brief duration. He was accorded a very hearty reception and in opening drew attention to an item in the last issue of the Labour Gazette which pointed out that in all public contracts the contractors this year were forced to sign an agreement to give an ordinary labourer $1.40 per day. He had to live up to this agreement before he could draw his money. It was Ralph Smith, M.P., the greatest labour man in Canada, who was instrumental in having this proviso inserted in all public contracts. A certain Peterborough paper (the Review) had thrown slurs at Mr. Smith, because he was not always on the same side of politics. No matter what side of politics he was on, Ralph Smith was always true to labour. The workingmen were united for peace until they had to fight. Peace would not have been of much use in the C. P. R. strike. It was "fight," and the men had fought and won. The speaker concluded by stating that if anything he had ever done for labour had been of assistance, he was very glad and he assured his hearers that he would be found to be with the workingmen whenever he was required.

NOTES.

Mr. and Mrs. Brown are to be congratulated on the manner in which they catered to the wants of their guests. The meals were splendidly served, and were fully appreciated.

The big procession of busses starting away from the post office shortly after nine o'clock, was one of the features of the day. There must have been over a score of rigs in line. Hodgson's orchestra furnished excellent music during the day.

NEWS NUGGETS.

—Cobourg is to have a new Collegiate Institute.

—The town schools opened this morning. There was a fair attendance.

—The regular monthly meeting of the Peterborough Board of Education will be held to-morrow evening.

—There will be no march out of the 57th to-night. Drill of a Battalion nature will be the order of the evening.

—Miss McCabe has resumed her class in music, and will be pleased to see her pupils at the old stand, Peterborough Music Co., 404 George street. 3d

—Girls and boys join in the chorus—"What's the matter with the Peterborough Bookstore? — it's all right!" Largest assortment, finest of everything in school supplies and lowest prices.

—On and after Wednesday, Sept. 4th, the steamer Sunbeam will discontinue her daily trips in connection with the steamer Ogemah at Burleigh. After Saturday, Sept. 7th, the steamer Ogemah will discontinue her daily trips between Bobcaygeon, Chemong and Burleigh. 30d

—The barns and outbuildings on the farm of Lieut.-Col. Greer, of East Colborne, were destroyed by fire last week. They contained all of this season's crops, and the loss is therefore quite heavy. Lt.-Col. Greer is the commanding officer of the 40th Northumberland Regt. of Infantry, and his many friends here and elsewhere will sympathise with him in his loss.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drugstore.

EQUAL TO ANY EMERGENCY.

Gough Bros.

LATEST TRIUMPH.

COLOSSAL SHIPMENTS

—OF—

NEW FALL CLOTHING,

SHOES, HATS, AND FURNISHINGS.

Our enormous collection of Merchandise for Fall presents a striking object lesson of the onward stride that has been made since last Fall in the manufacture of High-Class Ready-to-Wear Fall Suits, Light Overcoats, Boots and Shoes, Hats, Caps, Furnishings, etc., for Men, Young Men and Boys. But—

THE CRUX OF THE SITUATION

is this—that Gough Bros. are ready and equal for any emergency. When you want to be dressed from top to toe for any particular occasion—no matter what—let GOUGH BROS. know of your wants. If you prefer a Suit made to your measure, our Custom Tailoring Department is ready for your order. Expert cutters and tailors are bound to fit you.

We take a back seat for no one, and we do guarantee our prices cannot be duplicated in town.

Our reputation does not rest alone upon supplying the BEST at the LOWEST PRICES; the prompt and faithful manner in which we look after our customers' wants has something to do with it.

Being in Close Touch With all Markets

implies constant opportunities. Buying for Eight Large Stores implies large discounts to us.

Spot cash and big outlets implies tempting chances—the closing out of a factory's surplus, the relief of a manufacture's congestion, are prizes that can be captured only by hard coin and enormous sales.

Times are Good—There's no Calamity A-brewing.

We've been to market. We are ready to go again to-day—for EQUAL BARGAINS. We haven't lost our moorings or our heads.

SCHOOL OUTFITS

FOR YOUNG CANADA.

We have marked prices of Boys' School Suits, School Shoes, Hats and Furnishings beyond the touch of competition. Some great Special Snaps for Parents who bring their boys early. You can not resist our tempting Bargain Prices.

THE BOOM IS ON AT GOUGH'S.

LABOURERS!

WORKING MEN—You who have at all times shown us by your constant patronage that you are alive to your own interests—remember that we sell the goods necessary for your every day toil at prices within the range of wage-earners of every circumstance: less by a half than you pay elsewhere.

BRUTALLY SHOT DOWN

Captured British Scouts, Who Were Unarmed, Murdered.

SEPTEMBER 15 THE FATAL DAY.

Kitchener's Proclamation Comes Into Force, and Dewet and Myrburg Proclaim That They Will Shoot All British Troops and Armed Colonials Captured After Sept. 15—The War's Limit.

London, Sept. 4.—The Colonial Office published last night a despatch from the Governor of Cape Colony. Sir Walter Hely-Hutchinson, received Sept. 1, announcing that the Boers Aug. 8, captured two unarmed British scouts near Aaarekloof and shot them in cold blood.

Dewet's Reply.

London, Sept. 4.—"Dewet has issued a proclamation," says a despatch to The Daily Mail from Cape Town, "that he will shoot all British troops found in Orange River Colony after Sept. 15."

British Patrol Captured.

Cape Town, Sept. 3.—It is reported that Commandant Myrburghas issued an order directing that all armed colonials captured after Sept. 15 are to be shot.

Capt. Wallis, with a patrol of 25 men, from Oudtshoorn, was taken in ambush near Mieringspoort. He and two men escaped, three others were killed and four wounded, and the rest, who took the oath of neutrality, were released.

Boers Loot Barrydale.

Cape Town, Sept. 3. — A well mounted force of Boers have looted Barrydale, 140 miles from Cape Town.

Scheeper's Boer command passed close to Montague, 150 miles from Cape Town yesterday, and had a slight brush with the local scouts. They had spare horses and were apparently well equipped. A column of troops has gone in pursuit.

Evidence From Cape Colony.

London, Sept. 4.—Dr. Krause, former governor of Johannesburg, and a prominent official of the late Transvaal Government, who was taken into custody in London Monday night, was charged at the Bow Street Police Court yesterday morning with high treason in the Transvaal under the fugitive offenders' law, and was remanded for a week without bail.

No evidence, except as to Dr. Krause's arrest being offered, Sir George Lewis, on behalf of the prisoner, asked if any deposition against his client supporting the charge existed. Prosecutor Muir replied that there was, of course, information against the accused in Cape Colony. The police here, he said, had acted upon telegraphic instructions.

The police testified that Dr. Krause, when arrested, looked at the warrant and remarked, "The charge is absurd."

The Weekly Tally.

London, Sept. 4.—A despatch from Lord Kitchener, dated Pretoria yesterday, says:

Since Aug. 26 the columns report 19 Boers killed, three wounded, 212 made prisoners, and 127 surrendered, and that 194 rifles, 27,560 rounds of ammunition, 1,700 horses and 7,500 head of cattle have been captured.

The War's Limit.

London, Sept. 4.—The War Office has ordered the censor in South Africa, The Sun says, to permit absolutely nothing to pass over the wires until further instructions shall have been given. The opinion in official circles is that the war is not merely practically, but actually finished. Hence the desire to conceal even the smallest details of pending negotiations until an official announcement shall be made.

Killed at Ottawa.

Ottawa, Sept. 4.—James Scharfe, aged 65 years, was instantly killed Monday while driving with his son-in-law two and a half miles east of Gatineau Point. The horse suddenly reared, and Scharfe was thrown forward across the dashboard. In order to save himself he laid his hand on the horse's hip, when the animal kicked out and struck Scharfe, breaking his neck.

The Roblin Case Settled.

Toronto, Sept. 4.—The case of Premier Roblin of Manitoba and his partner, D. W. Mills, has been settled out of court. The action arose from a shipment and sale of some 90 horses by Mills. Mr. Roblin sought an order of injunction to prevent the defendant disposing of the proceeds of their sale. Yesterday Barrister Frank Cooke removed the papers from the files of the court.

Cabinet Changes in British Columbia.

Victoria, B. C., Sept. 4.—J. D. Prentice, Provincial Secretary, was yesterday afternoon appointed Minister of Finance, to replace J. H. Turner, who has resigned and been appointed Agent-General in London.

J. C. Brown of New Westminster was sworn in as Provincial Secretary, and Richard McBride, Minister of Mines, has resigned.

Died of Anthrax.

Titusville, Pa., Sept. 4.—Mrs. Mary O'Neill, who has been suffering for three days with a violent attack of anthrax, died last evening in great agony. The unfortunate woman became infected with the germs of the dreaded disease by washing her husband's clothes worn while handling hides in a local tannery. The disease is contagious.

TRUSTWORTHY DRY GOODS — UNIFORMLY RIGHT PRICES.

LEADERS IN READY-TO-WEAR GARMENTS.

MR. WHITNEY'S POLICY

He Reads it Out at a Meeting of Conservatives in Toronto.

ATTACKS ROSS GOVERNMENT.

The Ontario Opposition Leader Announces the Issues on Which He is Ready to Fight—Would Have Government Print School Books and Sell Them at Cost—His Other Planks.

Toronto, Sept. 4.—Last night Mr. J. P. Whitney, M. P. P., addressed a public meeting under the auspices of the Conservative Association of Ontario at the Victoria Hall. There was a good attendance of the Conservative members of the Legislature and House of Commons and Conservative candidates for Ontario, and the hall was comfortably filled. Mr. Whitney spoke for about two hours and three-quarters upon Provincial politics, reviewing the action of the Opposition and of the Government upon leading questions. His speech was apparently intended as a stimulus to the enthusiasm of his supporters as well as a pronouncement of the policy upon which the party will appeal to the electors for support at the next election. Mr. Whitney, who spoke fluently and forcibly, in conclusion, read a summary of the arguments he had presented, which, he stated, he had committed to paper as follows:

Law Reform.

Divest the Division Court of many of the anomalies which now hamper its usefulness. Lessen the expense and expedite the results of litigation, and provide, without further delay, one final and conclusive provincial appeal from a trial judge.

New Ontario.

The development of the unsettled parts of the province and its resources, as hitherto advocated by the Opposition, should be proceeded with and the people of the older sections of the province will not object to any reasonable expenditure. A railway to the Temiscaming district should be aided.

Railway Grants.

Grants to the railways should only be made for development or colonization purposes, only after most careful examination into the merits of each application. In every case, stock or security should be taken for the amount advanced, and freight and passenger rates should be controlled by the Legislature. If moneys granted by other provinces by way of bonuses to local railways are to be paid back to such provinces by the Dominion Government. Ontario must insist upon justice being done here in the same way.

Minerals.

Substantial encouragement should be given to the development and refining of our several mineral ores in order to hasten the time when we can insist that the entire process of refining be carried on here, instead of in a foreign country.

Timber, Pulp Wood and Saw Logs.

Stock should be taken of our timber resources in order to ascertain with reasonable exactness the amount and area of our timber wealth, so that the people may be in a position to judge of the course pursued by the Government and Legislature with reference to this most valuable asset. Included in this is our great pulpwood wealth, which should be dealt with, as far as possible, on the same principle as our timber, and be disposed of openly by public competition. It is hardly necessary to say that the policy of the Opposition regarding saw logs, which has brought about such beneficial results, must be continued.

Finances.

The financial position of the province is the key to the situation. With our extensive resources the problem of the provincial finances can be easily solved, leaving the way clear for such increased expenditure on agriculture and education as may be found necessary and desirable—as this result can be arrived at without periodically selling timber limits, or in other words capital stock, to cover up an anticipated deficit caused by the excess of annual expenditure over annual income.

Agriculture.

Grants for agricultural purposes should be increased, and especially looking forward to the early establishment of additional agricultural schools.

Food Transportation.

We should co-operate heartily with the Dominion Government in improving the facilities for transportation of our food products, and our Department of Agriculture should, without any further delay, address itself to the question of the improvement of the breed of our cattle in order that we may obtain a market in Great Britain for dressed beef and allow the dressed beef of Dakota to find a market without our assistance.

His Public School Policy.

The Public School curriculum must be so changed and framed that the 95 per cent. of our children who cannot go further than the Public School will there receive the best possible education suited to their needs, and having regard especially

SOME RESULTS OF GOOD GOVERNMENT

Address of Hon. J. R. Stratton at Brigden.

ROSS GOVERNMENT POPULAR.

How Government Expenditure Has Lightened the People's Burden's—A Hundred Millions Disbursed Without a Mis-spent Dollar—A Clean, Capable Government Record.

Hon. J. R. Stratton, Provincial Secretary, addressed most successful Liberal nominating conventions in East and West Lambton last week. From the Sarnia Daily Observer is clipped the following summary of his speech at Brigden on Wednesday, Aug. 29th:

Hon. J. R. Stratton, Provincial Secretary, in rising to address the convention, was received with hearty applause, and in the course of an address of an hour and a half, amply justified the eulogiums which subsequent speakers passed upon the completeness of the record and policy of the Liberal Government of Ontario, which he compressed into his excellent speech. He had addressed the electors of West Lambton in the same place last June and the excellent impression created on that occasion was fully borne out by his deliverance yesterday. He began his remarks by saying how gratifying it was to him, as a member of the Government, to see such a large assemblage, and to note the unanimity and enthusiasm regarding the good record of their excellent representative for the past four years. He was unstinted in his praise of Mr. Pardee for the excellent work he had done in the House, and he felt sure he would rapidly develop the qualities that had made his father one of the foremost public men in provincial affairs. He was satisfied from the character of the assemblage he saw before him, that when the elections came on, this constituency would give no uncertain sound as to the representative they desired to have in Toronto. This would come from the fact that not only was their candidate a good and capable representative, but he was a supporter of a Government that had given the province a clean, complete, prompt, efficient and progressive administration of its affairs. He then cited figures to show that the annual expenditure was so directed as to relieve the county municipalities of burdens which but for this expenditure they would have to bear. The County of Lambton had in this way received a large share of the Provincial expenditures, no less a sum than $926,377.72 having been expended during the past 28 years; over a quarter of a million dollars had been given by the Provincial Government to the Public, Separate and High Schools; nearly $3,000 to public libraries; nearly $8,000 to the Sarnia hospital and the House of Refuge; $50,000 to Agricultural Societies; $70,000 had been given to provide better railway accommodation; to assist the blind, deaf and dumb of the county, $60,000, and nearly a like amount to maintain the boys in the Reformatory and men criminals in the Central Prison. Had the County of Lambton been taxed, as was done in the United States, they would have had to put their hands directly in their pockets to the extent of $1,000,000 in the time mentioned. Nearly all the increased expenditure of the Government had been brought about by the desire and practice of the Government to more fully assist the municipalities in the directions indicated. Ontario had nearly 7,000 miles of railway, in comparison with a very limited mileage in the year 1872, while Quebec had only 3,500. The cost to the province per mile had been about $3,000, while in Quebec the expenditure for railways had been about $5,000 per mile. Out of every hundred dollars expended in the province this year $21.50 was applied to education, $24 to maintaining public institutions, $6 to the development of agriculture, $5.50 to hospitals and charities, $3.50 to extension of colonization roads in New Ontario, $6 for public works maintenance and repairs, $13 for the administration of justice, $4 for legislation, $7.50 for civil government, and $4 would be charges upon Crown lands, and $5 out of every hundred would go to miscellaneous expenditures. Thus the people could clearly see where the money goes, as the total annual expenditure is made in the proportions just mentioned. The annual expenditure of Ontario averages about three and a half or three and three-quarter millions per year, and for advantages given the people no other government has shown such a favourable record. The Royal Commission to investigate our financial affairs has clearly proven their excellent condition, and if the accounts of the province after an administration of twenty-eight years were closed tomorrow and every liability liquidated there would be fully two and half million dollars to the credit of the province with unbounded sources of revenue that had been preserved for future use. If Mr. Whitney and the Conservative party had had their way this excellent showing would have been impossible. They had tried to take away and hand over to the Dominion our revenues from licenses which last yer yielded $354,000. They had been opposed to succession duties for what we got last year, $226,067, and since the act was in force we had received from succession duties $1,500,000. They were opposed to the revenue bill adopted last year which gave an income of $229,774. Every year we receive from these sources $800,000. It displays the poverty of the Opposition policy to oppose these measures. They are determined to say something against the Government; they must rightly or wrongly find fault, but it was to be remarked they never suggested any improvement over the excellent financial administration of the Liberal Government of Ontario. In thirty-four years $216,000,000 passed through the hands of the government every cent was accounted for. On the 27th of August there was to the credit of the province cash in the bank $1,273,478. Had it not been for through the hands of the government; when the late Hon. T. B. Pardee was Commissioner of Crown Lands 50,000 square miles of Ontario timber and mineral lands would have been handed over to party heelers and hangers-on of the Conservative party at a rate of one cent per acre; lands which are to-day, under the administration of the Ross Government, one of our best revenue-producing resources and will continue to be under similar careful management for years to come. Was it safe to entrust provincial affairs to a party that had shown so little appreciation of the magnitude and importance of our resources and who were willing as they had shown themselves to be, to subordinate provincial interest to party welfare? By the preservation of the timber resources of the province, as had been done they would continue to be a source of revenue for years to come. By the act prohibiting the exportation of logs in an unmanufactured condition sawmilling had been revived, giving increased employment to Canadian labour and capital. Even Sarnia felt the effect, two new sawmills, directly due to this policy had been erected in Sarnia, giving employment to vessels and railways. Hon. Mr. Stratton went on to illustrate the resources of New Ontario and to show how the policy of the Government had operated to bring about the development of these splendid resources and this in spite of the persistent opposition and obstruction of the Opposition leader whose policy in this regard was so short-sighted and unpatriotic that one of his most prominent supporters—a former leader of the party—had revolted and heartily identified himself with the Government in its policy of developing the resources of our northern country. Mr. Stratton had been around the country a great deal this year and he had no doubt that the Government would be handsomely sustained, and if the unanimity and enthusiasm that marked the convention were carried into the campaign he had no doubt that West Lambton would show to the province the same fidelity to Reform principles in respect of the son that they had shown in respect of the father in the past and that Mr. Pardee would be triumphantly elected. (Loud applause)

After Mr. Stratton had delivered his telling speech, Messrs. H. J. Pettypiece, M. P. P. and Mr. Fraser, ex-M. P., spoke briefly congratulating the convention on their choice of a candidate.

The convention closed with the heartiest cheers for the King and Messrs. Ross, Stratton and Pardee.

Passed 15 Worms.

I gave Dr. Low's Worm Syrup to my little girl two and one-half years old; the result was that she passed fifteen round worms in five days. Mrs. B. Roy, Kilmanagh, Ont.

Cycling Highwayman.

Sydney, N.S.W., Sept 3.—A masked cyclist Sunday night held up the White Cliffs-Hillcandia mail coach, wounded a passenger, secured the mails and opals valued at $1,400, and escaped.

Dukedom for Salisbury.

London, Sept. 3.—The Birmingham Daily Post yesterday says King Edward is likely to confer a dukedom on Lord Salisbury at the time of His Majesty's coronation.

A NORWOOD BURGLARY.

Mrs. John Iles' Residence Robbed on the Dummer Road.

The residence of Mrs. John Iles, Dummer Road, was entered during the silent hours of Friday night last, by an unknown and uninvited guest, as a result of which Mrs. Iles is short $15 in cash.

The theft was discovered on Saturday morning when Mrs. Iles went upstairs to get some money out of a drawer where she kept it. She found the window up and the screen removed and laid to one side. The drawers of the bureau were open and the condition in which they were showed that the house had been visited by thieves. She found the pocket book in which she kept her money empty, but on the floor near the window lay a $5 and $10 bill and another five was found clinging to the lace curtain. This would seem to indicate that the marauder fearing detection had made a hurried exit. However, neither Mrs. Iles nor her son George, a boy about 14 years of age, heard any unusual sound during the night and were not aware that anything had occurred until she went upstairs in the morning to get some money. The room in which the money was kept unoccupied. The boy sleeps in an adjoining room and Mrs. Iles occupies a room down stairs.

It it supposed that the burglar by puting a plank up to the verandah at the north side climbed up and passing around to the south side removed the screen and entered the room through the window.

It is thought that the robber was some person well acquainted with the premises.

ADVERTISERS' HAND BOOK.

The 1901 edition of the Canadian Newspaper Directory, is just issued. This, the third edition of this valuable handbook, seems to keep well up to the standard set by the former editions, and in some respects is an improvement, being printed on thinner paper and is therefore more compact. The sectional maps of the provinces, which have heretofore been bound in with the book, are issued as a supplement and enclosed in a special envelope, making them much more convenient to use.

The information regarding the different papers and the towns in which they are published is very full and complete and will be found invaluable to anyone who has dealings with the newspapers of the country.

The book is published by A. McKim & Co., Montreal, the pioneer newspaper advertising agency of the Dominion, and well known from one end of Canada to the other.

The McKim Agency is a living demonstration of a successful, systematic up-to-date business, conducted upon original and independent lines, and with an established reputation for straightforward and upright dealing.

A PROTEST.

Where are the names, the pretty names,
The names we used to know,
The sweetly, simple, girlish names
We knew so long ago?
There are no Marys any more,
In this enlightened age;
The old name's never used to-day—
"Marie" is all the rage.

The Kitties are all "Kathyrines"
In this late age and day;
There are no Mamies any more,
For "Mayme" is the way—
The Fannies are all "Fanys" now;
The girls we used to know
Named Alice have all changed their names
Since "Alys" is the go.

The Pearls have gone to join the rest,
For "Pyrle" is up to date;
The Helens spell it "Helyn" now,
For it is very late;
The Ediths are all "Edyths" now,
And much as we may rue,
The girls named Lillie have gone o'er—
They spell it "Lyly" too.

O, gyrls, pray tell me why you do
Thys sylly, sylly thyng;
Yf we should ynto dayly lyfe
Thys kynd of spellyng bryng,
Confusion would be ryfe, yndeed,
We'd lose our E'e and I's,
Yn keepyng track of spellyng whych
Ys very much too Y's.

—Bismarck, N.D., Tribune.

COMPLETE SUCCESS.

After Many Failures W. C. Anderson Makes his Discovery at Last.

Treated in Vain by Five Different Doctors for Kidney Trouble—Took Many Medicines Without Success—Dodd's Pills Succeed Where Other Things Fail.

Waterside, N.B., Sept. 1. — W. C. Anderson of this town is a remarkable example of persistence. For years he has been trying to find a cure for his trouble, and for years he has been tasting the bitterness of disappointment. But he tried again and now at last he has succeeded.

His trouble was kidney trouble, by no means uncommon in this province. Indeed some physicians go so far as to say it is the most prevalent malady in Canada. At any rate it was the affliction of Mr. Anderson.

Five different doctors have attended Mr. Anderson in his time. None of them touched the root of his suffering. The amount of medicine that Mr. Anderson swallowed would doubtless surprise that gentleman himself could he see it all poured together.

One year ago Mr. Anderson told his friends that he had found a sure cure at last. His friends smiled, but said nothing in reply. His continued hopefulness was proverbial, but everybody had long since paid little attention to the remarkable remedies he was continually discovering, and subsequently proving failures. But this time it was no failure. It was Dodd's Kidney Pills.

W. C. Anderson considers himself to-day as successful a man as there is in New Brunswick. He has found good health after many disappointments. Dodd's Kidney Pills have raised the burden off his life. Six boxes cured him of every symptom of Kidney Disease, and he acknowledges he owes his success to them.

Lord Strathcona in Montreal.

Montreal, Sept. 3.—Lord Strathcona and Mount Royal is once more in Canada, having reached Montreal at an early hour Sunday morning.

Lily White
Floating Soap

FOR SUMMER DRESSES AND FINE GOODS

Sold by all good grocers, at 5c. and 10c. per twin bar.

COLONIAL VETERANS

To Receive Their Decorations From Hands of Duke of York

SIR WILFRID IN ROYAL PARTY.

The Presentations Will Take Place at the Places and On the Dates As Issued in Militia Bulletin Given Below—Rules Governing the Parade of Troops for Their Medals.

Ottawa, Sept. 4.—The following instructions respecting the presentation of Victoria Crosses and South African war medals by His Royal Highness the Duke of Cornwall and York are published for the information and guidance of all concerned:

(A) The Victoria Crosses will be presented immediately preceding the presentation of medals, on the dates shown below, as follows:

At Quebec—To Lieut. R. E. W. Turner, D. S. O., Royal Canadian Dragoons.

At Ottawa—To Sergt. E. Holland, Royal Canadian Dragoons.

At Toronto—To Lieut. H. Z. C. Cockburn, Royal Canadian Dragoons.

(B) With reference to M. O., 153 (1), 1901, the places, dates and hours of the presentations by His Royal Highness will be as follows:

Quebec, Plains of Abraham, Sept. 17, during review.

Montreal, Place Viger Station, Sept. 18, about 3 p. m.

Ottawa, Parliament Hill, Sept. 21, about 12.30 p. m.

Winnipeg, City Hall, Sept. 26, about 12.30 p. m.

Regina, Government House, Sept. 27, about 12.30 p. m.

Calgary, at or near railway station, Sept 28, about 8.30 a. m.

Vancouver, Drill Hall, Sept. 30, about noon.

Victoria, Oak Bay Hotel, Oct. 2, about noon.

Toronto, Exhibition Park, Oct. 11, during review.

St. John, N. B., not named, Oct. 18, at noon.

Halifax, not named, Oct. 19, during review.

(C) The following officers, non-commissioned officers and men will be able to receive their medals at any presentation named in the foregoing paragraph (unless ineligible under the regulations), providing they conform to paragraph (D), following, viz., members of 2nd (Special Service) Battalion Royal Canadian Regiment of Infantry, Royal Canadian Dragoons, Canadian Mounted Rifles, the Brigade Staff and "C," "D" and "E" Batteries R. C. F. A., officers sent from Canada for instructional and other purposes, including chaplains and nursing sisters; Canadian Postal Corps, artificers enlisted in Canada for service with the regular army, and those members of Strathcona's Horse who have not already received their medals.

(D) Individuals who desire to parade must call upon the officer in charge of the medals beforehand (excepting at the places noted below), for the purpose of being identified and in order that a list of those who will parade may be prepared and their medals set apart. No individual will be able to receive his medal who does not comply with these instructions.

The officer in charge of the medals will be at the places where presentations will be made as follows:

Quebec, Sept. 16, office of D.O.C., 11 a.m. to 6 p.m.

Montreal, application to be made to the D.O.C., see paragraph D.

Ottawa, Sept. 19 and 20, 12 Albert street; 19th, 10 a.m. to 5 p. m.; 20th, 2 p.m to 5 p.m.

Winnipeg, Sept. 25, office of D.O.C., 9.30 a.m. to 6 p.m.

Regina, Sept. 26, N.W.M.P. barracks, 6 to 11 p.m.

Calgary, application to be made to officer commanding N.W.M.P. station, see paragraph D.

Vancouver, application to be made to D.O.C., see paragraph D.

Victoria, Oct. 1, Drill Hall, 10 a.m. to 5 p.m.

Toronto, Oct. 9 and 10, Drill Hall, 10 a.m. to 5 p.m.

St. John, N.B., Oct. 17, Customs House, 9.30 a.m. to 6 p.m.

Halifax, application to be made to the D.O.C., see paragraph D.

Owing to the short time at the disposal of the officer in charge of the medals, special arrangements are authorized for Montreal, Calgary, Vancouver and Halifax. At Calgary the officer commanding the N.W.M.P. station, and at the other three places the district officers commanding will receive applications. These applications should be made in person if possible, otherwise by letter, by an hour to be notified locally by the officer in charge. Non-commissioned officers and men should be able to produce their discharge certificates to facilitate their identification. Cards of identification will be issued to all individuals who are authorized to parade before His Royal Highness, to ensure admittance to the enclosure set apart for them at the presentation.

(E) Major J. Lyons Biggar, D. A. A. G., at headquarters, will have charge of the medals, and the preparations for the presentation, as above, with Mr. E. F. Jarvis, acting chief clerk at headquarters, as assistant.

(F) Individuals who are unable to parade before His Royal Highness will be able to obtain their medals by applying to the Adjutant-General, Headquarters, Ottawa, after the royal tour is terminated. Medals of deceased soldiers will be delivered to the next of kin if personal application is made to the officer in charge during his stay at any of the places above named.

Premier Will Accompany the Duke.

It is understood that the Premier and his colleagues will be on hand to welcome the Duke and Duchess of Cornwall and York when they arrive at Quebec on the 16th inst. Sir Wilfrid Laurier will accompany the Royal couple on their trip across the continent and back, and he will therefore be absent from the capital for about four or five weeks. The Premier may possibly go over to Newfoundland with the Duke and Duchess.

NOVA SCOTIA ELECTIONS.

New House to Be Elected on October 2—A Short and Hot Campaign Anticipated.

Halifax, N. S., Sept. 4.—The Parliament of Nova Scotia was dissolved yesterday afternoon and Premier Murray will appeal to the country. A special Gazette was issued, containing the Lieut.-Governor's proclamation, and the election writs were at once issued. Nomination day will be on September 25, and polling will take place on October 2. The campaign will be a very hot one, owing to the desire of the Government to have the elections over before the visit of the Duke of Cornwall and York. The Liberal Government, lead by Hon. Geo. H. Murray, which now has an almost unanimous support in the Legislature, will probably be again returned by an overwhelming majority.

The Liberal candidates are rapidly lining up for the battle. Monday Messrs. E. M. MacDonald, M. P. P., of Pictou, George Patterson, barrister of New Glasgow, and Robert Dewar of Barney's River, were nominated to contest Pictou County. They are a strong team. Yesterday at Amherst Hon. T. R. Black, M. P. P., and ex-Mayor Tucker of that town was nominated in the Liberal interests. At Truro Hon. F. A. Lawrence, Speaker of the House, and Mr. B. F. Pearson, barrister of Halifax, Secretary of the Dominion Coal Company, and a director of the Dominion Iron & Steel Company, received a unanimous nomination. Mr. Pearson is one of the leading men of the Province, and his name is a household word in Canada. To-day Lunenburg Liberals will hold their convention, and all the other counties will rapidly fall into line.

THE SITUATION.

Decided Gains Are Shown for the Steel Trust—Strikers Declare It is a Bluff.

Pittsburg, Sept. 4.—Developments yesterday in the steel strike show decided gains for the manufacturers. The accession of 32 skilled men to the Star plant, the increased production at the Painter and Lindsey & McCutcheon mills, the defection from the strikers' ranks of 75 machinists and pipe cutters at the Continental Tube Works and 50 at the Pennsylvania Tube Works, the importation of 12 men to the Monessen Steel Hoop mill, and the installation of three mills on night turn at the Clark mill, all point to an early resumption all along the line, as viewed by the steel officials.

The Amalgamated officials, however, make the claim that everything is progressing satisfactorily, and say that much of the supposed advantage of the manufacturers is bluff and cannot be made good. As an instance, they cite the Lindsey & McCutcheon plant, where the company claims to have as many men at work as they can accommodate and turning out merchantable product.

The Amalgamated people claim that J. S. Hurley, vice-president of the district, visited the Lindsey & McCutcheon plant yesterday in the guise of a roller seeking work. He made an inspection of the mill, and, according to his report, there are 30 men at work, six of whom are skilled.

The strikers also claim that at the Monessen plant the product turned out last week amounted to 250,900 pounds, whereas, before the strike, the daily output was 1,000,000 pounds.

Matters at McKeesport last night were quiet, and to all appearances unchanged.

Mental and physical vigour follow the use of Miller's Compound Iron Pills. Sold by W. Madill.

MARKET REPORTS.

Big Increase in the Visible Supply of Wheat Caused Weakness—The Latest Quotations.

Tuesday Evening, Sept. 3.

In Chicago to-day Sept. wheat declined ½c. Sept. corn declined ½c.

Wheat futures were ½d higher than yesterday in Liverpool to-day.

In Paris to-day wheat futures advanced 65 centimes.

THE VISIBLE SUPPLY.

As compared with a week ago, the visible supply of wheat in Canada and the United States has increased 1,783,000 bushels; that of corn has increased 471,000 bushels, and that of oats has increased 687,000 bushels.

To recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 61,031,000 bushels, against 65,206,000 bushels a week ago, and 77,066,000 bushels a year ago.

Sheep and Lambs—Receipts, 5552 head; 22 cars on sale; sheep steady; lambs active and firm for top grades; all sold; sheep, $2.50 to $3.75; culls, $1.25; lambs, $5 to $6.25; one deck, $6.37½; culls, $3.50 to $4.

THE ONLY ONE.

The man who says that all patent medicines are worthless is a fool. For Dr. Hall's Rheumatic Cure has no equal. W. C. Switzer, Harrowsmith, O., suffered with sciatic rheumatism for ten years. He tried every known remedy recommended for the cure of rheumatism without obtaining relief. Six bottles of Dr. Hall's completely cured him. This great blood purifier is put up in bottles containing ten days' treatment. Price 50 cents at all drug stores or The Dr. Hall Medicine Co., Kingston, Ont.

Prince Chun in Potsdam

Potsdam, Sept. 4.—Prince Chun arrived here yesterday afternoon from Switzerland. He was received at the railroad station by the town commandant and the chief of police, and was driven to the orangery in Sans Souci Park. It is said that Emperor William will receive the Chinese envoy in the new palace at noon to-day.

A Scientist Dead.

St. John's, Nfld., Sept. 4.—Rev. Moses Harvey, renowned historian and scientist and discoverer of the famous devilish now in the Smithsonian Institute, Washington, died yesterday morning. He was born in 1820.

SCHOOL SHOES FOR BOYS AND GIRLS

Now is the turn of Young Canada. The summer vacations are over. School for another term is the rule. The boys and girls must be comfortably clad if they are to do good work. An important part of the outfit is that which ensures warm, dry feet. That is where our mission as sellers of Boots and Shoes comes in.

We have made ample preparation for the supply of school wants in boots and shoes. We appreciate the fact that boys and girls are great wearers out of leather, and the varieties and styles we have were selected to afford the maximum of wear at the smallest cost. Here is a list that is sure to contain some line that will suit. All sizes, in black and tans, new and nobby.

Boys' Buff Lace Boots, sizes 1 to 5, extra value $1.35
The same at $1.25 and at $1.15
Boys' Dongola Kid Boots, sizes 1 to 5, a capital boot for wear, at $1.35
Boys' Boston Calf Boots, ... $1.60
Boys' Tan Bals., strong and very comfortable $1.40
Youths' Buff Lace Boots, sizes 1 to 5, a first-class article $1.15
In another style at $1.00

Youths' Boston Calf Boots ..... .90
Misses Oil Pebbled Button Boots, with spring heel $1.15
Misses Box Calf Button Boot, sizes 11 to 2, very serviceable $1.25
Misses Box Calf Lace Bals., an excellent shoe in every way $1.35
Childs' Oil Pebbled Button Boots, with spring heel, at 75c and 85c
Childs' Oil Pebbled Lace Boots, sizes 8 to 10, at 85c and 75c

In addition do not fail to remember that we have all things in Rubber. The wet weather of the fall is at hand.

ROBERT NEILL

A Maclean and a Campbell.

When Sir Archibald Campbell was Governor of New Brunswick he chanced to meet with an aged Highlander of the name of Maclean, who had done brave soldiery service for his country, and had borne himself well in many a fierce encounter. After his discharge he had settled in the woods; but things had not gone smoothly with him, and his circumstances were quite straightened. Anxious to befriend him His Excellency invited him to make his home at Government House, where he could find easy work to do in blacking boots and shoes and such like little things. The old man was quite indignant, the hot blood mounting to his cheeks; and, drawing himself up to his full height, he replied, with all the dignity of a lord, "Na, na, Sir—na, na. A Maclean never blackit a boot for a Campbell." He preferred privation with independence on the farm to ease as a menial in a rich man's house—a feeling that was appreciated by no one more warmly than by the genial and kind-hearted Governor.

Scavengers of the Air.

Because gelatine, onions and milk are notable scavengers of the air, they should never be left uncovered.

Bronchitic Sufferers

Act foolishly. If they improve ever so little when the fine weather comes, they relax effort and drift back into the old condition which if possible, becomes more chronic. Hit Bronchitis hard in the summer and you'll get rid of it and drive it right out of the system. In winter it is almost impossible to do this. Inhale Catarrhozone regularly, it's a dead sure thing on Bronchitis. It goes into the most minute air cells of the lungs, bathes all parts of the bronchial tubes with its healing, germ destroying vapor, and cures every time. Highly endorsed by all competent druggists and doctors. 25 cts. and $1.00.

The Imperial Life's

Double Settlement Policy has been Termed "The Ideal Form of Insurance Investment." Have you examined it?

W. G. Morrow,

AGENT, PETERBOROUGH.

STRENGTHENS THE STATE.

Life Insurance is for the protection of those dependent on a man's life; their dependence makes it an unavoidable duty. Those dependent we assume to protect by our contract, at his personal cost; our duty to them is to make that contract as large, as secure, and as certainly available to them as possible; thus every Policy written conserves the interest of the State. A man with a Life Insurance Policy is apt to be a good citizen. Anarchists have no use for Life Insurance, and the state has no use for anarchists. The State should encourage every citizen to carry insurance. This Strengthens the State, abolishes alms-houses, and creates property that can be taxed. Further, the income from Your labour ends with Your life. The cost of living to the family continues. Take measures to have the income continue also. **The Life Insurance Policy Does It.**

The most enterprising and progressive of all the Canadian Life Offices to-day is the **Sun Life of Canada.** Ten years ago the Company had Life Assurance in force to the extent of $16,759,355.92. On the 31st of December last, this amount had been increased to $57,980,634.68. The increase, therefore, of Life Assurance in force during the last ten years amounted to the tremendous sum of **$41,221,278.76.**

Daily Examiner.

WEDNESDAY, SEPT. 4, 1901.

At St. Andrew's To-night.

Rev. J. G. Potter will give an interesting address to-night on the Winona Bible Conference in St. Andrew's Sunday school Hall, at 8 p.m. All heartily welcome.

Mr. Davies resumes his classes in Pianoforte, Harmony, etc., Sept. 5th. Residence and Studio, Ashburnham. Pupils prepared for the examinations of the Toronto Conservatory of Music. 2d

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drugstore.

Private School.

Miss Bennet's School,
309 Park Street,
Will re-open Tuesday, 3rd Sept., at 9 a. m.
Drawing Class
Saturday, 7th September, at 3 p.m.

Market open every day at Kennedy's Meat Market, with Saturday's prices ruling. Lamb 8 to 10 cents per lb., by the quarter. We carry the choicest quality of fresh Beef in town, and guarantee satisfaction. 340 George street. 'Phone, 275.

Mr. F. W. Walden has resumed lessons in Piano, Harmony and Singing, at his residence, 595 George St. Mr. Walden has still lesson periods between the hours of 9 and 12 a.m. and 1 and 3 p.m., and will be pleased to meet intending pupils.

Opening of the Theatrical Season.

Light entertainments appeal to the popular tastes now-a-days, and Roland Reed's comedy, "Humbug," by Fred Marsden, which will be at the opera house, Friday, Sept. 6th, for one night, with its exceptionally strong company, headed by Walter Hodges and Miss Annie Leonard, is an attraction fully abreast of the times. The play not only has a plot, which is something foreign to plays of its kind, but it introduces catchy music and dazzling costumes, also clean specialties. Seats are now on sale.

School Opening.

There is no divided opinion as to the ability of the Peterborough Bookstore to serve the scholars with school books and school supplies. The newest of everything, the best of everything, and the biggest value in everything. The boys and girls have taught on to our store with open-eyed surprise, and purchase with unvaried satisfaction. See the great display in our two show windows—the best dressed show windows that the scholars have ever seen. Our presents given away with every purchase knocks the spots off them all. A. H. Stratton & Co.

PRIME FRUIT.

We are now receiving choice Yellow Freestone Peaches and Fancy Plums and Gages from the best growers in the Niagara District. Also first-class Muskmelons very cheap by the crate or singly. S. A. OKE, 376 George street, Tel. 18.

WAS STEAMED TO DEATH.

An Accident Results in the Death of a Fireman.

Engineer Robert Pentland Seriously Burned.—Rock Slide Was the Cause of the Accident.

The Arizona Daily Journal-Miner, of Friday, August 16th, contains the appended account of the death of Engineer Robert Pentland, a nephew of Mr. R. B. McKee, and Mr. Jos. Pentland, of town:

Misfortunes are said never to come singly, and this adage seems to be exemplified at the present time in the case of the S. F., P. & P. Railroad. Right on the heels of the accident near the Point of Rocks, which sent an engineer and fireman to the county hospital ten days ago, came several washed out bridges, and as a result of a rock slide last evening, about 100 yards north of the P. & E. Junction, Fireman George Stover lies dead in an undertaker's shop, and Engineer Robert Pentland lies at the Mercy hospital, scalded from head to feet, and hovering between life and death.

Engineer Pentland has of late been in charge of the engine attached to the construction train on the cut off, and last night was on his way to the Prescott shops with it for repairs, intending to take out another engine this morning. In addition to the fireman, Conductor Beck Detwiler was on the engine, which was running light. Just after rounding a curve into a side cut north of the P. & E. Junction, the engine ran into a pile of rocks which had slid on the track, and although it was running at a low rate of speed as it was approaching the station, the monster engine was thrown completely on its side, with its top hanging over the embankment. Conductor Detwiler, who was standing on the steps of the engine, ready to alight and register at the P. & E. Junction, either jumped or was thrown to the ground by the sudden contact of the engine with the rocks, and escaped unhurt.

Engineer Pentland and Fireman Stover were not so fortunate, and went over with the engine. The sudden jar to the engine broke the steam pipes, and before the engineer and fireman could crawl out they were almost cooked by the escaping steam. They, however, succeeded in getting out without assistance, and walked to the section house, about a quarter of a mile this side of the P. & E. Junction, where they were placed on a hand car and brought to the Mercy hospital in Prescott. Engineer Pentland's parents, who reside in Prescott, were immediately notified and went to the hospital and remained with him during the night, caring for him and assisting the physician and nurses in dressing his wounds, which are of a very serious nature, and may yet prove fatal.

Since the above was put in type death has claimed another victim from the result of the wreck, Engineer Robert Pentland dying at noon to-day. The suffering of both men are said to have been terrible and death came to them as an angel of mercy.

The death of Engineer Pentland has caused a general gloom and feeling of sadness in the town, as he was an exceptionally circumspect young man, and was universally beloved by all who knew him. Coming here with his parents when quite a small boy, he grew to manhood in the town and was industrious, temperate and frugal. His untimely death is a severe blow to his aged parents and brothers and sisters, and while the sympathy goes out to them in their sad bereavement it cannot compensate them for their terrible loss, or heal the wounded hearts.

In addition to his friends and relatives in Prescott, who are overwhelmed with grief at his sudden death, the news will come as a shock to one in a far off eastern city, whom he expected to lead to the altar within less than two months, and who left here some time since to prepare for the anticipated happy event.

Both of the deceased young men belonged to the Red Men, and Fireman Stover also belonged to the Knights of Pythias. The former order will conduct the funeral of the remains of Engineer Pentland, while the Knights of Pythias have taken charge of those of Fireman Stover.

PERSONALS.

Miss Bertie Long was in Toronto for Labour Day.

Mr. Henry Ownes is in Toronto to-day on business.

Mr. J. C. Craig, of Kinmount, has patented a voting machine.

Mrs. P. J. McNamara, of Buffalo, is visiting her sister, Mrs. T. Hickey.

Mrs. Samuel Wainwright spent Monday in Cobourg visiting friends.

Miss Daisy Yenney has returned from a visit with friends in Toronto.

Miss May O'Brian, Millbrook, is in town, the guest of Miss Nellie McKee.

Mrs. R. J. Weir, Ashburnham, is spending a few days at the Pan-American.

Mr. and Mrs. D. Hobbins spent Sunday and Labour Day in Clydesdale, Ont.

Miss S. J. Robertson, Reid street, spent a few days with friends in Bensfort.

Miss Nellie McGiveron, Rochester, N.Y., is visiting Miss Minnie Hickey, 129 Elm street.

Mrs. Sangster of Brantford, is visiting her sister, Mrs. A. Gilbert, Gilmour street.

Mr. and Mrs. D. O'Connell have returned from Victoria House, McCracken's Landing.

Mrs. (Dr.) Pentland, Miss Olive Pentland and Miss Edith Clegg, have gone to the Pan-American.

Miss Grace Rogers has returned to town from Stony Lake, where she was the guest of Miss Elinor Collins.

Mr. and Mrs. E. W. Cox and family who have been spending a week or so at Victoria House, Stony Lake, have returned.

The Misses McFall, of Chatham, who have been spending their holidays at Chatham, returned home on Tuesday morning.

After spending the holidays in Buffalo, Mademoiselle Blanche Decrey will return to town next week and resume her teaching.

Mr. Robert Fair, who has been revisiting the Canadian markets and the Pan-American Exhibition, returned home last night.

Miss Laura Legros, daughter of Mr Charles Legros, left this morning to resume her duties at the Convent de Notre Dame, Ottawa.

Miss M. A. Robertson, Reid street, returned yesterday after spending a week with friends in Centreville, Cobourg, and other places.

Mr. and Mrs. Gerald Hayward, who have been summering at Gore's Landing, are in town, the guests of Mrs. Stewart Hayward, at "Evergreens."

Mr. and Mrs. H. F. Foote last night celebrated the fifth anniversary of their wedding by inviting a number of their friends to spend the evening.

Mrs. A. J. Dennenger, and Miss Aileen Griffin, who have been visiting their cousin, Miss Minnie Hickey, have returned to their home, Rochester, N.Y.

Mr. R. C. McHarrie, local manager Canadian Bank of Commerce, arrived home on Monday, after a most delightful visit of several months in the Old Country.

Miss DeWet, of New York, who has been a guest of Mrs. Choate at Stony Lake, passed through yesterday on her way home. She was accompanied by Mr. Dick Choate.

Mr. George Perks, "Oaklawn," Gilmour street, has returned home after a very pleasant month's visit with relations on the St. Lawrence and among the Thousand Islands.

Mr. Leo Connors has returned, after a week's sojourn at the Pan-American, Niagara Falls and Rochester, where he played with the Vatican Lacrosse Club in that city.

Mr. Lou Best, of Mr. H. H. Edmison's drug store, left this morning to attend the College of Pharmacy, Toronto. Lou was one of the stalwarts of No. 4 Co., 57th Regt., and will be greatly missed in many ways. His friends will wish him success in his studies.

WAS NO QUORUM

At the Regular Monthly Meeting of the Board of Education.

There was no meeting of the Board of Education last night there not being a quorm present. Several matters of importance could have been disposed of but the members no doubt didn't feel like getting down to business again, especially it being a very warm night. Those in attendance were Mr. W. H. Hill, chairman; and Messrs. W. B. Ramford, Jas. Stevenson, Dr. Burnham, Peter Hamilton, L. M. Hayes and V. Eastwood.

The chairman on the recommendation of those present made provisional appointments of Miss Donnel and Miss Bell to the position of 1st assistant at the Central and South Ward Kindergartens.

A CANADIAN ABROAD.

Mr. P. C. Larkin on the American and Canadian Tea Market.

(From the "Home and Colonial Mail" of London, Eng.)

"Mr. P. C. Larkin, of Toronto, who is in London, was interviewed by us the other day, and he frankly spoke his mind on the subject of the American and Canadian markets for Indian and Ceylon Tea, and the course to be adopted if business is to be rapidly developed.

Mr. Larkin, who is evidently enterprising to his finger-tips, related briefly his experiences in introducing Indian and Ceylon teas to the notice of the American and Canadian consumer, who are reached through the branches of the "Salada" Tea Company, which he controls in both countries. He told how the work was slow at first, but he quickened it by by giving publicity in all kinds of ways to the merits of these teas. How the sales increased, and how he caused them to increase more rapidly by spending more and more on advertising. Having built up a business in "black," Mr. Larkin tried his hand with "greens," and partly at his suggestion planters have manufactured green teas, which, in his opinion and that of all experts, entirely eclipse the Chinese and Japanese makes, and bid fair, if planters will only maintain the standard of excellence, to hold the market and entirely route the enemy."

All the newest ideas in photography from the Pan-American, at G. E. Whiten's. See his latest photographs in colours.

MR. WHITNEY'S "POLICY."

Mr. James Pliny Whitney, leader of the Conservative party in Ontario, has at length spoken and declared what he dignifies with the name of a "policy." This he did at a great Conservative gathering at Victoria Hall, Toronto, last night. That this remarkable declaration is not an unconsidered deliverance, but a matured and fully thought-out programme of the administrative and legislative action upon which he will appeal to the people of the province, is shown by the fact that it was committed to writing and read from manuscript. It may then be considered the very best Mr. Whitney can do in the way of devising a "policy." Accepting this as correct, it must frankly be said that this remarkable "policy" will give little hope to his own party followers, and little uneasiness to the Ross Government and Liberal party, on the grounds that this "policy" on paper will be preferred by the people to the grand record of progress at the credit of the Liberal Government, and to the splendid policy of action and advance which it has not only formulated, but has, to a large extent carried out, or put in promising process of fulfilment, thus anticipating, both theoretically and practically, and in a complete sense, almost every, if not every, item of Mr. Whitney's plagiarized, and when not plagiarized, impracticable and visionary "policy." Mr. Whitney's pronunciamento is disappointing; it must be so to his friends, who would naturally expect some original, workable and progressive political creed to subscribe to, and also to his opponents, who would naturally expect that Mr. Whitney's verbal ability represented something in the shape of practical political ideas, and that the mountain, after being in the throes of political labour for fifteen years, would bring forth something more important than a "ridiculus mus." Mr. Whitney's speech and "policy" will repay further attention, as the appeal of a party to the confidence of the electors of a great province.

NEWS NUGGETS.

—The lion in front of Robert Fair & Co's, is being re-gilded.

—The last of the series of summer dances at Chemong will take place to-morrow night.

—Last night a light of plate glass in the Dunford block, Water street, suddenly fell out without any apparent cause.

—The second practice of the Peterborough contingent of the Royal Chorus took place in the Y.M.C.A. Hall last night.

—A couple of small keys tied together were picked up on the street yesterday morning and are awaiting an owner at this office.

—Miss McCabe has resumed her class in music, and will be pleased to see her pupils at the old stand, Peterborough Music Co., 404 George street. 3d

—On and after Wednesday, Sept. 4th, the steamer Sunbeam will discontinue her daily trips in connection leigh. After Saturday, Sept. 7th, the steamer Ogemah will discontinue her daily trips between Bobcaygeon, Chemong and Burleigh. 30d

SCHOLARS TOOK US BY STORM.

A CEASELESS PROCESSION —A REGULAR JAM.

School Books and School Supplies have been "on the fly" from opening to closing of store the last two days. Little school boys and girls, flanked with bigger scholars of both sexes, have kept tramping in and out of the Peterborough Bookstore like bees swarming in a hive.

What a great time we've had! How those handsome scribblers flew, with their attractive covers—and the dainty exercise books and note books—everything just as we promised—and the presents thrown in!

Our stock was never exhausted, although our whole staff has been kept busy as nailers hour after hour. We kept replenishing the counters with our reserve stock, and to-day it is almost as complete in every line as ever.

"Better late than never." If any of the scholars have yet to be served, we are ready for them—ready to fill their school bags and straps with everything they require, at the closest possible prices. Plenty of presents left for all late-comers.

RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

SEPTEMBER!

You know what September means. It means cooler weather, and if it isn't here now, you can depend on it that it isn't very far away. It also means new Dresses and Hats, New Underclothing—in fact it means a general replenishing for the ladies. Lots of people are realizing that it's better to make preparations early. You get the assortments, and you get at first choice, which means considerable. Stocks are almost complete in every department, and values are better than ever.

SUBSTANTIAL GOODS.

The sort of materials are here for out-door wear in the autumn. Heavy enough for comfort and for health, and pretty enough to be a pleasure to ladies who are anxious to have the newest and the best and who know what is right. It's better to buy among the first and get the choice.

RIBBONS and TRIMNING.

In the line of Ribbons and Trimmings, there is no end to the variety, and you can have them just as elegant as you want them. We also have the grades that look well and are not very expensive — that appear better than the prices indicate.

ABOUT DRESSMAKING

Our Dressmakers are at it again for Fall. **Busy already**; but our staff is large, and we can turn out an enormous quantity of work in short order. Have you made any arrangements about your Fall Suit? If not, you had better call and see our Dressmakers.

WHITE COTTONS and EMBROIDERIES

We make a specialty of Fine White Cottons for undergarments, such as English Long Cloths, Lonsdale Cambrics, Nainsook Muslins, and the finer qualities of White Cotton, both imported and domestic. Also we ask you to notice and compare the quality of our Embroideries with ordinary assortments. It won't take you long to be convinced of our superiority in that line. But if you prefer to buy the ready-made things in Undergarments, we can show you a fine assortment, and prices are wonderfully low.

RUGBY.

Rugbyists are asked to bear in mind the fact that the annual meeting of the Peterborough Rugby Club takes place this evening at 8 o'clock in the parlours of the Oriental Hotel. Let there be a good attendance of members as the game needs to be launched this season with every degree of enthusiasm. President Kenner has arrived home from his holidays and is busy talking Rugby already.

Due attention will be given this season to the Juniors and a League may be formed in this district, comprising Norwood, Port Hope, Lakefield, Lindsay and Peterborough Ifs.

CROQUET.

A leading feature in connection with the Peterborough Lawn Tennis Club is the Croquet branch of the organization. Croquet, in fact, has come forward very prominently of late and much enthusiasm is evinced in the various contests. The ladies in particular are becoming quite expert in the game, and the tournament which is now in progress is proving very exciting. The Croquet Lawns are adjoining the Tennis Courts and are almost continually in use.

The drawings for the first round in the tournament now in progress are as follows:—

Singles, Class A.

Mrs. Scott vs. Miss Hamilton.
Miss White vs. Miss Hugel.
Miss Halliday vs. Mr. Burnham.
Mrs. Rogers vs. Miss J. Dennistoun.
Mrs. R. M. Dennistoun vs. Mrs. Torrance.

Singles, Class B.

Mrs. Campbell vs. Miss Barlee.
Miss Archer vs. Miss E. Barlee.
Miss Sherwood vs. Mr. Campbell.
Mrs. Wood vs. Miss Edwards.
Miss Moore vs. Miss Rackham.
Miss M. Rogers, bye.

Doubles.

Mrs. Scott, Miss Hugel vs. Miss Sherwood, Miss Rackham.
Mrs. Wood, Miss Moore vs. Miss Halliday, Mr. Campbell.
Mrs. Dennistoun, Miss Edwards vs. Mrs. Rogers, Mr. Burnham.
Mrs. Campbell, Miss Archer vs. Miss Barlee, Miss E. Barlee.
Mrs. Torrance, Miss Dennistoun vs. Miss Hamilton, Miss White.

All events to be played off before Saturday, Sept. 14th, on the Club grounds. Players are requested to send in the result of their matches to the secretary as soon as possible.

GOLF.

The Captain and Match Committee of the Ladies' Golf Club are anxious that the tournaments may begin as soon as possible, and as it is necessary to rearrange the handicaps, every member wishing to enter the competition is requested to enter two scores in the score book at the club house not later than the 10th of Sept. The two most important tournaments will be for the club championship (open) and the Stratton handicap. Besides these there will be several others. It is therefore necessary to begin as soon as possible. Any persons not desiring to enter the competitions are requested to notify the secretary.

BOWLING.

Arrangements are being made to bring several rinks of Belleville bowlers to town.

Members of the club are reminded that the Secretary-Treasurer will be pleased to receive all dues which have not as yet been paid in. The collection of fees which are over-due will be placed in the hands of a committee next week.

LACROSSE.

The Vaticans are all right, in more ways than one. They are morally all right; they won't play lacrosse on Sunday, even if they are away from home. When the Vaticans go away from home they take their principles with them as well as their sticks and sweaters. The Vaticans went over to play the Rochester team, and the match was to have taken place on Saturday afternoon. However, it rained at a furious rate, and the game was cancelled for that day. Then the "Yanks" wanted the good "Canucks" to play on Sunday, but the "Canucks" would not; they never played the game at home on the Sabbath Day, and why should they when they were away from home? So they came back without playing at all.

Mr. Walter J. English was in Toronto on Monday and took in the Brampton-Markham game. He was simply amazed at the excellent article of lacrosse that the Brampton team put up, and says that they played rings around their opponents. Had they cared to, Walter thinks that they could have won from Markham by a score of 50 to 2, instead of 13-2. The Port Hope team, who will now run up against the Brampton aggregation, sent a number of their men up to Toronto Island to witness the game. Notwithstanding the fact that Brampton put up such an excellent article of lacrosse the Port Hope men are offering all kinds of money that they will win from the Brampton team on Thursday.

THE KENNEL.

Dr. D. C. King was very successful at the Bench Show in connection with the Toronto Exhibition. He carried off second prize in three classes with his Great Dane.

BASEBALL.

A game of baseball took place on Saturday afternoon between the Senior Elms of Ashburnham and the Auburns. The game ended rather unsatisfactory inasmuch as the rain put an end to the match when the Elms had 5 innings and the Auburns 4. The score at this time was 11 to 7 in favour of the Auburn aggregation.

AQUATIC.

The great sculling race for the championship of the world takes place this afternoon on Rat Portage Bay, between Jacob Gillies Gaudaur, the present champion, who has held the championship since he defeated Stansbury on the Thames, in 1896, and George Towns, champion of England, who defeated Barry on the Thames, in 1899.

Mr. W. A. Buchanan, formerly of town, and now of the Toronto Telegram, is one of the chief promoters of the race, and is at Rat Portage to-day. "Cully" Robertson, is the stakeholder for the event.

Mr. J. W. Smith, of town, champion Gaudaur's former backer, who went with him to England for the championship, is in Rat Portage. He still has great faith in the champion, and thinks it is impossible for Towns to win except by accident.

The Port Hope Knitting Works are showing this week a very fine line of double knee, double heel and toe cashmere hose in all sizes, from 15c to 25c, in the largest sizes. This is a great line. Call and see them.

A LIVELY TIME AT CHEESE BOARD.

East Emily Salesman Relates His Grievance.

BUYER BAILEY'S DEFENCE.

A Lengthy Discussion Regarding Alleged Methods of Conducting Business—The Factories That Boarded—The Sales.

There was another lively time at the regular meeting of the Peterborough Cheese Board this morning, and it appears to be taken as a matter of fact now that the time of the Board is to be chiefly taken up in discussion of alleged grievances of certain salesmen, whilst the "sale" of the Board develops into a secondary consideration.

The discussion which took place at the last sale of the Board, wherein it was alleged that certain buyers had refused to accept the cheese of several factories for no apparent good cause, was both lengthy and animated and it was supposed to have finally disposed of the then existing misunderstanding between buyers and salesmen. However, when Chairman Drummond declared the proceedings opened this morning, Mr. Switzer, the salesman of the East Emily factory, stated that he had a grievence which he wished to make known to the Board and receive such redress as in the opinion of the Board they might extend to him. He then proceeded to give a history of East Emily's connection with the Peterborough Board. They had joined it in preference to the Lindsay Board because it was the more easily attended and further because it was reputed to be the banner Board of the Dominion. They belonged to it for 16 months during which time he had offered for sale the cheese of the East Emily factory. Last year he was well pleased with the manner in which the business of the Board was conducted, but so far this season he was disappointed. Indeed, he had come to the conclusion that when the late Mr. Cluxton passed away, the Board had sustained a great loss, because in the deceased gentleman's time when a buyer attempted to over-step the rules of the Board he was very quickly called down.

Continuing the salesman referred to an incident that he alleged had occurred since the last meeting of the Board between Mr. Bailey and himself. In short it was the same old story of Mr. Bailey having rejected cheese with no apparent good reasons. Mr. Switzer went very minutely into the difficulty reciting at length what he claimed were the facts of the case. The East Emily maker had taken samples of the cheese afterwards to Mr. Wrighten, the inspector, and that gentleman passed the samples as all right. However, Mr. Bailey when spoken to afterwards, said that Mr. Wrighton was not a competent judge. The speaker was prepared to make affidavit to all he had just recited. He then asked permission to read from the Lindsay Post an account of some discussion that took place at the last meeting of the Lindsay Board, in which Mr. Bailey's conduct was critized. This was an endeavour on the part of the speaker to show that Mr. Bailey had been in the habit of using salesmen on the Lindsay Board in the same manner as the speaker claims to have been used. However, the reading of the article was objected to on the ground that Mr. Bailey was not at the meeting of the Lindsay Board in order that he might defend himself.

Mr. Thomas Blezard did not think the time of the Board should be so taken up. If the salesman of the East Emily factory had a grievence he should formulate it in a more explicit manner and not spend so much valuable time.

Mr. Bailey who had all this time waited very calmly, protested that the reading of the newspaper account should not be allowed. What Mr. Flavelle had said concerning him was false and he would meet him on his own ground.

Mr. Cook thought that the article should not be read. Then Mr. Bailey proceeded to reply to the charges of Mr. Switzer. He, (Mr. Bailey) at the last meeting of the Board had bought thirteen factories and it would be very extraordinary, indeed, if he should single out the Emily factory. Why did he not cull factories that he had bought at 9 1-2 cents instead of the East Emily factory at 9 7-16? He took every cheese in the thirteen factories excepting the East Emily cheese and that was because they were not fit to take.

Mr. Bailey then went on to relate his conversation with the cheesemaker and the salesman and the objectionable condition that the cheese were in when he called. The cheese maker had admitted to him that they were not fit to take. He dealt fairly, squarely and above board with the East Emily factory, he contended. Why did they not bring the inspector out to the factory instead of bringing in perhaps the best of a few plugs? Mr. Bailey also said that he was called a liar by Mr. Switzer.

The East Emily salesman desired to bring matters to a climax, and moved the expulsion of Mr. Bailey from the Board.

Then Mr. Bailey grew defiant. He invited anyone to second the motion, and for the president to put the question to the members. If they thought it was in the interests of the Board that he should be expelled, very well. They had got better prices during the time he was on the Board than they might otherwise have received.

Mr. John Riddell, the secretary of the Board, spoke a few calm words. He thought that what mistakes had already occurred could not be rectified. However, they should do better in the future. The Peterborough Board had in the past been spoken of as the banenr Board of the Dominion, but such good opinion would no longer exist if evil practices were to be continued.

Mr. Middleton, another salesman, whom Mr. Switzer contended also had a grievance against Mr. Bailey, made a few remarks, after which an agreement was arrived at. Mr. Wrighton and an inspector appointed by Mr. Bailey, will inspect the cheese of the East Emily factory, and Mr. Bailey will abide by their decision, and take the cheese, providing there is not more than 20 per cent. not good.

After some further discussion, in which salesmen and buyers took part, the sale of the Board was proceeded with.

Mr. Switzer's motion to expel Mr. Bailey did not get a seconder.

The following buyers were in attendance: Messrs. Bailey, Whitton, Wrighton, Rollins, Cook, Fitzgerald, Kerr and Cluxton.

The following factories boarded:

Keene	150
Warminister	130
Shearer	112
Central Smith	180
North Smith	125
Villiers	100
Warsaw	125
Westwood	175
Oakdale	150
Missing Link	80
Daisy D.	84
Melrose Abbey	178
Lakefield	150
Pine Grove	110
Peterborough	94
Otonabee Union	80
Maple Leaf	145
Myrtle	139
Norwood	200
Young's Point	110
Lang	185
Frazerville	150
Indian River	140
North Dummer	80
Ballyduff	60
East Emily	133
Trewern	120
Bensfort	180
Cedarville	88
Stony Lake	54
Cavanville	231
Crown	110
Mount Pleasant	102
Ferrytown	30
Blackstock	—
Norwood	200
Fleetwood	230
Oak Leaf	61
Darlington Union	108
Buckhorn	117
South Burleigh	35
Hope	30
Brickly	58
Shamrock	97
Ormond	283

The bidding opened at 9c. by Mr. Rollins; Mr. Fitzgerald went 9 1-8, and Mr. Whitton 9 1-4c.

He took Keene, Shearer, Villiers, Westwood, Lang and Ormond. Mr. Fitzgerald went 9 1-8, but Mr. Cook followed at 9 3-16, calling Norwood, Melrose Abbey, which accepted. He then offered 9 1-8 for further selections. No one cared to go any higher and Mr. Cook called Central Smith, Cavanville, Fraserville, Bensfort, Otonabee Union, all of which refused. Mr. Rollins went 9 1-8, calling Warminster, North Smith, Warsaw, Oakdale, Daisy D., Pine Grove, Maple Leaf, Young's Point, North Dummer, Cedardale, Stony Lake, South Burleigh. They accepted.

Mr. Fitzgerald called 9 1-8, but Mr. Bailey went 9 3-16. He picked up Bensfort, Frazerville, Otonabee Union, Mount Pleasant and Myrtle.

Cavanville sold to Mr. Cook at 9 3-16.

Mr. Bailey at 9 1-8 took Fleetwood, Oak Leaf, Missing Link. Peterborough refused and Central Smith refused.

Mr. Rollins pulled in Treewern at 9 1-8. East Emily went to Mr. Cook at 9 1-8. Central Smith and Buckhorn to Mr George Fitzgerald at 9 1-8. Indian River to Mr. Bailey at 9 1-8 and Ballyduff at Belleville inspection to Mr. Whitton at 9 1-16.

St. Vitus Dance cured by Miller's Compound Iron Pills. Sold by W. Madill.

HORTICULTURAL SOCIETY.

The annual exhibition of the Horticultural Society will be held in the Market Hall on Thursday afternoon and evening, Sept. 5th. Band will be in attendance. Admission 15 cents. There will be a fine display of Flowers, Fruits, Roots, etc., and it is well worth a visit. 4d

CHINA IN DISTRESS.

DIRE FAMINE PREVAILING IN THE NORTH CENTRAL PROVINCES.

Situation Graphically Portrayed by a Chinese Official Who Visited the Afflicted Districts—His Diary Covers a Period of Twenty Days—An Appeal to the World's Charity—Map of District.

The area affected by the Chinese famine is the north central provinces of China, the most serious conditions prevailing in Shansi and Shensi. These provinces are densely populated. An almost total failure of crops has depleted the supply and increased the price of food so that many hundreds have already perished of starvation, and the lives of many thousands are threatened unless relief shall speedily reach them. The sale of girls and young women is always a horrible feature of famines in China, and a most deplorable aspect of the present distress is the stories told of the barter of daughters by their parents who seek to procure food to keep themselves alive.

The press cables from China have given some idea of the extent and severity of the famine, but a copy of the diary of one of the Chinese relief commissioners who recently made a tour through the Province of Shansi, gives a more pitiful and touching

MAP OF FAMINE STRICKEN PROVINCES OF CHINA.

picture of the distress and despair prevailing in the provinces over which hangs the appalling hunger cloud. The diary covers a period of 20 days, during which time the commissioner helped to bury 200 dead bodies, all of them victims of starvation. It tells in simple but graphic terms of what he saw. From a translation of the commissioner's diary is taken some extracts, which need neither comment nor embellishment to constitute a moving appeal for sympathy and aid:

Started from Fung-chiang three o'clock in the morning. Saw many dead bodies on the road. The local authority was supervising their burial. In a deserted cafe met a boy about 14 dying from hunger. We rescued him and fed him with bread and water. He told us that both his parents and sisters died two days ago.

A dreadful scene in the woods today. A number of hungry birds fighting for a dead body. Many women and children were crying for mercy and drawing their last breath. We gave away all the provisions we carried with us.

Turned out of our way to a big city and tried to buy some more provisions, but could not get any. Had to stop there and wait for our provision wagon. Saw 56 dead bodies and hired some coolies to bury them.

Arrived Pei-mun. Distributed food to the starving and medicines to the sick. We had not drunk a drop of water, but did not feel thirsty. Could not eat a bite of bread; yet not feel hungry. Buried 66 dead bodies.

Arrived at Puchi bridge. Distributed food and medicine. A man here was selling his boy for $2. Asked him why, and he answered, with tears, that his wife was starving at home and there was no room in the hospital for her. He tried to sell their boy and save his wife. The boy was crying. We gave the man $4. Buried seven bodies.

Arrived at Pie-yin temple. Distributed food. Met a southern man with four girls, a Fung-yang man with six girls and a Hsao-hing man with four girls, all of whom were bought in the village at a very cheap price.

Arrived West Pie-yin temple. Distributed food. About 5 a. m. met a band of men (buyers of girls) fighting ten soldiers. One of the latter was killed and two wounded. The ruffians escaped with their goods in wagons and on horseback, though they lost ten of their comrades. Buried six dead bodies.

And thus the distressing tale continues, presenting in detail the record of conditions which must appeal strongly to the charities of the civilized world.

The Chinese Government is doing something, perhaps all it can, to mitigate the distress of the famine, but with the heavy burden the ancient empire is carrying as the result of the anti-foreign uprising and the consequent foreign invasion it is evident that help must come from the outside if the ravages of China's latest affliction are to be staid.

MANY BECOME DESPONDENT.

Many persons become despondent because they have been unable to find a permanent cure for Eczema (Salt Rheum) and kindred skin diseases, such as pimples, and blotches. "Climax" Iron Tonic Pills will positively cure these ailments and make the skin healthy. Each box contains ten days' treatment. Price 25 cents, at all druggists, or mailed on receipt of price. Address: The Dr. Hall Medicine Co., Kingston, Ont.

Trees Older Than the Pyramids.

A wonder of longevity is the so called dragon's blood tree of Teneriffe. Rosin obtained from this tree has been found in sepulchers, where it had been used for embalming the dead. Trees of this species are now standing which are estimated as being older than the Egyptian pyramids.

Never praise a woman's cake unless you are prepared to eat every slice on the plate.

The path of glory leads but to the grave, but it is the most pleasant route.—Portland Oregonian.

A SKETCH.

A builder's yard, a ship upon the ways,
The groan of straining planks, the snap of stays,
The cheering of a crowd: "She moves! She's off!"
And with a sudden rush and splash the great ship
Leaves the wharf.

A storm swept, foam tossed sea, a howling gale,
A ship half lost in foam, a rag of sail,
The tolling of a bell, now lost, now clear—
"The shore! The shore!" She strikes in crashing
Waves to disappear.

A summer's eve, a calm and wailing tide,
A dismal stretch of mud that tries to hide
The bones of some great vessel, prow on high,
Outlined against the sunset's last faint glow
Athwart the sky.

—Julian Hinckley in Outlook.

THE QUICK PACE OF DECLINING HEALTH

Wasted Nerves and Weakened Bodies Give way to Suffering and Disease—The Action of

DR. CHASE'S NERVE FOOD.

There are hosts of people who are susceptible to attack of various kinds of illness. Their systems are ever ready to take on disease. They bend under the slightest trial, and their health is jeopardized by every trivial exposure. They lack resisting power, and health declines because there is no nerve force to make good the waste by disease.

At first slight weakness, stomach annoyance, headache, heart fluttering, trembling of the hands and limbs, restless sleep, indicate something is lacking — that something is nerve force. Until the stock of nerve force is replenished the pace of declining health will increase, until lost vitality is expressed in every move.

Pale, languid, nerve-shattered people find exactly what they require in Dr. Chase's Nerve Food. It supplies the wants of wasted nerves, rebuilds the wasted cells, and renews the blood. Its wonderful cures are due to the fact that it restores natural nerve force; and it is lack of nerve force that causes most suffering these days. Brain nerves, heart nerves, stomach nerves give out, and all sorts of troubles follow.

Mrs. M. A. McCrea, Troy Hill, Ont., writes: "My system was all run down when I began to use Dr. Chase's Nerve Food. I was weak and very nervous, and felt so tired and worn out that I could scarcely drag myself about the house. It seemed impossible for me to get rest or sleep at night, and I felt that I was gradually growing weaker and more nervous and irritable. Since beginning the use of Dr. Chase's Nerve Food I feel altogether different. It has gradually strengthened my nerves and built up my system wonderfully. I sleep well now, and am being thoroughly restored to health and strength. I believe it is the best medicine to be had for the nerves."

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for $2.50. At all dealers, or Edmanson, Bates and Co., Toronto.

Appropriate, But—

When a man weds a grass widow,
And his dignity you would lower,
Just send as a wedding present
A secondhand lawn mower.

Not Without Excitement.

"You are not addicted to any kind of athletics, are you?"

"Athletics? Gracious, man, I earn a good living for a family of seven."

Man Helped.

"I may not be," the smooth banana said,
"The fruit forbid that brought to sorrow's bed;
Yet I confess that I have done my share
Toward assisting in the fall of man."

Doing Her Best.

Mother—Why, what's baby crying about?

Nurse—Please, ma'am, I can't catch flies as fast as he can eat 'em.

A Careless Wish.

The poet sighed, as poets do,
"If all my dreams would but come true!"
Twould be a merry lot, no doubt,
Unless fate cut the nightmares out.

Takes No Chances.

Friend—Can't you give me a tip on stocks?

Broker—Yes, but in consideration of our long friendship I won't.

On Fame's Highway.

Why strive for fame and fortune long,
Singers, or old or young?
Sometimes the silence is a song.
Sweeter because unsung

MOTHER EARTH.

Good, Common Sense About a Hackneyed Subject by Lally Bernard.

Providence has given us a magnificent climate, and education must teach us to arrange our lives with due reference to the meaning of that climate. This may seem a strange phrase, but we who live in cities where out feet tread the unyielding hardness of artificial pavements know little of the strange healing power and the soft impressiveness of magnetic mother earth; and this great mother calls for sympathy and understanding from her children, and as they rest upon her bosom and try to fathom the lessons of restfulness and healing imparted by her, a greater race is built up, who bring to the cities her force, her energy, healthful and strong, to work for the betterment of mankind. Could only those who have the care and responsibility of the coming generation on their hands realize how necessary it is to accept this lesson and bring those in our charge under the simple, restful influence of nature, discarding the hurry and stress of city life, not carrying it with them to their country houses, they would accomplish more than they do; not overcrowding their houses with visitors, but allowing social duties to remain in abeyance until the winter, when the natural climatic conditions point towards intercourse and gaiety to counteract the long cold period when nature is bound up in ice. If this were only recognized universally the race would benefit by the recognition. In olden days, and still in many parts of Europe, men of wealth "retire" to their country places. On this continent a country house does not suggest "retirement" by any means, and it is difficult to believe that the results can be as advantageous.

Of course, the excuse will be that the professional and business man has but little time during the winter to enjoy the society of his fellow-men. This, I think, is rather a poor pretext, for the present system on which business is conducted makes social intercourse between men imperative; in fact, I have heard it stated that a great many important transactions were mainly dependent upon the menu provided by the club where the man of business entertains his friends or possible clients. This being true, there is no reason that the quiet of family life should be disturbed during the summer vacation, when the parents can come in close touch with their children, perhaps for the first time in many months. There is much to be said, much to be thought of, in connection with the tendency of our social recreation in Canada. Again and again the query, "What are you going to do with yourself this summer?" has promoted the desire to reply, "Nothing, thank God!" "Nothing" in this case meaning leisure to dip into favorite books, to frequent favorite haunts, to let the world pass by, and to taste the "joys of the road" with Bliss Carman, and to follow Lampman—

"Up to the hills, where our tired hearts rest.
Loosen, and halt, and regather their dreams;
Up to the hills, where the winds restore us,
Clearing our eyes to the beauty before us.
Earth with the glory of life on her breast,
Earth with the gleam of her cities and streams."

—Lally Bernard, in Toronto Globe.

The Cause of Dyspeptic Pains.

They arise from the formation of gas, owing to improper digestion. A very prompt and efficient remedy is Polson's Nerviline. It relieves the distention instantly, and by its stimulating action on the stomach, aids digestion. Nerviline cures dyspeptic pains by removing the cause. Nerviline is also highly recommended for cramps, colic, summer complaints, and inflammation. Sold in large 25c. bottles everywhere.

The Future of Canada.

There is no reason why Canada should not have 25,000,000 population within the span of the present generation, says J. D. Whelpley, in the August Atlantic. Her wealth is increasing at a four-fold ratio. Her tremendous resources are only just beginning to be appreciated, and there is no apparent limit to their ultimate development. Conscious of her value to her great neighbor, fully appreciating the necessity of the good-will of that neighbor, she is chagrined at the rebuff she believes she has met. With anxious interest she is now watching the war of Europe against the commerce of the United States, not in the hope that Europe will win, but in the expectation that all parties thereto will in time reach the conclusion that commercial war is a useless expenditure of valuable forces which should rather be utilized in the making of conventions to enable the trade of one country to fit advantageously into that of another. Canadian statesmen look with confidence to the future to bring about some such result, and anticipate with equal optimism an early awakening of the United States to the promise of her neighbor to become the first instead of the third greatest customer for the produce of American labor.

A Red Hot Season.

During the hot summer season the blood gets over heated, the drain on the system is severe and the appetite is often lost. Burdock Blood Bitters purifies and invigorates the blood, tones up the system, and restores lost appetite.

A Montreal Case

C. C. Miller cured of a Chronic Case of Rheumatism by Powley's Liquified Ozone.

We want you to know about Mr. Miller's case. He suffered from chronic rheumatism and was cured by our preparation. He is a citizen of Montreal. He will tell you about his cure if you ask or write him.

Some years ago Mr. Miller had his health and was able to devote his time to his affairs, which grew and prospered. After a while his blood became impure, he began to suffer pain, and he knew that he was affected with incipient rheumatism. His condition gradually became worse, his joints stiffened, it became difficult for him to walk and each time he moved it caused him excruciating pain.

He was forced to give up his establishment. He consulted eminent physicians and spent a great deal of money in medicines. He was so bad that he regarded anything that gave him relief from pain for five minutes as a splendid preparation. He became down-hearted and looked on his case as absolutely incurable.

One day he heard about the wonderful cures Powley's Liquified Ozone had been making with blood disease, and he purchased a bottle. Although he was discouraged, he received benefit from the first and he kept on. In a short time he was completely cured. This is what he says about Powley's Liquified Ozone:

"Its cure of my case was particularly gratifying. I was so grateful for the benefit it did me that I brought a supply of it with me when I came to Montreal, fearing I would not be able to get it here. My house is never without Powley's Liquified Ozone now, and I would not be without it, no matter what it cost. I feel as young and active as I did before I was sick. I am able to work every day, in fact, I can do a better day's work than ever before in my life."

(Signed) C. C. MILLER, 2141a St. Catherine St., Montreal.

This is simply a statement of facts. We believe you will profit by considering this case. The cure is remarkable. It shows the power of our preparation to cure disease.

Consult our physician about your case. Write full details and you will get a specialist's advice free. Your letters are absolutely confidential. Address the Consulting Department, The Liquid Ozone Co., 329 Kinzie St., Chicago, U.S.A.

No. 1 and No. 2 sold by all responsible druggists in Peterborough.

NERVE OF ENGINEERS

IT DOES NOT, AS A RULE, DESERT THEM AFTER AN ACCIDENT.

Desperate Chances the Man at the Throttle Will at Times Take Without Being Able to Give a Satisfactory Reason For His Action.

"I have been often asked why railway engineers disregard their instructions and the warning signals along the line of their road," said the general superintendent of a railroad to a man, "and I have summed it up that it is human nature for men to take chances in their business and that engineers are no exception to the general run.

"Sometimes they cannot give a satisfactory reason why they do so. I will give you an authentic instance of this habit which made me live 10 years in 30 minutes.

"On a road I was at the time connected with was a long trestle over a bay several miles in length, with a drawbridge in the center. The draw had been opened, and as a tugboat was passing through the bridge men heard the rumble of a fast, heavily laden passenger train as it struck the bridge a mile away. Knowing that the red danger signals were set with the opening of the draw, they supposed that the engineer would slow up or stop, as might be necessary. Instead, to their consternation, the train came along at regular speed, and a frightful accident appeared inevitable. They yelled to the captain of the tugboat to go at full speed, and as the boat glided through the draw in the darkness they exerted themselves to swing the draw into the locking bolts before the train could get to the point where the rails separated.

"The engineer, however, disregarded the last danger signal, a few hundred yards from the draw, and came on. By a remarkable coincidence of time and position the draw, which was of course in motion, swung so that the rails of the east bound track were in juxtaposition with the west bound track, upon which the train was running, and the heavy engine and one of the passenger coaches, striking the east bound rails, glided upon the draw and stuck there, the remaining portion of the train being on the west bound track, making almost a figure 8 of the coaches.

"If the draw had moved the thirtieth part of a second faster or slower, the east bound rails would not have been opposite the west bound rails at the very instant that the great engine struck them, and a frightful disaster would have resulted. When I got out on the bridge a few minutes later, I fully expected to find the train in the bottom of the bay and the draw smashed into splinters. I discharged the engineer on the spot and asked him why he had not observed the signals. He admitted that he saw them, but could not give a satisfactory reason for failing to observe them. He evidently took his chances of finding the draw closed when he reached it.

"The engineer of today is a sober, steady, nervy man, especially on the fast express trains on the big roads. It is nerve that makes one man carry a limited express train through the darkness of the night, fog, sleet and blinding snow at 60 miles an hour. The stories we read about of an engineer losing his nerve after an accident are largely fiction. In 27 years of active railroad life I have had but one or two men apply to me for a transfer upon the ground that their nerves had gone back on them for running the fast trains.

"I have had men who have been flung 50 feet over their tenders in a head on collision and had a dozen bones broken come to me after they had been discharged from the hospital and ask to be put back on their old run. You see, they begin firing when they are about 18 or 20, and the cab of an engine is their home. If they run into a person or a wagon load of people on the track, if it is not their fault, they take a practical view of it; they have to. If it is their fault, we discharge them, and they can take any view of it they please then, for we do not wish in our employ careless men. This is true with all of the big roads, and as a result American engineers of today are about as model a set of men in their employment as can be found."

Things Not Wanted.

Dogs, pianos and typewriters are the possessions most frequently advertised for sale at second hand, according to an advertising man. Cameras run these three hard in the sale of things desirable to get rid of, and bicycles come next.

Bicycles and cameras would probably head the list, so many people seem to wish to be rid of them, but their tenure of advertising popularity is usually brief. Household furniture, horses and carriages come next in the list. Then jewelry, watches, sewing machines and musical instruments.

Books are far down, almost the last in the list. Folks who have them usually seem to wish to keep them.

The Charge Not Sustained.

"You say," pursued the chairman of the investigating committee, "that he resorted to no bribery whatever during the election so far as you know?"

"Yes, sir," replied the witness; "that's what I said."

"Did he not circulate several boxes of cigars?"

"Yes, sir, but them cigars wasn't bribes. Here's one of them. You try it."

Imitations

of Dodd's Kidney Pills are legion. The box is imitated, the outside coating and shape of the pills are imitated and the name—Dodd's Kidney Pills is imitated. Imitations are dangerous. The original is safe. Dodd's Kidney Pills have a reputation. Imitators have none or they wouldn't imitate. So they trade on the reputation of Dodd's Kidney Pills. Do not be deceived. There is only one DODD'S. Dodd's is the original. Dodd's is the name to be careful about—

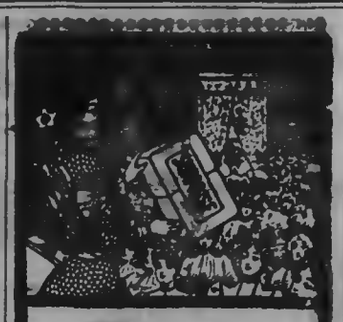
After Baby Comes.

In the days following the baby's birth there is often a long up-hill struggle to recover strength, and the nurse busies herself in the preparation of jellies and broths for the invalid.

When Dr. Pierce's Favorite Prescription is used as a preparative for motherhood the baby's advent is practically painless, there is abundant strength to nurse and nourish the child, and a rapid recovery from the shock and strain inseparable from maternity.

"I was pleased that Dr. Pierce answered my letter," writes Mrs. C. W. Young, of 21 South Regent Street (Lee Park), Wilkesbarre, Penna. "When I had those mishaps I began to think I would never have children. My back used to almost break and I would get sick at my stomach and have such headaches I did not know what to do; they used to set me nearly crazy, and I used to dread to get up, I felt so bad; then I began taking Dr. Pierce's Favorite Prescription. When baby was expected I took it all the time I was that way. I felt fine all the time, and I never get those dizzy spells now. I hardly ever have a nervous headache any more. I have a perfect romp of a boy; he is the light of our house. I am now twenty years old and my baby is almost eight months old. I now feel well, and weigh 180 pounds, and the baby 23½ pounds. We feel very grateful for the good your medicine did for us. We are both healthy, thanks to Dr. Pierce's medicine."

Dr. Pierce's Pleasant Pellets keep the bowels healthy.



An Object Lesson

to the average housewife is the ease with which washing can be done when Surprise Soap is used.

It is a pure, hard soap which means to the economical housewife that it goes further than other soaps.

It is therefore a money-saving soap.

For best results follow the directions on wrapper.

St. Croix Soap Mfg. Co.
St. Stephen, N. B.

Telephones 130, 195 or 215, day or night.

WASHDAY WISDOM.

A very hot iron should never be used for flannels or woolens.

Calicoes, ginghams and chintzes should be ironed on the wrong side.

Clotheslines are made much more durable by boiling for ten minutes before they are used.

Table linen should be ironed when quite damp and ironed with a very hot and very heavy iron.

Irons should not be allowed to become redhot, as they will never retain the heat properly afterward.

Embroideries should be ironed on a thin, smooth surface over thick flannel and only on the wrong side.

Linen may be made beautifully white by the use of a little refined borax in the water instead of using a washing fluid.

Wash fabrics that are inclined to fade should be soaked and rinsed in very salt water, to set the color, before washing in the suds.

Silken fabrics, especially white silk handkerchiefs, should not be dampened, but ironed with a moderately warm iron when taken from the line.

His Test.

A dealer in pictures who makes it his business to find as many new painters as possible, both in this country and abroad, was asked in regard to his methods of selecting pictures to buy. He was very frank in his talk, and one thing which he said is shrewd enough to be worth quoting.

"Of course," he said, "with my experience I am able to judge whether there is promise in a painter's work, but I never buy with any idea of putting the painter on my list until I have seen the man and talked with him myself. I always watch him closely, and I never buy his pictures unless his eye lights up when I talk to him about his work and about his profession."

The artist whose heart was really in his work could not discuss it without kindling, and the man who did not paint from the heart was not the one whose pictures the dealer wanted.

A Bird of Passage.

"And where, may I ask, do you generally reside?" the young man said after all other subjects had been exhausted.

"Oh, I have no fixed abode," Miss Mobile replied, "but I usually pass the greater part of the winter in Reading. In Lent I find myself attracted to St. Paul. After Easter I go down to West Virginia and spend the summer and part of the autumn in Wheeling."

"And then"—

"Then, Mr. Heavy, I find myself admirably prepared for a month or two of Aiken."

Lessons in Nature.

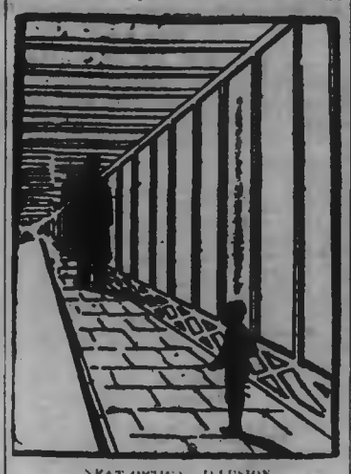
Sir Henry Hamilton Johnston, special commissioner for the Uganda protectorate, has returned to London after an absence of two years. He brings stories of Uganda, "a section of Africa which has been depopulated by wars and is now marvelously stocked with big game of all kinds, as tame as if they were roaming in an English park. Even lions are so busy feeding themselves with what they need that they take no notice of the approach of men. And there is no sport in killing any game, so peacefully all the wild species have learned how to live there.

There is nothing wonderful in that incident. It corresponds with the experience of all men who have first invaded any solitude in which the so called brute creation had not yet learned how to fear man, the only being who can be a brute because the only one who can choose between brutality and nobility, who can prefer the wretched excitements of wars, murder, destruction, to the boundless joys of peace, life and beauty.

It Deceives the Eye.

A well-known psychologist has been experimenting with optical illusions and he has found some new designs that completely deceive the human eye.

Here, for instance, is a strange picture that has interested him. At first glance you would not doubt



NEAT OPTICAL ILLUSION.

that the man with the top hat and the cape coat was much taller than the small boy in cap and knickerbockers. Yet an actual measurement of the two figures with a pair of compasses or by marking on a piece of paper will show you that they are precisely of the same height. Try it.

The World's Fur Supply.

Most of the world's supply of furs comes from the Russian Empire and the Dominion of Canada. The hunters of Russia and Siberia annually capture 3,000,000 ermines, 16,000,000 marmots, and 25,000,000 squirrels.

What is Life to You?

If you are a victim of piles, as one person in every four is, you suffer keenly from one of the most torturing ailments known to man, and may well wonder if life is really worth living. Certain relief and ultimate cure is awaiting you by means of Dr. Chase's Ointment. It has never failed to cure piles. Painlessly and naturally it allays the inflammation, heals the ulcers and thoroughly cures this wretched disease.

A Banquet.

First Mosquito—Anything on this afternoon?

Second Mosquito—I believe not.

"Then come over to my house and join me at a baby's nap."

Aristocracy.

Two horses met. The one was a scrub
And the other a thoroughbred,
And the horse that wore the panama hat
Cut the horse with the chip hat dead.

These Printers.

"Well, that's the worst yet!"

"What's the matter?"

"My magazine poem entitled 'Baffled' appears under the head 'Raffled.'"

Builds up the System
Strengthens the Nerves
Cures Constipation

PLEASANT TO TAKE

A combination of the extracts of Celery, Sarsaparilla, Burdock, Cascara, Mandrake and Buchu, with Hypophosphites of Iron, Etc

50 Doses —— Price, 50c.

PREPARED BY
The Merrill Medical Co.
DRUGGISTS
Brantford, · Ontario

"System Tonic" Copyrighted

SYSTEM TONIC IS A SCIENTIFIC REMEDY AFTER THE SUGGESTIONS OF THE BEST PHYSICIANS IN AMERICA. DISPENSED BY A CHEMIST.

Fac-Simile of Genuine.

CONSTIPATION

The Greatest Factor in the Death Rate

This trouble has been well named the foe of mankind. More unpleasant symptoms, disease and deaths can be indirectly traced to constipation than to all other causes combined. But strange to say, as true and alarming as the above statement is, the majority of people afflicted give themselves but little concern. And just here is wherein the great danger lies. People do take physic, it's true, and relieve the present symptoms, but they do not press on diligently in search of a cure. By cure we mean restoring the natural healthy movement of the bowels day in and day out the year round without the aid of physic. Now this result is positively and absolutely guaranteed if you take Merrill's System Tonic. The alterative effects of Sarsaparilla, Red Clover and Burdock contained in it restore the glands, and more fluids are secreted in the stomach and bowels. Then the muscular toning effects of Hypophosphites therein restore natural muscular power to the muscles of the bowels which control evacuation. This is the scientific and correct way and differs altogether from the pill or physic idea, in which some irritating principle causes a movement in such a way as to make more necessary a repeated dose. Clear skin, buoyant health, active brain and vivacity follow the permanent cures of this trouble made by Merrill's System Tonic.

Each 50c bottle contains 50 pleasant-to-take doses, and is sold

AT ALL DRUG STORES.

And in Peterborough at ORMOND & WALSH'S, leading drug store, corner George and Simcoe streets, or sent six bottles for $2.50, prepaid.

MR. WHITNEY'S POLICY

Continued from 1st page.

to the fact that their education begins and ends in the Public School. Under the present system the individuality of the pupil and the moulding of character are entirely lost sight of in favor of the machine-like system of written examinations, the effect of which, in our system, is, as Principal Grant aptly and significantly observes, "to cramp the mind and destroy the 'vitality.'" The teachers of the province should be called upon to contribute from their very valuable experience by choosing, from among themselves, members of a consultative body which will represent the combined wisdom of the best qualified men in the province, and whose advice will be always at the command of the Minister. The urgent needs of the University of Toronto should be dealt with in no niggardly spirit. The University should be put on a sound, stable and permanent footing, and delay will in this respect be the sure forerunner of further stagnation and decay. As already indicated, the claims of Queen's University must be considered in no captious or technical spirit, and having regard to the great educational work which it has performed and will perform in the future. The burden imposed upon the people by the frequent changes and high prices of school books must be lightened, even if the Government has to print the books and sell them at cost.

Municipal Law and Assessment.

Owing to the neglect of the Government, the volume of municipal law has become cumbrous, involved and unwieldy, and should be thoroughly condensed and revised. The most crying evil in our municipal system to-day is the very unsatisfactory condition of our assessment law. For some time the Government has for the reasons already indicated encouraged a scheme of assessment which would unduly favor certain corporations at the expense of the ordinary ratepayer, the last step towards the accomplishment of which was taken when the Premier introduced last session the bill containing the monstrous proposition enabling municipal councils to exempt from taxation the property of certain corporations for three years at a time without the consent of the ratepayers. The fact that the leader of the Government dared to submit such legislation, coupled with the fact that he carefully refrained from alluding to it when before the people, is a significant indication of the position of the Government with relation to the great corporations, and a startling intimation to the ratepayers of the province of the dangers that confront them. Will the ratepayers quietly submit, or will they give their assistance to the Opposition, so that this question may be settled once and forever in their favor.

Ballot Stealing.

While the moral sense of the people of Ontario will no doubt soon speak in unmistakable tones and render it very difficult, if not impossible, for a Government ever again to hold power by virtue of the violation of the ballot box and the destruction of the evidence of guilt, or to stand between the actual perpetrators of these crimes and their just punishment, yet legislation must be had to render collusion between such criminals and the beneficiaries of their crimes impossible in the future.

As to the difficulties in the way, we must not forget that, at present at any rate, the men in whose power it may lie to expedite or retard such legislation are those who could see no harm in the infamous census circular, those on whose behalf the bye-elections of 1898 were stolen, those who have not felt ashamed to hold office and receive salaries under such circumstances, those in whose interest the incriminating ballots in West Elgin were burned, those who carefully concealed the destruction of this evidence, those who strained every nerve to prevent full investigation, those who have so far successfully cheated justice and shielded from punishment the ruffians, whose acts have kept them in office; and the people will not forget that after all this their leader with "face of triple brass" announces to the people whose honor he has outraged, that a portion of his policy will be "the improvement and enforcement of all laws affecting public morality," and, further, "I shall devote all my energies not simply to the development of the country but to the moral improvement of the people. Righteousness exalteth a nation."

As Mr. Whitney resumed his seat he was loudly cheered. A vote of thanks to the leader was moved by Mr. W. H. Hoyles, seconded by Dr. Kaiser, South Ontario, and carried enthusiastically.

Conservative Officers Re-Elected.

Toronto, Sept. 4.—At yesterday's business session of the Ontario Liberal-Conservative Association, in Victoria Hall, the question of organization was the principal topic. Among the speakers were: William Clark, M. P., Lieut.-Col. Tisdale, M. P., John W. Coy of St. Catharines and L. Clarke Raymond of Welland.

The officers were all re-elected, as follows: Honorary Presidents, R. L. Borden, Sir Mackenzie Bowell and R. Shaw Wood of London; President, J. J. Foy, K. C.; Vice-Presidents, Dr. Beattie Nesbitt, Richard Blain, M. P., and G. F. Marter, M. P. P.

"Your friend, Mrs. ———, is looking much improved in health. Yes, we persuaded her to use Miller's Compound Iron Pills with the result you observe." Sold by W. Madill.

THE FIRST FALL DRILL.

The 57th Preparing for the Toronto Trip.

There was a Fairly Good Turn out of the Men Last Night—The Orders That Were Read.

The first fall drill of the Peterborough Rangers was held last night, and considering the fact that many are still away on their holidays, it was fairly well attended.

Regimental drill was the order of the evening, and the Sergt. Major spent some little time in putting the men through their facings. The companies are filling up in fine style, and there is no doubt that the 57th will be recruited up to its full strength when they go to Toronto.

A rather noticeable feature in connection with the orders is that for the first time in twenty years Major Miller has asked for leave of absence from drill, and it is only for a brief period at that.

The following orders were read:

Headquarters, Peterborough.
Sept. 3, 1901.

Orders by Lieut.-Colonel E. B. Edwards, Commandant 57th Regiment, P.R.

No. 1. The following extracts from General Orders are promulgated for the information of the Regiment:

"57th Regiment, Peterborough Rangers, Captain and Adjutant H. A. Morrow is transferred to the reserve of officers, 11th of June, 1901.

"To be Adjutant, with the rank of Captain, under the provisions of Paragraph 30, (2), Regulations and Orders, 1898, Lt. D. Walker, vice H. A. Morrow transferred 11th June, 1901."

No. 2. By Militia Order No. 188 of Aug. 17th, 1901, the 57th Regiment has been named as one of the corps to be held in readiness to take part in the review at Toronto, in honour of His Royal Highness the Duke of Cornwall and York.

The following form parts of the same order: (d) On no account will any man be selected who has not performed at least one militia training within the last three years. (g) The Major General commanding desires that all ranks be impressed with the importance of the orders issued to them being carried out in the spirit as well as in the letter, as with the large number of troops to be assembled, and the very limited space available, it will be impossible for staff officers o fthe various commands to make adequate and satisfactory arrangements, such as will ensure their respective parades being successful and creditable to the Canadian forces, unless they receive the loyal support of all ranks.

No 3. In order to make preparations for this review, which will be held on or about the 10th of October next, and also for the annual inspection to take place about the same date, the usual Tuesday parade will be devoted to Battalion Drill, and captains of companies will arrange for an extra weekly drill of their respective companies.

No. 4. Recruit drills will be held on Monday and Thursday of each week at 8 p.m., under the instruction of the Sergeant Major, and all recruits are required to put in at least six recruit drills.

No. 5. In order that the Regiment may present a creditable appearance, all ranks are required to be punctual and regular in attendance at drill.

No 6. Detail of duty for the week ending September 10th: Captain for the week, Capt. Clegg; next for duty, Capt. Bennett. Subaltern for the week, 2nd Lieut. Bradburn; next for duty, 2nd Lt. Layfield.

No. 7. Provisional Sergeant Alexander, "F" Co., having been discharged, is hereby struck off the strength of the Regiment.

No. 8. Leave of absence from parade is hereby granted to Major Miller.

No. 9. Captains of companies will draw tunics from the Quartermaster's stores for their respective companies to be used when specially ordered.

No. 10. The Commanding Officer has been pleased to make the following promotion: "F" Co., to be Sergt., (provisionally), Provisional Corporal R. Watt.

By order,
D. WALKER, Lieut.,
Adjutant.

THE CHURCH IN RELATION TO LABOUR.

Organized Labour Heartily Endorsed—The Duty of the Church Towards Workingmen.

Rev. J. C. Davidson, rector of St John's church, Peterborough, has resumed his duties after a holiday season, Rev. Mr. McCollum, the rector of St. Thomas' church, Toronto, having during the summer taken the services at St. John's and All Saints', and though an octogenarian in years his sermons of the old school were very highly enjoyed by those who heard them. On Sunday night Rev. Mr. Davidson presented what might be called a labour service. Hymns with special reference were sung and the sermon from the text—"Wist ye not that I must be about my Father's business?" dealt with the subject of work and workers. Mr. Davidson very frankly expressed himself as being in favour of organized labour, and combatted the idea advanced by some that should organized labour become universal there would be danger to the state from labour seeking its ends in a way that would subvert order and disrupt society. The preacher declared that the danger was not from this source, but lay in organised labour seeking its ends without regard to religious principles. He regretted that so few working men were seen in our churches, an anomalous condition when it was considered that the church like its great Founder was the friend of those who labour. Our blessed Lord, not only was an example of secular work in pursuing the trade of a carpenter, but He was a pattern of higher work by the zeal with which He went "about His Father's business." The church was the natural friend of labour, and if its members used greater diligence in associating themselves in a spirit of sympathetic helpfulness with the working man there would be more of these found in our churches and benefitted by the nobler influences they were designed to exert. During the offertory Mrs. McCallum, of Boston, sang in a very sweet and well-trained contralto voice, the beautiful composition, "He was despised and rejected."

The Agony of Sleeplessness.

Did you ever pass a single night in wakeful misery, tossing and rolling in bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding night growing worse and worse? This is the most dreadful symptom of Nervous Exhaustion and Debility. You can be gradually and thoroughly cured of Sleeplessness by the upbuilding influence of Dr. Chase's Nerve Food. It cures in nature's way, by creating new nerve cells and restoring lost vitality.

EQUAL TO ANY EMERGENCY

Gough Bros.

LATEST TRIUMPH.

COLOSSAL SHIPMENTS
—OF—
NEW FALL CLOTHING,
SHOES, HATS, AND FURNISHINGS.

Our enormous collection of Merchandise for Fall presents a striking object lesson of the onward stride that has been made since last Fall in the manufacture of High-Class Ready-to-Wear Fall Suits, Light Overcoats, Boots and Shoes, Hats, Caps, Furnishings, etc., for Men, Young Men and Boys. But—

THE CRUX OF THE SITUATION

is this—that Gough Bros. are ready and equal for any emergency. When you want to be dressed from top to toe for any particular occasion—no matter what—let GOUGH BROS. know of your wants. If you prefer a Suit made to your measure, our Custom Tailoring Department is ready for your order. Expert cutters and tailors are bound to fit you.

We take a back seat for no one, and we do guarantee our prices cannot be duplicated in town.

Our reputation does not rest alone upon supplying the BEST at the LOWEST PRICES; the prompt and faithful manner in which we look after our customers' wants has something to do with it.

Being in Close Touch With all Markets

implies constant opportunities. Buying for Eight Large Stores implies large discounts to us.

Spot cash and big outlets implies tempting chances—the closing out of a factory's surplus, the relief of a manufacture's congestion, are prizes that can be captured only by hard coin and enormous sales.

Times are Good—There's no Calamity A-brewing.

We've been to market. We are ready to go again to-day—for EQUAL BARGAINS. We haven't lost our moorings or our heads.

SCHOOL OUTFITS
FOR YOUNG CANADA.

We have marked prices of Boys' School Suits, School Shoes, Hats and Furnishings beyond the touch of competition. Some great Special Snaps for Parents who bring their boys early. You can not resist our tempting Bargain Prices.

THE BOOM IS ON AT GOUGH'S.

LABOURERS!

WORKING MEN—You who have at all times shown us by your constant patronage that you are alive to your own interests—remember that we sell the goods necessary for your every day toil at prices within the range of wage-earners of every circumstance: less by a half than you pay elsewhere.

THE BEST STORE ...FOR... **WEDDING PRESENTS.**

September is another favourite month for weddings. This store anticipates the wants of all concerned in the giving of gifts.

We have more exclusive things to show than ever before, and we ask nothing better than a chance to show them.

Schneider
Optician and Jeweler.

PENITENTIAL LETTER

Prince Chun Reads Chinese Emperor's Apology to Germany.

FORMAL PENITENCE AND SHAME.

Prince Chun Likewise Made a Flowery Speech on Behalf of His Most Illustrious Master, but Emperor William Was Hardhearted and Told Him China Must Not Delude Herself.

Potsdam, Sept. 5.—Emperor William received Prince Chun at noon in the presence of the Royal Princes, Baron Von Richthofen, the Foreign Secretary, the principal ministers and generals and the court dignitaries. The Prince read a letter written in yellow ink to the Emperor, as follows:

Son of Heaven's Apology.

"The great Emperor of the Chinese Empire to His Majesty, the great German Emperor, greeting:

"Ever since the Empires have been mutually represented by permanent legations, we have stood uninterrupted in friendly relationship with one another, especially since the visit of Prince Henry, whom I had the privilege of receiving frequently and treating with on intimate terms. Unfortunately in the fifth month of last year the Boxers rebelliously penetrated into Pekin and the soldiers joined them. The result was the murder of Your Majesty's Minister, Baron Von Ketteler, a man who, as long as he occupied his post at Pekin, paid careful attention to the interests of our countries, and to whom we are bound to pay our especial acknowledgements. We regret most deeply that Baron Von Ketteler met so terrible an end among us. The fact that we were not in a position to take due protective measures was painful to our sense of responsibility. It was this feeling of responsibility which prompted us to erect a monument on the spot as a sign that the crime should not remain unexpiated. Further, we have sent to Germany with this letter the Imperial Prince Chun, Tai Fong, heading a special mission. Prinze Chun, our own brother, will assure Your Majesty how deeply the events of the past year have grieved us, and how deeply feelings of penitence and shame still animate us. Your Majesty sent your troops from a long distance to put down the Boxers' rebellion and restored peace, for the welfare of our nations. We have, therefore, commanded Prince Chun to express personally to Your Majesty our thanks for your efforts in promoting peace. We cherish the hope that Your Majesty's indignation will be replaced by the old friendship. That the relations between our Empires will be even more extensive and of a more intimate and beneficial character than hitherto, is our firm assurance."

Prince Chun's Speech.

Prince Chun, in delivering the letter, said:

"I am in a position to assure Your Majesty, that the Emperor, my most gracious master, stood aloof from these complications which brought misfortune upon China, and loss and care upon Germany. Nevertheless, in accordance with the customs of thousands of years, the Emperor of China has taken the blame on his own sacred person. I have, therefore, the task of expressing to Your Majesty the most cordial feelings of the Emperor, my illustrious master, toward Your Imperial Majesty and the whole Imperial family. I hope the passing cloud will only intensify the succeeding sunshine and friendship of the two great Empires when they understand the value of each other better."

The Kaiser's Reply.

Emperor William said: "It is no joyous or festive occasion, nor the fulfilment of a simple act of courtesy which brings your Imperial Highness to me, but a deeply melancholy and very serious event. My Minister to the Court of the Emperor of China has been slain in the capital of China, by the murderous weapon of an Imperial Chinese soldier, acting under superior command, an unheard-of crime, which is branded as infamous by international law, and the usages of all nations. From the mouth of your Imperial Highness I have just received an expression of the deep regret of the Emperor of China. I readily believe your Imperial brother, personally, stood aloof from this crime, and the subsequent acts of violence against the inviolable legations and peaceful foreigners, all the greater guilt resting on his advisers and Government. The latter must not delude themselves with the belief that they are able to obtain atonement and pardon for their guilt by the expiatory mission alone. They will be judged by their future conduct, in accordance with the laws of nations. If the Emperor of China conducts the Government of his great Empire henceforth strictly in the spirit of these prescriptions, then will his hopes be fulfilled and the results of the complications of the past year will be overcome, and between Germany and China, as formerly, peaceful and friendly relations will again prevail. In the sincere wish that this may be so, I bid your Imperial Highness welcome."

British Opium Trade.

Great Britain's revenue from the Chinese opium trade amounts to $40,000,000 yearly.

CAPITAL AND LABOR

Both Sides of the Steel Strike Again Have a Conference.

SO FAR IT HAS BEEN FRUITLESS.

The Peace Talk Was Held at the Instance of President Gompers of American Federation of Labor and President Mitchell of the United Mine Workers—Mr. Schwab's Terms.

New York, Sept. 5.—Terms of peace in the steel strike were discussed at length yesterday at a secret conference between officials of the W. S. Steel Corporation, leaders of union labor and representatives of civil organizations, which have intervened. No decision was reached and the decision to continue or terminate the strike must be made by the strikers. The labor leaders were in communication with Pittsburg during the day and it was anticipated that they would further discuss the subject with the Amalgamated men before they proceeded any further with the peace plan.

The conference was asked for in behalf of President Gompers of the American Federation of Labor, and President Mitchell of the United Mine Workers' Association. President Gompers announced that he would be in New York again to-day, which is taken as an indication that he has not given up hope of affecting a settlement.

The labor leaders claim to be satisfied with present conditions and claim that ultimate victory will be theirs.

Schwab's Proposal.

The Evening Telegram says: Charles M. Schwab's proposal to the strikers was that the company shall retain as "open" mills all those which it has succeeded in starting and operating since the strike was declared on. All mills which the strikers have kept closed, Mr. Schwab agrees shall remain union mills.

These terms will be submitted to President Shaffer and the Executive Board of the Amalgamated Association.

MR. BROWN'S SELECTION.

Some Further Changes in the British Columbia Cabinet.

Victoria, B. C., Sept. 5.—Messrs. Martin and Gilmour arrived from Vancouver last night. The latter may be offered a post in the Cabinet in preference to Mr. McInnes. The resignation of Mr. McBride was hardly expected, as many believed he would still retain office, however distasteful Mr. Brown might be to him as a colleague. He was generally congratulated last night on the stand he had taken, and the independence manifested. It is the belief of most of those who have studied the situation that the bye-elections will be brought on at once, and there will be, therefore, little delay in giving the public a chance to pronounce upon the popularity of the selection of the Premier. It is generally believed that Mr. Brown will have little difficulty in being returned in the City of New Westminster, where the prestige of a Cabinet Minister, coupled with the esteem in which he is held will give him a strong position. He will likely have to count on the active opposition of Hon. Richard McBride, who will undoubtedly put up a strong fight against him.

Yesterday afternoon Mr. McBride formally handed over the Department of Mines to his deputy, Capt. Richardson, and vacated the office and portfolio which he assumed when Mr. Dunsmuir's Government was formed. In conversation to-day Mr. McBride gave a distinct and positive denial to the rumor, which has been industriously circulated, that he resigned from the Cabinet because his new colleague was a Liberal. "The fact that Mr. Brown was a Liberal," he said, "had nothing whatever to do in shaping my conduct. I resigned because Mr. Brown is a Martinite, and in including a Martinite in his Cabinet I consider that Mr. Dunsmuir has betrayed his party."

Mr. Smith Curtis is out with a strong interview, in which he condemns Mr. Dunsmuir's vaunted Liberalism and Mr. Brown's treachery.

The Times is also strongly antagonistic to the new arrangement.

GAUDAUR AND TOWNS.

Boat Race Postponed a Day Owing to Rough Water.

Rat Portage, Ont., Sept. 5.—At 5 p. m. there was nothing to mar a perfect race yesterday afternoon except a rather stiff breeze, which made the water choppy. Neither of the men seemed to fear much, however. Towns was out and took a spin around the course in the morning, but Gaudaur saved himself for the afternoon. He has every confidence in winning, and the citizens have no doubt regarding the issue. They have strung an electrical sign with his name on it across Main street, and will light it up to-night. The excursion train from Winnipeg arrived at 1 o'clock after a good run. A big crowd came down.

Late last evening the race was declared off until Thursday afternoon at 4 o'clock. A boom had drifted across the course, and could not be moved before it was too dark to finish the race to the satisfaction of 10,000 people who lined the shores of the lake

WANTED.

WANTED—GOOD SET OF HARNESS for delivery waggon, at once. Box 26, Examiner Office. 1d

You Can't
Afford to be Without a

Coal Oil Stove

this summer. No weary waiting for meals in the home that is blessed with a Gas Stove. The striking of a match, the burning of a wick, and the fire is already well under way—and without heating up a kitchen on a hot day.

Labour, trouble, expense, and discomfort saved. Various styles and sizes to choose from at

ADAM HALL'S

407 GEORGE STREET.

Daily Examiner.

London (England) office—148 Fleet treet, E. C., Central Press Agency Limited, Special Agents.

THURSDAY, SEPT. 5, 1901.

EDITORIAL NOTES.

If both the C.P.R. trackmen and the C.P.R. officials are satisfied with the strike settlement the outside public have no reason to find fault, especially the travelling public, who will be pleased to exchange the bone-shaking of a neglected road-bed for the comfort of a well-groomed track.

The Government of South Australia is looking for the best qualified man to teach the people of that colony up-to-date agriculture, and have applied to the Dominion Government to furnish such a man. Our antipodean cousins have come to the right shop. Canada is a good place to come for competent agricultural professors, and the best part of Canada to hunt for such game is Ontario. This province has made a great success of agriculture. The men trained in Ontario are in demand. We in Ontario trained Prof. Robertson to such a creditable and desirable degree that the Conservative Government at Ottawa in search of a good all-round agricultural expert, stole him from this province, and, besides, when Ontario had trained a capable mining expert, the Dominion Government stole him also. Ontario is where the Australians should come first to select a good agricultural professor.

BRITAIN'S NEW POSSESSION.

Of Rhodesia, the colony founded by Cecil Rhodes, and named after him, little that is good has been known in the past. But the New York Tribune points out that it is a splendid example of the beneficient influence of British rule. Not so long since it was overrun by savages, with Lobengula at their head. Now it is making steady progress towards civilisation. The Tribune says it has a civilized, organized, and constitutional Government, with all the appurtenances thereof. It has courts of justice and public schools. It is a member of the International Postal Union, and has a fine system of daily mails. It has railroads and telegraphs, and the gospel of "good roads" is being preached there with gratifying results. At Buluwayo, which a few years back was Lobengula's kraal and human slaughter pen, there are now a public library and six large schools, of which one is non-sectarian, one Episcopalian, one Dutch Reformed, one Jesuit, one Dominican, and one Jewish. "The natives are being educated, too, in fine contrast to the old rule in the Transvaal. In one district there are 475 white and 1,325 coloured pupils, and forty-four white and seventeen coloured teachers. As the greater part of the country is from three thousand to five thousand feet above the sea, the climate is agreeable and salubrious, and in winter it is positively bracing. There is a good water supply, and a campaign against mosquitoes is being scientifically waged, with the result that malarial fevers are being abolished. The chief industries of Rhodesia at present are gold and other mining and the gathering of India rubber. There is reason to believe that in the former parts of it it will soon rival the Witwatersrand of the Transvaal, and that in the latter it will rank with Brasil and the Congo. There is, however, at present more need of agricultural development than of anything else." Thus out of the wilderness Britain is carving a new State that will take its place among the sister kingdoms which go to make the Empire united to the other South African possessions. Rhodesia will help to form another Dominion as great as Canada or Australia.

NORWOOD NEWS.

Mr and Mrs. John Davidson, who have been rusticating at Stony Lake during the summer months, have returned to town again.

Mr. W. H. Minaker, of Toronto Junction, is spending a few days with his daughter, Mrs. Geo. Duffield.

Mr. Howard Taylor is spending his holidays visiting friends in Bracebridge.

Miss Forley, of Smith's Falls, and Miss Turner, of Toronto, who have been spending the past week in our village, left Tuesday evening for Peterborough.

Miss Mary A. Kirkpatrick, who has been spending her summer vacation in Chicago, is home again.

Mr. S. Osborne, of Warkworth, gave our village a call on Tuesday.

Miss Isaac, head milliner at the Arcade, has returned to town and is busy preparing for the fall opening.

Mr. W. E. Roxburgh and sons, Messrs. Frank and Gerald, are spending a few days at the Pan-American.

Mr. C. Pengelly, who has been visiting his parents, returned to his home in Marmora on Thursday.

Mr. Samuel Girvin spent Labour Day visiting friends in Orillia and vicinity.

Mr. Geo. J. Sherry is taking in the Exposition at Buffalo this week.

Miss Stewart is visiting friends in Toronto.

Miss Mattie Becket, who has been visiting her mother for a few days, returned to her home in Smith's Falls on Thursday last.

Mr. W. Ross Cameron spent Labour Day visiting his brother Mr. G. B. Cameron in Peterborough.

Mr. J. C. Brown, of Peterborough, is in town attending the opening of the model school. The class promises to be much larger than usual this year.

Mr. P. E. Graham, of the high school staff, is back again and resumed work Tuesday morning.

Mr. Chas. Gallagher, of Rochester, was in town Tuesday renewing old acquaintances.

Mr. L. Kirkpatrick took in the Pan-American last week.

Miss Minnie McLaughlin spent Labour Day in Havelock with her sister, Mrs. Weir.

Miss M. P. Williams and Miss Cuffe are in Buffalo this week taking in the Exposition.

Mr. Roy Kingsberry spent Labour Day visiting friends in Prince Edward county.

The congregations of the Presbyterian and Methodist churches held a union service on Sunday in the Presbyterian church in the morning and the Methodist church in the evening. Both services were conducted by the Rev. Mr. Taylor.

On Wednesday last a very pleasing event took place at the residence of Mr. D. R. Wright, of Hastings, when his eldest daughter, Miss Libby L., was united in the holy bonds of matrimony with Mr. John G. Chandler, of Windsor. The ceremony took place at 12 o'clock, noon, and was conducted by Rev. A. L. Adams, of Hastings. The bride was assisted by her sister, Miss Freda Wright, of Newburg, N. Y., and the groom was supported by his brother, Mr. Harold, Chandler, Tilsonburg. After the rite a sumptuous wedding dinner was partaken of, and Mr. and Mrs. Chandler left for Norwood where they took the 4.15 train for Niagara Falls, Buffalo and other places.

JERYMN.

(From Our Own Correspondent.)

Farmers in this vicinity are getting ready for fall wheat.

A very successful harvest home was held at No. 3 school house on Friday last in aid of the Baptist church. The affair proved a great success.

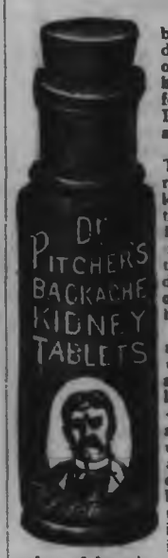
The rain on Saturday was a heavy one, causing the creeks to overflow and flooding the roads.

A couple of weddings are slated to take place in the near future.

Mr. W. C. Manley is taking the lead in steam threshing around here. He is reported as threshing the product of 18 acres of peas after tea the other night for David Devlin, of Douro, and is reported as running 8 bushels of oats to the minute. He recently threshed 500 bushels of peas in three hours. A fine record of his work is given from all around Indian River.

THE NEW REMEDY

For Backache, Kidney and Bladder Troubles.



There never has been a remedy introduced to the people of this country which has given such uniform satisfaction as Dr. Pitcher's Backache Kidney Tablets.

The reason is plain. These Tablets are the result of Dr. Pitcher's long experience in the treatment of Kidney, Bladder and Urinary diseases in the hospitals of Detroit and his devotion to the study of Kidney diseases as his life's work.

There is no other remedy gives such positive assurance of a cure of backache, lame or weak back, swelling of the feet and legs, puffiness under the eyes, puffy and pasty appearance of the face, gravel, brick dust deposits in the urine, scalding, irritation, frequent rising at night, high colour of the urine, pains in the joints and hips, drowsiness, bad taste in the mouth, specks before the eyes, dragging pain in the loins, Kidney weakness of children and old people, and all symptomatic indications of Kidney trouble.

If you have Kidney complaint in any form and are anxiously desirous of being cured, insist on having Dr. Pitcher's Backache Kidney Tablets.

Price 50 cents a box, at all druggists, or sent by mail. The Dr. Zina Pitcher Co., Toronto, Ont.

SOUTH MONAGHAN NEWS.

Mr. John Riddell of South Monaghan, was in town on Saturday, and in a talk with the Examiner stated that the harvest this season would not exceed fifty per cent. of last year's crop, with the exception of hay and corn, both of which crops are good, the latter exceptionally so. The fruit crop, particularly so far as plums are concerned, has been an abundant one. The early apple crop was a little light. A number of the young men from South Monaghan went to join the harvesters' excursion to Manitoba. Some of them found difficulty in obtaining work at the wages which were expected. A few of them will remain im the Northwest and homestead.

MANY BECOME DESPONDENT.

Many persons become despondent because they have been unable to find a permanent cure for Eczema (Salt Rheum) and kindred skin diseases, such as pimples, and blotches. "Climax" Iron Tonic Pills will positively cure these ailments and make the skin healthy. Each box contains ten days' treatment. Price 25 cents, at all druggists, or mailed on receipt of price. Address: The Dr. Hall Medicine Co., Kingston, Ont.

CHEMONG.

(From our own Correspondent.)

Mrs. Dr. Morgan is slightly indisposed and is confined to her room

Mr. and Mrs. A. Jobe, who have been spending a week at Buffalo and the Falls, have returned home.

Mr. and Mrs. W. B. Kelly are in Toronto attending the Exhibition.

Mr. and Mrs. John Roy, of Michigan, are spending a few days with Mr. and Mrs. N. G. Bell.

Mrs. Bogue and family, of Peterborough, are spending a few days with Mr. and Mrs. O'Leary, in the village.

Miss Nellie Wallace, of Peterborough, is spending a few days with her cousin, Miss Bella Mann, at Poplar Heights.

Mr. George Bell spent Thursday at Stony Lake.

Mrs. S. Morrison has been confined to her room for the past two weeks. Dr. Scott, of Peterborough, is in attendance.

Mr. W. H. Wrighton passed through this village one evening last week on his way home from the back lakes.

Mr. and Mrs. S. Clegg and family, who have been spending the past month with Mr. and Mrs. Jobe, of the Post Office, left for a week's visit at the Pan-American.

Miss Bella McConkey, of Selewyn, who has been spending the past two weeks with friends in Bobcaygeon, came down on the boat on Monday, and is at present staying with her uncle, Mr. N. G. Bell.

Mr. W. B. Kelly has disposed of his trotting horse Cataract, and received in part payment a fine driver.

The Forester's Excursion, which was held per steamer Sunbeam to Stony Lake last week was as large as was anticipated, and all report a fine day's outing.

The Baptist Excursion, which is looked forward to by almost everyone, took place from here per Steamer Sunbeam and Alert on Thursday to Stony Lake, and both boats were loaded, having on board some five hundred pleasure-seekers. The day throughout was fine, with the exception of a light shower, which overtook the party at Buckhorn, but which was not unexpected on account of it being the Baptist excursion.

Labor Day was celebrated at Chemong Park, and some two thousand people swarmed the park in the afternoon, and enjoyed themselves in different ways, some taking in the baseball match, others the dancing pavilion, and others enjoyed the sail around the lake, which was taken advantage of by many. They left for Peterborough at an early hour, all well pleased with the day's outing.

The new bridge is nearing completion, and the superstructure is expected in a few days. When placed in position it will complete the bridge.

AWFUL CONDITION IN LABRADOR.

Persons Dying With No Means of Obtaining Medical Aid.

St. John's, Nfld., Sept. 5.— Dr. Grenfell, superintendent of the mission to Deep Sea Fishermen, now operating in Labrador, publishes an article exposing the medical deficiencies of that part of Labrador which is under Canadian jurisdiction.

He asserts that in Bradore he found an imbecile girl, 9 years old, tied in dog harness when her relatives were not able to watch her. He found people dying from cancer, dropsy and scurvy who never had seen a doctor. He found no hospital near, no regular steam service to Gaspe or Quebec and no means by which the people could procure medical or surgical treatment.

Winners in Butter Competition.

Toronto, Sept. 5.—The following awards were made in the butter competition for professionals at the Industrial Fair, yesterday, which, by the way, was largely attended: Miss McAllister, Coventry, 1; Miss Hewson, Mayfield, 2; Miss Green, Loyal, 3; Robert Ireland, Beachfield, 4.

Mary Bosco, the wife of the proprietor of a shooting gallery, Montreal, was shot Wednesday by an Italian named Amabile Barile. The shooting seems to have been entirely unprovoked. The woman was quietly pursuing her way on the street, when Barile approached and, after making proposals to her, shot her. The man was arrested. The woman is in the hospital, and is not expected to live.

School Suits

Mothers know where they can always depend upon getting good, serviceable School Clothing for their sons. They know whether or not the last Suit bought at the City Clothing Store wore as well as it ought to have done. And if it did, we deserve their patronage again.

We have all GOOD qualities in BOYS' SUITS, and all sizes and styles to fit any boy from 3 to 15 years of age. We sell the best Clothes for Boys that are made by any manufacturer in Canada, and we know they have always given wide-spread satisfaction.

We were boys ourselves once, and don't forget the first time we wore long pants.

ECUMENICAL CONFERENCE.

Kindly Greetings Pass Between Methodists and Episcopalians.

London, Sept. 5.—The Ecumenical Methodist Conference opened in Wesley's Chapel yesterday with a good attendance. The session was begun with devotional exercises in the course of which King Edward and President McKinley were prayed for. Bishop Joseph C. Hartzell, Missionary Bishop of the Methodist Episcopal Church in Africa, made the opening prayer, and Bishop Galloway of Jackson, Miss., preached an eloquent sermon, setting forth the aims of Methodists throughout the world, and emphasizing the value of the tenets of John Wesley. Communion followed. The Archbishop of Canterbury, the Most Reverend Frederick Temple, D.D., and the Bishop of London, the Right Rev. A. F. W. Ingram, D.D., sent friendly messages, the Archbishop of Canterbury praying God's blessing on the deliberations. The Bishop of London sent a similar message, but adding the hope that some day the Methodists might be reunited with the Episcopalians.

The U.S. Negro Question.

Bishop Walters, colored, of Jersey City, declared there was a systematic effort on foot on the part of the white Americans to destroy the good opinion which the English had of the American negroes. He said that in 1900 out of 90 lynchings, in only 11 cases had assault on white women been proved. He appealed for the continued friendship of the English. There were loud cheers from the English portion of the audience, but several of the Southern delegates went out, while others did not conceal their disagreement with the speaker.

TERRIBLE CHINESE FLOODS.

One Third of Shanghai Population Dead Say New York Cables.

New York, Sept. 5.— The following cable despatch was received by The Christian Herald of this city yesterday from Rev. Arthur H. Smith of Tien Tsin, chairman of the Famine Relief Committee:

Chefoo, Sept. 3.

Klopsch, New York:

Terrible Yangtse floods. Dr. Richard and others approve appointing Shanghai Committee of Chinese and foreigners, embracing consuls, merchants, missionaries distribute relief. If funds not all required in Shensi, then transfer to Yangtse.

(Signed) Smith.

A second cablegram, received several hours later, showed the urgency of the situation. It was as follows:

Chefoo, Sept. 3.

Klopsch, New York:

Dr. Duncan wires one-third population dead Shanghai. Forming Yangtse Relief Committee.

(Signed) Smith.

Dr. Klopsch cabled to Chairman Smith, endorsing the decision of the committee to apply the unexpended balance of the Famine Fund in behalf of the Shanghai flood sufferers. The committee, under the terms of its appointment, has full power to extend its relief operations, and will probably begin work at once in the city of Shanghai and other portions of the Province of Kiangso, where the terrible inundation has resulted in the loss of life and property.

Why Catarrhozone Cures Catarrh.

Because it is carried by the air you breathe to diseased parts, because it destroys the germ life that maintains the diseased condition, because it powerfully stimulates the mucous membrane to its normal action, because through its oxydizing power it burns up rapidly the old tissue and stimulates the formation of new healthy tissue. Catarrhozone is an absolute specific for catarrh in every form and never fails to cure. Catarrhozone is the only remedy sold with a guarantee. At all dealers, 25c and $1.

A Brief Interview.

The late Rev. R. S. Storrs was a very hard man to interview, for he resented the inquisitiveness of the press and was icy to its agents.

One evening a reporter attended a reception at his house and in the course of the evening touched his arm and whispered: "Doctor, I'm from the ——. I want the names of guests and all the particulars."

"Yes," Dr. Storrs whispered in return, "this way, this way." And, taking the young man's arm, he escorted him to the front door and put him out.

Remunerative.

"Do you think that unselfishness ever pays in politics?"

"Of course it pays," answered Senator Sorghum. "The unselfish man is the one who doesn't want any of your money, and he goes down as clear profit."

SAWDUST NUISANCE.

Proceedings Against Mr. Booth of Ottawa Started.

THE MARINE DEPARTMENT MOVES

Could Not See Its Way to Extend Time for Dumping Sawdust Into Ottawa River for Another Year, and Instructed Department of Justice to Take Action Under Clause 2, Chap. 95, R. S.

Ottawa, Sept. 5.—On the instructions of the Marine Department, the Department of Justice yesterday took out a summons against Mr. J. R. Booth for infraction of clause 2 of chapter 95 of the revised statutes, which prohibits the dumping of sawdust into water stretches frequented by fish. Mr. Booth has a big lumber mill at the Chaudiere, and throws the sawdust from it into the Ottawa River. The emptying of sawdust into the river has long been a source of trouble. It was found after a careful investigation that the practice not only destroyed fish, but was gradually filling up the channel of the stream. The same trouble existed in certain districts of the Maritime Provinces. A provision was framed which prohibited the continuance of these deposits, but it was deemed only fair to give the lumbermen time to comply with it. The law has, therefore, up to the present not been acted upon. All the Ottawa lumbermen but Mr. Booth now burn their sawdust, but the latter still continues to make the river a dumping ground. About a month ago warning was given to Mr. Booth that action would be taken against him unless he conformed to the law. Mr. Booth wanted a delay of twelve months in order to adopt another means of getting rid of the troublesome sawdust. The department evidently does not see its way clear to making the concession. The section under which the prosecution is brought renders the offender liable to $20 and costs for the first offence, to a penalty not exceeding $40 for the second offence, and in addition a further penalty not exceeding $10 for every day during which the offence is continued. For the third or subsequent offence a penalty of $100 and costs is incurred, and in addition a further penalty not exceeding $20 a day. Mr. Booth's friends say that if the prosecution succeeds he will remove his mill to another city.

TO QUELL REBELLION.

Daily Telegraph's Method to Cure South African Situation.

London, Sept. 5.—The Daily Telegraph, in an editorial yesterday on the South African situation, says:

There is nothing to prevent Lord Milner from recognizing a government chosen from among the Boers who have already submitted, and from arranging with them the terms of a general surrender. After such a formal peace had been made every man taken with arms would be liable to be shot as a rebel.

Stop Transvaal Travel.

London, Sept. 5.—The going to and fro of certain persons between London and Cape Town is to be stopped by the Government. The Pall Mall Gazette says the mails of other suspected persons have been examined, and that important correspondence has been seized.

Col. Gordon Better.

Ottawa, Sept. 5.—A cablegram from Cape Town, dated Sept. 3, says: "Lt.-Col. Gordon out of danger. Progressing favorably last telegram."

GERMAN CRUISER SUNK.

Collided With the Battleship Sachsen Off Arkona.

Berlin, Sept. 5.—The commander of the German fleet manoeuvring in the Baltic telegraphed yesterday from Sassnitz, Island of Rugen, that the third-class cruiser Wacht had been sunk off Arkona after having been in collision with the battleship Sachsen. It is not known whether there was any loss of life. The Wacht was a steel cruiser of 1,250 tons displacement and 4,000 indicated horsepower, launched in 1887, with a speed of 19.06 knots, armed with four 3.4-inch quick-firers.

No Lives Lost.

Berlin, Sept. 5.—Late advices from Sassnitz regarding the sinking of the Wacht show that there was no loss of life.

KILLED BY A ROCK.

Assistant Superintendent Duchesney of C.P.R.

Vancouver, Sept. 5.—Assistant Superintendent Duchesney of the C. P. R. was accidentally killed yesterday by a rock falling on him at some point a few miles east of here. Mr. Duchesney was considered a remarkably clever railway man and was also something of an explorer. He recently discovered the Yoho valley near Field, B. C.

Turkey to Be Coerced.

Paris, Sept. 5.—A decree has been drawn up and probably will be signed to-day expelling a number of Turkish agents whose mission has been to spy on the Young Turks in France. The list includes several names well known in Parisian society. It is also learned that the Sultan has telegraphed to Munir Bey, recalling him to Constantinople.

Medical Science Advances.

It is not more than half a century ago that physicians considered a surgical operation with its risk, expense and pain, as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase-s Ointment. You may be sceptical but for proof you are referred to tens of thousands of people that have been cured by this famous preparation.

STR. LONG BURNED.

Alarm Given by Fortunate Accident—Vessel at Dock at Meldrum Bay and All the Crew Escaped.

Gore Bay, Sept. 5.—The steamer John J. Long was burned at Meldrum Bay dock at 1 o'clock on Tuesday morning. The Long was owned by Capt. Cleland, Little Current, and carried the mail, also passengers and freight, between Cutler and Manitowaning, calling at intermediate ports. She was on her weekly trip to Cockburn Island when the catastrophe occurred. The cause of the fire is unknown. Chief Engineer Scott was ill and had only laid down about fifteen minutes when he discovered smoke and found the vessel in flames. He immediately aroused the firemen, who were sleeping below in the stern, and who but for his prompt action would have been cut off from escape. He next aroused Capt. and Mrs. Cleland and the crew, who hurried on a few clothes and made a rush for their lives. The head waiter attempted to save his grip, which contained his month's wages and other effects, but so fierce were the flames that after two ineffectual attempts he was obliged to run for his life. Great praise is due Mrs. Cleland for her coolness and self-control in that hour of peril, for after escaping by sliding down the fender rope to the dock, she was the first to remember the money in the office. By this time the flames had made entrance to the office impossible, so with much trouble a hole was made into the side of the vessel and the captain's hard-earned money was saved. Much sympathy is expressed for Capt. Cleland in his loss. The steamer was newly fitted up in the spring and was well equipped for the service in which she was engaged. The vessel was insured for $6,000.

COMPLETE SUCCESS.

After Many Failures W. C. Anderson Makes his Discovery at Last.

Treated in Vain by Five Different Doctors for Kidney Trouble—Took Many Medicines Without Success—Dodd's Pills Succeed Where Other Things Fail.

Waterside, N.B., Sept. 1. — W. C. Anderson of this town is a remarkable example of persistence. For years he has been trying to find a cure for his trouble, and for years he has been tasting the bitterness of disappointment. But he tried again and now at last he has succeeded.

His trouble was kidney trouble, by no means uncommon in this province. Indeed some physicians go so far as to say it is the most prevalent malady in Canada. At any rate it was the affliction of Mr. Anderson.

Five different doctors have attended Mr. Anderson in his time. None of them touched the root of his suffering. The amount of medicine that Mr. Anderson swallowed would doubtless surprise that gentleman himself could he see it all poured together.

One year ago Mr. Anderson told his friends that he had found a sure cure at last. His friends smiled, but said nothing in reply. His continued hopefulness was proverbial, but everybody had long since paid little attention to the remarkable remedies he was continually discovering, and subsequently proving failures. But this time it was no failure. It was Dodd's Kidney Pills.

W. C. Anderson considers himself to-day as successful a man as there is in New Brunswick. He has found good health after many disappointments. Dodd's Kidney Pills have raised the burden off his life. Six boxes cured him of every symptom of Kidney Disease, and he acknowledges he owes his success to them.

SCHOOL SHOES FOR BOYS AND GIRLS

Now is the turn of Young Canada. The summer vacations are over. School for another term is the rule. The boys and girls must be comfortably clad if they are to do good work. An important part of the outfit is that which ensures warm, dry feet. That is where our mission as sellers of Boots and Shoes comes in.

We have made ample preparation for the supply of school wants in boots and shoes. We appreciate the fact that boys and girls are great wearers out of leather, and the varieties and styles we have were selected to afford the maximum of wear at the smallest cost. Here is a list that is sure to contain some line that will suit. All sizes, in black and tans, new and nobby.

Boys' Buff Lace Boots, sizes 1 to 5, extra value $1.35
The same at $1.25 and at $1.15
Boys' Dongola Kid Boots, sizes 1 to 5, a capital boot for wear, at $1.35
Boys' Boston Calf Boots, ... $1.00
Boys' Tan Bals., strong and very comfortable $1.40
Youths' Buff Lace Boots, sizes 1 to 5, a first-class article $1.15
In another style at $1.00

Youths' Boston Calf Boots ..... .90
Misses Oil Pebbled Button Boots, with spring heel $1.15
Misses Box Calf Button Boot, sizes 11 to 2, very serviceable $1.25
Misses Box Calf Lace Bals., an excellent shoe in every way $1.35
Childs' Oil Pebbled Button Boots, with spring heel, at 75c and 85c
Childs' Oil Pebbled Lace Boots, sizes 8 to 10, at 85c and 75c

In addition do not fail to remember that we have all things in Rubber. The wet weather of the fall is at hand.

HENRY MORGAN & CO., MONTREAL

STRENGTHENS THE STATE.

Life Insurance is for the protection of those dependent on a man's life; their dependence makes it an unavoidable duty. Those dependent we assume to protect by our contract, at his personal cost; our duty to them is to make that contract as large, as secure, and as certainly available to them as possible; thus every Policy written conserves the interest of the State. A man with a Life Insurance Policy is apt to be a good citizen. Anarchists have no use for Life Insurance, and the state has no use for anarchists. The State should encourage every citizen to carry insurance. This Strengthens the State, abolishes alms-houses, and creates property that can be taxed. Further, the income from Your labour ends with Your life. The cost of living to the family continues. Take measures to have the income continue also. **The Life Insurance Policy Does It.**

The most enterprising and progressive of all the Canadian Life Offices to-day is the **Sun Life of Canada.** Ten years ago the Company had Life Assurance in force to the extent of $16,759,355,92. On the 31st of December last, this amount had been increased to $57,980,634.68. The increase, therefore, of Life Assurance in force during the last ten years amounted to the tremendous sum of $41,221,278.76.

Dressmakers Wanted.

Coatmakers, waist and skirt hands —steady employment and good wages for a few extra good hands; also apprentice wanted. Apply to Miss Reid, care Richard Hall & Son.

Mr. Davies resumes his classes in Pianoforte, Harmony, etc., Sept. 5th. Residence and Studio, Ashburnham. Pupils prepared for the examinations of the Toronto Conservatory of Music. 2d

An Alderman Hurt.

This morning Ald. Jos. Batten, chairman of the Property Committee of the Town Council, while on a step ladder in the Market Arcade, fixing something in connection with one of the doors, fell, and was somewhat badly cut about the face.

Fire in Otonabee.

Some time during Tuesday afternoon the barns and outbuildings of Mr. John Lancashire of the base line, Otonabee, were destroyed by fire, together with the contents, including all of this year's crop. The cause of the fire is a complete mystery, and it is the second of a like nature that has occurred to Mr. Lancashire in less than two years. The amount of the insurance, if any, has not yet been ascertained.

HORTICULTURAL SOCIETY.

The annual exhibition of the Horticultural Society will be held in the Market Hall on Thursday afternoon and evening, Sept. 5th. Band will be in attendance. Admission 15 cents. There will be a fine display of Flowers, Fruits, Roots, etc., and it is well worth a visit. 4d

School Opening.

There is no divided opinion as to the ability of the Peterborough Bookstore to serve the scholars with school books and school supplies. The newest of everything, the best of everything, and the biggest value in everything. The boys and girls have caught on to our store with open-eyed surprise, and purchase with unvaried satisfaction. See the great display in our two show windows—the best dressed show windows that the scholars have ever seen. Our presents given away with every purchase knocks the spots off them all. A. H. Stratton & Co.

To-morrow Night's Attraction.

At the opera house to-morrow night the up-to-date farce comedy, "Humbug," by Fred Maraden, will be the attraction. It comes here with the highest ecomiums of press and public. Wherever it has been produced it has received an ovation. Besides being extremely ludicrous, "Humbug" has a plot, something seldom seen in a production of this kind. The company is strictly A No. 1, and the play is interspersed with brilliant specialties, new music, novel dances, pretty girls, and is beautifully mounted with new and appropriate scenery and magnificent costumes, making altogether a production that is right up to the times. Seats now on sale.

PERSONALS.

Malachi Quigley, of the Ontario Bank, is at the Pan-American.

Town Commissionar Chalmers, of Lindsay, was in town yesterday.

Mrs. Burdick left yesterday on a visit to friends in Rochester, N. Y.

Miss Nellie Meehan is the guest of Miss Aileen Primeau, Driscoll Terrace.

Mr. and Mrs. Charlie Armstrong, of Mount Julian Hotel, are in town to-day.

Mrs. Dr. Gray and Miss Nellie, have left on a visit to Port Perry and other points.

Mr. Gerald Homan, Rochester, is visiting his cousin, Mr. J. H. Primeau, Driscoll Terrace.

Miss Lillian Day has returned to Rochester after a visit to Mrs. Henry Day, town.

Miss Mary B. Hurley has returned from Lindsay, where she was in attendance at the Convent.

Master Charlie Eyres who has been spending his vacation at "Crayton Villa" has returned home.

Messrs. R. F. McWilliams and W. A. Stratton are in Millbrook to-day attending Division Court.

Mrs. Leonard Curtis, of Chicago, a former resident of town, is the guest of her sister, Mrs. F. Darling, Smith street.

Mr. Paddon, of the Bank of Montreal, has returned from his holidays at his old home in Lindsay and other points.

Mr. and Mrs W. A. Sanderson have closed their pretty Stony Lake cottage for the season and have returned home.

Mr. Percy Might has gone to North Toronto Junction to assume his new duties as principal of the public school of that place.

Mr. F. Risden, who for some time has been employed in the local offices of the C.P.R. freight sheds, left yesterday for Sudbury.

Mr. and Mrs. Myles Henry have moved in from their Chemong summer cottage, and have taken up residence at No. 18 Gilmour street.

The Port Hope Guide says:—Mrs. T. J. Chadwick, Chicago, Ill., is visiting friends in Peterborough, Port Hope, Cobourg, and her mother, Mrs. Sleeman, Port Granby.

Mr. B. F. Ackerman and family, Peterborough, who have been enjoying their holidays at Wellington were in town to-day on their way home.—Port Hope Guide.

Mr. Bert. Bryant, of Mr. F. J. R. Mitchell's staff, who has been rusticating in Douro for the past few days has gone to Lindsay to finish his vacation.

Miss Mary Warde, of Detroit, passed through, yesterday, on her way to the Pan-American. Miss Warde has been spending a week with Mr. and Mrs. R. W. Grubbe at Stony Lake

Mr. Fred C. Armstrong, formerly of the Canadian General Electric Company, and now of London, Eng., who has been on a visit to his parents, Mr. and Mrs. W. H. Armstrong, Millbrook, was in town over night the guest of his uncle, Mr. W. M. Fair.

WEDDING BELLS.

Nuptials of Miss Emma Walker and Mr. Chas. Manley.

A very pretty wedding took place on Wednesday last at half past two in the afternoon at the residence of Mr. Peter Walker, of Indian River, when his youngest daughter, Emma, and Mr. Chas. Manley were united in the holy bonds of matrimony. The bride looked charming in a dress of cream cashmere, and carried a bouquet of white carnations. She was assisted by her sister, Miss Annie Walker, who was becomingly attired in blue organdie, and also carried a bouquet of carnations, while the groom was supported by his brother, Mr. Frank Manley.

The bridal party entered the parlour to the strains of the wedding march played by Miss Annie Duff. After the ceremony, which was performed by Dr. Andrews, of Keene, the guests sat down to a sumptuously served dinner, after which the young couple took the 4.30 train for Toronto, Buffalo and points west.

On their return they will take up residence in Otonabee.

The numerous and costly presents which they received testify the esteem in which Mr. and Mrs. Manley are held.

MISSTATEMENTS CONTRADICTED.

The Mail Again Caught Bearing False Witness.

A TISSUE OF FALSEHOODS.

A Minister of the Crown Misrepresented—The Fabricated Yarn Denied in Toto—The Government in Relation to Water Power Privileges on the Trent Canal

The Mail and Empire of to-day prints a "special" despatch and special mis-statement from Ottawa:

Ottawa, Sept. 4.—A deputation from Peterborough was here to-day, and protested to the Minister of Railways and Canals against the granting of a lease to a syndicate headed by the Hon. J. R. Stratton, of the water power of No. 5 dam, on the Trent Canal works, about five miles from Peterborough. It appears that the Town of Peterborough some time ago applied for the lease of this water power, and the Government demanded $4 per horse power per annum. Now it seems that Mr. Stratton's syndicate is to get the lease at 60 cents per horse power which shows what it is to be party friends. The Peterborough men who are here to-day are the owners of private dams, which they rent for an average of $15 per horse power, and naturally the kick which they made was of a most vigorous character. The lease for No. 5 dam is not yet signed, and Mr. Blair's action will be watched with more than ordinary interest.

Every statement in the above paragrapl referring to Hon. Mr. Stratton, is absolutely false. Mr. Stratton has never applied, directly or indirectly, for any water power on the Otonabee River or Trent Canal, and is in no way connected with any syndicate that has applied for water power at No. 5 dam. The only interest Mr. Stratton has in the enterprise referred to is the interest every good citizens of the town has in the promotion of the welfare and progress of the town as represented by any action looking to the providing of cheap and available motive power for manufacturing purposes, and the above paragraph is only a sample of the reckless lengths the Conservative organ will go to try to injure the reputation and influence of public men politically opposed to it.

In regard to the other statements in the paragraph, they are incorrect and misleading. The facts of the case are these: The Otonabee Power Company, which is, no doubt, referred to, has obtained an Order-in-Council leasing to it the surplus water (not required for navigation purposes)—not at 60 cents—but at $2 per horse power on the minimum flow of the river of the head of water immediately at the dam. There has been no serious or sustained agitation respecting the development of water power by the town. No action has been taken in this direction by the present council, or that of last year, nor have any representations been made that the price of $4 per horse power was considered excessive. The very fact, however, that the use of none of the four dams available has been applied for at the $4 rate, is evidence that the price was considered too great, and if the town or others take advantage of the reduced rate of $2 per horse power to develop the remaining dams, Peterborough will then have abundance of cheap motive power, admitting of and inviting great expansion of manufacturing industries, which the water that has for years been rushing in waste past our doors, might have been used to promote. There is urgent need of motive power; there is not a single horse power available to offer to any manufacturing concern. The power to be developed by the Ontario Power Company will be needed to the extent of about 400 horse power by the Cordage Company, the Shovel Company, and the Central Milling Company. If there was not this power to give them, they would have to go elsewhere. The citizens of Peterborough should heartily approve of the Government's action in thus reducing the rental price for power, a circumstance which will doubtless encourage applications for the development of powr; and it is to be hoped that the town, or other persons will take advantage of the opportunities presented at the remaining three dams, of developing cheap motive power to offer to industries looking for the most favourable sites for location. We have all other advantages, and if we can cap our other inducements by cheap motive power the scale will be turned in our favour.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drugstore.

PRIME FRUIT.

We are now receiving choice Yellow Freestone Peaches and Fancy Plums and Gages from the best growers in the Niagara District. Also first-class Muskmelons very cheap by the crate or singly. S. A. OKE, 376 George street, Tel. 18.

HORTICULTURAL SHOW.

The Annual Affair is now on—The Exhibits.

The annual exhibition of the Peterborough and Ashburnham Horticultural Society is now in progress in the Market Hall, and is attracting many people. The exhibits are first class, and altogether the show is quite up to that of previous years.

To-night many will no doubt visit the Market Hall, and music by the band will be a feature of the annual affair.

NEWS NUGGETS.

—St. John's choir will resume practice to-night.

—Mr. G. W. Mulligan would like to meet the bass and tenor singers of the Royal Chorus at the Y.M.C.A. at 7.30, Saturday evening.

—Miss McCabe has resumed her class in music, and will be pleased to see her pupils at the old stand, Peterborough Music Co., 404 George street. 3d

—The last of the series of summer dances at Chemong will take place this evening. Leary's 'busses will will leave the post office at 7.30 o'clock.

—On and after Wednesday, Sept. 4th, the steamer Sunbeam will discontinue her daily trips in connection leigh. After Saturday, Sept. 7th, the steamer Ogemah will discontinue her daily trips between Bobcaygeon, Chemong and Burleigh. 30d

DIED IN WISCONSIN.

Mrs. J. Fitzgerald Sister of Mr. W. J. Devlin of Town.

Mr. W. J. Devlin of town, this morning received a letter from Black Creek, Wisconsin, conveying to him the sad intelligence of the death of his sister, Mrs. John Fitzgerald. Mr. Devlin, it will be remembered, returned some weeks ago from Black Creek, whither he had gone on a visit to his sister, who was then in failing health. However, at the time of Mr. Devlin's departure for home it was thought that she was on the way to recovery.

The late Mrs. Fitzgerald was the only daughter of the late John Devlin, of Otonabee, and left here in the fall of 1870 with her husband to settle in Wisconsin, where they have since resided. Her husband predeceased her about three years. She was the mother of a family of eleven children, five of whom are deceased. The remaining members of her family were around her when she passed to her eternal rest on Friday evening, after the last rites of the church had been administered to her. The remains were interred at Battle Creek alongside those of her husband.

The Port Hope Knitting Works are showing this week a very fine line of double knee, double heel and toe cashmere hose in all sizes, from 15c to 25c, in the largest sizes. This is a great line. Call and see them.

Remember we are always pleased to show our customers through our cold storage room, as a personal inspection of the quality of our beef, and the manner in which it is handled, is a guarantee to them that we are in the best position to cater to the most delicate tastes. We have again this week some of the choicest steers and heifers that can be secured. Kennedy's Meat Market, 340 George street, Peterborough. Phone, 275.

SCHOLARS TOOK US BY STORM.

A CEASELESS PROCESSION —A REGULAR JAM.

School Books and School Supplies have been "on the fly" from opening to closing of store the last two days. Little school boys and girls, flanked with bigger scholars of both sexes, have kept tramping in and out of the Peterborough Bookstore like bees swarming in a hive.

What a great time we've had! How those handsome scribblers flew, with their attractive covers—and the dainty exercise books and note books—everything just as we promised—and the presents thrown in!

Our stock was never exhausted, although our whole staff has been kept busy as nailers hour after hour. We kept replenishing the counters with our reserve stock, and to-day it is almost as complete in every line as ever.

"Better late than never." If any of the scholars have yet to be served, we are ready for them—ready to fill their school bags and straps with everything they require, at the closest possible prices. Plenty [illegible] left for all late-comers.

RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

SEPTEMBER!

You know what September means. It means cooler weather, and if it isn't here now, you can depend on it that it isn't very far away. It also means new Dresses and Hats, New Underclothing—in fact it means a general replenishing for the ladies. Lots of people are realizing that it's better to make preparations early. You get the assortments, and you get at first choice, which means considerable. Stocks are almost complete in every department, and values are better than ever.

SUBSTANTIAL GOODS.

The sort of materials are here for out-door wear in the autumn. Heavy enongh for comfort and for health, and pretty enough to be a pleasure to ladies who are anxious to have the newest and the best and who know what is right. It's better to buy among the first and get the choice.

RIBBONS and TRIMNING.

In the line of Ribbons and Trimmings, there is no end to the variety, and you can have them just as elegant as you want them. We also have the grades that look well and are not very expensive — that appear better than the prices indicate.

ABOUT DRESSMAKING

Our Dressmakers are at it again for Fall. **Busy already**; but our staff is large, and we can turn out an enormous quantity of work in short order. Have you made any arrangements about your Fall Suit? If not, you had better call and see our Dressmakers.

WHITE COTTONS and EMBROIDERIES

We make a specialty of Fine White Cottons for undergarments, such as English Long Cloths, Lonsdale Cambrics, Nainsook Muslins, and the finer qualities of White Cotton, both imported and domestic. Also we ask you to notice and compare the quality of our Embroideries with ordinary assortments. It won't take you long to be convinced of our superiority in that line. But if you prefer to buy the ready-made things in Undergarments, we can show you a fine assortment, and prices are wonderfully low.

RICHARD HALL & SON DIRECT IMPORTERS. 130, 132, 134 SIMCOE STREET

THE STORE THAT NEVER DISAPPOINTS

UNDER-SKIRTS ...AND... DRESSING SACQUES PRETTY BLOUSES

These are distinctively new—the designs are American and are very desirable. New Goods are being opened up in our Ready-to-Wear Department almost daily.

THURSDAY, SEPT. 5, 1901.

THE CONSERVATIVE LEADER'S SPEECH AND "POLICY."

The address delivered by Mr. Whitney, the leader of the Opposition, in Toronto, under the auspices of the Conservative Association of Ontario, is entitled to attention, if not for the intrinsic value of it as a partizan delivery, for its importance as a formal declaration of policy upon which the Conservatives will appeal to the electors at the coming provincial general elections. Mr. Whitney professed to be very sanguine as to the effect which his policy would have in bringing him victory. On the other hand, Mr. Foy, the chairman, in his opening remarks, pinned his faith to organization. Necessarily, the nature and character of this organization are not known to the public, but if it is not more of a success-making factor than the so-called "policy" enunciated by Mr. Whitney, optimism is an abundant commodity in the Conservative ranks. The speech of Mr. Whitney was forcible in style, as are all his addresses on political subjects. But the weakness of his force lies in the fact that Mr. Whitney's earnestness of utterance is in inverse ratio to the importance of his subject — the more trifling his topic the greater the violence of his language; the more petty the alleged political wrong-doing the more vituperative and bombastically earnest he becomes.

His address was a curious compound of transparent fallacies, and far-fetched facts, the latter so interwoven with the fallacies that they acquire the character conferred in the proverb by evil communications. At the conclusion of his speech he crystallized his utterances into a written document intended to represent his policy. Though he had given so much thought and consideration to the matter, as to commit his platform to writing, he was not quite sure of his ground. He had prepared to hedge; for, in the beginning of his speech, he was careful to provide that he should not be committed to his declared policy as a finality. He said that before the elections took place "new questions, or solutions of questions, may be suggested," and the members of his party in the House might have something to say in modifying the perfect and sufficient policy, upon which he staked his political fortunes. That is, it seems fair to infer, Mr. Whitney is not inclined to trust to principle, but will yield to considerations of expediency, and, as he has done in the past, set his sail to catch every possible cats-paw of, what he may consider, favouring wind.

Remarkable is the statement of Mr. Whitney, that the Liberals of Ontario "have never offered anything of importance to the people of Ontario. They attained power," he says, "by means of accidents." Mr. Whitney has not much belief in the intelligence of the people of Ontario in asserting that in seven or eight general elections, during nearly 30 years, their mental status was so low that they blundered by accidents into electing a majority of supporters of a Liberal Government; or as Mr. Whitney insinuates, the people of Ontario were so morally rotten and corrupt that they sold themselves en masse to the highest bidder. Thus Mr. Whitney begins the campaign and seeks to place himself en rapport with the electors by denouncing them as political fools and felons. As to the assertion that Liberals "have never offered anything to the people of Ontario," facts stamp it as a piece of puerile bluster. Where will Mr. Whitney find a province, or state or country, that has been so well governed, that has had its revenues so honestly and effectively expended, that is in the sound and satisfactory condition Ontario is to-day. Where else will Mr Whitney find a government of a province, which out of an expenditure of one hundred million dollars, not a cent of which was raised by direct taxation, has returned ninety per cent. of it to the people to relieve them from so much direct taxation? The fact that the people of Ontario have been offered and accepted clean, honest and capable administration at the hands of a Liberal Government for thirty years continuously is, in itself, an all-sufficient answer to Mr. Whitney's—to use no stronger term—oratorical effusiveness.

Facts are too palpable, too stubbornly in evidence, to allow Mr. Whitney to deny the Government any credit in respect of its administration of the affairs of this province. But he seeks to minimize the merits of this administration by claiming, with refreshing effrontery, that all important movements of administration and advance policy, have been "advocated and suggested by Conservatives." If this were a fact, which it is not, there would be nothing politically criminal involved. The chief functions of a parliamentary Opposition are criticism and suggestion, and it would be a sad record for the Conservative Opposition in Ontario, if, in the course of thirty years, they could not have made by way of suggestion some contribution to the good government and excellent legislation the province has enjoyed. But Mr. Whitney's claims are far wider than the facts warrant. In considering Mr. Whitney's claim that Opposition suggestions have been accepted by the Government, the electors should note the difference in the position and responsibility of the Government and Opposition, respectively. The Opposition talks; the Government acts, and must assume the responsibility of taking action. "Talk," according to the saying, "is cheap," and involves moral responsibility only, and not always that; government action involves serious responsibility in respect of public interests of grave moment. A farmer suggests to his neighbour that the latter needs a new barn, and urges that he build one at once. The other is not in a position to accept the suggestion; he may need a new barn, but he must foot the bill, and count the cost before acting. When the time is opportune he does act, but the man who suggested the action incurred no responsibility, and took no risk, and cannot claim the credit of building his neighbour's new barn, any more than the Opposition can claim credit for the action the Government has taken. It could be shown if space permitted, that the extravagant claims made by Mr. Whitney are preposterous per se, and that where they are not at variance with the facts they are fallacious. While the Opposition may have made suggestions in respect of administrative or legislative action, similar to those the Government has acted upon they were either made on an occasion and under circumstances which prevented their being acted upon or the time was inopportune or unfavourable for taking action. An amendment to legislation introduced in such a form as to contravene the rules of the house or amount to a motion of want of confidence in the Government, self evidently could not be acted upon. Under such circumstances the majority of the legislature were justified in voting down proposals made for ulterior purposes, to gain party capital and manufacture campaign ammunition; and ignoring these suggestions did not argue any opposition to the principle which might be involved. If in subsequent legislation and when the proper time came, the principles suggested were embodied in legislation, the action was taken in a way to give them a full effect which would not have been the case if they had been dealt with in an irregular and happazard way. Principles about which there can be no difference of opinion as to their soundness are common property. The only question is that of the proper time for giving them effect and in such a case the Government, which has the responsibility, is the judge and not the Opposition, which is irresponsible and not technically the object of blame if there be any blame, nor entitled to credit it any credit there be. The principles of the Decalogue are universally received, and judging by the preposterous claims of Mr. Whitney in respect of Provincial legislation, he would, no doubt, if he had been living in the time of Moses, have worked in some claim to the authorship of the Ten Commandments.

At the conclusion of his speech, Mr. Whitney read his formal programme of policy, which involves nothing new whatever—no new line of public policy—and where it is not superfluous—a slavish copy of the policy the Ross Government has already successfully and energetically applied, it is visionary and impracticable. The Mail and Empire the official organ of Mr. Whitney, has summarized this wonderful policy and given "Mr. Whitney's leading points." A brief consideration of them seriatim, may be given.

"NEW ONTARIO.—Unsettled portions of the province to be developed. Railway to the Temiscamingue District to be aided."

Here Mr. Whitney is at fault. He is hopelessly behind the times; the first plank of his platform is stolen bodily from the Ross Government, and the very thing he advocates in it has been acted upon, and is being carried out, by the Ross Government. At the last session of the Legislature, the Ross Government took the initial steps in the Government ownership of railways, and $10,000 was voted for survey of a government railway from North Bay to Lake Temiscamingue, a railway to develop this new country, to be built on such conditions as to assure the full benefit of the operation of the railway to the people.

"RAILWAY GRANTS. — Grants for development purposes only. Stock or security to be taken for amount advanced. Rates to be under Legislative control. If Dominion refund bonuses given by other provinces, Ontario must insist upon justice."

That is exactly the principle of the policy that has been pursued by the Liberal Government, and here again Mr. Whitney is "bringing coals to Newcastle."

"MINERALS. — Substantial encouragement to development and refining of our ores. Time to be hastened when we can do all refining in Ontario."

Here, also, Mr. Whitney is behind the times. The Liberal Government has substantially encouraged mineral development and refining. Through their policy we have smelters, making iron and steel from all-Ontario ore, and two large concerns are refining nickel in Ontario, and the process is being hastened as rapidly as commercial conditions will warrant.

"TIMBER AND PULPWOOD. — Stock to be taken of our timber resources for proper administration of same. Pulpwood to be disposed of by public competition. Sawlog policy of Conservative party to be continued."

Stock has been taken of our timber resources. The Government last summer sent out ten exploring parties into New Ontario, and their published report gives the needed information on which to form plans for the preservation and development of the tremendous resources "taken stock" of. It is visionary and impracticable to sell pulpwoods by public competition. Pulpwood grows in scattered and often widely separated clumps, and if competition were invited, there would be no bids, for no man could form a reasonable estimate of the pulpwood contained in a given area. Whether or not the "Conservative sawlog policy" is continued, the country may rest assured that the sawlog policy of the Ross Government will be continued, as has been the case for years; not a single Ontario sawlog will be sent out of the country in an unmanufactured condition. Here Mr. Whitney brings another scuttle of coals to Newcastle.

"LAW REFORM. — Lessen the expense and expediate the results of litigation. A final and conclusive appeal from a trial judge."

Law reform has been practically undertaken by the Liberal Government, and whether or not it is to be called reform, the expenses of litigation have been so lessened that lawyers complain that if they depended upon litigation they would starve — conveyancing and other lines, are all that keep them alive. Law reform is a good thing, but is is a work of time. Mr. Whitney may in his visionary way think he has some magic process by which he can change the statute law and procedure, that are the growth of legislation and development of half-a-dozen centuries, in a moment, but practical men know that the subject takes time and careful consideration.

"FINANCES. — Financial problem to be so solved as to leave way clear for increased expenditure on agriculture and education."

If the financial problem has been ever solved in any country, it has been solved by the Ontario Government. Ontario is a country without a dollar of debt, without direct taxation, and with interest-bearing assets of two and a quarter million dollars, and if the Provincial treasury books were closed to-morrow there would be found a million and a quarter dollars to the credit of Ontario, cash in the bank. We should soon have another story to tell if Mr. Whitney and his followers got the management of our finances. Where in history can be found the record of a Conservative government giving an economical and prudent management of a country's finances?

"AGRICULTURE. — Added interest to be paid to agriculture, with a view to early establishment of further agricultural schools."

Agriculture need not expect much from Mr. Whitney and his followers, judged by their past. Mr. Whitney may deny till he is black in the face, that he and his party in the House opposed giving to Agriculture a separate department, presided over by a special, responsible Minister, but the facts are against him. He thought a sub-department was good enough for a great industry like agriculture. Then his wild-cat scheme of half-a-dozen agricultural colleges is preposterous. The expense would be enormous and impossible to meet. His plan would involve the purchase of half-a-dozen more farms, the erection and equipment of half-a-dozen more buildings, the employment of half-a-dozen more staffs of professors. Mr. Whitney's scheme is as wild as would be that of a man who would propose half-a-dozen public schools in a section.

"FOOD TRANSPORTATION. — Facilities for transportation of our food products to markets to be perfected. Government to improve breed of our cattle, that we may obtain a market in Great Britain for dressed beef."

Hon. G. W. Ross not only proposed this two years ago, but he is carrying it out, and everything suggested in the above paragraph is being done. Does Mr. Whitney call that a new item of policy?

"EDUCATION. — Public school system to be reformed, that children who go no further than Public school may receive the education suited to their needs. Experts in education to form consultative council to aid in direction of educational affairs. Toronto University to be placed on a sound footing. Queen's to be considered in the light of the great educational work it is doing. Burden imposed upon people by frequent changes and high prices of school books to be relieved."

Our school system, like everything human, may be improved, and is continually being improved. Mr. Whitney and the Government have the same object in view, only different means of attaining the end may be adopted. Where is the "burden on the people by frequent changes and high prices of school books?" When was there an important change in school books that was not needed? No one can deny that the cost of school books to take an Ontario pupil through the public school course is less than half of the similar cost in England or New York State.

"BALLOT FRAUDS. — Ballot crimes to be dealt with. Legislation under which it will be impossible in future for a Government to hold power in virtue of ballot frauds, and to stand between criminals and their punishment. Collusion between criminals and beneficiaries of their crimes to be rendered impossible."

Every honest citizen deplores political corruption, by whatever party practised, and is in favour of the sternest measures to stamp it out. But is Mr. Whitney specially qualified for this task? He is very severe on political irregularities practised by his opponents, but has never been heard to utter one word of condemnation of the terrible political corruption practised by his own party—by his silence he approves of it.

"THE CORPORATIONS. — Cumbrous municipal law to be considered and revised. Legislation unduly favouring corporations at expense of ratepayers to be stopped. Danger of further concessions to be averted."

While the municipal law of this province may be, in Mr. Whitney's view, "cumbrous," it is the best code of municipal laws in the world. It has been frequently revised, is continually being improved, and will continue to be revised, for changing conditions will never permit of perfection in municipal law. Corporations in the past may have been unduly favoured by both municipalities and legislatures, but now they are being shorn of those powers that are hostile to the public interests. Mr. Whitney accuses the Government of being friendly to corporations. This is shown by the fact that the Government passed a measure to tax corporations. Let Mr. Whitney say whether or not he opposed the principle of this action, as he opposed succession duties and the revenue bill?

These are, what the Mail calls, "Mr. Whitney's leading points," and it is left to the reader to note that every important item of his policy has long been embodied and put in practice in the applied policy of the Liberal Government, or is being put into practice to the benefit of the people of Ontario. The Ross Government is doing all, and much more, than Mr. Whitney's pretended "policy" could effect. The Ross Government has been working for the advance of the province successfully, and in view of the failure of Mr. Whitney to advance anything new, or to suggest the doing of anything that is not being done, it is to be assumed that he and his party are not so anxious to do something for the people of Ontario as to have the people of Ontario do something for them. They want office.

Mr. F. W. Walden has resumed lessons in Piano, Harmony and Singing, at his residence, 595 George St. Mr. Walden has still lesson periods between the hours of 9 and 12 a.m. and 1 and 3 p.m., and will be pleased to meet intending pupils.

THE BEEHIVE

"WHATEVER WE DO, WE DO IT WELL."

The new Store—the Ladies' Furnishing Store—will open for business on THURSDAY, SEPTEMBER 12TH. And a cordial invitation is given to all the ladies of Peterborough and vicinity to call and inspect the latest, freshest and newest things from the world's fashion centres.

WEAKNESS
OF MEN AND WOMEN

Could we read the hearts of every man we meet, what a load of sorrow and despair would be disclosed. Indiscretions and Blood Diseases have caused more physical and mental wrecks than all other causes combined. They strike at the foundation of manhood; they sap the vital forces; they undermine the system, and not only do they often disrupt the family circle, but they may even extend their poisonous fangs into the next generation. If you have been a victim of early sinful habits, remember the seed is sown, and sooner or later you will reap a harvest. If your blood has been diseased from any cause do not risk a return later on. Our New Method Treatment will positively cure you and you need never fear any return of the disease. We will give you a guarantee bond to that effect. We would warn you sincerely against the promiscuous use of mercury, which does not cure blood poison but simply suppresses the symptoms.

WE CURE OR NO PAY.

Don't Let your Life be Drained Away, which weakens the intellect as well as the body. There is no room in this world for mental, physical or sexual dwarfs. Our New Method Treatment will Restore all Unnatural Losses, Purify the Blood, Invigorate the Nerves, Restore Vitality, and make a man of you. If you are in trouble, call and consult us. Consultation is Free. We treat and cure Drains, Blood Diseases, Varicocele, Stricture, Unnatural Discharges, Gleet, Kidney and Bladder Diseases. No cutting or operations. No detention from business. Everything confidential. Consultation Free. Books Free. Question Blank Free for Home Treatment.

THE BALKY BALKANS

MORE TROUBLE COMING IN SOUTH EASTERN EUROPE.

Macedonia Is Again Preparing to Rise Against the Sultan—Turbulent States a Constant Menace to Peace—Bulgaria's Position and Its Ruler—A Kindly, Hospitable and Well Educated Man.

Although the rest of the world may be enjoying the profound tranquility of peace, there is one corner of it that can always be depended on for trouble. This is that section of Europe that is known as the Balkan states. When these turbulent principalities are not quarreling among themselves or with their neighbors there is certain to be civil war or a rumor of it.

The most recent storm centre in the Balkans is Macedonia, although much trouble is also brewing in Servia. Macedonia, the birthplace of Philip and Alexander, is now almost wholly included in the northeastern part of European Turkey known as Roumelia. The Macedonians were "first-class fighting men" in the past and their descendants seem to have inherited the valor of their forefathers if not their independence. At any rate, for many years past there have been disturbances in the country and rumors of rising against Turkish rule. The trouble seems about to come to a head, and an open outbreak of war is feared.

If Macedonia and Turkey alone were concerned in the probable approaching war or rebellion, the rest of Europe would very well be content to let them fight it out. Indeed, if Turkey and Macedobia were to fight until they met the fate of the Kilkenny cats it is quite probable that most of Europe would be highly pleased. But it is unfortunately true that they would not be allowed to fight in peace. The trouble would inevitably involve Bulgaria, Roumania, Servia, Greece and in all likelihood Austria-Hungary and Russia, so that the whole southeast of Europe would become a battlefield. Russia has never given up the hope temporarily checked at Berlin in 1878 of holding Constantinople as a Russian city. The Great White Bear looks to Bulgaria to act as its monkey in

PRINCE FERDINAND OF BULGARIA.

pulling the chestnut out of the fire of Balkan trouble.

Bulgaria, which borders on Turkey, is hand in glove with Russia, and the two are fomenting disorder in Macedonia. With them is associated Servia, the other Slavonic country of the Balkans, and opposed to the combination are Roumania and Greece, the non-Slavonic countries, although the Hellenes have no love for Turkey. Montenegro is on the fence and attends strictly to its own little affairs, while the Sick Man of the East is the Ishmaelite whose hand is against everybody, and everybody returns the feeling.

While Servia, Roumania and Bulgaria are all plotting and planning to rid themselves of the nominal suzerainty of the Sultan, guaranteed by the Berlin congress of 1878, Russia's intention is to keep them all in their semi-independent condition. In Prince Ferdinand of Bulgaria the Czar has a dependable ally, for, although Ferdinand loves Russia less than he does the independence of Bulgaria, he realizes very well that without Russian aid he cannot hope to fight successfully with the Moslem.

Ferdinand, prince of Bulgaria, is the youngest son of the late Prince August, Duke of Saxe-Coburg-Gotha, and Princess Clementine, daughter of Louis Philippe of France. He was born on Feb. 26, 1861. Until 1896 Prince Ferdinand was a lieutenant in the Austrian army. On Sept. 7 of that year Prince Alexander of Bulgaria abdicated, and on July 7, 1887, Prince Ferdinand was elected by the national assembly to fill the vacant throne. He assumed the government Aug. 14, 1887, but it was not until 1896 that the great powers confirmed his election.

Prince Ferdinand has achieved unexpected success in the government of his turbulent country. He is a kindly, hospitable, well educated man. He speaks German, English, French, Italian and Hungarian besides the language of his adopted country. He takes most interest in military affairs and in natural history.

Thinner Than a Rail.

Spending every day, as much energy as you make, and if the balance goes a little further, well, you get thinner. Not wise to go that way longer. Better use Ferrozone, you will digest more—a little gain the first week, but the gain keeps growing. Not quite so thin! Keep right on, only don't use Ferrozone too long or you will get too fat. Then your blood will be rich, your heart strong, you won't puff so much, you won't get tired quickly. Fat, blood, strength, you have them all with Ferrozone. Sold by only Ormond and Walsh.

It Takes Time.

"Your wife," we said to the husband of the great authoress, "is the woman of the hour."

"Indeed she is," he responded, with a tinge of sadness in his voice. "She is the woman of the hour and a half when she is dressing for the theater."

MANITOBA SCHOOL CASE.

A Significant Letter From Archbishop Langevin on the Question.

Montreal, Sept. 4.—Archbishop Langevin has published a significant letter to Le Manitoba. After pointing out that some of the propositions made to the Catholic School Commissioners of Winnipeg by the Protestant Board are impossible, he proceeds: "We must, however, observe that there is in Catholic centres a modus vivendi accepted in accordance with the directions of the Holy See, and if an analagous position faces us in mixed centres on the part of the Protestant majority, imitating in this respect the laudable example of the Catholic majority of the Province of Quebec, it would be our duty to accept it. When a valiant army abandoned by its brothers and allies receives from its General-in-Chief the order to surrender, after having proclaimed its rights and demanded the honors of war, it has only one thing to do, obey or die. That is the case of the Catholic minority of Manitoba since 1897: we have obeyed and we live." The Archbishop adds that while waiting for a better day they should use the incomplete but real advantages of the present situation.

THE QUICK PACE OF DECLINING HEALTH

Wasted Nerves and Weakened Bodies Give way to Suffering and Disease—The Action of

DR. CHASE'S NERVE FOOD.

There are hosts of people who are susceptible to attack of various kinds of illness. Their systems are ever ready to take on disease. They bend under the slightest trial, and their health is jeopardized by every trivial exposure. They lack resisting power, and health declines because there is no nerve force to make good the waste by disease.

At first slight weakness, stomach annoyance, headache, heart fluttering, trembling of the hands and limbs, restless sleep, indicate something is lacking — that something is nerve force. Until the stock of nerve force is replenished the pace of declining health will increase, until lost vitality is expressed in every move.

Pale, languid, nerve-shattered people find exactly what they require in Dr. Chase's Nerve Food. It supplies the wants of wasted nerves, rebuilds the wasted cells, and renews the blood. Its wonderful cures are due to the fact that it restores natural nerve force; and it is lack of nerve force that causes most suffering these days. Brain nerves, heart nerves, stomach nerves give out, and all sorts of troubles follow.

Mrs. M. A. McCrea, Troy Hill, Ont., writes: "My system was all run down when I began to use Dr. Chase's Nerve Food. I was weak and very nervous, and felt so tired and worn out that I could scarcely drag myself about the house. It seemed impossible for me to get rest or sleep at night, and I felt that I was gradually growing weaker and more nervous and irritable. Since beginning the use of Dr. Chase's Nerve Food I feel altogether different. It has gradually strengthened my nerves and built up my system wonderfully. I sleep well now, and am being thoroughly restored to health and strength. I believe it is the best medicine to be had for the nerves."

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for $2.50. At all dealers, or Edmanson, Bates and Co., Toronto.

Both Men Confident.

Rat Portage, Ont., Sept. 4.—Everything is in readiness now for the great boat race to-day. Both Gaudaur and Towns seem in the pink of condition. Their respective backers are confident. The chances for Towns seem to lie wholly in the fact that he is a younger man and that Gaudaur is on the wane.

Old Boys' Day

Toronto, Sept. 4.—Yesterday was Old Boys' Day at the Industrial Exhibition here, and to-day is Farmers' Day. The attendance was large again yesterday.

A Medicine 300 Years Old.

Our readers will probably be surprised to learn that for nearly 300 years cod liver oil has been used as a medicine. During the past twenty five years nearly all the cod liver oil brought into this country from Norway has been used in the form of Scott's Emulsion. It is by all means the most pleasant preparation of cod liver oil you can buy.

MARKET REPORTS.

Grain Futures Stagnant—Fluctuations in Price Narrow and Meaningless—The Latest Quotations.

Wednesday Evening, Sept. 4.

In Chicago to-day Sept. wheat advanced ½c; trading dull and narrow. Sept. corn closed at yesterday's closing price.

In Liverpool to-day wheat futures were ½d lower. Corn futures were a shade easier.

Hogs—Receipts, 5410 head; eight cars on sale; market 10c lower; state and Pennsylvania hogs, $7 to $7.10.

Advice to Mothers.

If your little boy or girl comes home with a sore throat the first thing to do is to rub the throat and chest with Polson's Nerviline. Don't be afraid to use Nerviline freely—a whole bottleful wouldn't burn or blister the tenderest skin. Rub in until all taken up by the pores and just before the child goes to sleep give him a glass of hot water into which 30 drops of Nerviline has previously been stirred. This is a sure, pleasant, and speedy cure. Large bottles 25c.

Hon. Edward Blake Home.

Toronto, Sept. 5.—Hon. Edward Blake, member of the British House of Commons for South Longford, Ireland, arrived here yesterday morning and is staying at the residence of his brother, Hon. S. H. Blake, 256 Jarvis street. Mr. Blake has been in Canada a couple of weeks, enjoying a rest at his summer home at Murray Bay. Mr. Blake said he had no business, but had merely come home to see his family and take a rest. He would remain in Canada till the last of October. He would not be interviewed on any public matter whatsoever. "For 40 years I have not been interviewed," he said, "and I am too old now to dance to a new tune." Mr. Blake looks hale and hearty, and fit for many a hard battle yet.

King Going to Denmark.

Copenhagen, Sept. 5.—King Edward will arrive here next Sunday. Emperor Nicholas is expected to stay until Tuesday.

ATHLETIC BICYCLISTS and others should always keep HAGYARD'S YELLOW OIL on hand. Nothing like it for stiffness and soreness of the muscles, sprains, bruises, cuts, etc. th

CORUNDUM AND MICA

ATTRACTIVE DISPLAYS FROM CANADIAN MINES AT PAN-AMERICAN.

Some Information Concerning the Companies Which Are Doing So Much to Make Canada's Name Known Abroad—Profits of Mica Mining Under Proper Management—Edison Pleased With Ontario's Exhibit.

(Special by Martha Craig.)

The Canadian Corundum Co. have a very attractive display of characteristic corundum bearing rocks occuring on their property. These specimens are well displayed in a suitable case. The quality of the crystal compares favorably with the best Georgia corundum now in use and promises to be one of the most important sources of this necessary material on this continent. The Crown Corundum and Mica Company own a large block of important mining property known to be rich in corundum, mica and feldspar, aggregating in all about 700 acres located in the Townships of Methuen and Burleigh, in the County of Peterborough, the Province of Ontario. The company has also secured control of four lots, or parts of lots in Burleigh Township, having the fine water power of Jack's Creek at a number of available points, thereby enabling the company to control one of the most valuable water powers in the Dominion. The company has also in addition under their control quite a number of surrounding properties aggregating 1,000 acres or over, which they intend to thoroughly prospect, and will then be in a position to sell out these additional properties at a handsome profit after some development work has been done, or keep the same and operate them as may be in the best interests of the company. The company has also purchased a valuable mica mine in the Township of Harrington in the Province of Quebec, on which considerable work has been done and which promises to be one of the richest amber mica mines in the Province.

A great deal of valuable mica and corundum has been taken out of the first mentioned property, and a considerable amount of ore is at present on the dump. First-class buildings have been erected for offices, boarding houses, shops, etc. The veins are uncovered and opened for mining. Roads are made and are in good repair. In short, the property is ready for active and extensive operations.

It is the intention of the directors to promptly begin and continually carry on the mining of corundum and mica. To proceed with the erection of suitable dams on "Jack's Creek" to provide power for the industry. To erect buildings and equip the property with suitable machinery as required from time to time for clipping, sorting and packing plate mica, suitable for electrical purposes and every other trade. For mining, sorting, sizing, concentrating and packing corundum, and later on likely taking up the manufactures of abrasive production, and to provide for the economical conveyance for the material from the mines to the mills.

This company has abundance of mica in sight on their property of the very finest quality. Any person versed in the mica market knows the immense profits to be derived from the mining and marketing of good mica, and the price is steadily advancing. Even inferior mica which could not be sold on the market one or two years ago, is bringing a high price to-day. This company will be in a position to supply a great deal of the American and European trade, besides the Canadian trade, but at the present price in Ontario the profits are good enough for any company if properly managed.

The fact that even comparatively small sizes of cut mica sell from $1,000 to $2,000 per ton or medium sized cut plate mica worth in Ontario market from $1.25 to $1.75 per pound, or $2,500 to $3,500 per ton, and the price increases according to size.

The immense quantities of both first-class mica and high grade corundum indicate in the company's holdings the high class of their intrinsic character. The convenient location of the property, the excellent manufacturing facilities, the simple and mechanical products all justify the directors in expecting prompt and profitable returns from the capital invested, as a great deal of development work is already done and the properties thoroughly tested and in a position to carry on the shipping of the ore almost from the start. It may be noted that the Rock Lake Mining Company have a finer exhibit than any other company of the same class, and considerable increase in the value of their stock has occurred since the opening of the Exposition. The same might be said about a property at Grace Gold Mines in the Eagle Lake district. This property has been lately developed and the samples and results appear to be very promising; so much so that a company has been formed during the last few days in Buffalo to work this property with modern appliances. The company has a capital of $1,000,000.

The manufacturers of white arsenic may be congratulated on the successful results attained. An arsenic buyer from Boston visited the Ontario Mineral Exhibit the other day and stated that he had been buying Canadian arsenic and did not know it. He thought it was from the old country. Large quantities of Canadian arsenic are now being sold in this country and no complaint has been made about the quality. Edison, who has just made a thorough examination of the mineral exhibits in the mineral building, expresses himself as being surprised and exceptionally pleased with the Ontario exhibit.

On an average 600,000 Irish, 260,000 Scotch, and 400,000 foreigners reside in England and Wales.

Doctors

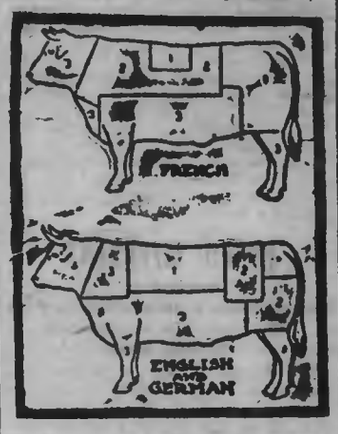
ENGLISH AND FRENCH.

A Telling Illustration of How Meat Cattle Are Shaped to Suit Different National Tastes.

That it is possible for popular taste to exercise a most potent influence on the development of animals that are used for food has lately been shown in the difference between French and English cattle.

The English are very fond of roast meat and show a marked preference for those portions of a cow, such as the fillet, that are in the region of the loins, whereas the French like nothing better than "pot-au-feu,"



NATIONAL MEAT CUTS.

which is made of soup and boiled meat, the rump being the part of the animal from which the meat is taken. Thus, if it is true that steak is the most popular dish in England, so it is equally true that "pot-au-feu" or beef a la mode is the most popular dish in France.

Being well aware of this fact, the breeders of cattle in both countries have naturally done their utmost to develop those parts of the animal that are most appreciated. As a result, the Durham, which is the typical English cow, and is almost as much appreciated in Germany, is today notable for its large loins, its well-developed chest and its small flaccid rump, while the Limousin, which is the typical French cow, is distinguished for its rump, which is both prominent and spacious.

The numbers 1, 2 and 3 in the accompanying pictures indicate, respectively, the first, second and third qualities of meat, as they are rated in the markets of Paris, London and Berlin. It will be seen that in France the entire rump and a small portion of the back are regarded as of first quality, that the shoulder and flank take second rank and that the head, limbs and stomach are not highly prized. In London and Berlin, on the other hand, only the upper part of the rump is regarded as of first quality, though not better than the loins, and the shoulder is consigned to the third rank.

In Danger.

Every one is in danger who neglects the warnings of declining health. The warnings are not as startling as the sudden shriek of a locomotive, but they are just as ominous. When the body begins to lose in flesh, when the cheek is hollow and the skin sallow it is Nature's warning that the body is failing of proper nourishment. It is a condition of "weak" stomach, and "weak" stomach soon involves other organs. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and cures through the stomach diseases seemingly remote, but which have their origin in the disease of the stomach and its allied organs.

There is no alcohol in the "Discovery" and it is absolutely free from opium, cocaine, and all other narcotics.

"Before I commenced to use your medicine I was in a bad condition (for eight years), and four doctors treated me," writes Mrs. Bettie Askew, of Garysburg, Northampton Co., N. C. "They, of course, gave me at the time some relief, but it did not last long. I was some days in my bed and some days I dragged about the house. I have used five bottles of the 'Golden Medical Discovery' and five of the 'Favorite Prescription' and four vials of the 'Pellets.' Now I feel like a new woman, and I want the world to know it."

Dr. Pierce's Medical Adviser, 1008 large pages, paper binding, sent *free* on receipt of 31 one-cent stamps to pay expense of customs and mailing *only*, or 50 stamps for it in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

Men Who Shouldn't Marry.

M. Max O'Rell thinks, on the whole, that the literary man and the artist ought not to marry. "I have come across hundreds of cases," he says, "where artists and literary efforts have been checked, and sometimes killed outright, by the petty cares and worries of domestic life. The brain worker is easily irked and tormented by the most trivial things. He is irritable and most sensitive. I have known literary men to put right off their work for days simply because devoted women came into their studies, and after giving them an encouraging kiss, carried off their pens to make out their washing list."

Women Artists at London Academy.

No fewer than 270 women artists are represented this year at the Royal Academy in London by works in oil, water color, black and white, marble or metal. This is a falling off of about 20 from last year's exhibit, but this is not surprising when it is understood that the total works of all kinds in the present academy is only 1,823 as compared with 2,057 last year. The women's exhibit consist of 150 miniatures, 118 paintings in oil, 55 water colors and pastels, 20 works of various kinds in black and white and 28 examples in the sculpture galleries.

When You Have No Corkscrew.

No doubt you have found yourself in the predicament of having forgotten the corkscrew, and you are out in the fields trying to get a draught from a cool bottle.

Here is a new and simple way to overcome the difficulty, the invention of which is to be accredited to a convivial young scientist. Hold the neck of the bottle firmly in your right hand, and with your left hold a handkerchief against the trunk of a tree.

Now with a quick blow hit the side of the tree covered with the handkerrhief. The cork will immediately fly out. Then turn the bottle upward, so the fluid will not flow out after the cork.

WHEN YOU HAVE NO CORKSCREW.

An angler of mature experience in these matters suggests another method, suited to a situation where there is no trees handy. He says:

"Take two nails or two knife blades, thrust them down between the bottle and cork on either side of the latter, wind your handkerchief in and out and around the nails or knife blades—until it gives you a solid substance for a grip, then gently draw the cork."

What Causes Pain?

Most pains and aches come from excess of uric acid poisons in the blood, due to deranged kidneys, rheumatism, back ache, lumbago, pains in the sides, and limbs, accompanied by bladder and urinary troubles, are warnings too serious and painful to be neglected. Dr. Chase's Kidney-Liver Pills act directly and specifically on the Kidneys, make them active, vigorous and thoroughly cure these ailments. One 25 cent box of this great Kidney medicine will do you a world of good.

Professional Advice.

Miss Oldham—Doctor, how shall I prevent my hair from becoming gray?

Doctor (gruffly)—Go lock yourself in your room and dye.

The Difference.

The bee stings once and then
May never sting again.
The slanderer day after day
In wanton malice stings away.

Yes or No?

"Did she give you her answer in so many words?"

"No. One word was quite enough."

"System Tonic" Copyrighted

SYSTEM TONIC IS A SCIENTIFIC REMEDY AFTER THE SUGGESTIONS OF THE BEST PHYSICIANS IN AMERICA. DISPENSED BY A CHEMIST.

Fac-Simile of Genuine.

It Can't be Done

In spite of the fact that a few months ago the barrel was full of delicious sweet cider, you can't by adding a little soda now since it has become vinegar, transform it back to cider. Neither can you cure dyspepsia by taking a little pepsin, or baking soda, or a few doses of Cathartic medicine. You must take Merrill's System Tonic for the whole system has undergone a change from the effects of undigested and unfermented food. The condition of the blood and of the digestive ferments, and the action of the bowels and kidneys are as unlike what they should be, as vinegar is unlike cider. Merrill's System Tonic strengthens the stomach and nerves, purifies the blood, restores healthy kidney action and cures constipation. This is just what you want. No other remedy known does it so quickly or so well or makes such a permanent cure. If you have dyspepsia, liver trouble, or headache give Merrill's System Tonic a chance to cure you.

Each 50c bottle contains 50 pleasant-to-take doses, and is sold

HOME FROM WEST AFRICA.

Surgeon Lieut. Thompson Here on Furlough—Something About Sierra Leon.

From the walls of the Peterborough Collegiate Institute have gone forth many young men who have made a name for themselves on every continent of the globe, and done credit to the Institute, the staff, the town, and themselves, in various stations of activity and service. Little did Surgeon-Lieutenant Thompson, of Hiawatha and Sierra Leone, West Africa, think when he was a happy lad in the Collegiate Institute here, that he would a few years later be sitting in the Examiner sanctum telling of his experiences on the western shoulder of the Dark Continent. Dr. Thompson, of Hiawatha, who is home on furlough, was a pupil of the Collegiate Institute, subsequently graduating at the Toronto School of Medicine. He took a postgraduate course and degree at the Royal College of Surgeons, Edinburgh. He became attached to the Royal Army Medical Corps as civil surgeon, went to Sierra Leone, and while there was given the rank of Lieutenant. Dr. Thompson was all the time of his stay in West Africa stationed at the Depot in Freetown, Sierra Leone. Freetown is a city of forty thousand inhabitants, the larger proportion of which is blacks. The city has all the outward appurtenances of civilization, good government buildings, churches galore, fine shops, and that indispensable adjunct of civilization, the gin shop, is in conspicuous evidence. The country in the vicinity is counted as civilized, and the natives are gradually learning the agricultural methods of civilization, but the process is slow, as might be expected, from our standpoint—the coloured people as a race on this continent—they are lazy and fond of ease. Freetown is strongly fortified; already three batteries have been equipped with ten-inch and four-inch guns. It is a first-class naval coaling station. As stated, the population is chiefly black, and Freetown is a polyglot paradise — about 75 languages and dialects being spoken there, of many of which Dr. Thompson has more than a smattering. Freetown is the centre from which are sent forth expeditions to chastise native chiefs, guilty of raiding and atrocities. Dr. Thompson did not accompany any of these expeditions, but treated the wounded that were sent in to the depot, and also the invalids—for the climate of Sierra Leone is horribly unhealthy, the deathrate in Freetown being for whites (fortunately a small proportion of the population) from 100 to 120 per 1000 per year. One year is the limit of residence for the army and colonials. Of course the mosquito is an active contributor to disease, his busy bill inflicting the malarial inoculation, the seed of the terribly prevalent fevers. It is not the full-size, ferocious-appearing mosquito that does the damage, but a pestilent and active little gray fellow, of comparatively diminutive size. A noted scientist is now making investigations with a view of mitigating the havoc to health created by these insect pests. Speaking in regard to social conditions among the native population, Dr. Thompson says that there is no morality to speak of. He will report for duty in England on October 3rd, and go to South Africa. His many friends here hope that the immunity from disease and mishap that he enjoyed in Sierra Leone will follow him to his new scene of duty.

A Canadian Was the Lowest.

Montreal, Sept. 5.—J. A. Jamieson, who is building the large elevator at Port Arthur for the Canadian Northern, was awarded yesterday morning the contract for the Central elevator in Montreal harbor, the contract price being $642,000.

At the meeting of Harbor Commissioners, John Kennedy, the chief engineer, reported that four tenders had been received, as follows: J. A. Jamieson, Montreal, $642,000; Barnet & Record, Minneapolis, Minneapolis, $820,000; McDonald Engineering Company, Chicago, $975,000; A. F. Chapman, Buffalo, $1,000,000. The tender of Mr. Jamieson being the lowest, Mr. Kennedy strongly recommended its acceptance.

Mayor Prefontaine moved, seconded by Mr. Lemay, and resolved: That the tender of Mr. Jamieson be accepted, subject to the approval of the Minister of Public Works, as required by law.

More Census Returns.

Ottawa, Sept. 5.—The Census Department yesterday received population returns for Northern Quebec and Ontario in the vicinity of the boundary line. The census there was taken by Father Beaudry, of the Oblate Mission at North Temiscamingue. The figures will add 712 to the population of Ontario (probably Algoma) and 721 to Quebec (all in Pontiac County). The returns are:

Quebec—Klock's Farm, at head of Quinze River, 16; Height of Land, 12; Northern Temiscamingue, 273. Total, 721.

Ontario—New Post, 28; Moose Factory, 570; Mattagama, 141. Total, 712.

Shooting at Sea Girt.

New York, Sept. 5.—The interstate military team match open to teams of 12 men each from State or Territory in the United States, was won at Sea Girt, N.J., yesterday by the New Jersey State team, with a total score of 1,074 points.

General Bird W. Spencer picked the all-American team last night. Major Mason, the captain of the Canadian team, will not select his men until morning.

New Wheat Delivered.

Winnipeg, Sept. 5.—On the C. P. R. lines on Monday there were 92,190 bushels of new wheat delivered. The highest price obtained was 60 cents per bushel at Winkler, where 5,000 bushels were sold at that figure. The lowest price was 55 cents, and the average 57¾. Rain fell last night at many places, interfering with threshing operations.

RUGBY CLUB ORGANIZED.

Mr. R. F. McWilliams Elected President.

An Enthusiastic Meeting was Held in the Oriental Hotel Last Evening—The Officers.

The annual meeting of the Peterborough Rugby Football Club was held in the parlours of the Oriental last night and was well attended. The greatest of enthusiasm prevailed, and the prospects for the locals were never brighter.

The chair was occupied by Mr. H. R. H. Kenner, the president of the club, who in opening the proceedings briefly addressed the members and referred with feelings of satisfation to the record of the club in years passed.

There were also present, Messrs. Hal. Burnham, captain, E. S. Clarry, secretary-treasurer, H. Rush, assistant secretary-treasurer, R. F. McWilliams, ex-captain, G. Milne Hamilton, P. O. Dumble, Ben. Simpson, A. J. McClellan, Bill Maher, Dr. Andy Scott, Albert E. Brundrett, Eugene Hurtuboise, H. McM. Morden, Bill Crowley, Herb Wood, C. McLean Paterson, Geo. L. Revell, W. H. Walkey, Jr., Chris Graham, W. B. Rickey, and others.

The minutes of the last meeting were read and on motion adopted.

Mr. R. F. McWilliams reported on behalf of the delegates to the Ontario Rugby Football Union, giving an account of the changes that have been made in the constitution, etc.

The report of the secretary-treasurer showed the club to be in a fair financial condition, there being only a small deficit. The report was adopted.

THE OFFICERS.

The election of officers was next taken up and resulted as follows:—

Patrons and Patronesses — Hon. and Mrs. J. R. Stratton, Mr. and Mrs. Geo. Hatton and Mr. and Mrs. W. H. Hill.

Hon. President—H. R. H. Kenner.
President—R. F. McWilliams.
1st Vice Pres.—Wm. Crowley.
2nd Vice Pres.—Dr. Andrew Scott.
Secretary-Treasurer—E. S. Clarry.
Assistant Secretary-Treasurer—H. Rush.
Manager—A. W. McPherson.
Captain—Hal. Burnham.
Managing Committee—Messrs. A. J. McClellan, C. M. Paterson, Herb Wood and Chris Graham.
Team Committee—Dr. Scott, H. R. H. Kenner and Victor McWilliams.

After the election of officers informal discussion took place as to the prospects for the coming season. Capt. Burnham stated that he desired a full turn out of players on Saturday afternoon when the initial practice of the season would take place.

General regret was expressed at the retirement from the office of president of Mr. H. R. H. Kenner, who made an ideal active officer. His services towards the club were fully recognized by the boys when they made him Hon. President. In Mr. R. F. McWilliams, his successor, the club was most fortunate in securing so capable a man for the position. Mr. McWilliams may be termed the father of Rugby in Peterborough, as his connection with the game during the past several years has been prominent and effective.

The offices are pretty well shaken up this season and only the secretary-treasurer and the assistant secretary-treasurer are the same as last year.

SPORTING PASTIMES.

GOLF.

There will be a Golf Club Tea on Thursday, Sept. 12th. As this is the first of the Autumn season, it is hoped there will be a large attendance.

BOWLING.

Play at the green was kept up until a late hour last night, and several very enjoyable games took place. A ten end game was very closely contested, only one end securing a larger count than one. It resulted as follows:

J McCreary,	W F Johnston
Wm Smith,	K G Lech.
R Kerr,	M Green.
Alf Tarrill, sk...6	K Houston, sk..5

An earlier game was played, resulting as follows:

W McCreary,	Alf Tarrill.
R Kerr,	M Green.
Wm Smith, sk...8	K G Lech, sk...21

THE TRIGGER.

Mr Milne Hamilton returned Tuesday from the mouth of the Keene River. He had excellent luck considering that there were so many duck hunters on the war path. Milne brought home 10 beautiful ducks and says had the mosquitoes not been so bad that he would have remained and cleaned out every duck on the lake.

BASEBALL.

The baseball season in Peterborough is over for this year and the management of the club is not sorry, either. The last number of games have been played at a direct financial loss so that such a policy could not very well continue much longer. However, the Peterborough ball team is not composed of quitters and they put on games when they even knew that they were going in the hole. Why the team did not get better financial support from the townspeople it is hard to say, but the public was certainly sadly lacking in enthusiasm. Of course there is the fact that the grounds on which the games were played were not a very inviting looking place, and with miserable accommodation for ladies, so that athletics must suffer as a consequence.

Many confiding villages in the middle section of Pennsylvania have been cruelly imposed upon by an alleged female ball team that played nines for gate receipts, says the North American. It is bad enough to view the genuine female wrestling with the national pastime, but when the management trots out a lot of scrawny boys rigged up in girls' clothing the villagers have a lusty kick coming. Such a kick has been filed by the good people of Jersey Shore, Pa., where the home team defeated the strolling females recently. Experts on baseball and feminity in that town soon discovered that but one member of the gentler sex held a job on the visiting team. She played right field, and side stepped everything that came her way. This woman did a lot of talking, however, to convey the impression that her mates were the real thing. Boys ranging from twelve to eighteen years, with bangs and braids of hair sewed on their caps, made up the rest of the team. Suspicion was first excited in the fourth innings, when the pitcher, Lizzie Arlington, drew a plug of tobacco from the pocket of her blouse, and took a large bite. Lizzie had just given three bases on balls, and she forgot herself in the excitement of the moment. Later when the first baseman chased a foul into the crowd the village barber discovered that he needed a shave. And when the populace began to revile the women, they retorted in hoarse, base accents. Jersey Shore was much shocked, and has put up the bars on female ball teams that chew tobacco and swear like the real professionals.

SOUTH SHORE FOR SALE.

Prospective Deal by Which It Will Become the Property of the St. Lawrence and Adirondack for $375,000.

Montreal, Sept. 5.—Negotiations are on foot for the sale of the South Shore Railway to the St. Lawrence and Adirondack Railway Company. Victor Geoffrion, M. P., representing the stockholders, and more specially Mr. Beauchemin of Sorel, had a meeting yesterday with Edmund Guerin, K. C., who represents the Campbell and Meyer interests, and it is expected that in the course of a day or two the negotiations will be completed. It is understood the purchase price is $375,000, which gives Mr. Campbell a profit of $75,000 in the transaction.

The South Shore Railway runs from Montreal to Sorel, a distance of 45 miles, while the St. Lawrence and Adirondack has already been extended to Caughnawaga, a few miles from Montreal. The latter railway, it is understood, will be extended a few miles farther down to St. Lambert, there to connect with the Montreal and Sorel, or South Shore line. The United States railway men also propose to extend the newly acquired line from a point just below Sorel to Nicolet, and ultimately to Point Levis.

CANADIAN SPEAKERS.

Dr. Mills and Miss Blanche Maddock of Guelph Will Speak at American Association of Farmers' Institutes.

Another case of smallpox was discovered at Ottawa on Wednesday. The victim is Joseph St. Jacques, 81 Murray street.

Daniel Campbell, carter, at Kingston, was so severely injured in a runaway on Wednesday that death ensued some few hours later.

Wednesday was Farmers' Day at the Industrial Exhibition at Toronto. At the directors' luncheon, among those who spoke was Hon. E. J. Davis, Commissioner of Crown Lands. There was a large attendance.

A. T. Holmes, Canadian Immigration Agent in India, is in Ottawa, negotiating for the establishment of a big glass factory in Canada. A deputation from the manufacturers will visit Eastern and Western Canada, looking for sites.

A meeting of the American Association of Farmers' Institute Workers will be held in Buffalo Sept. 18 and 19. The Canadians who are on the list for speeches and papers are Dr. James Mills, Guelph, who will respond to the address of welcome, and Miss Blanche Maddock, also of Guelph, who will read a paper on Women's Institutes.

FOUND DIFFERENT.

Classed Dodd's Dyspepsia Tablets With Other Remedies but Changed His Mind Since.

Mr. James Beatty, of Kilworthy, Ont., tells a typical story of how he first came to know Dodd's Dyspepsia Tablets for what they're worth.

He had been sick and ailing with Dyspepsia for some time. He had tried different treatments and various medicines all to no purpose. His stomach was broken down, his food was no use to him and his whole system of course got out of order.

He saw an advertisement in a Toronto paper one evening, in which the reasonableness of the treatment known as Dodd's Dyspepsia Tablets appealed to his sense of conviction. Dodd's Dyspepsia Tablets act on the only sound principle in the treatment of Dyspepsia—rest to the stomach.

If a man can't digest his food because his stomach is tired out, how is he going to get better unless his stomach be rested and his food go on being digested? Mr Beatty found it out. Listen:

"If the work Dodd's Dyspepsia Tablets do for everybody is the same as they did for me they are the greatest medicine ever discovered. I saw them advertised in a Toronto paper, and I happened to be in Mr. Homer's store in Gravenhurst. I asked the clerk did he keep them in stock, but they had run out of them. He told me that he would send for them but I told him it was not necessary as I thought it would be like other patent medicines. I found different. I went to Dr. Campbell's and got them there. They made another man of me. I used to have to be very particular what I ate and drank and above all I dreaded Sunday. Now, thank God, I can eat what I choose and the doctor is in my own pocket in the shape of Dodd's Dyspepsia Tablets."

THE ROYAL SALUTES

Cannon Will Thunder in Welcome to the Duke of York.

TIME WHEN THEY WILL BE FIRED

Hours and Dates at Which the Reviews at Quebec, Toronto and Halifax Will Take Place—A Detachment of 400 Men From North American Squadron Will Be at Quebec and Halifax.

Ottawa, Sept. 6.—When the Ophir with the Duke and Duchess of Cornwall and York arrives at Quebec on the 16th instant a Royal salute of 21 guns will thunder out from the fleet and from the batteries at the Citadel. On the official landing of the Royal visitors the salute will be repeated. There will also be similar salutes when the Duke and Duchess leave for the review and return, and on their departure for Montreal. At Montreal, Ottawa, Winnipeg, Vancouver, Toronto, Hamilton, Kingston, St. John and Halifax Royal salutes will be fired when their Royal Highnesses arrive at and depart from the respective cities. In Toronto and Halifax guns will boom the same as at Quebec when the Royal party pass to and from the review grounds. The Quebec review will take place at 11 a. m. on the 17th instant, the Toronto review at 11 a. m. on October 11th, and the Halifax review at 3 p. m. on October 19th. A detachment of 400 men from the North American squadron will participate in the reviews at Quebec and Halifax.

Warships in Royal Salute.

At Montreal, Quebec, Vancouver and Halifax warships will join the garrison batteries in the Royal salute. In the other cities visited the salute will be fired by the local batteries. His Excellency Lord Minto will receive a salute of nineteen guns at every place he visits. The Governor-General will travel in his own train, which will precede the Royal train by half an hour. This is the following procedure adopted in Australia. During the Royal stay in Montreal the Duke and Duchess of Cornwall and York will occupy the mansion of Lord Strathcona. The residence of Mr. James Allan has been placed at His Excellency's disposal. Both houses are on Dorchester street. While the Duke and Duchess are in Montreal two British warships will be moored in the harbor.

The Royal Procession.

The following will be the order of the Royal procession wherever formed: Three mounted police, interval of 25 yards, two troopers, one sergeant, interval of 50 yards, one staff officer, No. 1 troop escort, interval of 50 yards, carriages of Royal suite, headquarters staff, Canadian militia, interval of 50 yards.

Royal Carriage.

Lieut. Duke of Roxburghe, officer second in command of escort; Capt. Viscount Crichton, escort trumpeter; No. 3 troop escort; interval of 50 yards, No. 4 troop escort; interval of 50 yards, one Sergeant; interval of 50 yards, two troopers; interval of 25 yards, three mounted police.

Rear-guard escort—One Sergeant; interval of 50 yards, two troopers; interval of 25 yards, three mounted police.

The guard of honor will consist of a field officer or captain, two subalterns and 100 rank and file, with the King's color on occasions of review, and the band of the regiment.

Ophir Heads for Quebec.

St. Vincent, Cape Verde Islands, Sept. 6.—The Royal yacht Ophir, with the Duke and Duchess of Cornwall and York on board, escorted by the British cruisers Diadem and Niobe, sailed for Quebec yesterday.

SULTAN MENACES BRITAIN.

Thinks Stopping of Corvette Incompatible With Friendly Relations.

Constantinople, Sept. 6.—The Turkish Ambassador in London has been instructed to inform Great Britain that the action of a commander of a British warship in the Persian Gulf, in preventing the Turkish corvette Sehob from entering Koweyt, is incompatible with friendly relations. The British side of the controversy is that the Sehob was trying to land Turkish troops on the territory of a Sheikh, who was independent of Turkey.

The German Ambassador on Monday communicated to the Porte the Kaiser's declination to intervene, and advising the Porte to come to an understanding with Franco.

It appears that M. Delcasse's letter requesting Munir Bey to leave the country expressed astonishment that Munir Bey should illuminate the Embassy and give a banquet on the anniversary of the Sultan's accession, in view of the rupture in relations between France and Turkey.

Accidental Drowning.

St. Thomas, Sept. 6.— Thomas Connell was discovered in Penafore Lake Wednesday night. An inquest last night decided that death was due to an accident.

Held Up Hotel Guests.

Greenwood, B. C., Sept. 6.—Three masked men held up the guests at Kaiser's Hotel at Etholt last night. Their spoils aggregated $400 in cash, three gold watches, a diamond breast pin, a diamond ring and other jewelry. Eight persons were held up.

HIS SOUTHERN LIMIT

Scheeper's Commando Has Reached It in Cape Colony.

HIS MEN HAVE TURNED NORTH.

Three British Were Killed and Five Were Wounded in the Derailment of an Armoured Train at Taungs Station on Monday Last—British Casualties Now Reported Over 100,000.

Cape Town, Sept. 5.— Scheeper's commando, consisting of three hundred men and 600 horses, appears to have reached the limit of its southern raid and turned to the northward after having gained some recruits. One hundred mounted men have been following, endeavoring to unite with Scheeper's commando, but have been unable to overtake it.

An armored train was derailed at Taungs station Monday last, three British being killed and five wounded.

Women as Peace Agents.

London, Sept. 6.—Lord Kitchener's proclamation has as yet had little effect, says a Pretoria despatch, so far as the surrender of burghers is concerned, but in response to an earnest appeal the authorities have given permission to many wives of Boers in the field to go to warn their husbands of the futility and consequences of further resistance.

Sir Albert Hume, Premier of Natal, in the course of an election speech at Pietermaritzburg yesterday, announced that the Natal Government was advocating a considerable expansion of territory by addition of large areas of the Transvaal and Orange River Colony.

On Portuguese Territory.

Lisbon, Sept. 6.—An official despatch received here from Mozomabique announces the seizure by Portuguese Government officials, near Ressano Garcia on the Transvaal frontier, of a large supply of ammunition and dynamite intended for the Boers.

THE BRITISH CASUALTIES.

100,183 Is the Total Just Given Out by the War Office.

London, Sept. 6.—The official report of the War Office on the casualties in South Africa says the total casualties number more than 100,000. The report reads:

Officially admitted	71,383
In hospitals in South Africa, Government figures	14,000
In rest centres	6,000
Colonial invalids	5,000
Civilian deaths	2,000
Casualties since August 1	1,800
Total	100,183

In addition, the Boers have captured and released about 21,000 British prisoners.

The total official loss for July was 1,579 killed, wounded, diseased, prisoners, invalids.

CAPT. BENNETT'S CAPTURE.

Plucky Vancouver Boy Led a Detachment of 90 Against 4,000.

Vancouver, B. C., Sept. 6.— Particulars have been received here of the capture of Capt. Bennett of the South African Constabulary at the hands of Gen. Dewet himself on July 11 last. Capt. Bennett left Vancouver a few months ago to accept a captaincy in the Constabulary. In the fight, Capt. Bennett's command, consisting of 90 men, was confronted by a Boer force of 4,000, losing four killed, six wounded and 24 captured. The Boers reported seven killed and 24 wounded. The Constabulary consisted of two detachments of 30 each from the 10th and 15th troops, recruited in England, and 30 Western Canadians. The Canadians had the right flank and opened fire first.

The Canadians lost: Sergt.-Major Chalmers, N. W. M. P., was killed; Trooper Sproule, Golden, B. C., killed; Trooper C. Begg, Okanogan, B. C., killed; Trooper G. L. Herchimer, Rossland, B. C., seriously wounded in the head. The other wounded were: Trooper Jack Gravely, Nelson, B. C., recovering; Trooper Thomas Curtis, Nelson, B. C., recovering; Trooper McIntyre, Fort Steele, recovering.

Conservatives Nominated.

Halifax, N. S., Sept. 6.—The Conservatives of Colchester, in convention at Truro yesterday afternoon, agreed on A. H. Black, merchant, Truro, and John F. Stairs, merchant, Halifax, as their candidates to contest the county at the local elections.

Boat Race Again Postponed.

Rat Portage, Sept. 6.—The world's championship boat race was again postponed yesterday afternoon and Friday morning at 11 o'clock is now the time fixed by Referee Galt. The water was very rough during racing hours yesterday. The articles call for calm water, and the referee is going to abide by the agreement unless the oarsmen are agreeable to break it, and this is improbable.

Close Down or Move.

Ottawa, Sept. 6.—Mr. J. R. Booth, speaking to a press representative yesterday about his summons to the Police Court for throwing sawdust into the Ottawa River, said he would be fined and would keep on paying the fine as long as he could, and the mill would close down or be moved.

NEW FALL DRESS GOODS

FOR AUTUMN, 1901.

Large shipments of Goods have been tumbling in during the past two weeks, and we now take pleasure in announcing to our many customers that our STOCK OF NEW FALL DRESS GOODS is about complete. FRIDAY, SEPT. 6, 1901.

IN THE HOUSE OF HIS FRIENDS

Mr. Whitney's own natural allies and supporters do not all stand with him. Referring to his late Victoria Hall speech, the Conservative Toronto Telegram, thus pricks the bubble of Mr. Whitney's bumptiousness. The Telegram says, under the heading "Too much empty talk:"

"Ontario is not to be won for Mr. J. P. Whitney by "hurrah-boys" speeches to the effect that the Conservatives never failed to carry Ontario when they were united.

Such talk is historically inaccurate and has the mischievous effect of stimulating that evil spirit of "yellow dog" partisanship which imagines that the party is bigger than the country.

Again and again the Conservatives united under Sir John Macdonald to beat Oliver Mowat. They were routed horse, foot and artilleryy. They carried the province in Federal contests with the help of a gerryymander.

The political history of Ontario indicates that this province is not the chattel of any party. The Conservatives must get votes outside their own party if they hope to defeat the Ross Government, and the empty glorification of party for the sake of party gives the judicious cause to grieve."

EDITORIAL NOTES.

Mr. Whitney failed to include in his platform a plank making water powers "free as air to all classes," as he advocated at Niagara Falls.

Mr. Whitney says new Ontario is the "land of the stunted poplar." Old Ontario will take care, remarks the Globe, that it will not be known as the land of the stunted Premier.

And Col. J. P. Whitney, says the Toronto Telegram, Conservative, just took a night off and knocked a few loose planks into a platform which looks like the glorious Liberal framework of 1893.

A good many Canadians, Liberals and Conservative, says the Toronto Telegram, Conservative, do not share Col. J. P. Whitney's personal convictions that the Ontario Government is to be criticized for not giving enough to F. H. Clergue.

The Mail and Empire says our public schools do not pay enough attention to handwriting. There may be some truth in this. The man who has been doing the "handwriting on the wall," which has been applied to the going of the Liberal Government, and exploited by the Mail and the Conservative party for the past twenty-five years, wrote such a bad fist, and used such poor ink, that up to date no one has been able to read it or even see it.

The Mail and Empire says that Mr. Whitney in his last speech in Toronto showed that in all the years the Reformers had held office anything good they had given the people emanated from the Conservative party. If this is true, the proper place for the Opposition is in opposition, but as a matter of fact it is not true, and the people of Ontario believe it is not true, or they would have placed this all-wise Conservative party in power long ago.

Thinner Than a Rail.

Spending every day, as much energy as you make, and if the balance goes a little further, well, you get thinner. Not wise to go that way longer. Better use Ferrozone, you will digest more—a little gain the first week, but the gain keeps growing. Not quite so thin! Keep right on, only don't use Ferrozone too long or you will get too fat. Then your blood will be rich, your heart strong, you won't puff so much, you won't get tired quickly. Fat, blood, strength, you have them all with Ferrozone. Sold by only Ormond and Walsh.

GRAIN COMING EAST.

First Two Days Saw 210,000 Bushels Handled by C.P.R.—Sir Wm. C. Van Horne Says 100,000,000 Bushels.

Montreal, Sept. 6.—Advices received by Mr. C. M. Bosworth, freight traffic manager of the Canadian Pacific Railway, show that the movement of this year's wheat crop has already commenced. On the 2nd there was marketed 92,000 bushels, and on the 3rd 120,950 bushels, which is over twice as much as the quantity marketed during the month of September last year. The actual cars on the 2nd were 49, and on the 3rd 77.

100 000,000 Bushels.

New York, Sept. 6.—The Herald prints the following: Sir William C. Van Horne, chairman of the Board of Directors of the Canadian Pacific Railroad, estimates Wednesday that the grain crop in the Canadian Northwest would reach a total of 100,000,000 bushels. "This is a bumper crop," said Sir William, "and will allow the farmers a surplus for export trade."

More Harvesters Needed.

Winnipeg, Sept. 6.—The local Agricultural Department is being besieged with inquiries from farmers throughout the Province for help in the harvest fields, where good men in stacking and threshing can command $1.50 to $3 per day.

Forty farm laborers arrived from England yesterday. They state that in England the newspapers advertised for 20,000 farm laborers for Canada to assist with the harvest and that the wages would be 10 shillings per day for several months' work. They were disappointed to find that from $30 to $40 per month was all that was offered for harvesters, but all accepted engagements in various parts of the Province. Eighteen new engines have reached the C. P. R. western division from Richmond, Va., and Montreal, and 18 more are expected within the next week or two. These will be engaged in the extra work of hauling the big crop to the Fort William elevators. There are now 270 engines on the western division of the C. P. R.

BOAT TRAVEL ON SUNDAY.

Dominion Executive of the Lord's Day Alliance Will Appeal to the Dominion Government to Prohibit It.

President McKinley visited the Pan-American on Thursday and inspected the Canadian exhibit.

Charles V. Parke, merchant, of Wiarton, has been appointed sheriff of Bruce County in succession to the late F. S. O'Connor.

The Dominion Executive of the Ontario Lord's Day Alliance will appeal to the Dominion Government to prohibit Sunday travel by boats.

It was Pan-American Day at the Toronto Industrial Fair on Thursday. At the directors' luncheon Hon. James Stratton spoke at some length.

William Wheldon of 228 Coursol street, Ste. Cunegonde, Montreal, was killed at 1 o'clock Thursday as a result of a fall from the third storey of his residence to the sidewalk, almost thirty feet.

Arthur Parry and John Croucher, employes of the Toronto Electric Light Co., were badly injured on Thursday by being caught in the firm's hoist. Both of Parry's ankles were badly crushed and he was otherwise badly injured. Croucher sustained a severe shaking up and an injury to his spine.

THE ONLY ONE.

The man who says that all patent medicines are worthless is a fool. For Dr. Hall's Rheumatic Cure has no equal. W. C. Switzer, Harrowsmith, O., suffered with sciatic rheumatism for ten years. He tried every known remedy recommended for the cure of rheumatism without obtaining relief. Six bottles of Dr. Hall's completely cured him. This great blood purifier is put up in bottles containing ten days' treatment. Price 50 cents at all drug stores or The Dr. Hall Medicine Co., Kingston, Ont.

The Bloodstone.

Bloodstone, which is really green chalcedony spotted with jasper, is accounted for by the following legend: At the crucifixion a piece of chalcedony lay at the foot of the cross, and on it dropped the Saviour's blood, from which time the stone is said to have borne red spots, which are supposed to increase and to deepen in color when danger is near. It is also said to revive the spirits and to inspire to great deeds, to check excessive bleeding and last, but not least, to render its wearer invisible at will.

KING EDWARD AT COWES.

A New Portrait of His Majesty in His Yachting Costume.

What Scientists Tell Us.

There are believed to be 16 tons of shells to every cubic mile of ocean.

The shark holds the record for long-distance swimming. A shark has been known to cover 800 miles in three days.

Berlin passed a law in 1871 that all milk should be sterilized. As a result infant mortality in that city has fallen from 30 per cent. to 23 per cent. in 30 years.

The dandelion produces 12,000 seeds per plant; shepherds' pulse, 37,000; thistle, 65,000; chamomile, 16,000; burdock, 43,000, and the common plantain 44,000.

Prof. Pictet, of Geneva, is reported to have devised a plan by which oxygen can be produced on a commercial scale and at a cost that will greatly increase its use.

Many fish can produce musical sounds. The trigla can produce long-drawn notes ranging over nearly an octave. Others, notably two species of ophidium, have sound-producing apparatus, consisting of small movable bones, which can be made to produce a sharp rattle. The curious "drumming" made by the species called umbrinas can be heard from a depth of 30 fathoms.

A Clodion Bas Relief.

A bas relief by Clodion, representing fawns, nymphs and cupids at play, has been discovered in a Paris nunnery. The relief was carved for Princess Louise of Conde, in the eighteenth century, and when she became a nun the figures were covered with plaster. A Prussian cannon ball at the time of the siege of Paris chipped off the plaster, showing the sculpture beneath. A French antiquarian society intends to present it to the Carnavalet museum, though the price asked for it is $40,000.

Growth of the Beard.

It has been calculated that the hair of the beard grows at the rate of one and one-half lines a week. This will give a length of six and one-half inches in the course of a year.

The Agony of Sleeplessness.

Did you ever pass a single night in wakeful misery, tossing and rolling in bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding nihgt growing worse and worse? This is the most dreadful symptom of Nervous Exhaustion and Debility. You can be gradually and thoroughly cured of Sleeplessness by the upbuilding influence of Dr. Chase's Nerve Food. It cures in nature's way, by creating new nerve cells and restoring lost vitality.

Prince Among the Colliers.

Miss Marie Belloc, in an illustrated article in Cassell's Magazine on the Duke and Duchess of Cornwall and York, says of His Royal Highness as a sailor:

There are many stories of the years when the Duke of York was in naval service, one of which at least has the merit of being absolutely true, for it was told at a public dinner by Admiral Sir Frederick Bedford, who took an actual part in the incident. Sir Frederick was at the time in command of the ship in which the Duke was serving as lieutenant, and as the vessel was coaling in Turkish waters the Sultan sent a representative to greet the grandson of the British sovereign.

The Pasha was naturally received by the Admiral, then a captain, to whom he showed but scant courtesy. "I am come to greet the Prince who is in command," he observed. "I am in command," replied Captain Bedford; "the Prince is one of my lieutenants, but if you will wait a minute you will see him."

And just then Prince George, who had been in command of the coaling party, and who had in the exercise of his duties become smothered in coal dust appeared. The spectacle of Queen Victoria's grandson so engaged apparently inspired the Turkish official with mingled surprise and horror.

Historic Building Must Go.

The Sheffield, Eng., Week and Weekly News, has the following item which will interest many Canadians who have visited the spot referred to.

"A building intimately associated with John Wesley is about to disappear. It was on Trinity Sunday, 1743, that the famous preacher began his ministry at the Chapel in West street, Seven Dials. Speaking of that occasion Wesley writes: "I was a little afraid at first that my strength would not suffice for the business of the day when a service of five hours (for it lasted from ten to three) was added to my usual employment." Here it was that Wesley and Whitefield celebrated their reconciliation, and here, too, the saintly Fletcher, of Madeley, preached his first sermon in 1751. The first floor of the adjoining vestry house formed a Nicodem room, where, with windows opening into the chapel, the celebrities of the day could hear without being seen. This house is now condemned, and ordered to be pulled down forthwith. It is at present in the occupation of the Seven Dials Mission, and it is proposed to build upon its site a new building, where the urgently-needed increase of space for the work may be obtained."

School Suits

Mothers know where they can always depend upon getting good, serviceable School Clothing for their sons. They know whether or not the last Suit bought at the City Clothing Store wore as well as it ought to have done. And if it did, we deserve their patronage again.

We have all GOOD qualities in BOYS' SUITS, and all sizes and styles to fit any boy from 3 to 15 years of age. We sell the best Clothes for Boys that are made by any manufacturer in Canada, and we know they have always given wide-spread satisfaction.

We were boys ourselves once, and don't forget the first time we wore long pants.

The Giraffe's Timidity.

A giraffe is very timid on hearing slight sounds, but is indifferent to loud ones. A writer in The Leisure Hour says: "Noisy sounds, like a man walking by with hobnail boots, it does not notice, but a lady coming in with hardly more sound than the rustling of her dress makes it start, with pricked ears and eyes distended. We remember well, after a terrible explosion of gunpowder on a barge on the canal, asking the keeper of the giraffes of that day how they had taken it, and he said he was surprised how very little notice they took. They jumped to their feet, but almost at once lay down again when they found nothing happened. "But," he added, "if I were at nighttime to creep along that gallery in my socks they would be so scared that I believe they would dash themselves to bits." They fear the lurking foe, and a bing bang scares them less than a faint, rustling sound. They are in that respect very deerlike."

LAXA-LIVER PILLS regulate the bowels, cure constipation, dyspepsia, biliousness, sick headache, and all affections of the organs of digestion. f

FOUND DIFFERENT.

Classed Dodd's Dyspepsia Tablets With Other Remedies but Changed His Mind Since.

Mr. James Beatty, of Kilworthy, Ont., tells a typical story of how he first came to know Dodd's Dyspepsia Tablets for what they're worth.

He had been sick and ailing with Dyspepsia for some time. He had tried different treatments and various medicines all to no purpose. His stomach was broken down, his food was no use to him and his whole system of course got out of order.

He saw an advertisement in a Toronto paper one evening, in which the reasonableness of the treatment known as Dodd's Dyspepsia Tablets appealed to his sense of conviction. Dodd's Dyspepsia Tablets act on the only sound principle in the treatment of Dyspepsia—rest to the stomach.

If a man can't digest his food because his stomach is tired out, how is he going to get better unless his stomach be rested and his food go on being digested? Mr Beatty found it out. Listen:

"If the work Dodd's Dyspepsia Tablets do for everybody is the same as they did for me they are the greatest medicine ever discovered. I saw them advertised in a Toronto paper, and I happened to be in Mr. Homer's store in Gravenhurst. I asked the clerk did he keep them in stock, but they had run out of them. He told me that he would send for them but I told him it was not necessary as I thought it would be like other patent medicines. I found different. I went to Dr. Campbell's and got them there. They made another man of me. I used to have to be very particular what I ate and drank and above all I dreaded Sunday. Now, thank God, I can eat what I choose and the doctor is in my own pocket in the shape of Dodd's Dyspepsia Tablets."

Aged Farmer Killed.

Stratford, Ont., Sept. 6.—While John Latimer, aged 67, a farmer living in the city, was building a load of oats Wednesday evening the horses ran away, throwing him over the front of the wagon. Both wheels passed over his chest, nearly cutting him in two. He was taken to the hospital, where he succumbed to his injuries at 3 o'clock yesterday morning.

RULED OUT OF ORDER

Mr. Joseph Gibson Makes His Presence Felt in Old London.

REV. DR. POTTS LIKEWISE SPEAKS

The Latter's Patriotic Reply Was in Answer to Sir Charles Skelton's Assertion That "Hell is Let Loose in South Africa"—Archbishop's Letter to Conference Could Not Read.

London, Sept. 6.—The Ecumenical Methodist conference yesterday unanimously declined to hear the secretary read the message of the Archbishop of Canterbury, in which he expressed a hope that some day the Methodists would be united with the Episcopalians and on similar import the message of the Bishop of London, on the ground that they had been addressed to the editor of a religious newspaper and not to the conference.

The Rev. I. Bowman Stephenson of England, in moving that the messages should not be received, said that the conference would not have had cause to complain had the prelates been approached in a proper manner.

Most of the time of yesterday's conference was taken up by reports on the progress of Methodists in the United States, Canada, Mexico and South America.

The proceedings were enlivened by an ardent pro-English speech, delivered by the Rev. Joseph Gibson of Ingersoll, Canada, who defended the action of the British in South Africa.

Frequent interruption arose from the English delegates, one of whom finally declared that if Mr. Gibson proceeded he would have to be answered in a controversial strain, as he was voicing sentiments by no means shared by many present, whereupon the chairman ruled Mr. Gibson out of order.

Rev. J. P. Goucher of Baltimore, Md., read a paper on "The Present Position of Methodism in the Western Section."

Rev. J. D. Hammond of Nashville, Tenn., reported on Methodism in the South, and Rev. W. Johnson of Belleville reported for Canada.

Discussing the present position of Methodism, Rev. T. E. Duckles of King William's Town, Cape Colony, went into the relations between the South African natives and the Europeans. He said he believed the war would purify the administration of the natives.

Bishop Hartzel, missionary bishop of the Methodist Episcopal Church in Africa, said that the present time was the beginning of another Empire of Anglo-Saxon civilization. The war was merely an incident.

Dr. Leonard of New York thanked God for what Great Britain was doing in South Africa, and expressed the hope that the war would soon end, with the Union Jack floating.

Another incident which attracted comment was a declaration of Sir Charles Skelton, formerly mayor of Sheffield, who, in welcoming the Americans, severely criticized the war in South Africa, exclaiming:

"Hell is let loose in South Africa!"

He appealed to the visitors to go back and, by preaching and example, make such wars impossible.

Dr. Potts of Toronto, replying in behalf of Canada, protested, in a heated patriotic speech, against the statements made by Sir Charles Skelton.

CHUN NOW A TOURIST.

His Diplomatic Mission Is at an End—Scant Attention Paid.

Berlin, Sept. 6.—Prince Chun and his suite arrived here yesterday from Potsdam and were conducted by Gen. Von Hoepfner to apartments in the Thiergarten. The envoys were accorded no reception, except by the members of the Chinese legation. Prince Chun and the new Chinese Minister, Kien Chang, were formally presented to the Empress yesterday. This ends all official recognition of Prince Chun's presence in Berlin. Hereafter he will be merely a distinguished tourist.

The German newspapers are, by desire of the Government, it is understood, paying scant attention to the presence of the Chinese mission in Germany. Most of the papers dismiss yesterday's audience with a perfunctory paragraph. Prince Chun's further stay here will probably be brief.

A Wily Scheme.

Pekin, Sept. 5.—Li Hung Chang to-night notified the Foreign Ministers that the Imperial edits providing for the signing of the peace protocol had arrived. This announcement, made immediately after the settlement of the difficulties which Prince Chun experienced before going to Berlin, confirms the impression here that the Chinese used the protocol to induce Emperor William to waive the kowtow ceremony.

Reception Was Chilly.

Tokio, Sept. 5.—No Japanese officials to-day met the Chinese mission of expiation for the murder of Sugiyama Akira, chancellor of the Japanese legation in Pekin, prior to the "Boxer" uprising, on its arrival at Tokio. The members of the mission hunted up a hotel, where they established themselves.

Medical Science Advances.

It is not more than half a century ago that physicians considered a surgical operation with its risk, expense and pain, as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase's Ointment. You may be sceptical but for proof you are referred to tens of thousands of people that have been cured by this famous preparation.

MARKET REPORTS.

Liverpool and Paris Grain Futures Were Dull and Featureless—Chicago Brighter—The Latest Quotations.

Thursday Evening, Sept. 5.

In Chicago to-day Dec. wheat closed ⅝d higher than yesterday. Dec. corn closed 1½c higher.

In Liverpool wheat futures were dull, with September unchanged since yesterday and December ⅛d lower. Corn futures were unchanged to ¼d easier.

In Paris wheat futures closed 5 centimes higher than yesterday.

LEADING WHEAT MARKETS.

MONTREAL LIVE STOCK.

Montreal, Sept. 5.—Receipts of live stock at the East End Abattoir this morning were 500 head of cattle, 100 calves, 150 sheep and 100 lambs.

There was a good demand and prices were well maintained.

Cattle—Choice sold at from 4c to 4½c per lb.; good sold at from 3¾c to 4c per lb.; lower grade from 2c to 3c per lb.

Calves were sold from $2 to $10 each.

Sheep brought from 3c to 3¼c per lb.

Lambs were sold from 3c to 4c per lb.

Hogs brought from 6c to 7c per lb.

EAST BUFFALO CATTLE MARKET.

Buffalo, Sept. 5.—Cattle—Offerings, 1¼ cars; all sold at yesterday's prices. Veals and Calves—Offerings, 60 head; active and strong; tops, $7.50 to $7.75; common to choice, $5.75 to $6.25; grassers, $2.75 to $3.50.

Hogs—Offerings, 25 cars; fairly steady to firm for good grades; fair to choice yorkers, $6.75 to $6.90; mixed packers, $6.80 to $6.95; medium to choice heavy, $6.90 to $7; grassers, $6.70 to $6.80; pigs, $6.05 to $6.75; roughs, $6.10 to $6.30; stags, $5 to $5.25.

Sheep and Lambs—Offerings, 23 cars; market 10c to 25c lower. Sheep, handy wethers, $3.75 to $4; fair to extra mixed, $2.75 to $3.65; culls and common, $1.50 to $2.60. Lambs, spring, fair to fancy, $5 to $5.60; common to good culls, $3.25 to $4.75; yearlings, fair to extra, $3.75 to $4.40; culls and common, $2.50 to $3.50.

NEW YORK LIVE STOCK.

New York, Sept. 5.—Beeves—Receipts, 400; nothing doing. Nominally steady. Cables unchanged. No shipments to-day or to-morrow. Calves—Receipts, 377; veals, steady, $5 to $8; grassers and buttermilks, $3 to $3.75; fed calves, $4 to $4.50; city dressed veals, 9c to 12c per pound; selected stock, 12½c. Sheep and Lambs—Receipts, 7041; good sheep steady; common sheep, lower; lambs opened at 10c to 25c off, closed 25c to 35c lower on all but choice stock; sheep, $2.50 to $4; culls, $2; lambs, $5 to $6.12½; few early sales at $6.25 to $6.40 for choice; culls, $3.50 to $4. Hogs—Receipts, 1876. Barley—Steady; good state hogs, $7.

CHEESE MARKETS.

Yankleek Hill, Ont., Sept. 5.—There were 700 white cheese boarded here to-day, and six buyers were present; 6⅞c was bid, but the salesmen would not take less than 9c; when this was offered they still held for 9 1-16c, which was finally offered, Birdsell getting 400 boxes, Weegar 125, and Gibson 125. Two factories did not sell.

Don't let worms gnaw at the vitals of your children. Give them Dr. Low's Pleasant Worm Syrup and they will soon be rid of these parasites. Price 25c.

Power Without Heat.

As we watch the world famous plunge of Niagara we are offered an impressive lesson as to the small value in heat of much motive power. In so far as the descent is perpendicular, so that the water leaves the foot of the falls with comparatively little current, the effect of the concussion is simply to warm the water through but one-sixth of a degree F. To heat the water as much as one degree the falls would have to be 777 feet in height.—George Iles in Everybody's Magazine.

Advertising in the Examiner brings the best results.

SCHOOL SHOES FOR BOYS AND GIRLS

Now is the turn of Young Canada. The summer vacations are over. School for another term is the rule. The boys and girls must be comfortably clad if they are to do good work. An important part of the outfit is that which ensures warm, dry feet. That is where our mission as sellers of Boots and Shoes comes in.

We have made ample preparation for the supply of school wants in boots and shoes. We appreciate the fact that boys and girls are great wearers out of leather, and the varieties and styles we have were selected to afford the maximum of wear at the smallest cost. Here is a list that is sure to contain some line that will suit. All sizes, in black and tans, new and nobby.

Boys' Buff Lace Boots, sizes 1 to 5, extra value..... **$1.35**
The same at $1.25 and at **$1.15**
Boys' Dongola Kid Boots, sizes 1 to 5, a capital boot for wear, at..... **$1.35**

Wm Hutchison, Ex-M.P., President. T. C. Bate, Treasurer.

The Imperial Life's

Double Settlement Policy has been Termed "The Ideal Form of Insurance Investment." Have you examined it?

W. G. Morrow,

AGENT, PETERBOROUGH.

STRENGTHENS THE STATE.

Life Insurance is for the protection of those dependent on a man's life; their dependence makes it an unavoidable duty. Those dependent we assume to protect by our contract, at his personal cost; our duty to them is to make that contract as large, as secure, and as certainly available to them as possible; thus every Policy written conserves the interest of the State. A man with a Life Insurance Policy is apt to be a good citizen. Anarchists have no use for Life Insurance, and the state has no use for anarchists. The State should encourage every citizen to carry insurance. This Strengthens the State, abolishes alms-houses, and creates property that can be taxed. Further, the income from Your labour ends with Your life. The cost of living to the family continues. Take measures to have the income continue also. **The Life Insurance Policy Does It.**

The most enterprising and progressive of all the Canadian Life Offices to-day is the **Sun Life of Canada.** Teu years ago the Company had Life Assurance in force to the extent of $16,759,355.92. On the 31st of December last, this amount had been increased to $57,980,634.68. The increase, therefore, of Life Assurance in force during the last ten years amounted to the tremendous sum of **$41,221,278.76.**

W. H. HILL,

Manager Central Ontario. 189 Hunter Street, Peterborough.

OUR BRANDS:

NEW FALL HATS OF ENGLISH AND AMERICAN MAKES

—OPEN AT—

GOUGH BROS.

Daily Examiner.

FRIDAY, SEPT. 6, 1901.

Now the holidays are over, have your photograph taken at Whiten's, where no common work is made. Sign of the Golden Camera.

Dressmakers Wanted.

Coatmakers, waist and skirt hands —steady employment and good wages for a few extra good hands; also apprentice wanted. Apply to Miss Reid, care Richard Hall & Son.

Change of Business.

Mr. Will Metheral has taken over the grocery business formerly conducted by Mr. Cooney, and intends carrying a first class stock of groceries at most reasonable prices.

Died in Toronto.

Mr. John Britton, Harvey street, to-day received a telegram from Toronto, informing him of the death of his son, William, which occurred last night. The remains will be brought to Peterborough this evening.

Harvest Festival.

The annual harvest festival in connection with All Saints' Church will take place on the evening of Thursday, September 19th, when the special address will be delivered by Rev. W. J. Fiddler, of Colborne, who preached in All Saints last winter, and whose discourse was highly commented on.

Christ Scientist.

The Church of Christ Scientist, which had its quarters in the old Baptist church, Aylmer street, has formally disbanded, and the First Church of Christ Scientist, who have been meeting opposite the Examiner Office, on George street, have, it is stated, purchased the Aylmer street edifice and will commence at once to make extensive improvements. When completed they will move into their new quarters.

School Opening.

There is no divided opinion as to the ability of the Peterborough Bookstore to serve the scholars with school books and school supplies. The newest of everything, the best of everything, and the biggest value in everything. The boys and girls have caught on to our store with open-eyed surprise, and purchase with unvaried satisfaction. See the great display in our two show windows—the best dressed show windows that the scholars have ever seen. Our presents given away with every purchase knocks the spots off them all. A. H. Stratton & Co.

The "Humbug" To-night.

The Boston Journal has the following comment on "Humbug:" A funny show is that which was presented at the Grand Opera House last evening, Roland Reed's farce, "Humbug," being given before a large and appreciative audience, which was quick to notice the bright bits of humour displayed in the performance. The company was a strong one and the play was excellently staged. Walter Hodges, as Jack Luster, the Humbug, was fine, and his farcing created great laughter among the audience. He was ably seconded by Annie Leonard, who played the part of Mrs. Arminda Bertram Paraley, the affectionate wife. Ned Ramsay, as a friend of Jack Luster, was well taken care of by J. C. Vernon. Jacob Barts, the father of the family, was in the hands of Emile Hewsel, his German dialect being laughable. His parodies and dancing were good. Emma Italia had the part of Nettie Shaw, a sprightly young lass, and her way of getting around things pleased everybody. Her singing and dancing was also well appreciated. Samual Munro, as Judge Shaw, Jos. F. Duval as Albert Worth, Fred Strong as Jackson Luster, and Grace Romine as Mrs. Judge Shaw did commendable work.

DANCE AT CHEMONG.

The Last of the Series Took Place Last Night.

The last of a series of summer dances at Chemong, attended by the young people of town, took place last night, and in every particular was as successful as those which had previously been held. The evening was perfect for a drive, and the trip out was very much enjoyed. The pavilion furnished the usual gay appearance, and dancing was kept up by the fifty or more young people until after midnight.

The music as usual was supplied by the Misses Hurley, who introduced several new and popular numbers.

The committee which has had charge of the dances are indebted indeed to Mr. Charles Stanley, who throughout the summer has furnished the young people with one of his excellent pianos.

SPORTING PASTIMES.

GOLF.

The draw in the first round of the Open Championship has been made as follows:

Fred McGill vs J W Garvin.
C B McAllister vs E C Complin.
C F MacGill vs J H Hall.
S Ray vs R M Dennistoun.
Dr Eastwood vs W D Parker.
R M Hamilton vs A A Hollingshead
J H Burnham vs P Campbell.
C H Bradburn vs H D Burnett.

The matches in this round must be played off on or before Saturday, the 14th inst.

RUNNING.

A meeting was held last night to arrange the details for the Schneider Cup Competition. As before stated in these columns, Mr. Schneider, Peterborough's well-known jeweller, has donated a beautiful silver trophy for the champion hundred yard runner of the town and county. In order that the competition should be placed on a proper basis, a strong committee has been formed to take charge of the matter. This committee consists of Messrs. Peter Campbell, chairman, A. J. Gough, A. H. Stratton, William Sailsbury, Dickson Davidson and Sidney Mitchell. Arrangements are being made to have the first race take place on the Central Fair Grounds, on the second day of the show. Rules and regulations governing the race will be arranged later. The competition is open to the town and county, and it is expected that some exciting matches will be witnessed.

LACROSSE.

The Globe.—Yesterday at the Island Brampton and Port Hope lacrosse teams met in an intermediate C.L.A. semi-final game and the yellow-shirted boys from the east turned the Excelsiors down to the tune of 7 to 2. It was a hard-fought game from beginning to end, and Brampton's light home could make but little headway against the sturdy Port Hope defence, while the Port Hope home showed that they knew where the nets were every time they got hold of the ball. They scored twice in the first quarter, and worked good combinations to do it. In the second quarter the play began to get rough, and, though Referee Dr. Campbell ruled off a man or two, it got worse. Half-time found the scores 3 to 0 in favour of Port Hope. After half-time the Excelsiors woke up, and by splendid team work kept the ball on Port Hope flags, finally scoring their first goal. Then Port Hope got another, and things got rough indeed. At one time half a dozen players were on the fence at once, and a few minutes before the third quarter expired Henderson of Port Hope got into a mix-up and went off for the match. With eleven men against twelve Port Hope played block tactics, while nearly the entire Brampton team tried to rush the ball through. They did it once, and with only two more goals needed to tie the score Brampton's hopes rose. But they were short-lived, for McCabe and Glover of Port Hope stayed with their positions on home, and when the ball was thrown to the former, he simply ran in and scored. Port Hope repeated this trick twice before the final whistle blew.

St. Andrew's Church.

At St. Andrew's Wednesday night Rev. J. G. Potter gave a most interesting account of his visit to Winona Assembly, which was held at Winona Lake, Indiana, August 17th to 27th. Rev. W. L. Greggie, of Parkdale, Toronto, Rev. Wm. Cook, of Toronto, and Rev. S. Carruthers, of Toronto, accompanied Mr. Potter.

THE NEW SECRETARY.

Miss Agnes J. Dickson, B.A., Assumes Her Duties in Connection With the Y. W. C. A.

The regular monthly board meeting of the Young Women's Christian Association was held on Wednesday afternoon, September 4th.

For the first time the Board met in the new rooms on George street, and although the only furnishings consisted of a few chairs and a small table, the occasion was a very pleasant one for all present.

Miss Carson, the Dominion Field Worker of the Young Women's Christian Association, presided at the meeting. One of the principal items of interest was the decision of the Board that a Junior Department should be organized, in view of the large number of girls who responded to the invitation to meet Miss Carson on Tuesday last, and who so enthusiastically declared their readiness to enter such a department.

Miss Agnes J. Dickson, B.A., the new Secretary, was present at the meeting, and was warmly welcomed by the members of the Board.

It was decided that the public dedication of the building as a Young Women's Christian Association, should take place about the end of September.

All the members present were delighted with the large, bright, airy rooms, the walls and ceilings of which are so artistically decorated, and look forward most hopefully to the time when it shall be a fully-equipped Association home for all young women, whether residents of the town, or strangers.

We trust it may be but a short time until the kind friends who have taken such a deep interest in the young women's work, will see this realized.

Watch for press notices of the dedication services and for fall prospectus.

THIS MORNING'S FIRE.

Mr. John Kent's Dwelling on Romaine Street Destroyed — Cause of Fire Unknown.

At about three o'clock this morning fire destroyed the frame house and outbuildings owned and occupied by Mr. John Kent, Romaine street.

The fire originated in the outbuildings and had gained great headway before being noticed; in fact the occupants of the house escaped without saving very much of their personal or household effects. Mr. Kent, who is an old gentleman, received a slight scorching, his whiskers and hair being somewhat disfigured.

The structure, being of a very inflammable material, made a great blaze, and illuminated the country for miles around. The cause of the fire is a mystery.

Mr. Kent is an old gentleman of 80 years, and his loss, which is only partly covered by insurance, will be severely felt.

PERSONALS.

Mrs. John Brown, of Port Hope, was visiting friends in town yesterday.

Mr. Horace Ayers, physical director, Y.M.C.A., has arrived back to town.

Mrs. J. B. McWilliams has closed her Stony Lake cottage "Tecumseh Lodge," for the summer.

Mr. Harry Donnelly is taking in the Pan-American this week, and also visiting friends in Toronto.

Miss Zella O'Neil, of town, who has been spending the summer at Chemong, returned home to-day.

Mr. and Mrs. Harry Phelan and Master Nagle, have returned from a month's outing at Muskoka.

Mrs. John Donnelly left on Wednesday on a visit to friends in Toronto, and will also visit the Pan-American.

Mr. H. F. Stenton, of town, has left for Smith's Falls, where he has accepted a position with the C.P.R. Company.

Messrs. F. L. Grice and A. E. Covell are in town opening an office for the International Correspondence Schools.

Mr. R. H. Bradburn, who has recently returned from the south, has taken over the management of the opera house.

Master Stanley Gillespie is home after spending his school holidays on the farm of his uncle, Mr. Peter Gillespie, Otonabee.

Messrs. Eddie Dillon and George Lynch arrived home last evening from a trip to Rochester, Buffalo, Niagara Falls and Toronto.

Mrs. H. LeBrun and daughter have returned to town after enjoying a pleasant two months at their summer cottage, "Bellechassie," Stony Lake.

Miss Florence Brooks, of Cleveland, who has been spending the last few weeks in town as the guest of Miss Ethel Wrighton, has returned home.

Mr. J. T. Tucker left town last evening by boat through the Thousand Isles for Montreal, after an enjoyable holiday to the Pan-American Exposition, Buffalo.

Mr. Geo. A. Morency, chief clerk, general passenger and ticket agent's office, Grand Trunk Railway system, Montreal, has returned home after a visit of several weeks to Peterborough and vicinity.

Miss Susie Hughson, of Orangeville, is visiting Miss Wrighton, McDonel street. Miss Etta Haustrausser, of Toronto, is also a guest of Miss Wrighton.

The Lindsay Post says: — "The congregation of St. Mary's, and our citizens generally, have learned with much regret of the coming departure from town of Rev. Father Phelan, who has been Mgr. Laurent's faithful and popular coworker in this parish for the past four years. He has received notice from His Lordship Bishop O'Connor of his transfer to the Cathedral in Peterborough, a promotion which he has well earned, and which will be all the more pleasant because it restores him to his native town. He will leave town Saturday morning, and will be succeeded as curate of St. Mary's by Rev. Father O'Sullivan, of the Cathedral clergy."

MR. CLIDDON will resume his classes in Piano and Harmony on Tuesday, September 3rd.

A RUNAWAY.

A Horse Owned by Mr. John Deyell Made Things Lively.

An exciting runaway occurred last night shortly after ten o'clock. A horse attached to a buggy and owned by Mr. John Deyell, of Otonabee, became frightened on Brock street, and soon began to make things interesting. A wheel of the buggy was wrenched off at a telephone pole at the Commercial House, and the remainder of the outfit came tearing down George street on the pavement on the east side, and why a number of plate glass windows were not smashed, it is hard to say. Pedestrians flew in all directions, and the noise resembled that of a Carrie Nation engagement.

At the corner of Hunter and George streets the runaway came in contact with an electric light pole that detached the vehicle from the animal. The horse itself was stopped in front of Mr. E. Brown's.

SEPARATE SCHOOL BOARD.

A Total of 894 Pupils in Attendance at the Scool Opening on Tuesday.

The regular monthly meeting of the Separate School Board was held last evening, there being present Messrs. Murty, (chairman), Clancy, McGrath, Goselin, Hickey and Kylie.

Ven. Archdeacon Casey, Schools' Superintendent, was also present.

The minutes of the last meeting were read and confirmed.

A communication was received from the Treasury Department, enclosing a cheque for $418.

ACCOUNTS

were received as follows:

Mail and Empire	$ 84
Catholic Record	1 00
C P R Telegraph Co	38
A H Stratton & Co	19 13
W F Johnston	16 00
Kingan Hardware Co	6 18
A McDonald	61 89
A McDonald	6 53
R Johnston	5 00
A H Stratton & Co	34 22
A H Stratton & Co	37 07

The accounts were received and referred to the Finance Committee, excepting the account of the Mail and Empire, Catholic Record, C P R Telegraph Co., W. F. Johnston and R. Johnston, which were ordered to be paid.

The payments made since last meeting were as follows:

Jas McCabe	$11 25
T Cronin	2 75

THE PROPERTY COMMITTEE

were authorized to purchase 15 cords of wood for the Convent School, also tables for the Lake street school.

Payment was ordered for trees supplied to the school at Murray street, and it was ordered that the dead trees on the grounds be cut down.

The following was reported as the attendance at the school opening:

Murray street school	182
The Convent	229
Lake street school	183
	594

The board then adjourned.

STATIONERY STORIETTE.

Just a little story we wish to tell you about our Stationery Department. It has ample light, plenty of space for the display and sale of goods, and loads of room for you to thoroughly enjoy a little chat with your friends as you look at prices or examine the dainty, pretty wares exposed for sale.

ENVELOPES.

Our Envelope Stock is made up of bright, fresh, attractive goods. Of course, low prices prevail here as well as in other departments, and goodness has not been sacrificed in order to produce a low price mark. Square envelopes in light and dark shades of cream. The standard grades we always keep in stock and have the writing paper to match them.

BLANK BOOKS.

Journals, ledgers, day, cash, counter, bill, letter, check, draft, receipt, order and inventory books, in leather, cloth and paper bindings. Strictly first-class goods in every respect, and yet they are price-reduced. Ask to see our lead pencils and penholders, in all colours and combinations of colours, at prices from 1c upwards

DON'T FORGET

That we always have in our stationery stock books of all kinds, games, pencil cases, ladies' and gentlemen's visiting cards, crepe paper, autograph albums, crayons, sealing wax, ink and pencil erasers, pen points, programme pencils, rubber bands, and many other things besides the articles we tell you about in this advertisement.

WRITING PAPER.

All the latest and choicest productions in fancy writing paper. Ask to see those daintily decorated boxes, filled with delicately tinted writing materials, shown in this store. We only carry the very best.

WRITING PADS.

Nearly a hundred styles of writing pads for you to select from. You can have the paper plain or ruled, with smooth, vellum or glazed finish, in cream or white. Linen business pads at prices you like to pay. We also keep a full line of Ink at prices lower than will be found elsewhere.

THURSDAY, SEPT. 5, 1901.

A LITTLE OF EVERYTHING.

How an Apsley Man Gets off Trains.

Other Interesting Items From Town and Country—Will the Dragoons go to Toronto.

An amusing incident, though one that might have been attended with serious consequences, occurred on Tuesday evening to a gentleman named Lane from Apsley. Mr. Lane is anywhere between 50 and 60 years of age but up until a few days ago he had never experienced the sensation of having a ride on a railway train. However, his son-in-law persuaded him to take in the Industrial Exhibition at Toronto and they went up on Labour Day. As to what transpired on the trip to Toronto, and how the Apsley gentleman made out while in the city is not material to the story, but on the return journey an exciting experience occurred to the father-in-law. As everyone knows when the C. P. R. trains approach the diamond, where the C.P.R. and G.T.R. tracks cross each other, the trains slacken down their speed, if, in fact, they do not stop entirely. Mr. Lane considered it his duty to get off at this point and before anyone could reach him he stepped from the moving train which was going at a pretty good rate of speed. When the local reached the C. P. R. station the matter was reported to Station Agent Bamford, who with a small party went back in search of the Apsley gentleman. They could not find him at first, although they went a considerable distance west of the G.T.R. tracks. The mystery was solved when it was found that when Mr. Lane recovered from the dazed condition in which he found himself after stepping from the moving train, that he became mixed as to the two railroads and was proceeding up towards the Grand Trunk depot. When asked by the son-in-law why he stepped from the moving train the father-in-law replied, that to tell the truth she was running along so smoothly that he did not know whether she was going or not. Now, Station Agent Bamford contends that this speaks well for the condition of the road bed, and that during the recent strike it was kept up to its usual safe standard. The old gentleman it might be said was in no way used up.

• • •

The passengers, or at least a portion of them, had an exciting time on board the G.T.R. train from Port Hope which is due here at 5.30, p. m. Mrs. Simpson, a lady from Rochester, who was on her way from Rochester to visit some friends, fainted shortly after leaving Port Hope, and some of those on board very kindly undertook to nurse her. Amongst these was a commercial traveller who worked heroically with his coat off and by the time the train reached the local depot the excitement was intense. The lady could not tell her name and the surprise to her friends who were waiting at the Peterborough station was indeed great. She was conveyed in a hack to her destination in town.

• • •

With the approach of fall drill, also comes the approach of the football season. Now then the two are certainly going to conflict in a very important point. Not that the drill of the soldier boys will conflict with the drill, so to speak, of the Rugbyists, but the Rugby men want to let their hair grow and the military men won't stand for this, particularly in view of the approaching trip of the regiment to Toronto to welcome the "Dook." Long hair is almost essential to successful football, and short hair is compatible with military training. The result will be interesting to watch.

• • •

"Are the Dragoons going to Toronto?" is the question that is quite frequently asked, but so far none of the Dragoons appear to know whether or not they are really going. There is only a short time to prepare for the event, and getting together a regiment of cavalry entails more work than an ordinary infantry regiment would. The 40th Northumberland Regiment have thrown up the idea, but the 45th, 46th and 57th are apparently enthusiastic.

• • •

Mr. W. H. G. Armstrong, of town, is not a member of the 57th Regiment but he knows a thing or two about shooting, nevertheless. At the ranges on Monday he was privileged to try his hand, and he succeeded at 850 yards in making three bulls, an an inner and a mag-pie, which surprised not a few.

• • •

Major Miller's record is certainly a grand one. In 20 years he has asked leave of absence from parade only once. Few officers in any city regiment have such a record indeed.

NEWS NUGGETS.

—To-day is Division Court day. There is a large docket.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drugstore.

To night's Attraction.

Mr. R. H. Bradburn, manager of the opera house, has received the following communication regarding to-night's attraction, "The Humbug":

Belleville, Sept. 5th, 1901.

Mr R. H. Bradburn, Manager Opera House, Peterborough.—

Dear Sir, — Humbug Comedy Company played with me, giving great satisfaction. You can not speak too highly of this attraction.

Yours very truly,
FRED ADAMS,
Manager Opera House.

The Port Hope Knitting Works are showing this week a very fine line of double knee, double heel and toe cashmere hose in all sizes, from 15c to 25c, in the largest sizes. This is a great line. Call and see them.

HORTICULTURISTS' ANNUAL SHOW

Held in the Market Hall Yesterday.

IT WAS FAIRLY SUCCESSFUL

The Affair was Visited by Many Townspeople Yesterday—The Prize List.

The annual exhibition of the Peterborough and Ashburnham Horticultural Society took place yesterday, and while the show may not have been up to the standard of other years as to the number of entries and the attendance, still there was a creditable exhibit, and the affair passed off quite successfully.

The Market Hall in which the show was held, presented a very attractive appearance, and was visited throughout the day by many townspeople.

In the evening a section of the 57th Regimental Band furnished excellent music, and livened matters up considerably. The exhibits were greatly admired by the visitors to the hall, but universal regret was expressed that many of those who have attractive lawns and conservatories do not take more interest in the affairs of the Society.

The exhibitors were pretty much the same as in former years. Mr. Jos. Giles had a beautiful display of fruits, including grapes, apples, etc. Mr. Alex. Saunders' exhibits of table vegetables were greatly admired, while Mr. William Head's collection of table vegetables in Class II were quite up to the mark. Mr. Percy Hamilton was to the front with his full line of exhibits, and carried off his usual share of firsts and seconds. His ferns in particular, were excellent. Mrs. Benj. Cooney and Miss Peck, were extensive exhibitors, and won many red tickets. The table exhibit of hand bouquets and floral designs by Mr. F. Mason, was not the least attractive feature of the show.

The annual exhibit of Mr. James Head was conspicuous this year only by its absence, and owing to building operations, which necessitated much of their time, Messrs. Jordan Bros., were unable to take such part in the annual event as they would otherwise have done.

The judging was done by Mr. E. F. Collins, one of the superintendents of the Horticultural Gardens, Toronto.

PRIZE LIST.

The prize list is as follows:

CLASS I — PLANTS AND FLOWERS

For Amateurs Only.

Asters, collection, not less than 6 colours, Comet — Percy Hamilton.
Asters, Chrysanthemum, not less than 6 colours — Percy Hamilton.
Asters, collection, not less than 6 colours Perfection—Percy Hamilton.
Asters, collection, 6 colours, Quilled—Percy Hamilton.
Asters, collection, 6 colours, Victoria—Percy Hamilton.
Asters, collection, 12 colours—Percy Hamilton, Mrs B Cooney.
Amaryllis, specimen—Miss M E Peck.
Antirrhinum, collection — Percy Hamilton, Miss M E Peck.
Balsam, collection — Wm Head, Mrs B Cooney.
Bouquets, hand — Mrs B Cooney.
Bouquets, table — Mrs B Cooney.
Chrysanthemum, summer flowering—Mrs B Cooney.
Coleus, collection, 12 varieties — W Head, P Hamilton.
Cut flowers, collection annuals and perennials, named — P Hamilton.
Cyprus, Alternifolius — Mrs B Cooney.
Dahlias, collection, 12 named — Mrs B Cooney, P Hamilton.
Dianthus, collection—W Head.
Everlasting, collection—W Head.
Ferns, collection, grown in pots—P Hamilton.
Fuchsia, collection—W Head.
Geraniums, collection, 6 single, named—Mrs B Cooney.
Geraniums, collection, 6 double, named—Mrs B Cooney.
Geraniums, collection, twelve named—Mrs B Cooney.
Geraniums, collection, cut bloom, single truss, named—Mrs B Cooney, W Head.
Gillardia, collection — Mrs E Cooney, W Head.
Gladiolus, collection, not less than 18 varieties.—W H Foord, Mrs B Cooney.
Hydrangea, Panaculata Grandiflora, 6 bloom — W H Foord, Mrs J Kendry.
Lilies, collection — Mrs B Cooney.
Marigold, collection—Percy Hamilton, Mrs B Cooney.
Montbretia, collection of not less than 2 varieties — Mrs B Cooney.
Nasturtium, collection—Mrs Jas Kendry, W Head.
Pansies, collection of not less than 12 varieties—W Head.
Peas, sweet, collection—Miss M E Peck, W Head.
Petunia, collection, single and double — Percy Hamilton, W Head.
Phlox Drummondi, collection — Percy Hamilton, Miss M E Peck.
Phlox, perennial collection — Mrs B Cooney, W Head.
Poppies, collection—Mrs B Cooney.
Rubber plant—Mrs B Cooney.
Salvia, best 6 pots—P Hamilton.
Stocks, collection — Miss M E Peck.
Verbena, collection—Mrs B Cooney, W Head.
Zinnias, collection — Mrs B Cooney, W Head.

CLASS II — FRUITS AND VEGETABES.

For Amateurs Only.

Best 12 eating apples, named — S D Carver.
Best 12 cooking apples, named—S D Carver.
Best 12 winter apples named — S D Carver.
Best 6 beets, Long Blood — P Hamilton, W Head.
Best 6 beets, turnip root—Miss M E Peck, P Hamilton.
Two quarts string beans — Miss M E Peck, W H Foord.
Best 2 heads of early cabbage, named—W Head, P Hamilton.
Best 2 heads winter cabbage, named—W Head, P Hamilton.
Best 2 heads of red cabbage — W Head, P Hamilton.
Best 2 heads of Savoy Cabbage—P Hamilton.
Best 6 carrots, Short Horn — W Head, P Hamilton.
Best 6 carrots, intermediate — P Hamilton, W Head.
Best 2 heads of califlower, named—W. Head, P. Hamilton.
Best 6 heads of celery, red, named—W. Head, P. Hamilton.
Best 6 heads of celery, white, named—W. Head, P. Hamilton.
Cucumbers, best quart pickling—P. Hamilton.
Best 6 ears of table corn, named—W. Head.
Best 6 bunches black grapes, named, open air—P. Hamilton.
Best 2 water melons, named—W. H. Foord.
Best 6 red onions, from seed—S. D. Carver, W. Head.
Best 6 white onions, from seed—W. Head, Miss M. E. Peck.
Best 6 yellow onions, from seed—W. H. Foord, S. D. Carver.
Best quart pickling onions—W. H. Ford, P. Hamilton.
Collection of onions, named — P. Hamilton.
Best 12 winter pears, named — S. D. Carver.
Best 12 red and yellow plums, named—2, S. D. Carver.
Best 6 parsnips—Miss M. E. Peck, P. Hamilton.
Collection of peppers—W. Head, P. Hamilton.
Collection of radishes, named — P. Hamilton.
Best 10 salsify roots—P. Hamilton.
Summer squash, table use, named—W. Head, Miss M. E. Peck.
Winter squash, table use, named—Miss M. E. Peck.
Best 12 red tomatoes, named—W. Head, Miss M. E. Peck.
Best 12 yellow tomatoes, named—P. Hamilton.
Collection of tomatoes, named — P. Hamilton.
Best 6 turnips, table use, named—W. Head.
Collection of vegetables—W. Head, Percy Hamilton.

CLASS III.—FLORISTS AND MARKET GARDENERS.

Open to all.

Apples, collection correctly named, 4 of each kind 12 varieties — Jas. Giles S. D. Carver.
Table bouquet—F. Mason.
Hand bouquet—F. Mason.
Collection of begonias, any varieties, named—F. Mason.
Cactus, collection of—Jas. Giles.
Corn, collection of—Alf. Sanders.
Crab apples, best 12—Jas. Giles, Alf Sanders.
Cucumbers, best bruce—Jos. Giles, Alf. Sanders.
Collection of decorative plants — Jordan Bros., F. Mason.
Collection of cut flowers—P. Hamilton.
Floral designs—F. Mason.
Collection of fruits—Jos. Giles.
Collection of ferns, not less than 12 varieties, named—P. Hamilton, F. Mason.
Collection of foliage plants — F. Mason.
Collection of geraniums, not less than 12 distinct varieties, named — Mrs. B. Cooney.
Collection of greenhouse plants — F. Mason.
Grapes, collection of—Jos. Giles.
Onions, collection of—Alf. Sanders.
Tomatoes, collection of 4 of each kind 12 varieties—Jos. Giles.
Tomatoes, best 12, red—Jos. Giles. Alf. Sanders.
Tomatoes, best 12, yellow — Jos. Giles.
Collection of vegetables — Alf. Sanders.

NOTES.

The fine exhibit of flowers and vegetables, which has been made for years past by Mr. James Head, of the Nicholls Hospital, was greatly missed. Last year Mr. Head showed five cartloads of exhibits from the hospital, and this year there were no entries from that institution. The loss was felt very appreciably by the directors of the Flower Show.

Mr. William Head scooped in a number of prizes, having 22 firsts and 10 seconds.

"Colonel" Jackson, proprietor of the Crown Inn, made a great stroke of enterprise in corralling nearly all the prize vegetables, and a number of the flowers. The "Crown" is decked out in great style to-day.

Mr. Mason and Mr. Jordan exhibited this year to a greater extent than they have done for many seasons.

As usual, Mrs. Cooney carried off a large number of prizes.

THE BEEHIVE

"WHATEVER WE DO, WE DO IT WELL."

The new Store—the Ladies' Furnishing Store—will open for business on THURSDAY, SEPTEMBER 12TH. And a cordial invitation is given to all the ladies of Peterborough and vicinity to call and inspect the latest, freshest and newest things from the world's fashion centres.

There will be a great Ten Days' Opening Sale, of which due announcement will be given in this space, on WEDNESDAY NEXT. Everything that a lady needs you will find it in the Beehive. And our Art Silk and Lace Work Department will be very complete. Call and see us. We would like to show you through.

The Beehive

392 George Street. Next door to Edmison's Drug Store.

FALL OPENING OF

HARVESTERS NOT WANTED.

Many of Them Went to Manitoba and Cannot Find Work to do.

Miss Frankie Nicholls, of town, has received the following interesting letter from her brother, Mr. W. J. Nicholls, who recently went out to Manitoba on one of the harvester's Excursions:—

Winnipeg, Aug. 21.

Dear sister,—Received your letter all O.K. before I left Toronto, but did not get time to answer it; anyway I had nothing to write about. Well, this is Winnipeg. It is a queer place. It looks as though it was a hundred years old. The streets are so wide it takes about half a day to walk across. I have been here since Saturday and no work yet, but expect to go to work Monday. There are thousands of men lying around the streets with nothing to do, begging for a living, and sleeping under the blue canopy of Heaven.

Well, Frank, I am so far away that it would take about four days and four nights to reach Peterborough—about 1700 miles. There is quite a change in the climate. It is a lot cooler here, and when it is 12 o'clock it is only 11 o'clock here. If I don't get work on Monday I think I will go to the coast, 1400 miles further away.

I had an awful time coming out here, four nights without any sleep, not even room to sit down. I just walked from one car to another and kept every one else awake. There was 72 cars on the train with an eight drive-wheel engine. It was the roughest ride I ever had; the cars just looked like a snake running around the hills. I often looked out the window and could see the hind end of our train right across on the other side. Well, you would think that the engine would run into the hind end, we were going in such a circle.

There was a wreck the day before. It was quite a sight—cars piled on top of one another. They fell down a bank about 50 feet, the engine being turned top side down. It was strange that there was only two killed. Well, I think this is about all.

Love to all, from

WILL.

PRIME FRUIT.

We are now receiving choice Yellow Freestone Peaches and Fancy Plums and Gages from the best growers in the Niagara District. Also first-class Muskmelons very cheap by the crate or singly. S. A. OKE, 376 George street. Tel. 18.

A NORWOOD TRAGEDY.

One Boy Shoots Another by Mistake.

Norwood, Sept. 6.—A boy was shot in the abdomen by his little comrade yesterday afternoon. The accident happened in the Township of Asphodel, about two miles from the village of Norwood. Two boys, Thomas Chatten, who was shot, and John Kelley, son of Daniel Kelley, both about 13 years of age, went home from school together. When they got to the Chatten residence they found their parents from home, and while playing in the house took down the gun to examine it. Not thinking the gun was loaded young Kelley pointed it and snapped it off several times at the boy Chatten. He then got a mun cap, put it on the nipple and again pointed and fired. To his horror the gun was loaded with shot. The whole charge entered the abdomen of his comrade, piercing the stomach and bowels. The boy is still alive, but the physician says there is no hope of his recovery.

HIS START IN LIFE.

"DOC" HARTMAN AND HIS WONDERFUL GREASE ERADICATOR.

With Soap Candles and Bottles of Rainwater He Fooled the Public and Laid the Foundations of a Substantial Fortune.

"Talk about your self made men," said an old timer among a party of horsemen gathered in one of the speedway inns, "I don't think any of 'em can equal the early experiences of Tim Hartman, who died in St. Louis many years ago, leaving nearly a million dollars to be fought over by his heirs. He made his first good sized pile on patent medicines, then he picked up a great deal more on real estate, and at last he rounded out with speculation in Montana copper, but he was known as 'Doc' Hartman to the time of his death by his few intimate friends.

"But the story that I'm going to tell, and the one which he often told himself, concerns his very earliest experiences in the accumulation of money. Tim Hartman started life with $1. He kicked around as a barefooted boy—and a pretty mean one, too—in a little town in Connecticut until he was 18 years old, and at that time he had become so fresh and so full of wind and general cussedness that his father one day told him he was no good, never had been and never would amount to a picayune. The old gentleman, just to carry out the bluff, told Tim that he had a good mind to cut him off with a dollar and make him earn his own living. Tim straightened up and called the bluff. He told the old man that he would take the dollar and get out then and there and hustle for himself. The old man handed him a crisp $1 bill and told him that he'd be glad to see him make a fortune with it.

"The first thing that cuss did was to go about in a few back yards that he knew of and gather together a lot of empty bottles which were of no use to anybody. Then, for 10 cents, he bought a large cake of a kind of white soap that was then, and still is, on the market. He melted this soap and, after borrowing an ancient pair of candle molds from an old granny in the neighborhood, made two beautiful looking candles of soap. He next filled his bottles full of choice rainwater. Then he made for himself one of those little three legged tables like the chuck-a-luck and shell game men use outside the circus, and struck out on foot for a county fair that was being held about 40 miles away.

"When he got there, he put up his little table outside the grounds, where the crowd was pretty thick, lighted one of his soap candles and began to extol the virtues of 'Dr. Hartman's Famous Grease Eradicator,' contained in the bottles set before him.

"'Now, ladies and gentlemen,' he would shout in a stentorian but plausible voice, 'this marvelous liquid, so harmless that it can be drunk with impunity by the smallest infant and yet so penetrating that it will seek out and destroy stains and discolorations from the most refractory substance, was discovered by accident by the famous scientist, Dr. Hartman, the eminent scholar, while he was wandering o'er the wilds of Patagonia. It is colorless, you see, as the waters from heaven, and yet observe the effects of its startling properties!'

"At this point Tim would reach for his soap candle and, inverting it, would smear a lot of the grease over the sleeve of his coat.

"'Now, every one of you knows, ladies and gentlemen,' he would continue, reaching over and uncorking a bottle of his rainwater, 'that there is nothing so penetrating and ineffaceable as the grease from a candle, and yet it is a stain that we are all likely to suffer almost every evening of our lives while toying with that common article of the household, the candle. You will observe that my sleeve is smeared with the annoying substance. Behold'—

"Here that country bred fakir would spill a couple of drops of his rainwater on the soap and with a rub or two would produce a beautiful lather. Another swipe and the soap would have entirely disappeared from the sleeve, leaving not a trace.

"'Now, we make this famous eradicator in such enormous quantities,' Tim would continue, 'that in order to introduce it into every home in this broad land we will dispense with it at the absurdly low price of 5 cents, a nickel a bottle. Step right up! Step right up!'

"Then, when the public was surging forward to purchase the rainwater, Tim would pause occasionally to drink a bottle of it, just to show that it was absolutely harmless.

"Well, the stuff went like hot cakes. When Tim's bottles were all exhausted, he bought more, and when the fair was over he went to another and another until he had traveled all over the country. Then, in some way or other, I don't know how, he got hold of some old patent medicine, and, being a genius, of course he made a big go of it. So that's the way Tim Hartman almost became a millionaire."

Why Catarrhozone Cures Catarrh.

Because it is carried by the air you breathe to diseased parts, because it destroys the germ life that maintains the diseased condition, because it powerfully stimulates the mucous membrane to its normal action, because through its oxydizing power it burns up rapidly the old tissue and stimulates the formation of new healthy tissue. Catarrhozone is an absolute specific for catarrh in every form and never fails to cure. Catarrhozone is the only remedy sold with a guarantee. At all dealers, 25c and $1.

When a man is going up hill, people dig ditches in front of him; when he starts down, they get out of his way and give him the whole road.—Denver Times.

We refuse to let any one question the good sense of a woman who still spanks her children when they are 13.

W. VAUGHAN,
Secretary

THE ISLAND OF TAHITI.

It May Be Rightly Termed the Paradise of the Pacific.

Picture an island set in a reef of coral of myriad hues—the lagoon of a light green, outside the white foaming breakers the vast ocean of intense blue. On shore are great bunches of cocoanut palms lifting their plumes in stately magnificence, then there are lanes of trees blossoming in red and yellow flowers, and nestling in their midst are the low thatched houses of the natives. The delightful and healthy climate of the island brings to maturity all the products of the tropics, which are nowhere found in greater fullness and perfection than here. The wayfarer is soothed by the fragrance of sweet smelling flowers and delighted with the abundance of oranges, bananas, breadfruit and cocoanut which give a perennial supply of food to the natives.

Tahiti may be rightly termed the "paradise of the Pacific" or even the world, as in no other place is there so much variety of scenery. At every turn the constant surprises keep the traveler in a delirium of delight. Sometimes the sea lies before him, the waves wreathed in a foam of white breaking the silence in a continuous roar; on the other side the high, steep mountains in forms of towers, domes and steeples pierce the clouds. Now and then a silvery band of water falls from perpendicular heights to the turbulent stream below. Then you pass under the sheltering shadows of tall interlacing trees which excel even the grandeur of our elm. Farther on you pass through lanes lined with bananas, mango and groves of cocoanut.

Complicated Ailments.

A Remarkable Case of Kidney and Liver Disorders and Extreme Nervousness Cured by the Combined Use of Dr. Chase's Kidney-Liver Pills and Nerve Food.

The strongest combination in medicines that one can well imagine is the use of Dr. Chase's Kidney-Liver Pills and Nerve Food. The kidney-liver pills regulate and invigorate the liver, kidneys and bowels, while the Nerve Food enriches the blood and thoroughly builds up the system.

Mr. Walter Booth, Consecon, Prince Edward County, Ont., states:—"I was troubled for some years with kidney and liver disease, and pains in my back, and my stomach was so bad I could not eat hearty food, and had difficulty in keeping any food on my stomach. I was so nervous that I could scarcely take a drink of water without spilling much of it, my hand trembled so, and I lost flesh until my weight fell from 155 to 138 pounds.

"Hearing of a similar case that was cured by Dr. Chase's Remedies, I commenced by taking Dr. Chase's Kidney-Pills, six boxes of which entirely cured my kidney and liver troubles. I then began Dr. Chase's Nerve Food for my nervousness. It strengthened my stomach and whole system, and I gained in flesh. I cannot speak in terms of too great praise for Dr. Chase's Kidney-Liver Pills and Nerve Food, for besides curing me, they did my father, who is an old man, a great deal of good. I have every confidence in recommending these remedies."

Mr. J. J. Ward, J .P., certifies that he knows Mr. Walter Booth, and that this statement of his cure is perfectly correct.

As a spring restorative Dr. Chase's Nerve Food is unrivalled. If the bowels are constipated and the kidneys and liver sluggish and inactive, Dr. Chase's Kidney-Liver Pills can be used to advantage, along with the Nerve Food. All dealers, or Edmanson, Bates & Co., Toronto.

Evarts and the Author.

When a popular young author came to see William M. Evarts while he was secretary of state in behalf of a consulship for which he was an applicant, Mr. Evarts congratulated him on the fame which he had acquired, but hastened to add, "Although you have laurels on your brows, I suppose you can't browse on your laurels."

Any one troubled with boils, pimples, rashes, festering sores or any chronic or malignant skin disease, should use Burdock Blood Bitters externally and take internally. It will cure where others fail. f

QUEEN ELIZABETH'S FAULTS

She Was Very Vain and Inordinately Fond of Fine Dress.

Yet Elizabeth was never really successful with her wardrobe as a more feminine woman might have been. Her dresses were never beautiful, only ludicrously and most inappropriately magnificent—laden with jewels, weighted down with cloth of gold, stiff with silver embroidery and so heavy that even her big, powerful frame must, without supporting vanity, have felt the fatigue of carrying them about. Elizabeth was certainly vain, but she cannot claim femininity merely on that account, for vanity is by no means an exclusively feminine characteristic. There are perhaps more vain women than vain men because women have more leisure and their costumes afford greater opportunities for vanity than the strangely hideous clothing which custom has arranged for men, but no thoughtful (feminine) observer can doubt that a vain man is vainer than a vain woman.

Elizabeth's hands were her especial pride, and, judging from her portraits, they were certainly beautiful. They were laden with jewels, and it was her habit in public to pull her rings off with absent artlessness and push them on again, moving those white hands about in the most obvious way. Once, during the grave consideration of a state paper, wherein her cold sagacity never took second place, she interrupted the discussion to ask whether the Duc d'Anjou, who was at one time one of her suitors, had been told what a pretty foot she had and how white and well rounded was her arm? This in the woman who financed the armada with hard headed economy, who dared the superstitious terrors of her own conscience in her high handed and impudent treatment of the bishops, whose interest in methods of torture for state prisoners was most mechanical and intelligent, entirely unhampered by any squeamish feminine hesitation as to blood or pain, is most curious.

In connection with this last characteristic of cruelty vanity is not at all unprecedented. Indeed, if one observe closely one will notice that excessively vain persons have almost always a strange inclination toward cruelty. The accounts of what Queen Elizabeth permitted and indeed commanded in this respect will hardly bear reading by us sensitive folk today.

Advice to Mothers.

If your little boy or girl comes home with a sore throat the first thing to do is to rub the throat and chest with Polson's Nerviline. Don't be afraid to use Nerviline freely—a whole bottleful wouldn't burn or blister the tenderest skin. Rub in until all taken up by the pores and just before the child goes to sleep give him a glass of hot water into which 30 drops of Nerviline has previously been stirred. This is a sure, pleasant, and speedy cure. Large bottles 25c.

Slavery Protected the Negro.

If the negro had been forced to compete for existence in America, he would have been crushed out by the civilized power, as the Indian has been, says Albert Phelps in The Atlantic, but the peculiar institution of slavery protected him not only from this competition, but also, by artificial means, from those great forces of nature which inevitably weed out the weaker organisms and which operate most unrestrainedly upon the ignorant savage. For the first time, perhaps, in the history of the world human beings had been bred and regulated like valuable stock, with as much care as is put upon the best horses and cattle. As a natural consequence the sanitary condition of the negro during slavery was remarkable, especially by contrast with his present condition, and his growth was the abnormal growth of a plant abnormally raised in a hothouse. When, therefore, this mass of helpless beings was thrown upon its own resources by the act of emancipation and when the protection of slavery had been withdrawn, the direst wretchedness and suffering followed.

A Medicine 300 Years Old.

Our readers will probably be surprised to learn that for nearly 300 years cod liver oil has been used as a medicine. During the past twenty five years nearly all the cod liver oil brought to this country from Norway has been used in the form of Scott's Emulsion. It is by all means the most pleasant preparation of cod liver oil you can buy.

ON "'AMSTEAD 'EATH"

A LONDON HOLIDAY ON THE POOR PEOPLE'S PICNIC GROUNDS.

How Lower Class Britishers Find Their Enjoyment—It Consists in Sentiment and Horseplay, Mostly Horseplay—Here the Folk Have Their Stays Off—Squirt Guns and Showers of Confetti.

In England the holidays are mostly church festivals. The principal recreation time, except Christmas, is known as the August banking holiday because on the first Monday in August the banks are closed. In the one and two weeks following that day the English business and working population that can afford it takes its annual outing in the country or by the sea.

Bank holiday is therefore a great day. The poorer population, the crowds that cannot take but one Monday's pleasure, hie them to Hampstead Heath. If you said "Hampstead Heath" to one of them, however, he would look at you as at one putting on airs. To hit the vernacular and be in fashion you

"GIT YER OV BIKE."

must say "'Ampstead 'Eath." Then would you be hailed as a man and a brother. If the American wishes to get a perfect view of the lower class English at their best and worst, let him by all means take in Hampstead Heath on bank holiday.

The heath is simply a huge hillside, with more or less grass and a few trees growing upon it. A steep street leads to it out of a great thoroughfare from the heart of London. As you walk up the steep street you see at a corner of the pavement, and very close to a convenient ale and beer house, of course, a stone bearing an inscription. It tells you that on the very spot marked by the stone little orphan Dick Whittington sat down to rest himself, with his cat in his arms, when he was running away from London, and as he sat heard the bells of the city chiming "Turn again, Whittington, thrice Mayor of London." Matter of fact persons say no mortal ear could have heard the bells of the London of 1380 chiming at Hampstead Heath, because the town was then so small and so far away, but what would these have? We cannot spoil a good story.

Millions of feet have since pressed the spot where weary Dick Whittington and his cat rested that day, and many thousands press it still every August bank holiday.

Upper class England stays strictly away from Hampstead Heath on bank holiday. That is the very reason for going there. You want to see the British nature with its stays off. Well, you see it. It throngs to the heath in a hundred thousand specimens, on foot, by omnibus, and by what these specimens call "the tram," which is one of the two or three electric car lines the whole city of London boasts. There are thousands of children with the prettiest complexions of any young ones in the world. English children that get enough to eat are prettier than Canadian children, but as they grow to maturity they lose this beauty, and then we have the advantage in looks. Again, an English lower class crowd does not begin to be so well dressed as a French one. Its

CONFETTI.

clothing is not so clean or well made. Girls' skirts and shirt waists are not well joined. Men, even young men, appear to have come to the picnic in their working clothes.

You thread your way among the crowd. Suddenly, no matter how well dressed you are—if wearing a silk hat, so much the more liable you are to catch it—a deluge of water is spurted upon your head and drips down over your clothing. An animal-like hoehaw bursts upon your ear, and you look up and see two young animals with a squirt gun, empty, for they have just discharged the water from it upon your silk hat. Looking about, you see that all through the crowd are girls, toughs, men, women and children with similar toy water guns, firing them off at well dressed persons wherever they are found. This is part of their idea of fun.

Every few steps apart are fakirs, usually women fakirs, selling the water guns and crying:

"Two for a penny! All the jolly fun! Git yer own bike agyne."

The vender does not mean a bicycle. She means "get your own back again," but the London native pronounces "back" as "bike" and "again" to rhyme with "pine." If in a Canadian park one should squirt water from a gun upon any person, a policeman would at once arrest him, and serve him right, but here his rudeness goes under the name of pleasant practical joking.

On you go a few steps farther. Suddenly upon your hat, not yet dry, down the back of your neck, into your hair and all over you descends a cloud of round bits of colored paper called "confetti." You peer about to see whence this visitation came, and behold two grinning girls of 14, their front teeth all gone, and they not ashamed of it. These are the enemy.

On you go. Presently your hat is knocked quite off. Another Hampstead Heath pleasure seeker has struck it with an inflated bladder, and he too is hechawing at you. Now you look around once more and find that scores of people of all ages are pelting each other with bladders. More of their holiday fun!

Boy and girl sweethearts of 16 to 18 years walk about with their arms around each other, or, if not that, holding hands and looking soft and sheepish in a clumsy way. Now and then they vary the lovemaking with a little tender horseplay, such as pinching arms black and blue or wrestling. The girl always gets the worst of it and not infrequently has her clothing torn. But who minds a little thing like that on a bank holiday? Horseplay is the natural outlet of the spirits of the poor class youthful Londoner.

Once more onward, likewise upward, toward the top of the hill. On each side of you, here and there, are posts stuck into the earth. They are about three feet high, and on top of each rests a cocoanut. Red balls are furnished to all who buy chances in this cocoanut shooting gallery. For so much a shot the customer is allowed to fire the balls at the post, and if he can knock the cocoanut off the post it is his prize.

London poverty and low life swarm upon Hampstead Heath on the first Monday of August year by year as it comes round. The swarm constitutes the most rough and tumble crowd and the worst dressed throng among English speaking peoples. Yet they are fairly good natured. There is a deluge of brute fun, if fun it be, but there is comparatively little real quarreling or fighting. At the foot of Hampstead Heath is a deep gully, and rising the other side of the gully is Parliament Hill, where respectable middle-class British go with their families. Upon Hampstead Heath a mob; upon Parliament Hill well dressed, refined, good looking people.

Big Price for Old Portrait.

The most valuable picture that has been offered to the London public this season was sold the other day at Willis' rooms by Messrs. Robinson & Fisher. It was Hoppner's three-quarter length portrait af Lady Louisa Manners, who was afterwards Countess of Dysart.

The work is familiar in its engraved form, and the picture was once of the treasures of 24 Carlton House terrace. It was sold by order of the executor of the late Lady Charles Bruce, and formerly was the property of Lady Laura Tollermache, afterward Maria Marchioness of Ailesbury.

The bidding started at 5,000 guineas, Messrs. Duveen Brothers and Charles Wertheimer being the leading bidders, and was taken to 14,050 guineas, at which price it was knocked down to Duveen.

MOND GAS.

Discovery by a Chemist for Which Great Things Are Claimed.

A recent consular report from England says that British commercial and scientific circles are much interested in a discovery made by Dr Ludwig Mond of the great chemical firm of Brunner, Mond & Co., limited. This discovery is a gas for furnaces and gas engines which, it is claimed, can be supplied to consumers at a maximum price of twopence per 1,000 cubic feet.

Mond gas is a "producer gas," made from the cheapest class of small coal and dust, commonly called "bituminous slack." Dr. Mond discovered a process by which this cheap slack can be converted into a clean, gaseous fuel in such a way that a very large proportion of the nitrogen of the coal is recovered as ammonia and converted into sulphate of ammonia, which is a very valuable manure and fertilizer. The distinguishing features of the Mond process are:

The utilization of cheap bituminous slack.

The recovery of 90 pounds of sulphate of ammonia (value at present, $1.94) for every ton of slack gasified.

Low temperature working, so that no clinkers are formed in the producer and the ammonia is not destroyed.

Very perfect regeneration of heat by an ingeniously designed system, using water as a heat carrier.

The production of a clean gas of extremely uniform quality, free from tar and grit and of a higher calorific value than most other producer gases.

What Causes Pain?

Most pains and aches come from excess of uric acid poisons in the blood, due to deranged kidneys, rheumatism, back ache, lumbago, pains in the sides, and limbs, accompanied by bladder and urinary troubles, are warnings too serious and painful to be neglected. Dr. Chase's Kidney-Liver Pills act directly and specifically on the Kidneys, make them active, vigorous and thoroughly cure these ailments. One 25 cent box of this great Kidney medicine will do you a world of good.

A Lonely Man.

It is recorded that a Scottish innkeeper once said of the late Duke of Argyll:—"His Grace is in a verra difficult position whatever. His pride of intellect will not let him associate with men of his ain birth, and his pride of birth will not let him associate with men of his own intellect."

British Secret-Service Fund.

A secret service fund is voted yearly by parliament for the purpose of defeating conspiracies against the state. Last year £13,000 was paid to spies who were employed for this purpose. For a copy of a treaty between France and Russia, known as the treaty of Tilsit, Great Britain paid £40 000.

SURPRISE SOAP POINTS.

A pure hard soap which is economical in wearing qualities.

Entirely harmless to the hands.

Satisfactory in every way in results on the clothes. Sweet and clean, without damage to the finest fabrics.

Don't forget that Surprise Soap is cheapest to buy.

IT MAKES WOMEN HAPPY.

"I had been a sufferer for many years from nervousness with all its symptoms and complications," writes Mrs. O. N. Fisher, of 1861 Lexington Ave., New York, N. Y. "I was constantly going to see a physician or purchasing medicine. My husband at last induced me to try Dr. Pierce's Favorite Prescription. After taking one bottle and following your advice I was so encouraged that I took five more bottles of 'Favorite Prescription.' I continued taking it and felt that I was improving faster than at first. I am not now cross and irritable, and I have a good color in my face; have also gained ten pounds in weight and *one thousand pounds of comfort*, for I am a new woman once more, and your advice and your 'Favorite Prescription' is the cause of it."

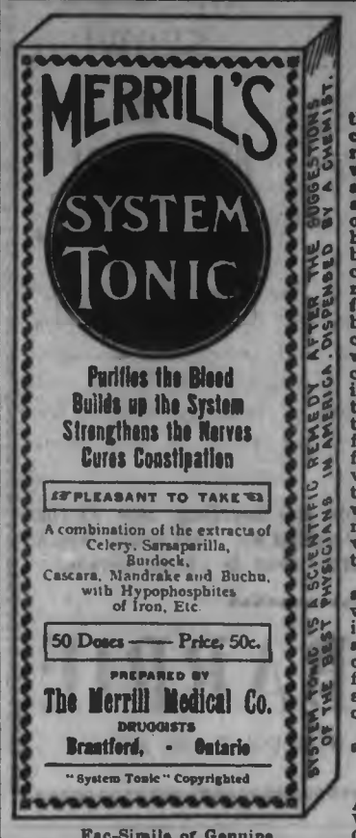
Ceylon Teas are sold in Sealed Lead Packets only. Black, Mixed, Uncolored Ceylon Green. Free samples sent Address "SALADA," Toronto.



Fac-Simile of Genuine.

WHY WOMEN

Like Merrill's System Tonic.

The first reason is that the use of this valuable medicine produces a clear complexion, rosy cheeks and ruby lips. You can easily tell a well woman. Her step is light and buoyant, her complexion as described above, and there is a complete lack of that don't-care-to-live air about her. These results can be obtained by any woman, no matter what her complexion may now be, and no matter how old or care worn she may feel, if she persists in using a few bottles of Merrill's System Tonic. It cures constipation and liver troubles, which causes the sallow and muddy complexion. It restores the blood to its naturally healthy condition and this gives the tint to the skin without the use of face powder. It cures female trouble and regulates the female functions, and restores the vivacity of girlhood. Used according to instructions it cures falling of the womb, whites and leucorrhœa. No medicine in the world to-day is more valuable to make sick women well, than Merrill's System Tonic.

Give it to young girls who are pale and nervous. Give it to women who expect to become mothers. Give it to women in all conditions of life and it will more than substantiate its claims. Merrill's System Tonic purifies the blood, builds up the system, strengthens the nerves and cures constipation.

Each 50c bottle contains 50 pleasant-to-take doses, and is sold

AT ALL DRUG STORES.

And in Peterborough at ORMOND & WALSH'S, leading drug store, corner George and Simcoe streets.

CHRISTIAN SCIENCE.

An Address on This Subject Which was Recently Delivered in Bobcaygeon.

A public address was delivered by Rev. Geo. W. Conners, Baptist minister, in the Town Hall, Bobcaygeon, on Friday evening, Aug. 30th, before a crowded house. Rev. Mr. Innis, Presbyterian minister, occupying the chair.

The opening exercises consisted of singing, prayer and reading the Scriptures. Rev. Mr. Conners, on being introduced, said he had not rushed into into the matter without deep meditation. It was not done with a spirit of hatred, but because as an ambassador of the Lord Jesus Christ, to maintain the writings of His Holy Truth, that we have a proper understanding of it. Taking for his text 1st Timothy, 6: 20, he said we are living in an age of multiplicity of doctrines, among which in the last generation had arisen Christian Science. Christian Science was closely akin to Hindo Pantheism, and quoted from Pemdeta Ramabain, a highly educated native of India, to show its Pagan origin and to its being the same doctrine taught the Hindoo people for 4,000 years. After referring to the history of its rise in 1866, and wishing the Golden Rule to apply, he said if its doctrines taught were Christian and sound, then we should conform to it, but, if on the contrary, they be erroneous, it was his plain duty to point out those fallacies.

Comparing Mrs. Eddy's writings in Science and Health with the Bible, she (Mrs. Eddy) says that "God is the principle of Christian Science. God is Good. Good is Mind. That man was in God's idea co-existant and co-eternal with that Mind. That a sinner is not reformed merely by assuring him that he cannot be a sinner because there is no sin." Also she says of sin: "That it is the image of the beast to be effaced by the sweat of mortal agony." Of our Lord Jesus Christ she says: "That wearing in part a human form (that is as it seemed to mortal view) He was the mediator between Spirit and the Flesh, between Truth and Error." Yet she defines Flesh as an error of physical belief. That Christ healed the sick and practised Christian healing, but left no rule for demonstrating His principle of healing and preventing disease. She affirms that He was a Christian Scientist, but was not as far advanced as He might have been, else He would not have prophesied His death and hastened it. She says that "Christian salvation is simply a repentance from the nothingness of mortal belief to the somethingness of divine ideas. That when Christ died it was His annihilation, and when in the tomb was practically studying Christian Science; for the lonely precincts of the tomb gave Jesus a refuge from His foes and a place in which to solve the great problem of being. That salvation is not effected by supplicatory prayer, as prayer cannot change the science of being, goodness alone reaches the demonstration of Truth. That Christ's shed blood was of no efficacy; for the material blood of Jesus Christ was no more efficacious to cleanse from sin when it was shed from the accursed tree, than when it was flowing in his veins as he went daily about His Father's business. That death is but an illusion of the mortal mind. No future. No reward for the faithful. No punishment for the sinner. She says in the beginning of her book that the Bible was her only text book. No human tongue or pen ever taught her the Science. Turn the searchlight of the Scriptures on any of these most damnable utterances and they flee away as dew before the morning sun. She with one broad sweep of her hand, sweeps away all the doctrines of the Bible—God, man, sin, Jesus Christ, prayer, repentance, redemption, salvation, atonement, death, heaven, hell and all.

In dealing with the subject Mr. Conners dwelt particularly on the Spiritual Phase of the question, quoted texts to prove his assertions in every case, and had articles prepared on the other phases of the question—but time would not permit their being dealt with, and he closed an address of an hour and a quarter with the attention of everyone in the hall, at the close of which a hearty vote of thanks was given. —(Com.)

Mental and physical vigour follow the use of Miller's Compound Iron Pills. Sold by W. Madill.

JUDGE AND HIS BASKET.

A Citizen of the United States Took Needless Offence.

In connection with the recent tempest in a teapot which was raised through the action of an American citizen refusing to allow the Port Hope customs officer to examine his lunch basket, the Port Hope Times (Con.) says:—

"Last week there appeared in many of the papers an item from Rochester, N. Y., referring to an incident that occurred at the wharf here, and which on account of its grossly unfair attack upon Mr. Bletcher, of H. M. Customs, calls for a few remarks. From the report published it would appear as if Mr. Bletcher confiscated a lunch basket belonging to an American visitor coming across from Rochester to this port and subjected the owner thereof to humiliation. But the facts of the case, as we find by inquiry from an American gentleman who was looking on, as well as others there at the time, are simply that Mr. Bletcher did his duty and nothing more. It appears that a party, who is said to be Judge A. E. Sutherland, of Rochester, came over by the steamboat Caspian, and had with him, together with other articles, a good sized basket. Customs Officer Bletcher asked what was in it, but instead of Judge Sutherland opening it and showing the contents, he quibbled and thereby naturally aroused the suspicions of the officer, who said he must examine it. This caused the judge to act in a manner anything but what one would suppose a party holding the position of judge would do, for he began to curse and blaspheme, using in vain the name of our Saviour, as well as other choice epithets, and declaring he would "throw the G— d— things into the lake" and see the officer in "h— before he would pay anything," etc. As the judge continued in this strain, and as the other passengers were waiting for their baggage to be examined, Mr. Bletcher gave orders to the porter on board not to allow the basket to be put off, but keep it and give it to the owner when he went back. Such are the facts of the case, and if the judge has been caused any inconvenience, he has only himself to thank for it. The officer did his duty and nothing more.

The basket was not confiscated, as the Rochester dispatch makes it appear. It was simply not allowed to be landed because of the refusal of the owner to allow it to be examined.

Yankees must remember that when they come across the border, our customs law must be regarded just as much as their own has to be by Canucks when they go to the other side."

WILL REJECT THE TERMS.

Strike Officials Expected to Act on Company's Proposals.

New York, Sept. 6.—A conference of the members of the Conciliation Committee was held at the Ashland House at 5 o'clock and continued till 8.30, during which time there was much telephoning. When the conference adjourned, Mr. Mitchell explained the point reached in the negotiations to be that the proposition of the Steel Corporation has not yet been acted upon by the Amalgamated Association, but that the board will probably reject it today.

What is Life to You?

If you are a victim of piles, as one person in every four is, you suffer keenly from one of the most torturing ailments known to man, and may well wonder if life is really worth living. Certain relief and ultimate cure is awaiting you by means of Dr. Chase's Ointment. It has never failed to cure piles. Painlessly and naturally it allays the inflammation, heals the ulcers and thoroughly cures this wretched disease.

WINNERS AT SEA GIRT.

How Canadians Won From the All-American Team in the World Championship Competition.

New York, Sept. 6.—The Canadian and American riflemen had a long session yesterday on the State rifle ranges at Sea Girt, N. J., in the contest for the American Centennial Palma trophy, emblematic of the world's championship, and the Canadians won by a margin of 28 points, the final score being, Canada, 1,522; American, 1,494.

The utmost good fellowship prevailed throughout the match, which was very close up to the last stage. Two of the members of the Ulster Rifle Association of Belfast, Ireland, W. T. Braithwaite and Thomas Robertson, acted as coaches for the Dominion representatives, and the Americans had Gen. B. W. Spencer with some of his officers attending to them in a similar capacity.

The conditions of the contest called for the use of the national arm of the country represented by the teams, so that it was practically a duel between the American Krag and the English Lee-Enfield weapons. The Canadians used Orthoscopic sights, while the Americans had the service sights.

Lieut. Leisear of Washington, D. C., made the highest collective and best individual score in the match, which was shot in three stages, 800, 900 and 1,000 yards. Each of the teams of eight men had 15 shots at each of these distances.

The carbine team match was won by the men from the First Troop of National Guard of New Jersey. This match was shot over the 200 and 500 yard ranges, and resulted in a tie between the Essex men and the Pennsylvania squadron, each having a total of 205.

But, as the Jersey riflemen had a better aggregate score over the lower range the Pennsylvanians had to take second place. Squadron "A" of New York was next with 184 and Troop "A" of Maryland fourth with 180.

The following is a summary of the Canadian-American match:

Canadians.

Lieut. Ross	185
Capt. R. J. Davidson	203

MR. MARTIN'S POSITION.

Leader of the Opposition in B.C. Will Resign That Post

Victoria, B. C., Sept. 6.—The political situation underwent no change yesterday, the only new feature in connection with it being the advent of the one-time leader of the Opposition, who finds himself, through the peculiar changes that have been made, relieved of his duties. In an interview yesterday Mr. Martin frankly admitted that his occupation was gone, and that he will abdicate his anomalous position as leader of the Opposition.

Mr. Hugh Gilmour, M. P. P. for Vancouver, came over with Mr. Martin last night, and is understood to share the views of the chief in regard to the new arrangement. The names of Messrs. Gilmour and Hall are frequently heard in connection with filling the vacancy in the Cabinet, but no active steps seem to have been taken to install a successor to Mr. McBride. In the meantime Mr. Eberts is acting Minister of Mines.

Mr. Martin yesterday said he was fully in accord with the Government as at present constituted.

"You will resign your post as leader of the Opposition?" was suggested.

"Yes, certainly," he replied. "There is no Opposition that I am aware of, with the exception of, perhaps, Messrs. Smith Curtis and E. C. Smith."

ACCIDENT AT BRIGDEN.

One Man Terminated Fatally and the Other May.

Brigden, Sept. 6.—An accident resulting fatally to George Branton of Wallaceburg occurred half a mile west of here on the Fourth line, at Bear Creek hill, Wednesday afternoon, by his horse turning suddenly when driving down the hill, throwing Mr. Branton out down the embankment, and breaking his right shoulder. Dr. Fisher was in attendance soon after the accident and the injured man was brought to the Queen's Hotel here, where everything was done to relieve his suffering. He did not regain consciousness and died during the night.

During the afternoon Mr. Branton was driving through Main street with Hiram Hales in the buggy, and when near the corner of the Commercial Hotel, the horse turned down Jane street while going very fast and overturned the rig, throwing both men out. The doctors found that Mr. Hales' skull was fractured, and he is seriously injured about the shoulders. At present writing his condition is considered very serious, but not fatal.

Mr. F. W. Walden has resumed lessons in Piano, Harmony and Singing, at his residence, 595 George St. Mr. Walden has still lesson periods between the hours of 9 and 12 a.m. and 1 and 3 p.m., and will be pleased to meet intending pupils.

"A DANGEROUS BOAT"

SPEARS, THE YACHTING EXPERT, SO CONSIDERS THE SHAMROCK II.

Not One Ill Swept Line in the America's Cup Challenger—Declares Her Model Above Water Is the Cleanest Ever Built—A Bulldog Has Not Been Sent on a Hound's Errand This Time.

The appearance of the new Shamrock as she rides the water at the Erie basin is most disquieting, says John R. Spears, the noted yachting authority in The New York World. In nothing that was written on the other side was she adequately described, and nearly every description

SHAMROCK II.

of her that was sent here was seriously misleading.

For, without any exception, the model of the new Shamrock above water is the most beautiful and the cleanest and swiftest of any that ever sought for or defended the cup.

Let it be fully understood that these adjectives are applied only to what can be seen above water. Her lines under water may be wrong in various respects, but that is scarcely possible.

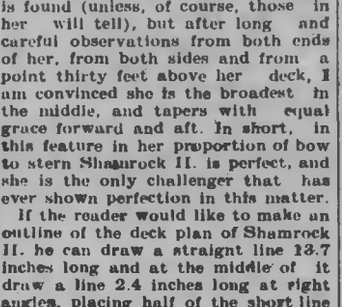
In all reports sent from England Shamrock II. has been described as having her greatest breadth of beam carried well forward into her bow. It was even asserted that she was broadest abreast of if not forward of her mast. The story was simply untrue. Her greatest breadth of beam is within five feet of the frame that lies half way between her stem and her taffrail. So beautiful is the curve of her rail that nothing but a tape-line can tell where the greatest beam is found (unless, of course, those in her will tell), but after long and careful observations from both ends of her, from both sides and from a point thirty feet above her deck, I am convinced she is the broadest in the middle, and tapers with equal grace forward and aft. In short, in this feature in her proportion of bow to stern Shamrock II. is perfect, and she is the only challenger that has ever shown perfection in this matter.

If the reader would like to make an outline of the deck plan of Shamrock II. he can draw a straight line 13.7 inches long and at the middle of it draw a line 2.4 inches long at right angles, placing half of the short line on each side of the long one. Then sweep the arc of a circle from one end of the long line through each end of the short one to the other end of the long one. That will not be a perfect plan, but it will give an adequate idea of one feature of this beautiful hull. She is said to be 137 feet long and a trifle over 24 feet broad — say 24 feet 2 inches, the breadth of Columbia.

The heavy quarters of the hull of Shamrock I. are well remembered by all who saw them. Fewer spectators observed that she was also heavy in the bows, but the general effect of her hull led a celebrated British admiral to speak of her as a bulldog sent to catch a greyhound.

The writer now warns the patriots that, so far as one can judge by seeing what is above water, Shamrock II. is not a bulldog sent on a greyhound's errand. Forward and aft, from plank sheer to water line, there is not one ill swept line in her.

To the eyes of an old barnacle Shamrock's lapstreak shows a more dangerous model than Columbia's. And that is not all of the broadside view that is disquieting. She is a low lying craft, and yet has an elevation of bow and stern that instantly catches the eye. She will meet and pass over a heavy head



THE DEFENDER CONSTITUTION.

sea far more easily than the old Shamrock did.

The most conspicuous feature of a broadside view, however, is the extraordinary length of overhang at each end. Here is a ship 137 feet long over all, and yet but 89 feet and a few inches on the water line. Her bow seems to reach out about 22 feet over the water, her stern about 26. If Herreshoff had the planning of another defender, he would give her an over all length as great as this one and very little greater.

Any view of either overhang is particularly disquieting to the patriot barnacle. It is impossible to find any defect in either. Watson has, indeed, chopped off the bow at the extreme end and put a plate square across to support the bowsprit. It looks like the collision bulkhead of a ship that has lost her stem, but it will never dip into the sea, and the strength it gives to the bowsprit more than makes amends for the sawed off look.

The stern overhang is doubtless the most observed feature of the hull, because of the striking difference between it and the stern of Shamrock I. So fine are the lines there, in fact, that one able critic has suggested that she may lack power. She may not be able to stand up as well as she should, though we shall have to see her under sail in a 12 knot breeze before the matter can be determined. But an end view of the hull seems to show that she will stand up like an icehouse — and frost the patriotic barnacles too. For there is an ample flare in the hull above water. She fares like a saucer afloat, or like a skimming dish, say! It is the most remarkable feature of the boat.

There is still some rule of thumb work in designing—especially in adjusting sails to the hull. I have no doubt that since her sails have been perfectly adjusted she is 12 minutes faster than before.

Judging from English papers we thought Shamrock II. an easy one. Judging by what can be seen of her above water the most cheerful optimist of all the barnacles is full of apprehension.

The Cause of Dyspeptic Pains.

They arise from the formation of gas, owing to improper digestion. A very prompt and efficient remedy is Polson's Nerviline. It relieves the distention instantly, and by its stimulating action on the stomach, aids digestion. Nerviline cures dyspephic pains by removing the cause. Nerviline is also highly recommended for cramps, colic, summer complaints, and inflammation. Sold in large 25c. bottles everywhere.

AN ANARCHIST'S SHOT

Lays Low the President of the United States of America.

A TERRIBLE CRIME AT BUFFALO.

Stricken While Holding a Reception in the Temple of Music at the Pan-American Exposition—The Would-Be Assassin Proclaims That He Was Chosen to Do the Dastardly Deed.

THE LATEST BULLETINS.

Buffalo, Sept. 7.—The following bulletin was issued by the President's physicians at 10.40 p. m. yesterday:

"The President is rallying satisfactorily and is resting comfortably; temperature 100.4 degrees, pulse 124, respiration 24."

Patient Free From Pain.

The President's physicians issued the following bulletin at 1 a. m.:

"The President is free from pain and resting well. Temperature 100.2, pulse 120, respiration 24. (Signed), P. M. Rixey, Roswell Parke, George Cortelyou, Secretary to President."

Surgeon's Statement.

Buffalo, Sept. 7.— Secretary Cortelyou last night gave out the following statement:

The following bulletin was issued by the physicians at 7 p.m.: "The President was shot about 4 o'clock. One bullet struck him on the upper portion of the breast bone, glancing and not penetrating; the second bullet penetrating the abdomen five inches below the left nipple and one and a half inches to the left of the mediam line.

"The abdomen was opened through the line of the bullet wound. It was found that the bullet had penetrated the stomach. The opening in the front wall of the stomach was carefully closed with silk sutures, after which a search was made for a hole in the back wall of the stomach. This was found and also closed in the same way. The further course of the bullet could not be discovered, although careful search was made. The abdominal wound was closed without drainage. No injury to the

PRESIDENT M'KINLEY.

intestines or other abdominal organs was discovered.

"The patient stood the operation well — pulse of good quality, rate of 130, condition at the conclusion of operation was gratifying. The result cannot be foretold. His present condition justifies hope of recovery."

GEORGE B. CORTELYOU,
Secretary to the President.

Mrs. McKinley Brave.

When it was decided to remove the President from the Exposition Hospital to the Milburn residence, the news was broken to Mrs. McKinley as gently as might be, by the members of the Milburn family. She bore the shock remarkably well, and displayed the utmost fortitude.

PRESIDENT M'KINLEY SHOT.

Assassination Was Attempted at 4 O'clock Friday While the President Was Holding a Reception.

Buffalo, Sept. 7.—The scene of excitement and anxiety displayed on Buffalo's streets last night never had a parallel in the city's history. The Pan-American was abandoned, and the entire population, including the many thousands of temporary visitors, congregated down town, blockading the streets while they awaited the frequent reports of the condition of the stricken head of the nation.

The President was first reported dead, but it was soon made known that he still lived, after receiving the two bullets from the revolver of the would-be assassin, and each succeeding announcement was more encouraging, until about 9 o'clock it was given out that the probabilities were quite favorable for the President's recovery.

It was not until this development that Mrs. McKinley, who has been an invalid for several years, was made aware of the attempt on her husband's life. He was removed to the home of Mr. John G. Milburn, President of the Pan-American, whose house has been occupied by the Presidential party since their arrival here.

It was a few moments after 4 p. m., while President McKinley was holding a public reception in the great Temple of Music on the Pan-American grounds that the cowardly attack was made, with what success time alone can tell.

Standing in the midst of crowds numbering thousands, surrounded by every evidence of good will, pressed by a motley throng of polyglot peoples, showered with expressions of love and loyalty, besieged by multitudes all eager to clasp his hand amidst those surroundings, and with the ever recurring plaudits of an admiring army of sightseers ringing in his ears, the blow of the assassin fell, and in an instant, pleasure gave way to pain, admiration to agony, folly turned to fury and pandemonium followed.

Last night a surging, swaying, eager multitude thronged the city main thoroughfare, choking the streets in front of the principal newspapers, scanning the bulletins with anxious eyes and groaning or cheering in turn each succeeding announcement as the nature of the message sinks or buoys their hopes.

Down at police headquarters, surrounded by stern faced inquisitors of the law, was a medium sized man of commonplace appearance, with the fixed gaze directed on the floor, who presses his lips firmly together and listens with an air of assumed indifference to the persistent stream of questions, arguments, objurgations and admonitions with which his captors seek to induce or compel him to talk. It was just after the daily organ recitals in the splendid Temple of Music that the dastardly attempt was made. Planned with all the diabolical ingenuity and fineness of which anarchy or nihilism are capable, the would-be assassin carried out the work without a hitch, and should his designs fail and the President survive, only to Divine Providence can be attributed that beneficent result.

The President, though well guarded by United States and city detectives, was fully exposed to such an attack as occurred. He stood at the edge of the raised dais, upon which stands the great pipe organ, at the east side of the magnificent structure.

Throngs of people crowded in at the various entrances to gaze upon their well beloved executive, perchance to clasp his hand, and then fight their way out in the good-natured mob thus every minute swelled and multiplied at the points of ingress and egress to the building.

The President was in a cheerful mood, and was enjoying to the full the hearty evidences of goodwill which everywhere met his gaze. Upon his right stood John G. Milburn of Buffalo, President of the Pan-American Exposition, chatting with the President and introducing to him especially persons of note who approached. Upon the President's left stood Mr. Cortelyou.

It was shortly after 4 p. m., when one of the throng which surrounded the Presidential party, a medium sized man of ordinary appearance and plainly dressed in black, approached as if to greet the President. Both Secretary Cortelyou and President Milburn noticed that one of the man's hands was swathed in a bandage or handkerchief. Reports of bystanders differ as to which hand.

He worked his way amid the stream of people up to the edge of the dias, until he was within two feet of the President.

President McKinley smiled, bowed and extended his hand in that spirit of geniality the American people so well know, when suddenly the sharp crack of a revolver rang out, loud and clear, above the hum of voices, the shuffling myriads of feet and vibrating waves of applause that ever and anon swept here and there over the assemblage.

There was an instant of almost complete silence, like the hush that followed a clap of thunder or momentary silence that ensues after the discharge of a bombshell.

The President stood stockstill, a look of hesitancy, almost of bewilderment, on his face. Then he retreated a step, while a pallor began to steal over his features.

The multitude, only partially aware that something serious had happened, paused in the silence of surprise, while necks were craned and all eyes turned as one toward the rostrum where a great tragedy was being enacted.

Then came a commotion. With the leap of a tiger three men threw themselves forward as with one impulse, and sprang toward the would-be assassin. Two of them were United States Secret Service men, who were on the look-out, and whose duty it was to guard against just such a calamity as had here befallen the President and the nation.

The third was a bystander, a negro, who had only an instant previously grasped in his dusky palm the hand of the President.

As one man the trio hurled themselves upon the President's assailant. In a twinkling he was borne to the ground, his weapon was wrested from his grasp and strong arms pinioned his arms.

Then the vast multitude, which thronged the edifice began to come to a realizing sense of the awfulness of the scene of which they had been unwilling witnesses. A murmur arose, spread and swelled to a hum of confusion, then grew to a babel of sounds and later to a pandemonium of noises.

But of the multitude, which witnessed or bore a part in the scene of turmoil and turbulance, there was but one mind which seemed to retain its equilibrium, one hand which remained steady, one eye which gazed with unflinching calmness, and one voice which retained its even tenor and faltered not at the most critical juncture. They were the mind and the hand and the eye and the voice of President McKinley.

After the first shock of the assassin's shots, he retreated a step, then, as the detectives leaped upon his assailant, he turned, walking steadily to a chair and seated himself, at the same time removing his hat and bowing his head in his hands.

In an instant Secretary Cortelyou and President Milburn were at his side. His waistcoat was hurriedly opened, the President meanwhile admonishing those about him to remain calm and telling them not to be alarmed.

"But you are wounded," cried his secretary, "let me examine."

"No, I think not," answered the President, "I am not badly hurt, I assure you."

Nevertheless his outer garments were hastily loosened, and when a trickling stream of crimson was seen to wind its way down his breast, spreading its tell-tale stain over the white surface of the linen, their worst fears were confirmed.

The President was removed to the home of Mr. Milburn at 7.25 p. m.

The prisoner is locked up in the jail.

Just after the arrival of the President at Mr. Milburn's house, at 7.30 p. m., Mr. Milburn gave out a statement saying that, while the President's condition was serious, the wounds were not necessarily fatal.

Dr. John Hammeter of Baltimore, specialist on stomach troubles, saw the President. He stated that he did not believe the wound would prove fatal.

Third in Illustrious Line

April 14, 1865, President Lincoln, fatally shot in the back by John Wilkes Booth; died the next morning.

July 2, 1881, President Garfield,

(Continued on 3rd page.)

Glove News!

Here's a Glove item that must attract appreciative buyers.

It's a Suede Glove that comes in assorted tans and browns. It also comes well recommended by the makers.

Of course it isn't a $1.00 Glove, for our order was taken to make for us three hundred pair of these to sell at FIFTY CENTS, but the appearance is that of a seventy-five cent Glove, and the wear-resisting qualities we think just as good.

NO PERSON need fear investing a paltry half dollar when they see a Glove like the one referred to at Fifty Cents. Think of it! A Kid Glove at the price of a silk or a cashmere. Yet so much more dressy—isn't it?

Another and a Better Suede

One of better quality—equally nice stitching—3 dome fasteners and an outling around wrist that has a tendency to make the hand appear smaller. However, it's the value of this Glove we want to draw your attention to, and notwithstanding that we believe this Glove to be a superior one to that handled last year at a $1.00, our price for this will be

NINETY CENTS.

SATURDAY, SEPT. 7, 1901.

THE TORONTO INDUSTRIAL AND THE PROVINCE.

The Toronto News says:—

"Seeing that the Toronto Exhibition is provincial in its character, the Ontario Government should take a deeper interest in it than has been the case in the past. A sum of money might well be appropriated for the erection of a Provincial Building and an exhibit prepared each year showing in some striking and effective manner the resources of the Province. The best informed men but imperfectly understand the extent and value of the natural endowments of the Province, while the youth of the country and the vast majority of the mature are densely ignorant of the potentialities of their heritage. An exhibit might be prepared for the Industrial Fair, and afterwards displayed at the principal centres throughout the Province, a new line being taken each year, so that in the course of time, by this means alone, the people of the Province would learn how varied and valuable are the natural resources of their native Province."

This is an important suggestion and if given effect would doubtless yield good results. But something will have to give way before the necessary cooperations to bring it about is secured. The News says the "Toronto Exhibition is Provincial in its character." Is it so in all respects? The people of Toronto do not regard it as "Provincial in its character," except so far as the Province at large contributes to the financial advantages of Toronto. In the report of the directors of the Toronto Industrial Exhibition Association for 1898, the following sentence occurs:—

> "The Industrial Exhibition is a citizens institution and your directors are proud to recognize the fact that the citizens of Toronto look upon it as such, and its success is as much of a success for them as it is for the members of the association."

Therefore before the commendable suggestion of the News can be made effective and secure the general co-operation necessary to its being carried out, the local character which the City of Toronto claims for it must be modified. If, as the directors quoted above, assert, the success of the exhibition is the success and consequent profit of the people of Toronto, the Province that is asked to help in the success should have some share of the advantages and some voice in the management. If the Industrial Exhibition is to be Provincialized it cannot of necessity remain "a citizens' institution." If its scope is to be widened the management and advantages cannot remain exclusively Toronto's. In accepting and acting upon the suggestion of the News the claims of the Ottawa Exhibition to similar treatment cannot be ignored. But if all the parties and interests concerned cooperate harmoniously, there should be little trouble in bringing about a satisfactory arrangement.

TO MAKE FAIRS MORE USEFUL.

Mr. F. W. Hodson, Dominion Live Live Stock Commissioner, made a suggestion at the Industrial Exhibition, which if carried into effect, will make our local exhibitions much more useful and practical. He proposes that after awards are made, the judges should take the prize winners to the front and explain why they made the awards, and that the judges also address the farmers at each fair upon the types of animals they consider should be raised in each locality, and the most profitable way to market them. The object of exhibitions is not merely to enable a few fortunates to win prize money. Prizes are to be regarded, not so much as rewards, as marks indicating that the prize winner has been the most successful in making improvement, which he has been stimulated to make in rivalry with other enterprising farmers and stock breeders. The prize is not an end, at least it should not be given or regarded as an end, but as a means to an end, and that end the improvement of stock or products. Therefore, Mr. Hodson's suggestion will have an important effect, if adopted. If the judges explain the points which the successful exhibitor and breeder has brought out the farmer who hears will learn much as to what he is to strive for, and exhibitors will thus enjoy to a fuller extent the educative influences which it should be the chief function of fairs to exercise. The provision made at our exhibitions for recreation and amusement are all very well in their place, and commendable adjuncts, but they should be kept in their subordinate place, as mere adjuncts, and not be advanced to the position of the chief feature of our exhibitions. If our exhibitions are made really attractive and interesting by means of the general application of the principle involved in Mr. Hodson's suggestion, public interest in their more practical features will be increased, and they will become much more successful and useful.

EDITORIAL NOTES.

Referring to Mr. Whitney's "policy" as enunciated a few days ago, the Woodstock Sentinel-Review says: "There is nothing new about Mr. Whitney's policy or his utterances thereon. What is good and understandable about it is a mere repetition or revised version of the policy of Mr. Ross. And there is this difference between the Premier and the Opposition leader; the former has been carrying out this policy of progress; the latter merely promises to do so if the people will allow him. Outside of those features of his policy which are a mere adaptation of the Liberal programmme, Mr. Whitney deals in vague generalities."

Sir Wilfred Laurier, in his reply to the address presented to him at the Toronto Exhibition, made some references to the census. They are worthy of general persual and consideration. He pointed out, as the Examiner has previously done, that, while the United States, with all its increase and vast population, only has a per head trade of $29, that of Canada is $71 per head. The figures are suggestive and supplement very effectively the exhibit not long since presented in Great Britain by Mr. Colmer, C. M. G., that from the days which followed the Revolution across the lines, the relative progress of Canada has been greater than that of our neighbours. Our population may be small, but it is of sterling quality, and our progress slow in numerical increase of our people, but we are a solid firm, financially and commercially.

The London News (Ind.) notes a paragraph that is going the rounds of the press to the effect that Mr. T. H. Preston, M. P. P., of Brantford, will likely retire from public life and confine his attention to his newspaper business, and hopes that the report is unfounded. It says: — "He is quiet, modest and aggressive. He knows what is going on, and when advisable, and only when advisable, he speaks. He knows more about labour questions than any other man in the House, and has done good service to labour men, whose friend he is. If he retires a good man and a good member will leave the Legislature, and there are too few of that class now." This is true, Mr. Preston is a valuable member of the Legislature, and in view of the fact that his withdrawal will be a real loss to public interests, it is to be hoped that he will see his way clear to retain his present relations. A public man necessiarly sacrifices much for the benefit of his country, for the same qualities that makes him useful to the state, applied in other directions, would bring financial success far greater than the pecuniary rewards of public service.

Cured Itching and Protruding Piles.

Mr. Pall Owens, of So. Omaha, writes; "After suffering two years from an aggravating case of itching and protuding piles I was cured by a single 50c package of the Pyramid Pile Cure, purchased from a local druggist." For sale by all druggists. Little book, "Piles, Causes and Cure," mailed free. Pyramid Drug Co., Marshall, Michigan.

WHEAT IS GRADING UP WELL.

Large Percentage of That Inspected Registered No. 1 Hard.

Winnipeg, Sept. 7.—Reports from the railroad companies as to the progress of threshing and wheat deliveries will amount up to nearly 100,000 bushels. Inspector Horn's daily report of cars inspected here shows a steady increase each day. The first of the week started with 20 cars inspected here, out of which 12 cars graded No. 1 hard; Tuesday had 54 cars, with 30 No. 1 hard; Wednesday 70 cars, with 39 No. 1 hard, and yesterday 68 cars were inspected, 46 grading No. 1 hard and 42 No. 1 northern. For the month of August 507 cars were inspected, 78 cars, or 64,740 bushels, grading No. 1 hard, 41 cars of this being raw wheat. The percentage of No. 1 hard wheat is shown up by Mr. Horn to be large and very satisfactory. On the lighter soil the grade grown is generally No. 1 northern. This disproves the statement made by some grain buyers that a large percentage, in fact the bulk of the wheat, would grade No. 1 northern instead of No. 1 hard.

A number of farmers have made indignant protests, but so far as the mere statement went no harm otherwise has been done, as they are getting fair play at the hands of the inspectors.

INFANT MORTALITY.

Many Deaths Largely Due to Ignorance on the Part of Mothers.

The disorders of children seem to the rugged and hearty grown persons to be simple and not particularly dangerous.

This point of view on the part of parents has been the cause of the loss of thousands of baby lives.

You will always find that the mothers who are successful in bringing up families of hearty, healthy children, with scarcely a day's sickness, are always those who are careful to note the slightest evidence of illness and to check the difficulty at once.

They do not belong to the class of mothers that stupify their children with sleeping draughts and similar medicines containing opiates.

They stick to the purely vegetable, healthful medicines which cure infantile disorders quickly, and of these Baby's Own Tablets are the best of all.

For colic, simple fevers, croup, constipation, diarrhoea, irritation when teething, indigestion and sleeplessness, these tablets are a quick, effective, never-failing cure. Dissolved in water the smallest baby will take them without the slightest objection. Do not trifle with medicines concerning which you know nothing, when there is a time-tried remedy which is used constantly and with the best results in thousands of homes.

Mrs. H. H. Fox, Orange Ridge, Man., says: "I have found Baby's Own Tablets a perfect medicine for children of all ages and would not be without them in the house. They are truly a baby comfort and mother's friend." Baby's Own Tablets can be found at drug stores, or will be sent prepaid upon receipt of price, 25 cents, by addressing the Dr. Williams Medicine Co., Dept. T., Brockville, Ont.

HARVEY COUNCIL MEETING.

The Municipal Council of the Township of Harvey, met at the town Hall on Thursday, Aug. 29th, at the call of the Reeve. Members present, James Ingram, Esq., reeve, in the chair, and Councillors Elliott, Flynn and Oliver. Minutes of last meeting read and confirmed.

Communications were read from National Trust Co., acknowledging erceipt of debentures, R. Lytle, Gilmour Co., and E. C. Bound.

Requisitions for levy were received from the different school sections.

Moved by Messrs. Flynn and Elliott, that Mr. Ingram inspect the road between lots 29 and 30 in the 11th concession.—Carried.

On motion of Oliver and Flynn, the council granted $15 to the Agricultural Society.—Carried.

Moved by Messrs. Flynn and Elliott, a bylaw was introduced levying rates and taxes for the year 1901.

Moved by Messrs. Oliver and Elliott that the bylaw just read be read a second and third time, and passed forthwith, the corporate seal be affixed and numbered 255.—Carried.

On motion of Oliver and Flynn, that orders be drawn on the treasurer in favour of the following parties and for the following sums respectively: Jos. Gillespie, for Rathbun Co's roadwork, $5; Alex. Thompson, Agricultural Society, Society, $15; Arthur Bennett, work on roads, $5; David Weir, clerk, postage, $8; J. Ingram, time and expenses on debentures, $8.50 Stephen McIlmoyle, work on road, $5; Andrew Montgomery, work on roads, $2.50; C. E. Bonnell, diphtheria patients, $3.75; Ontario Bank, debenture, S. S. No. 3, $105.52.—Carried.

On motion of Oliver and Flynn, that this council do now adjourn to meet at Buckhorn on Saturday, 5th October.—Carried.

Bought Rails in England.

Montreal, Que., Sept. 7.—Manager Russell of the International, who arrived here last evening en route for Buffalo, stated that the Clergue works at Sault Ste. Marie being unable to deliver rails as soon as they will be required for the section between New Glasgow and Straits of Canso, 15,000 tons of 80-lb rails had been purchased in England, and that this work will be proceeded with as soon as the rails arrive.

EVERY DAY IN THE WEEK
YOU HAVE USE FOR
Lily White FLOATING *Soap*

It is a pure neutral soap—no alkali—nothing but pure soap. Will not harm the skin of the youngest child. Cools and soothes all irritation. Its moderate cost allows its use for all purposes. Sold at all good grocers at 5 and 10 cents per bar. A perfect soap for general toilet use and for the bath.

JOHN TAYLOR & CO.
MANUFACTURERS TORONTO, ONT.

School Suits

Mothers know where they can always depend upon getting good, serviceable School Clothing for their sons. They know whether or not the last Suit bought at the City Clothing Store wore as well as it ought to have done. And if it did, we deserve their patronage again.

We have all GOOD qualities in BOYS' SUITS, and all sizes and styles to fit any boy from 3 to 15 years of age. We sell the best Clothes for Boys that are made by any manufacturer in Canada, and we know they have always given wide-spread satisfaction.

We were boys ourselves once, and don't forget the first time we wore long pants.

H. LEBRUN & CO.

CITY CLOTHING STORE.

FROM 10 TO 12 O'CLOCK

Grand Summer Wind-up!

YOU NEED SHOES AND WE NEED ROOM

You cannot resist buying at such prices as will be placed on the Footwear displayed in our window **Tuesday, Sept. 3rd, from 10 a.m. to 12 noon.**

This slaughter is made necessary because of the early arrival of Fall Goods, and room must be had.

This sale will be continued from day to day, between 10 a.m. and 12 noon, until our aim and object is obtained.

Coloured Goods dyed black free of charge.

R. McWHINNIE

Trading Stamps for the Asking. 384 George Street

With the Hounds.

A story is told of the disciplinary methods of a Northern M.F.H., who had very definite views about sport and sportsmen, and stuck to them. Much annoyed throughout the best part of a season by a self-assertive visitor of Jewish extraction, he was unable for some time to find an opportunity for opening his mind to him. At last, however, after some peculiarly gross offence, the opportunity came, and he abused him from the crown of his head to the soles of his feet. "Call yourself a hunting man," he said. "You a hunting man? You're only fit to chase jackals around the walls of Jerusalem."—London Globe.

MANY BECOME DESPONDENT.

Many persons become despondent because they have been unable to find a permanent cure for Eczema (Salt Rheum) and kindred skin diseases, such as pimples, and blotches. "Climax" Iron Tonic Pills will positively cure these ailments and make the skin healthy. Each box contains ten days' treatment. Price 25 cents, at all druggists, or mailed on receipt of price. Address: The Dr. Hall Medicine Co., Kingston, Ont.

Crane Island.

In Lake Minnetonka, Minnesota, there is a picturesque island which takes its name from the fact that it is uninhabited by man and given over to the cranes. Generations back these birds decided upon this spot for a summer resort. As times went on and the surrounding islands populated no man had the heart to disturb them, until now Crane island is pointed out from passing boats as one of the curiosities of the northwest.

Shaves and Colds.

It is not generally known among men that close shaving is apt to bring on a cold. Barbers, however, are acquainted with this fact, and it is rather on account of it than through any desire to bring their patrons back soon again that they do not, unless ordered to, administer close shaves.

Hogs—Receipts, 7814; firm, at $6.65 for western hogs; state do., $7 to $7.10.

CHEESE MARKETS.

Ottawa, Ont., Sept. 6.—At the meeting of the Cheese Board here to-day the regular buyers were present. There were 1243 boxes of cheese boarded, of which 277 were colored. The price bid was 9¼c for colored and 9c for white. Mr. Birkett, representing Alexander & Co., paid 9 1-16c for most white cheese he bought, but the rest of the buyers refused to pay over 9c for white. All sold except 102 white and 142 colored.

Miller's Compound Iron Pills: only 25 cents for 50 doses. For sale by W. Madill.

STRUCK BY A TRAIN

Edward Peltier and His Wife Killed Near Windsor.

SUNDAY WORK AT COLLINGWOOD

Chief Henry of the Oneidas Sent for Trial on a Charge of Shooting Wm. Doxtater With Intent to Kill—Mr. J. Travers Lewis, Ottawa Barrister, Severely Injured by a Bicyclist.

A sixth case of smallpox was discovered in Ottawa Friday.

Countess Russell (formerly Mrs. Somerville) is seriously ill at Chester.

Lord Strathcona arrived in Ottawa Friday morning. He had luncheon with the Premier.

M. D. Boyd, a Toronto broker, claimed the body of his brother, Archibald Boyd, who dropped dead on the Midway at Buffalo, on Wednesday morning.

George Ball, a machinist, fell down an elevator shaft in the McCormick Biscuit Factory at London on Friday evening, and died while being removed to the Victoria Hospital.

Chief John Henry of the Oneida Indian reserve, was on Friday afternoon sent for trial at the December Sessions at London on the charge of shooting at William Doxtater with intent to kill.

Mr. J. Travers Lewis, a well-known Ottawa lawyer, son of the late Archbishop Lewis, Chancellor of the Diocese of Ottawa, was badly injured internally by being struck by a bicyclist on Friday.

Emigration returns for the month of August have been given out. The number of emigrants to leave for Canada during the month was 4,746. Of these 2,042 were English, 274 Irish, 583 Scotch, and 1,847 foreigners.

The Industrial Exposition at Toronto for 1901 is a thing of the past. Friday the attendance was large, but the deficit this year, owing to the first week's rainy weather, will be anywhere from $20,000 upwards.

August Pollock, 13 years of age, switch boy on the Ottawa Electric Railway, was jumping from one car to another, which was in motion, when he slipped and fell. The wheels of the car passed over his head. Death was instantaneous.

By the victory of the Canadian riflemen at Sea Girt on Thursday the handsome Palma trophy leaves the United States for the first time. Under the conditions governing the disposition of the prize, the next contest will take place on Canadian soil.

Friday morning the westbound M. C.R. train, No. 17, when crossing the highway at Grand Marais, near the corporation limits of Windsor, Ont., ran into a rig owned and occupied by Edward Peltier, a farmer residing on the Kavanaugh road, and his wife, killing them both.

Miss Wagenfuerer of Buffalo made the trip through the Whirlpool Rapids Friday afternoon, as announced, but no doubt it will be the last attempt as it nearly cost her her life. When the barrel reached the pool it made half a dozen complete tours of the pool, and was in the pool about one hour and forty-five minutes. The woman was helplessly unconscious, but after half an hour was resuscitated.

On Sunday last a firm of shipbuilders in Collingwood caused no little excitement in the town by asking their men to work on that day. Some of them refused to do so and the matter was made the subject of comment in certain of the churches. The mayor was informed and at 2 o'clock he went to the shipyards and stopped the work. Public opinion is said to be much against the firm's action.

FOUND DIFFERENT.

Classed Dodd's Dyspepsia Tablets With Other Remedies but Changed His Mind Since.

Mr. James Beatty, of Kilworthy, Ont., tells a typical story of how he first came to know Dodd's Dyspepsia Tablets for what they're worth.

He had been sick and ailing with Dyspepsia for some time. He had tried different treatments and various medicines all to no purpose. His stomach was broken down, his food was no use to him and his whole system of course got out of order.

He saw an advertisement in a Toronto paper one evening, in which the reasonableness of the treatment known as Dodd's Dyspepsia Tablets appealed to his sense of conviction. Dodd's Dyspepsia Tablets act on the only sound principle in the treatment of Dyspepsia—rest to the stomach.

If a man can't digest his food because his stomach is tired out, how is he going to get better unless his stomach be rested and his food go on being digested? Mr Beatty found it out. Listen:

"If the work Dodd's Dyspepsia Tablets do for everybody is the same as they did for me they are the greatest medicine ever discovered. I saw them advertised in a Toronto paper, and I happened to be in Mr. Homer's store in Gravenhurst. I asked the clerk did he keep them in stock, but they had run out of them. He told me that he would send for them but I told him it was not necessary as I thought it would be like other patent medicines. I found different. I went to Dr. Campbell's and got them there. They made another man of me. I used to have to be very particular what I ate and drank and above all I dreaded Sunday. Now, thank God, I can eat what I choose and the doctor is in my own pocket in the shape of Dodd's Dyspepsia Tablets."

When They Wear Coronets.

The only occasion upon which a peer or peeress wears a coronet is at the coronation of a sovereign. At the moment when the Archbishop of Canterbury places the crown on the head of the new monarch every peer present at the ceremony dons his own coronet.

A RUN DOWN SYSTEM

Shows That the Blood and Nerves Need Toning up.

This Condition Causes More Genuine Suffering Than one can Imagine—How a Well Known Exeter Lady Obtained a Cure After She had Begun to Regard Her Condition as Hopeless.

(From the Advocate, Exeter, Ont.)

"A run down system!" What a world of misery those few words imply, and yet there are thousands throughout this country who are suffering from this condition. Their blood is poor and watery; they suffer almost continuously from headaches; are unable to obtain restful sleep and the least exertion greatly fatigues them. What is needed to put the system right is a tonic, and experience has proved Dr. Williams' Pink Pills to be the only never-failing tonic and health restorer.

Mrs. Henry Parsons, a respected resident of Exeter, Ont., is one of the many who have tested and proved the value of Dr. Williams' Pink Pills. For many months she was a great sufferer from what is commonly termed "a run down system." To a reporter of the Advocate she gave the following story in the hope that other sufferers might benefit from her experience:—"For many months my health was in a bad state, my constitution being greatly run down. I was troubled with continual headaches, my appetite was poor and the least exertion greatly fatigued me. I consulted a physician but his treatment did not appear to benefit me and I gradually became worse, so that I could hardly attend to my household duties. I then tried several advertised remedies but without result, and I began to regard my condition as hopeless. A neighbour called to see me one day and urged me to try Dr. Williams' Pink Pills. Having tried so many medicines without receiving benefit, I was not easily persuaded, but finally I consented to give the pills a trial. To my surprise and great joy I noticed an improvement in my condition before I had finished the first box and by the time I had taken four boxes of the pills I was fully restored to health. I no longer suffer from those severe headaches, my appetite is good, I can go about my household duties without the least trouble; in fact I feel like a new woman. All this I owe to that best of all medicines, Dr. Williams' Pink Pills, and I would strongly urge other sufferers to give them a trial."

Dr. Williams' Pink Pills are recognized the world over as the best blood and nerve tonic, and it is this power of acting directly on the blood and nerves which enable these pills to cure such diseases as locomotor ataxia, paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, that tired feeling resulting from nervous prostration; all diseases resulting from vitiated humours in the blood, such as scrofula, chronic erysipelas, etc. Dr. Williams' Pink Pills are sold by all dealers in medicine or can be had by mail, post paid, at 50 cents a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

Medical Science Advances.

It is not more than half a century ago that physicians considered a surgical operation with its risk, expense and pain, as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase-s Ointment. You may be sceptical but for proof you are referred to tens of thousands of people that have been cured by this famous preparation.

Drowned at Port Bruce.

St. Thomas, Sept. 7.—A drowning accident occurred at Port Bruce Thursday night. Joseph Stephens of Port Bruce went in bathing just west of the pier in a most treacherous spot. It was noticed by the boarders of the hotel near by that he did not return. A search proved fruitless. The lake was dragged and the body found in four feet of water. Mr. Stephens was 73 years of age, and, as he was a good swimmer, it is supposed the accident was the result of cramps.

AN ANARCHIST'S SHOT

Continued from 1st page.

shot by Guitteau in the back; lingered on till September, when death relieved him of his sufferings.

Sept. 6, 4 p. m., President McKinley, shot in breast and stomach, by Nieman of Detroit (whose real name is known now to be Leon Czolgosz).

His Career.

Twenty-fourth President. Born in Miles, Ohio, Jan. 28, 1843. Served in the army of the North during the civil war, and rose to rank of captain and brevet-major. A member of the bar, and of Congress from 1871 to 1891, when he was elected Governor of Ohio. In 1896 elected by a plurality of over 600,000 votes over Mr. Bryan; last fall again successful for a second term.

Secretary of State in Charge.

Toronto, Sept. 7.—Col. Sewell, the American consul of Toronto, after expressing his sorrow, stated that the Secretary of State will take charge of affairs now and remain in charge until the worst comes to the worst or the President gets better.

NIEMAN CHOSEN BY REDS.

The Would-Be Assassin of President McKinley and His Career.

Detroit, Sept. 7.—At 7 o'clock last night the local police started out to look up Nieman, the would-be assassin of President McKinley. Details of officers were sent out to investigate every man by that name in the city directory.

At 11.15 p.m. the police had learned definitely that Nieman was of German descent, a blacksmith by trade, and had always resided in or around Detroit. He was in the city up to a month ago, when he disappeared, leaving no trace as to his whereabouts or probable destination. The police believe he was selected from a national society of "Reds" to assassinate the President.

Selected to Do the Deed.

Buffalo, Sept. 6.—(9.15 p.m.)—Nieman said to a detective to-night at Police Headquarters that he was recently in Cleveland and had been selected to kill President McKinley.

Real Name Leon Czolgosz.

Buffalo, Sept. 6.—(12 a.m.)—The police have just learned that the real name of the would-be assassin is Leon Czolgosz. He was born in Detroit and came here from Cleveland.

Fatal to Mrs. McKinley.

London, Sept. 7.—The news of the attempt upon the life of President McKinley spread slowly in London. The first ticker reports were discredited, then with the confirmation and general dissemination of the news arose a far-reaching feeling of sorrow and indignation, which, wherever Americans were gathered, almost gained the proportions of a panic, accompanied by feverish anxiety for further details. The thousands of Americans now in London express their unspeakable indignation at the cowardly act; the deepest sympathy with President McKinley, and hopes for his recovery. And to this personal patriotic sentiment was the dread whatever the outcome of the outrage upon the President, it would perhaps react fatally upon Mrs. McKinley.

Hanna Prostrated.

Cleveland, Sept. 7.—"My God, it can't be possible," cried Senator Hanna yesterday afternoon, when the despatch was read to him saying that President McKinley had been shot. "It is terrible, and I am too shocked to express my feelings," he added.

The Senator was prostrated by the news, and begged that all despatches relating to the condition of the President be telephoned to him as fast as they arrived.

Prayed for Patient.

Nelson, B. C., Sept. 7.—At the Provincial convention of the British Columbia Union Christian Endeavor yesterday, the first bulletin of the attempted assassination of President McKinley was read and prayer was immediately offered up that he would recover. A telegram was sent to the general secretary of the Union in the United States, offering the sympathy of British Columbia Union to the United States members.

SEDIMENT IN THE URINE

One of the Indications of Serious Kidney Trouble, That Dr. Pitcher's Backache Kidney Tablets Completely Cures.

Sediment in the urine, no matter what its nature, whether it be brick dust, white particles floating through through it, or slimy deposits, is indicative of serious kidney derangement.

There is no remedy can so quickly clear up the urine and cure the kidney trouble as Dr. Pitcher's Backache Kidney Tablets—the modern medicine for backache, kidney, bladder and urinary disorders.

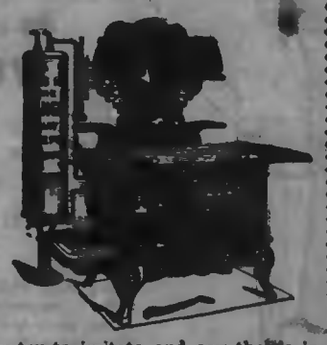
Mr. W. Patterson, electrician, Whitby, Ont., says:—"Permit me to say that the bottle of Dr. Pitcher's Backache Kidney Tablets I got at the store of J. E. Willis, druggist, Whitby, has done me a great deal of good. I have tried other kidney remedies without result, and find in these just what I want. My water, that used to be dark, bad and full of sediment, is now clear, and my bowels move easily, regularly and gently, with no griping. I have worked steadily and the pain I used to suffer with is gone entirely."

Dr. Pitcher's Backache Kidney Tablets are 50 cents a box at all druggists. The Dr. Zina Pitcher Co., Toronto, Ont.

The King of Ranges, "Buck's Happy Thought"

Don't Buy an Experiment
Don't Buy an Imitation...
Don't Buy a 'Just-as-good'

You'll Regret it if you do



Happy Thought Ranges are not experiments, they are The Pioneer Range of Canada, the Range that other manufacturers try to imitate and say theirs is just as good. 150,000 of Canada's best cooks use **The Happy Thought**,—a good reason why you should. Write for an illustrated pamphlet describing these ranges.

"System Tonic" Copyrighted

SYSTEM TONIC IS A SCIENTIFIC MEDICINE AFTER THE SUGGESTIONS OF THE BEST PHYSICIANS IN AMERICA, DISPENSED BY A CHEMIST.

Fac-Simile of Genuine.

Facts about your Liver

The liver is a large gland, the largest in the body. Its work is to secrete bile and also to destroy certain poisonous compounds in the blood as the blood passes through it. It stores the bile thus obtained in the gall bladder from where it is conducted by two ducts, one leading into the stomach and the other into the intestines. The bile thus made is the most important factor in the process of digestion, for without a certain definite proportion of it none of the solvents or digestive fluids are sufficiently active enough to do their work. The liver occasionally dries up, so to speak, and no bile is secreted. This soon becomes apparent by a feeling of torpor or laziness, yawning and a yellow appearance to the skin, and in bad cases a pain in the side. The liver being a gland requires an alterative medicine, as alteratives are medicines which promote glandular secretion. In Merrill's System Tonic is found a combination of the best mineral and vegetable alteratives known and when you take it the liver is quickly restored to its proper condition. Then, too, System Tonic purifies the blood of all accumulated poison and acts on the bowels, unloading the foul matter that has accumulated through lack of bile. The use of half a dozen bottles will give to those persons known as sallow complexioned, a clean, rosy skin.

Each 50c bottle contains 50 pleasant-to-take doses, and is sold

The band will be in attendance, and great preparations are being made to make the affair a success.

Erected in Napanee.

Mr. J. Coughlin, of the Coughlin Monumental Works, town, erected in the Napanee cemetery last week, a large sarcophagus design of monumetn in Swede royal red granite, in memory of the late Rev. David Wilson and Jannette Forshee Wilson father and mother of Rev. J. P. Wilson, of the George street Methodist church. Rev. Mr. Wilson and his brother, after inspecting the work, expressed themselves well satisfied with design, material and workmanship.

MRS. BELLEGHEM'S ACCIDENT.

She Broke Her Leg While on Her way From Chemong.

Mrs. Daniel Belleghem met with a rather serious accident last night when coming from Chemong. The whiffletree of the carriage broke and the horse became unmanageable. The annimal swayed the buggy into the ditch and whilst the vehicle was not upset, nor the occupants, consisting of Mrs. Belleghem and her driver, thrown out, still the concussion was such as to break Mrs. Belleghem's leg. She was conveyed to her home and a physician summoned and she is now resting easily.

FRANK ARKLES' CASE.

He Took a Girl out of the Shelter When He Should not Have Done so.

Ethel Arkles, is the assumed name of a young girl who was this morning taken in hand by the Children's Aid Society of the County of Peterborough. Ethel is about 11 years of age and has been living with her foster father, Frank Arkles, of town. For some time there have been complaints that all was not well. A visit to the apartments in which only the two lived revealed that there was some foundation for these rumours. The apartments which are near the corner of Queen and Hunter streets, are in a filthy condition, so Mr. Geo. Cochrane, the agent for the Society, decided to take charge of the girl and have her case settled in the usual manner before a police magistrate. The girl was arrested on Hunter street this morning and taken to the shelter on Charlotte street. Arkles heard of this and went down to the shelter and took the girl out. He brought her to the Morgan House where she locked herself up in a closet. Mr. Cochrane was notified of this and soon ran foul of Arkles on Water street. He was brought to the police station. The girl was found in the closet at the Morgan House and also brought to the police station. The matter will be investigated at the police station this afternoon.

Miss Annie Slade is visiting Miss Laura Cardwell at Westwood.

Mrs. J. F. Clarke, Port Hope, is the guest of Mrs. (Dr.) McCullough.

Capt. J. W. Fisher, Vet.-Lieut. 14th Field Battery, was in town to-day.

Mrs. B. McNeeley, of town, is at present a guest of Mrs. James Paget, Norwood.

Mr. Fred W. Bates, has returned from a trip to Toronto and the Pan-American.

Mr. Edwin Searight, of Norwood, is attending the Peterborough Business College.

Mrs. James Scott and Mr. John O'Brien, of Clydsdale, are visiting friends in town.

Mrs. S. F. Clysdale has been spending the last week at Stony Lake at "Shannon Cottage."

Miss Mabel Godfrey, is visiting at the home of Sergt.-Major and Mrs. J. Martin, Lindsay.

The Misses Brisbin are visiting at the home of their grand-father, Mr. Wm. Brisbin, Roseneath.

Mrs. E. C. Complin has returned from Toronto where she was spending a few days this week.

Mrs. J. Wright and baby Helen, of Montreal, are visiting with Mr. Steward Wright, Ashburnham.

Mr. and Mrs. Ed. Walsh have returned from Westwood where they were visiting the latter's parents.

Omemee Mirror.—Rev. J. H. Hannah, B. A. B., Th., pastor of Park street Baptist church, Peterborough,

Miss Jessie Lightfoot and Mr. Bert Huston, of town, are attending the County Normal School at Norwood.

Mr. John Crane will preside at the organ in St. Paul's church to-morrow morning after a well earned holiday.

Mr. J. Coyle Brown, P. S. I., has been in Norwood during the week attending the opening of the Normal School.

Rev. W. L. Armitage will resume his Bible class tuition at All Saints' Sunday school to-morrow at three o'clock.

Miss Aggie Flynn, who has been visiting her sister, Mrs. Joe White, of No. 24 Bolivar street, returned to her home in Fergus yesterday.

Norwood Register.—The Misses and Mr. Kennedy, of Peterborough, and Mr. and Mrs. John Taylor, of Otonabee, were guests of Mrs. Geo. Taylor on Sunday and Monday.

Port Hope Guide.—Mr. W. O. LaBelle, Peterborough, on his way to spend his vacation with his parents in Bowmanville, was the guest of Mr. and Mrs. Greenway, Barrett's Terrace, to-day.

Port Hope Times.—Mr. and Mrs. Wm. Mitchell, of Peterborough, were in town for a few days this week visiting friends. They left Tuesday for Toronto where they will remain for a short visit, after which they will take in the Pan-American at Buffalo.

Rev. C. J. Phelan arrived in town this morning to assume his duties in connection with the post to which he was recently appointed in St. Peter's Cathedral. His parishioners in Lindsay presented him last evening with a purse containing $200 in gold. The altar boys also made a suitable presentation.

Hon. G. W. Ross, Premier of Ontario, will sail from Liverpool on the 12th inst., reaching Buffalo on the 20th. He will be met in the latter city by a large number of prominent Liberals, who have arranged a reception for the Premier at his homecoming. The party will reach Toronto on the 21st.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drugstore.

The Port Hope Knitting Works are showing this week a very fine line of double knee, double heel and toe cashmere hose in all sizes, from 15c to 25c, in the largest sizes. This is a great line. Call and see them.

A Good Sign.

It is very satisfactory to be able to chronicle the fact that the educational facilities afforded by the Peterborough Business College are becoming better appreciated every season. Principal Pringle states that the September term is opening with an increasing attendance this year. Both day and evening classes are filling up more quickly than ever with good intelligent students. It is quite evident that our young men and young women are being impressed by the good work done at these schools, to take advantage of the benefits so well calculated to fit them for good positions.

Father Fitzpatrick's Picnic.

The public will learn with pleasure that although there was no picnic at Young's Point on Labour Day, yet this does not by any means signify that the annual event has been declared off. On the contrary Rev. Father Fitzpatrick announces that the big picnic will be held on Tuesday, September 17th, when a grand programme of sports will be presented, including a football match between Cobourg and Peterborough, an excursion being run from the former place. A number of prominent speakers will be present and deliver addresses. Dinner will be served on the grounds, and a first-class orchestra has been engaged to furnish music for dancing. As usual special rates will prevail on the trains and boats.

WHAT IS THE OBJECT?

The Review in its issue of last evening insinuates, what it dares not assert, in reference to Mr. Stratton's alleged connection with the Otonabee Power Company. It argues that because a couple of gentlemen in the employ of Mr. Stratton, both of whom have means of their own, saw fit to identify themselves with this company, Mr. Stratton must necessarily have a substantial interest in the concern. It would be just as reasonable to hold that if one of them purchases a house, Mr. Stratton must necessarily have a pecuniary interest in the property. Mr. Stratton has no financial or other interest in the company under consideration, and has no interest hidden under the name of either his accountant or business manager.

If Mr. Stratton had a substantial interest in the concern it would, from the standpoint of the citizens of Peterborough, be more to his credit than to his blame. Every citizen is interested, or should be interested, in promoting any enterprise looking to the development of facilities to increase the number of our manufacturing industries. It would be much more to the point for the Examiner to say that the stand of the Review in opposition to the best interests of Peterborough, is to protect the interests of a couple of private gentlemen, by maintaining power at a high price, and preventing the growth of the town, by inability to supply power, even if it were not held at an exorbitant price.

WILL VISIT ALGOMA.

Two Members of the Ontario Cabinet to Take a Trip West.

Hon. J. M. Gibson, Attorney-General, and Hon. J. R. Stratton, Provincial Secretary, leave Toronto on Thursday next for a brief visit to the Algomas. On Friday they will address a Liberal convention at the Sault; on Saturday they will visit Manitoulin Island, reaching Port Arthur and Fort William on Monday, where they will run over the new Rainy River Railway, visiting Rat Portage and Fort Francis before returning.

Peterborough Talent.

The Omemee Mirror, in referring to the recent concert held in connection with St. James' Church, Emily, says: A commodious tent was put up to accommodate about 400 people, and it was filled with a large audience to listen to a first-class entertainment. Mr. J. Halpany, dramatic entertainer, Peterborough, was the chief attraction, and his productions were indeed fine. Rev. W. L. Armitage, of All Saints' Church, Peterborough, had come with about twenty members of his choir to take part in the programme. Mr. Halpany is a host in himself and he entertained the audience in an excellent way. He had the attention of all, and enabled everyone to have many good laughs at the witty things he said and sang. Mr. Armitage gave several good readings and the choir gave choruses, trios and solos, which were all of a fine order. The concert was over by ten o'clock. The proceeds amounted to about $120.

DON'T DELAY.

Those wishing to join either the day or evening classes at the PETERBOROUGH BUSINESS COLLEGE should do so as soon as possible, in order that the best results may be obtained. For further particulars apply to

WM. PRINGLE Principal.

STATIONERY STORIETTE.

Just a little story we wish to tell you about our Stationery Department. It has ample light, plenty of space for the display and sale of goods, and loads of room for you to thoroughly enjoy a little chat with your friends as you look at prices or examine the dainty, pretty wares exposed for sale.

ENVELOPES.

Our Envelope Stock is made up of bright, fresh, attractive goods. Of course, low prices prevail here as well as in other departments, and goodness has not been sacrificed in order to produce a low price mark. Square envelopes in light and dark shades of cream. The standard grades we always keep in stock and have the writing paper to match them.

BLANK BOOKS.

Journals, ledgers, day, cash, counter, bill, letter, check, draft, receipt, order and inventory books, in leather, cloth and paper bindings. Strictly first-class goods in every respect, and yet they are price-reduced. Ask to see our lead pencils and penholders, in all colours and combinations of colours, at prices from 1c upwards

DON'T FORGET

That we always have in our stationery stock books of all kinds, games, pencil cases, ladies' and gentlemen's visiting cards, crepe paper, autograph albums, crayons, sealing wax, ink and pencil erasers, pen points, programme pencils, rubber bands, and many other things besides the articles we tell you about in this advertisement.

WRITING PAPER.

All the latest and choicest productions in fancy writing paper. Ask to see those daintily decorated boxes, filled with delicately tinted writing materials, shown in this store. We only carry the very best.

WRITING PADS.

Nearly a hundred styles of writing pads for you to select from. You can have the paper plain or ruled, with smooth, vellum or glazed finish, in cream or white. Linen business pads at prices you like to pay. We also keep a full line of Ink at prices lower than will be found elsewhere.

RICHARD HALL & SON DIRECT IMPORTERS. 130, 132, 134 SIMCOE STREET

PETERBOROUGH'S IMPERATIVE NEED.

Abundance of Power for Manufacturing Purposes.

IMMEDIATE ACTION IS DEMANDED.

The Duty of all Citizens to Co-operate to This End.

The Dominion Government Called Upon to Act—Our Parliamentary Representatives Appealed to—Every Citizen Urged to Co-operate.

Peterborough must be made a great manufacturing centre. Instead of a town of 12,000 inhabitants, it can be made a city of 20,000 people in a very short time by the exercise of enterprise and cooperation in taking advantage of the great facilities we possess. These facilities are unexcelled by any place that we know of in the Dominion of Canada, and if the town is to take its proper position in the great industrial community of this Dominion, steps must promptly be taken to utilize them to the fullest possible extent. And now, or never, is the time to act. A great wave of prosperity is sweeping over this country. Our almost unrivalled wealth of natural resources, and material advantages, is attracting the attention of capital and enterprise. Manufacturing expansion is more active than ever before in our history. Enterprise is seeking sites for establishments, and is quite indifferent as to where these sites may be, so long as they offer the most favourable conditions. There is a keen rivalry amongst the towns and cities of the Dominion to become the homes of the numerous manufacturing concerns seeking locations, and no sentimental — only straight business — considerations, will influence the choice of a location. The town or city that offers the best advantages will have the preference, and with proper management on the part of citizens and municipal authorities, will secure the "plum."

There is no question of the superiority of the natural advantages in this connection that Peterborough possesses, and can, under proper management, offer in tempting available form. Our transporatation facilities are uniquely excellent. We have two great railway lines entering the town from the east and west; we have, two railway lines reaching south and south-east, and two other railway lines opening up access and egress to and from the north-west and north-east. We have, besides, the great advantages of transportation by water represented by an almost completed canal system, putting us in touch with great natural and undeveloped resources to the northward, and giving access to the great lakes, north, south and west, directly, and, indirectly, with salt water to the east. Water is the cheapest transportation medium for bulky raw materials and finished products of a similar character. Then we have, if not the greatest, perhaps the most favourably situated and most easily available motive power of any town or city in Canada, capable of furnishing motive power to meet manufacturing requirements ten times as great as those needed by our existing industries. The splendid Otonabee River, with a fall of 160 feet from Lakefield to Little Lake, rushes past the town with an estimated average minimum flow of 60,000 cubic feet of water per minute, capable, according to the rule, of developing under a 12-foot head, one thousand horse power. And only a very small proportion of this tremendous energy is at present employed. The four dams — we are speaking now of the dams controlled by the Government — are capable of being made to develop, at the present average flow of the river, about 6,000 horse-power, and this capacity can be very greatly increased by a proper and complete system of water conservation at their northern sources of supply.

What this means as a factor in manufacturing operations can only be realized by comparison. Take five or six of our principal manufacturing concerns, including the Cereal Company, and they use, it is estimated between 4,000 and 4,500 horse-power; therefore, at the dams mentioned we have the raw material for electrical energy sufficient to supply motive power to eight or ten similar establishments. Let anyone think of our present large manufactories being doubled—the number of workmen employed doubled — the carrying trade of our railways and cartage facilities doubled; the trade of our merchants and business men immensely increased, and all the advantages of the presence of our existing large and profitable manufacturing concerns greatly enhanced —and it can be seen what great things are in reach of Peterborough, with only a partial development of the potentialities of motive energy we possess.

This motive power must be developed, and it is to the material interest of every business man, of every real estate owner, and in fact of every ratepayer and citizen of every class, that this development should take place. The power is there; it only remains to take the steps to make it available for manufacturing purposes, and if this is done to only a partial degree these resources are capable of, Peterborough will have inducements to offer that will speedily attract industries, which will operate in transforming us into a city of 20,000 inhabitants. We must have that cheap power to offer, and that without delay. In this regard delays are dangerous. We have lost already by the fact of manufacturing establishments going to Hamilton, and other places, that might have been secured for Peterborough, if we had had the inducements which the development of our motive power would have enabled us to offer. These industries have gone to other places because they were able to get power. The obtaining of good and sufficient power at a reasonable rate was the chief magnet that attracted that great industrial concern, the Cereal Company, to Peterborough. The authorities and the people acted promptly and generously in securing this industry, and it is their duty to show a similar and even more aggressively progressive spirit now. If we have abundance of power to offer at a low rate, we can easily secure new manufacturies. Already about 600 horse-power of the 6,000, that can be developed at the four dams, is needed by new industries, that will be soon in operation in Peterborough if they can get power. The Cordage Company needs, when in full operation, 350 horse-power, the Milling Company 75, and the Shovel Company 60, and another milling industry projected and already on the way, 120 horse-power. Unless motive power can be got at a reasonable cost, these industries cannot be successfully established in Peterborough. And it is understood that other important concerns are negotiating and all that is needed to close negotiations is available motive power at a cheap rate.

For years the popular cry has been what great things could be done if only our great water power could be made available at a cheap rate. Now we have the opportunity, and we must make use of it. The construction of the Lakefield section of the Trent Valley Canal has provided splendid facilities that did not before exist, for developing electrical energy for motive purposes. The people have now to deal with the Dominion Government, which is in effect the people themselves in another form—the Government exists only to serve the best interests of the people. The representatives of this county in the Dominion Parliament, who are under solemn obligations to serve and protect the public interests must see that there is no obstruction placed by the Government in the way of securing cheap power, through the medium of the dams they control. It is the duty of our representatives to give the Government to understand, that they must not permit any influence or considerations of personal or corporate interests to become paramount to the interests of the people of Peterborough and Ashburnham, the people of East and West Peterborough. It is the duty of our representatives to impress upon the Government the fact that there is nothing the Government could do at this juncture more hostile to the interests, or more repugnant to the sentiments, of the people of this district than to hold up the water power privileges on the Otonabee at an exorbitant rate — nothing more calculated to reduce the employment of labour, the expansion of industry, and to injuriously affect the prosperity of this town and district, no unimportant item in the national prosperity, which we honestly believe the Government is earnestly endeavouring to promote.

For half a century the people of Peterborough have been talking of the great things that could be done with our magnificent water power. But practically nothing has been done in this direction, till recently, in regard to water powers on the Otonabee River. Private interests were exclusively served in their management, and no surplus power, such as we need to offer as inducements to manufacturing concerns, has been provided to any extent, and the town has been the loser. When the Port Dalhousie Rubber Company was anxious to come to Peterborough, there was no power to be obtained on conditions and at a rate to justify the removal of the establishment to Peterborough. When gentlemen connected with two large establishments, now in Hamilton, were looking for power to enable them to locate in Peterborough, there was none available for immediate use, and what was offered for development was, from a business point of view, prohibitively exorbitant in price. These two concerns are in Hamilton now, employing a thousand hands, and operating a million dollars of capital. During the past year the Peterborough Cereal Company has undertaken to develop the Dickson Company power for its own use. The Canadian General Electric Company has arranged with the Government, and is developing power at the Nassau dam for its own use. The Lakefield Cement Company is developing its own power at Young's Point. The Otonabee Power Company desire to develop power at No. 5 dam, to supply manufacturing concerns locating in Peterborough, which will not locate here, unless power can be got at a reasonable figure. In the success of this company, as a forerunner of other possible companies to be organized to develop additional power at other dams, every citizen is interested, in seeing that the capital is forthcoming, and the conditions made favourable to the development of every power on the river. The Government should not block such an enterprise, and the resultant prosperity from cheap power, by imposing severe restrictions. It makes no difference to the Examiner who develops these powers, so long as they are developed —that is the main point for the town and the citizens. If the Review, and its political friends, wish to go on and develop power at No. 4 dam, they are at perfect liberty to do so, and the Examiner and all good citizens will wish them the greatest success, but the Examiner will not uphold the action of the Government in any policy that will retard the progress of the town by tying up power to speculative applicants, but it will insist that the town gets fair play and just treatment.

It is not alone a matter of the Otonabee Power Company. There are as many Conservatives as Liberals identified with this company in developing the power needed to offer manufacturers, and if the Review and its friends think it is a good investment, which from its necessity it should be, the stock books of the company are open to them to take stock.

The development of our water powers is a vital question to everybody. Ever ratepayer in the town is interested, every farmer in the county is interested; the more people there are in the town the better the market for the products of their farms. Every ratepayer is interested in the increase of the value of his property. Every workingman is interested, for increased manufacturing establishments will improve the opportunities of obtaining profitable employment, and the Examiner will not regard with favour, or in silence, the action of any Government which may place obstacles in the way of reaching the desired end, and will not endorse any parliamentary representative who will not use his best efforts in the public interests to see that these powers are not tied up in the hands of speculators and monopolists. The people want free competition, and they must have it.

It may be claimed that vested rights will be affected by the development of cheap power to offer to manufacturers. This consideration does not count. Electrical energy is the power of the present, the best adapted for manufacturing purposes in towns and cities from its facility of transmission, and it has affected vested interests as was inevitable. The law of progress cannot yield to vested interests. As well might the William Hamilton Company complain that the chartering of an electrical power company is prejudicial to its vested interests in the manufacture of steam engines as for other corporations to complain that cheaper electrical power will affect them, even though it has no surplus power to dispose of, and, even though there is an understanding that neither is to take action, that will be prejudicial to the other by furnishing cheaper power or light to the citizens. We must not have progress in the interests of the people blocked in any way.

In regard to the Otonabee Power Company there is need for the Government to promptly come to a decision as to whether it is to adopt a policy of facilitating or hindering the first steps in the development of the water power on the Otonabee River. A year has nearly passed since application was made for water at No. 5 dam, and it seems to be high time that a decision was arrived at so that the people of this town and district can see where the Government stands; whether its policy is to promote progress or the reverse. For the enterprise in question is the first step in making our water powers available for manufacturing purposes at a cheap rate. Action must not be delayed, building operations in development work cannot be carried on to advantage in severe weather, and if power is not soon available important industries now ready to settle here, and waiting only for power, will be forced to go elsewhere or be abandoned, to the great loss of every interest of the town. Every influence should be brought to bear to induce the Government to come to a prompt decision, and it might be asked, what is the town council doing? What is the Board of Trade doing? What is the representative for West Peterborough doing? Is he working to advance the public welfare or to promote his private and personal interests?

What is the use of politicians talking at election times of the benefits of manufactories in giving employment to workingmen, if at the first opportunity that presents, private and corporation interests are prominently urged to prevent the development and supply of cheap power, which is what we urgently need in this town at the present time? What is the use of the people longing for manufactories if they will not solidly unite, as it is hoped they will do, to secure cheap power, the first step in securing new manufactories?

If Peterborough is to have new manufactories, Peterborough, must, in addition to its other advantages, have cheap power to offer; and it is the duty, in his own interest, of every business man, every owner of real estate, and of every citizen who has any concern in the promotion of the prosperity of the town, to see that the power in question is developed, and at a rate cheap enough to offer inducements that will influence manufacturing concerns to take advantage of such offers. This should be done irrespective altogether of party considerations. There is no question of party. Any person can enter upon the organization of a power development company, and any person who desires can take stock, the more the better. The chief point to be had in mind is that the development of cheap power is in the interests of the prosperity of the town. The interests of the people at large must be the first consideration.

DEMISE OF MISS DEVLIN.

It Occurred at St. Joseph's Hospital Yesterday Morning.

Much sympathy is being extended to Mr. and Mrs. Roger Devlin, of Otonabee, in the death of their youngest daughter, Miss Mary Anna, which occurred at St. Joseph's Hospital yesterday morning.

Miss Devlin's untimely demise was due to appendicitis. She was taken to St. Joseph's Hospital, where an operation was performed on Thursday evening. This proved successful, but weakness of the heart led to the result least expected. Death in this instance removes one whose life was pure and highly exemplary, and of great worth in those circles in which she moved. Her demise will be sincerely regretted, and much sympathy will go out to the bereaved parents and family. Miss Devlin was 24 years of age.

The funeral will take place on Sunday afternoon, from the family residence, lot 28, con. 7, Otonabee, to St. Joseph's church, Douro, and from thence to St. Joseph's cemetery.

NEW HATS

We have just opened up a fine stock of New Hats, in the very latest styles, for fall wear.

BRING IN YOUR FURS

Now for Repairing, as the earlier the better.

Wm. Lech & Sons 413 George Street.

The Alert Raised.

Captain W. H. White, of the Steamer Alert was in town to-day. He says that the Alert will be ready for business again on Tuesday. The accident to the steamer is to be regretted, the captain said, but it was purely an accident. The boat was raised last Wednesday and towed to Lakefield, and is undergoing the necessary repairs in the canal drydock at that place. The Alert has discontinued her regular trips, but has plenty of work ahead of her.

Mental and physical vigour follow the use of Miller's Compound Iron Pills. Sold by W. Madill.

THE STORE THAT NEVER DISAPPOINTS

DRESS GOODS NEWS

Not too early to be deciding on what's to be worn. Plain cloth effects are undoubtedly in first for fall costumes. These comprise

Broad Cloths, Amazons, Satin Cloths, Venetians, Coverts, Popline, and Fine Twills,

while Cheviots, Freizes and Camel Hair effects will be decidedly popular. The trimmings for the fall costumes are very elaborate and catchy in designs and colourings. We are justly enthusiastic over our exceptional showing of New Dress Fabrics and accessories.

Our Dressmaking Department

In charge of Miss Hancock, of Toronto, is at your service.

BLOOD POISON

If you ever contracted any blood disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore Throat, Ulcers on the Tongue or in the Mouth, Hair Falling Out, Aching Pains, Itchiness of the Skin, Sores or Blotches on the Body, Eyes Red and Smart, Dyspeptic Stomach, Sexual Weakness—indications of the second stage. Don't trust to luck. Don't ruin your system with the old fogy treatment, —mercury and potash—which only suppresses the symptoms for a time, only to break out again, when happy in domestic life. Don't let quacks experiment on you. Our New Method Treatment is guaranteed to cure you. Our guarantees are backed by bank bonds, that the disease will never return. Thousands of patients have been already cured by our New Method Treatment for over twenty years. No experiment, no risk—not a "patch-up," but a positive cure. The worst cases solicited. We treat and cure Nervous Debility, Sexual Weakness, Gleet, Blood Poison, Stricture, Varicocele, Kidney and Bladder Diseases, and all diseases peculiar to men and women.

CURES GUARANTEED.

Consultation Free. Books Free. If unable to call, write for question blank for home treatment.

FACTS ABOUT WHEAT

WHAT THE GRAIN IS MADE OF AND THE VALUE OF ITS ELEMENTS.

According to Prof. Albert Vilcoq, the Noted French Authority on Hygiene and Agriculture, It Has Four Distinct Parts, the Value of Each Varying as Human Food.

During the last few years there has been a lively discussion in various countries as to the best manner of making bread, and to this discussion Professor Albert Vilcoq, a noted French authority on hygiene and agriculture, now makes a contribution in the form of an article which shows what wheat or corn is made of and the exact value of each of its elements.

After pointing out that ideal bread can only be made by condensing in flour all the nutritious elements of wheat which can be readily assimilated, he says: "A grain of wheat has four distinct parts, an envelope or sheath, a digestive layer, an embryo and albumen. The envelope, being composed almost wholly of cellulose, is of no value as food for human beings, since the intestinal organs lack the means of assimilating it. A knowledge of this fact shows how useless are the attempts which have been recently made to produce a perfect bread from whole wheat.

"Under the envelope is the digestive layer, which is composed of large transparent cells and much fatty matter that is useful in a way, but is deleterious so far as the absolute purity of the flour is concerned. The albumen, which is in the centre of the grain, is also formed of cells, in which there is an abundance.

"This portion of the grain is nutritious, and, furthermore, it is entirely free from noxious germs. It, too, consists of cells, and, like the digestive layer, it contains much nutritious matter, but, on the other hand, it decays so quickly that it is practically of no value in flour.

"In wheat properly ground the rich cells in the centre of the albumen are extracted, and thus is obtained flour of a snowy whiteness and entirely free from foreign fermentations."

In the accompanying picture the envelope of the grain is shown, the cells of the envelope, the digestive layer, the albumen and the embryo.

PARTS OF WHEAT GRAIN.

Englishmen of Note.

Viscount Mountmorres is a bona fide English nobleman who works hard for a living. Born very poor—he poorest in the kingdom, indeed—he has worked at several trades and was once a newsboy.

Gen. French has proved to be the most successful of all the English division commanders in South Africa, for he not only has made no mistakes, but has done effective work from the very beginning of his campaign in the Eastern Transvaal.

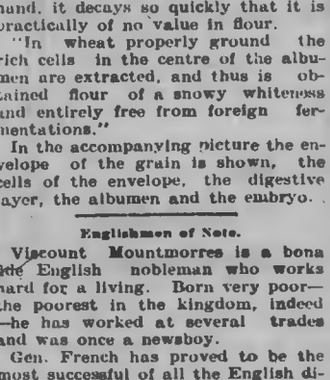
Recently, on his ninety-first birthday, Rev. John Spurgeon, father of the famous Charles Spurgeon, preacher, laid the foundation stone of the South Norwood Baptist Church in England. He is a Congregationalist and probably is the oldest living minister of that denomination.

John Morley rarely "takes his walks abroad" without one or more of his pet dogs, to which he is devotedly attached. In his old journalistic days his favorite dog always accompanied him to his office, waiting patiently for him until the day's work was over and it was time for the homeward journey.

To Fool Sharpest Human Eyes.

Here is a new and interesting optical illusion. It takes the form of a cross.

You would think to look at it that



it was longer than it was broad. As a matter of fact the horizontal measurement along the dotted line is about one-sixth longer than the vertical dotted line.

A Medicine 300 Years Old.

Our readers will probably be surprised to learn that for nearly 300 years cod liver oil has been used as a medicine. During the past twenty five years nearly all the cod liver oil brought to this country from Norway has been used in the form of Scott's Emulsion. It is by all means the most pleasant preparation of cod liver oil you can buy.

If addicted to drink you happen to be, (We mean to the drinking of poor kinds of tea,)
A cure that is lasting and cheap you will find.

GRANT'S RETREAT.

The General Went When a Policeman's Club Pointed the Way.

Speaking of nightsticks reminds me of seeing General Grant in his to my mind greatest hour, the only time he was ever beaten, and by a policeman. I told his son, Fred Grant, of it when he became a police commissioner in the nineties, but I do not think he appreciated it. He was not cast in his great father's mold. The occasion I refer to was after the general's second term in the presidency. He was staying at the Fifth Avenue hotel, when one morning the Masonic temple was burned. The fire line was drawn half way down the block toward Fifth avenue, but the police were much hampered by the crowd and were out of patience when I, standing by, saw a man in a great ulster with head buried deep in the collar, a cigar sticking straight out, coming down the street from the hotel. I recognized him at sight as General Grant. The policeman who blocked his way did not. He grabbed him by the collar, swung him about and, hitting him a resounding whack across the back with his club, yelled out:

"What's the matter with you? Don't you see the fire lines? Chase yourself out of here and be quick about it."

The general never said a word. He did not stop to argue the matter. He had run up against a sentinel and when stopped went the other way. That was all. The man had a right to be there; he had none. I was never so much an admirer of Grant as since that day. It was true greatness. A smaller man would have made a row, stood upon his dignity and demanded the punishment of the policeman. As for him, there was probably never so badly frightened a policeman when I told him whom he had clubbed. I will warant he did not sleep for a week, fearing all kinds of things. No need of it. Grant probably never gave him a thought.

Complicated Ailments.

A Remarkable Case of Kidney and Liver Disorders and Extreme Nervousness Cured by the Combined Use of Dr. Chase's Kidney-Liver Pills and Nerve Food.

The strongest combination in medicines that one can well imagine is the use of Dr. Chase's Kidney-Liver Pills and Nerve Food. The kidney-liver pills regulate and invigorate the liver, kidneys and bowels, while the Nerve Food enriches the blood and thoroughly builds up the system.

Mr. Walter Booth, Consecon, Prince Edward County, Ont., states:—"I was troubled for some years with kidney and liver disease, and pains in my back, and my stomach was so bad I could not eat hearty food, and had difficulty in keeping any food on my stomach. I was so nervous that I could scarcely take a drink of water without spilling much of it, my hand trembled so, and I lost flesh until my weight fell from 155 to 138 pounds.

"Hearing of a similar case that was cured by Dr. Chase's Remedies, I commenced by taking Dr. Chase's Kidney-Pills, six boxes of which entirely cured my kidney and liver troubles. I then began Dr. Chase's Nerve Food for my nervousness. It strengthened my stomach and whole system, and I gained in flesh. I cannot speak in terms of too great praise for Dr. Chase's Kidney-Liver Pills and Nerve Food, for besides curing me, they did my father, who is an old man, a great deal of good. I have every confidence in recommending these remedies."

Mr. J. J. Ward, J.P., certifies that he knows Mr. Walter Booth, and that this statement of his cure is perfectly correct.

As a spring restorative Dr. Chase's Nerve Food is unrivalled. If the bowels are constipated and the kidneys and liver sluggish and inactive, Dr. Chase's Kidney-Liver Pills can be used to advantage, along with the Nerve Food. All dealers, or Edmanson, Bates & Co., Toronto.

Entomologically.

The lightning bug is meaner than
The meanest specimen of man.
While he has wings and flies around,
His spouse, the glowworm, crawls the ground.

Of Much More Practical Use.

Goodly—What is grander than a man you can trust?

Cynicus—One that will trust you.

NOTED ARCTIC EXPLORER.

Career of Baron Nordenskjold, Discoverer of the Northeast Passage—Another of the Family.

The late Baron Nordenskjold, arctic explorer and naturalist, was not the only member of his family who devoted his life to exploration, and it is a coincidence that at the present time his nephew, Dr. Otto Nordenskjold of Upsala University, is preparing for an expedition to the antarctic regions, which may have as important results as the journeys of the elder discoverer. Baron Nordenskjold took the greatest interest in this expedition, which is to sail south from Tierra del Fuego next January, the time of the antarctic summer. Some years have been engaged in planning it. The vessel to be used was formerly employed by Professor Nathorst, Baron Nordenskjold's associate, in his search for Andree.

Adolf Erik Nordenskjold was not by birth a Swede. He was born in Finland in 1832 and was, until 28 years of age, a subject of the Czar. When 13 years old he was sent to a scientific school at Berg, where he was instructed especially in physics. In 1851 he entered the university, where he devoted himself to the study of chemistry, mineralogy and geology.

Nordenskjold accompanied a scientific party to Spitzbergen in 1858. After having been appointed a professor in the Royal Museum of Stockholm he again went to Spitzbergen in 1861, 1864 and 1868. In the last named year he penetrated to 82 degrees 41 seconds north. He visited Greenland in 1870, and in 1875 he headed an expedition to the Kara Sea.

In the following year, after a flying visit to this country, Nordenskjold began to prepare for his successful attempt to accomplish the northeast passage. The King of Sweden was among those who promised their aid for the project, and in July, 1878, the explorer started on his famous voyage in the Vega. The vessel wintered near Behring Strait and was free of ice in July, 1879, reaching Japan on September 2 of that year. On his return to Europe Nordenskjold was enthusiastically welcomed. Honors were showered upon him. He was created a Baron in April, 1880, and appointed a commander of the Nordstjerne order (Order of the North Star) in the same year.

In 1883 Nordenskjold made his second voyage to Greenland, and succeeded in penetrating with a ship through the dangerous ice barrier along the east coast of that country south of the polar circle, a feat in vain attempted during 300 years by various arctic expeditions.

Why Catarrhozone Cures Catarrh.

Because it is carried by the air you breathe to diseased parts, because it destroys the germ life that maintains the diseased condition, because it powerfully stimulates the mucous membrane to its normal action, because through its oxydizing power it burns up rapidly the old tissue and stimulates the formation of new healthy tissue. Catarrhozone is an absolute specific for catarrh in every form and never fails to cure. Catarrhozone is the only remedy sold with a guarantee. At all dealers. 25c and $1.

Apple Pie Order.

To feel in apple pie order is a phrase which dates back to Puritan times—to a certain Hepzibah Merton. It seems that every Saturday she was accustomed to bake two or three dozen apple pies, which were to last her family through the coming week. These she placed carefully on her pantry shelves, labeled for each day of the week, so that Tuesday's pies might not be confused with Thursday's nor those presumably large or intended for washing and sweeping days eaten when household labors were lighter. Aunt Hepsibah's "apple pie order" was known throughout the entire settlement and originated the well known saying.

A Financial Discussion

Chronic Borrower—Can you lend me $20 for a few days?

Weary Friend—Why don't you pawn your watch?

"Because it is a keepsake from my dear mother, and I don't like to part with it."

"My money is a keepsake from my dear father, and I don't like to part with it, either."

For cuts, wounds, rheumatism, stiff joints, burns, scalds, bites of insects, croup, coughs, colds, Hagyard's Yellow Oil will be found an excellent remedy.

Dysentery Cured

The danger of an attack of dysentery lies in the attending extreme weakness and possible bowel inflammations. You may regard the ailment as trifling; the many fatal cases do not bear you out.

The following statement is one of the many evidences of the healing value of Powley's Liquified Ozone. It is given by John Friers, Postman, residing at 27 Manning Avenue, Toronto:

Toronto, July 11th, 1901.

THE OZONE CO.,

Gentlemen,—A year ago I suffered a great deal from dysentery. I not only found it inconvenient, but it caused me to lose a lot of time. For some days I would be too weak to make my trips. My stomach would go back on me in the hot weather, and I would have terrible headaches.

Last spring I started taking Ozone, and I have not been troubled at all in the same manner. I have not lost a day through illness, and have been cured of the dysentery.

I desire to put myself on record as a firm believer in Ozone. It has helped me a very great deal. Yours very truly,

JOHN FRIERS, 27 Manning Ave.

Powley's Liquified Ozone stops the inflammation of the bowels and restores the normal tone of the intestinal tract in a surprisingly short time. It prevents food fermentation in the stomach by making digestion thorough. If you keep it in your drinking water, you will prevent or cure summer disorders.

Consult our physician about your case. Write full details and you will get a specialist's advice free. Your letters are absolutely confidential. Address the Consulting Department, The Liquid Ozone Co., 239 Kinzie St., Chicago, U.S.A.

GENIUS AND INSANITY

THE CLAIM THAT THE FORMER IS A VARIETY OF THE LATTER.

Lombroso Maintains That Genius Is a Species of Madness and a Product of Degeneration—Peculiarities of Some Master Minds.

Cesare Lombroso in his book, "The Man of Genius," maintains the thesis that genius is a variety of insanity and a product of degeneration. Lombroso himself appreciates the natural shrinking of the mind from such a conclusion, and he makes this reply to those who object to his theory on sentimental grounds:

"But our nature, it is customary to say, revolts against a conception which tends to lower the most sublime manifestation of humanity to the level of the sorrowfully degenerate, to idiocy and insanity. It is sad, I do not deny, but has not nature caused to grow from similar germs, and on the same clod of earth the nettle and the jasmine, the aconite and the rose?"

Degeneration as described by Lombroso has many signs. Among these is extraordinary shortness of stature or smallness of body. He enumerates a long l. of men of great genius who have been famous for shortness of stature.

"Forgetfulness is another of the characters of genius. It is said that Newton once rammed his niece's finger into his pipe; when he left his room to seek for anything he usually returned without bringing it.

"Rouelle when performing an experiment during a lecture said to his hearers:

"'You see, gentlemen, this caldron over the flame? Well, if I were to leave off stirring it an explosion would at once occur which would make us all jump.' While saying these words he did not fail to forget to stir and the prediction was accomplished; the explosion took place with a fearful noise: the laboratory windows were all smashed, and the audience fled to the garden.

"Sir Everard Home relates that he once suddenly lost his memory for half an hour, and was unable to recognise the house and the street in which he lived; he could not recall the name of the street and seemed to hear it for the first time.

"It is told of Ampere that when traveling on horseback in the country he became absorbed in a problem; then, dismounting, began to lead his horse and finally lost it, but he did not discover his misadventure until, on arrival, it attracted the attention of his friends.

"Babinet hired a country house and, after making the payments, returned to town; then he found that he had entirely forgotten both the name of the place and from what station he had started.

"One day Buffon, lost in thought, ascended a tower and slid down by the ropes, unconscious of what he was doing, like a somnambulist. Mozart, in carving meat, so often cut his fingers, accustomed only to the piano, that he had to give up this duty to other persons. Of Bishop Munster it is said that, seeing at the door of his own antechamber the notice, 'The master of the house is out,' he remained there awaiting his own return.

"The tendency to melancholy is common to the majority of thinkers, and depends on their hypersesthesia. It is proverbially said that to feel sorrow more than other men constitutes the crown of thorns of genius.

"Among men of genius we often find the phenomena which characterize that disorder termed by alienists folie du doute, one of the varieties of melancholia. In this form of insanity the subject has every appearance of mental health: he reasons, writes and speaks like other people: everything goes well until he has to execute a definite action, and in this he finds all sorts of imaginary dangers.

"When Johnson walked along the streets of London, he was compelled to touch every post he passed. If he omitted one, he had to return. He always went in or out of a door or passage in such a way that either his right or his left foot (Boswell was not certain which) should be the first to cross the threshold. When he made any mistake in the movement, he would return and, having satisfactorily performed the feat, rejoin his companions with the air of a man who had got something off his mind.

"Napoleon I could not pass through a street even at the head of his army without counting and adding up the rows of windows. Manzoni, in a letter addressed to Giorgio Briano which has become famous, declared that he was incapable of giving himself up to politics because he did not know how to decide on anything. He was always in a state of uncertainty before every resolution, even the most trifling. He was afraid of drowning in the smallest puddle and could never resolve to go out alone.

"Newton, of whom it was truly said that his mind conquered the human race, was in old age afflicted by mental disorder, though of a less serious character than that of Swift."

It is very interesting to see Lombroso's classification of great men into "insane men of genius" and "sane men of genius." Under the head of insane and partially insane geniuses are included the poet Tasso, Cardan, the great mathematician; Socrates, Rousseau, Dean Swift, Mohammed, Charles VII, Giordano Bruno, Sir Isaac Newton (at least in his later years), Edgar Allan Poe, Walt Whitman, Napoleon, Comte, the philosopher; Schopenhauer, Coleridge, Savonarola, Luther, Dante, Julius Cæsar, Frederick the Great—in fact, the majority of the names most conspicuous in history.

In many cases Lombroso regards as indication of insanity peculiarities and eccentricities which most people consider to be only oddities of character, having no relation to insanity.

Under the head of sane geniuses Lombroso finds but few, among those he mentions being, however, some very great names, as, for instance, Galilei, Leonardo da Vin., Voltaire, Machiavelli, Michael Angelo and Darwin. Apparently he also counts Shakespeare as a sane genius.

Javelle Water.

Wherever water is used in preparing, bleaches it should be soft. The alkali in hard water affects all chemical substances. Javelle water is a standard preparation for bleaching white things and removing spots and stains, but it must not touch colored surfaces. To make it, dissolve half a pound of washing soda in a pint of boiling water and mix it with a quarter pound of chloride of lime dissolved in a quart of boiling water. Stir well, let settle, pour off the clear liquid and keep closely corked in a dark place.

Lumbago

is Rheumatism of the back. The cause is Uric Acid in the blood. If the kidneys did their work there would be no Uric Acid and no Lumbago. Make the kidneys do their work. The sure, positive and only cure for Lumbago is

Wood's Phosphodine is sold in Peterborough by all responsible druggists.

Tumor Cured.

"By their fruits ye shall know them." The way to judge of the value of any medicine is by its cures. Apply that test to Dr. Pierce's Favorite Prescription and it is at once lifted high above all other put-up medicines designed for the cure of womanly diseases. Chronic forms of disease which local physicians have failed to cure, and which have yielded to no other treatment, have been perfectly and permanently cured by the use of Dr. Pierce's Favorite Prescription. It establishes monthly regularity. It dries debilitating drains. It heals inflammation and ulceration and cures female weakness.

Mrs. Shopshire, of Ballou, Shelby Co., Ohio, writes: "My mother had an ovarian tumor which we thought would result in her death, but we had read your advertisements and we commenced using your 'Favorite Prescription.' We got one dozen bottles to commence with, and before she had taken three bottles she began to improve; she is living to-day and we have given your medicine the credit. My mother was sixty-six years old when the tumor commenced to grow; she is seventy-six now and the tumor is all gone. She had gotten awfully large, and her limbs began to swell before we began to use your 'Favorite Prescription.'"

Dr. Pierce's Pleasant Pellets cure biliousness.

If you

FLOWERS GIVE LIGHT.

The Honor of Discovering Flowers That Emit Light Belongs to a Woman —Some of the Varieties.

To a woman belongs the honor of having first discovered flowers that emit light. This woman was the daughter of Linnæus, the celebrated Swedish naturalist. One evening when the aged man and his daughter were walking in their gardens, she called his attention to some nasturtiums glowing with a faint phosphorescent light. They removed these to a perfectly dark room and there viewed the ghostly illuminated flowers for hours, trying to solve the mystery.

Since that time a number of different flowers have been found to give forth a light, among them being the corolla of the common sunflower;

FLOWERS THAT GIVE LIGHT.

also a species of tagetes, called by the French botanists the "rose d'Inde," and the large and beautiful compound called in this country the dahlia.

Luminous nasturtiums have been frequently observed. One observer writes: "I observed one evening a number of persons bending over an iron pot full of nasturtiums. Curious to know what the attraction was, I fell into line until it became my turn to inspect the flowers at closer range.

"I was surprised to see a flash of light dart repeatedly from the yellow petals. The next day I photographed it.

"A strange fact regarding the phosphorescent light emitted by certain flowers, it has been observed, is that those in which the yellow and orange predominate exhibit the greatest amount of light. One naturalist pronounces the light of electrical origin, declaring that when the pollen bursts electricity is produced, and light follows."

Coffee Trees at Buffalo.

Twelve full-grown coffee trees have been imported from Coatapec, Mexico, for exhibition at the Pan-American show at Buffalo. They average about six feet in height, and are considered fine specimens. The leaves resemble greatly those of a peach tree, and here and there green oblong coffee berries varying from one to three-quarters of an inch in length grow in clusters on the branches about midway between the trunk and the end of the limb. When ripe these berries turn to a dull red, and the bean inside is then ready to be cured. Coffee trees begin to bear in the third season, and remain fruited for about six years.

A Valuable Art Find.

During excavations near Lampsaki, on the Dardanelles, a beautiful vase was found. It is made of burnt clay, encrusted on the exterior with gold. It has three golden handles and splendid reliefs representing hunting scenes. The date of the vase, which contained human ashes, bones and pearls, is estimated at about B. C. 400.

HAD NEVER BEEN ABROAD.

But For All That He Had Traveled "Far and Wide."

"Have you spent all of your life right here in this one place?" asked a stranger of an old fellow he came across seated on a rail fence whittling in front of a log and slab cabin in one of the back counties of Arkansas.

"Not by a darned sight!" was the terse reply. "I been hyar the better part o' the time; but, la, I hev traveled fur an wide!"

"Ever been abroad?"

"Well, not eggsackly to say abroad, onless you call it goin abroad to go from here way over to Petersville. I been over thar twice in the last 40 year. It's 36½ miles to Petersville, an I been further than that, fur my ole woman an me went clean to Hogback ridge on our weddin tower, an that's 41 mile from here. Then I been over in Pettis county to see my wife's folks twice, an that's twenty odd mile from here. Then I been over to Rocky Hill es menny es four times, an that's 18 mile. Es I say, I been here most o' the time, but then I've traveled fur an wide all the same. I've seen the big four story mill over to Petersville an the engine kyars over to Peaville. I rid three miles on 'em, an it's all I want o' the peaky things. I've seen a calf with two heads an a feller that could eat fire and dance on broken glass in his bare feet. I see a man hung once an a hoss race fur a purse o' $65. Yes, sir; I been fur an wide, an I reckon I've seen the biggest part o' what there is to see in this world, an I don't lot on doin no more gaddin about."

What Causes Pain?

Most pains and aches come from excess of uric acid poisons in the blood, due to deranged kidneys, rheumatism, back ache, lumbago, pains in the sides, and limbs, accompanied by bladder and urinary troubles, are warnings too serious and painful to be neglected. Dr. Chase's Kidney-Liver Pills act directly and specifically on the Kidneys, make them active, vigorous and thoroughly cure these ailments. One 25 cent box of this great Kidney medicine will do you a world of good.

Fruits That Have No Seeds.

Among the fruits that have no seeds we mention the banana, pineapple and naval orange. These all once produced seeds, but the habit of seed producing has been eliminated by long periods of selection and cultivation. The time will come when some of the fruits we now raise will be model in this respect. This is a very important factor in the development of small fruits, where the seeds will doubtless become smaller and smaller with a larger proportion of pulp.

A Wise Negro Leader.

Booker T. Washington, having in mind the evils which result from the burial associations which flourish among the negroes of the south, says that the leaders of that people "must teach that one bathtub is worth ten coffins."

The Doctor's Story

When the matter of Foods for Infants and Invalids came up for consideration,

Sir Chas. A. Cameron, C.B., M.D.

Ex-President of the Royal College of Surgeons, Ireland, pronounced

NEAVE'S FOOD

"An excellent Food, admirably adapted to the wants of infants and young persons."

Mrs A. EVANS, of The Hollies, Withington, near Manchester, writes: "Gentlemen,—I am sending photo of my little girl, age two years, brought up entirely on Neave's Food, and a more healthy child could not be found. There is no doubt it is excellent Food, and so easily prepared. Many of my friends have asked me what I give them, and when told Neave's Food, have tried it, and in every instance found it satisfactory.

The Agony of Sleeplessness.

Did you ever pass a single night in wakeful misery, tossing and rolling in bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding night growing worse and worse? This is the most dreadful symptom of Nervous Exhaustion and Debility. You can be gradually and thoroughly cured of Sleeplessness by the upbuilding influence of Dr. Chase's Nerve Food. It cures in nature's way, by creating new nerve cells and restoring lost vitality.

SPORTING PASTIMES.

TOWNS IS CHAMPION.

George Towns, the Australian, who is champion oarsman of England, succeeded in winning the championship of the world from Jake Gaudaur, at Rat Portgage, this morning. Gaudaur's last championship race was with Stansbury, on the Thames, England. He is 46 years of age. Towns won by five lengths.

BOWLING.

Dr. Boucher, President of the Peterborough Bowling Club, received a letter to-day from Mr. W. H. Biggar of Belleville, stating that he would bring a couple of rinks up to Peterborough in the near future.

RUGBY.

The initial practice of the Peterborough Rugby Club will be held on the P.A.A.A. grounds this afternoon at 4.30 o'clock.

The secretary of the local club has received a couple of new Rugby balls from H. A. Wilson.

A meeting of the Executive of the O.R.F.U. will be held in the Rossin House, Toronto, on Wednesday, Sept. 11th, at 7.30 o'clock, p.m., for the purpose of drawing up the schedule for the coming season.

RUNNING.

Entries for the hundred yard foot race for the Schneider Cup will be received by Mr. W. Salisbury.

AN ASPHODEL WEDDING.

Nuptials of Miss May Thistlethwaite and Mr. Geo. Richardson.

A very pretty wedding was celebrated on Wednesday evening last, at the residence of Mr. Wm. Thistlethwaite, of Asphodel, when his eldest daughter, Miss May B., was married, by the Rev. Mr. Taylor, of Norwood, to Mr. Geo. Richardson, of Asphodel.

The bride came in leaning on the arm of her father, and looked charming in a dress of cream cashmere trimmed with white silk. She carried a large bouquet of white asters.

The bride was attended by her sister, Miss Jennie Thistlethwaite, who wore a dress of white dimity, trimmed with lace and insertion. The bride's two little sisters, Misses Annie and Daisy, were maids of honor. Mr. John Stewart assisted the groom.

The ceremony was performed in the presence of a large number of guests, and after the usual congratulations, a splendid wedding supper was served. The bride was the recipient of many beautiful and costly presents.

The young couple left the following morning for Toronto and Buffalo.

Both bride and groom are well-known young people, and are exceedingly popular with all their friends. They have the very best wishes of all their many acquaintances.

NEWS NUGGETS.

—The Belleville Driving Club will put on a fall meeting on Oct. 8th and 9th.

—The Globe File Works in Port Hope have been purchased by Americans, and it is feared the industry may be closed up in connection with a trust.

—The first fall drill for the recruit class of the 57th Regiment will take place on Monday evening. Those intending to join the Regiment should attend.

—It is rumoured that certain employes of one of the Marmora Gold Mines are to arrested as the result of an investigation into the mysterious disappearance of a quantity of gold.

—The steamer Water Lily this morning broke her rudder when on her way to Peterborough. The crew, with the aid of a plank steered her up to the Wolfe street wharf, from about Wedlocks.

—A woman from Baltimore, Ont., lost her memory in Toronto yesterday and forgot her own name and where she came from. Later on during the day it was ascertained that she came from the above village in Northumberland county.

—The theatrical season was opened at the opera house last night by the production of Roland Reed's excellent comedy, "Humbug," by the noted artist, Mr. Walter Hodges, supported by a troupe of undoubted talent. Unfortunately the excessive heat prevented many from being present who would otherwise have been in attendance.

Since tea was first known, it has been associated with China, and yet to-day China is supplying very little of the world's tea trade, the superior article from Ceylon having practically displaced it, and now Ceylon is growing a green tea which will soon displace Japan. It is sold in the well-known sealed lead packets of the "Salada" Tea Company, and is as delicious to drink as their famous black tea.

—Both yesterday and the previous day the thermometer went up to 91 deg. in the shade, which is warm weather for September. It is also worthy of note that Peterborough County had the least rainfall of almost any similar extent of territory in the Dominion during the month of August. Its temperature was also high, and shared with Chatham the fact of having the greatest heat during the month in Canada.

—The Trusts and Guarantee Company, Limited, 14 King street west, Toronto, acts as trustee for the investment of moneys and collection of income from mortgages, bonds or other securities. Its wide experience in making investments enables it to obtain at all times the best possible securities obtainable. All moneys collected will be accounted for according to the terms of an agreement entered into with its clients.

Mr. F. W. Walden has resumed lessons in Piano, Harmony and Singing, at his residence, 595 George St. Mr. Walden has still lesson periods between the hours of 9 and 12 a.m. and 1 and 3 p.m., and will be pleased to meet intending pupils.

Methodists and the Boer War.

London, Sept. 7.—A stormy meeting of the Ecumenical Methodist Conference resulted yesterday morning from the reading, by Rev. C. W. Smith of Pittsburg, Pa., of a paper on "The Influence of Methodism in the Promotion of International Peace." The five-minute rule was adopted, and the pastors made fiery speeches for and against the war in South Africa. The campaign came in for a lot of criticism, and eventually the chairman ruled reference to it out of order. Many Americans took part in the discussion, but none of the more prominent bishops spoke. The speeches were punctured by frequent noisy interruptions, cheers and counter cheers. There was a scene of considerable disorder, and the discussion terminated without any conclusion being reached.

The delegates during the afternoon devoted themselves to the discussion of the question of Christian unity.

The Rev. F. M. Borth of New York explained at length the system employed in New York to promote unity.

Advice to Mothers.

If your little boy or girl comes home with a sore throat the first thing to do is to rub the throat and chest with Poison's Nerviline. Don't be afraid to use Nerviline freely—a whole bottleful wouldn't burn or blister the tenderest skin. Rub in until all taken up by the pores and just before the child goes to sleep give him a glass of hot water into which 30 drops of Nerviline has previously been stirred. This is a sure, pleasant, and speedy cure. Large bottles 25c.

LOTTER ROUNDED UP

Major Scobell Captures His Entire Commando.

TWELVE BOERS WERE KILLED.

There Was a Total of 132 Boers Killed, Wounded and Taken by the British, Who Lost Ten Men—Two Prominent Rebels Were Killed, and Two Commandants Were Among the Prisoners.

Middleburg, Cape Colony, Sept. 6.—Lotter's entire commando has been taken by Major Scobell, south of Petersburg. One hundred and three prisoners were captured, 12 Boers were killed and forty-six wounded. Two hundred horses also were captured.

Nineteen Killed.

London, Sept. 7.—Lord Kitchener's report from Pretoria to the War Office covering the capture of Lotter's commando gives the figures as nineteen killed, fifty-two wounded and sixty-two captured unwounded. The prisoners include Commandants Lottey and Breedt, Field Cornets Kruger and W. Kruger, and Lt. Shoeman. Among the killed were the two Vasters, notable rebels. The British casualties were ten killed and eight wounded.

Kelly-Kenny's Appointment.

London, Sept. 7.—Lieut.-Gen. Kelly-Kenny has been appointed Adjutant-General to the forces in succession to Sir Evelyn Wood.

Will Finish His Task.

London, Sept. 7.—"I am authorized to state," says the Pretoria correspondent of The Daily Telegraph, "that Lord Kitchener is not going home, but will finish the task assigned him here. Gen. Lyttleton will replace General Hildyard, who is going to leave."

Another Canadian Dead.

St. Catharines, Sept. 7.—Mr. Jamieson Black received word yesterday that his son, Sergt. Black, who was wounded in South Africa about ten days ago, died on Thursday from the effects of his wounds.

Thinner Than a Rail.

Spending every day, as much energy as you make, and if the balance goes a little further, well, you get thinner. Not wise to go that way longer. Better use Ferrozone, you will digest more—a little gain the first week, but the gain keeps growing. Not quite so thin! Keep right on, only don't use Ferrozone too long or you will get too fat. Then your blood will be rich, your heart strong, you won't puff so much, you won't get tired quickly. Fat, blood, strength, you have them all with Ferrozone. Sold by only Ormond and Walsh.

Famine in Russia.

London, Sept. 7.—"Russian newspapers are forbidden to refer to famine conditions in Russia," says the St. Petersburg correspondent of The Daily Mail, "because hunger-typhus and scurvy are devastating many districts and hundreds are dying daily."

When you feel weak, run down, nervous, unable to work, or think, as you ought, take Milburn's Heart and Nerve Pills. They'll build your health up and give you strength and energy.

Mothers, come and get the

Glove News!

Here's a Glove item that must attract appreciative buyers.

It's a Suede Glove that comes in assorted tans and browns. It also comes well recommended by the makers.

Of course it isn't a $1.00 Glove, for our order was taken to make for us three hundred pair of these to sell at FIFTY CENTS, but the appearance is that of a seventy-five cent Glove, and the wear-resisting qualities we think just as good.

NO PERSON need fear investing a paltry half dollar when they see a Glove like the one referred to at Fifty Cents. Think of it! A Kid Glove at the price of a silk or a cashmere. Yet so much more dressy—isn't it?

Another and a Better Suede

One of better quality—equally nice stitching—3 dome fasteners and an outline around wrist that has a tendency to make the hand appear smaller. However, it's the value of this Glove we want to draw your attention to, and notwithstanding that we believe this Glove to be a superior one to that handled last year at a $1.00, our price for this will be

NINETY CENTS.

HOPE IS ASCENDANT

Latest Bulletins Give Good Grounds for Optimism.

STRICKEN PRESIDENT'S SUNDAY

The Danger Is Not All Past, But the Symptoms of the Distinguished Patient Are Most Favorable—An Official Statement at the Request of Vice-President Roosevelt.

SUNDAY'S BULLETINS.

Buffalo, Sept. 9.—The latest reports from Milburn house state that the President is resting comfortably and that no alarming symptoms had developed on Sunday. These bulletins were issued throughout Sunday:

9 p.m.: The President is resting comfortably and there is no special change since the last bulletin. Pulse 130, temperature 101.6, respiration 30. (Signed), P. N. Rixey, Roswell Park, Herman Mynter, Eugene Wasdin, Eugene Wasdin, Charles McBurney, George B. Cortelyou, Secretary to the President.

4 p.m.—The President has slept quietly since the last bulletin, four hours altogether since 9 o'clock. His condition is satisfactory to all the physicians present. Pulse 128, temperature 101, respiration 28.

Noon.—The improvement in the President's condition has continued. Pulse 128, temperature 101, respiration 27. Dr. McBurney, an eminent surgeon from New York, is here and meets other physicians in consultation at 3 o'clock.

9 a.m.—The President passed a good night and his condition this morning is quite encouraging. His mind is clear and he is resting well. Wound dressed at 8.30 and found in a very satisfactory condition. There is no indication of peritonitis. Pulse 131, temperature 102.8, respiration 24.

A REASSURING SUNDAY.

How the Day Was Passed by the President and His Watches—No Unfavorable Symptoms.

Buffalo, Sept. 9.—Throughout Sunday every word that came from the big vine-clad house in Delaware avenue, in which the stricken Chief Magistrate of the nation lies battling for life, was reassuring, and last night the chances of his recovery are so greatly improved that all of those who have kept the patient vigil at his bedside feel strongly that his life will be spared. Not an unfavorable symptom showed. Five times during the day the eminent doctors and surgeons assembled for consultation and each time the verdict was unanimous that what change had occurred was for the better.

And yet, despite all this optimism, the President of the Republic is by no means out of danger. Not one of his physicians, not one of his advisers, who are admitted to the inner councils, has the temerity to go so far as that. But if the President continues to improve for one more day, the danger of peritonitis, which is most dreaded, will have practically disappeared.

All the effects of the ether which was administered when the operation was performed on the Exnosition grounds had disappeared yesterday morning, and the President's mind was perfectly clear during the time he was awake yesterday. For the first time he enjoyed natural sleep. While he was still more or less under the influence of anesthetic his slumber was restless and disturbed and did him little good. Yesterday between 9 and 4 o'clock he had the solace of natural slumber for about four hours, and the physicians stated unofficially that his sleep had been quiet and reposeful and had helped the sufferer a great deal.

Sunday also for the first time nourishment was administered. It was in liquid form, and was injected hypodermically to avoid the possibility of irritating the walls of the stomach where the sutures are healing. The exterior wound was dressed in the morning and is progressing satisfactorily.

All the members of the Cabinet are now here, except Secretaries Hay and Long. The former telegraphed yesterday that he would start from Newberry, N.H., to-day, probably in time to be here to-night. Secretary Long also signified by wire that he was coming, but did not specify the time. The Cabinet officers feel it to be their duty to be here in this crisis to meet any emergencies. They are holding no formal meetings, although there are some matters of public business which they daily discuss informally, and the possible contingencies should the President grow worse are also thoroughly canvassed.

Last night was included within the time critical to the President. He is holding his own, as Secretary Cortelyou expressed it, and if he successfully passes the night without loss of strength or the intervention of threatening conditions his ultimate chances of recovery will be increased. He was seen last night by all of the physicians and surgeons who are treating him, and their opinion, as expressed by the night bulletin, was favorable. They found his general condition to be unchanged, and their examination did not disclose anything of an unfavorable nature. They believe that the President is in a serious condition, and that the crisis will not be passed for another 48 hours.

FOR STATE REASONS.

Physicians State to Demand That the President Will Not Die.

Buffalo, Sept. 9.—For reasons of State it became necessary Saturday afternoon to secure, at the demand of Vice-President Roosevelt, a definite statement as to whether the President would live or die from the effects of his wound. The physicians hesitated, in view of the boundless uncertainties surrounding such a case, but the order for a conference and verdict was issued in such a manner as to brook no refusal, evasion or equivocation.

Five surgeons joined in the consultation, Drs. Mynter, Wisser, Mann, Wasdin and Park. Every phase of the case was examined, discussed and discounted. All possibilities, as far as medical skill can diagnose, were taken into consideration in formulating the opinion of the consultation to be officially rendered. After scanning the President's condition from every viewpoint, a unanimous verdict was reached by the consultation of surgeons which was reported to the high official who had demanded the pronunciamento, in the following words:

"A careful scrutiny of the President's condition, taking into consideration all developments, actually occurred or liable to occur, our conclusion is that His Excellency's chances of recovery are the brightest, an extremely remote possibility of peritonitis being the only element of danger."

Hardly satisfied with the careful wording of the report of the conference the administration official demanded imperatively:

"Will he live or die?"

"He will live," was the answer of the surgeon who had conveyed the report of the consultation.

THE PRESIDENT'S ASSAILANT.

Czolgosz Makes a Confession and Admits That He Planned to Kill—Declares He Is Alone.

While the full text of Czolgosz's signed confession will not, for a time at least, be given out, its substance is known. Czolgosz says that his parents came from Russian Poland, and that he was born in Detroit 26 years ago. He received some education in the common schools of that city, but left school when a boy and went to work as a blacksmith's apprentice. Later he went to Cleveland, where he worked for a while and then went to Chicago.

After returning to Cleveland from Chicago he went to work in the wire mills in Newburg, a suburb of Cleveland. He was working there up to the time he started for Buffalo, eight days ago.

About two weeks ago Czolgosz attended a lecture given by Emma Goldman, the woman whose anarchistic doctrines have made her notorious all over this country. The extermination of the rulers of people is a part of her creed. It was this lecture by a woman given in the City of Cleveland, the metropolis of the State in which is the President's home, that instilled in the heart of the Pole the poison of assassination. He went back to his lodging from the lecture, with fever in his brain. His mind was filled with the terrible preaching of this woman. The doctrine that rulers had no right to live was burned into his soul. He awoke in the morning with the lecture of Emma Goldman running through his mind.

A few days afterward he read in a Chicago paper that President McKinley was to visit the Pan-American Exposition and to remain in Buffalo for several days. The lecture of Emma Goldman and the projected visit of the President to Buffalo were linked in his thoughts.

Eight days ago he packed a small telescope valise with a few of his belongings and took an early train for Buffalo. Upon arriving in Buffalo he went at once to John Nowak's hotel at 1078 Broadway. He went there because he knew Nowak was a Pole. He told Nowak he had come to see the Exposition and that his stay would be indefinite. He inquired of Nowak about the visit of the President, when he would arrive, how long he would be in the city, what he was to do here, and whether the people would be able too see much of him. Nowak told him what the plans were.

The next day Czolgosz went to the Exposition. He went there on the next day and the next. The idea that he might kill the President when he came was in his mind, but the purpose was but half formed.

On Wednesday morning, the day of the President's arrival, Czolgosz had his mind made up. His mission to Buffalo was clear to him then. He determined to shoot the President. The first thing he did was to buy a 32-calibre revolver.

He arrived on the grounds shortly before noon. He knew that the President would not arrive before the early evening. He had read the papers carefully and knew every detail of the plans. But he was anxious to be on the scene.

He remained at the Exposition all day, and followed the President that day and the next, but did not get the opportunity he wanted.

Friday morning he was at the Exposition again, and was in the crowd at the railroad gate when the President arrived at that point after crossing the grounds from the Lincoln Park entrance. But with the rest of the crowd he was driven back when the President's carriage arrived. He saw the President pass through the gate to the special train, which was to take him to the Falls.

Czolgosz waited for the President's return. In the afternoon he went to the Temple of Music and was one of the first of the throng to enter. He crowded well forward as close to the stage as possible. He was there when the President entered through the side door; he was one of the first to hurry forward when the President took his position and prepared to shake hands with the people.

Czolgosz had his revolver gripped in his right hand, and about both the hand and the revolver was wrapped a handkerchief. He held the weapon to his breast so that anyone who noticed him might suppose that the hand was injured.

He reached the President finally. He did not look into the President's face. He extended his left hand, pressed the revolver against the President's breast with his right hand and fired. He fired twice and would have fired again and again but for the terrific blow that drove him back.

That was all there was to his story.

"Did you mean to kill the President?" asked the District Attorney.

"I did," was the reply.

"I am a disciple of Emma Goldman," he replied.

Gradually the story was secured. In the end Czolgosz talked freely. At midnight the complete story had been secured. No illegal methods were used to extract the story from him. No inducements were offered and no threats made.

President's Brother Arrives.

Buffalo, Sept. 9.—Abner McKinley, brother of the President, reached here at 12.20 a.m. yesterday. He was admitted to the house at once.

PRESIDENT McKINLEY.

The attempted assassination of William McKinley, President of the United States, has excited the liveliest indignation against the dastardly and treacherous assailant, and widespread and earnest sympathy for the wounded President and his family, especially his invalid wife, who has from the verge of the grave, been restored to partial health,but is still in a condition to make such a shock as she has received, attended with serious, if not fatal, consequences. Language is powerless to express the reprobation of such an act. Personally, or as a ruler, President McKinley has done nothing to justify, or even excuse, in the remotest degree, the attack of which he was the victim. It is not at all probable that either personal considerations,or considerations relating to official acts, put the pistol in the would-be assassin's hand. Red anarchy, in its unreasoning hate of constitutional authority, and law and order, selected the crazed fanatic who committed the deed; and it was not President McKinley who was attacked, but the representative of the law and order of a civilized country.

ANARCHY AND ANARCHY.

Anarchy is rampant these days, and in no country is it so abundantly represented as in the United States, and in no country do the conditions—the prevalence of extreme wealth among the favoured few, associated with, if not the cause of, extreme poverty — favour and foster anarchy; and it seems other conditions contribute. It is pertinent to inquire if the spirit of anarchy had its only representative on the Exposition Grounds in Buffalo on Friday, in the person and act of the assassin. Anarchy, in its primary sense, means absence or disregard of rule—of law and order. The President's assassin acted consistently with the tenets of his atrocious cult. Was he the only anarchist present? What, but another form of anarchy, was the conduct of the mob, which, disregarding the obligations of civilization, and of law and order, assailed their representatives, and attempted to put into practice the creed of anarchy—by taking the law into its own hands, and tearing the monster in pieces, or hanging him without trial. Much can be excused to the momentary madness of passion aroused by a dastardly act against the revered head of the nation. But, unfortunately this case is not an exceptional one. The spirit of anarchy has a wide lodgment in the hearts of the masses of the people, as witness the sickening frequency of the recurrence of lynchings, burnings-alive and barbarous torturings of victims, with little regard to guilt or innocence—with no further justification, in view of the claims of civilization, than the lust of vengeance and race hatred. When we see anarchy thus usurping the functions of the law, can one set of anarchists consistently reproach the other? An anarchist constituted himself judge, jury and executioner in respect of President McKinley, in a way that thrilled the world with horror. How can his act be separated in principle, from an anarchist mob which constitutes itself judge, jury and executioner in respect of some negro, who would be, according to the principles of British law, held innocent till declared guilty by due and dignified process of law—a victim who, according to the theory of the United States Constitution, is the equal of a President — "all men are born free and equal." If one form of anarchy is tolerated, or is superior to the repressive power of constituted authority, how can one wonder that the other exists to the extent it does exist?

VOLUNTARY REFORMS

China Grants and Guarantees Them by Signing Protocol.

END OF A YEAR'S NEGOTIATIONS

Ministers of the Powers as Well as the Plenipotentiaries of China Sign the Document—The Rice Tribute, Which Was a Sink of Corruption, Abolished—Examinations That Have Been Abrogated.

Pekin, Sept. 7.—(6 p. m.)—The protocol was signed to-day by the Ministers and Chinese plenipotentiaries. This is the result of one year of negotiations. China has agreed to make two voluntary reforms. The first one is the recent abolition of the rice tribute, which for a long time has been a sink of corruption. The second, in regard to a reform in the system of examinations, has just been authorized by an Imperial despatch to Li Hung Chang. This despatch, which approved the preliminary edict and delayed the signature of the protocol, was approved yesterday. It annuled the old system of essays, which are changed to the western style of answers to questions, in place of the traditional essay in eight divisions.

The old order of military examinations is also abolished. The latter action is the most significant reform of all, and shows that the new Board of State, which is charged with the reorganization and reform of the Government, will not act until the return of the Court of Pekin and the functions of the Chinese plenipotentiaries cease. The legations will now have to deal with the new Chinese Foreign Office, which has taken the place of the old Tsung li Yamen. Prince Ching, the president of this, and Chu Hsang Chi, one of the two Ministers, are now here. Wang Wen Shao and the other Minister are at Singanfu.

According to the highest foreign authority this institution, which was created by the protocol, will be less capable of working reforms than the old Tsung li Yamen, unless the spirit of reform dominates the court. The literati members being barred, the other members may be incapables. The members of the Tsung li Yamen were specialists, and, being members of the various boards, were conversant with all the affairs of the Government.

PICKING THE NOSE is a common symptom of worms. Mothers who suspect their child is troubled with worms should administer Dr. Low's Worm Syrup. It is pleasant, safe and effectual.

TO PREVENT FRAUD.

Fruit Inspection Act to Be Enforced at Once.

Toronto, Sept. 9.—The inspectors who have been appointed by the Dominion Government for the enforcement of the "fruit marks act" in Ontario and Quebec met Professor Robertson, the Government specialist, on Friday and Saturday last, in this city, and received their final instructions. The gentlemen who will be responsible for the enforcement of the act are Alexander McNeill, Walkerville; Elmer Lick, Oshawa; J. P. Carey, Cobourg; E. W. Wartman, Kingston, and John Scriver, Hemmingford, Quebec. Those who are to be appointed by the Maritime Provinces will meet at some other point to receive instructions. The act is primarily intended to prevent fraud and not to interfere in any way with packers or shippers who are carrying on business honestly. The main purpose of the act is to insure that the name of the packer and address are put on every closed package of fruit, and that the fruit is not branded as finest, best or extra good unless of a quality that may be designated by these or similar terms. Then the fruit shall not be fraudulently packed by having the package faced by fine specimens while the bottom or middle of the box is filled with inferior fruit. The act will apply alike for fruit for export and for sale on the home market. The inspectors will begin their duties at once, and while at first they will be occupied perhaps chiefly in giving information regarding the act and its enforcement, they will also take action in any cases of evident fraud.

Mr. Thomas Russell, one of the largest fruit importers of Glasgow, also had an interview with the inspectors on Saturday, and told them the conditions under which the fruit trade was handled in Scotland. He remarked that most of the fruit from Canada was handled in an honest manner, and Canadian fruit had the highest reputation there for both quality and packing. Some few men, however, sent inferior fruit over, to the injury of the trade.

Killed by a Train.

Delhi, Sept. 9.—Yesterday afternoon a young man named Newell of Cornell was struck by the fast Horse Special on the M.C.R. at Hawtrey and died twenty minutes afterwards. He had been working on the extra gang and was to have quit work last night. As the train approached the gang quit work to let it pass, and when the train was about ten feet distance Newell was fooling with the water boy and stepped back on the track, and before he could again step forward the train struck him. He never regained consciousness.

Thinner Than a Rail.

Spending every day, as much energy as you make, and if the balance goes a little further, well, you get thinner. Not wise to go that way longer. Better use Ferrozone, you will digest more—a little gain the first week, but the gain keeps growing. Not quite so thin! Keep right on, only don't use Ferrozone too long or you will get too fat. Then your blood will be rich, your heart strong, you won't puff so much, you won't get tired quickly. Fat, blood, strength, you have them all with Ferrozone. Sold by only Ormond and Walsh.

GAUDAUR BEATEN.

Towns Wins the Sculling Championship by Five Lengths.

Rat Portage, Ont., Sept. 9.—This town is in the dumps. Its idol has been shattered. Ever since he came here, three years ago, Gaudaur has been regarded as the wonder of the world — an invincible oarsman at over 40 years of age. But Gaudaur once too often faced the starter, and demonstrated that he was no longer able to retain the championship. The water was smooth on Saturday, but a light wind was blowing. Towns won the race by five lengths in 20.32.

Maud Willard's Body Found.

Niagara Falls, Sept. 9.—Carlisle D. Graham and Miss Maud Willard kept their promises and made their voyages through the Gorge on Saturday, but Miss Willard lost her life in doing it.

Niagara Falls, Ont., Sept. 9.—The body of the woman, Maud Willard, who last her life navigating the whirlpool rapids and whirlpool in a barrel Saturday afternoon, was brought up during the early hours yesterday morning and taken to Undertaker Butler's rooms. It will be taken to Niagara Falls, N.Y., for interment.

Boy Drowned at Sharbot Lake.

Kingston, Sept. 9.—A drowning accident occurred at Sharbot Lake Friday, when a ten-year-old son of J. Donnelly, blacksmith, met death in the water. He and a companion were out in a skiff swimming, when the lad seems to have become exhausted and sank. W. Cannon, grocer, dived for the body and recovered it a few minutes after the accident. Dr. Coutlee worked with the body for over an hour, but was unable to restore animation.

Noted Prussian Dead.

Frankfort-on-the-Main, Sept. 9. — Dr. Johannes Von Miquel, former Prussian Minister of Finance, was found dead in bed here yesterday morning. Apoplexy is believed to have been the cause of death. He was born Feb. 21, 1829.

An English Idea.

A women writers' club of England has introduced a new idea at its dinners. It is the fashion for every one present to pin her name card, daintily hung on a slender ribbon attached to a safety pin, to her bodice, so that any one in the room can see her name. This is sufficient introduction for two women to make themselves known to each other.

GOOD HEALTH IS IMPOSSIBLE without regular action of the bowels. Laxa-Liver Pills regulate the bowels, cure constipation, dyspepsia, biliousness and sick headache.

Belleville, Ont., Sept. 7.—At the Cheese Board to-day 22 factories offered 180 colored and 1707 white cheese. Sales, 320 white at 9 1-16c.

20 YEARS OF VILE CATARRH.

Wonderful Testimony to the Curative Powers of Dr. Agnew's Catarrhal Powder.

Chas. O. Brown, journalist of Duluth, Minn., writes: "I have been a sufferer from Throat and Nasal Catarrh for over 20 years, during which time my head has been stopped up and my condition truly miserable. Within 15 minutes after using Dr. Agnew's Catarrhal Powder I obtained relief. Three bottles have almost, if not entirely, cured me." 50 cents. 2

BOERS LOSE HEAVILY

250 Killed or Captured Within Three or Four Days.

DETAILS OF LOTTER'S FIGHT IN.

Completely Surrounded by the Cape Mounted Rifles and the Ninth Lancers—They Took Refuge in a Shed into Which the British Poured a Concentrated Fire—Carnage Was Awful.

Pretoria, Sept. 8.—Over 250 Boers have been killed or captured in the last three or four days. Col. Williams captured 20 burghers in the Magielsburg and Gen. Grenfell almost caught the Boer Commandant Beyer, who only escaped after a hard ride of 10 miles. He took a landdrost prisoner.

Col. Rimington had an engagement east of Kroonstad, in which he killed four Boers and captured 20, in addition to many wagons and a quantity of stock.

Cols. Benson and Copleey effected two surprises on the Boers in the vicinity of Middleborg, Cape Colony, in which the burghers lost 30 men. Col. Murray captured six more at Vryburg.

Col. Scobell, acting in conjunction with the Cape Mounted Rifles, who held the pass, captured Lotter's and Van Broedem's commandoes at Pietersburg, killing 19 and capturing 104, of whom 46 were wounded. The total strength of the Boers in Cape Colony is now estimated at only 800.

LOTTER'S DEFEAT.

Details of the Awful Fire Directed Against His Commando.

Cape Town, Sept. 8.—The details of the fight in which Lotter's commando was captured by Col. Scobell have just been received here. It appears that Col. Scobell surprised Lotter, who had laagered in the centre of a basin surrounded by ridges. The Boers occupied two kraals and a shed into which the Boer pickets rushed all the wounded. The Cape Mounted Rifles and the Ninth Lancers surrounded the position completely.

The first British volleys, which were fired at daylight, stampeded the Boers' horses. The burghers, seeing that escape was impossible, took refuge in the shed, from which they returned the British fire. Then the British concentrated their fire from four points on the shed at distances of from 50 to 400 yards. Every corner of the Boer position was well searched for three-quarters of an hour, when a white flag was hoisted. Nevertheless, the Boers continued firing and a private of the Lancers, who galloped forward to receive the surrender, was shot 20 yards from the shed. The firing then ceased as Commandant Lotter came from the shelter and surrendered. The shed presented a terrible spectacle. The dead and wounded were lying in all positions.

Col. Scobell's disposition of his force was admirable and he outmanoeuvred Commandant Lotter completely.

Had Good Spy System.

Pretoria, Sept. 8.—Fockema and Kerkhoff, Hollanders, were court-martialled for having treacherously harbored spies at Pretoria. Mr. Lohman defended them. These trials are gradually unfolding the fact that the Boers have had a good intelligence system in Schurveburg, which is about six miles from Pretoria, and that this has been the principal station for the receipt of communications.

BROTHER'S KEEPER.

George S. McLaughlin, Lives to Rejoice That He Took His Brother's Advice.

For Twenty-Five Years Crippled With Backache—Finally Advised to Take Dodd's Kidney Pills—What He Says About His Cure.

Economy Point, N. S., Sept. 8. — Mr. G. S. McLaughlin lives in this quiet little Nova Scotia village. His brother keeps the grocery store here. But for this seemingly unimportant fact, unless death had mercifully relieved him of his sufferings, Mr. McLaughlin would in all probability have been a helpless cripple to-day. For it was through his brother keeping store that he came to try Dodd's Kidney Pills.

Economy Point is thirty-seven miles from Truro. The only connection is by waggon road, and in the spring when the roads are impassable, the hamlet is isolated completely. But nevertheless the fame of Dodd's Kidney Pills found its way to Economy Point, and Mr. McLaughlin's brother in response to frequent requests began to retail them at his store. There is no druggist in the place and McLaughlin's grocery is looked to for medicines as well as groceries. Hearing the terms of unqualified praise with which his customers spoke of Dodd's Kidney Pills, the brother recommended them to Mr. McLaughlin. "They might help your back," said he.

That is the story of Mr. McLaughlin's cure — or all of it that varies to any extent from that of thousands of others. He followed his brother's advice. "I will try them, anyway," he said. That's all Dodd's Kidney Pills want — a trial. After the first trial there is no more hesitation. Mr. McLaughlin says it was wonderful the way his pain left him and his back strengthened. He was a free man ever since.

"I was troubled with lame back for twenty-five years or more. I could not turn myself in bed. Wonderful to say I have had no return of the trouble since using the Dodd's Kidney Pills. I have recommended Dodd's Kidney Pills to a number of persons with Kidney Trouble. All without exception have been benefitted or cured. I can never be too thankful for the benefit I received from those wonderful pills.

SIX VESSELS BEACHED.

One of the Roughest Nights on Lake Huron Was Saturday.

Port Huron, Mich., Sept. 9.—After one of the roughest nights ever known on Lake Huron, made worse by a heavy pall of smoke that overhung the water, six vessels are wrecked on the beach, three miles north of here. The crews of four of them were rescued by the life-saving crew, during the night, thirty-eight all told, and the crews of the other two are still on their vessels, but in no danger. Several other crafts were in grave danger during the night, but were extricated yesterday morning. The wrecked crafts are the Wawatam and consort, whaleback 102; Pauley and consort, Ameranthy; barque Paige and tug Sarnia. In the smoke and gale their masters lost their bearings.

Fifty-Six Seamen Rescued.

Washington, Sept. 8.—Despatches received by the life saving service yesterday indicate that a very serious storm raged Saturday on Lake Huron. These despatches report a number of disasters to lake craft, and show that all told 56 seamen were rescued at different life saving stations on the lake.

Vigorous Womanhood

Made Perfect by Dr. Chase's Nerve Food—A Common Sense Treatment Which Does Exactly What is Claimed of It.

The happiness of every home depends very largely on the health of the wife and mother. If she is nervous, peevish and irritable, worried by the little cares of every day life, and tormented by pains and irregularities that are sure to accompany a rundown system, there can be no happiness in the home for husband and children.

Too many women are victims of nervous exhaustion, and do not know it. They suffer from indigestion dyspepsia, nervous headache and sleeplessness, and drag themselves about the house feeling languid and tired out. The slightest mishap causes them to worry, and they feel gloomy and despondent.

Some women seem to think this a part of women's existence. Not at all. You can be healthy and and vigorous if you follow the advice of Dr. Chase, the famous Receipt Book author. He would not deceive you, and his treatment never disappoints. Dr. Chase's Nerve Food is intended for just such cases as are here described.

It is above all a common sense treatment, which is approved of by physicians and laymen alike. By supplying to the thin, watery blood and weak, exhausted nerves the very materials of which nature constructs new nerve cells and new bodily tissue it gradually and certainly reconstructs and revitalizes the weakened and debilitated nervous system, cures nervous headaches and dyspepsia, and permanently overcomes the weaknesses and irregularities from which women suffer so much.

Mrs. Chas. H. Jones, Pierceton, Que., writes:—

"For years I have been a great sufferer with my heart and nerves. I would take shaking spells and a dizzy, swimming feeling would come over me. Night after night I would never close my eyes, and my head would ache as though it would burst. At last I had to keep my bed, and though my doctor attended me from fall until spring, his medicine did not help me.

"I have now taken five boxes of Dr. Chase's Nerve Food, and it has done me more good than I ever believed a medicine could do. Words fail to express my gratitude for the wonderful cure brought about by this treatment."

Dr. Chase's Nerve Food is immensely popular among women, because it restores them to perfect, vigorous womanhood, and does so by naturally and gradually toning up and invigorating the system, gently regulating the bowels, and strengthening the action of the heart. Fifty cents a box; six boxes for $2.50. At all dealers, or Edmanton, Bates & Company, Toronto.

BIG PRICES FOR ANIMALS.

A Small Sized Fortune Needed to Buy a Giraffe.

Because of the difficulty of getting it to America and of keeping it alive after it arrives a good giraffe is quoted at $7,000.

Next to the giraffe in the aristocracy of cost come the rhinoceros and the hippopotamus, worth from $4,000 to $5,000 each. If a dealer could breed these animals, he could get rich, but the big mammals rarely breed in captivity. About the only place in America where hippopotami have been known to raise their young is in the menageris in Central park, New York.

A chimpansee of size is worth $5,000, and when one reaches the intelligence of the late Mr. Crowley, Chico or Johanna he is beyond a fixed price. The monkey kind are most uncertain property. The animal man says they are certain to die. But the ordinary ones can be bought very cheaply.

One can buy a nice young baby elephant for $1,000 at times, but a really good animal is worth from $1,800 to $3,000. An elephant does not command the maximum price because of the beauty of his countenance, the elegance of his figure, his intellectual endowments or his size, but because of a sweet, sunny disposition. A mean elephant is about the most evil of living things. Sooner or later he has to be killed, usually after he has slain two or three keepers and done more damage than he is worth. Of two animals of equally good disposition the larger and finer commands the higher price, of course, but the most magnificent beast with an inclination for murder isn't worth as much as a very common one that is trustworthy—that is, ordinarily so, for the sweetest tempered have days when they seem inspired of satan.

SCHOOL SHOES FOR BOYS AND GIRLS

Now is the turn of Young Canada. The summer vacations are over. School for another term is the rule. The boys and girls must be comfortably clad if they are to do good work. An important part of the outfit is that which ensures warm, dry feet. That is where our mission as sellers of Boots and Shoes comes in.

We have made ample preparation for the supply of school wants in boots and shoes. We appreciate the fact that boys and girls are great wearers out of leather, and the varieties and styles we have were selected to afford the maximum of wear at the smallest cost. Here is a list that is sure to contain some line that will suit. All sizes, in black and tans, new and nobby.

Boys' Buff Lace Boots, sizes 1 to 5, extra value..... $1.35	Youths' Boston Calf Boots..... .90
The same at $1.25 and at $1.15	Misses Oil Pebbled Button Boots, with spring heel..... $1.15

Boys' Boston Calf Boots,..... $1.00	Misses Box Calf Lace Bals., an excellent shoe in every way..... $1.35
Boys' Tan Bals., strong and very comfortable $1.40	Childs' Oil Pebbled Button Boots, with spring heel, at 75c and..... 85c
Youths' Buff Lace Boots, sizes 1 to 5, a first-class article $1.15	Childs' Oil Pebbled Lace Boots, sizes 8 to 10, at 85c and 75c
In another style at..... $1.00	

In addition do not fail to remember that we have all things in Rubber. The wet weather of the fall is at hand.

ROBERT NEILL

ACCIDENT ON THE C.P.R.

Six Cars Went Off, and Fifteen Persons Received Injuries.

Winnipeg, Sept. 7.—A serious accident was reported on the Canadian Pacific yesterday morning. Six cars, a baggage car and five coaches, on the second section of the train which left Winnipeg for the West on Thursday, were derailed near Rush Lake, a station about twenty-one miles east of Swift Current, at 6.45 a. m. Fifteen persons were reported injured. They are mostly from the United States. The cause of the accident is reported as a broken rail.

The Agony of Sleeplessness.

Did you ever pass a single night in wakeful misery, tossing and rolling in gin bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding nihgt growing worse and worse? This is the most dreadful symptom of Nervous Exhaustion and Debility. You can be gradually and thoroughly cured of Sleeplessness by the upbuilding influence of Dr. Chase's Nerve Food. It cures in nature's way, by creating new nerve cells and restoring lost vitality.

Sale of Sheepskins.

London, Sept. 7.—A sale of sheepskins was held here yesterday, and will be continued to-day. There are 3,830 bales, and 192,470 skins offered. The attendance was large. The quality of the stock was fairly satisfactory, and there was unlimited demands. Merinos sold at 7½ per cent., and cross-breds 5 per cent. Long woolled grades were ½d. to ½d. and short woolled a farthing to ½d. dearer.

Women at the Polls.

Christiania, Sept. 7.—Women are entering the campaign for the coming municipal elections, at which they hope to obtain an extended franchise and eligibility to sit in local bodies. As all the candidates are men, the women will put up a ticket, and conduct an active fight for it. It is believed to be the first time that the women of this country have united against the men's ticket.

Again Postponed.

Rat Portage, Sept. 7.—The water of the bay is still very rough and there was no chance of pulling off the race yesterday. It was postponed till to-day.

Medical Science Advances.

It is not more than half a century ago that physicians considered a surgical operation with its risk, expense and pain, as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase-s Ointment. You may be aceptical but for proof you are referred to tens of thousands of people that have been cured by this famous preparation.

Damaged by Storm.

Montreal, Sept. 9.—A terrible storm of wind and rain burst down Saturday evening upon Lake St. Louis, and the whole north shore was raked fore and aft, making almost a complete wreck of the St Lawrence Yacht Club's fleet. A good deal of damage was also done on the south shore, but fortunately no fatalities are reported.

Nova Scotia Elections.

Halifax, N. S., Sept. 9.—Hon. A. McGillivray and C. P. Chisholm will again be the Liberal candidates in Antigonish at the local elections.

The Imperial Life's

Double Settlement Policy has been Termed "The Ideal Form of Insurance Investment." Have you examined it?

W. G. Morrow,

AGENT, PETERBOROUGH.

STRENGTHENS THE STATE.

Life Insurance is for the protection of those dependent on a man's life; their dependence makes it an unavoidable duty. Those dependent we assume to protect by our contract, at his personal cost; our duty to them is to make that contract as large, as secure, and as certainly available to them as possible; thus every Policy written conserves the interest of the State. A man with a Life Insurance Policy is apt to be a good citizen. Anarchists have no use for Life Insurance, and the state has no use for anarchists. The State should encourage every citizen to carry insurance. This Strengthens the State, abolishes alms-houses, and creates property that can be taxed. Further, the income from Your labour ends with Your life. The cost of living to the family continues. Take measures to have the income continue also. **The Life Insurance Policy Does It.**

The most enterprising and progressive of all the Canadian Life Offices to-day is the **Sun Life of Canada.** Ten years ago the Company had Life Assurance in force to the extent of $16,759,355.92. On the 31st of December last, this amount had been increased to $57,980,634.68. The increase, therefore, of Life Assurance in force during the last ten years amounted to the tremendous sum of **$41,221,278.76.**

W. H. HILL,

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drugstore.

Y. W. C. A.

The former members of the Girls' Sewing Class, of the Young Women's Christian Association, are invited to meet the Secretary, Miss Dickson, at the Y.W.C.A. Rooms, George street, as follows:—Girls from 8 to 10 years, Tuesday afternoon, Sept. 10th, at 4 o'clock. Girls from 11 to 15 years, on Thursday, Sept 12th, at 4 o'clock.

Obituary.

The death occured on Sunday evening, of Hazel Eva, the thirteen-year-old daughter of Mr. T. H. Graham, of the 4th line of Smith. The deceased had been ailing for a short time only of spinal trouble. The funeral will take place at 3 o'clock on Tuesday afternoon to Little Lake Cemetery.

Lawn Social.

The King's Daughters, assisted by other young ladies of the town, will hold a lawn social on St. John's church grounds on Tuesday, September 17th. Tea will be served from 5 p.m. The social is in aid of the furnishing fund for the new rooms of the Y.W.C.A., and it is hoped that the efforts of the young ladies will be very heartily supported. Id

NEWS NUGGETS.

—The Recruit Class of the 57th Regt., will meet this evening.

—The North Star will discontinue her daily trips after Saturday next.

—Mr. Dickson Davidson is making extensive renovations to his drug store.

—The weekly drill of the 57th Regiment will take place to-morrow evening.

—There will be a mass meeting of the Royal Chorus at 8 o'clock this evening in the Y.M.C.A.

—The local agents of both the G. T. R. and the C. P. R., have decided to enforce the storage regulations in respect to freight hereafter. This course of action is found necessary on account of the overcrowding of the freight sheds.

The Port Hope Knitting Works are showing this week a very fine line of double knee, double heel and toe cashmere hose in all sizes, from 15c to 25c, in the largest sizes. This is a great line. Call and see them.

PERSONALS.

Mr. Harry Donnelly has returned from the Pan-American.

Mrs. C. B. McAllister is over at the Pan-American Exposition.

Messrs. M. Tooley and Fred Haskill left to-day for the Pan-American.

Mr. Matthew Taylor, postmaster of Schnectady, N.Y., was in town over Sunday.

Mr. Fred Boundy has just returned from spending a week at the Pan-American.

Mr. Gerald Hall left at noon to resume his studies at the R. M. C., Kingston.

Miss Eileen Fair intends leaving to-morrow evening to attend Bishop Strachan's Ladies' College.

Mr. George McCartney has resumed his duties with Robert Fair & Co., after several weeks illness.

Mr. "Tiney" Mason, who has been spending his holidays in Peterborough, returned at noon to-day to T.C.S., Port Hope.

Mr. Fred Ray, who is home from Buffalo, was standing within a few feet of President McKinley when the latter was shot.

Miss Lily Simons left this morning for Rochester, where she will take the course prescribed for trained nurses, at St. Mary's hospital.

Miss Mary Grier and Miss Aggie Judd have returned after a pleasant week spent in Toronto, Niagara Falls, and the Pan-American.

Mr. and Mrs. Harry Brock and family have closed their Stony Lake cottage for the season, and passed through town to-day on their way to Toronto.

Messrs. Frank LeBoutillier, of the Merchants Bank, Rochester, N. Y., and Daniel D. Barnard, of the same city, are spending a few days at Chemong.

Mr. and Mrs. James Lewis have returned from a pleasant holiday trip to Stouffville and Toronto. They were accompanied home by Mrs. Joseph Barkey, of Pittsburg.

Mrs. E. Morris of Toronto, and her daughter, Maud, of New York, returned home on Saturday, after spending a very enjoyable week with her brother, Mr. Thomas Jobe, No. 43 Ware street.

Mr. W. T. Clark, manager of the Canadian Cordage Company, arrived in town this morning to enter upon his duties, the first of which will be consideration of tenders for the construction of buildings.

Mr. John O'Keefe and his sister, Miss Catharine O'Keefe, have returned from a two month's visit to Ireland. They visited many of the leading places of interest including the lakes of Killarney. It is about five years since Mr. O'Keefe was in Ireland before. He brought home for his friend, Mr. Alex. Grieve, of town, a beautiful black thorn.

Mr. Harold Snowden, the popular wine clerk of the Snowden House, returned on Saturday evening from Stony Lake, where he has been having as good success in pulling bass as in pulling corks, or "settin- 'em up." Harold likes a day's sport any time, and can be relied upon to do the square thing as a nimrod every time. The samples he brought to town prove that he knows how to hypnotize the biggest and best of the gamey bass, and land them safely in his creel.

Remember we are always pleased to show our customers through our cold storage room, as a personal inspection of the quality of our beef, and the manner in which it is handled, is a guarantee to them that we are in the best position to cater to the most delicate tastes. We have again this week some of the choicest steers and heifers that can be secured. Kennedy's Meat Market, 340 George street, Peterborough. Phone, 275.

THE PRESIDENT'S CONDITION.

The Physicians are Hopeful but Cannot Make a Definite Statement yet.

(Special to the Examiner.)

Buffalo, Sept. 9th.—At 21.15 p. m. Senator Hanna, who has just come from the Milburn House, reported the President's condition as very encouraging. He had quite a long visit with his wife this morning. At 12.45 p.m. Vice-President Roosevelt emerged from the house and stated, "I am absolutely confident that everything is coming out all right."

Secretary Cortelyou had a few words to say to the newspaper men shortly after noon. He said in respect to a question, "The doctors cannot state yet that the President will recover. It may be 24 hours before they will be able to do so, and then it's not likely they will make a definite statement. They do not yet feel so hopeful as they would like to feel, but they are highly encouraged and very hopeful. The President has not yet taken any nourishment, except hypodermically."

Referring to the fear in some quarters that the reports might be coloured, he added, "Should there be the slightest turn for the worse, the people will know it immediately."

MINISTERIAL ASSOCIATION.

Schedule of Visits to the Nicholls Hospital and Protestant Home.

The Ministerial Association met this morning for the first time since the holidays, and an informal discussion took place in regard to the introduction of religious instruction in the schools. It was decided to postpone the date of the annual elections until the October meeting of the Association.

The following schedule of visits to the Nicholls Hospital and the Peterborough Protestant Home was drawn up:

Nicholls' Hospital.

Monday, Sept. 9th—Rev. D. O. Crossley.
Monday, Sept. 16th — Rev. George Yule.
Monday, Sept. 23rd — Rev. J. P. Wilson.
Monday, Sept. 30th — Rev. J. C. Davidson.

Peterborough Protestant Home.

Wednesday, Sept. 11th — Rev. D. O. Crossley.
Wednesday, Sept. 18th. — Rev. G. Yule.
Wednesday, Sept. 25th. — Rev. J. P. Wilson.
Wednesday, October 2nd. — Rev. J. C. Davidson.

CHURCH CHIMES.

Rev. Mr. Yule occupied the pulpit of St. Paul's church yesterday evening.

In the morning at the George street church, the anthem, "God of My Life," was sung in excellent harmony. Mr. Mulligan during the offertory sang "Nothing but Leaves."

At St. John's church yesterday, Mr. Halpany sang Gounod's "My God, My Father," with cornet obligato by Mr. Glidden. The selection was very well rendered.

The strains of a wedding march were quite noticeable at St. Paul's church yesterday morning in honour of Mrs. Ed. Manning (nee Lee), who was a prominent member of St. Paul's choir.

In the evening at the George street Methodist church, the male portion of the choir rendered a chorus entitled "Bells of your conscience," in excellent harmony, Mr. Mulligan taking the solo. The anthemn, "Keep My Commandments," was sung in the evening.

Rev. W. L. Armitage preached in St John's church yesterday morning and made a most timely reference to the attempted assassination of President McKinley, stating that Canadians, with their hearts still tender from the loss sustained through the death of the late Queen, could freely sympathise with the citizens of the United States in their trouble.

ALL SAINTS' CHURCH.

Messrs. J. Legg, J. Brown, A. Kingscote and R. Sheppard sang "The Way of the Cross," most harmoniously as a quartette last evening. The chorus was unaccompanied.

The Advisory Board will meet this evening at 7.30 to consider a new system of heating for the church. Every member is expected to be present.

Mr. Fred Sawers delivered his first sermon from a Peterborough pulpit yesterday, when he addressed the congregation of All Saints' church. His remarks were based on the text, "Know ye not that they which run in a race run all, but one receiveth the prize. So run ye that ye may obtain."—1 Cor. xiv, 24th verse. A large congregation was present, and all were thoroughly pleased with the able manner in which Mr. Sawers handled his subject. He spoke extemporaneously, without the use of notes, and there is evidently a brilliant future in store for this clever graduate from the Collegiate Institute, whose career through the University has been marked by such remarkably high standing in all of his examinations. Mr. Sawers left today to assume his duties in connection with his appointment at Trinity College School, Port Hope.

MURRAY STREET BAPTIST.

Rev. Mr. Bastow gave a prelude upon President McKinley last evening. He first recognized the distinguished services of the President to bring the United States and the British Empire into the most friendly relations. He spoke of the President's great talents, as indicated by his speeches in the endless variety of the circumstances and subjects upon which he has spoken during his public career. But he said the President's goodness of heart was superior to his greatness of intellect. This was preeminently indicated in his beautiful devotion to his wife, especially in her critical illness last spring, and his first utterance after he was shot, that she might not be disturbed.

The address was twenty minutes long and was listened to with deep interest by all who were present. Mr. Bastow is especially fitted to speak upon the President, as he has spent forty years of his life in the United States. The congregation was quite large.

DOAN'S KIDNEY PILLS cure backache, sideache, scanty, cloudy, thick and highly coloured urine, diabetes, dropsy, and all troubles arising from a weak condition of the kidneys.

GRAND MASTER DEAD.

R. B. Hungerford of the Masonic Grand Lodge Died in England.

(Special to the Examiner.)

London, September 9th. — R. B. Hungerford, Grand Master of the Grand Lodge of Canada, A. F. & A.M., died at six o'clock this morning of paralysis.

DROWNED AT MIDLAND.

The Victim was a Former Resident of Peterborough.

The sad intelligence was received in town this morning of the drowning, at Midland, yesterday, of Mr. John Hagerman, G.T.R. engineer, and formerly of Peterborough. Deceased was a brother-in-law of Mr. John Dixon, of Ashburnham.

FRACTURED HER COLLAR BONE.

A Serious Accident to a Peterborough Lady While in Toronto.

The many friends of Mrs. A. R. Plummer, Aylmer street, will regret to learn of the serious accident which befel her in Toronto on Friday afternoon.

Mrs. Plummer was in the act of coming down stairs, when she tripped and fell headlong the full length of the stairs, striking the newel post at the bottom with great force, and fracturing her collar bone. She also received a number of severe bruises about the head and back. She was brought to town on Saturday evening, and is now doing as well as could be expected.

POLICE COURT.

A Junk Dealer Finds Himself in Trouble —Pleaded Not Guilty.

Mr. T. Stevenson, manager here for Mr. T. G. Holmes, junk dealer, was arrested this morning, charged with receiving a quantity of copper wire, knowing the same to be stolen. The wire is alleged to have been taken from the premises of the Canadian General Electric Co.

Stevenson is a one-armed man, of about 26 years of age apparently, and came here recently from Port Hope.

At the police court this afternoon he pleaded not guilty, and the case was enlarged until the 17th. Prisoner was represented by Mr. E. B. Stone. Bail for $200 was accepted.

SPORTING PASTIMES.

GOLF TEA.

The first golf tea of the fall season will be held on Thursday afternoon at the links. It is expected that it will be very largely attended.

RUNNING.

The trustees of the Schneider Cup will meet on the evening of Wednesday, Sept. 18th, by which time all entries must be handed in to W. Sailsbury.

THE 57TH. REGIMENT.

Recruits are asked to remember the recruit class this evening at 8 o'clock. The regiment will march out at 9 o'clock to-morrow night.

The Commanding Officer has decided to offer a prize of a field-glass to the person making the best score at 1200 yards, on Thursday or Saturday, during the months of September and October.

MOTIVE POWER FOR PETERBOROUGH.

The Necessity for Prompt Action Presented.

CONDITIONS OF PROGRESS.

Our Motive Power in the Past—The Duty of the Government to Facilitate the Production of Cheap Power—Repeal of Order-in-Council, a Breach of Faith.

Never, perhaps, in the history of the country was there a time when more money was looking for investment in safe enterprises than at the present time. It is well known by anyone who has to do with the investment of moneys, that there is abundance of capital looking for investment in real estate at a low rate of interest. Then there is an abundance of money ready for employment in enterprises that yield a profit, equivalent to a larger rate of interest than comes from other classes of investment. It is in successful and prosperous times that it is easy to place capital in safely profitable enterprises. Such times we are now in, and the problem is how best the town of Peterborough can avail itself of the tide of prosperity that is now on the flow. Power for manufacturing purposes is a perpetual requirement, and its cost is so serious an item in regulating the margin between profitable and unprofitable industrial operations, that the price of power is an important consideration; and it will take large advantages of another kind to overbalance cheap power as a factor in deciding the location of a manufacturing establishment.

Peterborough has in the past been in the position of having her power in the hands of persons and companies who employed it to suit their own purposes, and further their own interests, as they had a perfect right to do. The question now becomes a serious one, as to whether this state of things is to be allowed to continue to the detriment of the interests and progress of the town. Is the old apathy to continue to permit a practical monopoly as between two closely associated corporations, one to supply power at its own price, and the other to supply power at its own price, or are the citizens ready to see to it that competition is not shut out? What is to be the attitude of our citizens, when a company, composed of our own citizens, and our own manufacturers, and with sufficient capital, proposes to develop power, which will mean the expenditure within the next few months of a quarter of million of dollars in buildings and equipment, and the giving of employment to hundreds of persons — a company that is placing at the disposal of the Town Council four hundred horse power, which the latter will have available to offer as an inducement to manufacturing concerns, at the comparatively low price of $15 per horse power? Are the people going to permit their representatives in Parliament, and their representatives in the Town Council, to pursue the policy of letting things drift on in the slow old way, and allow an opportunity which may not soon, or ever come again, to pass by, unimproved? Are they going to sit with folded hands, bemoaning the slow progress of the town, and praying for good times, growth of the town and prosperity, while they allow the chances which they have, to pass on unimproved? Are the people willing to approve of the action of a representative endeavouring to thwart the plans that promise great things in the way of industrial expansion for the town of Peterborough? Why, the citizens of Peterough may well inquire, was Mr. Kendry, M. P., and his business associates at Ottawa opposing the application of the Otonabee Power Company for power at No. 5 dam? Was he working in the interests of the town to secure available power at living rates for manufacturing purposes, or was he working in his own interests, and those of the cooperating monopoly he and his friends represented? This is a question which it needs no great acuteness to answer.

The Examiner has no quarrel with either the Auburn Power Company or the Peterborough Light and Power Company. They deserved every encouragement, and they received it at the hands of the people — they deserved encouragement till they secretly pooled their interests, thus placing the consumers of power at the mercy of one company, and the consumers of light at the mercy of the other. The effect of this, it is plain to see, was to ensure an entire absence of competition, and a monopoly for all practical purposes of these two vitally important commodities of supply, and neither of these companies was, or is now, able to supply a pound of power to the Twine or Shovel Company. Is the Dominion Government to be a party to perpetuating this condition, by holding up the price of power at four dams at an exorbitant price, which, owing to the limited quantity which may be developed at any one of these dams, no capitalist in his senses would think of paying, or could profitably pay, unless he sold his developed power at a correspondingly exorbitant price? Is Mr. Lang, the representative of the Liberal party in the Dominion House, going to approve of anything like this? If he does so, he need not expect the support of the Examiner in taking such a position. However, we know that he does not approve of anything of the kind, but that he is not only in favour of the progress of the country and county, but of the town as well.

The question for the people to consider is this: Is the town to stand still and mark time for another ten years in regard to the expansion of manufacturing industries? Is the progress of the town to be impeded or retarded? Are the real estate interests of the town to relapse to the state of the past few years? And our building operations to cease? And our carpenters and bricklayers and others in the building trade to be forced to remove from the town to get employment, which the construction operations in connection with new manufacturing industries would create? Are the timber and lumber of our local limits to pass through Peterborough to build up other towns? Why is Hamilton forging forward so rapidly as a manufacturing city? Is it not because the Cataract Power Company is able to furnish power at the motor in the factory at $15 per horse-power? What are the ratepayers of Orillia expending $100,000 for? Is it not to bring power for manufacturing purposes a distance of fifteen miles, whi e the Otonabee Power Company places at the disposal of the community 400 horse-power without any expense for development or without any responsibility on the part of the town.

Is there any good reason why, in this happily situated town, electricity should not be provided at so reasonable a rate that every house even the humblest, could be lighted with it? If there were any reason would not the reason be in the existence of a monopoly founded upon a practical conspiracy of two corporations to hold up citizens by holding up the price of light and the price of power. The views of these men should not be considered in the matter of power development. It must have been very amusing to Hon. Mr. Blair at the recent interview in Ottawa— he must have been laughing in his sleeve at the idea of monopolists fighting competition before, and urging the claims of monopoly upon, a member of a Liberal Government, the guardian of the people's rights. Mr. Blair has now a splendid opportunity of serving the public interests, of serving the interests of the people of Peterborough, and we believe that he will make a right decision, such a decision as the people expect him to arrive at. It must have struck Mr. Blair as a peculiar instance of brazen assurance on the part of monopolists, if they thought they could induce the revocation of an Order-in-Council passed in good form and in good faith, and the failure to carry out which would be regarded by the public, whose interests would suffer by such revocation, as a breach of faith.

It is well understood that applications for the privilege of developing power at two other dams on the Otonabee River have been made. Peterborough and Lakefield want all the power on the river developed, and in order to bring about its development the Government must see that such conditions are stipulated that only applications with bona-fide intentions of development will be encouraged or entertained—assurance must be secured that development operations will follow a grant of privilege of power. The price of power should not be held at too high a figure of government rental to prevent the supplying of developed power at a reasonable rate. The rate charged the Otonabee Power Company under the conditions of the Order-in-Council granting that Company a concession, seems to be a reasonable one — $1,250 per year — a sum sufficient to pay the interest on the cost of the land on both sides of the river at the dam, the interest on the cost of the dam and to pay the cost of maintaining the dam in good repair for ever. A price that will do this seems ample. The Government does not wish, surely, to charge more than a fair price, and a fair price seems to be one that pays interest on the cost of the dam where the power is developed; especially when a reasonable price is self evidently more in the interests of the people and in the interests of the progress of the country than would be an unreasonably high price—that is one that would discourage development and deprive manufacturing establishments of the privilege of securing motive power at a favourable figure.

The position of the Examiner in this matter is sustained by the citizens generally, and we believe they appreciate the effort we are making to advance the best interests of the town. If a newspaper has any function to perform, it is that of standing up for the rights of the town which supports it, and advocating what will make for its growth and progress. This the Examiner has always aimed to do and will continue to do no matter what unworthy imputations of motive may be made. Mr. Stratton may well afford to regard with indifference the onslaught of the Review, incidentally made in its attempt to defend a monopoly, for it is only of a piece with its past policy of misrepresentation and virulent attack, which have proven so harmless and so ineffective in injuring his position in the estimation of the people, he has tried to faithfully serve.

Addresses and Presents From the People of St. Mary's—Rev. Father Phelan's Feeling Reply—Sentimental and Substantial Evidences of Esteem.

(Lindsay Post.)

Rev. Father Phelan has reason to feel proud of the honours he has received since his elevation to the priesthood about six years ago. These honours do not consist in preferment in office, but in the love and esteem which his faithful and earnest discharge of his priestly duties have engendered, both in his brethren of the clergy, in the hearts of the people among whom he has laboured as a pastor, and in the estimation of our citizens as a body.

For the past three years and seven months he has been assistant to Rt. Rev. Mgr. Laurent. A practical evidence was last night afforded of how Rev. Father Phelan has endeared himself to the people of Lindsay during his brief stay amongst them. His Lordship the Bishop having transferred Rev. Father Phelan to Peterborough, he promptly responded to the call of duty. The position of a Priest resembles closely that of the soldier mentioned in the gospel: "Go and he goeth, come and he cometh; do this and he doeth it."

The people could not permit Father Phelan to leave without expressing their affection for him as a priest, and their appreciation of his services. Last evening over 100 members of the congregation, including a number of ladies, assembled in the spacious C.M.B.A. parlour in the Parish Hall to bid him an affectionate farewell on the eve of his departure for Peterborough, and to give expression to the feelings aroused by a sense of the loss which the parish was about to sustain. Mgr. Laurent was present, also Rev. Father Sullivan of Peterborough, who succeeds Father Phelan as curate of St. Mary's.

ADDRESSES AND GIFTS.

Mr. A. P. Devlin, chairman, opened the proceedings with a few appropriate remarks relative to the object of the gathering and then called upon Mr. W. F. O'Boyle, who stepped forward and read the following address on behalf of the congregation of St. Mary's. The address was a work of art, being engrossed in old scriptural text, with illuminated hand-painted capitals and ornaments, and had been executed by Mrs. A. O'Loughlin. The address read as follows:—

Rev. J. C. Phelan.

Rev. and Dear Father,—The first intimation of your intended departure from our midst came to us when our beloved Monsignor announced last Sunday that, like the soldier in battle, the priest must ever stand ready to march. Our respected and reverend Bishop, acting under guidance from above, has seen fit to claim you for a new and higher field of labour; therefore we add, in the words of the immortal Shakespeare;

"Nor come we to add sorrow to your tears,
But to relieve them of their heavy load."

To say that we will miss you were but a faint idea of our feeling, but we live to realize that—

"'Tis better to have loved and lost,
Than never to have loved at all."

The children of our schools lose in you a director and guardian that will be difficult, if not impossible, to replace, and not only the children but the parents as well have been silent observers of your zeal and magnificent work in the cause of Catholic education.

Our C.M.B.A. of the Lindsay branch owe you endless gratitude for the assistance you have given them, and the masterly way in which you have advanced their interests.

The congregation of St. Mary's will ever hold you in mind and heart for the noble use you have made of those superior qualities with which heaven has endowed you.

The community at large is your debtor, for the good example of a noble and manly character which it is your happiness to possess. You number among your friends many of our separated brethren, who have always been edified by the purity and holiness of your life.

For these, and many, many other reasons, have we to be grateful to you, therefore we would ask you; before parting from us, to accept this purse as a slight acknowledgement of your noble work, and as an evidence of our love and regard for your sacred person.

Your silent deeds of virtue performed amongst us have added another jewelled span to the bridge between time and eternity; and we pray that when you cross over the surging waters that lie beneath it, you may meet at the heavenly harbor your affectionate people of St. Mary's, Lindsay.

—Signed on behalf of the Congregation,

Daniel O'Connell,
John Kennedy,
W. F. O'Boyle,
Jas. Greenan,
A. P. Devlin,
Geo. McHugh.

At the proper moment Mr. P. J. Hurley presented Father Phelan with the purse, which contained $225 in gold.

FROM THE ALTAR BOYS.

Next came the following address from the Altar boys of St. Mary's, which was read by Master W. Duffus, Master Jas. Gillogly presenting the accompanying gifts — a handsome travelling case and a costly desk clock. Following is the address:—

To the Rev. Father Phelan, from the Altar Boys of St. Mary's Parish, Lindsay.

It was with deep feelings of regret and sorrow, that we, the Altar Boys of St. Mary's parish, Lindsay, received the announcement of the departure from our midst of you, our prized priest and friend.

We earnestly hoped that the separation would not take place so soon, but since His Lordship Bishop O'Connor has recognized in you those stirling qualities worthy of his highest consideration, and which necessitate your removal to a newer and higher sphere, we most reluctantly bow to the inevitable, and, in common with the other members of your flock, assemble on this occasion to congratulate you on your well-merited elevation, and to testify in a slight manner our undying love and admiration for you, our beloved instructor, and to give evidence of our heart-felt sorrow at your leaving.

For nearly four years you have zealously laboured amongst us, unceasingly for our spiritual and temporal welfare. You have tenderly watched over us in our trials and difficulties upon the Altar steps, and all your instructions, imprinting upon the soul God-like characteristics, have been marked by the finest, the worthiest, and the rarest part of the holy gift of fortitude —patience.

Your unostentatious efforts and endless months of toil for God and Church have endeared you to us all. Some of us, who first knelt by your side at the Altar of God on your advent to the parish, have grown into manhood and entered the body of the church, carrying with us cherished recollections of the pleasing smile and fatherly affection of our curate.

Your kind words, your sympathetic looks, your consoling manner and cheering ways, are now, to us, golden memories of the "irrevocable past," but they speak more eloquently to the hearts of the Altar Boys, than can any written record of your life.

We congratulate you on your most deserved promotion, and trust that it is but a forecast of further ecclesiastical honors. We are loath to say to you "Farewell," but we do so, resting in the sweet and consoling assurance that your thoughts will often be directed towards St. Mary's Altar Boys, and your prayers will rise for us as incense upon the Altar of God.

We ask you to accept this slight token, and hope that to look upon it will be to remind you of the Lindsay Altar Boys, and their admiration of your zeal for them.

—Signed on behalf of St. Mary's Altar Boys,

J. D. O'Connell,
J. B. Duffus.

FATHER PHELAN'S REPLY.

Father Phelan was visibly affected when he rose to reply, and some moments passed before he regained his self-command. Nor was he alone in his manifestation of deep feeling — many of his hearers were likewise stirred. The incident afforded a powerful and affecting proof of the nature of the bond which has existed between the congregation of

THE STORE THAT NEVER DISAPPOINTS

DRESS GOODS NEWS

Not too early to be deciding on what's to be worn. Plain cloth effects are undoubtedly in first for fall costumes. These comprise

Broad Cloths, Amazons, Satin Cloths, Venetians, Coverts, Poplins, and Fine Twills,

while Cheviots, Freizes and Camel Hair effects will be decidedly popular. The trimmings for the fall costumes are very elaborate and catchy in designs and colourings. We are justly enthusiastic over our exceptional showing of New Dress Fabrics and accessories.

Our Dressmaking Department

In charge of Miss Hancock, of Toronto, is at your service.

A FEW OF OUR NEW LINES

GREY VIGOREAUX AT $3.

One of the nattiest cloths for fall wear is this line of imported Vigoreaux. This cloth has a smooth crepaline face, and comes in colourings of grey only,

PRICE $3.00 PER YARD.

52 INCH VICUNA, 75c.

300 yards of this popular cloth has been secured at a very low figure. It has both weight and width, fine smooth surface, in colourings of grey, brown, etc., suitable for tailor-made costumes and skirts,

EXTRA SPECIAL AT 75c.

COVERT TWILL, $2.00.

A handsome 49 inch cloth in a very high finish, twill effect, a perfect cloth for either tailor-made costumes or dresses —made by Priestly and guaranteed.

PRICE $2.00.

COLOURED AMAZONS, 85c.

This is a very fine imported Cloth, in seven new colourings, 48 inches wide, a regular dollar quality.

FOR 85c PER YARD.

PRIESTLY'S CORK SCREW, $1.

Made of finest wools, a perfect black, hard finish insuring both wear and service,

PRICE, $1.00 PER YD.

BLACK DRAPE DE PARIS.

This is a 6/4 medium cloth which combines best wearing qualities with perfect colourings—nothing nicer for fine dressy gowns,

PRICE $1.50.

IN A LONDON SLUM.

How the Other Half Lives, as Shown in Clerkenwell.

They were a couple of dirty little urchins tossing pennies at the entrance of a Clerkenwell court on a summer Sunday afternoon. Their hats were crownless, their bodies coatless and their feet bootless. Indeed, their entire apparel seemed to consist of two hat-rims and some tattered ticking shirts and trousers, the bottoms of which were torn into scallops, squares and other fancy patterns. The little alleyway where they stood guard was dark and ill-smelling, yet from the rear there issued sounds of music such as one would scarcely expect to hear in that neighborhood. "Who makes the music?" I asked of the boy whose penny had turned up on its head. "What? You mean the hymn tunes and sech! Them's the mission folks what comes round every Sunday to preach and pray and sing," he answered. "Never seen 'em or 'eard 'em before, miss?" asked the other boy, with that happy self-satisfied air so often assumed by children when the find they are in possession of knowledge denied to their elders. "See 'ere, Jim; let's stop tossin' coppers—'taint right nohow on Sundays—an' we'll 'scort the laidy in among the mission folks. Can ye sing laidy?" On assuring him that I could sing, he and his companion, one on either side of me, escorted me in through the narrow alley towards the centre of the court. There I found it wider than at the entrance, so wide that it was possible to stand six or seven abreast. Three-storey buildings were on the three sides of the court, and from every window there peered several faces. There were men in their shirt sleeves, smoking pipes, and men with aprons tied round their necks. They had stopped in the middle of their Sunday shave, with hands holding a razor suspended in midair. There were women with plaid shawls crossed upon their bosoms, their hair in knots which had apparently not been untwisted since the preceding Sunday; and there were children of all ages and both sexes, garbed in the simplest and scantiest of summer raiment, sitting and standing by the open windows and doors, all intent on listening.—Quiver.

Paid the Bishop's Fare.

Dr. Carpenter, the Bishop of Ripon, is one of the most popular clergymen in England. He is a man whose natural impulse must be to throw off his coat and work in his shirt sleeves. "I never address the Queen at all," he told somebody who asked him if he felt nervous when preaching before Queen Victoria. "I know that there will be present the Queen, the princes, the household and the servants down to the scullery maid." Dr. Carpenter is not ashamed to ride in a bus and has often told the story of a penny ride from Westminster to Charing Cross. When the ticket collector came round, the bishop found, to his astonishment, that he had not a penny in his pocket, and neither had his wife, who was with him. Dr. Carpenter made up his mind to borrow the money when he alighted at Charing Cross, but before he reached his destination a workingman with a bag of tools thrown over his shoulder turned to him as he left the bus and said: "Don't you bother about that. I've made that all right." Almost before the bishop could say "Thank you" the man with the bag was gone, and Dr. Carpenter found that he had paid his fare and that of his wife to the end of the journey.

A Comical Blunder.

One of the most ludicrous mistakes made by the telegraph was caused by the loss of a single dot in a telegram from Brisbane to a London news agency. As it reached London it read, "Governor-General twins first son," which the news agency "edited" and sent around to the papers in the following form: "Lady Kennedy, the wife of Sir Arthur Kennedy, Governor-General of Queensland, yesterday gave birth at Government House, Brisbane, to twins, the firstborn being a son."

The telegram arriving in the small hours of the morning, there was no time to check it or refer to Debrett, and it was published by most of the newspapers in London and the provinces and caused an unexpected sensation. Sir Arthur's friends pointed out with conclusive force that some one had blundered, as there never was a Lady Kennedy, Sir Arthur being a bachelor.

The repeat message which followed read:

"Governor-General turns first sod," referring to a railway ceremony.

London's Witty Cabbies.

"Riding down Oxford street this morning on top of a 'bus," writes William E. Curtis, from London, "I poked the driver in the back with my umbrella, as Americans usually do, and asked him questions. He was good-natured, and answered them cordially. Some of his retorts were quite witty. You seldom find a 'bus driver in London without a keen sense of humor, and they all like to talk. As we were passing old Newgate Prison, I enquired, 'How do you get inside that place?' What I wanted to know was whether I must go to some official for a ticket of admission, and this was his answer: 'When you get hoff this 'bus go hup be'ind the first cove you see and 'it him 'ard has you kin in the 'ead. The bobby will do the rest.'"

Why Catarrhozone Cures Catarrh.

Because it is carried by the air you breathe to diseased parts, because it destroys the germ life that maintains the diseased condition, because it powerfully stimulates the mucous membrane to its normal action, because through its oxydizing power it burns up rapidly the old tissue and stimulates the formation of new healthy tissue. Catarrhozone is an absolute specific for catarrh in every form and never fails to cure. Catarrhozone is the only remedy sold with a guarantee. At all dealers, 25c and $1.

CAUGHT IN AN EXPLOSION.

A Miner's Description of His Feelings When He Was Blown Up.

A miner who was blown up while blasting a rock describes his sensations thus:

"You see, it's so sudden. It's over just about the time you begin to understand that something is happening. You know, I had the cartridge in my hand and put it down. Then I got afraid of it. All at once everything was light. I don't think I saw the flash. Anyway my face was not exactly toward the explosion.

"But then everything got light, lighter than day—kind of blinding. There was an awful crash. It was just at the same time. I was terrified and wanted to get away. It was just as if I was having the nightmare. Somehow, though, I knew just what the matter was. A man can think faster than he has any idea of. I knew that some of the others were nearer the explosion, and I said to myself, 'They're blown in bits, that's certain.'

"You understand, this was all in a second—all at once, really. Then it was exactly the same as if I had been hit with a stick. I thought it was a big stick, bigger than any man could swing, and that it must be worked by machinery. It hit me on the head and all over. I went sailing into the air a long, long way. My ears roared, and the wind blew into my face. I knew when I struck the ground, for I remember saying to myself, 'Well, I'm done for.'

"I don't know just when I lost my right senses or when they came back, but when they did come back it seemed queer that I was there still. I thought I had been thrown somewhere else. I could feel fire burning me. It was my clothes. They were smoking and almost blazing. I was bruised all over and could not hear very well. My voice sounded as though somebody else were talking. That's all I can tell you about it."

THE LIQUOR HABIT.

Rev. A. J. McCallen's Lecture.

On the occasion of a lecture delivered before a large and appreciative audience in Windsor Hall, Montreal, in honour of the Father Matthew anniversary, Rev. J. A. McCallen, S. S., of St. Patrick's church, and president of the St. Patrick's Total Abstinence Society, paid the following grand tribute to the value of Mr. Dixon's new discovery for the cure of alcohol and drug habits.

Referring to the physical craze engendered by the inordinate use of intoxicants, he said: "When such a craze manifests itself there is no escape, unless by a miracle of grace, or by some such remedy as Mr. Dixon's Cure, about which the papers have spoken so much lately, and if I am to judge of the value of the Dixon remedy by the cures which it has effected under my own eyes, I must come to the conclusion that what I have longed for twenty years to see discovered, has at last been found by that gentleman."

Full particulars of this new medicine are sent sealed free to all applicants. Address, Mr. Dixon, 81 Willcocks street, Toronto, Ont.

Deserved Good Clothes.

A gentleman was once walking behind a very handsomely dressed girl and thought: "I wonder if she takes half as much pains with her heart as she does with her clothes?"

A poor old man was coming up the road with a loaded wheelbarrow, and just before he reached this girl he made two attempts to go into a yard, but the gate was heavy and would swing back upon him before he could get through.

"Wait," said the young girl, springing lightly forward. "I'll hold the gate open." She did so, and received his thanks with a pleasant smile.

"She deserves to have beautiful clothes," thought the gentleman, "for she has a beautiful spirit."

JAPAN'S HENRY IRVING.

Danjuro One of the Greatest Actors in the World.

One of the greatest actors in the world to-day, and incomparably the greatest in his own country, is Danjuro of Japan. A few Europeans have seen him act recently, and they describe his performance as wonderful.

Whenever he plays in Tokio there is an audience of at least 2,500, and there is always a large crowd which is unable to obtain admission. The play in which he excels is a drama portraying a conflict between loyal-

DANJURO, JAPAN'S ACTOR.

ty and paternal love. Danjuro in it plays the role of a vassal who is required to kill his own son, because only thus can lasting happiness be assured to his feudal lord.

The son is willing to die, but the father hesitates to slay him, and it is Danjuro's masterly portrayal of the struggle between loyalty and love that has helped much to win for him his great reputation.

Professor Mitsukuri, after a close study of the European stage, says that, on the whole, he prefers the Japanese style of acting.

"Danjuro's performance," he says, "may seem to foreigners rather grotesque and conventional, but they all admit that in the more sublime passages he is exceedingly impressive and natural. He does not make many gestures, but his eyes and the muscles of his face reveal clearly what is in his heart. Several companies of European actors have appeared in Japan from time to time, but their performance did not produce the slightest impression on the Japanese.

"If the greatest actor in Europe were to go to Tokio there is no doubt that the Japanese aristocracy would invite him to their homes and attend his performances, but it is equally certain that after his departure they would hurry to see Danjuro and would silently confess to one another that he was infinitely superior to the European."

It is said that he is contemplating a visit to the West.

A BIG HANDICAP.

A man with a lame back does not feel much like working and you cannot blame him. Jeremiah Redden, carpenter, No. 7 Cowdy St., Kingston, Ont., suffered with rheumatism in his back (lumbago) for two years. Five bottles of Dr. Hall's Rheumatic Cure completely cured him. This great blood purifier is put up in bottles containing ten days treatment. Price 50 cents at all drug stores or Dr. Hall Medicine Co., Kingston.

Stevenson's Cup of Misery.

R. L. Stevenson, writing in 1893 to George Meredith, in an epistle quoted in a new edition of his "Letters," says, with heart touching pathos:

"For 14 years I have not had a day's real health. I have wakened sick and gone to bed weary, and I have done my work unflinchingly. I have written in bed and written out of it, written in hemorrhages, written in sickness, written torn by coughing, written when my head swam for weakness, and for so long, it seems to me, I have won my wager and recovered my glove. I am better now—have been, rightly speaking, since first I came to the Pacific—and still few are the days when I am not in some physical distress. And the battle goes on—ill or well is a trifle so that it goes. I was made for a contest, and the powers have so willed that my battlefield should be this dingy, inglorious one of the bed and the physic bottle. At least, I have not failed, but I would have preferred a place of trumpetings and the open air over my head."

The Life Line in One's Hand.

There are three prominent lines in the palm—the line of life, that of the head and the heart line.

The line of life begins on the inner boundary of the palm, about midway between the thumb and the forefinger. If we imagine the left hand to be a map, with the fingers pointing north, this line runs toward the southeast, then curves toward the south and in some hands curves finally toward the southwest. It thus skirts the base or "uprise" of the thumb, known as the uprise of Venus. If it is deep, broad, of good color and extends nearly or quite to the wrist and if the rest of the hand indicates vitality and cheerfulness, the subject may be expected to live to a green old age; he has a good disposition and the qualities which good health and good temper usually create.

LOST HIS BUSINESS!

Ill-health "puts the shutters up" in many an honest man's business, and there are thousands of cases on record where the only seeming power on earth to take them down again is South American Nervine.

"I was completely prostrated with Nervous Debility. I had to give up business—doctors only helped me temporarily. I was the most discouraged man alive when I started taking South American Nervine, but the splendid cures I had read gave me hope, and I had not taken half a bottle before I found relief. I took twelve bottles, but am cured."—E. Errett, Merrickville, s

SAVAGES IN JAPAN.

THE HAIRY AINOS AND THEIR RESERVATIONS IN THE EMPIRE.

Odd Customs Practiced by These Aboriginal People of Japan. Unique Styles in Baby Names. Their Resemblance to Our Indians.

The Ainus, generally known to Americans and Europeans as "the hairy Ainos," are the only aboriginal people now living in Japan. They are called "hairy" in contradistinction to the smooth faced Japanese, Koreans and Chinese. Their present home is in Hokkaido, or Yesso, the most northerly part of the empire, although it is supposed that in earlier times they occupied most of the entire country. Ancestors of the Japanese of today found them in possession and by force of superior arms and civilization gradually drove them to the north, much in the same way as the savages were driven back toward the Pacific by the early settlers in America.

The Ainus live today pretty much as the Indians on their reservations in the west. They are still for the most part half savage, and the Japanese name for them, "Yesso," means barbarian. They are very skillful in hunting and fishing, which are their chief occupations. They are under the protection of the imperial government and are entirely separated from the Japanese. The latest census showed that they number very nearly 17,000.

Among the many curious customs of the Ainus perhaps the quaintest is their method of naming their children. They observe a peculiar economy in giving names. The infant must go without a name until it shows itself worthy of bearing one. If it is sickly and not likely to live, it is not considered worth while to waste a name upon it. As each child must by immemorial custom have a brand new name, used by no one in the community, names are scarce and must be guarded. If the child should be given a name borne by some one else, the ghost of the former possessor of the name may come back from the underworld to avenge the slight.

It is customary to take a name from some incident that occurred at the child's birth or it is left to the parents afterward to choose one for it. Should the infant come into the world with a smiling face it might be called Ikishimaburu, which means a smile, or fond parents may call it Kamolssage (a pulling rope of the gods) if they wish their child to be in the special care of the gods.

From the age of 7 to 10 Ainu children of either sex have their heads shaved, but after 11 they are allowed to have long hair and wear the same clothes as grown persons. They wear no clothing unless the weather is very cold.

The favorite and almost exclusive ornament is the earring, usually made of metal. What clothing is worn is made of straw. They never wear shoes or other covering for the feet except as a great luxury and mark of distinction on ceremonious occasions.

The men carry small knives and tobacco pouches, and the women carry small looking glasses and knives. The knife is used as symbolic. The maiden wears it with the blade bare, but when she marries it is worn in a sheath. The women also paint their faces, using a kind of ink for the purpose.

The Ainus live mostly by fishing and hunting. They hunt the bear and deer, catch salmon and other fish and grow potatoes and millet. Whenever they can get it they eat rice, which they regard as the best food, though they do not raise it themselves. Both sexes smoke tobacco and drink liquor.

The marriage customs differ widely from those of the Japanese. The question is first settled between the youth and maiden, who then refer the matter to their parents through a mediator, who should be a relative of the prospective bridegroom. The man must send a present of lacquered ware, which is regarded by them as one of the most precious things in the world. This, however, is reclaimed by him if his wife afterward seeks a divorce.

Ainus live in dwellings of about the same class as those of the American Indians. The rude hut has two windows, one of them for ordinary earthly uses, the other reserved for the entrance of the gods.

Woman is fairly treated and held in deep respect. The man is not allowed to enter the house when the woman is in it alone, and he is not permitted to walk behind a woman. When a man meets a woman, he must salute first, by smoothing his beard and rubbing his hands. Then she responds by touching her nose with a finger of her left hand.

During October the Ainus hold a religious fete, which is called the bear festival, because they sacrifice a bear which has been carefully fostered for three years.

Judicial punishment among the Ainus consists of a severe beating with a stick administered to the culprit. The crimes are generally theft—stealing articles or the wife of a neighbor. As there are eight men to one woman the majority of the males are not married, and wife stealing is very common. The accused is subjected to a long examination by the chief of the community and is then compelled to resort to the ordeal of fire. He must take a stone out of boiling water. If innocent, the Ainus think he will not be injured. If the question cannot be settled in this way, the principals in the dispute must fight it out.

The Ainus are polytheists, though they limit their gods to two, a god of fire and a god of water. The first is called Kabekamoi and the latter Hatokamoi. They, also, like most peoples who have a religious system, believe in some sort of heaven and hell.—Japan and America.

HEART DISEASE

is a symptom of Kidney Disease. A well-known doctor has said, "I never yet made a post-mortem examination in a case of death from Heart Disease without finding the kidneys were at fault." The Kidney medicine which was first on the market, most successful for Heart Disease and all Kidney Troubles, and most widely imitated is

Wood's Phosphodine is sold in Peterborough by all responsible druggists.

"COMMON SENSE"

Is the motto of the modern woman. The thick soled shoe and the rainy day skirt are witnesses to the wise application of the motto in matters of dress.

But there is no common sense in neglecting womanly diseases or in experimenting with other medicines when it is a matter of common knowledge that Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It establishes regularity, dries enfeebling drains, heals inflammation and ulceration and cures female weakness.

It is not common sense to seek medical advice of those who are not physicians when Dr. Pierce, not only a doctor, but a specialist in the treatment and cure of diseases of woman, offers a consultation by letter *free*. Write to Dr. Pierce, Buffalo, N.Y.

"I had falling of internal organs and had to go to bed every month; had irregular monthly periods which would sometimes last, ten or twelve days," writes Mrs. L. Holmes, of Coalspring Street, Uniontown, Penna. "Had also indigestion so bad that I could not eat anything hardly. Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery cured me. I took three bottles of the 'Favorite Prescription' and one of the 'Golden Medical Discovery.'"

For 21 one-cent stamps to pay expense of customs and mailing *only* you can get *free* a paper covered copy of Dr. Pierce's Common Sense Medical Adviser. The book contains 1008 pages. Address Dr. R. V. Pierce, Buffalo, N. Y.

Up-To-Date

Surprise Soap possesses all the qualities that go to make an up-to-date soap.

It removes the dirt with the least amount of rubbing, keeps the hands soft and smooth, and saves the temper of the laundress.

It differs from other soaps in that it gives superior quality at a price asked for poorer soaps.

Remember the name—SURPRISE.

POPULAR SCIENCE.

Mercury's year is only 88 days, that of Venus 225 days and of Mars 687 days.

Cumulus, or thunder clouds, rarely rise over two miles. Seven miles is the outside height for any cloud.

The edge of the moon is so broken by peaks, ridges and valleys that the length of totality during a solar eclipse is affected by them.

The sun's heat raises from the earth 37,000,000 tons of water a minute. To do the same work artificially a cube of coal 200 miles deep, wide and high would have to be burned every second.

The archaic, wasteful "beehive" oven process of making charcoal has been superseded in many parts of Germany by modern methods which save all the ammonia, gas, tar and other products of the wood.

A human body contains some of the small things of nature. The blood, for example, is a colorless liquid in which little red globules are floating. Every drop of it contains about a million of the globules, and they are susceptible of division into smaller globules still.

Making the Blind See.

Success in desperate cases by conservative treatment is the lesson often repeated and yet never quite sufficiently learned by any physician or surgeon. The infinite ingenuity behind the healing processes, the never renounced struggle toward normality, is an ever renewed source of wonder. All that is needed to elicit it is confidence in it, delay in doing anything radical, watchfulness to follow up the hints to action as they begin to show themselves.

We know of a living and happy patient who ten years ago had albuminuric retinitis from long existing Bright's disease despite what all the textbooks say as to "two years" in such cases. "Don't do the irrevocable thing until forced to do it" is the warning that has saved many organs and lives. Above all, never proceed with surgery ("the despair of medicine") until physiologic and medical methods have been exhausted.

The Wiener Klinischer Wochenschrift tells of the success of Herr Heller, director of an asylum for the blind, in educating the remnant of visual power retained by a "blind" child. There was only perception of light in a narrowed field left, but this by education was made to yield such indications to the eager mind that after 14 months of endeavor the boy has very useful vision, can distinguish colors and forms and even can read.

There are possibly thousands of blind people who have renounced vision instead of cultivating it to a degree that would render the blind types useless.—American Medicine.

Hawk and Partridge.

In "Reminiscences of a Falconer" Major Fisher describes the tactics of a partridge when pursued by a tame falcon.

The falcon was descending upon the partridge when the partridge stopped short and fell to the ground as if dead. He seemed to be lost in the short stubble of the field. He was far too knowing to trust himself again on the wing, and the hawk had no alternative but to take him on the ground, which he speedily attempted to do.

But on the ground the partridge was far more agile than he, running this way and that with great speed. The hawk would jump awkwardly up and dart after the scudding partridge, who just at the right moment jumped from the ground and over his back, descended on the other side and commenced running harder than before.

Time after time this was done. At every attempt the partridge met the hawk with outstretched neck and raised hackles, in the attitude of a fighting bantam cock, jumping up to avoid being clutched whenever the hawk struck at him. In fact, his whole action was that of a plucky little game bantam.

This went on for some time, until, as I regret to say, I ended the unequal strife by putting the partridge once more fairly on the wing, when, of course, the hawk readily overtook and captured it, not overmuch to his credit and still less to mine.

A Fish and Lizard Story.

One afternoon I thought I would go down the river and troll. I had on my hook a live minnow and in a little while had a strike, and I hooked my first fish, which seemed to be quite a large one. I reeled him where I could see him and found it was a large pike 25 or 30 inches long. I pulled him up to my boat, but when I lifted him from the water he was as light as a feather. I measured him and found he was just 30 inches long and should have weighed eight or nine pounds, while he only weighed two. He was just skin and bones. I killed him, took my knife and cut him open and found a live lizard, five inches long, in his stomach. The reptile was as black as coal and very lively, living 24 hours after I took him from his prison.

What Causes Pain?

Most pains and aches come from excess of uric acid poisons in the blood, due to deranged kidneys, rheumatism, back ache, lumbago, pains in the sides, and limbs, accompanied by bladder and urinary troubles, are warnings too serious and painful to be neglected. Dr. Chase's Kidney-Liver Pills act directly and specifically on the Kidneys, make them active, vigorous and thoroughly cure these ailments. One 25 cent box of this great Kidney medicine will do you a world of good.

Without a Ring.

A wedding without a ring seems incongruous, but in Cadiz, Spain, no ring is used. After the ceremony the bridegroom moves the flower in his bride's hair from left to right, for in various parts of Spain to wear a rose above your right ear is to proclaim yourself a wife. Thus the rose takes the place of the ring.

A boy is like a fountain pen. You can't tell from what he costs whether he will make his mark or not.

Among the Burmese a newly married couple, to insure a happy life, exchange a mixture of tea leaves steeped in oil.

History of Merrill's System Tonic

This now famous remedy is not a hap hazard mixture. On the contrary it is the result of years of careful thought and experiment, having always the definite object in view of combining alterative herbs with a definite tonic for each organ in the body. Alteratives are medicines which assist the glands of the body to throw off waste and poisonous matter and absorb the nourishment provided by the food eaten. These glands are found in the stomach, kidneys, bowels, bladder and lungs. Besides these glands, each of these important organs is composed of more or less muscular matter, and it is upon this that tonic medicines act. A different tonic is required in almost each of these sets of muscles. After much observation the alterative mixture originated and prescribed by Walter S. McDade, of Philadelphia, and highly indorsed by Edwin F. Rush, of the Bellevue Medical College, of New York, and J. Marion Sims, of the Chicago University of Medicine, all medical men of the highest standing on the continent, was chosen. To this compound was added the different tonics above described. Merrill's System Tonic cannot be called a quack medicine, as knowledge and skill are behind it. It accomplishes four great purposes, on which ninety per cent. of disease hinges, viz., purifies the blood, builds up the glandular and muscular system, strengthens and soothes the nerves and cures constipation. It thus guarantees you a permanent cure for dyspepsia, skin disease, kidney troubles, general debility, nervousness and female troubles.

The Rugby Men had Their First Practice.

The First Wagon Goes Through the Cox Highway of the Lift Lock—Lady Rugby Enthusiast.

The Rugbyists had their first skirmish on Saturday afternoon, on the P.A.A.A. grounds, after the baseball match between the Elms of Ashburnham, and the Auburns. Considering that the weather was very warm, and far from that which characterises the Rugby season, the turn out was good, and the brief work-out was much enjoyed by the boys. Capt. Hal Burnham was on hand, and went into the practice with great spirit. Ex-Captain McWilliams surprised those present by turning out in full regalia. It is seldom, indeed, that the president of a Rugby Club is seen chasing the pigskin, but its shows the interest that such an official takes in the affairs of the club. "Bill" Crowley, the First Vice-President, was on hand, too, as well as Hurtuboise, Rickey, Chris Graham, Herb Wood, "Jim" Lundy, Paterson, Parnell, and others. Corp. R. G. Sturgeon made his debut on the football arena, and gives promise of developing into a heavyweight. The boys had a splendid work out, and from this time forward the Rugby season will be in full swing.

* * *

The downward traffic from the lakes during the past week has been almost exclusively of Americans, who are on their way home after spending the summer, or at least a greater portion of it, at the Kawartha Lakes. On Saturday the Grand Trunk station was crowded with Americans who were waiting to take the Port Hope train for the south. One gentleman, with an exceptionally Yankee accent, who is evidently an old timer at Stony Lake, remarked in the general waiting room at the station house, "When I came up to Stony Lake first, it was a very rare thing to see an American. If I did I went up and spoke to him, no matter who he was, or what part of the country he came from. Now, however, and particularly at this season of the year, it is a rare thing to see any others than Americans coming down from the same lakes." Mr. Yankee fully realized the rapid growth in the American traffic to the back waters.

* * *

The Sporting Editor is in receipt of the following communication:

"I notice that the Peterborough Rugby Club has organized for the season. I am one of the many girls who take a deep interest in Rugby, and I have watched with pride the record of the local team during the past year or two. I am fully aware of the expense that is involved in maintaining a team in the O.R.F.U., (I think that is the name, Mr. Editor,) and I suggest that the ladies of the town be allowed to assist in some manner in the finances of the club. I feel sure that every girl who attends the matches, and the annual dances, too, will show their interest in the club by subscribing something. Hoping to hear from others on the matter, I am, yours, etc., North-Ender."

* * *

Regarding the above communication, and the ideas expressed therein, there can be no doubt that the Rugby boys would highly appreciate any financial aid that the young ladies of the town might volunteer. However, it seems like accepting too much to allow the girls to go down into their own pockets, or purses rather, to contribute to such a fund. But the idea of young ladies assisting in the finances of an athletic club is not altogether a new one. Some years ago when the handsome Rosedale grounds of Toronto were about to be sold under mortgage, the ladies, including many prominent society women of Toronto, engineered a bazaar which netted a neat little sum of money towards redeeming the property. Again, a few years ago, the young ladies of Orangeville undertook to collect money for their lacrosse club. They succeeded nobly, and that season they obtained in some manner from the citizens of the town a couple of thousand dollars — of course this is only mentioned to show what ladies can do in this line and any further suggestions will be cheerfully received. In view of the fact that the Rugby Club's games are played on the Nicholls oval where the admission fee must necessarily be voluntary the club has to depend very much on private subscriptions for their finances.

* * *

A visit to the lift lock these days will show the rapid progress that is being made at this work. The first team of horses and wagon to pass through the Cox highway, in the centre of the great concrete structure went through on Saturday afternoon. The ground has been levelled off to the entrance on either side, and one can now form some idea of the location of the various portions of the work. The team that went through was, of course, one of the teams engaged at the work, but nevertheless it had the honour of being the first to pass through a roadway, that will likely last until the day of judgement.

* * *

The summer has about passed by, the autumn is about upon us, and soon the winter season will follow, and nothing so far has been done regarding erecting a new rink or improving the present one. The consequence will be that Peterborough, which for years has been one of the leading lights in Ontario Hockey Association circles, will have to drop out and down. The club was duly warned of this last season, and on previous seasons, so that it is not likely that they will squeeze through any longer. The other clubs have been kicking for years past concerning Peterborough's "soup plate," and only the pull the local club had on the Association by reason of its long connection therewith prevented the locals from being dropped long ago. However, the climax is about reached and this year will hardly see a team from Peterborough in the O.H.A.

THE PEOPLE HONOUR REV. FATHER PHELAN.

(Continued from 5th Page.)

St. Mary's and their beloved curate. The following is a synopsis of Father Phelan's reply:—

My Dear Friends, — I hardly know how to begin to answer your very beautiful and very flattering address. Your own goodness depicted me what I ought to be, rather than what I am. Almost four years ago I came amongst you a stranger, but before long I recognized that I was amongst friends. I needed not this testimony of your appreciation of my services, small though they were, for on more than one occasion you had given expression to that kindly feeling and high regard which should always exist between the Priest and his people. For when the people work with the Priests and the Priests with the Bishop, then a chain is formed sufficiently strong to remove all obstacles. I have endeavoured as far as lay in my power, through the exercise of my sacerdotal functions, to administer to your spiritual wants, and no greater consolation could come to a Priest than to know that, while labouring for the glory of God and the salvation of souls, he still retained the warm affection and co-operation of his people. In the words of the address you were pleased to ascribe to me many talents and virtues which I feel I do not possess, but whatever may have been my defects or shortcomings my heart was always in my work and the good people of St. Mary's in my thoughts. You have left an impression on me that shall last forever, and which will be a source of strength and comfort to me in my future labours in the vineyard of the Lord. The longer I lived among you, the better I knew, the more I loved you all.

A Priest is ordained to do the work of God, to continue the mission of Christ upon earth. That mission is one of peace, charity, and mutual forbearance. Of peace, in soothing trials and troubles which necessarily fall to the lot of man; of charity, in extending a helping hand to those in need; of mutual forbearance, in pardoning the trivial imperfections to which human nature was subject. This was, and with God's help ever will be my motto through life.

In conclusion, I thank you again for your kind address and exceeding generous purse, and ask a place in your prayers, and in return I promise to remember both you and your children at God's holy altar. It is hard to say good-bye, yet it should not be a sad word, for it is only another way of saying in English, "God be with you.-- I now bid you an affectionate farewell. May God bless you all and may His choicest blessings and gifts be yours.

SHORT ADDRESSES.

Mgr. Laurent paid an earnest and feeling tribute to Father Phelan's worth, saying he had been a true helper and a manly man. The four years of his stay had not been devoid of fruits, and for what has been accomplished he was ready to give Father Phelan full credit. Lindsay would always be a home for him, and he should visit the town whenever he felt in need of a breath of fresh air or warm friends.

Short but interesting addresses were also made by Senator McHugh, Police Magistrate Steers, Alderman O'Rielly, Mr. Thos. Brady, Mr. Jas. Killen, Mr. Kingsley, Mr. A. D. Mallon, Mr. D. O'Connell and Mr. M. J. Kenny, all eulogistic of Father Phelan's good qualities and expressing regret at the severance of pleasant relations.

Father Phelan made a suitable acknowledgement of the felicitations and good wishes showered upon him, and again bade his friends of St. Mary's an affectionate farewell.

During the evening Mgr. Laurent took advantage of an opportunity to introduce to those present Rev. Father Sullivan, the new curate, who received a warm welcome and made a few happy remarks suitable to the occasion.

Father Phelan left for Peterborough this morning at 10.40. A large number of the parishioners who could not be present last evening gathered at the station to bid him an affectionate good-bye.

MONEY LOST IN STREET CARS.

Conductor Estimates That In New York It Foots Up $30,000 a Year.

"Have you any idea how much money is lost in the street cars of this town?" asked a street railway conductor of a reporter the other day after he had picked up a dime and stowed it in an inside pocket. "Well, there's a lot of it, and no one knows it better than we conductors. Hunting for coins on the bottom of my car is one of the regular grafts, and any other conductor who has been in the business long enough to get his eyes open is on the same lay.

"Last year I made up my mind to put away every cent I found in my car in an old iron bank I had at home for the benefit of my youngster. I kept stowing the coins away and at the end of the year I had $6.07. Of course that's not a barrel of money, but it's a right nice pick up for a conductor. The biggest find I made that year was a 50 cent piece. From that the coins ran all the way down to a cent. In the winter time the pickings are especially good, for then every one has on gloves, and coins slip from the fingers to the floor without the owner's knowing it. The only way to be sure you have all the money is to pick up the gratings on the floor. I do that every night as regularly as I eat my supper.

"Now, I've figured it out that if I find $6 in one year it's very likely that the other conductors average somewhere near that sum, maybe more, maybe less. There are several thousand conductors in Greater New York, so that it's safe to say that at least $15,000 or $20,000 is annually dribbled into the floors of street cars by the passengers. In this estimate I don't include large sums, which are sometimes lost in wallets or purses. A conductor is expected to turn these in at the office, and about all of them do. But the nickels and dimes and quarters are legitimate pickings, and we all have our eyes peeled for them."

FLOWER LORE.

The pansy means remembrance.

Chaucer speaks of the daisy as the "e'e of dale."

The carnation was called by the Greeks the "divine flower."

One of the pretty names for the lily of the valley is "the ladder to heaven."

The fragrant honeysuckle has a very pretty meaning—generous, devoted affection.

Hope was delineated by the ancients as a little child standing on tiptoe and holding a clover.

Because of the way in which its petals are marked the French call the sweet william the "poet's eye."

The anemone, according to mythology, sprang from the blood of Adonis, mingled with the tears which Venus shed over his body.

The poppy, so the ancient story goes, was created to allay her grief by Ceres while searching for her beloved daughter Proserpina.

From antiquity the rose, the queen of flowers, has been regarded as the emblem of joy, love and prosperity. It is also the symbol of silence.

In Germany the periwinkle is the flower of immortality, but in Italy it is the flower of death. Garlands are made of it and placed on the bier of children.

The heliotrope represents Clytie, the beautiful nymph who died of love for the sun. The story of Clytie is also connected with the sunflower, which, as well as the heliotrope, means devoted attachment.

Once marigolds were simply called "golds" because of their color, but in the middle ages the name of the Virgin Mary was frequently affixed to anything useful or beautiful, so the flower came to be the marigold.

R. FERGUSON, M.P.P., DEAD.

Represented East Kent in the Legislative Assembly—A Prominent Western Liberal, Wealthy and Popular.

Thamesville, Sept. 9.—Mr. Robt. Ferguson, M. P. P. for East Kent, died here Saturday night at his home, whence the funeral will take place on Wednesday at 2. p. m. The deceased was born in Stirlingshire, where he also received his education. Mr. Ferguson was one of the many who have entered the wider political arena by way of municipal politics, having been a Councillor, Reeve and Warden of his county before his election in 1885, on the death of the sitting member, Mr. McCraney, as representative of East Kent in the Legislative Assembly. Since then Mr. Ferguson has three times successfully contested the riding in the Liberal interest, at the general elections of 1886, 1890 and 1896. As a lumberman he was in close and constant touch with the business community, and his loss will be severely felt, not only in his constituency but throughout a large portion of the Province. By his unostentatious manner, by a kind and judicious use of his wealth and by the rugged honesty of his character he acquired an influence and popularity that made him invincible as a candidate. Never was a harsh word uttered against him in any campaign, and many Conservatives also voted for him. He was a member of the Presbyterian Church and made liberal donations towards the erection of many new churches, Presbyterian and others, during recent years. He was never married. One brother and three sisters survive him.

Grand Master's Condition.

London, Sept. 9.—The condition of M. W. Bro. R. B. Hungerford, Grand Master of the Grand Lodge of Canada, A. F. & A. M., who was stricken with paralysis recently, while still regarded as serious, is somewhat improved, the patient's pulse being stronger yesterday than for some time past. His recovery depends on perfect rest and quiet, but months must elapse before the hoped for result can be reached. He was removed to Victoria Hospital yesterday afternoon.

Balzac's Poverty.

An anecdote of Balzac shows the strange condition of poverty in which he lived even after he had won fame.

He made a visit one evening to the house of one of his pet admirations, Rossini, where he found a party assembled and among them a great singer, then the rage, who had declined to favor the company. Ignorant of this, Balzac begged her to sing a song. "For you? Why, of course, at once." And she did. "Who on earth can that be?" asked an astonished guest of Rossini. "Don't you know? It's M. de Balzac." "Oh, really! Then no wonder."

And all the morning Balzac had been trying to borrow a few francs.

Advice to Mothers.

If your little boy or girl comes home with a sore throat the first thing to do is to rub the throat and chest with Polson's Nerviline. Don't be afraid to use Nerviline freely—a whole bottleful wouldn't burn or blister the tenderest skin. Rub in until all taken up by the pores and just before the child goes to sleep give him a glass of hot water into which 30 drops of Nerviline has previously been stirred. This is a sure, pleasant, and speedy cure. Large bottles 25c.

A SPEEDY RECOVERY

Improvement in President McKinley's Condition Continues.

BULLETINS ARE FAVORABLE.

Dr. McBurney Said He Had More Than a Fighting Chance, and President McKinley Said That He Would Live—The Distinguished Patient Was Cheerful All Day—The Latest Bulletins.

PHYSICIANS' BULLETINS.

Buffalo, Sept. 10.—During the day the following bulletins were issued by the President's physicians yesterday:

9.30 p.m.—The President's condition continues favorable. Pulse 112, temperature 101, respiration 27.

3 p. m.—The President's condition improves and he is comfortable, without pain or unfavorable symptoms. Bowel and kidney functions normally performed. Pulse 113, temperature 101, respiration 26.

9.20 a. m The President's condition is becoming more and more satisfactory. Untoward incidents are less likely to occur. Pulse 112, temperature 100.8, respiration 28.

PRESIDENT'S DETERMINATION.

"Then I Will Recover," Said President McKinley to the Physician.

Dr. McBurney, the famous New York physician, had examined the President carefully, and in response to the latter's earnest request to know the whole truth, he had just declared that the President had better than a fighting chance.

After Last Bulletin.

Milburn House, Buffalo, Sept. 10.—After the 1 p. m. bulletin had been issued from the Milburn residence last night, announcing a continuance of the favorable conditions of the President, there were many indications that the bulletins were but meagre indications of real improvements of the distinguished patient.

At 9.45 o'clock Miss McKinley, a sister of the President; Dr. and Mrs. Hermann Baer, the latter a niece of the President, and the Misses Barber, nieces of the President, left the house, and, taking carriages, announced their intention of returning to their homes last night.

Abner McKinley accompanied them to the station, and said: "The nearest relatives of the President are so confident of his recovery that they have no hesitation in leaving."

CONTINUED IMPROVEMENT.

President's Condition Shows Steady Improvement—How the President Passed Monday—Danger Yet, Though.

Milburn House, Buffalo, N. Y., Sept. 10.—"God's contribution to the American people will be the sparing of the President's life." As the evening shadows were falling last night, John G. Milburn, President of the Pan-American Exposition, reverently uttered these words as he stood before the house in which the nation's patient was fighting so bravely with death. And all who have been at the Milburn residence yesterday reflect the view that the battle will be won and the prayers of the world will be answered.

Since Sunday night not an unfavorable symptom has appeared. Every hour has been a victory. Faith in the outcome grows stronger and stronger, and hope mounts higher and higher, until in the minds of some the danger of all future complications is brushed aside and hope has become conviction. Indeed, many of the President's friends seem possessed with a sort of superstitious confidence in the President's recovery, which nothing but an absolute change for the worse can shake. And the basis for the confidence that is expressed is solid.

There has been nothing but improvement, gradual and slow, but steady improvement. The reports the physicians have given out are facts as they exist, the scientific standpoint unmixed with sentiment. Still the President is by no means out of danger, is the verdict of each of them. Not one of them will risk his professional reputation with a statement that the President will live. All they will say is that with every hour the danger of complications from peritonitis or blood poisoning decreases.

Dr. McBurney, the most eminent of the physicians in attendance, expresses the opinion that, if the improvement continues, it will be a week yet before the President can be pronounced out of danger and convalescent. And some of his colleagues, like Dr. Mann, place the limit of danger still further away. The fear of peritonitis, it can be said positively, has well nigh completely disappeared. With the expiration of the 72-hour period at 4 o'clock yesterday afternoon, danger from that source was almost gone.

The President himself has been cheerful all day and has expressed confidence in his recovery. Yesterday he asked for a morning paper, but this, of course, had to be denied him. It is with some difficulty that he can be restrained from talking, and Col. Myron Herrick of Cleveland is quoted as authority for the statement that he has spoken at intervals of several things he proposes to do in the future. Yesterday morning he asked to be allowed to move his position, and when permission was given, before the attendants could move him he changed to the position he desired to assume without difficulty or pain. This speaks much for his general strength and spirits.

Mrs. McKinley saw him again yesterday for a brief visit, and Secretary Cortelyou was admitted for the first time. No one else was allowed to see him, though he inquired several times who were below stairs.

He was given nourishment yesterday in the form of eggs beaten in milk, administered through the rectum. The water which has been given heretofore cold did not appear to agree with him and since Sunday night very hot water has been taken into the stomach through the mouth, with splendid results. His bowels moved freely during the day, and this also was considered an excellent symptom.

If he continues to improve it will be gradually. If he should grow worse, the change in that direction will also probably be slow. This is the opinion of Dr. Mann. There will be no crisis. If he arrive at convalescence, Dr. Parker expresses the opinion that it will be three weeks before it will be safe to move him. It is expected that the interior wounds will heal first. The sutures of the lacerated tissue were made so soon after the bullet passed that they are probably healing rapidly. With the exterior wound, it is a slower process.

From the Czar.

Emperor Nicholas gave happy expression to the world-wide solicitude over the President in a message which was given out during the day. It is addressed to the President, and, after expressing his happiness at the President's improvement, adds that he joins with the universal world in wishing a speedy recovery.

THE PRESIDENT DOING WELL.

Dr. McBurney's Opinion—A Quick Recovery Is Hoped For.

Buffalo, N. Y., Sept. 10.—Dr. Charles G. McBurney of New York, who was called here to take part in the consultation Sunday, gave an interview to a reporter last night at the residence of Dr. Mann. With the latter he had just returned from seeing the President, whom he found resting comfortably. This is what Dr. McBurney said:

"The President's condition tonight does not differ in any material way from what it was at 3 o'clock. The fact that there is no unfavorable symptom is a most favorable sign. What we are all waiting for is the lapse of time without the occurrence of inflammation or septic conditions.

"I want to say right here that in my opinion everything has been done for him that could and should have been done. The case has been most handsomely handled. If he lives he will owe his life to the promptness and skill of the physicians here.

"The question of time is of the greatest importance in a case of this kind. An operation could not have been performed too soon. It was performed in one of the quickest times on record. It will be famous in the history of surgery.

"The President is a very careful liver, and, in fact, a very vigorous man. The bullet is not a large one and the presumption is that that bullet is now in the muscles of the back. In that case it is harmless. This bullet has not been seen nor has it been felt. But taking the direction as a fact, we infer that the bullet lies where I have said and is harmless.

"The wound is now sewed up and is entirely closed. It has been since the operation and there has been no exploration of the stomach since.

"Symptoms of peritonitis would be pain and vomiting, neither of which has yet appeared. If the patient slowly improves from now until Tuesday and there are then no signs of these we should feel great confidence that there would not be any. But until that period or a large part of it is passed we feel unjustified in expressing great confidence, because during that period certain things could develop. I only set that limit because it allows a little margin. It is 24 hours. Peritonitis is very likely to show between now and then if at all.

"The President takes all his nourishment by injections. At present this nourishment comprises whiskey, hot water and raw egg mixed together. He is allowed occasionally a swallow of water, but nothing else.

"He is entirely conscious, his mind is clear and he is allowed to talk. He is perfectly ready to do anything that we want him to do. He is also able to move himself, but that he is not allowed to do.

"Usually when peritonitis is developing the patient does not sleep. The President has slept, which is a most encouraging sign. He is not taking any morphine now. He has not had any since Saturday. We sincerely hope he will not have to use any more.

"Regarding the X-rays, I may say that I do not think it at all likely that they will be used. The only object in using them would be the determination to take the bullet now in him out. If it does not show any sign of trouble we do not want to do that.

"His condition is hopeful, but as I said before, I don't feel justified in any confidence until the period I mentioned is passed. The possibility of untold things happening still exists, but, take it all in all, we could not ask for anything better. So far there are no symptoms not accounted for by the fact that he was shot and that an operation was performed. I mean by that that no new process has been discovered so far."

The reporter asked Dr. McBurney if in the event of there being no setback from now on when the President could be expected to be recovered sufficiently to assume his official duties. Dr. McBurney thought a minute. Then he said in reply:

"A month or three weeks would be the normal or perfect time necessary for recovery in such a case. Of course there would be a certain weakness felt after that length of time, but from a medical and surgical point of view recovery would practically be complete. But, mind you, that would be a perfect case.

"If the President continues to improve for a week we may safely say that he is convalescent. It will probably be three weeks before it will be safe to move him. We must wait until the outer wound is healed and strong. The inner wounds through the stomach will be strong before the exterior wound is. How long it will be before he will be able to sit up will depend upon the rapidity of his improvement, and I may say to you further that his improvement, if it continues, promises to be rapid."

Pope Initiates Action.

London, Sept. 10.—"The Pope has been so impressed by the attack upon President McKinley," says the Rome correspondent to The Daily Mail, "that he intends to take the initiative in joint action by the Christian powers against Anarchism. He is writing an important encyclical on the subject, which will be published next month."

—Each of LeGros' four barbers get a half holiday off every week, from 1 to 6 o'clock. Help the boys to keep up their nerve and do their work better—see?

To Gown the Town!

That's our ambition. Not in a careless, slip shod, sell-at-any-hazard manner, but want to sell you stylish, durable, up-to-date materials at about the price of the meaner sorts. Come in and see if we're honest about it.

BALAYEUSE WORSTEDS, 44 inches wide, positively sponged and shrunk. Colours—Navy and Black. This admirable cloth is heavy enough to give that "hang" to a Suit that a Suit SHOULD have to to make it look to best advantage. Yet the weight is not burdensome. Desirable? Well, we think so, and so will you. That's what goes to heap up the value of these ninety-five cent Worsteds, which we are selling at

60 Cents a Yard.

IRISH WORSTEDS, 54 inches wide, and positively sponged and shrunk, made of Dark Oxford, Blue Gray, Brown and Resida Yarn dyed Wool. We cannot recommend this wide, sponged, all pure wool worsted too highly. Think of only four to four and a half yards required for a dress! Estimate what that quantity will cost you at

This Worsted is worth $1.10 a Yard. ***Seventy-Five Cents a Yard.***

BROADCLOTHS in Black, Blue Gray, and Oxford Gray, 54 inches wide, beautiful high finish and a very firm Cloth, with good weight. Specially adaptable for Suits. You'll wonder at the finish and wonder at the price—

Seventy-Five Cents a Yard.

THE MINISTER'S DEFENCE.

Hon. Israel Tarte Repudiates Responsibility for Models.

Toronto, Sept. 10.—Messrs. Kerr, Macdonald, Patterson & Grant, solicitors for the Hon. J. Israel Tarte, have filed a statement of defence in the action brought against the Minister of Public Works and two of his subordinates, claiming damages of $2,000 for injuries to two models shipped to Ottawa by Thomas Mowbray, artist, of Church street, Toronto. It will be remembered that the writ taken out some time ago by the plaintiff alleged that he, in response to an advertisement by the Public Works Department, shipped to Ottawa two models—one of the Queen and the other of the late Alexander Mackenzie—in connection with the competition invited from Canadian artists for the same, and that, on the return of the models they were so negligently packed that they received serious injury in transit. The defence is that if any such advertisement appeared, it did not emanate from the defendant's department, that the models were not received by the defendant or returned by him, that they were not received in a perfect state of condition, and that if shipped back, it must have been by servants of the Crown. That, moreover, they were shipped back at the plaintiff's request and at his own risk.

Paine's Celery Compoud
CURES NEURALGIA, BANISHES NERVOUS DEBILITY AND BUILDS UP THE WHOLE SYSTEM.

MRS M. YOUNG,
Jarvis Street, Toronto, Says:
"I Thank God and Paine's Celery Compound for My Renewed Health and Strength."

When Paine's Celery Compound is used by sick and brokendown women, a solid foundation of health is quickly laid. The bowels are kept regulated, poisons in the blood are banished, neuralgia and rheumatism are expelled from the system, the appetite becomes natural, and sleep and sweet rest prove that perfect health has taken the place of sickness and disease. We urge every wife and mother to test the virtues of that medicine that "makes sick people well."

Mrs. M. Young, desiring to benefit suffering women, writes thus:
"I was a terrible sufferer from neuralgia and nervous debility, and was extremely weak and rundown. While in this condition I tried almost all kinds of medicines without any improvement. My sister finally persuaded me to try Paine's Celery Compound. The first bottle helped me wonderfully, and, after having used six bottles my health is restored and I am now a new woman. I am pleased to say that Paine's Celery Compound is all that you represent it to be—a banisher of disease and a restorer of health. I thank God and Paine's Celery Compound for my renewed health and strength."

MASONIC G. M. IS DEAD

Deceased Gentleman's Distinguished Masonic Career.

A MASON FOR ALMOST 30 YEARS

Mr. Hungerford Died at London From Paralysis of the Right Side—Possessor of Many Masonic Orders and Degrees He Stood Very High in the Councils of the Order—The New Grand Master.

London, Sept. 10.—W. Bro. R. B. Hungerford, Grand Master of the Ontario Masonic Grand Lodge, who had been suffering for over a month from paralysis of the right side, died yesterday morning in Victoria Hospital. The Grand Master's condition was supposed to have materially improved recently, and it was only on Saturday that he was removed to the hospital.

Mr. Hungerford was elected to the high office of Grand Master in Ontario in July, 1900, and at the time of his death had been a Mason for almost 30 years. He was born in the County of Cork, Ireland, in 1846. He came to this country with his family in 1862, and for many years past had been the inspector in Western Ontario for the North American Life Assurance Company, being located in London. He was married and left a family of three, two sons and a daughter.

Mr. Hungerford's introduction to Masonry occurred at Mount Brydges in 1872. Subsequently he became a member of Kilwining, No. 64; the Tuscan, No. 195, and Union, No. 380, Lodges. He had also served as D.D.G.M. of the London District. In Capitular Masonry he was a Past Z. of St. George's Royal Arch Chapter, No. 5, and a Past Grand First Principal of the Grand Chapter of Canada. He had filled all the subordinate offices in the lodge and chapter of the Ancient and Accepted Scottish Rite, as a member of the Moore Consistory, 32 degrees, of Hamilton, and an Honorary Inspector-General of the Supreme Council, 33 degrees, of the Dominion of Canada. He was also Sir Knight of Richard Coeur de Leon Preceptory of Knights Templar, and a member of the Huron Conclave of the Red Cross of Rome and Constantine. Previous to his election as Deputy Grand Master of the Grand Lodge he was for a long period the Chairman of the Credential Committee. He was also Grand Representative of the Grand Lodge of Michigan, near the Grand Lodge of Canada, and President of the Masonic Relief Association of the United States and Canada, which has its headquarters in Baltimore, Md.

By the death of Grand Master Hungerford, Deputy Grand Master Judge Harding succeeds to the Grand Mastership. R. W. Bro. Judge J. E. Harding of Lindsay has been a consistent craftsman for many years. He has attended the Grand Lodge every year since 1867. In 1870 and 1871 he was D.D.G.M. of Huron District, which is now divided into north and south districts. Since his election as D.D.G.M. in 1870, he has been a member of the Board of General Purposes, with the exception of five years, and in nearly every year was elected by his brethern. He was elected vice-president of the board in 1890. For four years was Chairman of the Board of Benevolence.

LAST EFFORT HAS FAILED.

Amalgamated Association Executive Has Adjourned Without Settlement.

Pittsburg, Sept. 10.—The last effort to settle the strike has failed. The general executive board of the Amalgamated Association adjourned without date last evening and without either accepting any of the peace propositions, which have come indirectly from the United States Steel Corporation or without any counter proposition, according to the official statements. The entire matter of arranging a settlement has been left with T. J. Shaffer.

At the close of the meeting of the National Executive Board last evening President Shaffer declared that he had no statements to make, but subsequently said: "The Board has adjourned, and the out-of-town members will probably leave for their homes to-night. No peace proposition has been received and none made.

ON A CHARGE OF MURDER.

Ernest Beer Taken Into Custody for the Death of Hartnett.

Toronto, Sept. 10.—Ernest Beer, son of the proprietor of the Bull's Head Hotel, Niagara street, was arrested yesterday afternoon on a charge of murder. He is accused of having struck the blow which caused the death of Thomas Hartnett, a cattleman, a few weeks ago. Hartnett died from injuries which it is alleged he received in Beer's hotel, and the Coroner's jury which investigated the case returned an open verdict.

Great Fruit Possibilities.

Ottawa, Sept. 10.—Prof. Macoun, of the Geological Survey, gives a very bright report of the fruit possibilities of the country along Lakes Erie and Huron. He has made an examination as to soil, climate, etc., and reports there is room for millions of fruit trees there.

All Soldiers Called Must Attend.

Ottawa, Sept. 10.—All members of corps called out for the military review in honor of the Duke of Cornwall will have to attend. An Order-in-Council to this effect has been issued. It is on lines similar to those for an order calling out troops for war.

Bought Iron Mines.

Halifax, Sept. 10.—The Dominion Iron & Steel Company is reported to have purchased the Nictaux iron [illegible], near Annapolis, for $200,000.

There is no form of Kidney Trouble from a Backache down to Bright's Disease, that DOAN'S KIDNEY PILLS will not relieve or cure. tu

MARKET REPORTS.

Wheat Again Advanced in Liverpool and Chicago, and There is a Further Increase in Visible Supply.

Monday Evening, Sept. 9.

December wheat advanced ½c in Chicago to-day. December corn advanced ½c. In Liverpool September wheat advanced ¼d. December closed ¼d higher than on Saturday. Corn futures were ¼d higher. In Paris wheat futures closed 5 centimes lower than on Saturday.

THE VISIBLE SUPPLY.

As compared with a week ago, the visible supply of wheat in Canada and the United States has increased 650,000 bushels: that of corn has increased 447,000 bushels, and that of oats has increased 477,000 bushels.

To recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 64,321,000 bushels, against 63,033,000 bushels a week ago, and 76,497,000 bushels a year ago.

Cheese, 9c to 10c. Butter, townships, 20c to 21c; Western, 16c to 17c. Eggs, 10c to 12c.

MONTREAL LIVE STOCK.

Montreal, Sept. 9.—Receipts of live stock at the East End Abattoir this morning were 700 head of cattle, 150 calves, 400 sheep and 200 lambs. There was a good attendance of buyers and the following prices were well maintained.

Cattle—Choice sold at from 4c to 4¼c per lb.; good sold at from 3¼c to 4c per lb.; lower grade from 2c to 3c per lb.

Calves were sold from $2 to $10 each.

Sheep brought from 3c to 3¼c per lb.

Lambs were sold from 3c to 4c per lb.

Hogs brought from 6c to 7c per lb.

EAST BUFFALO CATTLE MARKET.

East Buffalo, Sept. 9.—Cattle—Receipts 225 cars; market dull, 20c to 30c lower for common to fair grades, 10c to 15c for fairly good medium steers, but full steady for choice fat finished steers; best heavy steers, $5.65 to $5.80; good medium and shipping steers, $5.15 to $5.50; fair medium, 1100 to 1200 lbs., $4.40 to $4.75; fair to choice butchers' steers, 1000 to 1250 lbs., $3.75 to $4.85; light thin half-fat steers, $3.60 to $3.75; Western branded steers, $3.60 to $4.00; choice fat, $4.15 to $4.25; best fat heifers, $4.00 to $4.80; few fancy, $4.90 to $5.00; light thin to good, $3.25 to $4.50; choice fat cows, $3.90 to $4.40; fair to good, $2.80 to $3.70; canners and bolognas, $1.80 to $2.60; bulls, very dull; best heavy, $3.75 to $4.60; fair to good butchers, $3.30 to $3.70; sausage bulls, $2.60 to $3.15; stockers and feeders, steady for good to choice, common to fair lower; best feeders, $3.85 to $4; few fancy, $4.10; others, $3.65 to $3.80; best 700 lb. to 800 lb. stockers, $3.60 to $3.75; common to good, 300 to 350 lb. stock heifers, $2.50 to $2.75; stock bulls, $2.50 to $3; choice, $3.25 to $3.40; milch cows and springers steady; best cows, $42 to $55; common to good, $25 to $40; veals and calves, 250 head on sale; best veals, $7 to $7.50; others, $5 to $6.75.

Hogs—Receipts, 70 cars fresh and 16 loads of hold-overs. The market opened slow and prices were lower for all grades, with pigs and grassy stock very hard to sell at all, and pigs especially dull. Best heavy grades, $6.90 to $6.92½; best, $6.90; mediums and mixed, $6.85 to $6.90; good to choice Yorkers, $6.75 to $6.80; light Yorkers, $6.65 to $6.70; pigs, $6.30 to $6.40; Michigans and graseers, $6.50 to $6.60; roughs, $5.90 to $6.10; stags, $4.50 to $5; extra, $5.15 to $5.25.

Sheep and Lambs—Receipts were liberal—86 cars of fresh and 12 hold-overs. The market was very dull and all of 25c to 35c lower for all grades of lambs, with handy sheep fell easy also, and heavy ewes all of 15c to 25c lower, there being no export demand up to a late hour in the day. Best handy ewes and wether lambs, $4.85 to $5; few fancy early, $5.15 to $5.25; fair to good partly steady, $4.40 to $4.75; culls and common, $3 to $4.25; best mixed sheep, $3.40 to $3.65; fair to good, $2.75 to $3.30; culls and common, $1.25 to $2.65; handy fat wethers, $3.75 to $4; choice fat yearlings, $4 to $4.25; others $3.25 to $3.75; heavy export ewes, $3.50 to $3.60.

NEWSPAPERS OF LONG AGO.

Copies of Early Publications In the Congressional Library.

In the Congressional library at Washington are exhibited many newspaper publications which connect this age and generation with one long gone by and bring up reminiscences of the past which are very interesting to us in this age, by way of comparison if nothing else. Among the many curiosities of ancient literature of interest is a copy of the London Times of Jan. 21, 1791, which among other things graciously offers a premium to subscribers and gives as a matter of news an account of the battle of Tapp and the siege of Fort Meigs, Ills.

Alongside of this is a copy of Horace Greeley's Log Cabin of May 9, 1840, and also a copy of the Charleston Courier, date of July 12, 1803. The New York Herald of July 17, 1804, gives the account of the Hamilton-Burr duel and of Hamilton's funeral.

The first Washington newspaper, The Gazette, bears date March 25, 1797. The next of the capital publications was The National Intelligencer and Washington Advertiser, and it bears date Nov. 3, 1800.

The one, brown with age, which carries us farthest back is the Pennsylvania Gazette of January 9, 1734. Ninety-seven years later, and lying by its side, is a copy of The Liberator of June 18, 1831.

Volume 1 of Greeley and McElrath's New York Tribune of Sept. 25, 1841, informs us as to its very low and modest advertising rates, giving a brief summary of late news from China, detailing a terrible outbreak and collision in Canton between the English and Chinese; also an account of the English antarctic expedition of the Erebus and Terror, under Captains James Clarke and Crosier, and of many other interesting things occurring at that time.

The Highly Civilized Ancients.

Long buried tombs of ancient kings of Egypt have been discovered and explored, and, although in nearly all cases these have been previously pillaged in the Roman age, enough of their contents remains unbroken or overlooked till now to afford ground for reconstructing, in outline at least, a wonderful and unsuspected civilization. When we are shown, for example, specimens of goldsmiths' work dating from 4,750 years before the Christian era which have never been surpassed since in technical skill, working of designs, variety of form and perfection of soldering, we are sobered somewhat in our belief that the process of time means progress and that the present is the best and noblest era of civilization. We are proud, for instance, of the products of modern steam spinning and weaving. Yet the linen woven 6,000 years ago was finer in thread and closer in web than our finest cambric.

IN "TYPHOID'S" TRAIL

Came violent Rheumatism and more violent Neuralgia.—Doctors couldn't stem the disease tide—3 bottles of South American Rheumatic Cure "gave battle" and won gloriously.

Mr. W. W. Brownell, of Avonmore, Ont., says that a few years ago he had typhoid fever. After recovering was attacked most violently by Rheumatism and Neuralgia, he suffered so he thought he would die. Many a night thought he could not live till morning. Doctors tried to relieve him but could not. After taking three bottles of South American Rheumatic Cure every vestige of pain left him and he was as well as ever.

CHEESE MARKETS.

Lindsay, Sept. 9.—Victoria Cheese Board met here this morning. Buyers present were Messrs. Flavelle, Fitzgerald and Whitton. 1669 boxes were boarded. Mr. Fitzgerald took 500 and Mr. Flavelle cleaned up the balance. Price paid was 9½c. Next board meets on Sept. 23rd, during the fall fair.

Mathematician at Queen's.

Kingston, Sept. 10.—Mr. Smallpiece of Cambridge, Eng., has been appointed tutor in mathematics at Queen's.

Hagyard's Yellow Oil is good for man or beast. Relieves pain, reduces swelling, allays inflammation, cures cuts, burns, bruises, sprains, stiff joints, etc.

BARKER'S GOOD TAKE

His Column Rounds Up Many Senekal District Boers.

SUCCESSFUL 160-MILE MARCH.

Green Wheat Fields Astonished the British Soldiers, Who Captured Over 100 Boer Men, Women and Children—Enormous Quantities of Grain and 1,500 Head of Cattle Taken.

Winburg, Orange River Colony, Sept. 9.—Barker's column has returned here from a 160 mile march through the Senekal district. The soldiers were astonished to find green wheat fields everywhere. No troops had visited that region since December, and the Boers had had time to plow and sow. They retreated to the mountains on the approach of the British, who captured one hundred men, women and children, enormous quantities of grain and 1,500 head of cattle.

Sergt. Black's Death.

Ottawa, Sept. 10.—The Militia Department has received the following cable:

"Cape Town, Sept. 6.—Referring to my telegram of the 24th August, 105, Sgt. F. Black, Canadian Scouts, died of wounds Kroonstad, Sept. 5, (Sgd.) Casualty Department, Cape Town."

Sgt. Black comes from St. Catharines, Ont.

BASEBALL ON MONDAY.

The Eastern League.

CHILDREN'S KIDNEYS.

Dr. Pitcher's Backache Kidney Tablets the Most Successful Treatment for the Kidney Weakness of Children.

Mothers know what distress and anxiety they have when the little ones cannot retain their water properly or have any trouble with their their kidneys.

For any weakness of the Kidneys, Bladder, or Urinary Organs of children, Dr. Pitcher's Backache Kidney Tablets, which are the prescription of the eminent specialist, Dr. Zina Pitcher, are the most effectual remedy known to science.

Mrs. W. M. Glover, Pearl street, Brockville, Ont., says: "One of my children that had been suffering from sluggish Kidneys, read about Dr. Pitcher's Backache Kidney Tablets, and procured a bottle. They removed the whole difficulty promptly. That depressing pain over the kidneys stopped, dizziness and headaches ceased, and there was a general invigorating of the system. There is no question regarding the merits of those tablets for the back and kidneys. We have great confidence in them and recommend them highly."

Dr. Pitcher's Backache Kidney Tablets are 50 cents a box at all druggists. The Dr. Zina Pitcher Co., Toronto, Ont.

Many Passengers Injured.

Medicine Hat, Assa., Sept. 10.—Ten of the passengers injured in the C.P.R. accident near Hush Lake on Friday evening were brought here yesterday morning on the sleeping car St. Lawrence. All are injured, more or less, with cuts and bruises. One passenger had a leg broken, which was the most serious injury sustained. It is considered fortunate that there was no loss of life, as the cars were piled up in bad shape. One or two of the injured passengers who were treated at the hospital proceed west to-day.

CATS' MEAT MEN.

Features of a Trade Peculiar to London—One Owner of a Round Made £20,000 in Twenty-Seven Years.

Two cases which have within the last few years come before different courts of law amply show how profitable a trade, in London at least, supplying cats' meat is. In one of these cases, a probable suit, a certain testator had left £20,000, every penny of which had practically been made in a little over twenty-seven years by means of a West-end cats' meat round, which the testator had originally acquired for a payment of £600, from his father, who, according to one of the witnesses, spent a fortune in "following horse races." The same witness declared that the testator would have left twice as much as he did but for luckless speculations in music hall and public house property. The other case was one that came before the magistrate at Southwark. A comely young woman, about twenty-five years of age, appeared in the witness box with a profuse display of really fine diamonds. The magistrate—at that time Mr. Fenwick—seemed astonished when the witness told him that she was "a domestic animals' butcher," and further questions elicited the fact that her father had left her the business two years before, and that she cleared out of it £10 a week regularly.

To those who have enquired into the facts of this trade, such a statement would represent but a commonplace. A cats' meat round has frequently yielded anything from £300 to £800 when it came into the market, and there is one well-known West-end round that changed hands for £1,200, about a couple of years ago. But this trade, like many another, is largely an hereditary one, most of the best rounds having been in the hands of the same families during three or four generations. The huge buildings let out into flats, and now so common, have increased the monetary value of cats' meat rounds to a wonderful extent. One single building of this kind is reckoned to be worth £200 a year clear to himself by the "purveyor" who has the sole right of supply, and though this is an exceptional case, other great blocks are proportionately valuable. Certain public buildings, like the Government ones in Whitehall, have a high value when a round comes into the market.

It must always be recollected that, although most of the purveyors buy daily in one great central market, yet are the varieties and qualities of meat, they acquire almost as much diversified as in the case of meat for human beings, and the West-end cats' meat provider obtains prices that would be absolutely impossible even in genteel villadom. But, in regard to the latter class, there is a Dulwich cats' meat man who is a property owner on a very extensive scale; and another South London dealer, who still does his own buying and delivering, has given a university education to certain of his sons, one of whom is a clergyman.

Those of the public who may imagine that there is no room for initiative and ingenuity in the cats' meat trade are vastly mistaken. In Kensington an enterprising young fellow is said to be making a fortune through the happy idea of supplying, on request, fish instead of meat for the cats on his round. The pets of the prosperous can obtain meat at almost any time, and they will not look, for the most part, at the wares of the cats' meat man. But no cat can resist a tasty bit of fish, be it offered when it may, and a huge success is the result of the innovation. Again, there are certain purveyors who take trouble to obtain a close knowledge of every single animal on their rounds and its little peculiarities. This knowledge once gained, the cats' meat man buys and cuts his portions accordingly, taking care that each cat gets its favorite bit. All chance of rivalry is removed at once by this means, for a cat will not for weeks, unless driven by desperate hunger, touch the strange cuts of a new purveyor.—London Chronicle.

Jingo.

Everybody knows what Jingo means, says The Westminster Gazette, but it may be interesting to quote the definition of the word as given by Dr. Murray in the latest instalment of the Oxford English Dictionary, published the other day:

A nickname for those who supported and lauded the policy of Lord Beaconsfield in sending a British fleet into Turkish waters to resist the advance of Russia in 1878; hence, one who brags of his country's preparedness for fight and generally advocates or favors a bellicose policy in dealing with foreign powers; a blustering or blatant patriot; a Chauvinist.

The word "Jingo" appears to have been first used about 1670 as a piece of conjurer's gibberish, usually "hey jingo," or "high jingo"—probably, says the dictionary, "a mere piece of sonorous nonsense with an appearance of mysterious meaning."

Only a Little Backache.

That is the first unmistakable symptom of diseased kidneys, an ailment which no one can neglect without inviting Bright's Disease, diabetes, rheumatism, and the most painful and fatal maladies. At the first sign of backache and urinary disorders, use Dr. Chase's Kidney-Liver Pills, and you can be certain of prompt relief and cure. One pill a dose; 25 cents a box.

Wants British Aid.

London, Sept. 10.—Hon. G. W. Ross, Premier of Ontario, writes a letter to The London Times, in which he displays a keen desire to swell Canada's population with people of British origin. He suggests concerted action on the part of the British people in an endeavor to turn the emigration of the surplus population of the United Kingdom to Canada.

Rev. Dr. Potts and Chancellor Burwash will represent Victoria University at the unveiling of the statue of King Alfred at Winchester on September 18th. Rev. Dr. Potts will sail for Canada on the steamer Vancouver on September 26th.

SCHOOL SHOES FOR BOYS AND GIRLS

Now is the turn of Young Canada. The summer vacations are over. School for another term is the rule. The boys and girls must be comfortably clad if they are to do good work. An important part of the outfit is that which ensures warm, dry feet. That is where our mission as sellers of Boots and Shoes comes in.

We have made ample preparation for the supply of school wants in boots and shoes. We appreciate the fact that boys and girls are great wearers out of leather, and the varieties and styles we have were selected to afford the maximum of wear at the smallest cost. Here is a list that is sure to contain some line that will suit. All sizes, in black and tans, new and nobby.

Boys' Buff Lace Boots, sizes 1 to 5, extra value $1.35
The same at $1.25 and at $1.15
Boys' Dongola Kid Boots, sizes 1 to 5, a capital boot for wear, at $1.35
Boys' Boston Calf Boots, ... $1.00
Boys' Tan Bals., strong and very comfortable $1.40
Youths' Buff Lace Boots, sizes 1 to 5, a first-class article $1.15
In another style at $1.00
Youths' Boston Calf Boots ..... .90
Misses Oil Pebbled Button Boots, with spring heel $1.15
Misses Box Calf Button Boot, sizes 11 to 2, very serviceable $1.25
Misses Box Calf Lace Bals., an excellent shoe in every way $1.35
Childs' Oil Pebbled Button Boots, with spring heel, at 75c and 85c
Childs' Oil Pebbled Lace Boots, sizes 8 to 10, at 85c and 75c

In addition do not fail to remember that we have all things in Rubber. The wet weather of the fall is at hand.

ROBERT NEILL

Sea Girt Shooting.

Sea Girt, Sept. 9.—The serious condition of President McKinley prompted the association to abandon the sailing trip yesterday and banquet on Monday night in honor of the Irish and Canadian teams.

Eight of the best riflemen of Ireland defeated a picked team of Americans Friday on the Sea Girt rifle range and won the challenge cup offered by the New Jersey State Rifle Association. The Americans were beaten by 62 points.

Will run trips to Stony Lake on Thursday and Saturday of this week, connecting with the morning train from Peterborough. Returning will connect with the 4.40 train for Peterborough and Toronto 2d

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drugstore.

Oddfellows, Attention!

A special meeting of Peterborough Lodge, I.O.O.F., No. 111, will be held this evening at 8 o'clock for the purpose of making arrangements to attend the funeral of our late Bro. Hagerman in Port Hope. All members are asked to be present. By order, B. Wallis, Noble Grand.

—Don't you feel well? Have a hot towel at LeGros' barber shop. Gives you nerve and appetite.

Lawn Social.

Remember the lawn social to be held on the grounds of St. John's Church on Tuesday the 17th inst. The proceeds are to be used for furnishing the new rooms on George street, presented to the Y.W.C.A. by Hon. G. A. Cox. It is hoped that everyone will co-operate in making this effort a success. Tea will be served from 4 o'clock. The hours have been so arranged that all will be able to participate. The 57th Regimental Band will be in attendance during the evening. The grounds will be illuminated and refreshments served. Admission only 10 cents.

CHOICE PRESERVING FRUIT.

I will receive to-morrow morning a large and choice lot of personally selected plums, peaches, grapes, etc. As Crawford peaches are very scarce, I would advise those who do not wish to be disappointed to buy from this lot. S. A. OKE, 376 George street. Tel. 18. 1d

INTERMENT TO-MORROW.

Funeral of the Late Engineer Hagerman was Drowned at Midland.

The funeral of the late John Hagerman, who was drowned at Midland Sunday, will take place with Oddfellows' honours to-morrow at Port Hope.

Few particulars are yet to hand concerning the accident other than that the deceased and a man named Hicks upset in a canoe about 100 yards from shore at a point about one mile below the town. The body was recovered at about four o'clock yesterday afternoon and was taken in charge by the Independent Order of Oddfellows, of which the deceased was a member. The remains will pass through Peterborough to-night on their way to Port Hope.

The late Mr. Hagerman was one of the most prominent engineers on the Midland Division of the G.T.R. Some years ago he was driver on the local between Toronto and Peterborough.

A number of Oddfellows from town will attend the funeral in Port Hope to-morrow.

NEWS NUGGETS.

—The town council meets this evening.

—The Royal Chorus will practice this evening at 7.45. Through an error it was stated that the practice would take place last night.

—Four reclining chairs at LeGros' barber shop, and four slick tonsorial artists to wait on you—Ed. LeClare, Alfonse LeGros, Harry Kingdon and Alive C. LeGros.

—The weekly drill of the 57th Regt. will take place this evening. There will be a march out of the regiment at nine o'clock. It is important that every man should be present.

Ladies' Event To-morrow.

It is scarcely necessary to remind the ladies of the attractive event to come off at Robert Fair & Co's store to-morrow, in which they are all so much interested. The first of the season's grand opening exhibitions of beautiful fall novelties will be a feast for the ladies' eyes which all may enjoy to-morrow.

GRAND PROMENADE CONCERT
Fifty-Seventh Regiment Band
In the Skating Rink,
Friday Evening, Sept. 20th,
In aid of the Saxaphone Fund.
25—VALUABLE PRIZES—25
to be given away.

Each ticket entitles holder to chances in the drawing during the evening. Tickets 25 cents. On sale at Loch Bros. Store, Edmison's drug store and from members of the Band.

A Nuisance.

At a certain village in the Township of Otonabee a number of boys and young men of respectable families have been in the habit of gathering at night and by unseemly conduct, noise and bad language have so disturbed the comfort of the people that the evil has become intolerable. Steps have been taken to abate the nuisance, however. The matter is now in the hands of High County Constable Cochrane, and steps are being taken to bring the guilty parties to justice. The Magistrate and the County police are determined to see that these young men, who will not behave themselves, will have the full penalty of the law inflicted on them.

An Evening of Music.

The organ recital and sacred concert in the Murray street Baptist church on Monday evening next, promises to rank by itself as the musical event of the season in Peterborough. The new organ will be in the hands of Mr. A. S. Vogt, of the Toronto Conservatory of Music, Director of the Mendelssohn Choir, and organist of the Jarvis street Baptist church, Toronto. His capabilities as an organist are too well known to require further notice than the mention of his presence. Two of his selections, which will be heard with more than ordinary pleasure will be the introduction to the III Act, and the bridal music of Wagner's "Lohengrin," and the Pilgrim's Chorus from Tannhauser. Other artists who will assist in the evening's programme are Miss Florence Carolyn Hall, Miss Etta Montgomery and Mr. F. W. Skitch.

PERSONALS.

Mrs. R. H. Bradburn will receive all this week.

Mrs. (Dr.) Harrison, of Keene, was in town to-day.

Mr. Jas. Eakins of Toronto, was in town yesterday.

Mr. Robt. Hicks is back from a business trip to Lindsay.

Mr. D. S. Harvey has returned from a visit to Lindsay friends.

Mrs. R. R. Hall has been spending the last few days at Stony Lake.

Mr. Frank Cox is down from Toronto on a couple of weeks holidays.

Mrs. W. H. Wrighton is recovering from quite a severe attack of illness.

Mr. and Mrs. J. A. Aylmer and children are up from Cornwall for a few days.

Mr. James Bell, contractor, Lindsay, was in town yesterday, the guest of Dr. Gray.

Miss Gertie Denne has returned from a trip to Toronto and the Pan-American.

Miss Dugan of Gilmour street, has returned home after a month's visit in Kingston.

Mr. E. B. Harrison, of Ridgetown, is visiting with his son, Dr. Harrison, of Keene.

Mr. H. McMeehan Morden, of the Canadian Bank of Commerce, is somewhat indisposed.

Mr. Stephen Crawford, a brother of the late Isabella Valancey Crawford, was in town yesterday.

Mr. Franklin McClary of Norwood, was in town yesterday, the guest of his cousin, Miss Daisy Jackson.

Mrs. R. J. Kidd, Rubidge street, returned last night from a trip to Niagara Falls and the Pan-American.

Mr. Wash G. Collins, organizer for the Canadian Order of Chosen Friends is in town in the interests of his Order.

Mr. C. Loucks' many friends will be pleased to learn that his condition has improved greatly within the last few days.

Dr. D. C. King left this morning to attend the St. Thomas Bench Show. He intends showing his Great Dane "Ferdham Cyreno."

Mr. Robt. Frost, of Orillia, who is establishing a jewellery store in town, has now taken up his residence in Peterborough permanently.

Mr. W. G. Barrie and his mother, Mrs. J. M. Barrie, have returned, after spending a pleasant week in Toronto, Niagara Falls and Buffalo.

Miss Maggie Hanlon is recovering the use of her foot which she has been unable to use for the past year. She is under the care of Dr. McNulty.

Mr. D. O'Connell, of the firm of O'Connell & Kerr, has been appointed by the Crown to conduct the criminal business at the ensuing Assizes to be held at Whitby.

Mr. James Moher, Patterson street, left this morning to take a position at the Canadian "Soo." His departure from town will be regretted by many friends.

Mr. W. Bunton, Peterborough's well-known and genial G.T.R. ticket agent, has returned from the Pan-American, where he has been spending a pleasant week.

Rev. Father Scanlan left yesterday for Grafton, and will assume his pastoral duties there to-day, the month's mind of the late Rev. Father Larkin having expired.

Lindsay Post.—Capt. Fee, of Peterborough, arrived in town Saturday evening to spend a few days with his family. His steamer, 'the City of Peterborough, has had a very successful season so far.

The liberty has been taken of mailing tickets to a number of ladies of the town, hoping they will try and dispose of them, in aid of the Young Women's Christian Association garden social which will be held on the grounds of St. John's church, on Tuesday evening, September 17th. The committee find it impossible to do this alone, and earnestly request assistance.

TALK ON OWLS.

Mr. Elcome's Interesting Talk to the Charlotte Street League.

Mr. Elcomb's talk on owls last last evening was a decided treat to the members of the Charlotte street League. The aim of the lecturer was to show chiefly the adaptability of the bird to its circumstances. It was clearly shown that its silent flight, powers of vision, and acute hearing aided the owl in its struggle for existence. Its defence in attack and wonderful digestive operations were quite humourously described. The lecture was illustrated by a number of handsomely mounted specimens from Mr. Elcomb's own superb collection. Everyone present was delighted, and spoke of the lecture in glowing terms.

During the evening Miss Stevens and Mr. Dodge rendered a duet in excellent style.

Next Monday the Rev. Kilgour will give a talk on Revelations. Everybody welcome.

CROWN OWNS DEADMAN'S ISLAND.

A Former Peterboroughnian's Claim Shut out.

Victoria, B.C., Sept. 7th. — Judge Martin gave judgment to-day in the Deadman's Island case. Judgment covers 24 pages of typewritten matter, being summarized as follows: The defendant's case fails, and the title to Deadman's Island is declared to be in His Majesty the King, on behalf of the province of British Columbia, and a perpetual injunction is granted restraining the defendant, Ludgate, (Mr. Theodore Ludgate, formerly of Peterborough), from killing trees or otherwise trespassing on the said lands, to which the plaintiff is called to immediate possession.

LAID AT REST.

Funeral of Miss Mary A. Devlin on Sunday Last.

The funeral of Miss Mary A. Devlin, youngest daughter of Mr. Rodger Devlin, whose sad death occurred in St. Joseph's Hospital on Friday morning, took place from her father's residence in Otonabee, on Sunday afternoon, and was one of the largest funerals that ever wended its way to St. Joseph's burying ground, Douro. There were over 132 vehicles in the funeral procession. It was indeed a fitting tribute to a young girl, whose life was an exemplary one in every particular, and whose kind and loving disposition and goodness of heart, made her a universal favourite.

The cortege first proceeded to St. Joseph's church, where a funeral service was held. The pastor, Rev. Father Keilty, officiated, and made a feeling reference to the deceased young lady. It was not the voice of their priest, he said, that was speaking to them on this sad occasion, but rather the pure and noble life of the deceased, which stood out as an example for all to emulate and follow. The pleasures of this life to the pure in heart are as nothing compared to the joys and pleasures of a glorious hereafter. Death is not their's, as death only belongs to the sinner. He urged his hearers in conclusion to take example from the noble life the deceased led, and then they would be assured of the happiness and glory of seeing and enjoying God in the Kingdom of His glory.

The remains were afterwards conveyed to their last resting place in St. Joseph's cemetery. The pallbearers, who were first cousins of the deceased, were as follows: Messrs. John O'Callaghan, Timothy Garvey, Francis Devlin, Michael Allen, Jos. Allen, Jos. Clancy.

READY FOR THE SEASON.

An Instructive Programme Arranged by the Charlotte St. Church League.

The Charlotte street League is presenting a programme of rare excellence for the coming season. The Literary Committee has arranged for a science series, in which Mr. Elcome will give "An Evening with Birds," and Mr. J. A. Fife, B.A., of the Collegiate Institute staff, "An Evening on Plant Life."

The Prayer Meeting Committee has as fine a selection of subjects as ever graced a League programme, and the list of speakers has never been surpassed if equalled by any sister society. Rev. J. P. Wilson will discuss the relation of the Church to Labour; Rev. Mr. Kilgour will give two of his unique lectures, one on Revelations and the other on Isaiah; Rev. Geo. Yule will also speak during the term on "What Gifts Have You?"

The Temperance Department will conduct a meeting on a live issue, and will provide a debate on the question of State control of liquor, while in the Missionary Department Mr. Tovey will deal with the part played by our Home Missions in our national development.

A very special feature is the union meeting in the Charlotte street Lecture Hall, of the George street, Ashburnham, and the Charlotte street Leagues. At this meeting the question of the League's utility will be fully discussed.

Ushers and committee members will be only too pleased to show strangers every courtesy in their power.

DON'T DELAY.

Those wishing to join either the day or evening classes at the PETERBOROUGH BUSINESS COLLEGE should do so as soon as possible, in order that the best results may be obtained. For further particulars apply to

READY MOTIVE POWER FOR PETERBOROUGH.

Its Immediate Development a Prime Necessity.

A NEW FORM OF OBSTRUCTION.

Any Proposition Leading to Delay, Inadvisable, and Not in the Interests of the Town—Delays, Always Dangerous, Especially so Now.

The proverb, in language more apt than elegant, asserts that "there are more ways of killing a cat than by choking it with butter." The Review, in considering the question of motive power supply, advocates an indirect way of beautifully blocking the plan now on foot for supplying motive power at a reasonable rate to three or four important industries that are only waiting the assurance that such power will be available, to begin at once construction and equipment operations. No more effective way of antagonizing and obstructing a feasible and practicable scheme for gaining this desirable end can be found than the proposition of granting to the town privileges of developing power at the Government dams, including pre-empted No. 5, on the Otonabee River. Whatever merit there may be in such a proposition in the abstract, it is under present circumstances, impossible and impracticable. What is wanted is immediately available motive power for these important enterprises. If they do not speedily receive assurance that they can get power in Peterborough, they will have to seek a place where power can be obtained — say Hamilton, where power can be furnished at $15 per horse power. The power is needed at once, and any proposition that points to postponing the development of power to an indefinite future, is calculated and intended to block these enterprises.

Is it not a fact that the town is not in a position to legally lease power at dams outside the town, without authority to be conferred by an act of the Legislature? This would involve a fatal delay of at least a year, which puts the proposition out of court at once. Not only would there be the necessary delay to secure legislative sanction of the purchase of one or four dams, but the financial question would figure prominently. The idea of the town incurring the financial responsibility of raising $100,000 to develop one dam or $400,000 to develop four dams, would be a subject for long and serious consideration. The arriving at a decision, and securing the consent of the ratepayers to incurring such serious financial responsibilities, would involve further delay in developing power, that is needed at once. It would be incumbent upon the ratepayers to ask themselves if the town is in a position to incur a debt of $100,000, or $400,000, as the case may be, to develop power, especially in view of the contemplated purchase of the Water Works at a cost of from $250,000 to $500,000, as arbitration might determine. Is the town in a position to roll up a possible debt of between half a million and a million dollars, even in so important an interest as the supply of cheap power for manufacturing purposes? And, especially, when private enterprise is willing and ready to undertake the work at once, and guarantee power immediately, which the town is not in a position to do.

The situation admits of no delay. Four manufacturing companies, whose establishment in Peterborough will involve the expenditure of a quarter of a million dollars in construction, and employ about 250 hands, are only awaiting the assurance of power, to begin operations. These are the Canadian Cordage Company, the Shovel Company, and two milling companies. They want the power now, and must have the assurance of it speedily, or go elsewhere. The Otonabee Power Company was organized to supply power to these companies, and has contracted to furnish it by February 1st, 1902. Can the town furnish power to these companies now and retain them in Peterborough? Certainly not, for the reasons shown.

The proposition of the Review to have the town undertake the development of power at the present juncture, under the guise of pretended interest in the promotion of manufacturing industries, is a palpable attempt to block the work of obtaining power. The organ of the monopolists comes forward with one hand outstretched in simulated friendship, in the form of town exploitation of power, and with a pistol in the other hand, covered by the handkerchief of sophistry, shoots a hole in the stomach of the power enterprise.

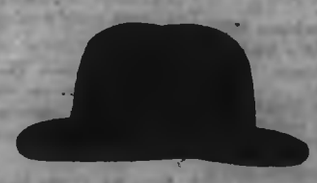
The Otonabee Power Company's undertaking is the only feasible plan for our present needs, not a visionary, theoretical, far-away scheme, but a straight business proposition to meet pressing demands for power. The Company is ready to begin operations at once. Negotiations have been completed. An order-in-council has been passed, granting a lease of the water power at dam No. 5, to the Otonabee Power Company, which has received an official letter from the Department of Railways and Canals assuring the Company that a lease would be granted. On the faith of this order-in-council and assurance of a lease, the Company has been organized for work, orders have been placed for large quantities of cement and timber and a large part of the equipment. On the faith of the Order-in-Council and the official letter of the Department that a lease would be granted to permit of power being furnished from No. 5 dam, a by-law was prepared, submitted to, and generously endorsed by, the people giving a free site to the Cordage Company. On the faith of the Order-in-Council and the official letter giving assurance that a lease would be granted, the Cordage Company placed an order for $30,000 of machinery, and on the faith of the Order-in-Council and the assurance of a lease, in turn assuring power, the manager of the Cordage Company is now in town to superintend the erection of buildings. And all that prevents the turning of the first sod is the delay in receiving the assurance of receiving power, which the Company, by the Order-in-Council and the official letter, was led to believe it would receive through the Otonabee Power Company being placed in a position to furnish it by the carrying out of the agreement of the Government.

Does the Review, now, in sober earnest, propose that the Government should cancel the lease to the Otonabee Power Company at No. 5 dam in favour of the town and make the town a party to a shameful breach of faith? This would result in blocking all development operations of the Otonabee Power Company, block all building operations of the Cordage and other Companies and block the chance of mechanics and labourers obtaining work during this fall and winter. Would the William Hamilton Manufacturing Company and its employees be benefitted by being saved the profit and employment of building hydraulic machinery, and would the Canadian General Electric Company and its employees be benefitted by not building generators for the Power Company and motors for the manufacturers? If the town should cut in ahead of a company composed of its own ratepayers and usurp the power pledged to the Otonabee Power Company at No. 5 dam, for immediate development, four manufacturing enterprises would be knocked on the head. They must have power at once if they are to locate in Peterborough. Why go all the way 'round Robin Hood's barn to kill the power scheme? If power monopoly is a good thing advocate it openly. If it is not let us have competition.

If power development by the town is a bona-fide proposition, there is plenty of scope without killing a practical and feasible enterprise for developing power which is needed at once. There are three good dams left for the town to exploit. The development of these, at $100,000 each will require perhaps as much money as the ratepeyers will feel like voting, especially if they decide to purchase the Water Works. While the financial problem involved in the development of power in being solved the town can, meanwhile, busy itself in bringing some manufacturing concern to Peterborough to use the 400 horse-power which the Otonabee Power Company has placed at its disposal at $15 per horse-power delivered at the factory.

In the matter of power there is now only one question or one phase of the question to be considered. Four manufacturing industries are needing power now and its immediate supply is a condition of their being established in Peterborough. The Otonabee Power Company is in a position to begin the work of immediately entering upon development of power and no one else is in a position to undertake anything of the kind. Consequently all attempts, whether of direct opposition or indirect opposition, under the guise of pretended interest, in the form of a proposition, which if acted upon now would defeat the very end sought, should be regarded with disfavour. The interests of the town demand that the Otonabee Power Company be supported and encouraged, if not for itself and the enterprise and capital involved, then for the sake of the work it will do. This work is the supply of cheap power for the use of manufacturing concerns and placing 400 horse-power at the disposal of the town to encourage the establishment of other industries here. There is not at this moment in Peterborough enough power, to drive a sewing machine, for sale and available for the use of new manufactures. And apart from the Otonabee Power Company, under the most favourable circumstances, there can no power be developed in less than a year. Why then draw a red herring across the scent in the shape of a proposition which, however meritorious it may be, is unsuited to present conditions. Let us take steps to secure the manufactures now offering, then we can if we choose entertain the proposition to have the town embark in power development. There will remain plenty of scope for its action in this direction without stealing the privileges of the Otonabee Power Company. And there is nothing to prevent immediate action upon the part of the town. There are three dams available. But do not let us kill an existing enterprise for the sake of a barely possible and not presently practicable scheme, remembering that "a bird in the hand is worth two in the bush."

NEW HATS



We have just opened up a fine stock of New Hats, in the very latest styles, for fall wear.

BRING IN YOUR FURS

Now for Repairing, as the earlier the better.

Wm. Lech & Sons 413 George Street.

RIVER AND LAKE.

A Few Items of Interest From Down the Otonabee.

Mrs. Hall says she will keep the hotel at Jubilee open for a few weeks longer for the accommodation of duck shooters and fishermen.

The Government dredge, in charge of Mr. Clem Gordon and his staff, is being towed to Harwood to take out several of the old piers of the old Cobourg, Peterborough and Marmora Railway bridge. This is being done in order that the steamboats may have a shorter route between Gore's Landing and Harwood. At the present time the steamers are compelled to go about three miles out of their way to strike a channel in about the middle of the lake. The new channel will be greatly appreciated by the local steamboat men.

The following are amongst the recent arrivals at Jubilee House: Mr Ruddy, Miss Leach, Millbrook; Miss McDougall, Chicago, J J Lundy, Petboro; W B Southard, J C Bema, Rochester; J L Hughes, J A Allen, Mr and Mrs Thornton, W D Parker, E Brown, Mr McKee, R B Rogers and family, Mrs J Rogers, Peterborough; S Smith, Perth; R E and Mrs Wood, Mrs J H McClellan, Peterborough; Dr J Berry and wife, Miss L Berry, Hastings; D J Lundy, and wife, Miss Lundy, Peterborough; D D Tuttle, Milford, N H; O N Brown, Peterborough; J G Hall, Montreal.

Malt Breakfast Food

Has Important Advantages Over All Other Grain Foods.

Malt Breakfast Food possesses special and important advantages over all other grain foods. While it has become the chosen breakfast dish of the well and strong, keeping digestion perfect and the brain clear, it has become the popular food with thousands suffering from dyspepsia and indigestion. Dyspeptic subjects find Malt Breakfast Food an infallible cure for their troubles. Weak stomachs relish the great health food; it is easily digested, and furnishes all the nourishment required. Malt Breakfast Food is a blessing to all who suffer from stomach derangements. All Grocers sell it.

Highly Appreciated by Those Already Wearing Them.

THE EXCELSIOR TRUSS.

Strongly recommended as a most satisfactory and comfortable Truss, possessing several valuable features which commend it for practical utility and relief from hernia.

SPORTING PASTIMES.

GOLF.

In the first round of the open competition yesterday, Master F. McGill defeated Mr. J. W. Garvin by one hole. The game was one of the most exciting that has been played on the local links in some time, and Mr. McGill is receiving the hearty congratulations of his friends upon defeating a player of Mr. Garvin's ability.

Mr. E. C. Complin, captain of the Golf Colts, received word this morning to the effect that a team of ten or twelve men would be down from Lindsay on Friday for a game.

The first golf tea of the fall season should draw a large number of the members to the links on Thursday afternoon. Mixed foursomes, it is understood, are to be the order of the day and as the weather is delightful the attendance will doubtless be large.

RUGBY.

There will be a practice of the Rugbyists on the P.A.A.A. grounds at 4 o'clock to-morrow afternoon, also on Friday and Saturday afternoons of this week.

BOWLING.

There were a number of close games played at the green yesterday, amongst them being the following:—

Dr. Burnham	W. Smith
Dr. McClellan	H. Rush
W. Rudkins, sk....6	Alf. Terrill, sk....5
H. Armstrong	Dr. Moher
S. A. Oke	W. F. Johnston
J. M. Brooks	M. Kennedy
W. J. English, sk. 10	R. Waddel, sk. 16

The Port Hope Knitting Works are showing this week a very fine line of double knee, double heel and toe cashmere hose in all sizes, from 15c to 25c, in the largest sizes. This is a great line. Call and see them.

THE OPERA SEASON.

Some of the Attraction That Have Been Billed for Peterborough.

The Opera season opened in Peterborough on Friday evening, when the farce comedy, "Humbug," was presented to a fair-sized house. The next attraction billed is "A Breezy Time," which will be put on on Wednesday night.

Mr. R. H. Bradburn, manager of the Opera House, has billed the following attractions:

Sept. 11th — "A Breezy Time," one night only.
Sept. 23rd to 26th — Tom Marks, dramatic.
Sept. 28th — Guy Bros.' Minstrel Company, one night.
Sept. 30th to Oct. 5th — Tom Marks Company, whole week.
Oct. 8th — "Thelma," drama, one night.
Oct. 15th — "McCarthy's Mishaps," one night.
Oct. 21st to 26th — Murray Hall's Comedians, one week.
Oct. 28th — Rice and Harvey, three nights.
Nov. 8th — Edouard Dolze.
Nov. 11th to 16th — R. W. Marks.
Nov. 18th—R. W. Marks.
Dec. 2nd to 7th — McEwan, the hypnotist.
Dec. 9th — Fabio Romani.
Dec. 17th — "The Bondman."
Dec. 18th — Harry Webber Combination.
Dec. 24th — "Under Two Flags."

Tried Dr. Pitcher As a Last Resort.

A Toronto Lady's Experience With This Famous Specialist's Backache Kidney Tablets.

For many years in the hospitals of Detroit and as professor of Genito-Urinary Diseases in Michigan College of Medicine of that city, Dr. Zina Pitcher gave careful thought and consideration to diseases of the kidneys, bladder, and urinary system.

So profoundedly impressed was he with the fact that many thousands of people suffer from some form of kidney derangement, who were unable to avail themselves of the services of a specialist, that he decided to give to humanity at large his famous prescription for Kidney Diseases, under the name of Dr. Pitcher's Backache Kidney Tablets.

It is of these tablets that Mrs. May Goddard, 332 Adelaide street west, Toronto, speaks in the following terms:—

"After enjoying the most perfect health for many years it was a sore trial for me to realise that my health was failing. I had, in the first place, acute pains in the small of my back, and was losing flesh rapidly. Then other complications arose, which so weakened me that it was only with the greatest amount of determination that I could attend to my work. I tried a number of remedies and consulted several physicians without obtaining more than temporary relief, and as a last resort I thought I would try Dr. Pitcher's Backache Kidney Tablets. Their beneficial action was almost instantaneous, and the results highly gratifying. The pain in my back disappeared in a short time, and my general health improved greatly. I am now feeling fine, and am glad to have this opportunity of expressing my appreciation of so valuable a remedy.

Dr. Pitcher's Backache Kidney Tablets are 50 cents a box at all druggists or sent by mail, postage free.

The Dr. Zina Pitcher Company, Toronto, Ont.

VARICOCELE

No matter how serious your case may be or how long you may have had it, our NEW METHOD TREATMENT will cure it. The "wormy veins" return to their normal condition and hence the sexual organs receive proper nourishment. The organs become vitalized and manly powers return. No temporary benefit, but a permanent cure assured. NO CURE, NO PAY. NO OPERATION NECESSARY. NO DETENTION FROM BUSINESS.

STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, sharp, cutting pains at times, weak organs, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you by cutting, stretching or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue, hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened, the nerves are invigorated, and the bliss of manhood returns.

Cures Guaranteed

We treat and cure BLOOD POISON, NERVOUS DEBILITY, IMPOTENCY, STRICTURE, VARICOCELE, SEMINAL LOSSES, BLADDER and KIDNEY DISEASES. CONSULTATION FREE. BOOKS FREE. CHARGES MODERATE. If unable to call, write for a QUESTION BLANK for HOME Treatment.

WAS GREAT AND GOOD

CANADIAN WOMAN'S TRIBUTE TO OUR OWN PRINCESS ROYAL.

A Little Incident That Indicates How Pure a Pearl She Was Upon the German Throne—How the Great Heart of the Dowager Empress Was Broken—A Tragic Mystery.

Mrs. de Touffe Lauder writes in The Toronto Globe: Our own beloved Princess Royal Victoria of England, the widowed Empress Frederick of Germany, and mother of the present Emperor, has passed to the Unseen, and I ask a short space in your columns to give utterance to a few of many pleasant memories in connection with her remarkable history. A year or two after the Franco-German war I first saw the Crown Prince Frederick at the Castle of Heidelberg, a most truly royal and imposing personality. In stature over six feet, and with that majestic mien, noble head and radiant countenance, his was an Imperial presence, and as consort of our Princess we were deeply interested in him. "True, pure, a pearl upon a throne," the broken-hearted Empress called him after his death. Victoria and Frederick were a model pair, and their deep love for each other, and their lofty plans for their coming reign, were well known. During later visits to Berlin it was my good fortune to see them, as also the venerable Kaiser Wilhelm of the great war, and his consort Augusta, frequently. I only mention one of these occasions. I was staying with German friends in Potsdam. One morning in June we were visiting some of the Royal parks and palaces. I had secured the largest, loveliest rose, thinking we might meet the Crown Prince and Princess. We had just left the palace Sans Souci, when I saw two carriages approaching, and begging my German friends to withdraw a little, that I, as English, might salute them, I stood alone close to the drive, holding up my beautiful rose. The Crown Princess Victoria was in the first carriage with Prince Wilhelm (now the Emperor), Prince Henry and the eldest daughter, afterwards Princess of Meiningen, and one of her ladies. In the second carriage sat the Crown Prince Frederick with the rest of the Royal children, Princess Victoria, Princess Sophia, now Crown Princess of Greece. They recognized this as an English salutation. As I presented that rose the Crown Princess smiled and smiled and waved her hand — whoever saw her rare smile never forgot it, so full was it of many unspeakable things — and Frederick removed his hat, bowing and smiling so heartily two or three times. My German friends heard the English "Thank you!" they said, and they were so proud and delighted with the honor that I revelled later in a "special treat" in consequence. That is my most precious recollection of the unfortunate pair. When I recall this scene, and all their subsequent history, my heart is filled with a great sorrow. They had just returned from Italy, and were brilliant in perfect health and happiness. I hear the dying Emperor of three months saying to an old and faithful servant, whom he had summoned to his presence — no, he wrote the words, for he could not speak: "We are both unfortunate, but I am more unfortunate than thou." The great heart of the Empress Frederick broke. Greatness, honors, hopes and plans burst like air bubbles in her grasp; nothing realized of all she had hoped! We leave her sleeping in the Friedens Kirche — Church of Peace — at Potsdam, beside her beloved Frederick. Her violin is silent! She never went anywhere without it. Her chisel is laid down forever, for, like her Royal sister, Princess Louise, she was a sculpturess of no mean order. There is a wonderfully lifelike bust in white marble of the aged Emperor in the Palace Babelsberg, by her hand. He was ever kind and good to the English Princess, and when he died she wept long and passionately. Her tragic history is a mystery we may not fathom. The Divine decrees are inscrutable. The world has not yet learned how great and truly royal a lady has left us all the poorer for her loss. Her biography by some loving hand shall reveal more of her later on. Widely read in all the poets of many languages, and in great writers in all subjects, who shall excel her? She was regarded as possessed of the most powerful mind of any woman in Europe. Great in her love for her people, and for all women and maidens, she cherished broad plans for the amelioration of their condition. Empress Frederick has reached her true sphere, her true throne, for which her sorrow-years have enriched and refined her noble character.

Farewell, thou grand, pure and noble spirit,
True scion of our English race and line.

Sale of Rare Books

At Southey's the other day, says The London Graphic, a first uncut copy of John Keats' "Poems," with inscription on title "To my friends the Miss Reynoldses, J. K.," 1817, fetched £125; a second edition, presentation copy of Dr. Samuel Johnson's "The Prince of Abissinia, a Tale," with inscription on fly-leaf, "To Mrs. Percy from the author, Samuel Johnson," 1759, £58; and an uncut copy of "Poems by Two Brothers," Alfred and Charles Tennyson, 1827, £51.

You Feel all Used up

You're discouraged and disgusted—not enough energy to think, less to go to work upon. The reason? You are run down, your blood is poor, your nerves are like India Rubber not like steel as they ought to be. Use Ferrozone and the tired feeling will go, for it makes plenty of rich, red blood that feeds the brain and nerves. The desire to labour comes back and you enjoy it. You don't get tired, because you have used Ferrozone. Neglect not a day longer. Ferrozone will cure you. Sold by Ormond & Walsh.

How C-i-N-D-E-R-E-L-L-A, Might be spelt as it sounds with a single L,
But our Singalese says, add a final S—L,
Then, pronking it's Ross's, you're right to a T.

QUEERLY PRONOUNCED NAMES.

Speech Idiosyncrasies Which It Is Hard For Americans to Acquire.

The American who believes, as thousands do, that to betray one's nationality is to invite overcharging and extortion in the west end shops of London is not only hard pressed to choose the peculiar words the English employ, but he has quite as many and as deep pitfalls to avoid in the methods of pronunciation. I will not refer to the false or ignorant methods of illiterate persons, but will confine attention to some eccentricities of pronunciation of gentlemen and ladies of education, rank and breeding. They say immejitly, injin for engine, militry, figger and figgers, clark for clerk, paytent, naytional, and so on through the list.

The peculiarities of their mode of pronouncing their own names of families, places and things are not open to criticism, because if they may not do as they please with their own it is hard indeed. They pronounce Berkeley barclay, Cowper is cooper, Cadogan is kerduggan, Ralph is rafe in some shires, Craven is sometimes crawveen, Derby is darby, Leveson-Gower becomes loosun-gore, Hertford is hartford, and Albany is spoken so that the first syllable shall rhyme with shall, instead of with hall, as with us.

I hesitate to say that Cholmondeley is called chumly and that Beauchamp is beechamp, as every one knows these eccentricities, yet they are the most remarkable of all the liberties the English take with their language. You must say Balmo-ral and Trafal-gar, and you must chop the following names very short: Ludgat, Ho-b'n, South-uk and Merrybun whenever you wish to say Ludgate, Holborn, Southwark and Marylebone. I have heard the prince call his own house Mobrer House, though we call it Marlborough House.—Julian Ralph in Harper's.

A Common Form of Indigestion

Which cannot be cured by ordinary stomach medicine—The kidneys, liver and bowels become deranged — Dr. Chase's Kidney-Liver Pill.

By far the most important part of digestion takes place in the intestines, as has been repeatedly shown in cases where the stomach has been removed and the patient has lived and digested food without the aid of the stomach.

It frequently happens that people who continually dose the stomach for indigestion and use pepsin and various kinds of digestive tablets and powders can obtain no relief from such treatment, because the real trouble is in the intestines, the liver and the kidneys.

There is fullness and pains after meals, coated tongue, headache, loss of appetite, pains in the limbs and in the back and shoulders, flatulency and constipation, frequently alternating with diarrhoea.

In cases of intestinal indigestion the liver and kidneys usually become clogged and sluggish in action, and poisonous impurities are left in the blood, which should be removed by these filtering organs.

There has yet to be a remedy discovered that is so prompt and thorough in curing intestinal indigestion as Dr. Chase's Kidney-Liver Pills. And as this is the most common and severe form of indigestion it can well be claimed that Dr. Chase's Kidney-Liver Pills are the most successful treatment extant for indigestion and dyspepsia.

Mrs. T. Woodley, Tyrone, Ont., writes:—"I was a great sufferer for a long time with indigestion and very distressing pains in my stomach. I was persuaded to use Dr. Chase's Kidney-Liver Pills. Their mild yet powerful action worked wonders in me."

It is not unusual for persons who have long been suffering from chronic indigestion, biliousness and constipation to be thoroughly cured by Dr. Chase's Kidney-Liver Pills, which have by far the largest sale of any similar remedy. You may be skeptical, as others have been before you, but a single trial of Dr. Chase's Kidney-Liver Pills will convince you of their unusual medicinal value. One pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Every one in the world has his that become a problem at a time of a wedding or a party

A single lie destroys that absolute confidence which for certain souls is the foundation of love.

IN A LONDON SLUM.

How the Other Half Lives, as Shown in Clerkenwell.

They were a couple of dirty little urchins tossing pennies at the entrance of a Clerkenwell court on a summer Sunday afternoon. Their hats were crownless, their bodies coatless and their feet bootless. Indeed, their entire apparel seemed to consist of two hat-rims and some tattered ticking shirts and trousers, the bottoms of which were torn into scallops, squares and other fancy patterns. The little alleyway where they stood guard was dark and ill-smelling, yet from the rear there issued sounds of music such as one would scarcely expect to hear in that neighborhood. "Who makes the music?" I asked of the boy whose penny had turned up on its head. "What? You mean the hymn tunes and sech! Them's the mission folks what comes round every Sunday to preach and pray and sing," he answered. "Never seen 'em or 'eard 'em before, miss?" asked the other boy, with that happy self-satisfied air so often assumed by children when the find they are in possession of knowledge denied to their elders. "See 'ere, Jim; let's stop tossin' coppers—'taint right nohow on Sundays—an' we'll 'scort the laidy in among the mission folks. Can ye sing laidy?" On assuring him that I could sing, he and his companion, one on either side of me, escorted me in through the narrow alley towards the centre of the court. There I found it wider than at the entrance, so wide that it was possible to stand six or seven abreast. Three-storey buildings were on the three sides of the court, and from every window there peered several faces. There were men in their shirt sleeves, smoking pipes, and men with aprons tied round their necks. They had stopped in the middle of their Sunday shave, with hands holding a razor suspended in midair. There were women with plaid shawls crossed upon their bosoms, their hair in knots which had apparently not been untwisted since the preceding Sunday; and there were children of all ages and both sexes, garbed in the simplest and scantiest of summer raiment, sitting and standing by the open windows and doors, all intent on listening.—Quiver.

"STIFFLED" HEART

Ever feel that every breath would be your last—that the thumping, stiffling sensations about your Heart were crushing your life out?

Dr. Agnew's Cure for the Heart is the only absolutely unfailing remedy known and prescribed by eminent physicians. Its claims of potency are not heresay or false hope to the sufferer. It is not a spirit lifter to gather you up to the high pinnacle of expectancy only to drop you into a deeper mire of disease. It gives relief in thirty minutes. A few bottles cure the worst forms of heart malady. 3

Paid the Bishop's Fare.

Dr. Carpenter, the Bishop of Ripon, is one of the most popular clergymen in England. He is a man whose natural impulse must be to throw off his coat and work in his shirt sleeves. "I never address the Queen at all," he told somebody who asked him if he felt nervous when preaching before Queen Victoria. "I know that there will be present the Queen, the princes, the household and the servants down to the scullery maid." Dr. Carpenter is not ashamed to ride in a bus and has often told the story of a penny ride from Westminster to Charing Cross. When the ticket collector came round, the bishop found, to his astonishment, that he had not a penny in his pocket, and neither had his wife, who was with him. Dr. Carpenter made up his mind to borrow the money when he alighted at Charing Cross, but before he reached his destination a workingman with a bag of tools thrown over his shoulder turned to him as he left the bus and said: "Don't you bother about that. I've made that all right." Almost before the bishop could say "Thank you" the man with the bag was gone, and Dr. Carpenter found that he had paid his fare and that of his wife to the end of the journey.

A Comical Blunder.

One of the most ludicrous mistakes made by the telegraph was caused by the loss of a single dot in a telegram from Brisbane to a London news agency. As it reached London it read, "Governor-General twins first son," which the news agency "edited" and sent around to the papers in the following form: "Lady Kennedy, the wife of Sir Arthur Kennedy, Governor-General of Queensland, yesterday gave birth at Government House, Brisbane, to twins, the firstborn being a son."

The telegram arriving in the small hours of the morning, there was no time to check it or refer to Debrett, and it was published by most of the newspapers in London and the provinces and caused an unexpected sensation. Sir Arthur's friends pointed out with conclusive force that some one had blundered, as there never was a Lady Kennedy, Sir Arthur being a bachelor.

The repeat message which followed read:

"Governor-General turns first sod," referring to a railway ceremony.

Tea in Australia.

The Chinese tea plant thrives well in Australia. Trees planted by Baron Mueller, in the botanical garden, seed freely, and young plants are usually raised from them. The Australian papers say that the difficulty in making it profitable commercially is the cost of labor in collecting the leaves, but the native tribes might be taught to do useful work in this direction.

A Medicine 300 Years Old.

Our readers will probably be surprised to learn that for nearly 300 years cod liver oil has been used as a medicine. During the past twenty five years nearly all the cod liver oil brought to this country from Norway has been used in the form of Scott's Emulsion. It is by all means the most pleasant preparation of cod liver oil you can buy.

SURE REMEDY.

Mr. F. Churchill, Cornell, Ont., writes: "We have used Dr. Fowler's Extract of Wild Strawberry in the home and always find it a sure remedy for dysentery."

USED 9 YEARS.

Mrs. Jones, Northwood, Ont., writes: "My baby, eight months old, was very bad with dysentery. We gave her Dr. Fowler's Extract of Wild Strawberry and it saved her life. We have used it in our family for the last nine years and would not be without it."

ACTION WONDERFUL.

Mrs. W. Varner, New Germany, N.S., writes: "I have great confidence in Dr. Fowler's Extract of Wild Strawberry for various diseases in old and young. My little boy had a severe attack of summer complaint and I could get nothing to help him until I gave him Strawberry. The action of this remedy was wonderful and soon had him perfectly well."

No. 1 and No. 2 sold by all responsible druggists in Peterborough.

DOES IT PAY?

Does it pay, I wonder, to toil for gold
  Till the back is bowed and bent,
Till the heart is old and the hair is white
  And life's best days are spent,
Till the eyes are blind with the pillow dust
  That we strive for day by day,
Till all we hear is the coin's dull clink,
  I wonder does it pay?

Does it pay, I wonder, to strive for naught
  But the pleasures life will give,
To dance all night and to dream all day,
  To be merry while we live;
To work and worry and fume and fret
  Over what we shall wear today,
What we shall eat and what we shall drink,
  I wonder does it pay?

Does it pay, I wonder, to give our strength,
  The treasures of heart and brain,
The gift of the gods and the skill of hand
  For that which brings no gain;
To labor for that which is bread alone
  And the things that pass away,
Till the heart is full of an aching void,
  I wonder does it pay?

Does it pay, I wonder, to never stop
  In the ceaseless rush and care
And list to the songs of bird and brook
  Or wander through woodlands fair;
To never think of what lies beyond
  The narrow sphere of today,
Till the new life dawns on our untried souls,
  I wonder does it pay?
—Inez May Tutt in Somerville Journal.

INSPECTED BY AN INSPECTOR.

Just the Man the Montana Postmaster Had Been Looking For.

Omaha was headquarters for this entire district years ago. The chief inspector there was informed that a postmaster in Montana was not sending in reports of his office receipts, etc. Repeated letters and warnings had no effect. The postmaster was silent.

At length the indignant chief detailed Inspector Furay to proceed to Montana and investigate the strange silence. After a long and tedious ride by rail and stage Furay arrived at the provoking postoffice. There were two dwellings in the town and but two men. One of the small houses was stocked with a few dry goods, groceries and general merchandise. Furay entered and saw a lone, lank individual on top of a counter. Furay asked where the postoffice was.

"Right hyar," said the tall man, puffing his cob pipe.

"Who is the postmaster?" asked Furay.

"I be," was the indifferent response.

"Is there any mail here for me? My name is Furay."

"Luk yonder fer y'rself," responded the postmaster, with another puff at his pipe, and he pointed to a box at the other end of the counter. The inspector did so and then asked if the postal business there was always conducted in such a manner.

"Why, suttinly," said the lank smoker. The inspector then announced himself and proceeded in vigorous terms to state the law regarding the handling of mail and the absurdity of allowing people to pick out their own letters.

"What yer goin to do about it?" queried the postmaster calmly.

The inspector stated sharply that if necessary he could revoke the postmaster's commission at once, etc.

"Could yer take this hyar offis away from me immediately?" asked the postmaster in surprise.

"Of course I could," replied the inspector tartly. "If you had read the regulations, you'd know that."

"Waal," said the postmaster, straightening up suddenly and placing his hand on his hip pocket in a suggestive way—"waal, I'll jes' give yer ten minutes to take it away, then. Yer the feller I've been awaitin fer six years. Now I kin git rid of this hyar durned postoffis, an I'll do it. Take it away, Mr. Inspector, if yer value health an happiness. After six years I'll git shut of this offis. Hooray! Now be quick!"

Arguments were futile. Furay took it away, and as the only other man in town profanely declined the honor of being postmaster the inspector discontinued the office, which accommodated but eight people.

The Cause of It.

Unless a cyclist is a "scorcher" there is no need, generally speaking, to make any effort to avoid him. He will look out for the collisions.

A lady was crossing the street when she saw a bicycle rider coming toward her. She stopped, then dodged backward and, as he had swerved in order to pass behind her, there was a collision and both took a fall, but neither was much damaged.

"If you hadn't wabbled, sir," she said angrily as he assisted her to rise, "this wouldn't have happened!"

"Neither would it have happened, madam," he replied, "if you hadn't wabbled, or if you had wabbled in a contrary direction from my wabble. It was our concurrent and synchronous wabbling, so to speak, that caused it."

Then the cyclist, a college professor, doffed his cap, mounted his wheel and rode on.

A Natural Tunnel.

In locating the Virginia and Southwestern railroad through the Alleghanies from Virginia into Tennessee advantage was taken of a natural tunnel which is one of the wonders of the world. The distance through this tunnel is about 1,000 feet, and so nearly perfect is the tunnel that only 60 feet of blasting was necessary. The region is of limestone formation, as always where there are extensive caves. The cliffs at each end of the tunnel are 400 feet high, and the scenery in the locality is remarkably fine.

His Strenuous Effort.

"Let me congratulate you, old fellow. I see you are in print at last."

"Yes, but I'm not just sure about the congratulations."

"Why not?"

"Well, I was in deadly earnest when I wrote that article, and I thought there was a great idea in it, but"—

"Well?"

"The editor has run it in his department of humor."

Detected.

"What makes that actor criticise you so severely?"

"My dear sir," answered Mr. Stormington Barnes, "he hopes to make people say it is professional jealousy, thereby conveying the impression that he is in my class."

It Would Pay Some One.

"There is no doubt that this scheme will pay," said the promoter.

"Yes," answered the purchaser of stock. "I suppose so. But who is to get the money?"

HEART DISEASE

is a symptom of Kidney Disease. A well-known doctor has said, "I never yet made a post-mortem examination in a case of death from Heart Disease without finding the kidneys were at fault." The Kidney medicine which was first on the market, most successful for Heart Disease and all Kidney Troubles, and most widely imitated is

A MORGAN TAKE-OFF.

Punch's Amusing "Diary of An American Abroad."

Punch, too, is responsible for this amusing "Diary of An American Abroad:

Monday, 10 a.m.—Reached England. Country half asleep.

4 p. m.—Reached London. Village awake, but not really spry.

8—Dinner. Arranged to turn dining room into ante-room for callers. Tired. Counted checks. Bed.

Tuesday, 9 a.m.—Read Times at breakfast. Leader disparaging our company. Must see to this.

10—Saw proprietors of Times.

11—Bought Times.

3 to 6—Interviewed the company's competitors: three minutes each.

6 to 7—Wrote checks.

8.30—Theatre. Play, "The Ironmaster." Don't like the sound; suggests rivalry; must see if rights are to be had.

Wednesday — Curiously unlucky morning. Admiralty wouldn't sell fleet. War Office refused to scrap guns. Colonial Secretary declined to let me have Jamaica as a tip for our ashes. At this rate no use staying out. Picked up Thames steamboat fleet for an old song on my way back. Will do to run on the canals inside our fitting shop.

Thursday, 5 p.m.—Things have been humming to-day. Steamboat deal evidently leaked out. Bought the P. & O., Cunard, White Star, Orient, Union Castle and North German Lloyd. Bought the London & North-western. Cabled to my company that they might begin making.

Friday, 10 a.m.—Cable from company asking me to buy less and sell more. Nonsense. Plenty of time for selling. Much best policy to buy up all our customers first. Sell to ourselves then and make sure of orders.

4 p.m.—Bought Holyhead harbor. Made an offer for St. George's Channel.

Saturday, 9 a. m.—Cable from home. "Rival trust formed. Underselling. Return at once."

10 a. m.—Returning.

A More Vital Matter.

"Did you ever think what you would do if you had the Duke of Westminster's income?"

Village Pastor—No, but I have sometimes wondered what the duke would do if he had mine.

The Engineer

Leaning from the cab window does more with his ears than his eyes. The "rumble and grumble and roar" of his engine are to him articulate speech, and a false note in that jumble of sounds would catch his ear as quickly as a discord would strike the ear of the leader of an orchestra.

He thinks more of his engine than himself. That is why he neglects to notice symptoms which are full of warning. The foul tongue, the bitter taste, sour risings, and undue fullness after eating are but symptoms of dyspepsia or some form of disease involving the stomach and organs of digestion and nutrition. In time the heart, liver, lungs, or other organs are involved and the engineer has to lay off.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and organs of digestion and nutrition. It purifies the blood and builds up the body with sound healthy flesh.

"I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his 'Pleasant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and it seemed that the doctors could do me no good. I got down in weight to 125 pounds, and was not able to work at all. Now I weigh 160 and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicine."

Dr. Pierce's Pleasant Pellets cure constipation.

NATURAL HISTORY.

The pouch of a pelican is large enough to contain seven quarts of water.

For mountain climbing camels are very inefficient and seldom used in Abyssinia and other mountainous countries.

Sparrows begin housekeeping very expeditiously. A pair of them will build a nest and furnish it with an egg inside of 24 hours from the time when the site was selected.

The female red grouse is said to vary its dress according to surroundings. It is a fact worth remembering that the red grouse occurs in no other part of the world but the British Isles.

No one has been able to give a satisfactory reason for the formation adopted by the wild duck or mallard in flight. The birds arrange themselves in two converging lines, like a huge V, the leader occupying the point.

The ostrich is a descendant of a genus of bird which in prehistoric times attained an enormous size. In the alluvial deposits of Madagascar evidence has recently been found to show that ostriches 14 and 15 feet in height once lived on the island.

The Asthmatic's Agony.

Wakeful nights, suffocating sensations, difficult breathing. Who can describe it? This disease, partly nervous, partly congestive, partly the result of microbic irritation, is no longer treated by nauseous stomach destroying drugs, but by Catarrhozone, that destroys the microbe, relieves congestion and relaxes the nervous irritability that renders breathing so difficult. The medication is carried by the air you breath to the very seat of the disease, and removes at once the cause. The great discovery is known as Catarrhozone. Its influence upon Asthma is simply marvellous. Catarrhozone prevents as well as cures, and is the only remedy guaranteed to cure. Your money back if it fails. Two sizes at all dealers, 25c. and $1.00.

A Story of the Duchess.

When the Duchess of Cornwall and York, according to a story which is going the rounds, visited Sydney Hospital incognita a few days ago, Her Royal Highness stopped at a little boy's bed and inquired what was the matter with him.

"I've broken my leg," was the reply.

"How did you do that?" asked the Duchess.

"I fell off a fence trying to see the Duchess, and I never saw her after all."

Then, disclosing her identity, the Duchess said:

"I suppose you are sorry that I ever came to Australia, but you can see me now all to yourself."

Her Royal Highness sat at the bedside talking to the little boy for several minutes, to his enormous and unconcealed delight, and left him radiant with happiness.

The Secret of Beauty

How Anyone May Obtain It.

Thousands of people who bathe themselves with soap and water, and clothe themselves with fine hats and garments, in order to appear well, neglect the spring of beauty. A fine complexion, bright eyes and buoyant step, and vivacious spirit can be maintained only as due attention is paid to the blood, the stomach, the bowels and the kidneys. Merrill's System Tonic meets every requirement in this particular, and the use of a few bottles brings about in every instance the desired results. Merrill's System Tonic cures constipation, and thus keeps the body clean within. It purifies the blood, thus giving the health glow to the skin. As a remedy for the kidneys it has no equal, and it is the best blood, bone and tissue maker known to-day.

Use Merrill's System Tonic to keep you in perfect health, if you are already so, and use it to gain perfect health if you've lost it.

Each 50c bottle contains 50 pleasant-to-take doses, and is sold

IMPROVEMENTS AT THE "Y."

The Boys Will Occupy the Basement.

Class Rooms Elegantly Finished off on the 3rd Floor — Other Changes That Have Been Made.

Whilst General Secretary G. H. Williamson, of the Y.M.C.A., may have been absent from town on a few holidays this summer, and the Physical Director, Mr. Horace Ayers, may have been taking a course of training away from home, and whilst to all appearances the Y.M.C.A. building may have been to some extent, deserted during the summer months, still there was much activity going on inside. The busy carpenter, the painter, the plasterer, and other workmen were engaged in making extensive improvements to the handsome building, and now that they have completed their contracts one can judge of the respective improvements made.

It was said when the present Y.M.C.A. building was erected that it was too large for what was required, and that a lot of unnecessary room would lie idle. The folly of such a thought is now too apparent, and has been so for some time. Anyone who has attended lectures or entertainments of any kind in the Lecture Hall during the fall or winter, may have noticed the noise arising from those in the class rooms near by, as they pursued their respective studies. They did not make unnecessary noise, but owing to the location of the class rooms, some of which were adjoining the lecture room, much inconvenience was experienced by scholars as well as those in the lecture hall. Now, however, this difficulty has been entirely overcome, or at least it should be so. Again, the Juniors and Intermediate Classes, who occupied the first floor, created considerable clatter, which, while never objected to by the officials, perhaps could be dispensed with. This, too, according to the new arrangement, will be done away with.

In the basement of the "Y" up to the present time, there was an unlimited amount of space unutilized. During the past few months this has been converted into the boys' apartments. There is a beautiful airy class room, an attractive game room, a spacious hall and a conveniently-situated office. The office, it might be stated, will be occupied by the boys' secretary, who will be appointed in the course of a few days by the management. The game room is closely connected with the gymnasium, and altogether for convenience and comfort the boys' apartments down stairs are unsurpassed. The painting, kalsomining and work in general, is beautifully done. The boys will occupy these apartments exclusively.

On the first floor, or in a sense, the second floor, whilst there have not been any improvements in the workman's art, still there is a slight readjustment of the apartments. The rooms occupied by the boys on this flat are put to other purposes. The third flat remains about the same, but the fourth story, an unexplored region to many, has been transformed into as attractive a spot as one could wish to visit. Here the classes will meet in handsomely finished quarters, and away from the noise that sometimes arises from gatherings of various kinds below. The hallway is neatly finished in ash, and the kalsomining and painting is a fine sample of the decorator's art. Besides these there are two beautiful rooms, which will be furnished and used as apartments for the General Secretary and the Physical Director.

The improvements made in the "Y" are extensive, but nothing more than is demanded by the increased membership during the fall and winter.

A $1200 outlay in this connection has been made, and has been provided for. However, the boys' apartments must be suitably furnished, and any contributions for this purpose will be thankfully received.

GRAND TRUNK RAILWAY SYSTEM.

The Great Railroad Day at the Pan-American, Buffalo, Saturday, September 14th, 1901.

It is expected that on Railroad Day the largest number of railway men will be congregated together, than on any former occasion, Buffalo being a great railway centre, having a population of 400,000, a large number of them being engaged in railway work. In order to give the railway men and their friends an opportunity of visiting Buffalo, special excursion fares have been arranged by the Grand Trunk Railway System. Tickets will be valid going by all regular trains Friday, September 13, and good for return passage on all regular trains Monday, September 16. Ask your nearest Grand Trunk Agent about it.

In connection with this excursion the Grand Trunk Railway System will issue engraved souvenir admission tickets to Exposition at 50 cents for adults. These tickets can be purchased from agents at starting points.

A LITTLE OF EVERYTHING.

So Eko Camp are thinking of buying a steam yacht! Perhaps they may then buy a small lake on which to sail it, but in any event the enterprise of the Eko Camp boys is to be admired. There is no doubt that a steam yacht would be a very nice thing not only for themselves but for their friends. And it is to be hoped that by next year the idea will have become an accomplished fact.

• • •

It is rumoured on the streets today that the 3rd Prince of Wales Canadian Dragoons are not going to Toronto to take part in the reception ceremonies to the Duke and Duchess of York. Although the commanding officer of the regiment has not given anything out to the public, still it is current gossip on the street that official notice has been received from headquarters that the Dragoons will be relieved from taking part in the Toronto festivities. This turn of events is exceedingly regretted by a great majority of the officers, non-commissioned officers and men, if not in fact by the entire regiment. The Dragoons, the pride of this military district, that can make other regiments look like a lot of wooden men, will remain at home, and not see the Duke whom, it is said, will shortly be given that title which his father held and whom the local cavalry regiment is called after, "Prince of Wales."

A funny incident occurred between 8 and 9 o'clock, yesterday morning, at the corner of Hunter and George streets. There was an American gentleman, his wife and child, who were returning from Stoney Lake. They wanted to make a trip to the northern end of the town evidently, and they no doubt saw the trolly wires hanging over the streets. Never dreaming but that such an apparently progressive looking town would have an up-to-date system of street cars, the trio stood in the centre of the street waiting patiently for the next car going north. They waited sufficiently long to realize that something was wrong. They may have noticed no iron rails on the ground, and after looking around to see if anyone caught onto their action, they took the pavement and went on their journey, whilst those who saw the incident smiled quite loudly.

• • •

The interest amongst military men is unusually keen for this season on account of the preparations for the visit of the Duke and Duchess of York and in the Peterborough garrison there is much activity. The local corps commenced work last week so as to be in readiness, but as the men are all fit as far as drill can make them, the principal work will be in properly fitting out all ranks. The announcement made this week that the government proposed giving 25 cents per day for sustenance has caused a commotion amongst all ranks and an expression heard very often is "Well I'm not going on 25c. per day." Many hope that the department will reconsider this decision because 25 cents is a small amount and no city corps can take a trip and live on this sum without considerable private expenditure, and this is out of the question as the men have enough to contend with now, in the matter of contributing from their private purse to maintaining the Canadian militia. The trip to Toronto otherwise promises to be a most noteworthy one, and will prove an occasion in which those who take part will later look back upon and say with pride, that they were there and assisted in the welcome to the King's son.

—Well equipped? Well, everyone thinks so that get their work done at LeGros. Slickest barber shop in Canada. All the men have eight or ten years experience or over.

London's Witty Cabbies.

"Riding down Oxford street this morning on top of a 'bus," writes William E. Curtis, from London, "I poked the driver in the back with my umbrella, as Americans usually do, and asked him questions. He was good-natured, and answered them cordially. Some of his retorts were quite witty. You seldom find a 'bus driver in London without a keen sense of humor, and they all like to talk. As we were passing old Newgate Prison, I enquired, 'How do you get inside that place?' What I wanted to know was whether I must go to some official for a ticket of admission, and this was his answer: 'When you get hoff this 'bus go hup be'ind the first cove you see and 'it him has 'ard has you kin in the 'ead. The bobby will do the rest.'"

It Is Different in the U. S.

Glasgow or Birmingham can control its own railways as well as its other public utilities, because there they put thieves in jail, not in public office, says The New York Times. If the mayor of Glasgow were believed capable of using his official influence for the profit of himself or his friends he would never have an opportunity to repeat the crime. Here we promote our thieves from one high station to another, with full knowledge of their dishonesty, and the only check we can impose for our own protection is to limit their opportunities to loot.

The Penny Post.

The "penny post," so dear an institution to all Englishmen, was started as a private speculation by Robert Murray and sold by him in 1681 for a handsome fortune. Eleven years later its revenues were annexed to the crown.

—Have you tried the electric brushes at Alive LeGros' barber shop. Great thing to clear your brain and put go in you.

An Embassador.

The oft quoted epigram, "An embassador is a good man sent abroad to lie for the sake of his country," was fatal to the author, Sir Henry Wootton. It lost him the chance of becoming secretary of state. The mot was seized upon by a Roman Catholic writer to prove that Protestants could employ casuistry. James I, who had a keen scent for theological controversy, read the work, was deeply offended with the epigram, and gave the secretaryship to another.

The Bliss of Ignorance.

Fuddy—Come, now, do you think food tastes any better because the bill of fare is printed in French?

Duddy—Perhaps not; but, then, you don't know what you are eating, and that's some comfort. — Boston Transcript.

Dressing Well at Small Cost is Easily Accomplished.

Diamond Dyes enable thousands of women to dress well at small cost. One or two packages of some fashionable colour of the Diamond Dyes will give new life and beauty to any old and cast off skirt or dress. Your faded cape or jacket of last year can be coloured a rich black, navy, seal brown or dark bottle green, and made to look as if it came new from the store. Your husband's suit and children's clothes may, with a little care, be made as good as new.

Now is the time to dye your rags for the making of pretty mats and rugs. If you desire a novel and stylish pattern, buy one of the Diamond Dye Mat and Rug Patterns now sold by the majority of dry goods merchants everywhere. These beautiful patterns are coloured on the best Scotch Hessian and ready for working. If your dry goods dealer does not keep them, send to The Wells & Richardson Co., Limited, Montreal, for design sheets. Mailed free to any address.

The New Zealander Won.

Rat Portage, Sept. 10.—The weather conditions for the race between Harry Pearce and John Hackett of Rat Portage yesterday were perfect. The race was a mile and a half straight away. Sullivan offered $1,500 to $1,000 on Pearce Saturday night but it was not covered. Pearce won by two lengths and a half. Pearce is a New Zealander and a fine oarsman.

Milburn's Heart and Nerve Pills cure Anaemia, Nervousness, Sleeplessness, Weakness, Palpitation, Throbbing, Faint Spells, Dizziness, or any condition arising from Impoverished Blood, Disordered Nerves or Weak Heart.

Lost His Way in a Bush.

Toronto, Sept. 10.—The badly decomposed body of William Kidd, a carpenter of this city, was found yesterday in the bush about four miles from Fort William. Two men were out exploring when they came across the body and notified Coroner Hamilton, who took charge of it. His pocketbook, containing $112 and a gold watch, were found in his pockets, and the police therefore believe that it was not by foul play that he met his death. They are, on the other hand, of the opinion that he wandered into the bush and lost his way. Deceased was 53 years of age. Kidd is survived by three brothers, who live at Cookstown, and four sisters. Deceased was a member of the I. O. O. F. The remains will be brought to Cookstown for burial.

Two Drowned at Quebec.

Quebec, Sept. 10.—A very sad drowning accident occurred Sunday afternoon near Levis Dry Dock. Three young men, Joseph Kane, son of Patrick Kane of Ottawa; John Hamilton and another one, known only unaer his first name, "Peter," who were in the employ of the Quebec Bridge Company, left about two o'clock in the afternoon, in a sail boat when opposite Gilmour's Cove at St. Joseph de Levis, they were struck by a sudden gust of wind and the boat capsized. Young Hamilton succeeded in remaining afloat by taking hold of the boat, and was rescued some time after the accident. The two others disappeared beneath the waters.

Daring Highway Robbery.

Bowmanville, Sept. 10.—William S. Wight of Tyrone, an extensive and well-known dealer in farm stock, was assaulted and robbed of some $2,000 when on his way through what is known as the Pine Ridge to Burketon on the C.P.R., about 7.30 yesterday morning. When two miles north of Hayden Village he suddenly received a blow on the head which knocked him senseless. On returning to consciousness he found his money gone. In this condition he was found by David Brunt, who drove him to Drs. Mitchell and Trebilcock, at Enniskillen, where his injuries were attended to. The money consisted of one, five and ten dollar bills.

Canadians Defeat the Irish.

New York, Sept. 10.—The Canadian and Irish riflemen met yesterday on the long ranges at Sea Girt, N. J., in a special contest between teams of five men each. They shot over the 800, 900 and 1,000 yard ranges, the Canadians using the English military rifle and the Ulster representatives shooting with Mannlicher guns. In consequence the Canadians received an allowance of 8 points each, or 40 points for the team, and the honors went to Canada by 18 points on the gross score. The net scores were: Canada, 593; Ulster Rifle Association, 620.

Summary of the Team Match—Canada—Capt. W. H. Davidson, 122; Pte. Paubst, 122; Sergt. Skedden, 131; Sergt.-Major Huggins, 113; Gunner Flemming, 105; handicap allowance, 40. Total 633.

Ulster R. A.—Major J. K. Milliner, 136; Robert Duncan, 126; W. T. Braithwaite, 122; J. R. Williams, 120; F. W. Henry, 116. Total, 620.

More Census Returns.

Ottawa, Sept. 10.—Late census returns, it is now expected, will considerably increase the population total for the Dominion. The returns now coming in show many people in districts where it was expected there were few if any settlers. This is particularly so of the Northwest Territories, Algoma and Nipissing and Ottawa County. An error in tabulation made the increase in the population of Megantic only 88, while it should have been 1,388.

Advice to Mothers:

If your little boy or girl comes home with a sore throat the first thing to do is to rub the throat and chest with Polson's Nerviline. Don't be afraid to use Nerviline freely—a whole bottleful wouldn't burn or blister the tenderest skin. Rub in until all taken up by the pores and just before the child goes to sleep give him a glass of hot water into which 30 drops of Nerviline has previously been stirred. This is a sure, pleasant, and speedy cure. Large bottles 25c.

Shoe Style.

When you wear a "King Quality" shoe you get all the style, the fit and finish found in the best American shoes.

The "King Quality" factory is the only one in Canada that makes Ladies' Shoes better than the American article, which comes into Canada with a 25% duty taken out of its quality.

The "King Quality" brand is worn by the *best dressed* Canadian ladies; it is a true note of shoe fashion, of *correctness* in dress.

27 styles, 4 widths, all sizes.
Branded "King Quality."
Gold medal awarded at the Paris Exposition, 1900.

TWO MEN BURNED UP

Terrific Smash of Freight and Passenger Cars on G.T.R.

ACCIDENT WAS NEAR PRINCETON

Engineer Denne and Conductor Harman Were Killed and Burned, But Fireman Rennie Lived for Some Hours Before Succumbing to His Injuries—Two Others Seriously Hurt.

Woodstock, Sept. 11.—The wreck which occurred on the main line of the G. T. R. about 1 a. m. yesterday, was attended by three fatalities and the loss of thousands of dollars' worth of property. The accident took place about a mile and a half east of Princeton Station. There were three trains in the wreck, and the dead are: Conductor Harman of Toronto, Engineer Fred Denne of Little York, and Fireman Rennie of Sarnia.

Freight train No. 319, in charge of Conductor Rich, passed Princeton Station at 12.29 a. m. yesterday. She had through running orders. A few moments later a train of empty passenger coaches, in charge of Conductor Harman of Toronto, drawn by engine No. 784, came in, and Night Operator Robertson sent it after the freight, at what was considered a safe distance.

Following the passenger train, and anticipated by the danger signal on the rear car, came a through freight from Chicago, drawn by engine No. 732. The train was in charge of Conductor Low, and in the engine were Fred Denne of Little York and Fireman Rennie of Sarnia. Operator Robertson, at the Princeton Station, ticked off that the trains had safely passed the station, and the semaphores were dropped after them.

As near as could be gathered from the railway men, the accident was due to the first freight train stopping to fix a hot box. Going down the grade the discovery was made that one of the boxes was burning, and the brakes were applied. The train was brought to a standstill, and the passenger train, coming behind, was signalled. The engineer brought his train to a standstill a few yards away from the caboose of the freight train.

Anticipating some delay, Conductor Harman of the passenger train, knowing that he was being followed by the through freight, decided to back up and signal her. Coming over the top of the grade he saw the headlight of the on-coming freight. Whether he failed to signal properly, or whether he miscalculated the speed at which the freight was coming, is not known. It would seem that he felt satisfied that the freight was about to slow up, and he sent his train ahead again.

But Engineer Denne of the third train seemed not aware of the passenger train ahead of him. He came on at full speed. The force of the collision was terrific. The engine of the freight completely telescoped three of the passenger coaches, dragging four freight cars after it. The engine landed on the south side of the track and the tender was thrown off on the other side.

Engineer Denne was evidently thrown out of the engine, or, possibly, he had jumped and was caught

ENGINEER FREDERICK DENNE.

in the mass of wreckage that was instantly piled up and began to burn. His engine was on one side of the track and his watch, uninjured, was found on the other side, together with what remained of his body. The engineer was burned beyond recognition.

Almost immediately after the collision took place, the steam pipes burst and the fire box of the engine was shattered, scattering burning coals over the wreck. In an instant the mass of battered wood and twisted iron was lost in flames. The two rear passenger coaches over which the engine of the freight had been bounded, took fire first, and the fire was fed by the four freight cars, which were piled up by the force of the impact.

Underneath the seething mass were the helpless forms of Engineer Denne and Conductor Harman. Fireman Rennie was also caught before he could get clear of the wreck. He jumped, but was pinned down beneath the shattered freight cars, which came over the tender.

He was found some hours after by the wrecking gang. He was unconscious and terribly mangled. He was taken to Brantford Hospital, where he expired about 10 o'clock yesterday morning. What became of Conductor Harman of the passenger train no one knew. It is believed that the body of the unfortunate conductor will be found beneath the car, or his ashes may be with those of the two passenger coaches that were burned. The track was cleared by 11 o'clock yesterday morning, but the body of Harman has not been found.

Found Guilty.

Belleville, Ont., Sept. 11. — Benjamin and Nolton Sandford of this city were found guilty yesterday of an attempted rape on the person of a little girl from Marora.

DOCTORS' OPINIONS.

Express Themselves Very Confidently of President's Recovery.

LAST BULLETIN CAUSED A SCARE

It Was Found Necessary to Remove a Few Stitches and Partially Open the Skin Wound, Owing to Irritation Produced by a Fragment of the President's Coat Carried Under Skin by the Bullet.

Milburn House, Buffalo, N. Y., Sept. 11.—Late last night there was a slight scare at the Milburn residence, caused by the protracted visit of the consulting physicians, who remained almost two hours, and this was increased by the announcement in the official bulletin issued just before midnight that a slight irritation of the exterior wound discovered only last night had necessitated the opening of a few stitches of the wound. As explained in the bulletin which all the doctors signed, this irritation was attributed to the fact that a small fragment of the President's coat had been carried into the body by the bullet, and although this foreign substance was removed a slight disturbance developed which made necessary the opening of the wound. The doctors seek to allay all apprehension by the positive statement that this incident cannot give rise to other complications, and their frankness in giving the news to the public leaves no reason to question their entire good faith. The further fact communicated in the bulletin that the President was well enough, taking nourishment in the mouth from a pure beef juice was of course gratifying, but to the laymen the mere mention of a complication, however slight it might be, naturally create alarm. It seems like a little cloud on the horizon, which might grow and spread. But the most positive assurances were given out that the only effect might be to slightly delay the healing of the wound. The irritation was not in any way the result even or a suggestion of blood poisoning, the physicians declared over their own signatures that it could not result in complications. The opening of the wound was in no sense an operation. Several of the stitches were simply taken out, and after a thorough septic washing of the inflamed tissue, the wound was again sewed up. No anesthetics were necessary. Considerable delay was caused by the fact that a certain dressing desired by the surgeons was not in the house, and it was necessary to send into the city for it. The first time the messenger returned he did not have what was wanted and he had to take another trip.

One Disturbing Bulletin.

Buffalo, Sept. 11.—The following bulletins were issued during the day yesterday:

9 a. m.—The President's condition this morning is eminently satisfactory to his physicians. If no complications arise a rapid convalescence may be expected. Pulse 104, temperature 99.8, respiration 26.

This temperature is taken by mouth and should be read about one degree higher by rectum.

3.30 p. m.—There is no change since this morning's favorable bulletin. Pulse 110, temperature 100, respiration 28.

10.30 p. m.—The condition of the President is unchanged in all important particulars. His temperature is 100.6, pulse 114, respiration 28. When the operation was done on Friday last it was noted that the bullet had carried with it a short distance beneath the skin a fragment of the President's coat. This foreign material was of course removed, but a slight irritation of the tissue was produced, the evidence of which has appeared only last night. It has been necessary on account of this slight disturbance to remove a few stitches and partially open the skin wound. This incident cannot give rise to other complications, but is communicated to the public as the surgeons in attendance wish to make their bulletins entirely frank. In consequence of this separation of the edges of the surface wound healing of the same will be somewhat delayed. The President is now well enough to begin to take nourishment by the mouth in the form of pure beef juice.

(Signed) P. M. Rixey, M. D. Mann, Roswell Park, Herman Mynter, Eugene Wasdin, Charles McBurney. (Counter signed) George B. Cortelyou, Secretary to the President.

NATION'S CHIEF RECOVERING.

Only Complications of an Unexpected Nature Can Now Endanger President McKinley's Life.

Buffalo, N. Y., Sept. 11.— The corps of eminent surgeons and physicians in attendance upon the wounded President yesterday committed

WEDNESDAY, SEPT. 11, 1901.

MR. WHITNEY CRITICISED.

The following article upon Mr. Whitney, leader of the Conservative Opposition, is taken from "Saturday Night." The editor of this Independent journal was always a strong supporter of Sir William Ralph Meredith, a former leader of the Opposition, and his pungent criticism of Mr. Whitney's methods and his telling contrast of the characteristics and methods of the two men, show that he has little sympaty with the Conservative leader's platform pyrotechnics, and his wordy oratory on subjects of which he seems to have little practical comprehension:—

"Mr. J. P. Whitney, leader of the Provincial Opposition, occupied the platform at Victoria Hall for three hours last Monday night, in order to set clearly before the delegates to the Ontario Conservative Association his exceedingly low opinion of the Ross Government. The audience was small, and the speech was not of the large variety — in fact, added nothing to the copious literature developed on the hustings and in Parliamentary debates. Like the Liberals when they were in Opposition in the Dominion, he was able to draw up a lengthy and resonant indictment of the party in power, showing their sins as scarlet, but nothing was developed of a character which would make an elector "pause and reflect." No one needed to be told that Mr. Whitney and his colleagues in their own estimation have been the only statesmanlike people in the Provincial Legislature, nor was anyone aching to hear how little Mr. Whitney himself thought of his opponents. Of course the old charges were all reiterated, together with the one now made against the Ottawa Liberals that all the good things in their programme were stolen from the Conservatives. It is really wonderful how little the Liberals have ever been able to think out for themselves, and yet with what judgment they have appropriated the best things produced by the gigantic and bulging brows of those who for many years have been unable to obtain power in Ontario and were not able to hold it at Ottawa. Mr. Whitney, as a precautionary measure, is not going to wash out the set of principles for his policy until it will be too late for the Liberals to rob his clothes-line. It is said that some very pretentious people never have their washing hung out in the back yard till after dark so that none of the neighbours will be able to see how little there is of it and how ragged that little is in important places. The leader of the Ontario Opposition, however, tells us that this is not his reason, but, like Hon. Joseph Chamberlain, whom he quoted, the Opposition "are not going to lend him (Ross) our prescriptions while he takes the fees." I do not agree with the local Conservative journal which thinks this is a very smart saying. If Mr. Whitney and his followers have a policy which would benefit Ontario and have been concealing it about their persons for the last three or four years, they have not been doing their sworn duty to the constituencies which they represent, or the provinces generally. Doing the greatest possible good to Ontario, should be a higher aim than the obtaining of "fees" by being able to seize office. If these men are in the Legislature in the hope of making money by snatching the reins of government, we have a right to suspect them of being mercenaries, not patriots. It is well known that when the then Mr. Meredith was leader of the Opposition all his legal knowledge, foresight and ability were devoted to the obtaining of the best possible legislation and strict enforcement of laws. He never held back, as if he had a patent right on how the legislative and executive machine should be run. I have always contended that much of the good government we enjoyed during the time of Mr. Meredith's presence in Parliament was owing, not so much to the ability of Sir Oliver Mowat and his colleagues, as to the high and statesmanlike attitude of the leader of the Opposition. True, he did not obtain office, largely because he was surrounded by men who took the same small view of their duties as is apparently held by Mr. Whitney. The latter gentleman tells us that Ontario is sick, politically, financially and morally, on account of the misdemeanours of the Ross Government. He also informs us that he has, and has had, a prescription which would restore it to health, increase its wealth, and result in the elevation of the moral tone of elections. This, however, he admits, he is holding back in order that he may collect the fees if any cure is made or if the medicine sells well. If two doctors are engaged to look after the health of a patient, as Mr. Whitney and Mr. Ross both are, what right has the former to let the patient languish nigh unto death, as Mr. Whitney would have us believe Ontario is *doing, rather than* aid by his skill and knowledge of a cure for which his opponent would obtain the greater fees, though probably not the greater honours? Altogether this piece of smart repartee leaves a bad taste in one's mouth, and makes us fear that Mr. Whitney is more or less of a quack who is looking more for office and fees than the good of his patients."

EDITORIAL NOTES.

Mr. Whitney's programme of "policy," which was projected into political space with such brilliant pyrotechnic oratorical effects, has attracted scant attention, even from journals of his own political faith. It went up like a rocket and came down like a stick in the mud.

In the course of his sermon at Ocean Grove, N. J., on Sunday, Dr. T. Dewitt Talmage, of Washington, said:

"I wish that policeman in Buffalo who seized the pistol of the scoundrel who shot our adored President, had taken the butt of the weapon and dashed the man's brains out on the spot." The ten thousand people in the audience applauded the sentiment.

Sanctimonious hysterics invade even the pulpit. Think for a moment of a preacher of the Gospel of love, even the most sensational and clap-trappery, giving utterance to a sentiment that is harsh even in the doctrine of "eye for an eye," belonging to the tenets of a displaced creed. Think of such a demonical doctrine preached by a minister of the Gospel of Him, who in the supreme moment of his sacrificial agony, prayed, "Father forgive them; they know not what they do."

A Risky Feat Costs a Life.

Toronto, Sept. 11.—Seventeen-year-old John Anderson of 85 Lindsay avenue fell from a fourth storey window to a board platform in the rear of the premises of Gowans, Kent & Co., 16 East Front street, yesterday, at noon, and died instantly. Both arms, both legs and his back were broken by the fall, a distance of 40 feet. Coroner Greig investigated the circumstances surrounding the lad's death and decided that an inquest was unnecessary.

Anderson worked for Francis J. Greenway, 283 Markham street, a China decorator, employed by the Gowans, Kent firm. Shortly after 12 o'clock he went upstairs and sat on the window ledge to eat his lunch. Afterwards he tried to climb along the ledge from one window to another, and missing his footing, fell backward to a wooden platform below.

Ottawa Lumberman Fined.

Ottawa, Sept. 11.—John R. Booth, the great lumberman and railway man, was fined yesterday morning $20 and costs at the Police Court for depositing sawdust and other deliterious matter in the Ottawa River from his big mill at the Chaudiere, in contravention of the Fisheries Act. The case excited great interest, as Mr. Booth had resisted all attempts for 20 years to persuade him to discontinue the dumping of the sawdust in the river, and since the passage of the act, he had succeeded until now in escaping prosecution, having always threatened to close up the mills and move elsewhere if prosecuted. Mr. Booth, who was present in court, offered no defence yesterday, but pleaded guilty and paid the fine and costs and left the court without remarks.

Only a Little Backache.

That is the first unmistakable symptom of diseased kidneys, an ailment which no one can neglect without inviting Bright's Disease, diabetes, rheumatism, and the most painful and fatal maladies. At the first sign of backache and urinary disorders, use Dr. Chase's Kidney-Liver Pills, and you can be certain of prompt relief and cure. One pill a dose; 25 cents a box.

VICTORIA CHEESE BOARD.

Buyer Flavelle Made a Big Sweep.

He Captured 1094 Boxes out of 1682 Offered—9 1-8c. the Top Figure.

Victoria County Cheese Board met in the market rooms, Lindsay, on Monday morning, Pres. Thos. Robertson in the chair. It was a business session, the usual discussion on allied subjects being dispensed with. The buyers were Messrs. Flavelle Whitton and Fitzgerald.

The following factories boarded the number of cheese set opposite:

Star	88
Lorneville	25
Cameron	98
Dunsford	128
Mariposa	112
Janetville	64
Omemee	137
Fenelon Falls	112
North Verulam	133
North Ops	80
Pine Grove	55
Reaboro	134
Bobcaygeon	180
Maple Leaf	120
Palestine	55
Red Rock	148
	1682

Mr. Fitzgerald led off with an offer of 8 3-4c; Mr. Whitton raised to 8 7-8c., Mr. Flavelle called 8 15-16c., Mr. Whitton jumped to 9c., Mr. Flavelle to 9 1-16c., and Mr. Fitzgerald called 9 1-8c. This was not bettered, and Star, Dunsford, Mariposa and Bobcaygeon were named and accepted the offer. Total, 508 boxes.

Mr. Flavelle offered 9c. for the second selection, but there was no takers. He then raised to 9 1-8c., and cleared the board with the exception of Lorneville and Palestine, concerning which factories there is always a hitch over the cost of inspection, they being isolated from others. Red Rock, Omemee, Fenelon Falls and North Verulam will pay freight to Lindsay.

The next sale will be held on the second day of the Lindsay Fair, Sept. 27th.

A BIG HANDICAP.

A man with a lame back does not feel much like working and you cannot blame him. Jeremiah Redden, carpenter, No. 7 Cowdy St., Kingston, Ont., suffered with rheumatism in his back (lumbago) for two years. Five bottles of Dr. Hall's Rheumatic Cure completely cured him. This great blood purifier is put up in bottles containing ten days treatment. Price 50 cents at all drug stores or Dr. Hall Medicine Co., Kingston.

No One Responsible.

Niagara Falls, Ont., Sept. 11.—Coroner Dr. Emes empanelled a jury and held an inquest on the body of the woman, Maud Willard, who met death in the whirlpool Saturday evening after navigating the rapids in a barrel. The evidence adduced from the different witnesses, the principal one being Carlisle D. Graham, went to show the woman had, upon her own free will, entered the barrel, and had been anxious to make the trip for gain of remuneration promised her by the New York Mutuscope Company, who made moving pictures of the wild ride through the rapids, as well as Graham's swim through the Devil's Hole rapids to Lewiston the same afternoon. The jury returned a verdict of death by suffocation, holding no one responsible.

Voted For Revolution.

London, Sept. 11.—A special despatch from Paris, says:

"At Montecau-Les-Mines some hundreds of reservists returning in uniform yesterday from the army manoeuvres entered the town singing the "Internationale" and other revolutionary songs. A force of gendarmes attempted to disperse the reservists, but the latter fixed bayonets and charged on the police with cheers for Anarchy and a social revolution. The gendarmes were scattered. The soldiers then held a mass meeting and passed a resolution in favor of a revolution."

JEALOUS RIVALS

Cannot turn back the tide. The demand for Dr. Agnew's little Pills is a marvel.

It's the old story, "The Survival of the Fittest," and "Jealousy its own Destroyer."

Cheap to buy, but diamonds in quality—banish nausea, coated tongue, water brash, pain after eating, sick headache; never gripe, operate pleasantly. 40 doses, 10c.; 100 doses, 25c. 5

Wouldn't Stand for It.

Washington, Sept. 10.—Second Assistant Postmaster-General Shallenberger yesterday summarily cancelled the contract of a mail carrier for expressing satisfaction over the shooting of President McKinley. The name of the person who was thus dealt with is Charles F. Cortright, and he had a contract for carrying the mail between Homer, Cortland County, N. Y., and Spafford, in Onondaga County.

A Red Hot Season.

During the hot summer season the blood gets over heated, the drain on the system is severe and the appetite is often lost. Burdock Blood Bitters purifies and invigorates the blood, tones up the system, and restores lost appetite.

STRENGTHENS THE STATE.

Life Insurance is for the protection of those dependent on a man's life; their dependence makes it an unavoidable duty. Those dependent we assume to protect by our contract, at his personal cost; our duty to them is to make that contract as large, as secure, and as certainly available to them as possible; thus every Policy written conserves the interest of the State. A man with a Life Insurance Policy is apt to be a good citizen. Anarchists have no use for Life Insurance, and the state has no use for anarchists. The State should encourage every citizen to carry insurance. This Strengthens the State, abolishes alms-houses, and creates property that can be taxed. Further, the income from Your labour ends with Your life. The cost of living to the family continues. Take measures to have the income continue also. **The Life Insurance Policy Does It.**

The most enterprising and progressive of all the Canadian Life Offices to-day is the **Sun Life of Canada.** Ten years ago the Company had Life Assurance in force to the extent of $16,759,355,92. On the 31st of December last, this amount had been increased to $57,980,634.68. The increase, therefore, of Life Assurance in force during the last ten years amounted to the tremendous sum of **$41,221,278.76.**

DOCTORS' OPINIONS.

Continued from 1st page.

themselves without reservation to the opinion that their patient was out of danger, and that only the possibility of complications threatened his life. They did not give assurance of his recovery collectively over their signatures in an official bulletin. That was more than could be asked in reason—scientific men, no matter how strong their convictions might be, could not be expected to assume the grave responsibility of officially proclaiming the certainty of the recovery of a man lying on a bed of pain with a bullet hole in his stomach. But they went a longway toward it individually, and separately, during the day, each of them, with the exception of Dr. Rixey, who did not leave the Milburn residence, placed himself squarely on record, not privately to the friends of the President, but publicly through the agency of the press, that the danger point had passed and that the President would survive the attempt upon his life.

"Of course we will all feel easier when a week has passed," said Dr. McBurney, the dean of the corps. "We would like to see every door locked and double-locked, but the danger from possible complications is very remote."

As an evidence of the supreme faith he holds, Dr. McBurney after the morning consultation made a trip to Niagara Falls and last evening returned to New York. He could reach here again in 10 hours if the unexpected should happen and there should be a change for the worse.

The little piece of lead in the muscles of the back is giving the physicians no concern whatever. Unless it should prove troublesome to the President later on, he probably will carry this grim souvenir of the Anarchist with him to the end of his days. The doctors say that once encysted it can do no harm.

The Vice-President, members of the Cabinet, Senator Hanna and the other distinguished friends of the President, who have remained here to await the issue, accepted the verdict of the physicians yesterday as practically conclusive, and there was an exodus of those who considered their presence no longer necessary.

Vice-President Roosevelt left the city last night at 9.20 for Oyster Bay, perfectly confident that the President will recover. Senator Hanna has returned to Cleveland.

The President's physicians have been impressed with his remarkable recuperative powers and the rapidity of his improvement. Monday he took the precaution to ask if he might be permitted to move, but yesterday he changed his position of his own volition without difficulty. The nurses naturally observed with care these evidences of growing strength and courage and were ready to see there was no undue tax on the President's strength, or the straining of the wound. These slight movements from side to side are all that he has attempted thus far, and it is too early yet to think of his sitting up in bed or any other marked use of his muscles.

EMMA GOLDMAN ARRESTED.

She is Charged With Conspiracy to Assassinate President McKinley.

Chicago, Sept. 11.—Captain Colleran, chief of detectives, has sworn out a warrant, charging Emma Goldman with conspiracy to assassinate President McKinley. Miss Goldman, who was arrested yesterday, is being held at the Central Police Station in this city.

Miss Goldman's manner was defiant as she was led into the office of Chief

LEON CZOLGOSZ.

of Police O'Neil, but she disclaimed all knowledge of Czolgosz and his crime, admitting only that she met him here July 13.

"Do you know that your words are what Czolgosz claims stirred him to shoot the President?" she was asked.

"I do not. I never advocated violence. I scarcely knew the man. I was leaving for Rochester via Buffalo when Czolgosz had a few words with me. He said he had heard me lecture at some memorial hall in Cleveland last May and that he wanted to know me. He said he knew I was in Chicago and looked me up. I scarcely remember anything about him, save that his complexion was light."

The warrant of arrest gives as her conspirators Abraham Isaaks, Maurice Isaaks, Clemence Pfeutzer, Hippilite Naval, Henry Travaglio, Alfred Schneider, Julia Mechamo, Marie Isaaks and Marcisa Isaaks, jr. All but Miss Goldman were arrested some days ago. The women were allowed to go, but the men were held without bail, and are now in jail. It is the opinion of several lawyers that Miss Goldman cannot be extradited for trial in New York unless she and Czolgosz are charged with an offence under the Federal statute.

Ex-Chief Hazen's Opinion.

New York, Sept. 11.—Service Chief William P. Hazen, in giving his opinion of the nefarious plot which ended in an attempt on the President's life, said:

"I am sure from what I know of Anarchists that the plot to assassinate President McKinley really originated in Europe, but that all of the details were worked out here, the meeting in Paterson of three years ago being the starting point.

"Personally I do not believe that Emma Goldman is in any way connected with the crime of Czolgosz. I think he has mentioned her name to throw the authorities off the track.

"My experience with Emma Goldman taught me that she was only a great talker, but that she was never directly concerned in any assassination plots."

With Canadian Coal.

Halifax, Sept. 11.—It is reported in Sydney that the British war ships on this station will in future use Cape Breton coal. The torpedo boat destroyer Quail and the cruiser Indefatigable are now bunkering at Sydney for the first time.

Munn Opposes Brown.

Vancouver, Sept. 11.—D. J. Munn, Liberal, was nominated last night in Westminster to oppose Hon. J. C. Brown in that riding.

ON THE FARM.

There's many a successful business man who sits in his city office and lets his mind slip back to his boyhood days on the farm. How good it felt to live! What an appetite he had! How good everything tasted! How sound his sleep was! How eagerly he rose with the sun and raced with him through the long day. And now he's a successful man. But he can't sleep. He doesn't enjoy his food. His stomach is weak, his nerves are shaken, and he no more rises with the sun to race eagerly against him. His vitality is low and now and again his heart seems to plunge in his breast as if it would break loose. That's the price he has paid for success.

The mischief of the whole business is that he buys "tablets" of one sort or another to "aid" his digestion, and indulges in bromides and other nerve stimulants, just to hold himself together, and wonders why he seems to be getting worse.

The whole trouble with such a man generally lies in what is called a "weak" stomach. The food he eats does not nourish him because it is only partially digested and assimilated. No man can be stronger than his stomach, because it is in the stomach and allied organs of digestion and nutrition that strength is made from the food which is eaten.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores the strength of the body in the only way strength can be restored, by food which is perfectly digested and assimilated, when the diseased stomach (with its allied organs) is cured of disease. It is a blood-making, body-building medicine, inasmuch as blood is made from food and the body is built up by blood. It is not a stimulant, containing neither alcohol or any other narcotic.

NO OTHER DOCTOR FOR ME.

"Last spring, early, I wrote you my feelings and condition," says Mr. A. J. Vanderwater, 873 West Division Street, Chicago, Ill., "and you advised me to take Dr. Pierce's Golden Medical Discovery (a few bottles), and then write you how I felt. I am happy to say I am getting to feel fine. In all I have taken six bottles of the 'Discovery' and four or five vials of the little 'Pellets.' They have done me worlds of good. All my friends say: 'Vanderwater, how well you are looking. What in the world have you been doing?' I tell them I have been doctoring with Dr. R. V. Pierce, of Buffalo, N. Y. 'Why,' they say, 'you haven't been there?' No, I say, but I took his 'Golden Medical Discovery' and his little 'Pellets.' These medicines have wrought the great change in me. From a slow mope of a man that could hardly crawl, tired and sick all the time, and could do no work; to a man who can work, sleep, eat, and feel fine, and that tired feeling is all going away. I am very thankful that I wrote to Dr. Pierce. His 'Golden Medical Discovery' and his little liver 'Pellets' have almost made a new man of me. I feel young as I did at thirty years. No other doctor for me, only Dr. Pierce."

HAD GIVEN UP HOPE.

"I will express my thanks to you for the kindly advice you have given me in regard to my case," writes Miss Carrie J. Wharton, of Dunavant, Spottsylvania Co., Virginia. "When I wrote to you last spring I was in a terrible state of health. Had given up all hope of ever being better. I spit up my food all the time and it seemed sour as vinegar. I would have a bad sick headache every other week; in fact, my head never felt clear, and I was perfectly broken down under the strain of losing my food constantly. I had read a great deal in your books of what your medicine had done for others, so I wrote you and got your advice. Bought two bottles of 'Golden Medical Discovery' and the first dose I took I felt better. When I had finished taking the two bottles the spitting up had entirely stopped and my head was much better. I believe your medicines are just what you have said of them.

"I carefully read the books you sent me and shall always speak a good word for the 'Golden Medical Discovery' whenever I have a chance.

"You can publish this if you think it worth while. It might induce some one else to try your medicine who was suffering as I did. It was by the testimonials of others that I was induced to try it. I shall always rely upon your advice and feel safe to do as you tell me."

Dr. Pierce's Pleasant Pellets cure constipation, its causes and consequences.

DR. KRAUSE'S TREASON

An Investigation Begun in London and Another Remand.

BIG BAG OF BOERS LAST WEEK.

Lord Kitchener Reports 67 Killed, 67 Wounded, 384 Prisoners and 173 Surrenders, a Total of 681—Great Quantity of Ammunition Taken and Large Numbers of Horses and Cattle.

London, Sept. 11.—Dr. Krause, former Governor of Johannesburg, who was arrested last week and was arraigned in the Bow street Police Court, and remanded, on a charge of treason, was brought up again in the Bow street Court yesterday. Dr. Krause was informed that a warrant, charging him with incitement to murder was issued in the Transvaal.

Sir George Lewis, on behalf of the prisoner, said it seemed strange since Dr. Krause had been in England 14 months as a paroled prisoner of war, warrants should be issued in the Transvaal because of acts committed in England, and he asked how could a gentleman, not an English subject, be charged with high treason.

The case was adjourned to await the arrival of papers from the Transvaal.

A Successful Week.

London, Sept. 11.—The following despatch has been received from Lord Kitchener, dated Pretoria, yesterday:

"Since Sept. 2 the columns have again got good results, the total bag being 681, composed of 67 killed, 67 wounded, 384 made prisoners, and 163 surrendered; also 179 rifles, 65,211 rounds of ammunition, 3,400 horses, and 19,000 head of cattle."

Lord Kitchener further says that the situation in Cape Colony is unchanged, excepting the capture of Lotter's commando reported last week.

BASEBALL ON TUESDAY.

The Eastern League.

											R.	H.	E.
Montreal	0	0	0	2	0	0	0	0	0	0	2	7	1
Toronto	0	2	0	0	5	0	1	0	0	8	8	11	0

Two-base hits—Bonner, Bemis, Williams, Bannon. Three-base hit—Bonner. Home runs—Bemis 2. Sacrifice hit—Schaub. Safe hunt—Hargrove. Bases on balls—Off Williams 2 (Sheehan, Quinlan). Struck out—By Williams 4 (Felix 3, Odwell), by Felix 1 (Bonner). Stolen bases—Quinlan. Double play—Bannon to Bonner, Odwell to Raub. Team batting average—Toronto .462, Montreal .161. Left on bases—Toronto 8, Montreal 6. Time—1.30. Attendance —000. Umpire—Kelly.
